CITY CONSIDERS PAVING PROTESTS

Council Decides to Fix Width of Pearl Street at Forty Instead of Thirty Feet.

Protestors Finding They Were Mistaken in Fourth Street Plans. Went Away Satisfied.

After considering several paving protests made Tuesday night and previous meetings, the city council decided to reduce the width of paving on Pearl street between Third and Fourth streets to forty feet.

The protesters in Fourth Street were mistaken in their protest. They had arranged with the contractor if these seemed advisable in the course of construction.

Protestors on Fourth Street were present. Rev. R. H. Pratt, speaking for them, said they had understood the paving there was to be fifty-four feet.

They asked to have this reduced to thirty feet because they wanted to save their trees and because they thought Fourth was no more a business street.

3 Million Dollars But— It bought MUSIC

No finer example of courage is known to the world of science than Thomas A. Edison's work in perfecting the phonograph. The skeptics rose in full chorus when he proposed a better phonograph—an instrument that could produce music as human as the artist who first gave it utterance.

Mr. Edison's experiments exhausted the entire field of research in sound reproduction. He built and rebuilt—until his final perfected model cost him Three Million Dollars.

AND THE RESULT?

Ask some one who attended the Alice Verlet recital October 10—There was the public proof. Alice Verlet sang in comparison with the RE-CREATION of her voice by the New Edison. And no one could distinguish the living voice from its RE-CREATION.

The NEW EDISON

"The Phonograph with a Soul"

If you love music you will agree with October 10th's enthusiastic audience.—The New Edison represents Three Million Dollars well spent.

The soul of song is cheap at any price. Yet it is now brought within reach of your pocketbook. The instrument used with October 10th's conclusive test is a duplicate of Mr. Edison's Three Million Dollar Model. It sells for \$285.

"FATTY"

No! The Banker Wouldn't Quit!

When the sawmills moved out of a certain Northern woods town it looked like the finish of business there for everyone—farmers, merchants, banker. But the banker refused to quit. "If I can make dairying and poultry-keeping profitable my bank will make money," said he. The story of his efforts and the money-making prosperity that has come to his community is told in the current issue of

The COUNTRY GENTLEMAN

This bank aims to extend the same sort of service to this community. We should like to know every farmer hereabouts—to help every farmer make money. Come to us with your problems and let us see if together we cannot boost your bank account. As a step towards that prosperity, we urge you to read each week THE COUNTRY GENTLEMAN. What ever line of farming you are following—livestock, dairying, poultry, grain, fruit, truck, corn, bees—there is something for each week in the many-pages of the Great National Farm Weekly. If you authorize us, we shall be glad to charge your account \$1.00 for a year's subscription. Or, better still, come in; let's talk it over personally and get acquainted.

THE WAYNE TOURNAMENT

Its Success Prompted Decision to Have an Annual Event.

The chess tournament, mention of which was made last week, was finished Friday evening and was pronounced a success by all who participated and will be made an annual event. Fourteen players took part, each playing one game with each of the other thirteen, making a total of 182 games. Of these less than a dozen were forfeit. The scores resulted: Cooper Ellis first, 12 to 1; Rev. R. H. Pratt second, 11 to 2; Forrest L. Hughes third, 9 to 3; Art Noyes fourth, 9 to 4; Rev. J. G. McNamara, Bloomfield, fifth, 7 to 5; W. R. Ellis sixth, 7 to 6; Dr. A. R. Scuttell, Bloomfield, seventh, 6 to 2; Dean Hahn eighth, 6 to 8, and the remaining five occupying the foot of the ladder. The rapid fire tournament held Thursday night was also a success. Cooper Ellis who again gave an exhibition of blindfold play and won his game. The visiting players were much pleased with the treatment accorded them by the Wayne club and expressed a desire that the next tournament be also held here.

Mary Pickford Tonight.

Rather than see his sweetheart's mother murdered, Jason Honeycutt shoots his own father in "Heart O' the Hills," adapted from the story by John Fox, jr., starring Mary Pickford and which will be shown at the Crystal Theatre, commencing tonight.

The marriage of the Widow Hawn to Steve Honeycutt was bitterly opposed by the children who knew that the older Honeycutt's one plea was nothing more than trickery to enable him to marry the widow in order to get control of her valuable Kentucky mountain home.

This production is Miss Pickford's latest from her own studios of which her mother is the business manager. She has accomplished the unique feat of mixing heart throbs with chuckles in a most delightful manner in this attraction and the management of the Crystal theatre, predicts that "Heart O' the Hills" will be one of the most pleasing of Mary Pickford's long list of international successes.

Old Trusty Incubators

The brood chamber of this machine is made of California red wood, covered with asbestos to prevent the escape of heat and over all is a casing of galvanized sheet iron.

The heating system is hot water conducted through pure copper tubes. Copper is used because it does not rust out. Hot water maintains a more uniform temperature than any other known system—a highly desirable feature in any incubator.

Unlike most everything else, the prices of OLD TRUSTY INCUBATORS are practically the same as a year ago.

- 100 to 120 egg incubator with tools, cash.....\$14.00
- 150 to 175 egg incubator with tools, cash.....18.00
- 200 to 240 egg incubator with tools, cash.....22.85
- 100 chick brooder with tools, cash.....\$11.25
- 150 chick brooder with tools, cash.....\$12.75
- 200 chick brooder with tools, cash.....\$14.25

Charges prices on request. When ordering incubator and brooder together, a discount will be made from the above prices.

People Themselves to Blame

Washington Post: The truth frequently is unpleasant, but any student of economic conditions must be forced to the conclusion that the people themselves are largely responsible for the prevailing high prices. Reckless extravagance abounds on every hand. People of wealth are spending fortunes in nonessentials, and laboring men and women, in receipt of higher pay than they ever before enjoyed, have moved their scale of living up to levels where the things which before the war were regarded as luxuries are now deemed necessities. Merchants are able to get any price they demand. There is no restraint observed by the majority of the people in the purchase of necessities or luxuries. The fault is not with the American dollar; it is with the people themselves. And when the people finally come to their senses and exercise reasonable prudence in their everyday affairs, the dollar will command the same respect it always has had.

Mr. Richards Is Unsparring

Alexandra S. D., Herald: Evidence—Mr. Richards takes his side, may election law in dead earnest.

for he has issued a challenge to Lieut. Gov. McMaster, the republican majority choice for governor, to meet him in debate. It was hoped by many optimistic politicians that Mr. Richards would allow the "challenge to debate" clause in his primary to go by default. But it seems that the worst is yet to come, and every provision of that primary law will be carried out to the letter, word and sentence.

The Radical's Oversight

The Review (New York): To the radical intelligentsia, as well as to the ordinary communist agitator, the world appears to consist entirely of millionaires and proletariat; but when things begin to look really serious, the great body that lies between these extremes will make itself known plainly enough.

The Railroads

Dr. Frank Crane: The railroads mean more than railroads. They mean prosperity of the whole nation. The railroad is every man's partner, the silent partner in every grocery, factory, and farm in the world. We cannot afford to have them bungled.

AGRICULTURAL NOTES.

Grain Violations Punished.

The presence of treads in the Grain Standards Act which governs interstate traffic in grains for which official standards have been fixed was proved recently in Kansas City when the first convictions for violation of the statute were recorded. The criminal informations were filed under section 4 of the act, which provides that grain which is sold by grade shall not be shipped from one state to another, except between noninspection points, unless it has been inspected by a licensed inspector in accordance with the law to determine the grade of the grain. The defendant pleaded guilty.

The Bureau of Markets, United States Department of Agriculture, which administers the Grain Standards Act, has been conducting educational work to acquaint producers and handlers of grain with the federal requirements and hopes that what has been accomplished in this field will have the result of keeping violations at a minimum.

Hunters Using Airplane Arrested.

The first arrest under the migratory bird treaty act for hunting wild fowl from an airplane was made in Missouri recently when the long arm of the law reached into the air and seized two men for hunting and killing wild geese from an air craft. The arrest was made by a warden of the Biological Survey, United States Department of Agriculture, which administers the migratory bird treaty act. Following their arrest the hunters made the trip to the office of the United States' commissioner of game at Joplin, Mo., in their plane. They had previously boasted of their ability while flying to herd geese more effectively than sportsmen on the ground can possibly do. Hunting of the sort in which they engaged is specifically forbidden by the federal law and the regulations thereunder. Several states have passed laws forbidding hunting from airplanes among them being California, Michigan, New Jersey, North Carolina and South Carolina. There is considerable sentiment in sporting circles against the practice, on the ground that it is unsportsmanlike.

