Belated Action

Mitchell Republican: At last the department of justice has taken action on the case of Mitchell. It is alleged against the American, the Kevere and the independent committee that they have sold for from \$5. to 21.00 cents—eighty that cost them only 6 cents a pound. But they have been doing this for months. If they have been doing it all why wait until they have got away with all the swag before doing anything about it.

forced out of normal position by some consension of external forces, either by a blow, fall or strain, pressure on one or more of these thirty-one pairs of emitting nerves will in proportion to the displacement, shut off the current of mental impulses thus causing a lack of expression of life which means Disease—the light—proportionately grows dim. Sit on your foot and it goes to sleep. You have shut off the current. The foot is temporarily paralyzed. Step on the hose and the water cannot freely run. Should we try to doctor up the nozzle or should we remove the foot? Which appears to our reason as the best thing to do. The chiropractor is a mechanic. He does not massage or

inker with the nozzle. He has learned the art of adjusting the human machine. He goes to the seat of the trouble and adjusts the subluxated vertebrae to their natural positions by the use of only his bare hands. Figuratively speaking the chiropractor has taken his foot off the hose—and natural action results. When you are natural then you are healthy—i.e., chiropractic, the quickest and safest way to health and you will be both happy and healthy. Consultation and spinal analysis free.

UGLY CAT ATTACKS CHILD

Animal Shot and Body to be Examined for Hydrophobia.

A vicious cat attacked the little child of Mr. and Mrs. W. C. Steele of Emerson last week when the child was playing on the porch of her home. When the man next to him on the place heard the screams of the little one, the cat was scratching and biting him in the face. The man kicked the cat off and shot it as it ran into a nearby tree. As the cat was not killed it was sent to Lincoln to be tested for hydrophobia.

The Salvation Army board of Dixon county was organized May 27 for the purpose of using the salvation state, national and territorial relief funds to best advantage. The officers elected are: President, Mayor, O. B. Newton of Ponca; vice-president, Chas. S. Beebe of Wakefield; treasurer, H. S. Collins of Wakefield; secretary, A. H. Logan of Ponca. Other members of the board are: Mrs. Jamie Light Messrs; Judge F. D. Falen, Dr. G. A. Young, A. D. Townson and all his life. He was the junior mem-

ber of the Demme Brothers' firm, breeders and raisers of Poland China hogs and Shorthorn cattle.

Among the teachers elected to teach at Ponca next year are: Superintendent, Conrad Jacobson; Russell, Fredon, Wayne; Ruth Talbot, Newcastle; and Mrs. Conrad Jacobson.

Thimius Swanson of Wausa met with a painful accident when the horse he was riding home last week became frightened at an automobile and threw him to the ground causing him to suffer a broken collar bone.

Mr. and Mrs. R. W. Coleson of Wausa drove to the creek near their home Monday afternoon. They did not notice the approach of the severe storm visiting this territory that night until it was upon them. Then they started to ride home, but their car was stalled in the mud. They waited for the storm to abate and then waited the remaining four miles to their home.

Mrs. Christina Johnson of Wausa died at her home there May 24 at the age of 64 years. Those who survive her are husband, J. A. Johnson of Wausa, her aged father, G. A. Larson of Wausa, and five sons: Fredore of Norfolk, Arvid of Brishard, S. D., Martin, Orville, and Raymond of Laurel and Wendell of Bloomfield.

The married men of Wausa played a ball game with the unmarried men last week and defeated them by a score of 18 to 5. Another game will be staged soon between the men of the town and those of the rural district.

In regard to the Memorial day address delivered at Stanton by Judge A. W. Welch, the Stanton Register says: "Judge Welch very fittingly painted a pleasing word picture pointing out the wonderful work performed by the old veterans of the Civil war, the effect their brave deeds had on the development of this nation, and the excellent example of fitness and courage they set for the men of the late world war. The address was thoroughly interesting and gripping."

The butter factory of Bloomfield will install an ice cream manufacturing machine this week.

Word was received by Mrs. Andrew Gosshans of Aurora, that her mother, Mrs. Esther McKay, died on Jacksonburg on her return from a trip to Europe to visit the grave of her son who was killed in the late war. Mrs. McKay had another daughter and her husband went to Europe early this spring to see the country and visit the grave of her son. She was shot and while returning home, she was buried at sea.

The language law recently passed in the legislature stating that no subject can be taught in a school in any foreign language is to receive its effect in Lincoln. Albert T. Meyer, a teacher in a Zion school near there has been teaching reading in the German language for some time. He answers the charge with the statement that this law does not state the time included in school hours and that when he teaches German is a time not within the range of his school duties or hours. Those who filed the complaint say that the school hours from 8:30 a. m. to 4:30 p. m. are called and dismissed in the evening, and that the law is definite enough that the teaching of German is a violation of it. The case has aroused considerable interest.

Roy Childs who was driving a tractor for Archie Lawley near Allen suffered a broken arm, and collar bone besides other injuries last week. He reached the end of a row of plowing and as he glanced back the tractor started to go into a ditch. He jumped to clear himself from the machine, but caught his foot and he was carried under the tractor, sustaining the injuries.

R. L. Lathrop of Laurel, returned last week from a trip in the west. He was accompanied by his father. The former thinks the country here is far superior to that in the west. He visited Mr. and Mrs. Robbin at Twin Falls white in the west.

