Put Butler to Bed.

Chicago Tribune: If Nicholas Murray Butler were as unnecessary to himself as he is to the republic party, one Bryan being would be complete in one quality. He seems to be needed by himself, which is a pity. It was necessary for him to throw a brick at Gen. Wood and to hit Senator Harding with it. It is the hope of republicans that their nominee will find few such friends. We may trust responsible leaders of the party to keep from making fools of themselves, and if there is any luck in the Butler incident it is that he acted with such celerity.

No Progressive Bolt.

Sioux Falls-Argus-Leader: There will be no progressive bolt from the republican party. It is not a case of republican chances this year consist of the probability of the democrats playing the fool. And we can say on the q. t. that our party has always been regarded as an expert at that game.

Houston Post: Looking deeply into the situation, about 70 per cent of republican chances this year consist of the probability of the democrats playing the fool. And we can say on the q. t. that our party has always been regarded as an expert at that game.

### The Solution of Your Health Problems.

The health problem is as old as the hills. For centuries men and women have been endeavoring to solve it. Drugs, Osteopathy, electricity, surgery have all been tried and been found little avail because they have paid too much attention to the effect and have neglected the cause. Chiropractic has solved the problem. This science is practiced by competent Chiropractors ascertains the cause and proceeds at once to adjust it. Once the cause is taken care of the trouble disappears. Nature gets in her work and health is the result. Thousands of men and women all over the country have reason to bless the day that Chiropractic was discovered. Consultation and spinal analysis free.

**HOSKINS WOMAN BURNED**

Painfully Injured by Powder of Exploding Firecracker.

NORTON, D. N. News. Mrs. Anna Yunker of Horton, Neb., was painfully burned about the ankles and suffered a nervous shock when her dress caught fire Friday evening as she sat in a car. A firecracker in an automobile threw a lighted giant cannon cracker into the Yunker car. Mr. Yunker was driving when the incident occurred and he believes they have the number of the machine in which the firecracker was exploded. A charge of prosecution is pending by the authorities.

Chief of police Pflger in reporting the affair says that he has not yet learned the identity of the person who threw the fire cracker but it is determined to prosecute should information in his possession prove correct.

Pointing to the injury to Mrs. Yunker by the reckless exploding of fire crackers, the police chief asks Norfolians to use the utmost care in celebrating the Fourth of July. He hopes that this year's celebration may be held without death or injuries, but fears that if incidents like that of Friday night continue, the "safe and sane" program of Fourth of July celebrations will be shattered.

The person who threw the fire cracker into the Yunker car, it is probably the police officer, and the incident was one of many cases of reckless use of explosives, which has begun at an unusually early date in Norfolk.

**Miss Durrie to be Married.**

Laurel Advocate: As will be remembered by our assistance, Miss Bessie Durrie, the popular daughter of Mr. and Mrs. E. A. Durrie will be married July 8 to Mr. Carroll Crawford of Chicago and go to make her home in the Windy City.

When her parents moved to Laurel from Des Moines in 1911, Miss Durrie was teaching at Scottsbluff, later she joined them here and soon won a place in the hearts of the people, making many warm friends during the years she remained here. Later she went to Wayne where her father has held a succession of responsible positions, being with the Wayne Herald the last three years of her stay, then leaving the employ of Mr. Hise (much to his regret) last July, since when she has divided her time between Laurel and Wayne, being a good friend and helping out here and there in time of need. For a long time a little bird has been whispering to her of approaching marriage and now the secret is out.

The bridegroom-to-be was a man at training camp in the navy, where the Wayne high school, leaving to enter the navy, where he served in the radio department two years, and at close range of the navy got a position with the Western Electric company, as a chemist, being one of 10,000 employes of this great plant. His vacation of this year will be short. He arrives in Laurel July 5. His home town is Freeport, Illinois.

