

FILED END FOR APRIL PRIMARIES

Few Democrats and Not Many Republicans Show Political Aspirations

NO OPPOSITION FOR TWO RIVAL CANDIDATES FOR STATE SENATOR AND REPRESENTATIVE—TWO IN LINE FOR ASSESSOR.

The candidates' filings for the primary April 27 closed Saturday night and is the last presented by Wayne county does not show many political aspirants. Few Democrats have registered willingness to serve the public in any capacity, either considering the year inopportune or having lost their usual office-seeking enthusiasm.

Judge J. M. Cherry is the only candidate for the county judgeship who has not occurred in a non-partisan, and witnesses a triumph termination of his campaign by being fairly started by the senate. J. C. Suman, present incumbent, and Otto Ullrich will vie for the republican nomination. Both candidates live in Winslow where they may meet conveniently and frequently and talk over the events and evolutions of their campaign. On the other side of the political fence is Henry Bartels of Carroll, who has filed for the democratic nomination, but he will not have to put his foot in the time for the election rolls near. Mr. Bartels served as a member of the lower house from Wayne county for two years.

Four candidates have filed for representative, three republicans and one democrat. They are: William Williams of Carroll, August Holck of Hoskins, and Ward Randol of Wayne, are asking for the republican nomination. Freda Sangan of Terrace had, entered as a medical patient yesterday.

Lewis Frenzbach of Bloomfield, returned to his home after having his tonsils removed.

Mrs. M. W. DeWitt, who underwent a major operation last week, is recovering rapidly.

The little daughter of Mrs. Julia Giklerleeve is receiving treatment for an infected thumb.

One of the patients at the past week was: Henry Metz, George Roland, Mrs. Roy Ireland, Stephen Nichols, Ellis Gray, Rose Hermsdorf, Mrs. Wm. Delaney, and Willie Muggitt of Bloomfield, was brought to the hospital in a car that involved an expected soon.

Library Given Boys' Books. Carnegie library received a gift of thirty-five boys' books this week from Mrs. S. M. S. The books will be placed on the shelves at once so that youthful patrons of the library may use them. Besides the books, Mrs. S. M. S. has also received. These are fiction by popular authors.

Chilcott-Clum. Clayton Milo Chilcott of near Pender and Miss Alta May Chum of Wakefield, were married by Rev. William Kilgus of Wakefield. The bride is the daughter of Richard Chum of Wakefield, and a sister of Charles Chum, a member of the board of the Wayne State Normal. Mr. Chilcott is a son of Jacob Chilcott of Pender. The young couple will reside in their home on a farm near Pender.

Mr. and Mrs. Swan Nelson and daughters, Aylene, Nathalia, and Nellie, visited in Wakefield at the P. R. Anderson home Wednesday.

Mr. and Mrs. Nelson, is a relative of Mrs. Nelson, is ill.

FORMER WAYNE MAN PLACED UNDER ARREST

Simon Goeman Charged With Buying Stolen Automobiles.

Sidney, Neb., March 20.—Simon Goeman, wealthy farmer of Curtis, this county, was bound over to the district court on \$3,500 bond on the charge of buying and selling automobiles known to be stolen.

Mr. Goeman was implicated by an affidavit made by John Wright, now serving in the penitentiary from Wayne county, on the charge of bootlegging and gambling. Mr. Wright alleged that Mr. Goeman, who formerly lived in Wayne, had him \$50 to burn his barn at Wayne so that he could collect \$1,000 insurance, and that afterwards Mr. Goeman had been in the contrary with him to buy cars he was to steal. Wright encouraged six cars to be stolen, and Goeman, who in turn sold them in this vicinity.

The six cars have been located by Sheriff McDaniel, who has been working in the case in conspiracy with Chief State Agent Gus Hyer and J. E. Wilson of Broken Bow. Two of the cars were registered in the county in the eastern part of the state.

Goeman left Wayne a few years ago for a better county. He will be remembered as having been prosecuted several times here on bootlegging charges.

GIVES COMEDY IN FRENCH Novel Play Introduced by Miss Kingsbury's Department.

Yesterday morning the students in the department of French, under the direction of Miss Kingsbury, presented a comedy in French. Mr. Lawrence Armour told of the origin of La Marseillaise, the national song of France, which was then sung in the original by the French students. Then followed a short play, "Une Fasse de The Cup of Tea" presented by eight young ladies of the second year class.

Although few of the audience understood French, yet so perfect was the manner of the young actors that the entire performance was a delight to all. The comedy was a burlesque characteristic of French comedy. Miss Kingsbury and the students are entitled to much credit for this happy innovation in the life of the school.

The following is the cast of characters: "L'Heretique"—Lulu Larson. "De Gerdelte"—Virginia Peterson. "The maid"—A. Virginia Bowen. "The doctor"—Mrs. G. G. G. "The children"—Mary and Hastings. "Helen Spahr."

Lady.—Beatrice Daley. "The Successor"—R. Lindgren. "The Successor"—R. Lindgren.

On last Thursday afternoon the pupils of Mrs. J. T. House gave a successful piano recital. Following is the program:

Allegro (four hands) Diabelli. Martha Gakemeier, Mrs. L. C. Neutrice, P. O'Soro—Neva Lae.

Rondo (four hands) Mozart—Dona Somers, Mrs. House.

Turkish March, Mozart—Etel Burham.

Spinning Wheel, Anton Schmalz—Flem Watson.

Shine on Me, (four hands) Webb—Ebel Burham, Mrs. House.

Hungarian Dance, Brahms—Mable Brink.

Sonata, Berthoven—Mary House.

The Orpheus Club. The Orpheus club, Professor J. J. Coleman, director, on Friday morning sang two universal favorites, "The Kerry Dance" and "Come Along with Me." The singing and interpretation were exceedingly artistic and greatly pleased the hearers.

Science. At the last meeting of the Science club, Professor Britell spoke very interestingly on a subject which is of great interest to scientists. "The Einstein Theory of Relativity." First explaining what science has held up to the present and realizing the difficulties in the well known Newtonian formula. Professor Britell showed that Einstein theory solves some of those difficulties. Einstein is credited in his own. It roused a good deal of thought to realize that the belief long held in metaphysics is being replaced by space and time together and have no objective reality. Einstein is likely to receive scientific proof. His scientists are giving much credit for the careful manner in which he presented his theme.

Birth Record. A daughter was born to Mr. and Mrs. Homer Seay of Wayne, at Hancock, Minn., Thursday, March 18.

MOVING PICTURES USED FOR KEEP FIT PROGRAMS

To Extend Campaign for Healthy Living to Smaller Towns.

Educational moving picture films and brief talks by Dr. O. G. Adams of Lincoln, were the events of Keep Fit day in Wayne Wednesday. Dr. Adams, a state director of the Keep Fit campaign and represents the United States public health service and the state department of health.

Films were shown in the afternoon to separate groups of men and women. High school boys were shown some slides and in the evening "The End of the Road" was put on at the Crystal theater.

The latter picture was presented before a mixed audience. It was a story of an average American girl whose training and environment prepared her to meet life safely.

The object of the picture was to explain the need for teaching children the origin of life in a proper way.

Women and girls more than 18 years old, saw the picture at 2 o'clock Wednesday afternoon. This was the amount of women in town were explained the infection of such diseases, what organs were affected and to what extent. The same slides were shown to men and boys over 16 years of age at 4 o'clock. Dr. Adams briefly explained that the war had revealed an epidemic of venereal diseases, and the government had found it necessary to take action to regulate the diseases. When the state health department slides to the high school boys, he explained how healthy living prepared for them for the future.

From Monday the Keep Fit campaign will be carried to the smaller towns in the county. The same program will be given there, under the supervision of the county director of the campaign, R. B. Bowen, and the district director, J. H. Adams.

Keep Fit work will be followed up in Wayne has not yet been decided. In some of the larger cities free health examinations are being given. Patients may receive treatment.

The state has taken steps to protect the public by treating social diseases. Physicians are required to report to the state health department. If the patient receives treatment under the act, the case is reported by number. It is not a representative of the state health department. It is individual. If after that the patient refuses treatment, the house is quarantined just as in cases of smallpox or other contagious disease.

MRS. CARL STAARM DIES Funeral Service for Carroll Woman to Be Held Saturday.

Mrs. Carl Staarm of Carroll died at her home here at 8:15 o'clock Wednesday morning. Death was caused by cancer.

Funeral services will be held at the Methodist church at 2 o'clock Saturday afternoon. Rev. N. Severs, pastor of the Lutheran church at Neutrice, P. O'Soro—Neva Lae, will conduct the service. Burial will be in the Carroll cemetery.