Cheaper Diet Increased Beef Profits.

Less gains in weight, but greater profits, resulted from feeding a herd of cattle in a velvet bean field, compared with another herd fed in a similar field for only a short time and then given more costly feed, including sorghum silage, and cottonseed meal. These two feeding tests were conducted on private farms in Florida in cooperation with the Bureau of Animal Industry, United States Department of Agriculture.

In one case 220 native steers, 3 to 5 years old and averaging 382 pounds per head, were turned into an 8-acre field of velvet beans early in November. After 28 days the animals averaged 390 pounds and the feed was changed to sorghum silage, velvet beans in pod, and cottonseed meal. On the 56th day the weight was 589 pounds. On the 84th day when the test ended it was 644 pounds. The average daily gain per head was approximately three-fourths of a pound. The ration was not the typical fattening ration used heretofore but was one used to secure a comparable degree of finish. Had grain been fed in addition the gain would have been secured. There would have been a profit of \$402 per head.

In the second experiment 116 native steers similar to the first herd were pastured on an 85-acre field of velvet beans for 72 days, beginning at about the same time of year. They lost considerable weight for a part of the second month, but there was a daily average gain for the whole period of a little more than one-fourth pound per steer. The pasture charge in this case was \$9 per acre and the profit \$635 per head. The margin was \$7, as in the other case.

"Heart O' the Hills"

Honorably discharging the girl culprit and declaring that the jury must be tried, Judge Mackenzie of Kentucky, adds a few pointers to the law books in "Heart O' the Hills," adapted from the story by John Fox, Jr., Mary Pickford's latest picture from her studios which will be seen starting tonight at the Crystal theatre.

As Mary Hawn, Miss Pickford, is on trial for murder in the first degree charged with killing Norton Sanders, a promoter. The prosecuting attorney has apparently proved that Mary was the night rider who fired the fatal shot when the foreman of the jury arises from his seat of honor and states: "Judge, I don't like to disorganize the prosecutor, but I fired that shot, myself."

The trial, naturally ends in hilarity and this is just one of the many humorous incidents in the latest production of America's sweethearts.

SERVICE PLUS ECONOMY

THE arrangement of the filling station insures comfort while you are having your car filled. You drive up on a concrete driveway, out of the mud, and stop under a canopy which protects you from rain or snow.

The equipment, including a visible gasoline pump, makes possible quick and accurate service, and satisfaction for the customer. You receive prompt attention so that you waste no precious minutes waiting.

The quality of products, sold at right prices, are the best economy you can practice. When you buy gasoline and oil that will consistently render satisfactory service, you are protecting your car from wear. Quality is true economy.

Poland China Bred SOW SALE

To be held at the F. L. Gibson Barn, Emerson, Neb.

Monday, February 2

FIFTY-SIX HEAD

of Big Type Poland China Sows and Gilts of the most popular families in the country.

Everything cholera immune, and guaranteed breeders. The offering is bred to three great boars. Another Rainbow, by the Yankee, one of the greatest breeding boars in the world. Another Rainbow is a full brother to the great Dowling boar that sired the winning pig at the Iowa Fair. A boar you will like and want a litter from when you see him. One-half the offering is bred to him. Giant Buster, Jr., by Giant Buster, the boar that has improved the hogs of the East. Wonderful Big Bone by Long Big Bone, the World's Champion in 1916.

The sows are sired by Big Bob, Big Timm, Mowms Smooth Junbo, Gerstdale Jones, Mabels Junbo \$15,000 boar, and Wonder Buster, that sold this fall for \$10,000. The gilts are uniform and growthy and are mostly sired by Major Price, a boar that would have been heard from if he had not have gotten hurt. I don't claim they are the greatest sows in Nebraska, but I do claim they are a useful and well bred bunch that mated with these boars will be a valuable asset to your already good herd. The entire offering is insured against death from any kind until after farrowing. If you lose them in transportation you are not a financial loser.

If you cannot attend in person, the fieldman, John Halsey of The Farmers Breeder, Wm. Shannah of the Drovers Journal, R. J. Taylor of The Emerson Enterprise, or George McEachen of Wayne, will handle your bids.

The Deering and P & O Have Been Added to Our Lines for 1920

The Most Reliable Harvesting and Haying Machines

The Most Efficient Tractors and Power Machines

The Most Popular Plows and Tillage Implements

YOU know these trade names. Your father and grandfather knew three of them. They knew in their time, and you know today that these names stand for the highest quality farm machinery in the world. McCormick built the first practical reaper. Deering sold the first twin binder and was a good-time pioneer, and William Parlin was one of the first steel plow pioneers. The lines of harvesting machines and plows started by these farm ma-

chine outlethers have been growing and developing ever since. Other machines have been invented and developed by the same manufacturers, and every new machine and implement has had built into it the years of manufacturing experience and farm knowledge accumulated by McCormick, Deering, Parlin and their successors. Now all of these machines and implements have been merged into one line—the International Harvester. The reputation of every machine and implement in this line is the same.

We Sell the International Line

WHAT DOES THIS MEAN TO YOU AS A FARMER? It means, first of all, that you can buy any farm machine or implement you may need, right here in this town, without taking chances on EXPERIMENTS or implements that might be "roughened" one or two years after you buy them because of the manufacturer going out of business. You can always get repairs for any machine or implement in the International line because the Harvester Company will never go out of business. You are assured of reliable machines because every machine in the Harvester line is tried out and tested under actual farm conditions, before being offered for sale to farmers. The Experimental Department of the Harvester Company is the most thorough and active institution of its kind.

It means, second, that you can get repairs and repair service on all of these machines through one concern—us. You don't have to go to the bother and inconvenience of trying to get repairs and service from half a dozen or more different companies. You won't be taking chances on expensive delays waiting for repairs, during the busy seasons because we are going to carry a big stock of repairs on hand and any repairs that we might not have we can get for you in a hurry by a phone call to the International Harvester branch house.

Tack this advertisement up in your machine shed so that whenever you need repairs for any of your International machines you will know where to go. Also, you will know where to go when you are in the market for new machines or implements of real quality and the highest operating efficiency.

CHANGING THE CURRENT

The Process of Changing From Direct to Alternating.

Progress in changing from direct electric current to alternating has been delayed by failure to arrive at some equipment for the light plant. The change has been made on only a few streets.

When the work is completed, the alternating current will be 110 volts, except for power, when 220 volts will be used. The direct current is 220 volts. However, in order not to deprive consumers of electricity until new meters can be installed, the superintendent of the plant, H. A. Moler, is arranging to let persons use 220 volts on the alternating current temporarily. The consumers can thus use their old light bulbs, but irons, cooking appliances and washing machines cannot be used. As soon as the voltage of the alternating current is reduced to 110, new meters have to be installed and all bulbs, motors and cooking appliances have to be changed.

The reason for introducing alternating current, when it involves the expense and confusion of so many changes, is that it produces better service at less expense to the city.

Under the direct current system, the pressure is supposed to be the same on the main and service wires. However, much of this is lost, resulting in dimmer lights, and more expense to the city. To get satisfactory service, it is necessary to use 220 volts.

With alternating current, the voltage on the main wires is 220. This is reduced by transformers to 110 volts on the service wires. Loss on the line is negligible, which means a saving to the city and better service for the consumer. Alternating current is no more expensive to use than direct, according to Mr. Moler.

FOR WAYNE COUNTY FAIR

Representation Gained on State Board of Agriculture.

Wayne county gained representation on the state board of agriculture and membership in the state association of fairs, at a meeting of organized agriculture of Nebraska in Lincoln last week. V. L. Dayton represented the local fair association.

Any county which has a fair may be a member of these organizations. Seventy counties have fairs and are members of the state board of agriculture.

Only fifty-four of these had representatives in Lincoln. Membership in the state association of fairs, which is part of a national organization, protects the fairs on their attractions. Fairs which get concessions have to furnish attractions according to their advertisements or they are barred from showing at other fairs.

SUPERINTENDENTS MEET

Question of Redistricting Occupied Chief Attention.

Miss Pearl Sewell returned Friday from a meeting of county superintendents of Nebraska, held in Lincoln, Wednesday and Thursday of last week. She said the problems relating to redistricting were the subjects of most of the speeches. As this matter has met with opposition in some parts of the state, the county superintendents decided the only way to handle it was to let people understand that redistricting was not required. If a sufficient number of persons in a section want to redistrict, they may do so; otherwise the present districts will be retained.

John Matzen has been appointed state superintendent to succeed the late W. H. Clemmons. Mr. Matzen has been superintendent in Dodge county fourteen years.