Miss Durrie goes to Wayne soon to spend a week with friends during which time a "wonderful shower" will be given for her there. Instead of giving a number of small functions in her honor, her many friends, young and old, married and unmarried, will join in giving one unusually fine event in her honor.

**Death of Mrs. Glasser.**

Rochester Times: Mrs. A. C. Glasser, aged 48, passed away June 7, at Rochester, Minn. Mrs. Glasser went to Rochester May 17 and entered the May Hotel, where she was operated on May 29. She stood the ordeal well and in a few days was sitting up and even went about her room a little on the seventh day before her death. She became suddenly ill from a clot in the circulation and passed away before her husband could reach her. Her daughter, Esther, was at her bedside through it all.

Mrs. Glasser was a splendid woman, a good wife and mother and through her poor health of a year or more was a patient sufferer. She made many friends during her illness at Rochester and her relatives who will sincerely regret her departure.

Mary Olinger was born at Fox Lake, Wis., March 23, 1872, and lived there until she was 12 years of age, when she moved with her parents to Salem, S. D., and there a family settled on a farm. She was married at Salem to Ant C. Glasser November 30, 1893, and for five years the young couple lived here and then moved to Grand Junction, Colo., and after two years moved to Platte Center, Neb., then after a few years went to Davis, S. D., where for 12 years they made their home. In 1912 they moved to Randolph and later to a farm near Sheldon.

Deceased leaves her husband, A. C. Glasser, and two children, Tony of this city, and Esther at home. She also leaves her mother, S. O. Lem, S. D., and five brothers and four sisters.

# WARNING

## Buy Your Coal Early

Last winter you suffered some inconvenience—perhaps discomfort—through inability to secure coal.

All the elements contributing to this which existed last year still exist, only more so:

Decreased and decreasing labor supply, irregularity and unsteadiness of labor, certain and unescapable car shortage.

## ARE FACTS

The mines cannot produce the required coal for the year unless working twelve months, not merely six.

Your dealer has neither financial nor bin capacity to receive coal during the summer in sufficient quantities to protect you unless you help him by early buying.

## IT IS YOUR DUTY

- To the miner—by keeping the mines in operation.
- To your dealer—by supplementing his buying and storage ability.
- To your family—by assuring your fuel supply.
- To yourself—by buying when coal is cheapest.

**Harding and Railroad Strikes.**

Spokane, Mass., Republic: Mr. Harding's difficulty with organized labor will hinge on his support of the original drastic anti-strike bill. This clause made a railroad strike a crime and provided penalties therefor. The conference committee struck it out and there is consequently no provision in the present railroad law penalizing railroad strikes as crimes. The republican national platform does not go so far as to endorse the original Communist anti-strike plan, but Mr. Harding may stand by his senate record. In a letter dated January 8, 1920, written to E. J. Miller, of Newark, O., Mr. Harding defended the strike as a distinct advance in behalf of the public and the working-men alike. The argument which probably killed the anti-strike provision was that so long as the railroads were the property of private owners, railroad employes should be allowed to strike without becoming criminals under the law.

**Miss Beechel to Greeley.**

Laurel Advocate: Miss Edith Beechel departed Saturday for Greeley, Colo., "marriage as we call it" last week. The Colorado State Teachers' College is located at Greeley (the state university at Boulder) and many instructors of note are scheduled to be there during the summer term. Some of these Miss Beechel already knows personally, books written by others of the constantly users in her teaching, so she looks forward to meeting these people with much interest. She says she shall play music and work only a little, as it is her first vacation in years. She has three months off and may go on to the Pacific coast, but that depends upon whether one of her associates at Wayne Normal can join her, as she hopes to do after eight weeks.

**First Yields of Alfalfa.**

Drovers Journal-Stockman: Reports are beginning to reach the ears of alfalfa and generally they are among the heaviest ever reported in the history of the state, bearing out the government's contention in this state the first of June, which was 97 per cent. The second growth is started well and the local show is in various sections of the state are considered to be very beneficial. Alfalfa growers in the eastern part of Colorado report more serious appearances of web worm, but state entomologists of the Nebraska Experiment station say no such reports have been received from growers in this state. It is a month earlier than the worm has ever appeared in Nebraska, so its presence is not expected at this time, anyway.