Anna Larsen was born in Sweden January 30, 1852. Immediately after her marriage to Carl Staarm they came to this country to make their home here. She had two children, of whom Mrs. Ben Robertson of Mead, Neb., survives. A son, Victor Staarm, died in producing an adopted son, Alwin Staarm, who is 13 years old, also survives.

Mrs. Staarm was ill nearly a year and has been in bed for three months. Her husband, daughter and little son were with her constantly until her death.

THOMAS J. STEELE DIES IN SIOUX CITY SUNDAY

Prominent and Active Citizen of Wayne in the Early Days.

The funeral of Thomas J. Steele, former Wayne county clerk, took place in Sioux City yesterday, and a number of friends from here joined the funeral party.

Mr. Steele came to Wayne in 1880, and was initially secretary here to be engaged in the hardware business with Ed Morris, the latter now of Hartington. In 1889 Mr. Steele became county clerk, but was defeated for a second term after a spirited contest. Then he devoted himself to the raising of stock and selling cattle. He was one of a group of capitalists who bought a controlling interest in the First National bank in 1899.

Mr. Steele took an active interest in planting trees and otherwise beautifying the town. Many trees and shrubs were planted by him, and he was a member of the faculty of the University of Nebraska and is recognized as an authority on literary and literary subjects. He was a high school teacher of English here to deal. Dr. Pound will speak at the funeral services of the "Teacher of English" at a general session Saturday night.

J. H. Beveridge is superintendent of the Omaha schools. As a successful school man and executive, his talk, "Order Change," will be of particular interest to those with administrative problems to solve.

Dr. David Snedden of New York City is now professor of education in the Omaha schools. He is holding similar positions in other universities, being commissioner of education in New York. He is also writing a number of books on phases of education. As a practical school man rather than theorist, Dr. Snedden understands the work of teachers and his experience has much to offer other members of the profession. He will speak Friday evening on "Efficient Schools."

The program for the teachers' meeting has been arranged this year in only three sections—this year. There will be no conflicts of programs in this section. Rural, elementary and secondary education will be treated in separate divisions.

Before the sessions for the teachers' meeting begin on Friday, the district declaratory contests will be held Thursday. A change from the usual order of the lectures will be treated in separate divisions.

TEACHERS' MEETING NEXT WAYNE EVENT

Speakers are Experienced Educators and Executives With Important Messages.

RED CROSS WORKERS HERE District Declaratory Contests on April to Precede Sessions For Instructors.

The program for the National Junior Red Cross is to be presented to county superintendents of northeast Nebraska at the teachers' meeting here April 1, 2 and 3. H. Van Hoy of Chicago and L. W. Trestor of Omaha, state director of the Red Cross, will be here in the forest of that work. Mr. Trestor was in Wayne Tuesday to consult with Miss Edith Beecher, president of the Northeast Nebraska Teachers' association, and arrange for the Junior Red Cross work to be included in the program.

Another feature of the teachers' meeting will be a talk by C. A. Voculmer, who is state director of vocational guidance work. He will be speaking on "Efficient Schools," the state supervisor of home economics education and C. W. Watson, state supervisor of agricultural education. Problems confronting both schools organized under the Smith-Hughes act will be discussed at the meeting and guidance conference Friday evening.

Two of the principle speakers at the meeting are Nebraska educators. Dr. David Snedden, a member of the faculty of the University of Nebraska and is recognized as an authority on literary and literary subjects. He was a high school teacher of English here to deal. Dr. Pound will speak at the funeral services of the "Teacher of English" at a general session Saturday night.

TO ENTERTAIN TEACHERS

Commercial Club Arranges Plans and Meals For Visitors.

Plans for the accommodation of between 500 and 600 teachers expected here April 1, 2 and 3 were formulated by directors of the Commercial club, who met at Gamble & Senter's store Thursday night. A house to house canvass is to be made to get rooms for the people who will be here for the Northeast Nebraska Teachers' association meeting the first of the month. Women of the Baptist and Methodist churches have agreed to serve noon and evening meals at the churches each day the teachers are here. The Commercial club will try to induce the persons who rent rooms to furnish breakfast. With these helps it is estimated by the club's officers that the hotel and restaurants can comfortably take care of the crowd.

All rooms to which the Commercial club will send teachers are for rent, for \$1.50 a day, or 75 cents a day for each person in two teachers' rooms together. If breakfast is served, that will be 35 cents extra. As the instructors arrive, they will be taken to the city hall to register. There the committee in charge will assign the rooms and, if weather permits, the teachers will

be taken in automobiles to the various homes.

Ribbon judges have been ordered and each is to be held in place by a button on which is printed, "Why Not Teach?" Any other details for the comfort and pleasure of the visitors will be arranged later by the Commercial club.

Other business taken up at the meeting last week was the possibility of getting a planing mill for Wayne and the problem of placing hitching posts when the paving is laid. H. C. Henney and V. A. Senter were appointed to go to Emerson to investigate a planing mill there and find out what inducements would persuade William Zartow, the owner, to move to Wayne. It is understood he desires to come here, although he has a good business at Emerson. Wayne is said to offer an unusual amount of business for a planing mill, on account of the number of carpenters here and the amount of work the incinerator factory has done. That a lot for a mill site could be purchased recently has already been ascertained.

Even after Wayne is paved, there are so many days that the roads are so muddy that farmers will have to drive horses to town. For the farmers' accommodation, the Commercial club believes it necessary to provide hitching posts. The plan is to place them on the side streets, wherever possible between the sidewalk and the paving. If enough space can be used, the posts are to be placed only on one side of each street, in order to leave room for traffic. The Commercial club decided to take up the proposition with the city council.

How to Stop Speeding.

Houston Post. "Wayne's motor speeders arrested in their motor, Uncle Sam?"

"No. There used to be, but we settled them all right. Haint been hardly an arrest in six months."

"How did you manage it?"
"Well, we just fixed the speed limit at seventy miles an hour, an' darned few of 'em kin make it, 'gosh."

Bixby in Lincoln Journal: It was given out in the house of commons only last week that 22,000 persons were recognized enemy aliens during the war, are now living and doing business in England—There are more than double that number of suspects in Nebraska alone after America entered the war, but more than ninety-five per cent of them turned out to be very loyal subjects of Uncle Sam and very respectable citizens of Nebraska.

HORSE IS KILLED BY FALL

Buggy Tips Off Road Into Former Creek Bed North of Wayne.

Lyman Martin and Guy Miller escaped injury when they accidentally drove off the road and fell into a ditch on their way home from Wayne Tuesday night. The young men were driving a horse, which stumbled, and the buggy, which was on the edge of the road, tipped into the ditch. The horse died and the buggy was mired in mud.

The accident happened on the Wayne-Carroll road, two miles north of town. At this place the state had straightened the road and the bed of Dogtown creek, leaving the old creek bed along the side of the road. Although the state will put up a concrete protection as soon as weather permits, the place has been unprotected since fall.

The buggy, dragging the young men and the horse, fell twelve or fourteen feet into a soft mud. As there was no moon Thursday night, the driver says he could not see the edge of the road.

Lyman Martin is a son of Mr. and Mrs. Fred Martin. Guy Miller works on the Martin farm.

Wisner Man Hurt. Norfolk Daily News, March 22: Jess Sorenson of Wisner, Neb., was cut about the face, head and hands last Sunday night when his car was in collision with a car driven by Henry Kennedy. The two cars came together about 200 feet north of the intersection of Third street and Sorenson had a narrow escape from more severe injury when his car was turned completely over and thrown on the terrace. The impact was so terrific, that both cars were badly damaged.

Sorenson was crumpled home and was alone in the car and was driving south on the pavement. He says he was driving south on Third street, on the right hand side of the street, when Kennedy, who was driving north, ran into him. Sorenson declares the need of the cars was about twenty-five miles an hour. Kennedy says he was alone in his car and was enroute home when the accident occurred. Kennedy was not injured.

DITCHER SMASHES PIPE

Diggers Claim Plat of Water Mains is Not Accurate.

When the ditching machine tore into a water main Saturday afternoon the water in the mains flowed out and the standpipes were almost empty before the break could be repaired. Although the men digging the storm sewer had a plat of the water mains and other pipes, they claim this was not accurate and the machine struck the pipe in the street at a place it was not shown on the plat.

The accident happened at 5 o'clock Saturday afternoon. Repairs were made so that water could be supplied to consumers. The repair job was completed by Sunday afternoon.

The storm sewer is nearly done, although some extensions remain to be completed. Frank Hill of Katz Construction company will put in the part of the extensions to be done with a ditching machine. Instead of setting the trenches with water, the earth is being tamped down as well as possible. After the streets are graded preparations will be taken over them, so that there will be no danger of further setting of the trenches.

Shot While Hunting.