The State Normal has been treating the community to a "Goodies" week—giving a series of week-chop-and-pleasant-entertaining. The community should appreciate in good feeling all the time and in other ways when opportunities are presented.

The correspondence relative to freight rates, published in today's Herald, suggests the advisability of trying to secure more advantages to Wayne in its paving enterprise. No doubt the contractor would concede to this city any reduction that might be secured through its efforts in the way of freight rates on paving materials. The possibility would seem worth considering.

Herbert Hoover who has made a careful study of Europe counsels the nations of that continent to quit, stop and go to work. The advice has been accepted by European leaders as sound and sensible. The prospect of wage-would-be-increases is not a pleasant prospect. The fall of much pay and little labor has been worked to the limit and is causing universal scarcity and hardship.

Inconsistency has grown with the freer—arrest—and—arrested—people used to try to be consistent. Now they don't try, and the ordinarily consistent people often get their wives crossed and could not explain themselves satisfactorily if asked to do so. Wouldn't it be well to give actions and words the careful scrutiny of sides and get back to harmonious habits that will stand analysis and inspire confidence?

The combined wisdom of either party in the making of a platform of principles should be greater than that of any one man. While we appreciate the capacity of Herbert Hoover for constructive-public service, we don't relish the suggestion that he will frame a platform that may be consent to become the presidential nominee of the party which adopts it. It would seem that Hoover should go to the party which most nearly represents his ideas, and then contribute to its platform and become its leader if mutually agreeable.

Last year showed a largely increased number of suicides attributed to conditions following the war. The record shows 5,121 cases in the United States during the year. Of the professions, lawyers led the list. Then came physicians, teachers and clergymen. No editors appeared in the list. Editors suffer trials and tribulations so uniformly that they don't know when conditions must warrant suicide. Harshness is done out so evenly that an editor doesn't know when the occasion justifies him in getting off the earth, and so he just sticks.

We believe the greatest statesmanship employed on behalf of a self-governed and liberty-guaranteed democracy, avoids the extreme of radicalism on the one hand and the extreme of ultra conservatism on the other. Freedom that is true in fact as well as name, protects the great masses against the impositions of either—neither labor organizations or arrogant capital. Liberty doesn't mean license to violate the social order by any class for the benefit of that class to the injury of other people. The middle course, observing the rights of all and doing justice to all, is sound and constructive.

things that make for good English seem to be neglected, and as a consequence sentences often reflect glaring inaccuracies. While the substance is of supreme importance, it loses much of its force and effectiveness if it suffers a tangle of misspelled words, incomplete sentences, misplaced capitals and broken paragraphs. No matter how smart one may be, he suffers disadvantage not to be able to spell correctly or express himself clearly. Schools should bear this fact in mind and stress it in their work.

Bargains in Winter Goods

Second Week

A GLANCE at this ad will give you a fair idea of how cheap we are selling out the winter stock. A visit to the store will show you much better just what savings are here for you.

Many of the lots offered last week are entirely sold. We have put low enough prices on these goods to make it worth your while to buy them and the ready sale of last week's offerings shows it.

We need the room and money these goods represent in order to get our stocks ready for spring.

Plush Coats at \$28.50
 Fourteen Silk Plush Coats left—\$28.50 buys a good one. We guarantee them just as fully as if you paid \$40.00 to \$50.00.

Dress Skirts at \$7.90 to \$11.75
 The Skirts are mostly large sizes, 30 to 36 waist. Fine Silk Poplins and Serges. On sale now at \$7.90 to \$11.75. Our newest and best styles, too.

What \$1.50 Will Buy
 At \$1.50 take your choice of 75 house dresses, children's dresses, flannellette kimonos and all-over aprons. These are \$3.00 to \$7.50 garments, but they are mussed and soiled somewhat and we are willing to take a good loss on them. They will all launder. See them in a rack in the coat department.

Ladies' Rain Coats \$5.00
 50 good raincoats for ladies are on special sale at \$5.00. Most any kind of a raincoat is now worth \$8.00 to \$10.00. We carried these over and can give you this special price. The best colors—navy, brown, tan, and grey—all sizes—and good styles. Also some little girls' rain coats and coats at \$2.00.

Ladies' Shoes
 The \$3.50 shoe counter has been well patronized since we advertised these bargains last week. The toes of these shoes are not up to date, but many of them are very good-looking, and the quality is in them.
 They will wear and save a \$10.00 pair of shoes many times. If you have girls who can wear sizes 2 1/2, 3, or 3 1/2, there is an especially big assortment to choose from. Many military heels.

Furs—Ladies' and Children's
 All the furs except 3 nice black animal scarfs and 4 children's muff and scarf sets. These are new furs and the prices have been cut to the limit to close them out.

Closed Out
 The cotton plaid dress goods and fleeced percales advertised at 25c per yard are all closed out.

Sold Out
 The silk and wool remnants have all been sold.

Outing Flannel and Sheeting
 The outing flannels at 25c and 2 1/4 yard wide sheeting at 75c are still on sale, but will not last a great while. Regular sheets are worth \$3.00 each now. A sheet hemmed by yourself of this sheeting on sale will cost you \$1.88—a well-worth-while saving.

Bargain Hosiery 25c
 When invoicing the hose we found about 30 odd boxes of Ladies' and Children's Hose in cotton fleeced and wool we had but one size of a style. We gathered them all on a table and marked them 25c pair for choice. They are equally as good as any 50c to 75c hose sold today. If you can use the sizes and quality shown on this special table you can get some dandy bargains.

Boys' and Girls' Sweaters
 Boys' and Girls' Bradley Sweaters at \$2.75 and \$4.25 are among the very best bargains. Just ten- and twelve-year sizes left. Spring school wear will demand sweaters. Buy them now at a saving of \$1.25 to \$2.25.

Blankets
 The blankets are nearly all sold. About 15 pairs of the big ones left and about 40 pairs of the smaller sizes. These smaller sizes are a snap for anyone with 3-4 or children's size beds to fit out. Sewed together and filled with cotton they would make splendid comforts. Priced 90c to \$1.95.

New Spring Gingham
 Some of the new gingham, spring wash goods and tissues are here and bills received show that others are on the way. Fortunately we contracted for these goods last June. They would cost us now about what we have marked them to sell to you. All your spring sewing needs are to be found here in best quality and at reasonable prices.

New Spring Coats and Suits
 If some special occasion demands the purchase of a new spring coat or suit or silk dress at this time let us know and we will show you through our stock rooms on the second floor where hundreds of new garments have already been received for our spring sales.

Apples
 The most economical apple to buy for every family use at this time of year is a sound, solid Black Twig or Winesap. There is no waste to them—every apple in the barrel is a good one and this the time of a year when they have just become mellow and ripe enough for the very best eating and cooking. Baked they are the most delicious tasting apples we can get at any price. We bought this car of apples last fall at a good price and have had them stored in a good basement at just the right temperature to prevent both frost and spoiling. They will keep in any good cellar for two months yet. The price is lower than any good sound apples which are now on the market. \$3.50 per bushel of 48 pounds; \$10.50 per 3-bushel barrel.

The Bandeau
 Essential to Good Dressing

Well-groomed women are coming to regard the bandeau-brassiere more and more as an essential to a trim, fashionable appearance.

This popular style of the "bandotex," a light open-mesh material. It is a Warner's Bandeau-Brassiere and has an elastic insert in the back and dainty-shoulder straps of tape. The string-and-hook front or back. Sizes 32 to 48. In pink or white. Hook-back, style 182; hook-front, style 193.

LINCOLN MAN

IS DELIGHTED

Engineer Had Rheumatism So Bad He Could Hardly Raise Hand To His Head.

I am in better condition today than I have been in several years and all because of the Tania has done for me," said B. F. Cummins, a railroad engineer living at 1038 R street, Lincoln, Neb.

For a long time he continued "I had suffered terribly from rheumatism, and although I tried many medicines and medicines that were recommended for my trouble I could get only a little temporary relief. I suffered mainly with my arms, and the pain was so great that I had become nervous and restless. I couldn't raise my hands to my head without suffering agony, and while aiming my engine I would be in constant misery, so you can imagine the strain I was under, suffering like I was with the responsibility of handling my engine and pulling the train through on time.

I had tried so many things, but when it looked like I would never get rid of my trouble. Then Tania came along and it just filled me with joy. It is highly recommended that I decided to try it and to say I am delighted with the result is putting it mildly. It was not long after I began taking Tania that I began to improve and I have been getting better right along ever since. Why, already I feel like a different man, and cheerfully recommend Tania to anybody who may be suffering like I was before I started taking it.