**Turned Deficit to Profit.**

Drovers Journal-Stockman: "When I left Idaho Falls, Idaho, two months ago with my nine-car string of cattle, my friends thought I was going to a funeral," remarked William Martinson. "At that time cattle of the class I had were bringing around \$11.00 and \$11.25 and I faced a prospect of losing lots of money on the proposition. However, when I reached Walla Walla, I decided to hold out for a few days and see if the market wouldn't improve. That was back in April, and I have been out there ever since, but now the steers are weighing around 1,325 pounds, and those that I had in today sold for \$15.50, which

I figure gives me some profit, whereas before I faced a deficit."

Mr. Martinson still has two loads at Walla Walla which he is going to bring in the first of the week, but that will complete the sale of his nine-load string from Idaho. He says that even if it did cost him a good deal to hold and feed them he made the packers pay a whole lot more for his stuff, and he deserved all he got for them, as he had had them on feed since the tenth of December.

**Weldon Declined.**

Lincoln Journal: Vice President

Marshall says he wouldn't take it if handed to him on a silver platter. Nevertheless the democrats would be wise not to hand it to him even on a pewter plate. No one ever yet has had the firmness to decline a presidential nomination when it was actually handed to him.

**The Deserted Continent.**

Birmingham Age-Herald: While we are getting acquainted with South America it may or may not be in order to state that nobody is predicting a dry South America in ten years.

Luminous droves of toads have within a day or two made their appearance. It is supposed they came from the marshes of Dakota territory, their large surplus of population having stopped over.

Tuesday we had a terrific kind of a storm, including a gale of hot air. It looked as though the future of the interior regions had been hung open, or that the sun had given the earth a fiery slap in the face with its tail.

Monday, June 22, 1920. The city reports that that place and the country around it are rapidly building up.

VALUE OF RACING GROUP

Horses at Hartington Worth Quarter Million—Other News.

The seventeen cars of horses shipped from the races at Hartington last week were estimated at a value of a quarter-million dollars. This included 17 horses scheduled to be entered in races at O'Neill, Merdel and Winner, S. D. One owner refused \$5,000 for his animal.

One evening last week a car driven by Andrew Hoy of Laurel was overturned into the ditch west of the Laurel school house and Ed Sorenson who was in the car sustained a broken leg and arm.

In meeting another car driven by Darrell Coburn, he turned too far and when he left the car slipping over the ditch, turned back just in time to lock the wheels of his car with those of the other car, causing the accident.

School patrons of Wayne have petitioned for a consolidated school there. This will be the first in Cedar county to be so arranged and is accepted. The district has already planned suits the people and they started action immediately for consolidation.

The Mikesell store of Ponca, conducted under the name of S. P. Mikesell for more than half a century, has been sold to G. J. Venable of St. Charles.

The store was established in 1869 by Mikesell and since his death in 1914, has been conducted by his two sons.

Mrs. C. L. Robinson, a teacher in the Ponca school, the past three years, bought the jewelry store of F. R. Pelant of that place and took possession.

France Wins at Sovietism.

St. Paul Pioneer Press. The failure of the attempted general strike in France, which now is announced as complete, is attributed very largely to the fear of the strikers themselves that the movement was an attempt to set up soviet rule.

Telephone Equipment Shortage Is Becoming Serious

There is a world-wide scarcity of raw materials, especially wood, paper and metals. These products are very essential in the manufacture of telephone supplies.

This shortage of material; in addition to the steadily increasing demand for telephone service, is making it impossible for the factories to meet promptly the need for telephone instruments, wire, switchboard parts, and other equipment.

Every effort is being made to take care of the telephone requirements of our patrons as quickly as possible, but because of existing conditions we may not be able to change or install equipment without considerable delay.