The 4-year-old daughter of Mr. and Mrs. Andrew Jensen of Laurel died May 30, from what was supposed to be brain fever. The child was very ill with influenza last winter when the family was returning from a trip to Denmark. The funeral service was conducted at Laurel Wednesday of last week.

Mrs. Bethea Estler of Laurel, who assisted Attorney P. S. Berry of Wayne with his stenography a few weeks, returned to her home from the summer.

A grading gang stopped at Pierce last week and intended working the roads out of there this summer but as the city was not built, the men went on to Creighton. As soon as the sub-contractor has the culverts in, another gang will be sent to work the roads.

Walter I. Black who taught at Pierce the past year and at Randolph the previous year, was married May 21 to Miss Meryl Malone of Pierce, who taught the seventh grade in Pierce the past year. Mr. Black was elected athletic coach for Wayne but resigned to accept the superintendency at Pierce. Mr. and Mrs. Black will attend the state university at Lincoln this summer.

Flager is going to celebrate July 4 this year with the biggest party they have ever had. Monday, July

will be the day observed. The American Legion post is to be directly responsible for the success of the celebration.

Edgar F. Morris, a pioneer of Hartington, died at his home there May 29, at the age of 66 years. Mr. Morris moved to Hartington from Wayne soon after the first lens were laid in the then new town and has lived there since. He suffered a broken hip the night of the Grand hotel fire and had been failing in health since. Funeral service was conducted by the Masonic lodge Tuesday of last week.

Patrons of the district schools of Cedar county meet June 14 to organize for the coming year and consider free transportation for all pupils living more than two miles from the school. Under the new law these pupils are entitled to this, and it is thought this fact will encourage consolidation.

A marriage license was issued at Hartington last week to Miss Angie B. Fish of Belden and Mr. Russell Preston, also of Belden. Miss Fish was a student at the Wayne State Normal, finishing the course in 1917. Mr. Ernest Frevert of Wayne, and Miss Anna Brummond were married, May 27, at the home of the bride's parents at Pender. Miss Frevert of Wayne, acted as bride's maid. The young couple will live on a farm near Wayne.

to look in some other direction than that of the referendum; if they are to continue to keep their hopes up. And, doubtless they will keep on looking around. These are still some points pending before the supreme court, and two national political conventions are in sight. But to those whose vision is not obscured by the blur that comes with much strained watching, it looks very much as though the eighteenth amendment was going to stay put.

We Sell Gripwell Tires

We are not recommending the Gripwell Tires just because we sell them.

We sell them because we recommend them. There's a difference.

Back of the Gripwell product is a conscientious desire, not merely to "make tires," but to make tires right. And it is that determination, more than anything else, which puts the extra miles under your car.

We can fill your wants in either cord or fabric tires, and tubes.

Remember that prices are advancing on account of the scarcity of fabric, and that it is highly important to supply the summer's tire needs now.

Ahern's

Cool, Summer Wearing Apparel

Ready Made

Ready-to-wear is our specialty. We can now furnish yourself and your girls with everything you need in summer clothes ready made.

Because it is now especially hard to get sewing done we have put in a much larger stock of ready-to-wear than usual and you can come here expecting to find a good assortment of all these goods to choose from.

Fancy Dresses

For Your Best Wear

These are made mostly of fine, dark printed voiles, stylishly trimmed and designed.

These are as good looking almost as the most expensive printed silk georgettes and have the advantage of being washable as well. They are also much lower priced. The very nicest ones sell at \$25 to \$30, and many of these are priced as low as \$15.00 to \$18.00.

We Fit These Free of Charge.

Hardly any two are alike.

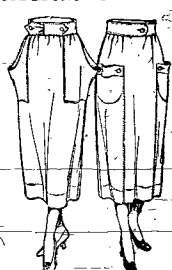

Silk Dress Skirts

They are made of lovely rough weave, silks and satins, in mostly bright colors and are very serviceable, as well as dressy. Priced very reasonably

\$18.50 to \$25.00

Washable Skirts

White skirts are to be so popular this summer that especial care has been paid to getting out nicer styles than usual and some of the materials are so fine as to closely resemble white satin. We have a fine selection for you if you come now.

Priced \$2.75 to \$7.50

Dainty Dresses of Gingham and Silk Tissues for Afternoon and House Wear

We have found a maker who puts "style" into these useful dresses and you will find them entirely out of the ordinary. They are priced mostly from

\$5 for the Finer Gingham up to \$10 for the Dainty Silk Tissues

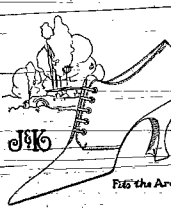

Dozes of pretty styles, and all sizes up to 46 to choose from.

For the Girls

You will find here dresses, play suits, rompers, and middies for all the children. Styles that it takes a lot of work and planning to make at home are here ready to put on, and the price is but little more than you would pay for the materials and trimmings.

More New Pumps and Ties

The exclusive, dressy, neat fitting low shoes that the short skirts make necessary if one's feet are to look trim and well shod.

No gapping tops, clumsy heels or awkward toes, but a kid glove fit that delights the eye, and these are the kind of low shoes that stay good looking. They don't get out of shape or skuff because the materials and workmanship are very best to be had. Both low and high models in black, brown and white. A complete range of sizes from AA to EEE. Priced reasonably and fitted properly.