Tania is sold in Wayne by Wayne Drug Co., and in Carroll by L. R. King—Adv.

CULLED FROM EXCHANGES

Land Values in Knox County—Bloomfield Bank to Build.

The United States railroad administration, according to the Bloomfield Journal, estimated the real value of Knox County land to be \$223 for the average. Valuation by townships varied from \$34 to \$156. How does this compare with the selling price of land in this vicinity during the past year? The Citizens State Bank of Bloomfield is planning to erect a new building on the present site during the coming season as the present quarters are inadequate. Besides this other business buildings are being erected in a number of new residences. The Bloomfield Journal says, "Bloomfield is about to enter on a building boom, and will in a few weeks set up and take notice."

A report from the Bureau of War Risk Insurance shows that the average age of the Americans killed in the late war was 23, more than 47 per cent of the men who carried government insurance contracts were mothers as beneficiaries, and that more than half of the demobilized men did not return to their pre-war addresses, and a large number of those from the farm have gone to the city to reside.

Laurel is planning to build a park between the Burlington tracks and Coburn's garage. The railroad has offered to lease part of their right of way to the city for a park. This will be filled in a most attractive by the designs of a landscape gardener.

The Randolph high school was examined by the state inspector and recommended to be placed on the list of the North Central Association of Colleges. This means that graduates from this school will be accepted in any college of university of the United States without examination.

Wausa's population is now 680 according to the report of the census enumerator. This has increased from 640 in 1910.

The semi-annual session of the Northeast Nebraska Editorial Association will be held at Norfolk Friday and Saturday, January 30 and 31. The print paper situation will be thoroughly discussed because of the fact that the price has advanced to four times the cost in 1915 and advertising rates are but little higher.

The Aurora Republican states that the citizens of Aurora are petitioning for more paving contracts for sixty-five blocks have been let and the petitioners ask for eighteen blocks more. These requests have been filed by the citizens themselves, a fact which shows the interest taken by the people in building in the town.

A tractor show was conducted at the theater in Wausa last week for the benefit of the farmers of the community. Large numbers of motion pictures were used in the explanation of the tractor.

The Wausa Gazette states that the cover of Wausa is making plans for building a community hospital. Subscriptions will be donated and the institution made self supporting if possible.

Business Feverish.

Sioux City Journal: The tendency of business is to maintain the feverish condition which is often mistaken for normal and firm, but which is the result of panic disinvestment. As commodity markets are greater than recessions, the tendency is toward higher price levels in wholesale centers. Competitive bidding is a major factor in price fixing, as it has been for several weeks. Speculative purchases in anticipation of still higher levels have added their influence to the general upward trend of prices and will remain an influence until production reaches a point where the supply so overruns the demand that prices will decline because of availability.

The demoralized condition of exchange with the leading European nations has affected foreign exports, but despite this fact demands continue to increase. So long as they remain it will be impossible to supply the home demand, and with constant pressure that production high prices will be maintained. While production measured by dollars is greater than ever before in the history of the country, measured by units of commodities it is below the level of 1917, and instead of being a record breaker is hardly up to the standard.

Money continues abundant and interest rates, artificially fixed to prevent speculation, have no restraining influence on investment enterprises. Building plans are extensive and materials are commanding almost any price. The only restraining influence is the fact of reducing prices, but against it are acts which increase prices. Reduction is impossible while the struggle for supplies goes on. Last week was not different from previous weeks in this regard.

In Order. Washington Post: A compromise between democrats is now in order.

Markets, January 26, 1920.

Table with 2 columns: Commodity and Price. Includes Corn (\$1.26), Oats (.77), Hogs (54), Eggs (22), Chickens (96), Cocks (96).

With the exception of prices on eggs, cream and cocks, the market was higher this week than last. Hogs showed the greatest increase from \$13.65 to \$14.35.

Want Community House.

The first steps toward building a community house have been taken by the Young Men of the Methodist League. It is the intention of the service men to have it a community

affair, as a memorial to the Carroll soldier.

The matter was brought before a mass meeting Thursday night. The plan was heartily endorsed by all who spoke and public sentiment seems strongly in favor of such a building. It is to have an auditorium, skating rink, club rooms and rest-rooms. The building will be about 50x 120 feet.

J. J. Thielon, commander of the Omaha, an investigating committee. The other members are: Dr. A. Tesley, Alex. Laurie, Daniel Davis, W. W. Gawwood, Harry Evans, J. L. Davis, Elmer Jones and Frank Rees. Another mass meeting will be called as soon as the ban on public gatherings is lifted.

Stock Shipments.

Those who shipped stock to market this week were: J. H. Smith, one car of hogs to Omaha Monday; Jones & Davis, two cars of cattle to Omaha Monday; John Davis, one car of cattle to Omaha Tuesday; Kelly Morris, one car of cattle to Omaha Monday; George Edwards and Kelly Morris, one load of hogs to Omaha Monday.

Braner & Bickering shipped in 20 head of feeding cattle Wednesday of last week.

Influenza Ban Enforced.

On account of the prevalence of influenza, the Carroll school has been closed and no public gatherings are permitted. A number of students were out of school with severe colds and a few were suspected of having influenza. There are a few cases which have been pronounced influenza. In order to prevent the further spread of the disease, it was deemed wise to adopt quarantine measures similar to those used last year during the epidemic.

The most serious case is that of Ernest Beale, who now has pneumonia. He is recovering. Levi Roberts has influenza. C. E. Belford, who was sick last week, is able to be up. Mrs. Beale and her son, who also had influenza, are recovering. George Roe is sick, but is not sure whether he has influenza or grippe.

School Notes.

On account of influenza, the board of education decided to close the school Thursday evening for a week. The teachers went to their homes as follows: Miss Agnes Richardson to Bloomfield, Miss Alma Oste to Nehawka, Miss Bendz to Cresco, Miss Lottie Oster to Randolph, Miss Olive Hagar to Waverly, Mrs. Edna Bennett to Clara, Miss Pauline Earabee remained in Carroll.

The basketball team was defeated at Colerain Friday night. The town team also suffered defeat at the hands of the Colerain quintet.

The junior class is planning to give a play soon to raise funds for the junior-senior banquet.

Miss Alma Oste, who is sponsor for the class, will direct the play.

State Inspector Voss, who was at the Carroll school recently, said he would recommend that the local school be raised from C to B class.

He has his opinion on improvements in texts, equipment and teaching methods.

Baptist Church.

(Rev. S. E. Bishop, Pastor.) There will be no services Sunday unless the ban on public gatherings is lifted by that time, in which case services will be at the usual hours. None of the church organizations will meet this week.

Methodist Church.

(Rev. F. E. Sala, Pastor.) On account of the prevalence of influenza, no services were conducted Sunday and none will be held next Sunday unless conditions improve. All meetings of church societies have been called off for the present.

Lutheran Church.

(Rev. N. Sereres, Pastor.) Until the influenza quarantine is lifted, no services will be held at this church. In case gatherings are permitted by Sunday, services will be at the usual hours.

Bethany Presbyterian Church.

CHINA FROM LOCAL VIEW

Herald Gathers Facts About Orient From Miss Soderberg

What are the average person's ideas about China? Miss Grace Soderberg of near Wakefield, who recently returned after five years in central China, says that whatever those ideas may be they are probably erroneous. For example, she says she finds nearly everyone believing rice is practically the only product of the country, whereas in reality the soil is suited to almost any product and she thinks no country has more varied natural resources.

Agriculture is the principal industry of the country, and it is carried on intensively. She described the farms as hardly larger than American garden patches, few of them containing an acre of ground. The farmers live in villages and till the surrounding soil. They raise many crops, but that Miss Soderberg thought most interesting of foods than at home. When the foreigners in China want any food they enjoyed at home, they have only to send for it and the Chinese will cultivate the crop for them.

Miss Soderberg taught in a school for missionaries' children near Hankow, and she visited the Chicago of China. When she left on account of ill health, fifty-six children were enrolled and were taught by four instructors. Miss Soderberg taught in the upper grades and high school. She will return as soon as her health permits.

Although Miss Soderberg taught only the children of missionaries, she is familiar with educational systems in Chinese countries. In these countries attracted learning thousands of years ago, the Chinese people worship learning and respect those who give an education. However, they themselves have had little opportunity to learn in the past and the government is finding many difficulties in making an adequate educational facilities. The government is making preparations for an extensive program of popular education. The Chinese will acquire two million teachers, most of whom will have to come from abroad. At present many of the Chinese are studying in America, preparing to go back to their own country to teach.