Please let us know as far in advance as possible when you want a telephone installed or if a change in your equipment is desired.

## UNCLE WALT THE POET PHILOSOPHER

### ALL ALIKE

The lines are punk, the prospects yellow, conditions are a shame; and each man roasts the other fellow and says "he is to blame." I know some dormicks at my neighbor because he talks all day; he sidesteps hard, productive labor puts up no helpful hay. But when I say he is a traitor to my neighbor because he knows one who is greater, and bites a lick at me. While I sit writing up this drab drudge, my neighbor with nerve that the country's pressing need is caliche and turpentine and string beans. If I'd get land, and grow up to a crop of seedless prunes, 'twould help out more than any sonnet, than any sipping tuncs. Then he resumes his "elevation hand-out" and says that his best and best well have a revolution before we know what's what. Our lives would soon be such an mellow, the times the price he says will never that of the other fellow get down to Old Brass Tacks. But when we urge him to get busy, and go and make the price he says will never that makes us dizzy. Just take your own advice.

### LONELY EMMA

Emma Goldman's sad and lonely she trends a distant shore, and she sighs. "Ah me, if only I could see the States once more." In a recent dismal letter she complained of her distress, and her farrow cheeks grow wetter with her sea-side tears. I guess, by her friends she seems forsaken, no one writes to her, says she; and she eats her bread and bacon, weeping by a weeping sea. By the ocean wet and friendly she sits down to write and yearns, wishing that her Uncle Sammie would permit her to return. When she lived beneath his banner she was boasting every crumb, acting in a healthy manner, raising thunder all the time. Absence makes the heart grow fonder, as the dippy puffed, and old Emma, over yonder, doubtless wishes she'd be here. For this country is the sickest that was ever out of doors, and that person is the sickest who is banished from its shores. And

him, we bravely take our bitter: The life's against all forms of honor; and when my stretch is ended, I will compound no home-made brews of yeast and painis-blended.

### GHOSTS.

Some people say that they have sensed with ghosts across the river, and with the ice adrifts, they have walked—which rather makes me shiver. I've seen a weary waste of words, to witness this contention, and "facts and figures" thrown at birds, too numerous to mention. I do not wish to pierce the veil my ignorance, throws over me, or see or hear the phantom side of dear one gone before me. My point of view may be a sin, a sign I'm callous-hearted, but I will not let cash in to erect the dear departed. Then we eat sit around in space, in glowing fields, fly-pan, and speak our pieces face to face, with usages to blur our vision. Perhaps some distant glow may weep to hear my accents quiver, but what I have to see, will keep till I have crossed the river. The men who thrift and talk of ghosts where hustlers are embattled, by all the but, burocrats hosts are looked upon as the dead. I do not wish to talk with shades in spectral, vague dominions, till this old world behind me fades and I am wearing pouters.

### SOLVENCY.

Take this advice: Don't go in debt! Your solvency's your one best bet. For better drive a henry car, that breaks a slat at every jar, that backs when you would have it pull and know it yours, paid for in full, than journey in a fine sedan. Don't buy on the installment plan. Far better wear a suit of duds on which you've paid the final buck, than go around in brave array while tailors clamor for their pay. Far better in a cabin, dwell, in some remote seclude, than occupy a gilded hall where bailiffs wait their warrants call. There's naught contributes, you will find, more strongly to your peace of mind, than being in a place to say, "No man can do me for his part. I owe no kepecks, far or near, my bills are paid, my records clear. I've tried both plans, and so I know: all kinds of bills I used to owe, and lawyers chased me through the town, and stern collectors ran me down. And life was then a sad affair, of walking floors and begging help. Now now I pay for both my house and my hat, and I can't afford, and live in like a peasant, or like—a shortcake soaked in cream.