Fake Sales

The late epidemic of special sales put on by stores in a few of the larger cities for the purpose of furnishing clothes to "an oppressed and suffering American public" is now over.

Just as we predicted in this space three weeks ago, these sales were really put on to dispose of a lot of ready-to-wear left over on account of a backward spring and to make the reductions look genuine, some staple merchandise was included for leaders.

The public who were led to believe by the advertising that all merchandise was to be sold at a big discount were fooled as usual, and paid full price for things they really needed. One big store who stated they were able to sell everything at thirty per cent discount because the market was down and they could replace the goods at a lower price now, admit they were mistaken and that their buyers are now paying increased prices for goods.

Another big store advertised that his neighbor had marked his goods up before he marked them down and that his discounted prices were no cheaper than regular prices. The lesson to be learned from these sales is that the "stuffed" merchandise when reading the advertising of all city stores who are always holding sales at all times of the year under names they invent such as Anniversary Sales, Stock Reducing Sales, Removal Sales, Milliner Sales, etc. Namely—no store can be continually giving these discounts unless they mark their goods high enough in the first place to cover all these reductions and still leave a good profit. They have to hope a profit to pay expenses the thing is every business and their continual discount sales are not genuine, but are advertising stunts put on as an appeal to the human instinct we all possess for "getting something for nothing" or "below the usual price."

You will find the stores who priced their goods right in the first place and who conduct genuine clearing sales of unsold merchandise at the end of the season the safest place to trade the year around. Your home stores are run on this plan, as are almost all smaller town stores.

In addition to fair prices at all times, they are willing at the end of the season to make a genuine reduction on such goods as are apt to go out of style.

They do business at less expense than the city stores and are contented with a reasonable profit. Anything you buy is guaranteed satisfactory and your home merchant is right on the spot to make good. The safe, economical all-year-round place to trade is at home.

The greatly increased attendance at the State Normal testifies again to the fact that this school is the leading one of the kind in the state.

The long delayed hot weather has been here this week in earnest. The sudden change has made people uncomfortable. But all realize that the warm sunshine is just the thing needed to encourage the growing crops and stimulate them to make up for lost time.

The interest centering in the republican national convention reflects in a large measure popular dissatisfaction over the record of the democratic administration. It is indicative of the way people will vote when they are given a chance to express themselves.

Increase in the price of ham and bacon, while hogs on foot have been going down, has charged to largely increased wages to union laborers, and yet some politicians would have us believe that labor unions and farmers are working hand in hand and that their interests are mutual.

Gall has been developed to the sacrifice of the conscience the last few years. Accordingly, some people don't feel satisfied unless they charge enough more than service of a commodity is worth to make the victim sit up and kick. If a protest rises to 26 in the shade, a feeling of calm satisfaction over a deed well done prevails.

We are pleased to note that the Wayne Woman's club is proposing to make an interesting day by leaving the little park and other grounds near the railway station. Without a great deal of effort, the park may be made very attractive and will give travelers going through or staying coming here a good first impression of the town.

Mrs. Marie Weeks has been selected by the Nonpartisan League to run as their candidate for congress in this district. The report does not state whether she will accept or not. Mrs. Weeks has been an ardent democrat, having served as local trustee during the administration of Governor Neville, and having lately been defeated as a candidate for delegate to the democratic national convention. It is not clear whether she will be persuaded by the nomination to renounce democratic ties and raise about the banner of the League, she will doubtless explain in the North-West Press of which she is editor.

Our reasoning powers are too feeble to reconcile the increased cost of smoked ham and bacon with the decreased cost of live hogs. The explanation does not convince us that the wide difference is necessary or warranted. It has been pointed out that the cost of production is manifestly far less until the hog reaches the packer, and it does not seem probable that higher charges to packing house employees would more than overcome the difference between live hogs now and a year ago. If increased prices for ham and bacon are materially chargeable to increased demand, the fact ought to influence the market price of hogs on foot.

Increased production is not always encouraging, though it is increased production the world needs, right now, to equalize prices and stabilize society. Conditions have not been dealing fairly with farmers during the past year, but they are too big and substantial, too loyal to the future, to be down as some other classes have apparently done. The world needs workers and producers more than ever, and the farmers are doing their full share, and they should be adequately rewarded either by an increase in the prices of things they produce or a lowering of the level of the prices they have to pay. One or the other is bound to happen. In the meantime farmers can be depended on to serve the country's pressing needs.

For the first time since we have been in the newspaper business, we were this week made to keenly feel the financial scarcity of print paper. We had already tried the ascending cost. A standing order was not filled June 1, and Saturday found it without a word in hand. Telephone communication to Omaha aroused a wholesale house to observe its obligation, and we received 400 sheets by express Monday morning. This shipment was little more than half enough to supply this week's Herald. The

THE EARLY DAYS IN TWO COUNTIES
 From Wayne Herald for June 8, 1899:
 Earl Gibson and Ben Skiles returned from the state university. Charles D-Tower returned from Seattle and is visiting his parents. J. M. Cherry went to Lincoln to attend the Masonic Grand Lodge.

S. Goldie accompanied his wife to Le Mars, Iowa, where she will visit.
 Markets are: Wheat, 57c; corn, 21c; oats, 20c; cattle, \$4.50; and hogs, \$3.20.
 Mrs. Herman Midner and children went to play baseball with the team of Plankinton, S. D., for an extended visit.