Chinese education in the past has been devoted entirely to memorizing classics. Students were not taught to reason, and no subjects such as mathematics or sciences were studied. Remarkable memories have been developed without any practical benefit to the individual or the country. A delegation is now touring the United States to investigate methods of teaching to be adopted in Chinese schools. Miss Soderberg said only a few scattered communities showed any hostility now to missionaries, foreign capital, or foreign schools. However, China does not look favorably upon the increasing development of its resources by foreign capital, although the Chinese themselves have not seized the opportunities for business that lie in their mines, soil and exporting possibilities. Nearly all railroads have been built by foreign money, and the Chinese feel their natural wealth is being poured into other countries. Other countries are growing rich at their expense.

However, according to Miss Soderberg, China has not progressed very far in utilizing its natural resources. The agricultural classes have no modern equipment, and she has often seen a foreign schoolmaster in a plow. Although the Chinese admire statesmanship, there are few statesmen. Politics is played from a personal point of view, persons buying power and using it to the advantage of themselves and their families. The majority of the people live on a meager subsistence. As few people in the villages read newspapers, have small circulations and little influence. Miss Soder-

berg said that probably two million Chinese did not know there had been a war.

Norwegian-China is interested in the proposed league of nations. The nation has looked to the United States, as the savior of China, but she is disappointed in the attitude of this country toward the Shantung clause. Miss Soderberg said she did not believe this had caused China to feel any enmity toward the United States, however.

China, Miss Soderberg explained, is in a transition state. Although its progress in civilization may not seem fast to Europe or America, China has changed to a remarkable degree in the last ten years, and she believes the next ten will bring even greater advances. The government is unstable, but Miss Soderberg remains those who criticize that it took the United States from the beginning of the Revolutionary war until after the Civil war to complete the work of uniting this nation.

It is Miss Soderberg's opinion that superstition is a vital drawback to the progress of China. For this reason she backs on the proposed campaign of education as a saving sign. The native religion is based on superstition and deity. The Chinese worship and sacrifice to their spirits in order to insure themselves from disaster. They build the roofs of their houses so that spirits alighting will slide off and miss the door. In the country, it is the custom to have the roofs because the Chinese want the spirits to get lost. Children are called by names of animals so the spirits will not think it worth while to harm them.

Women in China take no interest in politics, nor in woman's rights. They are called to the front of the line. Many of them still toddle about on feet crippled by binding, and are unable to do much work. Although the men claim to love their wives, they pay little or no attention to them. Cooking is a simple task in China, the usual food for everything is put in a kettle to stew. The meal is served in individual bowls and eaten with chop sticks. The Chinese do not change their diet with each season, Miss Soderberg says. The changes are usually minor ones, such as in the width of sleeves, and are followed only by wealthy people. Since the empire, embroidery is not used extensively on clothes and the headress is not as highly adorned as formerly. However, bright colors are still in vogue. A wedding dress, to be considered in really good taste, must be red.

Those who have become Christians have adopted the Christian marriage and foreign wedding array including the priest. The practice of arranging marriages through a third party is still practiced. Many men have adopted foreign dress. The Chinese people's greatest weakness is superstition, so one of their finest qualities is their loyalty and trustfulness. Miss Soderberg desires the foreigners by China to feel a great responsibility and desire to help the natives. Missionaries, teachers and business men all have found China fascinating and feel the same unwillingness to leave when the people are finding themselves.

Miss Soderberg explained the caste system in China was not adhered to as carefully as in India, because members of different castes mingled with each other. However, no one would think of asking her cook to scrub the floor, because once having been asked to do so, a Chinese cook, as labor is cheap, it is possible to employ enough servants to prevent trouble resulting from anyone being expected to do work beneath his caste. The army is considered the lowest caste. There are soldiers galore, Miss Soderberg explained, but no military training.

Wayne county has another representative in China. He is Alvin Gilbert, a son of Mrs. Mary A. Gilbert of Wayne. Mr. Gilbert is a teacher in a government school for Chinese at Washington.

Struggle for Third City.

Fairbury News: The city of Beatrice has been very active in forming an organization to assist the census takers so that the census will be missed in the census taking. We believe that their efforts will bear wonderful fruit. It is really regrettable that a "good citizen effort" will do in the matter of the census. We distinctly remember away back thirty years ago—in 1890 when the census takers made an "organizing effort" to "assist" the census enumerator in finding the inhabitants of that then thriving city—and they found them right. They reported fifteen thousand and some hundreds without batting an eye or a hair. The census taker was in the position of "third city" in Nebraska, which brought forth the eternal enigma of Hastings, which is the real and enterprising city of Nebraska. The census enumerator in "finding the people" they found fifteen thousand and up there. But they did not figure on the real and enterprising of the Beatrice citizens when they start out to do things, and they lost and so now, knowing Beatrice as we do, we can only conclude that they will "find" all their inhabitants, even if they have to go to the cemetery and each of you from forever claiming "asserting any right, title, interest, claim or demand in, or upon said real estate, or any part

DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills. Ask your neighbor. A Wayne case. Mrs. Henry Hansen, says: "I was subject to 'spells of backache' for a good many years. Sometimes I went months without a spell and then all at once it came on—I think the cold weather and over-exertion

is what caused it. My rest at night was broken by the pain in my back. I had been that way for about three weeks when I began using Doan's Kidney Pills. They made me feel like a different woman."

Over Nine Years Later Mrs. Hansen said: "I occasionally use Doan's Kidney Pills, when I feel my kidneys need attention. They keep them in good condition so that I have had no more serious trouble. Price 60c, at all dealers. Don't simply ask for a kidney remedy—Doan's Kidney Pills—the same that Mrs. Hansen had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. 1921

G., Mrs. Edith Hansen; inside guard, Mrs. Alma Benson; outside guard, Mrs. Mathilda Van Norman. Miss Fry was assisted by the installing committee of the lodge.

W. R. Olmstead of Carroll installed the following officers for the Odd Fellow lodge: Noble grand, J. S. Liveringhouse; vice grand, I. E. Ellis; treasurer, Henry Ley; secretary, Herman Lundberg; R. S. N. G., L. S. Trumbauer; L. S. N. G., Harry McMillan; R. S. V. G., H. L. Atkins; L. S. V. G., George Chapman; warden, H. E. Griggs; conductor, A. H. Hinnerich; chaplain, W. L. Fisher; R. S. S. W. Lerner; L. S. S. Henry Soules; O. S., Geo. Van Norman; I. S. E. C., Perkins. The playlet, "The School of Fascinators," was the story of a school teacher imparting knowledge on how to win the men. The teacher and students were costumed fittingly for the comedy. The part of the school teacher, whose name was Mrs. Sarah Ketchum, was played by Mrs. Clyde Oman. The names of the students were: Widow Dabb, Mrs. L. E. Ellis; Little Maudie Dabb, Mrs. John Deutscher; Jessy Bean, Mrs. L. E. Panabaker; Flossy Bunch, Miss Fern Guiges; Sarah Betty Stubbs, Miss Esther Glasser; Catalina Skillet, Mrs. P. L. Nabbutt; Pepuna Jane Wiggs, Mrs. J. S. Liveringhouse; Melissa Morriss Noonan, Miss Nina Thompson; Nancy Peigump, Mrs. W. O. Hanssen; Cady Jellyfish, Mrs. W. L. Benson. The instruction proved to be very amusing and beneficial.

Several of the children at the Ralph Parks home are reported sick.

Herbert Wischof of Minnesota is a guest at the Mrs. Fred Haberman home.

Mrs. May Murphy is spending a few days with her daughter, Mrs. Ernest Packer.

Ernest Peterson shipped a carload of cattle and one of hogs to St. Cloud Tuesday.

Mr. and Mrs. S. T. Allsen and children were Sunday afternoon guests at Wallace Ring's.

Miss Esther and Irwin Bartels were Saturday evening guests at the Mrs. Fred Haberman home.

Mr. and Mrs. Henry Bartels returned Thursday evening from a visit with relatives in Washington county.

Mrs. Henry E. Anderson and children were among the guests at a family gathering at the Lewis-Johnson home Saturday evening in honor of Mr. Johnson's birthday.

Vesta, the little daughter of Mr. and Mrs. Thomas Busby, jr., was operated on for appendicitis at the new hospital Saturday evening. At last reports she was getting along nicely.

Another Surprise.