Plainsview, Neb., March 23.—William Webber, son of a farmer living nine miles north of here, was brought to the General hospital here in a serious condition as the result of the accidental discharge of a shotgun carried by a companion with whom he had been hunting.

The two boys had just returned home when the gun discharged the load entering the arm of young Webber. He was brought to the hospital here and the arm was amputated yesterday. The boy is still in a very serious condition. The Webbers are prominent in this section.

Fire Spreads From Straw Stack.

A fire started in a straw stack Saturday was spread by the high wind until workmen stopped it before it reached John Kay's home near Wayne. The fire was started in a hay stack belonging to Dick Auker. The strong wind Monday scattered it. Farm hands in the neighborhood noticed the blaze and were able to stop it in a corn field before any buildings were damaged.

Every avenue of employment is lined with more than half a million men for idleness on the part of any able-bodied person. Still a good many people seem to be taking a post graduate course in loafing.

The advisability of employing a man to look out for fires and thefts and lawless characters is frequently mentioned. The present load of duties is considered too heavy for one man to carry and give the service needed and required.

Human sympathy should dominate unless public service or public welfare is thereby imperiled. If conditions of their rights and feelings of others were coldly disregarded we would lose to savagery much that has been gained during the centuries of Christian civilization.

Rents had been raised in anticipation of spring. Now they are being raised because of the paving. Next year they will be raised to meet the cost of paving. Naturally the rent will be raised in accordance with other revisions upward, and the paving furnishes the most visible and convincing reason.

Vaughan Williams of Carroll who has filed for the republican nomination for congress, is being taken into consideration as a man of fine qualities. He is not accustomed to running for office. On the contrary, he enters the contest on his own initiative. But he is in and in to stay. He has been urged forward as one who is eminently qualified to fill the gap in every conceivable angle. It is a pleasure to know him, and it will be a pleasure to support him.

It is said of Thomas J. Steele, former Wayne man who died in Sioux City, Iowa, that he was a noble life to many young men. It is told that he bought papers for one newsboy for a long time before he began taking him in charge for training and development. Every boy who took to the mark and show himself worthy of the instructor's instruction and direction. But the discipline was salutary, and every young man owing his initial success to Mr. Steele, re-joined the team. Forty boys who had been fired with ambition and purpose by Mr. Steele, now regard the memory of their benefactor with the most appreciation and gratitude.

We have never heard a successful defente of the rule of the Non-Partisan league in North Dakota. If there is one, it ought to be proclaimed. If there is one, we have heard of stonemasons' union to the way things are run up there, and if reports are true, the League, work in North Dakota, we expect the old parties should not be allowed to gain control of this state. The report that real estate taxes have been increased to introduce a new regime, should interest land owners, and if true, should result on the part of every owner of real estate stout opposition to introduction of a similar system here. A secure and prosperous Wayne county farming community would be invited for inviting a condition which would add to his burdens and weaken his valuations. "What we have done in Nebraska," we expect the "Non-Partisan League" declares a leader of the Non-Partisan League. "Not by a long shot will it be done here if reports are true in North Dakota, we expect it is true and are clearly understood by the people of this state."

The costly and unwelcome complaint paid the Ahern stock by nocturnal thieves last week seems to have belonged to a system of robbing citizens of their money simultaneously in this part of the state, according to reports from other portions of the state. The Aherns are not inclined to like so much favorable attention to their stock outside of regular hours. So much stealing here reminds us of the way thieves are dealt with in Oregon. We remember that a man employed on a ranch stole from the owner a pair of chaps, worth \$8, and was sent to the penitentiary for three years to give him ample time to think it over. An Oregon law, called stealing from a dwelling, makes it unnecessary to break into a building, regardless of the value of the property stolen, in order to break into penal servitude. Even in Madoc county, Cal., five half-breeds were hanged from Pitt river bridge for stealing

secondhand harness. We don't know what would have been done if the harness had been new. A mob would have followed the count in attending to the case. It was the way the people had of expressing disapproval. It was so unpopular and made so unpleasant to steal to the west that such things rarely happened, and when they did happen they were given elaborate and distinguished attention. There was so much to discourage a thief in Oregon and California that comparatively few adopted stealing as a life work.

We have all kinds of experiences, and a very seldom makes without bringing forth something entirely new. In the realm of dollars and cents, we have had people ask us for money for every conceivable purpose, usually very worthy, and we don't remember of having ever turned any one down. There was one on Friday who was wholly different, the latest spring creation, guaranteed pre-Easter novelty. Two little boys presented themselves at the counter and asked for some pennies. They didn't limit the number nor offer any explanation. We couldn't catch their names. They had evidently heard we were an easy mark, and were ever-anxiously waiting for some new-fangled way of being plucked. They were such nice little boys, and they made their desires known so frankly and definitely that we were inclined to give impulse to fall for them, and we did fall. After shelling out pennies for the two boys and they had retreated to good order, we got to thinking of the encouragement we were offering to the habit of begging. The little fellows didn't offer any service in return for the money. They were not trying to steal. They simply knew what they wanted and had the nerve to ask for it. Results depended on the gullibility of the one asked, and he usually proves ample in that respect. We decided we had made a mistake in giving a contribution to youthful character. In the afternoon the younger of the two lads came back. He had run out of pennies and he had more. He was not picky so easy, and he went away with a different idea of the erstwhile easy mark. Begging is not so bad as stealing, but it is nevertheless a powerful despoiler of character. Stealing is worse because it is not only a confession of weakness, but it is a crime and carries on its work in the dark. Carrying seeks consent; stealing does not. Considerable of the latter stealing by children in and out of school has been reported of late. This is a serious fault which should have the earnest cooperation of parents to correct. Something for nothing by any workable means violates rules of society, robs character, and is a confession of weakness, liable to lead from bad to worse unless a penal institution furnishes an unhappy consummation.

THE LEAGUE OF NATIONS.
 The administration followers, combined with the "irreconcilables" defeated the league of nations' covenant with its reservations attached. The administration managers favor the league as endorsed by the president. The "irreconcilables" are against any kind of league. Those favoring modification of the terms lacked strength to carry over a compromise. Thus the two elements voting together were in fact diametrically opposed in thought.

The president had his way in defeating the league as revised, but he will not have his way in trying to force acceptance in the original form. He will have to satisfy the people in favor of a compromise that safeguards America against unwise and unnecessary entanglements.

W. J. Bryan, well known demagogue, who seems to be out of accord with the administration on the league proposition, is quoted as follows:

"Why should we add to our responsibilities by undertaking to police Europe? Have we not been enough to do to stand sponsor for the independence of our sister republics? The League of Nations is a dominant political influence in the western hemisphere; this is a fact which does not need to be asserted. But this nation does not cover its neighbors' lands or its neighbors' prosperity or anything else that is its neighbors. The Latin-American republics are not only self-governing, but they recognize the foundation principles of republican institutions and they would assist the United States in repelling trans-Atlantic foe. If we adhere to the ideals of the past and to the traditions of our nation, we will seek to make the world better through the influence of high example. If we adhere to this policy we lead the world and we should be satisfied with our primacy. If, on the other hand, we are to revolutionize our methods, we must be content to follow at the rear end of the European procession."

"We cannot take the lead if we join the European group, for leadership in that group requires the acceptance of the doctrine of conquest. We could at best be a poor second if we so chose, and our national policy as to become a part of a European police force. We would not be 'one of the finest on parade' days—we would limp along

apologetically with downcast eyes and blushing cheeks.

"No, the advocates of the European police force plan cannot single opposition with an intellectual front; they cannot dismiss their opponents with such epithets as 'pacifist' and 'resistant'—they must come out in the open and admit: First, that they are willing to repudiate the teachings of Washington; second, that they are ready to abandon the doctrine of Monroe; third, that they favor such an amendment of the constitution as will transfer the power to declare war from congress to the nation across the sea, and, fourth, that they are tired of being good and danger for the excitement of the camp and the man hunt.

Wood Leads.

Sioux Falls, S. D., March 23.—Leonard Wood had a lead of 1,146 votes over Frank O. Lowden, of Illinois, and Lowden led Hiram Johnson by 1,001 votes, when republican presidential endorsement returns were compiled late tonight from 359 out of 1,740 state precincts. The returns were from 42 for Lowden, 12,194, Johnson, 11,193. The returns practically cleaned up the precincts in all the leading

cities of the state except Huron, where several precincts were missing. Shortly before midnight, the Black Hills counties began to report and those heard from went heavily for Wood.

Johnson polled a heavy vote at Yankton and complete returns from Pierre, the state capital, showed he carried the city by a plurality of seven votes over Wood. Governor Peter Norbeck has a good margin over Dick Haney for the republican senatorial nomination and W. H. McMaster of Yankton was ahead of R. C. Richards, his opponent for the republican nomination for governor.