### Farm Labor Demands.

Drovers [Journal-Stockman]. The farm labor problem is beginning to loom up in several sections of this state. Up in Dodge county they are already sending out calls, in preparation for the coming harvest. Hay cutting is going on in connection with cultivation of corn. They are endeavoring to secure help by the month, offering \$70 to \$80, and board. While a few farmers are secured from surrounding towns they balk at steady employment, making a plea for day labor.

Out in Buffalo county the farmers have met the demands with a different proposition. Farm laborers will have to earn all they get in that county this year, receiving pay only for the actual hours worked. Laborers are being offered 20 to 30 cents per hour, which is 10 cents an hour lower than the minimum paid to busset-er-hurricanes. The farm bureau, of which nearly every farmer of the county is a member, has adopted this new state. Farmers are willing to pay the maximum of 30 cents for the best and more experienced men, but the inexperienced, such as young fellows who wish to spend their vacation in this manner, will get just what they earn.

### DON'T RISK NEGLECT.

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dopy or Bright's disease is too serious to ignore. E.L. DeWitt's Kidney Pills as have your friends and neighbors. A Wayne case: "Mrs. Henry Hansen, says: 'I was subject to spells of backache for a good many years. Sometimes I went months without a spell and then all at once it came on. I think the cold weather and over-exertion is what caused it. My rest at night was broken by the pain in my back. I had been that way for about three weeks when I began using Doan's Kidney Pills. They made me feel like a different woman.'

Over nine years later Mrs. Hansen said: 'I occasionally use Doan's Kidney Pills, when I feel my kidneys need attention. They keep them in good condition so that I have had no more serious trouble.' Price 60c at all dealers. Don't simply ask for a kidney remedy, get Doan's Kidney Pills, the name that Mrs. Hansen had. Foster-Milburn Co., Mrs., Buffalo, N. Y.—Adv.

Automobile Love of Noise. B. L. T. in the Chicago Tribune: Automobile horns were designed as a warning to pedestrians and drivers of other vehicles, but their excessive use is due to the desire of the majority to make as much noise as possible. Studied in blending, studied in making, studied in packing. Spurs are blended in a new way from American and Oriental tobaccos, bringing out to the full that good old-time tobacco taste. The satiny imported paper is crimped, not pasted, making an easier-drawing, slower-burning cigarette.

You'll approve of the smart brown and silver packet, three-fold, that preserves Spur's taste and fragrance.

### Layer on layer

Miller Tubes are built of thin sheets of pure rubber—surgical grade. They are built layer on layer, sheet on sheet, up to the proper ply.

Then each tube is tested for hours under air pressure to make sure it is air-tight. Yet these ideal tubes cost no extra price.

If you will buy one Miller Tube and watch it you will always cling to Millers.

# To the Men

## Who buy inner tubes by guess

Your inner tubes are almost as important as your tires.—But it takes a special skill—a rare skill—to build good tubes.

Miller stands supreme in this field. For 24 years Miller has built super-grade rubber goods.

Miller today remains the largest maker of such things as surgeons' gloves.

That sort of skill is needed in a tube. Men may differ on the best tire maker, but they cannot differ on the best tube maker. That place is conceded to Miller.

### HOME-COMING DAY AT WAYNE STATE NORMAL

Over Two Hundred Alumni Attend  
Banquet in Evening.

The various events of the Wayne State Normal home-coming day Friday, June 18, met with decided success during the day over two hundred alumni visited at the Normal.

The annual alumni chapel met at 10:30 with President Charles R. Chinn, presiding. Responses to class roll card were given by August Nordgren, Jr. of Clarkson; Anna James, '12, Wayne; Margaret Place, '14, Wayne; W. J. Van Camp, '14, Winnetoon; Mary Monahan, '15, South Sioux City; Mary Mason, N. C. '97, Wayne; John Billewicz, '16, St. Charles, D.; Harold Boyce, '16, Wayne; John Canning, '17, Verdell; Helena Baker, '18, Wayne; Anna Nielson, '18, Howells; E. J. Hirsch, '19, Winnetoon; Mrs. Emith Sharp Johnson, N. C. '97, Plainview.