Prof. H. E. Hanson and wife came from Stanton, having shipped their household goods from Oklahto to that place.
 Mr. and Mrs. Charles Smith of Correctionville, Iowa, are visiting at the H. F. Wilson and Robert Mellor homes.

Five of the college students drove to Pierce to play baseball with the high school team of that place. The score stood 9 to 7 in favor of the college.
 E. W. Wilkins, W. H. Hogewood and F. A. Dearborn went to Kansas City to attend as delegates at the national convention of Modern Woodmen.

Dr. and Mrs. E. S. Blair went to Kansas City to attend the national convention of Modern Woodmen. Dr. Blair being a candidate for one of the head physicians of the order.
 Alex Laurie died at his home in Park Hill, Ont., May 11, 1920. He was a native of Scotland and came to Canada in 1852. Two of his children, Mrs. James McIntosh and Alex Laurie, live in Wayne.

The county teachers' institute is being held at the Presbyterian church this week. Miss C. White, county superintendent, and Superintendent J. F. Saxtor of Lincoln are conducting the session. Prof. Pile and Prof. Conn are the instructors.
 Miss Pearl Reynolds closed her second term of school in the Anderson district in Dixon county. The feature of the last day was a picnic at the Chris Peterson home, to which the patrons and children were invited.

The annual meeting of the high school alumni association was held at the opera house. The address of welcome was given by the president, Thomas Holtz. To this Fred Wright of the class of '99 responded. Prof. U. S. Conn and Prof. E. A. Lundberg gave talks. Miss Fannie Skiles also spoke, telling some of the trials and triumphs of the

teacher. At the business session the officers elected were: President, Edward B. Phillips; vice president, Harry Seice; secretary, Edna Britton; treasurer, B. J. Holton.
 Miss Mamie Elliott, Miss Lizzie Brown, Miss Gertrude Bayes, Miss Jennie Carter, Miss Carrie Hupp, Miss Nellie Miller, Miss Jennie Carter, Miss Nellie Johnson, Mr. and Mrs. C. H. Bright and Mrs. Lowry, who taught in Winslow and the vicinity, attended the teachers' institute at Wayne.

Members of the Monday club were entertained at the home of Mrs. T. J. Steele in Sioux City, were: Mrs. C. A. Chace, Mrs. F. A. Vetter and Mrs. W. F. Norris. Mrs. Frank Keller, Mrs. Danie Harrington, Mrs. W. H. McNeal, Mrs. F. M. Northrop, Mrs. E. M. Smith, Mrs. A. L. Tucker, Mrs. A. W. Welch and Mrs. W. F. Norris.

From Ponca Journal, June 16, 1920:
 The well dug at the cranberry this week to the depth of forty-two feet, passed through a vein of fine white sand twenty-six feet thick, excellent for building purposes but disastrous as to getting down to water.

The Sioux City Journal says it is rumored that when the new tugboat arrives, passenger trains will be crossed over the river between Sioux City and Covington. Hon. A. Hart Norris of Morganville, Genese county, N. Y., arrived here on Friday on a visit to his town of Elm City and his valuable tract of land in that neighborhood. Mr. Norris passed last winter in Florida where he has an orange grove in the shade of which he kept comfortable last winter, while we in the north were being persecuted by blizzards and intensely cold weather.

Everything now appears favorable towards the sinking of a shaft by the coal company. Mr. Stough went to Sioux City on Saturday and saw Colonel Straight, who will in a few days be here for the purpose of negotiating with the company for putting a shaft down. If this is done, as now seems likely, coal will probably be taken out before next winter. This will be a consolation and profit not only to stockholders but to everybody else in northern Nebraska.

Among the clouds in the west on Tuesday afternoon at about four o'clock, was seen from this place what appeared to be a balloon. If our friend Pierce of Omaha, has prematurely inflated his balloons, it is possible that he has taken a trial aerial trip into this part of the country. The balloon seen in the west, it is believed, was moving rapidly to the north. Where it came from or where it was bound for, we cannot, as a matter of course, designate. We shall probably hear from it in a few days.

Belgium's Example.
 Sioux City Press: There is a valuable lesson to be learned in the mere fact that Belgium has been able to borrow fifty millions of dollars from a couple of New York banks, while our money market at home is almost air-tight. There's a reason—the Belgians have gone to work.

The Car Shortage.
 Drivers' Journal-Stockman: A freight car shortage such as now exists would have cutted a panic twenty-five years ago. There was nothing then to take the place of the cars, while today motor trucks are relieving the railroads of thousands of tons of freight. One leading motor truck manufacturer puts it, this way: "I understand that at times over 2,400,000 freight cars carry about one-half their capacity and travel a distance of about twenty-five miles per day per car. If this is a fact we can help make up the

shortage in freight cars by outfitting them for long distance hauls only and putting it up to motor trucks to take care of the short hauls. If we did this it would give us approximately 1,200,000 additional freight cars if we took the above figures as a basis."

AFTER FIVE YEARS

Wayne Testimony Remains Unshaken.