Regarded Impertinent.

Bixby in Lincoln Journal: An unmarried woman of pleasant address, who earns her living as a seamstress, asks this impertinent question: "Would a single man of mature years who has not been brave enough to assume the responsibility of providing for wife, have the courage to face the temptations thrown in the way of the chief executive of Nebraska, and the gumption to rise above them?" Sister, you have queried the wrong person. Only a politician will be able to answer your question with an intelligent regard for the probabilities. Your Uncle Leader does not mingle with politicians at the seat of government, though it is nine blocks from the scene of his daily toils and triumphs, if getting away from his work an hour ahead of time without being discovered

will pass as such. We have known men brave enough to marry who thereafter went about with the meekness of a cowering captive in the hands of an all-conquering Nemesis. On the other hand we knew a humble swain at Chain Lakes who married a shrewish Amazon, yet in less than a week he was the recognized head of the house, and she trembled when he heard his muddy boots on the oak floor of their two-room claim shanty. We rather suspect that this whole problem is a gambler one yet. British liberals have been not so little encouraged by recent developments and may insist on steering their own course.

Lloyd George's New Party.—Springfield, Mass., Republican: Lloyd George is finding the creation of a new political party no easy matter. His proposals are said to have been so coolly received by his liberal associates that he has decided not to burn all his bridges just yet. British liberals have been not so little encouraged by recent developments and may insist on steering their own course.

Stimulus of Gardening.—Chicago Daily News: Who needs to be assured that gardening affords good exercise? Who doubts there is a therapeutic value in digging in the soil, in observing the development of growing things, in tending and caring for them? Gardening furnishes a mental as well as a physical stimulant which more than offsets the incidental bittered palms and backache.

Our Spring Style Show

Will be Held Next Week

At the Time of the Teachers' Association

Thursday, Friday and Saturday, April 1, 2 and 3

You can choose from

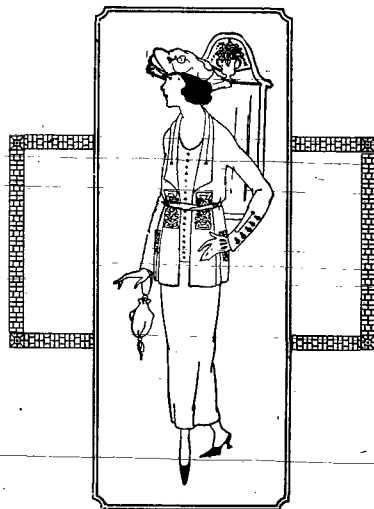

350 Spring Coats

175 Tailored Suits

150 Silk Dresses

Nine Eastern factories from whom we buy ready-to-wear are going to ship us coats, suits and dresses on approval for this special three day spring opening. This means that we will have hundreds of the very newest garments added to our own large stock for these special days; giving our customers an opportunity to choose from as fine and varied an assortment as could be found anywhere.

We urge you to come Thursday, Friday or Saturday as we must return the unsold garments from these special shipments Monday.

The New Spring Coats

Both long and short models are shown, although the shorter coats are the most popular now, particularly among the younger women.

Tinseltone, Silvertone, Polo Cloth, Tricotines and Serges in the new shades of Tans, Blues and Grays have all been used to fashion coats of surprising charm. Plenty of new style touches will be found to please—odd collars, flaring backs, new cuffs, soft shades, front belted and back belted models. And all priced very reasonably.

Suits

Suits are going to be very popular again. Straight lines predominate but there are variations to please all—long waisted models, ripple hip jackets, bolero effects, etons, with and without belts, some simply trimmed, others beautifully embroidered. The most popular colors and beautiful materials and the prices very moderate.

Dresses

Dresses are so popular that we have made exceptional preparations to show you a varied and large assortment. Taffeta is particularly favored, although georgette holds its favor very well.

Dresses fitted without extra charge.

A Word About Prices

You will find about three-fourths of these garments very moderately priced at \$25.00 to \$60.00. In all our spring buying of ready-to-wear we have tried to get the very best values to be had at these popular prices. As we buy coats and suits for sixty towns, we are welcome in the best factories of the far east and we are sure no better values or styles are to be had anywhere than you will find here.

We sell only first class nationally advertised ready-to-wear that we can guarantee.

Of Special Interest to Visiting Teachers

Our spring style show will be held at the time of your association meeting here.

On this account we are making arrangements for a doubly large stock for this special occasion.

Firms in New York, Cleveland, Toledo and Chicago are sending us special shipments of coats, suits and dresses for just these three days.

You can depend on finding here at this time a stock of Ready-to-Wear at ~~\$25.00 to \$60.00~~ that will be as varied and up-to-date as can be found anywhere and also a nice showing of the finest garments at \$75.00 to \$125.00.

We are ready-to-wear specialists, doing the largest business in N. E. Nebraska in these lines, as we sell in over sixty outside towns. Our traveling salesmen will be here with their stocks for this sale and when we have added the special shipments, before mentioned, to their stocks and our own, we know you are going to have a selection that will meet your wants in every respect.

You will be well pleased with the prices. Our selling expenses will be light and enable us to make you a price much below the usual on a coat or dress.

Life in the Corps.

Washington Post—Whiskey is dead, says Bill Brady, but Banquo Barclaycorn shakes his gory locks and points to New Jersey.

NEWMAN GROVE IS TO PAVE

Hartington Farmer Returns to Denmark for \$250,000 Estate.

The board of trustees of Newman Grove was ready to let a contract for thirty-five blocks of paving last week. Several bids were expected. Representatives of a St. Joseph, Mo., construction company had been in Newman Grove preparing to bid.

Engwer Engwerson, a farm hand employed near Hartington two years, has left to return to his hood home in Denmark to claim an estate valued at nearly \$300,000. Mr. Engwerson's paper, the Danish laws will total about \$250,000, as he has but one sister and no brothers. The estate, left by his father, includes 450 acres valued at \$700 an acre. As it is in Schleswig-Holstein, a province taken from Denmark by Germany, Mr. Engwerson came to America to avoid military service. During the war, he tried to get into the United States army. The province recently broke away from Germany and renewed its allegiance to Denmark.

High winds last week demolished the new building of the Tri-State Utilities company at Creighton. Nine men working in the building escaped serious injury. The loss amounted to \$12,000. The building is to be replaced by a temporary frame structure until a permanent one can be built. Machinery was not damaged by the wind storm.

C. H. Randall of Randolph, has filed for the nomination for state senator from the Knox-Cedar district on the republican ticket. He has already served one term in that capacity.

John G. Schreiners of Randolph, was told he could never be a citizen of this country, when his petition for citizenship was denied by Judge Guy Graves of the district court in Cedar county. Mr. Schreiners claimed exemption from service during the war because he was not a citizen of this country.

After the citizens caucus at Ponca had selected the candidates for the city officers a group of men proposed putting in a sewer system, held a caucus and selected a ticket. Their candidates for clerk and treasurer refused the nomination.

Three stores and a hotel at Ponca were burglarized one night last week. From a hardware store about \$200 worth of razors and knives were taken. Only money was taken from the other places. Money was missing from the hotel and two stores. An attempt was evidently made to enter a drug store and a retired store also. No trace of the thieves has been found.

Psychology on the Farm. Washington Star—"Hannah," said Farmer Cottosel to his wife, "I may as well be prepared. The hired man says he's going to strike."

"But he admits he has plenty to eat and work. Nobody finds fault with his money and his money in the bank. What's the trouble?"

"I think it must be just plain human nature. Things has been moving so well he prepared. The hired man got kind of lonesome and wants to be noticed."

Twice Robbed. Boston Transcript: The disgruntled householder reported to the police sergeant that someone had entered his house the night before and stolen a quantity of lead pipe.

"I wouldn't mind it so much," he explained, "only it is the second time I have suffered within a week."

"When were you robbed before?" "Last Tuesday by the plumber who collected his bill for putting that pipe in."

Unnecessary. The Scoutmaster—Now, then, Willie, suppose you had two apples and you gave another boy his choice of them. You would tell him to take the bigger one, wouldn't you?"

Willie—"Cos' 'wouldn't be necessary."

The Chauffeur's View. Browning's Magazine: "So you find the motor very useless?" "They're the limit. The last fellow I ran over ruined one of my tires. He must have been carrying a package of tacks in his pocket."

Getting Along. Kansas City Star: Pending the senate's action on the nomination of Bainbridge Colby the state department remains without a head. Probably, however, the country could get along quite a while without noticing it particularly.

Hallmark of Patriotism. B. L. T. in the Chicago Tribune: A complete Irish patriot is a man who when playing billiard, exclaims every shot with reverse English.