After chapel the various classes met in groups and at the noon hour all gathered on the lawn in the residence of President Mrs. C. S. Con. Luncheon was served by the Normal. Entertainment was given by the Stinking Miss Helen Burton, Miss Martha Pierce, Mrs. Lute Walters, Mrs. Miss Martha Dewey, Mrs. Elva Brock, Miss Ella Hall and Mrs. P. H. Kohl.

During the first part of the afternoon the alumni visited classes and renewed acquaintances with former friends. At three o'clock Miss Pauline DuClos gave a harp recital in the auditorium. The program was varied, bringing out the artist's musical skill and ability. This musical treat was secured by the Normal Budget Committee.

The annual banquet was served at the chikethum at 8:15. Before the banquet the guests met in the gymnasium and participated in a social dance.

The banquet was served by the Woman's club of Wayne. Between courses the classes vied with each other in drink songs and joined together in songs in praise of the school and the faculty.

Dr. J. T. House, as master of ceremonies introduced the speakers, Earl Schroer, class of '16 gave the welcome to the class of 1926, inviting them to join in the move to make the school his own, a letter and expressive of the ideals and aspirations of the alumni. Miss Virginia Boven of the class of 1926 responded to this toast, promising loyal support on the part of her class and expressing appreciation

of the honor conferred upon them as the guest placed in them.

Miss Ferné Oman, '16, and Miss Frances Oman, '18 sang two duets. They were accompanied by Mrs. Clyde Oman. Miss Martha Dewey, head of the expression department of the Normal read an appropriate selection. Prof. W. E. Hunter, accompanied by Prof. C. E. Fausner, played a violin solo.

Members of the various classes responded to the short address by speakers were: Guiner A. Jones, Carroll, N. C. alumnae, class of 1909; Jessie Watson, Wayne, class of 1911; Leona Randall, Wayne, class of 1920; William J. Van Camp, Winnetoon, class of 1914; Edith Willey, Randolph, class of 1918.

The business meeting followed. The adoption of the new class into the association was first considered. A bill in proceedings took place when the new comers were proclaimed members. The attempt on the part of members of the class to prove their eligibility created much excitement since the president refused to recognize the speakers as they were not yet members of the association. Miss Elsie Ford, treasurer of the class and class of 1920 was then unanimously adopted into membership.

The business officers were elected as follows for the coming year: President, Miss Margaret Schemel, '14; vice president, Miss Elizabeth Mose, '18; secretary, Miss Winnie Marguinal, '18; treasurer, Rollie W. Jey, N. C.

Wayne Loses to Winside 11 to 9.

The Wayne team brought home a score of five and Rockwell lost to Winside last Sunday on the Winfield field by the score of 11 to 9.

Winside started in the first hitting Sund freely and scored five runs. In the second inning with Culp pitching for Wayne they were able to put over more runs, doing mostly to loose fielding of the Wayne infield and poor support in general. From then on Culp had the Winside hitters pretty well under control and they were only able to score three more runs in the six remaining innings.

### LIVE STOCK SCORES HIGH As Announced by Wayne County Growers Min. How. Ors on Sioux City Market.

As reflected by the Sioux City Live Stock Record, Wayne county live stock growers have been scoring high on the market lately and have been rewarded by top prices and generous encumbrances. Different days the Record has contained complimentary references as follows:

June 15: Consignment of weighty steers from Wayne county, Nebraska, succeeded in carrying away top honors in the cattle trade at this point the second day of the week—Ray Bros. of Wayne, white and tan producers of quality offerings and who are included in the list of Nebraska's most extensive live stock feeders were the contributors of the toppers here this morning.

The offerings, thirty in number, were Black Polish cattle, and their attractiveness of quality fully exhibited the Ray Bros.' ability as producers. They averaged 1470 pounds and selling price was \$16.10 per hundred lb. top price for the week for such weights.