This community seems to be full of surprises. On Monday evening, January 26, Mr. and Mrs. Frank Weith were surprised to find about thirty-five of their neighbors and friends swoop down on their home to bid them farewell as they move this week to the Mrs. E. E. Driscoll farm southeast of Wakefield. The evening was spent informally in a social way. At the appropriate hour all enjoyed a magnificent lunch prepared by the ladies. Mr. and Mrs. Weith were presented with a cut glass sugar bowl and cream pitcher as a reminder of the good wishes of the community.

Surprise Newlyweds.

Mr. and Mrs. Paul Lessman were genuinely surprised Tuesday evening, January 27, when the Park Hill chivalrous crowd, bringing friends with them, came to the Lessman home to spend the evening. The hour was spent in playing games and stunts and in general good time. Wallace Ring in his usual pleasing manner, pre-

You Have No Right to Suffer

Suffering is unnecessary and with CHIROPRACTIC at hand, ready and willing to help you, you are acting very foolishly if you do not consult your Chiropractor at once. Upon the condition of your Spine depends the state of your health and your suffering is without doubt due to a subluxated vertebra which is pressing upon the nerves causing the stop of mental impulse from the brain to the various organs. Your Chiropractor will give you a Spinal Analysis, will locate the place where the subluxation occurs and will proceed to adjust it. Mental impulse will then flow freely and unimpeded and your sufferings will be over.

THE UNIVERSAL CAR

Every Ford Owner Should Know

Just what Ford Service is, and why it is different from ordinary garage service, and why it is more profitable to patronize the Authorized Ford Dealer.—The Ford Dealer is a part of the Big Ford Family. He carries a large stock of genuine Ford parts for repairs and replacements so you don't have to wait while he sends for them and he uses only genuine parts because he knows the imitation parts aren't dependable and don't wear.

He has a thoroughly equipped up-to-the-minute garage with tools that enable his Ford Mechanics so efficiently and properly make any repair—from a minor adjustment to a complete overhaul.—And when the work is finished, his bill represents the reasonable, standard Ford price. Now, we are Authorized Ford Dealers—a part of that great Ford Service organization which was formed chiefly to put within each community a dealer who would have more than a passing interest in Ford repairs and adjustments. We are prepared and equipped to render prompt, careful Ford service. Drive in or phone and we'll come after your car.

PEOPLE ENJOY OPERETTA

School Girls do Well Under Miss Maude Shapton.

The first of the little Lantana Chinese operetta presented by the girls' glee club of the high school Thursday night at the opera house, was well received by a large audience. These "girls" took many parts, as well as those in the chorus, did admirable work. Chinese costumes and artistic setting added to the picturesque and charm of the operetta.

Approximately \$35 was cleared by the performance and this money will go into the music fund to buy music supplies for the school. Miss Maude Shapton, who is supervisor of the opera house, presented special music between acts and before the operetta was furnished by the high school orchestra and the boys' double quartet.

Miss Kameel Center took the part of Princess Chan and Miss Frances Brown that of the Japanese juggler maid who was found to be the sister of the princess. Miss Faith Philo also acted the part of Wee Ling, a mischievous adherent of the princess. Miss Cathryn Bohmert, as the independent Ou Long, created much amusement by her often expressed desire to rectify all evils by making a law in China.

Those in the chorus were: Miss Alice Lewis, Eva McKim, Ruth Bagand, Marvilyn Norton, Madee Rippon, Viola Bastian, Elizabeth Gildersleeve, Frances Surber, Edith Hise, Alice Fischer, Beatie Hisco, Susie Saunders, Alice Crockett, Martha Crockett, Benita Kopp, Vida Beck, Phyllis Lewis, Bonnie Hess, Marie Varley, Mildred Reid, Helen Reynolds, and Margate Keeney.

The following gave a special dance: Max Chaney, Joy Lewis, Alice Wright, Dorothy Roberts, Dorothy Fobler, Lady Belle (Walsworth), Marian Cartwright and Florence Owens.

Those in the boys' octette were: Basses, Frank Martin and Marion Surber; baritone, Don Miller and

FREIGHT RATES TO WAYNE

Commission Explains Probable Cause for Discrimination.

The following exchange of letters was prompted by the report of discrimination in freight rates to the disadvantage of Wayne, and is offered for what it is worth.

Wayne, Neb., Jan. 13, 1920: State Railway Commission, Lincoln, Nebraska.

Dear Sir: I am reliably informed that the freight rate from Galesburg, Ill., to Blair, Neb., a distance of 360 miles, is 24 cents, while the rate from Blair to Wayne, a distance of 97 miles, is 9 cents, making the rate from Galesburg to Wayne a total of 144 cents. I also understand the rate from Galesburg to Norfolk, Neb., is 16 cents. This apparent discrimination is emphasized at this time by the prospect of getting paving materials.

Hauling from Galesburg seems to require 2 laborers and easily made as soon as the Absarou river is crossed, although after seoting along far enough in Nebraska to become accustomed transportation appears to be facilitated and cheapened. Thus, freight may be carried through Wayne and on twenty-eight miles to Norfolk for a considerably less rate.

Will you please let me know what the reason is, if any, justifies this discrimination.

Thanking you, I am yours very truly, F. W. Huse.

Lincoln, Jan. 26, 1920.—Mr. E. W. Huse, Editor The Wayne Herald, Wayne, Neb.

Dear Sir: Informal complaint No. 5539, regarding your communication of the 13th inst., beg to advise that the rate on paving brick moving from Blair to Wayne is 100 pounds and the rate from Galesburg to Blair is made by reason of the fact that Blair probably had a good deal of paving done and made application to the railroad for a special commodity rate. This same thing probably holds good with regard to Norfolk, also, and in going to do any amount of paving and is contemplating securing its brick from Galesburg, I would advise you to make the matter up with Mr. F. Montmerrey, chairman of the Omaha district, and I feel sure that they would give you a special commodity rate on brick moving from Galesburg to Wayne. If there is anything that we can do to help you in this matter, kindly advise. Yours truly, C. A. Ross, rate clerk.

Fourth of July Plot.

The Hallmark News publishes a picture of the Fourth of July float of L. A. Fenske, as reproduced in an advertisement in today's Herald, with the following favorable comment:

"Our good friend and Hallmark booster, L. A. Fenske, of Wayne, Neb., is alive to every opportunity, and incidentally he is a valued member of his community and ever keen to help along worthy local enterprises."

At the Fourth of July celebration held in Wayne, Mr. Fenske entered a float which won second prize out of 15 floats that participated in the parade. A feature of the float was a huge weddingding fifteen inches wide and six and a half feet in diameter. The ring was made of wood covered with cardboard and painted gold. The miniature bride and groom, appropriately dressed, stood in the center of the ring. These persons were represented by little Dickie Fenske, six and a half years old, and his sister, Margaret. The "bride's" gown was white messaline and she wore a veil caught up with southern smilex and carried a miniature bouquet of bride's roses.

The body of the float, hung over an automobile, was decorated with white sheeting, and the color-scheme was pink and white. The car was covered with pink and white chrysanthemums, 650 flowers being used. On the side of the float was the word "Fenske" cut out of cardboard, painted gold, and pasted against a black background. On the front of the car was a cupid, from which pink and white ribbons extended back to the ring; while on the side of the float was a device representing a heart, pink and white, pierced by an arrow.

At the rear of the car was a neat sign: "The Hallmark Store."

"The effect of this float, done in the artistic manner described, can be imagined. The float made a big hit among the people, and was not only a good advertisement for the Hallmark store, but a distinctly valuable contribution to the success of the celebration.

UNCLE WALT THE POET PHILOSOPHER

MAKING A HIT.

A friend whose name I do not mention had tried for years to gain renown; he tried all ways to win attention, and set folks talking in the town. But all the chances seemed against him; none yielded so big a smile or lure; the pent-up Ulices, they fenc'd him, and kept him painfully obscure. He wrote fine odes and none would read them, men only laughed to see him soar; he made high talks and none would heed them, and people voted him a bore. And when he'd failed in projects twenty, and was to humbly lulls resigned, fame came his way, and came a plenty, and now he's in the Public Mind. He is the pride of every voter, and men discuss him near-and-far—the man who does not own a motor, the guy who has no cho-cho car. When strangers visit in our city, we show the prisoners and the jail, ye editor, so wise and witty, the banker with his bunch of kale. We view the local legislators, the courtiers, with their doors ajar, and then produce that treat of nature, the man who doesn't own a car.

BETTER DAYS.