The Diversion. Ironquill Club: The officeholders in South Dakota are for Wood, leaving nothing for Lowden but the people.

LAND

At the Door of Denver

It means thousands of dollars to the breeder, shipper and feeder to be located near Denver and the Union Stock yards. It means better prices, no freight rates, more convenience and less shrinkage. The advantage of buying when the market is low and selling when it is high, can only be appreciated by the stockman. Many contracts are making plans to buy stock yards during 1920. Now is the time to buy at bargain prices. For choice is practically unobtainable. We have a very complete list of feeding, breeding and dairy farms near Denver. If you do not find what you want in our list, let us know. The following are only a few of the many bargains. IN REAL ESTATE—the fellow who is waiting usually pays the profit to the man who bought yesterday.

basement of the church Tuesday evening.

The Epworth League plans to secure the Welch sextette of Carroll to give a program at the church in the near future. Proceeds will be used to defray general expenses.

Where Money is Inadequate.
Dr. Frank Crane: You cannot pay in money a soldier for his heroism any more than you can pay in money a wife for her virtue, a parent for his care, a friend for his loyalty or the beloved woman for her smiles and favor. The two things heroism and money, have no common denominator.

A New Deal Coming.
Stouff Falls Argus-Leader: President Wilson, it appears, will have the chance to "break the heart of the world" by keeping the United States out of the league of nations. He has the power to do it, but he is on his last year and there will be a new deal all around after the 4th of next March.

A Fair Question.
Columbia State: Dealers are saying consumers are responsible for the high cost of food by demanding the "choicest cuts." Does this imply also to ice and coal?

All Kinds of Seeds

Besides every variety of garden seeds, we handle red and sweet clover seeds, timothy, alfalfa, millet, blue grass and rape seeds. These are fresh and have been selected to grow and properly reward those who plant them. When you want to plant onion sets, see us for the necessary sets. We have them.

Take care of the old hen and she will take care of you. This is the third ton shipment in the last sixty days. Sugar, 100-lb. Sacks We have good cane sugar ready for delivery. Contracts made last December are being filled now. Never in the history of our experience have we sold so much sugar in sacks lots during the month of March. Nearly all our patrons are of the same opinion that sugar will be hard to secure in the near future and the only way to avert this inconvenience and anxiety is to buy one or more sacks of sugar and set it aside until canning time. This precaution solves the situation and we are certain this community will be better prepared to meet the sugar shortage than any can mention. A full page article in the February number of the Ladies Home Journal under the heading "The Canning Sugar Shortage," is interesting and instructive. Every housewife should read it.

The guests were Mrs. Edith Beechell, Miss Minnie Marguardt, Mrs. Clifford Penn, Miss Genevieve Dorsett and Miss Myrtle Ronick. Anniversary Meeting. The eighth anniversary of the Girl Bible Study circle was celebrated at the home of Mrs. E. B. Young on Monday evening. The company was increased by a delegation of two auto loads of young people from Emerson, three young folks from Wakefield, and Miss Grace Soderberg who has been for five years a missionary to China, now home on a brief furlough. Mr. E. E. Lindgren, who has dates for evangelistic meetings, will be in a year in advance, took a rest day off and came to visit Wayne. A lot of people here know him and are faithful work in a union meeting held over seven years ago. His address was on "The Indwelling Christ" and as a result several young people responded to the invitation to take Christ as their Saviour. Messages from former students and Wayne girls were read in which they told of benefit received by coming in touch with this band of girls whose one aim is to win others to Christ. Special music was furnished by the Misses Martha and Edna Crocker and committee from the Woman's Bible circle served refreshments. Mrs. Hazel Atkins will entertain the members of the Bible circle Tuesday afternoon next week. A cordial invitation is extended to all women. For Miss Miller. For Teachers Convention

We will have a special showing of new spring apparel that is representative of the season's most desirable.

Children's Apparel

No flower garden was ever more beautiful than the blossoms which bloom in colorful profusion on youthful styled argandie and voile frocks. But even if one's frock is pretty one cannot be without a new coat, so fashion has provided hosts of juvenile cut styles, in all the new colors and novel touches that only the springtime brings.

New Spring Silks

It is not hard to plan a ravishing new afternoon frock when one has such gorgeous new silks from which to draw inspirations. Here are silks as novel in weaves as they are striking in color, others that shimmer alluringly as one drapes them in accordance with fashion's dictation.

The New Hosiery

There never was anything so lovely or so diversified as the many fascinating styles and colors of new hosiery.

The New Corsets

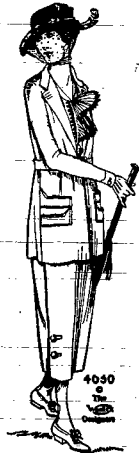

Corsets are most important to the satisfactory fit of new clothes. Before you select your new spring suit or frock, it will be well to be fitted in one of our stylish new models. The new corsets become an aid—not an annoyance—but make possible a graceful carriage. We feature the famous lines of Kaho and Nemo corsets.

Spring Underthings

Spring colorings have been invaded in the realm of underwear. For instance, one finds chemise, night gowns and other intimate bit of under apparel in such shades as delicate pinks and flesh colorings, all of the ever popular exquisite white fabrics.

The Orr & Orr Company

"QUALITY STORE"

Heralding a Most Brilliant Eastertide

When it's drawing close to Easter and you get that feeling that you just must lay aside heavy winter clothes for things that go with warmth and buds of spring, then it is time to inspect your wardrobe and visit our store.

Our new coats and suits have the very look of spring about them, in their fine textures, their graceful lines, their new and distinctive modes. They are unaltered, with a perfection of workmanship which makes you satisfied of staunch service.

New Spring Suits

To choose a suit this spring is a pleasant duty—for one can find models in tricotines and serges that are delightfully simple, yet smartly tailored and trimmed, while on some you will find fine tucking and stitching which lend a more severe appearance.

Priced from \$40.00 to \$85.00.

New Spring Coats

There is no end to clever coats and wraps in smart styles, particularly designed for each and every occasion. Whether you wish a simple little jersey jacket, a new Sport coat or one of these new desirable dress coats for every occasion, it is most delightfully interpreted here.

Priced from \$25.00 to \$75.00.

Spring Blouses

One may select from this opening display exquisite in the fineness of fagoting, lace insertions and hand drawn trims. Here you will find blouses with brilliant embroideries, luxurious beading and fringe effects.

Priced from \$6.75 to \$20.00.

Spring Frocks

Fashion's partiality to crepes, silks andorgettes as the basis for frocks, is one of the outstanding features of this particular exhibit. There seems to be no end to the chic effects she has accomplished with it.

Priced from \$25.00 to \$75.00.

Visiting Teachers

Make this store your headquarters while you are in Wayne. Don't fail to call upon us for any accommodations we can show you

New Spring Skirts

In separate skirts, slender lines prevail. For sport and general wear, nothing has quite the popularity of plaid skirts. In serges, satins, twills and taffetas. Afternoon skirts are more decorative and adapted for wear with tunic and overblouse of fitting fabrics.

The New Trimmings

NECKWEAR AND EMBROIDERIES.

These all hold a prominent place in the fashions of today. Springtime brings style, not only in wearing apparel, but also in smaller necessities which go to complete the costume.

New Mina Taylor Dresses

So alluringly fresh that there is no morning so gloomy that you don't feel more cheerful just to slip in a good looking Mina Taylor dress with its air of jaunty smartness. Mina Taylors are made to FIT—and just as you would plan it, there's room aplenty at shoulders and hips and across the bust; armholes are roomy, length is just right, sleeves delight you with their comfort and good looks.

New Spring Gingham

Colors and color schemes are delightfully brought into play in our new tissue gingham and Blue Bird tissues. All plaid designs are made more attractive this season by their difference. You are assured a crisp, new dress for morning and afternoon wear that will be just a little out of the ordinary.

LEAGUE COMEDY PLEAS

Wakefield Home Talent Present "Arrival of Kitty" Here.

"The Arrival of Kitty," a comedy produced by the American Legion post of Wakefield in conjunction with the local post at the opera house Tuesday night, was well received. Uncertain was the limit of the audience, but those present were enthusiastic and appreciative.

All parts in the cast were taken by members of the Wakefield post. The scenes were in a mountain hotel, left in charge of a bell boy and colored porter. The story of the play was built around William Winkler's determination to marry his niece to Benjamin More and his sister-in-law to a candidate from a marriage agency, in order that Winkler might get \$20,000 offered him. Bobbie Baxter, much in love with Winkler's niece, had no intention of letting this happen and

to prevent it, he disguised himself at Kitty Benders, an actress, with whom Winkler was secretly intimate. The arrival of the real Kitty, together with some mistakes in the identity of Benjamin More, produced amusing situations. In the end, all the misunderstandings were cleared up and preparations were made for a triple wedding of Kitty to Winkler, Jane to Bobbie Baxter and Aunt Jane to Benjamin More.