"Time is the best test of truth. Here is a Wayne story that has stood the test of time. It is a story with a point which will come straight home to many of us. Mrs. Ira Hoshaw-Kidney says: "I was confined—so. Not a usual week with a severe attack of grip. Upon recovering, I found my kidneys had become weakened. I was a great sufferer from sharp pains across the small of my back and lameness through my loins. My head throbbed for hours at a time and I couldn't rest well at night. After taking Doan's Kidney Pills a few days, the backache left me and my kidneys were strengthened. In three weeks all symptoms of kidney trouble had disappeared."

Almost six years after Mrs. Hoshaw gave the above statement she added: "I keep Doan's Kidney Pills on hand all the time getting them at Feller's Pharmacy. They keep me in good health by driving away any signs of kidney trouble I may have."

Pull Together for an American Merchant Marine

The war resulted in the creation of a great merchant marine—10,000,000 tons of American ships which cost us \$4,000,000,000.

Everybody agrees that we must keep this fleet on the seas.

If we fall back to pre-war conditions—when only 9 per cent of our foreign trade was carried in American ships—we shall be in the position of a department store whose goods are delivered in its competitor's wagons.

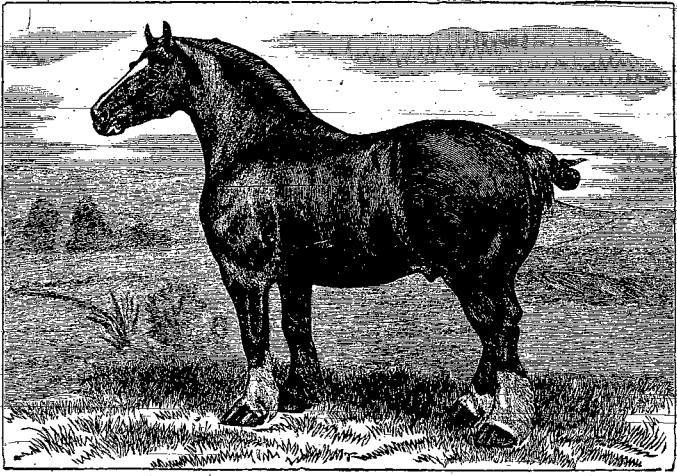

Congress is considering legislation which will perpetuate our war-built merchant marine.

Until this is done—the ships we have should not be sold to face conditions which, prior to the war, resulted in the decline of our merchant marine to insignificance.

This Committee calls attention to these facts because a right solution of our shipping problem is vital to the future prosperity of shipbuilding, but equally vital to the safety and prosperity of the nation.

MERRYMAKING AT LA PORTE

Funds From Newly Used for Joyful Social Function.

The charivari crowd of the La Porte neighborhood has had a jolly time the past winter, testing the flexibility of the purse strings of the newlyweds roundabout. The collections were saved and used to pay the expenses of a dance held at the home of Mr. and Mrs. Ferdinand Hammer on Saturday night, May 15. The Wakefield orchestra furnished the music and the dance was free to all comers. The home of Mr. and Mrs. Ferdinand Hammer was formerly the county courthouse. It is a large brick structure. The removal of three partitions on the second floor has made a spacious dance hall. On this occasion, over 200 people were in attendance, some coming from Emerson, Bender, Hebard, Wakefield and Wayne. Sandwiches and soft drinks were served at a lunch counter in the garage. The dance broke up at 2:30 a. m. To say that the crowd had a good time is putting it mildly. It is expected that other jollifications will be held in the near future. Mr. and Mrs. Ferdinand Hammer are to be commended for their hospitality, and it is pleasant to know that the rafters of old La Porte still echo with the merriment of the good people of this county.

Mr. Hammer's farm is located eight miles southeast of Wakefield and eight miles southeast of Wayne. A house that was the home of the late Judge James Britton family before the site of the town was removed from La Porte to Wayne stands unoccupied just east of the old courthouse. The La Porte cemetery is located about two miles nearer to Wayne.

The grade of the abandoned railroad may still be plainly seen in Mr. Hammer's pasture.

Commemorative Festival.

The Ladies' Aid society of the Evangelical Lutheran congregation southeast of Wayne, had its annual festival Sunday, commemorating the foundation of the society. Rev. E. Gehke made an appropriate address which was followed by a church service and a flag drill by the parochial school children. A luncheon and refreshments were served. All day for burial in Greenwood cemetery. The families of Mr. and Mrs. Paul Mines in Sioux City Sunday night did not live. The little one's body was brought to Wayne Tuesday for burial in Greenwood cemetery. Mrs. Mines is reported comfortable satisfactorily.

Maps Not To Attend.

Norfolk, Neb., June 8.—Burt Maps, delegate to the republican national convention from the Third Nebraska district, is unable to attend the convention due to ill health. He has waived his convention privileges to R. L. Stout of Tekamah, Neb., legal elector alternate, who is now in Chicago. Stout is said to be a Wood adviser. Maps would have remained with Johnson to the finish.

Help Not to be Short.

Lincoln, Neb., June 8.—In spite of the general labor shortage over the east country there is an urgent call for help among Nebraska farmers, according to R. E. Holland, agricultural agent here. Prospects for a good wheat crop are visible, which means a heavy demand for men during harvest, but farmers in some of the big wheat counties are anticipating about harvest help. Harvest hands from Kansas have been joining to western Nebraska in the last few years, and it is expected that they will do so again this year.

CANDIDATE BY PETITION

Mrs. Marie Weekes Named for Congress by Nonpartisan League.