A better time is coming—I am quite sure of this—when you will see me thrumming my lyre in perfect bliss; the Reds, who claim attention, will be too weak to hiss. We all are

growing sanner with every day; the evidence grows plainer that pipe dreams fade away; and soon we'll stand amid wonder, with the name of thunder we tried to tear asunder the things that ought to stay. You'll see us backward gazing and vewing, with a tear, our antics, mad, amazing, in one unholy year, when we were all demented, distraught and discontented, and every day invented new kinds of doubt and fear. And, on the heights of reason, we'll mutter, "Can it be, that through one godless season no dome from bats was free? O, can it be we rant'd, and clamored to have been hanted in this fair land enchanted, fake kinds of liberty?" Slow, slow has been the waking from wild and bugious dreams, but now the morn is breaking, and sunlight on us streams; and as the morn advances we'll come forth from our trances, while yet our eagle prances and fills the air with screams.

WOOD ALCOHOL.

On New Year's Day I made this pledge, concerning which I do not hedge: "When I infest this mundane ball, I will not drink wood alcohol." While I am, thirsty I may drink a quart or two of purple ink, and I won't draw the line, I do, at fanning myself with kerosene; a man may swig such harmless drinks and not accumulate a jinx; but since I wish to live a while, and back around and sing and smile and dodge the shroud and beer and pall, I will not sip wood alcohol. Strong vinegar is not so bad, and as for me, in every grade, and liquid bluing hits the spot when one is worn and tired and hot; and

one can lay wood ashes by, and make a lot of wholesome lye; there are a hundred tempting drinks which should appeal to the ginks, and yet, poor sumps, they weakly fail for noxious stove-wood alcohol. And then the beast goes up the road, and takes them to their last abode, and folks along the right of way exclaim, "Ahh! Alackaday!" Now see what prohibition means. Its spilled our everlasting beans! The law has shut off gin and rye and every day its victims die!"

WHEELS AND LEGS.

My auto's beastly hard to start, and every day it lunks my heart. All frozen are its greasy works, and when it goes it goes with jerks that nearly dislocate my spine, and throw my false teeth out of line. It takes an hour to get her warm, with all her works in proper form, and if I stop her for a while she jerks along another mile, she humps and bucks and throws a fit, until my diaphragm is split. And often, as she jerks along, with half her spark plugs acting wrong, I vow I'll send her to the big sea, and use my good fat legs and walk. Ah, then, I fully realize that walking is the exercise that braces up the flabby men and makes their sinews young again. Dame Nature gave us legs and feet that we might use them and repeat; and using them brings back the glow of fitness and health we used to know, restores the color of our hair, and makes us fit to cope with colds and flousals. These my head beguile; but when I've walked for half a mile, I sadly sigh, "I've had enough! The old gal's bigger'n the staff! She's cranksy as a lucking bronch, her plugs won't spark, her horn won't honk, her tires are flat, her springs are lame, and still she gets there just the same!"

OUR WONDERING BOY.

Since nations ceased their throwing fire, their hands are good in burning, I often think of Peter Fritz, and wonder what he's doing. They bring me news of old Ex-Bill; from over the briny willows, he's in the woods, already, still, a swacking elms and willows; the swamper he's roundly his and, says it with emotion, but not a word of Eitel, Fritz comes o'er the oozy ocean. Oh, Eitel Fritz; in older times, you made me another weary; you made me embleme German rhymes and German legends beery. The favorite of men and dames, you spent your lifetime musing, with glee pursued your giddy games, before the grandstand playing. Of all good bets you were, the best, the best, the best; vital; and now we hear of all the rest, but not a word of Eitel, Fritz. The Kronprinz Wilyam on his tale cuts down the tree, and the tree falls then, with sickly smile, speaks pieces for the papers. We hear of divers blacked dukes, and skates of princely title, and Hindenburg and other flukes, but not a word of Eitel, Fritz. Eitel-Fritz, you giddy boy, once sassy, vain and bossy, does he still seem round of joy, or is it total loss?

THE ROUND UP.

We are rounding up the Reds, and were putting them in jail; but the American treats on their anarchistic trail; retributiot is in touch with the guys who talked too much, and they're cooped up in a hutch, and they find out soon. Soon there'll be another Ark sailing o'er the slushy sea, and the Red boys will be coming for the Russas, which is free; dear old Russia, free, our home! Government is there, a-pace, and the Reds will cease the team changing ways for these. How their loyal hearts will yearn for sweet Russia, storied place! When they see her beacons burn they'll be ecstasy embracing, freed from Yankee tyrants' rule, from our coolers, much too cool, they will dance like boys from school, when they see fair Russia's face. Emma Goldman may be there, waiting for them on the shore; Emma, radiant and rare, who had made the trip before, she can see her, as she smirks, leading countless freaks with dirks, and to spill some quarts of gore. Loyal with the meeting, be when the second ark arrives, and the exiles, wholly free, greet the flag and beat their wives' ancient Red, who hate the rich, and would plant them in a ditch; patriots who have the rich and the cooties and the hives.

THE EARLY DAYS IN TWO COUNTIES

From the Wayne Herald, January 28, 1904:

H. C. Weirich & Co. have taken their stock of jewelry from Dixon to Wayne.

J. G. Neihardt, editor of the Bancroft Blade, visited his grandparents, Mr. and Mrs. Callie Misses. Dray, Gamble, Nellie Emston and Nettie Perry will entertain friends at a leap year party at the home of Miss Gamble.

Chas. Holmgren died January 23, 1904, at his home, southeast of Wayne. The cause of his death was lung trouble from which he had suffered a number of years. He leaves a wife and five children.

Fred Volpp, Anton Lerner, August Wittler, Henry Gull, Dr. Nieman and Gus Zieman attended the meeting of the grand lodge of Sons of Herman in Fremont Tuesday. Fred Volpp was elected grand president.

Bert Brown and Chas. Beebe, who expect to remove to Carroll, where they are now in possession of the store which they recently bought of Chas. Robbins, have sold their residences at this place, the former to Gen. Wilbur and the latter to J. S. French.

Russell, the 4-year-old son of Mr. and Mrs. R. H. James, died January 25, 1904, after suffering about a year with a cancerous growth on his right temple. He was the only child of Mr. and Mrs. James. Funeral services were held at the residence of Wm. Wright.

From Ponca Journal, January 20, 1880:

The Logan valley and the southern part of the county generally, have been settling up very rapidly during the past year, and no doubt the tide of immigration will this year flow into that desirable region faster than ever.

The Daily creek for five miles from its source never freezes over even in the coldest weather. The reason is that there are many springs in its bed, and the water from these is warm enough to prevent ice forming on its surface. On a clear wintry morning the mild atmosphere of the creek as it rises is congealed by the cold and forms a white cloud, on the same principle as open breath resembles steam on a frosty day, which overhangs the bank and clearly marks the course of the stream in its circuitous route down the valley.

The Ponca Coal and Mining company is composed of the following named gentlemen, who with few exceptions, are residents of this place: John Stough, J. B. Stough, S. Neckling, J. B. Barnes, R. H. Knapp, Samuel Gamble, J. P. Hinggen, Jos. Leach, W. E. Gantt, John Davey, D. Hurley, E. M. Bisbee, T. J. Welty, Wm. Huse, O. P. Sullenberger, H. Huddleston and Green & Paica. Those possessing half shares are: J. W. Jones, E. H. Jones, N. S. Porter, A. M. Wilson and A. E. Barnes, with one-half share not taken. The officers of the company are the following named: President, John Stough; secretary, O. P. Sullenberger; treasurer, E. M. Bisbee. Board of trustees: W. E. Gantt, T. J. Welty, John Stough, R. H. Emma and Alec.
St. Paul Pioneer Press. Emma Goldman and Alexander Berkman announce upon their arrival in Finland aboard the "soviet ark" Buford, that they intend as soon as possible to return to America and "save it." Before it is possible for them to do this, we hope congress may find it possible to enact legislation under which, should they try, Emma will spend the rest of her life in jail while her precious companion will keep an appointment with a firing squad. But we do not quite understand why Emma and Alec are in such a hurry to get back. According to their lights, Russia is the antechamber to paradise if not paradise itself. Every crack-brained theory of advocates is a fact in Russia. Why do they not remain and enjoy it all instead of returning to urge it upon a simple people who do not care for it?

There won't be enough Fordson Tractors to go 'round!

THE demand for the Fordson tractor is so great that it will be a long time probably before every one will be able to get one. Therefore, if you are looking for a tractor and wish a Fordson you should see us at once.

The Fordson has more than fulfilled expectations. With its economy—efficiency—durability—it is ideal for the average farm.

Burns kerosene—has special air washer—and all moving parts are enclosed—there is practically no thing to cause trouble.