Those who had parts in the play were: H. A. Bowman, Walter Johnson, Earl Davis, Harry Borg, Carl Hoogner, Luther Hyase, Robert Hanson, Alvin Fredrickson and Milton Henry.

Between acts, R. G. Harpou of the Wakefield sang two selections, James Brittain of Madison furnished music on the piano.

Mrs. C. W. Casteel and Miss Gertrude Hayes of Windsor, spent Tuesday in Wayne.

BRICK SHATTERS WINDOW

Unknown Person Hurls Missile Into Frank Strahan's Home.

A brick was hurled through a plate glass window in the hall in Frank Strahan's home Monday night. No trace of who threw the brick has been found and no reason for doing it can be guessed.

Mr. and Mrs. Strahan were in the living room when they heard the crash as the glass fell. Thinking the wind had blown in the window, Mr. Strahan did not go out of doors to investigate. Mr. Strahan started to get some boards to close the open place, he found a brick on the floor.

The missile weighed four pounds, Mr. Strahan did not think a young boy could have thrown it. No unusual sounds had been heard in the evening. Mr. Strahan can attribute no motive to the person who did the damage.

To replace the plate glass window will cost between \$50 and \$75. No insurance covers the loss.

DEATH OF THOMAS STEELE

Former Wayne Pioneer Passes Away at Home in Sioux City

Sioux City Journal, March 22—Former Congressman Thomas Jefferson Steele died of apoplexy at his home at noon yesterday. Death came between sentences of a William Jennings Bryan story Mr. Steele was reciting to his physician, Dr. J. M. Knott, and to his son, James Dodge.

Mr. Steele had been at a dentist's office in the morning and was planning to visit the Elks club before returning home. He became ill and drove home, complaining of arrival of suffering from a pain in the back.

Mr. Steele called Dr. Knott and before his arrival the former congressman discussed with friends, who chanced to visit the home at 211 Jackson street, his peculiar feelings of leaving the dentist's office. He was resting on a couch when the physician arrived, and smiled while being scolded about working too hard. It was to sidetrack this discussion that he started to tell a favorite story of his old friend—the Commonwealth. He was laughing over one phase of this story when the end came.

Mr. Steele had just passed his 61st birthday.

Mr. Steele is survived by his wife and one son, James Dodge; two sisters, Mrs. W. J. Little of Sioux City and Mrs. E. E. Fash of Sutherland, Ia., and two brothers, Silas Steele of Sutherland, and M. P. Steele of Lingle, Wyo.

The sudden death of former Congressman Steele ended a life that was checkered of activity. From farm boy, to teacher, to lawyer, to banker, to business man, he followed many pursuits, which eventually led him to congress and from congress back to a great farm, when war came and he felt the call to

supply food resources which the country was then calling for. The former congressman's return to the farm came at a time when he had prepared to take a long rest, when he had practically decided that his life had been busy enough and that he had earned a vacation.

Augmented Food Production. The country was calling for greater crop production, for the utilization of every acre, and the call was sounded with a slogan that ran: "Produce food and help win the war." Against the urgency of friends he determined on taking over the management of his farm in South Dakota, and from that time on—Mr. Steele was found with his men prodding production, crowding into every day work that few young men would stand up under.

In congress he had favored all movements that would keep the country out of war, but once the die was cast he was found backing every step that promised an early and successful conclusion of the grim struggle. His son, James Dodge, enlisted as a private and had gone to the front, his farms had been denuded of young men when he returned to private life, and his re-espousal of farming was the direct outcome.

Active in democratic politics for the greater part of his life, Mr. Steele came before the voters for an elective office in 1914, when he was nominated as the democratic candidate for congress. In those days the nomination of a democratic congressional candidate was perfunctory and a more or less harmless diversion. The district, normally republican by from 15,000 to 20,000, took little interest in the opening proceedings, but soon began to hear of "Tom Steele."

Young Men Were His Hobby. During his busy life the congressman had followed one hobby—young men—and they were immediately responsible for making

R. H. PRATT IN STATE WORK

Heads Team to Hold Institutes in Nine Baptist Churches.

As one step in the program of the Baptist church in Nebraska, each church in the state will hold a one-day institute within the next two weeks. Rev. R. H. Pratt, pastor of the local Baptist church, is chairman of one team to hold institutes. He, with the other members of the team, will go to Valley, Alameda, Wahoo, Ashland, Dakota, Redwood, David City, Surprise and Osceola. This will not interfere with the regular church services here, as Mr. Pratt will be in Wayne each Sunday.

Another phase of the program will be talks in every Baptist church by leaders of the denomination, both of the north and south. The dates of these meetings in Wayne have not yet been determined. These meetings and institutes are in line with the Inter-Church World movement, with which the Baptist New World movement is affiliated. The program is an effort on the part of Christianity to face its task as it comes to the aid.

In order to carry on the work, large sums of money are needed and are to be collected during a five-year period. Following a drive in which the Southern Baptists raised \$100,000,000 and the Colored Baptists \$10,000,000, the Northern Baptists intend to collect \$100,000,000. This amount is to be subscribed by 20,000 members of the church, which means the making of \$500 for each man, woman and child in the Baptist church.

**PAVING MATERIAL COMES
1,200 Carloads Needed for Job—
To Use Unloading Machine**

Material for paving is coming in rapidly and all preparations being made to start the actual work by April 1. The material is being hauled to the north end of Main street, where the paving is to begin, and distributed as it will be needed. The cars of sand, gravel, cement and one of gravel, and some horses have been received recently.

In order to pave the first two districts of Wayne, on which a contract has been let, 1,200 cars of material will have to be saved to Wayne. This will include gravel, sand, cement, and asphalt. About fifteen carloads a day are to be received in order to keep a supply on hand all the time. The Abel Construction company has bought a machine to unload material. In a short time this machine will fill a waiting wagon with sand or whatever is in the car, thus saving time and labor.

Spoke on Foreign Missions.

"Foreign Missions" was the subject of a talk made by Mrs. L. B. Bringle of Lincoln at the morning service at the Methodist church Sunday. She declared the need for hospitals, schools, equipment, and teachers in the foreign missionary field.

After Mrs. Bringle's talk, a thank offering was given for foreign missionary work. It will be given to Winside to speak Sunday evening.

During Holy Week there will be two services as follows: Thursday evening at 7:30 and Good Friday

morning at 10:30. The service on Friday morning will include the preparatory service.
Everybody is welcome at all our services.

First Baptist Church.
(Rev. Robert H. Pratt, S. T. M., Minister.)

The pastor will speak at the regular services next Sunday at 10:30. The young people's meeting is to consider the topic of medical missions. Miss Nora Gilbert will lead the meeting.

A special combined meeting of the Ladies' Union and the Mission Circle will be held on Friday, March 26, at the home of Mrs. Gies Wade. An especially fine program has been prepared and all ladies interested in the work of the church throughout the world are cordially invited.

The pastor of the church is to be the chairman of the institute team that will be working throughout the state for the next two weeks. He will leave town on Monday and return Saturday each week. He especially wishes you to note that he will be at home and occupy the pulpit every Sunday. He asks your indulgence in the matter of calling which is interfered with by the duties of the new world movement.

Honorable Warf.
New York Times: An instance of the honorable and kindly way in which clean fight and is the fact that the Philippine government has granted a pension of \$6,000 to Gen. Emilio Aguinaldo. Aguinaldo, a gallant fight against the United States; he was beaten, and instead of nursing his sores he loyally did his best to bring about a better state of feeling between his own country and ours. He was instrumental in recruiting Philippine soldiers for our war against Germany and in civil life he never showed a trace of the old hatred, but conducted himself always as a citizen and official who had the interests of both countries at heart.

It is a case like that of Gen. Botha in South Africa, who also made a clean and very hard fight long after Kitchener and Roberts imagined they had put down the Boers, and who accepted his final defeat at about the same time the Filipinos accepted theirs, and in the same spirit. It was Botha who conducted the war against Germany in South Africa. Holy Week there will be two services as follows: Thursday evening at 7:30 and Good Friday

same was true of Gen. Smuts. It was true, long ago, of Robert E. Lee.

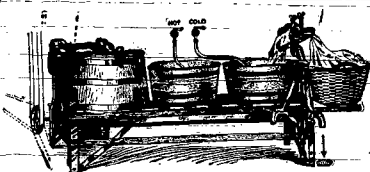

How long will it be before the world feels toward the ex- Kaiser and his chief lieutenants as it feels toward Aguinaldo, Smuts and Botha? Defeat is no stain, though it is the only one German "honors" seems capable of understanding.