Norfolk, Neb., June 8.—Members of the nonpartisan league of the Third Nebraska district this evening nominated Mrs. Marie Weekes for congress to run by petition. Mrs. Weekes is editor of the Norfolk Press. She was a candidate for district delegate to the democratic national convention on the Bryan ticket at the recent primary, but was defeated. Today's convention decided neither the republican nor democratic nominees were satisfactory to the nonpartisan league.

No Change in Honor System.

Lincoln, Neb., June 7.—Gov. Samuel R. McKelvie has announced that there will be no change in the honor system of releasing prisoners from the Nebraska state penitentiary to work at state road camps on account of the estate of Dr. Bouvier recently from the camp at Tecumseh.

Allowing convicts to work on roads in various parts of Nebraska and according to the governor has so far proved to be successful. Most of the men sent to road camps from the state prison were interviewed by the governor, who obtained pledges from them not to escape and to observe the discipline imposed upon them.

Little One Passes Away.

Wayne friends will regret to learn that the child born to Mr. and Mrs. Paul Mines in Sioux City Sunday night did not live. The little one's body was brought to Wayne Tuesday for burial in Greenwood cemetery. Mrs. Mines is reported comfortable satisfactorily.

Shufeldt Church.

A marriage license was issued out of the county court Saturday morning to Mr. A. James Shufeldt and Miss Evelyn Rita Church, both of Carroll, who were married the same day by Judge J. M. Cherry. The young couple will make their home at Carroll.

METHODIST CONVENTION

Delegates Will Hold Annual Meeting in Wayne, June 17 and 18.

The annual meeting of the Methodist churches of the Norfolk district will be held in Wayne next Thursday and Friday, June 17 and 18. The sessions will begin Thursday afternoon and close Friday morning. About one hundred delegates are expected.

Dr. W. E. J. Gratz of Lincoln, will deliver two or three addresses. Chancellor J. B. Schreckengost of Wesleyan university, Lincoln, will also be present. Mrs. W. M. Brewster of Highwa, Ohio, who comes here every year, is the constant speaker. She will speak at this convention. She is a missionary and will tell of her work. A Sunday school worker and Bishop Homer Smith may attend.

A Correction.

In the report of the Americanization Day exercises here a few days ago The Advocate spoke of the band as the Welsh Community band of Carroll, when it should have read the Carroll All-American band. The director of the band writes The Advocate as follows: "In regard to this you are mistaken and have caused some stir at this place by saying the Carroll All-American band is all American, 100 per cent. The Welsh band is an organization of Welsh farmer boys who live in Carroll."

In regard to the above statement of the director of the Carroll All-American band as sent to the Laurel Advocate, we wish to make the following comments to the public: We are not trouble makers, nor are we jealous. We aim to be agreeable to people and appreciate similar organizations to our own. We have never solicited any engagements, but have filled engagements when we were asked to do so. We have different times, remarks been made about our organization by certain members of the Carroll Welsh band, but we have never been asked to pay any attention to them considering from where the remarks came. But when an insulting insinuation such as this was made by the Laurel Advocate by the director of the Carroll band is thrown at us; we think that we have a right and that it is our duty to bring to the public that we are just as 100 per cent American as the Carroll band ever tried to be. We have twenty-four members in our band and each and everyone is an American citizen, and everyone a church member. We are farmers, that's true, and we are proud of it. We file engagements during the war drives receiving no salary, in some cases not even expenses. The Welsh Male Sextette which most of you have heard of are all members of our band. During the war they filled over fifty engagements and in most places they were asked for one cent for their services. Our boys bought liberty bonds, subscribed for any and all the war activities and did it with a free will. We had boys in the service, two of them overseas. If the writer of the above insulting remark thinks the mistake that the Advocate made in the writing of the Americanization day program by merely mentioning that it was

Drowned in Flood.

West Point, Neb., June 8.—Oscar Fisher, who was drowned in the flood waters of Plumb creek Tuesday afternoon, was a native of Missouri, 27 years old and unmarried. He had been working on the farm of his father, Selmer, for two years.

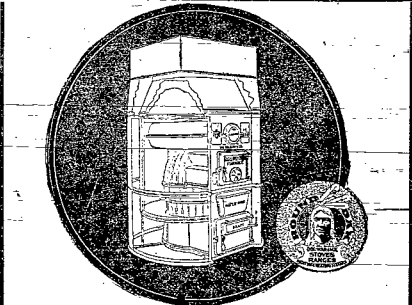

The Keller cattle were in danger from the flood waters and Mr. Fisher went to the rescue. Tying his horse to the fence, he attempted to reach the cattle and tried to make an opening in the fence for the penned in cattle. In doing so he stepped into a deep hole, was sent out by the flood, and disappeared. The body was found Thursday morning.