The Ray-brothers are boosters and supporters of the local market and they are quite sure that the outcome of their shipment to date was more satisfactory than it would have been if they had shipped to any other market than they accompanied the shipment to market.

June 16: Weighty killing steers from Wayne county, Nebraska, feeders had little difficulty in carrying away \$16.25 figure at the local yards the middle day of the week. This price, paid for a load of twenty choice 1475-pound steers is the top for the year to date on heavy beef cattle. The offerings of the Short-horn type, were contributed by C. W. Anderson, who operates in neighborhood of Howells.

June 17: That farmers and feeders inhabiting the neighborhood of Wayne, Neb., are capable of producing the kind of beef material that can carry away top honors has been fully reflected in the fact that four times this week beef cattle from that section have landed market topping figures on the Sioux City market. The fourth shipment to do the market topping stunt was from the lots of Albert Doring, prominent in Wayne live stock circles.

Mr. Doring shipped in a car load of 780-pound yearlings of his own raising and leading that were sent to the hooks at the round price of \$16.00 per head. The offerings, from the Short-horns and had been on a full feed of corn and alfalfa hay since December 10. Mr. Doring was fortunate in having plenty of his own feed. He did not have to make any purchase of corn and states the cattle marketed today will make him a fair profit. Corn throughout Wayne territory is coming along in fine shape, according to Mr. Doring, and a yield equivalent to that of preceding year is expected.

conditions, labor saving devices, house equipment, etc.

Only 30 per cent of the farm homes have running water and only 17 per cent are lighted by gas or electricity. Sixty-five per cent of the farm women carry the water used in the house an average of thirty-five feet. Thirty-six per cent have power machinery in some form, yet twenty-eight per cent are still using the hand washing with a board and tub and only twenty-one per cent have vacuum cleaners.

Women Raise Poultry.

Mrs. Emma McDonald, Saunders county, Nebraska, has registered a correct when she declared at a poultry meeting at the university farm recently, that women do the most of the raising of poultry. The survey shows that women do 92 per cent of this work. Kerosene stoves are in 77 per cent of the homes surveyed while the kitchen cabinet is even more popular. Ninety-eight per cent of the farm women still bake their own bread, and ninety-seven per cent do the farm sewing, and ninety-nine per cent of the family washing and ironing, with twenty-eight per cent of them still using a wet board-and-tub and only twenty-eight per cent ironing with gas or electric irons.

Less than three and one-half per cent of Nebraska women work in the fields, twenty-three per cent of them help take care of live stock and forty-two per cent help with the milking with ninety-seven per cent washing the milk pails and ninety-one per cent washing the cream separator. Seventy-seven per cent make butter.

The survey shows more automobiles than telephones on Nebraska farms. Eighty-seven per cent own automobiles while only eighty-three per cent have telephones.

Under the heading "distance" the survey shows the following average miles which Nebraska farm homes are located—District school, 1.51; high school, 4.83; church, 3.62; doctor, 6.09; hospital, 13.03; nurse, 12.67; market, 5.95.

Fifteen per cent of the homes have bath tubs.

### FORMER WAYNE GIRL WEDS

Louise, Daughter of H. H. Schroer, Marries Wisconsin Man.

Miss Louise Schroer, only daughter of Mr. and Mrs. H. H. Schroer, formerly of Wayne, was married at the family home in Norfolk Sunday morning at 9:38 o'clock to Mr. A. L. Mater of Stanley, Wis. The couple left Sunday afternoon for Stanley near which place they will live on a dairy farm.

### How to Reach Main Street

In order to remedy any disadvantage which may come to the farmers from the closing of regular roads into Wayne on account of paving operations, the Herald will attempt to keep people informed as to the best roads to use to get onto the business sections. Drivers coming from the north on the main street should detour at the head of that street going into blocks east and then south. Coming from the northwest turn south two blocks west of Main. Coming from the east turn south two blocks east of Main and then into the main business district.