Mr. Little's Plan.
Lincoln Journal: Congressman Little's plan for solving the soldier bonus problem is a stroke of genius. His measure would make the

Standard Oil and United States Steel pay the bill. His plan would be still more popular if he could find a way to make Mexico or the Kaiser or the man in the moon pay it.

Kenyon in the Headlines.

Des Moines Capital: Senator Kenyon, of Iowa, has a great many ways of getting into print. One would almost think that he had served a term in the Des Moines city council. But this is not true. His trait is a special gift. It frequently happens that the Washington dispatches give out the statement that the senator has marked out a policy and that he intends to stamp the entire country to make his views known. Then nothing more is heard on that subject. The top of column next to pure reading matter having been obtained the senator subsides.

He was slow to reach the Americanization proposition, then he took charge of the entire movement, according to the press.

He was a little lukewarm on the war until he went over to see about it, then he pushed everybody else off the platform.

The senator's real specialty is announcing some unheard of position and declaring that he will stand by that even though every man, woman and child in Iowa is against it. Then nothing more is heard of it. The senator, on one occasion said, "If Hoover is a candidate for

president, he ought to come out like a man and say so."
Another recent suggestion was that every nominee for president should name his proposed cabinet before the election. This has been marked up 100 per cent silly and has not been reached by any competitor.

Now the senator has declared for the brilliant orator, that man with sparkling eye, who can throw a half truth at an ignorant audience and think of another while they are applauding—Hiram Johnson. Think of having another orator for president! Or a man who thinks he is an orator, which is even worse. Think of a special session of the legislature in California to declare war on Japan and China both, with Hiram Johnson for president.

Senator Kenyon was the unanimous choice for the office he holds. And this enables us to shoulder a part of the responsibility on to the democratic party.

Not Worth the Money.
Alexandria Herald: R. O. Richards claims to have spent a quarter of a million dollars and sixteen years of his life to place the present primary law on South Dakota's statutes. By heck, it ain't worth it!

Smart Easter Millinery

Easter, of all occasions of the year, demands that every woman and girl look her very best. A smart hat has the effect of completing and adding style to the rest of the costume. With only another week until Easter, prompt selection of a hat to match suit or coat is imperative.

Easter bonnets are selected to be worn through the season, and in no previous season have hats been more charming or tempting. Rich in soft, luxurious colors, the clever novelty shapes of today are unusually becoming.

As we are constantly getting new hats, our stock is not picked over. The newest ideas in straws, trimmings and shapes are on display here.

To the Teachers

We welcome you to Wayne and we will take pleasure in showing you a complete display of millinery in the latest modes. We know you appreciate quality and style. You will be surprised to find how reasonably these two all-important points can be had here.

evening at the country home of Mr. and Mrs. Lewis Ring, when their youngest daughter, Miss Mabel, became the bride of Luther Bard, youngest son of Mrs. Carrie Bard. Following a vocal duet, "Because I Love You," by Miss Blanche Sandahl and Mr. Lewis Eskerth, the bridal couple attended by Miss Edna Sandahl and Mr. Everett Ring took their places beneath an arch of green and white, the bride's chosen colors. Rev. E. G. Knock of the Salem Lutheran church performed the ceremony, using the dignified ring service.
Following congratulations, the forty guests found their places at well-appointed tables where a delicious four-course dinner was served by the Misses Anna, Emelia and Eveline Ring and Blanche Sandahl. Between courses, Rev. Knock gave a toast and Blanche Sandahl and Lewis Eskerth rendered other vocal numbers accompanied by Marlon Ring on the clarinet and Edna Sandahl at the piano.
The bride was simply gowned in a dress of white satin and georgette with broad trimmings and her bridesmaid in a simple dress of green voile. The groom wore conventional blue.
Many beautiful and useful presents were received. The groom's gift to the bride was a brooch of diamonds and pearls.

Of course you want a Fordson Tractor

But if you want it for spring plowing don't put it off--order now.

Our Supply is Limited; There are not Enough Fordsons to go Around.

The Fordson is an ideal tractor for your farm. It is built compactly, simply, yet with abundant power. It pulls two bottom plows and will do a proportionate amount of any other farm work. The Fordson engine is unusual, it is simple, easily cared for, and so designed that the farmer can give any attention required in service. The entire head of the cylinders which are cast enblock, can be removed for grinding valves; the air cleaned with an improved air washer; a special carburetor allows the use of kerosene without any of the trouble that is commonly associated with this fuel.

Ask any farmer who owns a Fordson tractor and he will tell you that it has met his fullest expectations

What Is Chiropractic?

By HARRY E. VEDDER, D. C., PH. C.
Author and Professor of Chiropractic Physiology.

The following is taken from a statement over the signature of Richard C. Cabot, M. D., of Boston, Mass., recognized by the Medical Fraternity as one of the greatest diagnosticians in the world: "Out of some four hundred diseases, seven are curable by drugs, while five may be relieved by inoculation. The limitations of the use of drugs and the limitations of the Doctor himself, ought to be a matter of public knowledge." With such a frank admission, from a recognized authority in the medical profession, is it any wonder that the public are rapidly taking up some form of drugless method in their quest for health?

The foremost drugless method in the United States today is that of Chiropractic. Not only are there more Chiropractors in business, but the largest non-medical institution in the world is a Chiropractic school. There must be a reason for the strength shown by this system. That reason lies in the simple logical and reasonable explanation upon which the science is founded, and in the percentage of results obtained, which far surpasses those of any other method.

There is a vital, God-given quality in every person which makes him act, breathe, think and live. It is called Innate (meaning inborn) Intelligence. It is an intangible something which is carried to all parts of the body through the nerve trunks and their branches. As all the nerve trunks have their origin in the brain, then it is the logical conclusion that the center from which life is distributed must be the brain.

It is a well known fact that if all the nerves leading to the hand were cut, that hand would be paralyzed, and try as hard as we might, we could not move it. This is also true of the heart, which is supplied by nerves, and which is dependent upon them for its proper function. It is also true of the stomach, of the kidneys, of the intestines, and in fact of every organ in the body.

If it is true that an organ stops function when the nerves supplying it are cut, then it is equally true that they function improperly when the nerves supplying them are pinched. In brief, the carrying capacity of these nerves is destroyed if they are cut, while it is diminished if they are pinched.

Examination discloses the fact that there is in one place, and only one, where these nerve fibers can be pinched. This is in the spine where they leave the spinal cord and make their exit, through the bony openings between the bony segments. If one of these segments gets out of position, the size of the opening is decreased and as a consequence the nerves are pinched.

If the affected nerve which supplies the arm is pinched, we have some form of disease expressing itself there. If, on the other hand, it is one of the nerves supplying the stomach, we have abnormal functions there. It makes no difference what organ is affected, it can be traced back to the spine and there it will be found that one of the vertebrae (small bones) found in the spine is out of position.

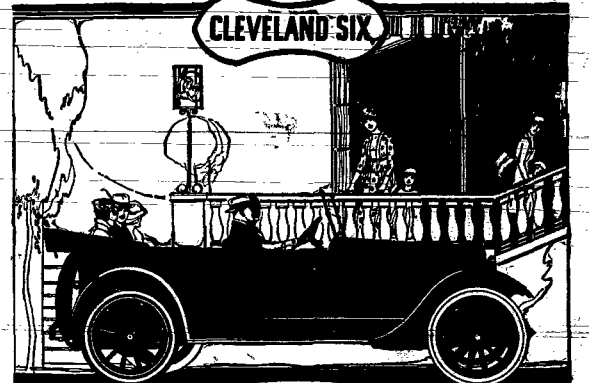

The Chiropractor is trained to locate the nerves which are at fault, to determine the places where they make their exit from the spine, and to adjust the displaced vertebrae back to their normal positions. As soon as this is accomplished the pressure on the nerves is relieved and health is the result, because the life current is allowed to pass freely to the diseased organ.

The Notable New Six

It's the Cleveland Six. Not really new, either, for the factory began deliveries last Summer and since then the Cleveland has gone out over the country into the hands of thousands of owners. And these owners say they are delighted with it. There is every good reason why they should be delighted with it. For the Cleveland Six is really an extraordinary car.

We cannot tell you how good the Cleveland Six is. You must ride in it and drive it to know.

This experience will convince you of the power and pick-up and speed and flexibility of this exclusive Cleveland-built motor.

It will convince you of the comfort of the car, contributed to so much by the low undulating spring construction and the wide soft seat cushions.

You will be amazed at the ease of handling your Cleveland, how lightly it steers and shifts, and at the instant positive action of its brakes.