The President and Sugar.
Kansas City Star: "What about the sugar situation?" a letter to the Star inquires. "I have heard it said that the reason the president did not buy the Cuban sugar crop last year, was because congress had refused to extend the Lever act, which requested August 8, 1919. But if the Lever act was good for the miners in November 1919, why wasn't it good for the sugar growers in August, 1919, also at the present time?"
The writer of this letter is correct. The president had authority to buy the crop under the Lever act, which stands until peace is declared. His authority was not questioned by the sugar equalization board, which urged him to buy the crop. It was not questioned by the president.
The suggestion that more authority was needed is an afterthought. It was the bill put forward by Attorney General Linn when he was defending himself recently before a congressional committee.
The real facts were developed in the congressional investigation late last fall. It was shown that the equalization board received a letter in July, 1919, from agents of the Cuban government and the Cuban sugar planters offering the crop to the United States government as it was offered the previous year. The price was not mentioned, but the board assumed that it would be about a cent above the price of 1918, or about 6 1/2 cents per pound.
The board transmitted the letter to the president with the recommendation that the offer be accepted. This was the dissenting vote to this action, and that was the ground—which now seems grotesque—that the price might decline and the government might be benefited. The chairman of the board testified before the senate committee last year that no answer was received to this letter. A few weeks later, the board wrote again to the president urging the matter on his attention. It received an acknowledgment from his secretary, but this acknowledgment stated that the Cuban offer was withdrawn.
In all this investigation no pretense was made that the president was under any compulsion of authority, or fear that his authority would be withdrawn. The president had a free congress for an entire year. The Lever act was in effect for a specified period after the conclusion of the war. His request came in connection with various suggestions for dealing with the sugar situation, and there was absolutely no mention of the sugar situation in connection with it. These suggestions were not made until congress did not act on them.
The failure to buy the Cuban crop was a case of either bad judgment or sheer negligence, and was so treated in all the investigation. No body thought to raise the question of a possible lack of authority until Palmer was being pounded and produced this explanation.
Of course the obvious answer was that the president had the authority at the time. The thing for him to do was to buy the crop. If peace had been proclaimed he could then have asked for such legislation as was necessary carrying out the sugar transactions. His failure to act in accordance with the recommendation of his board has cost the country hundreds of millions of dollars.

Trade is Disturbed.
St. Louis Journal: The volume of trade was smaller during last week than for any other week of the last year. There is no panicky sentiment, but to say that the conditions were disturbed is putting the situation mildly. Closing lines were at the bottom of the unrest. The campaign of price reduction which found expression in nationwide cut price sales, combined with drastic penalties imposed on convicted profiteers, left the business in a condition of uncertainty. Fall orders have been canceled or reduced in bulk. The reduction of future sales is reflected in reduced operations in manufacturing lines. A number of eastern fabric-mills have closed down and others are operating on reduced schedules of three or four days a week.
The unemployment which is inevitable when the mills and factories close or shorten their working time is an element in the restriction of retail buying, and is carried back along the line to the jobber, the wholesaler and the manufacturer. The possibility of restricted consumption buying in the future is responsible for the cancellation of and reduction in the size of orders. Coupled with this fact is the extraordinary one that there is a large amount of idleness among labor because of strikes. The purchasing power of the unemployed is reduced. The costs of living are not sub-

The Victorious Life Conference, continuing until Friday, June 11. All the churches are co-operating in a fine spirit of unity.

The Sunday afternoon address on "Prayer," by Rev. H. B. Dinwiddie of Philadelphia, was ably supported. The evening address by the Rev. Duncan Thomas, pastor of Dunmore Presbyterian church, Saratoga, Pa., was greeted by a beautiful series of songs in which his solos were a most acceptable part.

The largest Lutheran church being held the Victorious Life conference this week. This interdenominational work has the hearty support of churches of all denominations. Backed by such an influential and widely known journal as the Sunday School Times, which has a warm place in the hearts of Sunday school workers all over the world, speaks volumes for the movement.

The editor of the Times is himself one of the leading speakers in the Victorious Life conferences, just now touring the Orient with Dr. Griffith Thomas of Weybridge College, Toronto, Canada, to hold conferences with the world's Sunday school convention in Tokio in October.

Dr. H. B. Dinwiddie and Rev. Duncan Thomas will be in Wayne June 11, 12 and 13, Friday and Saturday evenings and Sunday afternoon at the Wayne State Normal auditorium.

Parlor meetings will be held Friday afternoon at the home of Mrs. J. G. Mines and Saturday afternoon at Mrs. S. A. Lutgen. Everyone is cordially welcome to all these services.

Many ministers and missionaries from other places are desiring to come to Wayne to attend these annual services.

The Wakefield Motor Co.

of Wakefield, Nebraska,

is one of the big institutions of the kind in Northeast Nebraska. Its proprietors, William Kay & Sons, understand the business thoroughly, and they are such large and successful dealers that they have been able to get new cars when others have failed to do so. They are housed in spacious quarters where groups of new cars show to advantage.

The company carries these well known cars which may be offered to the public without apology, and with utmost confidence in the satisfaction of buyers.

Kissel, Buick, Oakland and Chevrolet. The number of these cars sold by the Kays is a strong and convincing testimonial of their popularity and worth.

The Kays also sell accessories, and maintain a large repair department. Expert workmen look after this branch of the business.

Automobilists who don't know the Kays ought to get acquainted with them.

Three Moores.
Jefferson Beer: When republican voters scan the list of names at the primary next week they will be interested to see the big group of candidates by the name of Moore. Ernest R. Moore of Cedar Rapids, is trying for the governorship. W. F. Moore of Guthrie Center, wants to be lieutenant governor; and Edward J. Moore of Eldon, is after the job of secretary of state. To the latter, who has only casually considered the candidates, and who has decided to "vote for Moore," a real puzzle exists as to "which Moore."

Chase County

Claims your attention and urges you to come, make an investment and share its prosperity.