Use it with the Oliver No. 7 Plow

Here are some of the big Oliver features: The combined rolling coupler and jointer buries all stalks, weeds and trash at the bottom of the furrow; and the deep device maintains an even depth of furrow. The best plow for your Fordson—that's the Oliver.

Come in and let us show them to you.

Warrant No. 7 drawn to John E. Morris for \$119.65 on Road District No. 26 on January 8th, 1920 in lieu of claim No. 1591 is hereby cancelled and warrant in the same amount is ordered drawn on Road District No. 32.
Warrant No. 1 drawn to David Morris for \$104.10 on Special Road District No. 26 on January 8th, 1920 in lieu of claim No. 1592 is hereby cancelled and warrant in the same amount is ordered drawn on Special Road District No. 32.
Warrant No. 811 drawn to Standard Oil Co. for \$321.00 on County General Fund on December 2nd, 1919, in lieu of claim No. 1389 is hereby cancelled.

In compliance with section 2337, Revised Statutes of Nebraska, for 1915, as amended, the Board of County Commissioners of Wayne County, Nebraska, for the purpose of creating a board of health for Wayne County, Nebraska, hereby appoint O. C. Lewis, who as sheriff would be chairman of said board, Dr. Vaughan, who will be physician, and E. J. Sewell, who as county superintendent will act as secretary of said board.

The county board hereby adopts the following rules and regulations to prevent the introduction and spread of contagious, infectious or malignant diseases, and for the purpose of safe guarding the public health and preventing nuisances and unsanitary conditions:

1. That a board of health for the county be appointed by the county board, the same to consist of three members, one of whom shall be a practicing physician.

2. That said board of health be and they hereby are empowered to enforce such regulations as may be adopted by this board to prevent the introduction of contagious, infectious or malignant diseases into the unincorporated territory of the county and to enforce quarantine rules made for that purpose by it or the board of commissioners.

3. That in case in their judgment it shall become necessary to establish a pest house, and if the pest house be established by the county board, the same shall be under the supervision of the board of health, and the said board of health shall have power to cause such person to be removed there as they deem necessary in order to enforce the quarantine rules and prevent the introduction and spread of such contagious diseases.

4. The said board of health or any member thereof may enter any premises in the county not within the corporate limits of any city or village for the purpose of determining whether or not any contagious disease exists therein and shall adopt such rules and regulations for their own control and for the carrying out and enforcement of the quarantine rules and regulations adopted by this board as in their judgment they may deem necessary. They shall elect such officers from their own body as they deem necessary and shall keep a record of all their proceedings and persons quarantined.

5. The expense of said board of health, which are not properly chargeable to such contagious diseases, shall be paid by the persons occupying the premises where the same exist shall be paid from the county treasury upon bills duly allowed by the board of county commissioners in the same manner as the other indebtedness against the county.

6. The compensation of the members of this board of health shall be 50 cents a mile one way, and for examination and quarantine of each family \$2.00. They shall be allowed by the county board and paid from the county treasury, in the same manner as other bills against the county. The county board may at any time remove any member of said board of health and appoint another in his place.

7. All persons who have been quarantined, shall be thoroughly fumigated in the manner provided by the rules of quarantine, and adopted by this board, and the expense of such persons and the occupants of the quarantined premises and no quarantine shall be raised until such persons and the premises have been fumigated. Provided that paupers and premises occupied by paupers may be fumigated at the expense of the county. All fumigation shall be under the personal supervision of one member of the board of health, under the personal supervision of a practicing physician.

On motion the following regulations and rules for quarantine of contagious, infectious, or malignant diseases were adopted:

1. Whenever within the limits of this county and without the corporate limits of any city or village, a person is suspected of having small pox, scarlet fever, diphtheria or other contagious diseases he shall immediately be isolated within his own household as carefully as possible and as soon as a contagious disease is recognized it will be the duty of the attending physician and householder to give written notice of the same to the clerk of the county giving the name of the disease and of the family where the same with the number exposed and all other particulars that may be of value.

2. The premises where the above contagious disease exists shall be duly quarantined by the county board of health through its proper officer and any quarantine (a) by placing upon the house or some conspicuous point upon the premises, a placard giving the name of disease in letters not less than three inches (3") in height; (b) by a verbal or written notice to the householder to restrict all persons on the premises and in no way mingle with other persons nor to allow others (except the physician) to approach nearer than thirty (30) feet to any house or person thus quarantined. This rule to apply also in case of exposure.

3. Quarantine to continue until in the opinion of the medical adviser of the board of health, the last case of the disease likely to occur therein has completely recovered and is ready for disinfection, provided however that in case of extreme necessity one free from disease may be permitted after thorough disinfection of person and clothing and with a certificate from the above medical adviser.

4. The necessities of life, as often as occasion demands may be carried within thirty (30) feet of the quarantined house by a neighbor or other duly appointed messenger, but no visitor, nor any effects whatever be brought away from the household until thoroughly disinfected.

5. In case of death from contagious diseases there shall be no public funeral and the body of the deceased shall be closely wrapped in sheets well saturated with disinfectants and closed in a tight casket, this to be again wrapped in a disinfected cloth, and in such cases the corpse shall not be carried to or near any body of people while on its way to the cemetery.

6. When in any school district or community several families say, five to eight, are infected with contagious disease or very many exposures have occurred the board of health may prohibit all gatherings of people in that community including sessions of school until in their opinions the emergency is past.

7. All physicians should use due precaution in their visits to quarantine households to avoid the danger of contagion to the well.

8. When in the opinion of the medical adviser of the board of health, quarantine can be safely raised, it shall be done with fumigation with a 40 per cent solution of formaldehyde, using at least five ounces to each 100 cubic feet of air space, or to be applied by an approved preparation or by the sheet method. The room to be sealed at least six hours, all persons to receive a disinfecting bath and their clothing to be fumigated and the house thoroughly cleaned. This to be done in accordance with the "Buggers" code of the State of Nebraska.

9. When in the opinion of the board of county commissioners a hospital is needed to which individual cases of contagious diseases may be removed, or when such method will accommodate those without homes at such place, the expense or for any other reason it is deemed best, a building suited to their needs shall be provided.

10. Whoever in any way willfully or negligently disobeys the rules of quarantine and disinfection shall by such disobedience render himself subject to prosecution and a fine of \$25.00 for each and every offense, and shall meanwhile if infected, and subject to quarantine be held at the quarantine house or hospital until the time for disinfection.

And be it further resolved that the rules and regulations of the Department of Public Welfare of the State of Nebraska, passed July 9th, 1919, are hereby approved and adopted.

Methodist Church. (Rev. J. A. Hutchins, Pastor).

Sunday school at 10 a. m. and 7:30 p. m.

Praying service at 11 a. m. and 7:30 p. m.

Epworth League at 6:45 p. m.

Prayer meeting, Thursday, 7:45 p. m.

Choir practice Tuesday at 7:30 p. m.

Home Department of Sunday schools meet every two weeks on Tuesday at 2:30.

Ladies A meet every two weeks on Wednesday at 2:30 p. m.

The Woman's Foreign Missionary society meet the first Friday of each month at 2:30 p. m.

Last Sunday being very cold, cloudy and windy day, it was thought best not to take the picture of the school, but the picture will be taken next Sunday if the weather permits. We hope that every member of the Sunday school will be present. We are anxious to have as large a representation for the picture as possible. We wish Winside to do itself proud in this Sunday school work. Everybody work and pray for the 200 by Easter Sunday.

There was some excitement around the parsonage last Saturday noon when the roof of the building caught fire. The fire was discovered by Mr. Dewey who gave the alarm. The fire boys arrived in double quick time and in a very short time the fire was under control. The fire was caused by a defective flue. About \$100 loss.

The pastor and official board desire to thank the firemen for their prompt action and their care in saving the building from further damage by water. It certainly pays to have a good fire fighting equipment.

Rev. F. E. Sala and wife M. Carroll visited in the parsonage Saturday. Rev. Sala has a fine church work at Carroll and he is doing splendid work for the year.

The pastor was delighted to have his brother-in-law, Ivan Mendenhall of Litchfield, Neb., come in for a visit last Thursday.

Grace Church. Preaching service at 2:30 p. m. Sunday school at 3:30 p. m.

The cold, windy weather affected the attendance at church Sunday. We hope that next Sunday will be more pleasant and that we may have a large attendance out to church.

The Girls' Missionary society of Wayne church, are coming out to the Grace church for a meeting Friday evening. Everybody is urged to attend this meeting. They will meet at the home of Wm. Gildersleeve.