There isn't any other light car that will give you so much of all that you wish, and at such a fair price.

SAYS HANDS WERE ALMOST USELESS

Rheumatism and Other Troubles Began to Disappear After Taking Tonic.

There's no mistake about Tonic being a real medicine, for nothing but a real medicine could do what it has done for me. I had rheumatism and other troubles. I had been in the hospital for months. I had been in the hospital for months. I had been in the hospital for months.

"Beginning with indigestion four years ago," continued Mrs. Campbell, "my troubles multiplied till my life became one of constant suffering. Everything I would eat caused me to vomit and almost tortured me to death. The gas would press on my heart at times so that I could hardly breathe, and I would almost smother. I suffered from heartburn and had nervous sick headaches and was so dizzy that I would almost fall every time I stooped over. I had rheumatism in my hands so bad that my fingers were all bent over and at times they would become so numb as to be almost useless. My appetite was poor and I fell off from one hundred and thirty pounds to ninety and nobody will ever know how much I suffered.

"I was in an awful fix, and while I tried everything I recommended I found no relief until my sister and some of my friends got me to take Tonic. While on my second bottle my appetite returned—I could eat my anything I wanted and my other troubles began to leave me. I had regained strength, pounds of my lost weight and am now able to eat anything I want without suffering from gas or indigestion at all. My hands and fingers have become supple again and I hardly notice any rheumatic pain in them. Those headaches and dizzy spells are gone and I have improved so much that I hardly feel like the same person."

AGRICULTURE NOTES.

Poor Stock, Less Farm Income.

It doesn't pay to grow low-grade or poor stock of any kind. This statement is made by the United States department of agriculture in connection with a series of tests on the efficiency of farm management in the south. On 289 dairy farms it was found that 48 farms receiving the five stock grades had farm labor incomes 45 per cent below the general average. On the other hand, the 28 farms with receipts per cow of more than \$120 had farm incomes 75 per cent above the average and were the most profitable of the group. The greater the live stock kept, one of the 16 points outlined by the department to be tested in determining the efficiency of farm management. Full information concerning the test is embodied in a new circular of the department.

Make Every Farm Feed Its Stock.

The production of enough feed for its family live stock, work stock, and other stock live stock is second in importance only to producing food for the family, in the opinion of the United States department of agriculture. In farm management studies in the southern states indicate that the most profitable farms not only produce their own feed but also have a surplus of them to sell, and that the live stock is usually of better quality and better grade than of farms where staple feeds are bought. These facts are brought out in a series of sixteen tests formulated by the department of agriculture to show whether or not a farm is being efficiently managed.

The average farm family, made up of five adult persons or their equivalent, requires for its proper maintenance two cows, forty poultry, and a dozen hens, and one pig for each adult person or his equivalent. Enough calves should be raised to replace each cow reaching the age of eight years. This family live stock, it is calculated, will require one ton of corn and 1 1/2 tons of hay, 224 pounds of oats, 55 bushels of corn, 40 bushels of oats, 4,200 pounds of cowpeas hay, 2,100 pounds of oat hay, 400 pounds of corn roughage green storage from 2 acres, and 5 acres of pasture or their equivalent. A fair provision to a head for work stock is 60 bushels of corn, 90 bushels of oats, and 3 tons of roughage. The arrangement of crops and pasturage to meet these requirements are suggested in United States Department of Agriculture Circular No. 83, "Testing Farms in the South for Efficiency in Management."

Garden Seeds Plentiful and Cheaper.

Indicates that there is plentiful supply of garden seeds this spring, with the possible exception of certain varieties of peas, is contained in reports received by the bureau of markets, United States department of agriculture. From representative seed dealers engaged in wholesale, retail and mail-order business. Study of several mail-order catalogues indicates that in the majority of cases the prices of seeds are less than for the past two years, the greatest reduction being for cabbage seed. Market reductions are also shown in the prices of garden beet, carrot, onion, spinach, and English and Swedish turnip seed. An increase of about 18 per cent is noted in the prices for garden peas, while similar increases are shown for muskmelon, summer and winter squash, and tomato seed. In this condition should prove favorable to extensive garden planting, which is urged by the United States department of agriculture. Replies to inquiries addressed to representative seed dealers showed that a few in industrial centers particularly in the East, were selling from 10 to 30 per cent less seed than last year. The cause, apparently, was the shortage of labor on the farms. Compared with normal conditions before the war, the

reduction in these eastern centers ranges from 10 to 45 per cent. On the whole the sales to home gardeners' seem to be larger than these last year, ranging from 10 to 25 per cent increase in some sections to 50 per cent in others. Dealers in the most northern cities were unable to report adequately because the season had not advanced sufficiently at the time replies were sent in.

Markets and Products.

Sioux City Journal: While the optimism of the better trade and industrial conditions was more psychological than material during last week, there were sufficient tangible facts to give encouragement to those who hope for improved conditions. Reduced shipments of the consequent reduction in buying resulted in an increase in available supplies allowing them to more nearly approximate demands. There is yet a large margin between the two, but it is considerably less than it was a month ago and less than it was a week ago. Although the reduction of home buying may be placed an increase of imports and a reduction of exports, thus reducing supplies of the country which have contributed to the scarcity of supplies against demands. These conditions are not reflected in reduced prices as yet, but in many of the dominant commodities there is a far less buoyancy than formerly and the evidence is that the great of high prices has been reached, though the recession has not set in. Industry and trade are less feverish than they have been for months. It is likely that preparations are being made to adjust both to lower levels. Just where the reductions will begin and how they will be brought about are not disclosed in a survey of the situation at this time. It is felt that the direction of the wind, however, Illinois has decided to attempt little of its great road building program this year because of labor shortage of material and labor. Other states and parts of states are adopting the same plan. This will reduce the demand for cement and labor so that the price of both will be lowered. The reduction may not be very much when spread over the entire industry, but it is felt that the illustration is only one of many industries that may be effected in the same way. It is felt that the Building programs are being curtailed and this policy will reach both labor and building material. The first effect will be to cut out excessive profits, for with the market reduced or eliminated, prices must be lowered to secure trade. So long as this can be done without reducing the price of labor that policy will be followed, for capital does not want any more control with industrial unrest. It will sacrifice any excessive profits first. When these profits are forced out of prices by a slack market, the next

place hit will be the cost of labor. Both reductions will come gradually and probably with a readjustment of other conditions which will do no one any great injury and create no financial disturbance. They are forecast in the straws which the wind of the last seven days have been shifting about the industrial and trade skies.

Chicago Daily News: Every city in the world is wrestling with a housing problem. After the great war humanity, haunted by fearful dreams, huddles together, in the towns.

Making Money in College.
St. Joseph Gazette: One college graduate makes \$10,000 a year in a tea room. Another receives \$2000 a year for running the college dining room, more than any professor on the faculty is getting. Store money in food—run the body that in food for the mind. Here is food for thought.

MISSIONARIES

With gratifying frequency persons come to us for glasses saying a friend of theirs sent them here. Our customers not only recommend our optical service but also teach their friends that glasses are beneficial to general health in addition to improving, protecting and preserving sight. These friendly patrons who spread the gospel of good sight are our "Missionaries," converted by the service we rendered them.

In the Spring a Woman's Fancy Seriously Turns to Thoughts of Clothes

Signs O' Spring Daffodils and Tulips and New Spring Clothes

Heaps and heaps of new clothes. What's new? Every woman is asking. The spring tailor is of course of first importance; for what is spring without a new suit. There are jaunty youthful Etons, a new version of a long splendid line; smart tailor-mades with a slightly longer coat and a nip-in effect at the waist—and box coats with countless new details of embroidery, string belts and vestees.

Coats—sport coats from the mannishly tailored polo coats, both long and short, to the feminine wraps of soft folds. Frocks—bouffant and draped of taffeta; satin dresses with harem skirts and straightline tricolettes, wool embroidered.

Here are the Cleverest
Novelties in the

Newest Dresses

They are most delightfully feminine with their puffed pockets giving the effect of the zig top skirt which is the basis of all newer styles this season. They are most prettily made in all the most desirable effects of heading and embroidery in such materials as taffeta, georgettes, tricolettes, satin, foulard and georgette combination. In all the heavier and pastel shades.

New Spring Suits

Whose Differentness Gives Them That Desired Exclusiveness

The suit with a longer coat — an effect of length which was sponsored by Paris has been accepted as one of the leading fashions for spring.

This type suit, gives the much desired slender and youthful line. At times the coats are slightly fitted—with just a suggestion of being nipped in at the waistline; or they have string belts, silk vests or a bit of embroidery. In many colors of such materials as tricotine, men's wear serge, poplins and checked velours.