Big Opportunity

There never was a better time to buy WESTERN LAND than this and there is, no better place than Chase county. Eastern land has gone beyond the reach of the man with moderate means, and he must seek the place that offers him the same advantage at prices he can afford to pay. These Chase county lands are priced at figures and offered on terms that will permit complete payment in a few years.

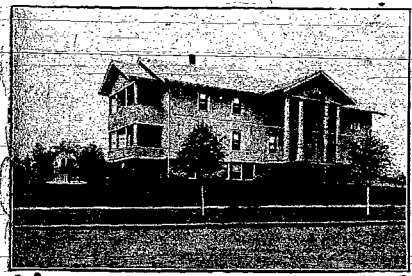

Take a Little Time Off

effort to give information upon the control of this pest. It is expected that the worm will appear in the sections lying north and northeast from the area indicated at present. Probably this will occur within three or four weeks, and farmers are urged to be ready with their devices.

Just what this defense should consist of is fully described in Farmer's bulletin 731, which the department will send free on request to any interested person. Briefly, the control of the pest is effected by means of poisoned bait, known as army-worm-corn, which is intended to be used as storage, and by the construction of ditches and traps where the masses of caterpillars can be caught and crushed with a log drag.

For the next three months the fields of growing grass and grain should be watched carefully, and when the worm is discovered, the attack should be pressed with the utmost vigor to prevent the pest from fortifying his position. Once entrenched, the army worm will claim a large slice of farm profits for his indemnity—millions of dollars are spent each year to clean up the maw of the army worm in the past thirty years.

The true army-worm should not be confused with the "coveford" worm, the "fall army worm" or the "grass worm," say the federal entomologists. The genuine article is a nearly naked, smooth, striped caterpillar about 1 1/2 inches long. His greenish-brown is marked with three dark stripes which form a narrow band on each side and down the back for the length of the body. The head is greenish brown, speckled with black.

The army worm operates in masses, and from this characteristic he derives his name. When large numbers of them are at work in a field the champing sound of their moving jaws can be plainly heard as they devour every blade in sight.

Encouragement.
Rocky Mountain: When a defeated candidate is tempted to feel that he is tossed out of politics forever, all he need do for encouragement is to look up the life and adventures of Col. W. J. Bryan.

The Needed Doctor.
Dallas News: What we need most in this country is some man who can take the oil out of railroads.

Two of a Kind.
Kansas City Star: The more we see of Attorney General Fahner's campaign for the presidential nomination the closer its results resemble

ble those of his campaign to reduce the cost of living.

Windy for Certain.
Bereford Republic: Chicago will surely be the Windy City next (this) week.

Consolation from Canada.
Toronto Mail and Empire: With Mexico at his back door and Arme-

nia crying on the front steps, Uncle Sam must be relieved to know that there is one flank upon which he is not worried.

The Sugar Era.
Detroit Free Press: Every time the government authorities make an assault on the price of sugar it jumps a little higher, perhaps to get out of the way.

Every Tire Is Signed

Two men sign every Miller Tire—the maker and the inspector. Both are penalized if a tire comes back.

Under this method, defects have become extremely rare. Not a tire came back for adjustment to many Miller dealers last year.

Over 1,000 tires yearly are worn out in Miller factory tests.

All the best rival tires are constantly compared with the Miller, with these results: Millers now exceed all rivals, both in average and in uniform mileage.

Miller treads outwear rival treads by 25 per cent on the average.

Miller Cords average 15,000 miles—Miller Fabrics from 8,000 to 9,000 miles—in rear-wheel drives under extreme conditions.

You will gain a new idea of modern tires when you test a new-type Miller. Get one now and watch it. The super-service of the Miller Tire is now everywhere discussed.

Tread Patented
Center tread smooth, with suction cup for firm hold over wet asphalt. Guaranteed to hold side wear, with tread like a cog in dirt.

30 Acres for Sale

I have for sale the most desirable vacant tract adjacent to Wayne. It contains thirty acres and lies just outside of the northwest limits of the city. It is eleven blocks from the post-office, six blocks from the State Normal and six blocks from the high school. It is two blocks from city water and two and one-half blocks from city sewerage system. Unfailing well of best water on place. Good windmill. Thirteen acres are in alfalfa and a part of ground is devoted to other crops. The sale would include residence, crops, farm implements, eighty head of hogs, one cow, two horses, more than 200 chickens, and other things. Most of the tract could be platted for a very attractive residence addition to Wayne.

See me for prices and terms.

The "Red" Innershush

Never Failed in New Tire.
Gives Added Life to Worn Tires.
Guaranteed Blowout Proof.

We furnish a certificate of guarantee for the users of the Red Innershush, protecting them against loss, should they not prevent all blow-outs and 90 per cent of all punctures.

We especially recommend that the "Red" Innershush be installed in new tires. They form a perfect truss in tires, taking the strain of the overload, distributing it in such a manner that tires continue to wear without breaking, giving double ordinary mileage.

The "Red" Innershush is security as well as a pleasure to the tourist. To the utility, truck and delivery car users it is a tremendous saver of time, wages and expense without a cent when the extra mileage is considered.

We ask you to have them installed according to our printed directions.

YOUR DEALER KNOWS HOW

Don't forget we carry a full line of accessories—First class goods. Tires of the best quality.

We also have some second-hand cars and motors for sale and parts. Windshields, Bosch magneto, springs and all other parts.