### A Range for the Housewife

Next to building a range that would give the utmost in service and life—the make of the Copper-Clad Malleable Range concentrated their efforts to produce a range that would give continued pride and comfort to the housewife.

They designed this range with the view that a minimum of cleaning should keep it looking bright and new. You will say they have succeeded, once you look upon this "cooking machine" with its smooth surface, minus the usual greengrass, catches, hinges and dirt-collectors.

Come in and see it—truly a range that "cleans like a dish."

## LESSMAN LOADER SHOWN Its Working Capacity Demonstrated on Chas. Lessman Farm

The Lessman loader, invented by Herbert Lessman, and now being manufactured at Des Moines, was demonstrated on the Chas. Lessman farm, northwest of Wayne, Saturday afternoon, and was inspected by a crowd of competent farm machinery. The loader performed successfully, and showed itself an important saving of time and money. Herbert Lessman was here and narrated the demonstration. People who have seen the machine, says, and understand the value of its accomplishments, are strong in its praise.

Harding on the Front Porch, Chicago Tribune Senator Harding has decided to fight the campaign from his front porch—a wise decision. It is a return to a sound American tradition. It is appeal to home folks and it's home folks who elect presidents, and well for us they do.

A man on his front porch is nearer to 120,000,000 of his countrymen than he is on the rear platform of a Pullman. A man on his front porch sees farther than he can from an observation car. He talks less, but he thinks more, and we believe the American people are anxious for less talk and more thought.  
Harding on his front porch in Marion means more to all of us than Harding on the speaker's platform. He is eloquent on the platform. He is more eloquent on the porch because he becomes a symbol of the lives of the people, the useful

Harding, day to day life of us all with its simple achievements which are the stuff of American prosperity and progress.  
Harding on his front porch isn't trying to do all our thinking. He is going to do his own thinking and to try to know what we are thinking.  
Harding on his front porch is not going to be tempted to prophesy from the clouds. He isn't going to shut himself up and draw his incanitation from mysterious sources. He is going to watch the neighbors coming across the lawn, and he is going to listen to what they have to say.  
We'll say now that Harding on the front porch is making a good thing to help the American people better to make up their minds what they want than Harding, the orator, talking in a thousand halls. We've had eight years of talking from the mountain top. A man, just an American citizen, on his front porch is going to mean a lot to us now.

Asking for the Impossible. New York World. Surely the American Federation of Labor cannot be serious in its support of the campaign for a six-hour working day. The theory that the shorter day the more jobs is one that cannot be maintained. The trouble with a world today is not lack of jobs but lack of production, and stifling production is not going to cure anything. The eight-hour day has made steady progress because experience has shown that in many, if not in most, industries, men will produce about as much in eight hours as they do in nine or ten hours. But there are limits to the possible reduction of working time and no country has ever succeeded in the sustaining progress on a short basis, nor is there reason for believing that any country is likely to sustain itself on this basis. What the federation of labor would do if it could bring about the six-hour day would be to stifle industry, decrease production, increase the cost of living, lower the standard of living and finally bring the whole economic structure to the verge of a complete collapse. There are certain laws that cannot be disregarded, even by powerful organizations. There are cer-

tain facts in human existence that cannot be set aside by resolution. For asking for a six-hour day, the federation of labor is asking for the impossible, unless all the known means of production are first revolutionized.

It Would Be Novel, Anyway. Philadelphia Public Ledger. Perhaps if Mr. Bryan seriously consid-

ers that the silent drama, he may be successful. It has been excessive verbiage which has deterred him thus far.

Speaking of Bolting. Omaha World-Herald: Johnson and his friends say they won't bolt. Nobody bolted after Hughes was nominated till California did election day.

Senator Harding and Europe.
Washington Post. The foreign press now waxes wilder than ever.

Harding is friendly to Europe, and whether elected he would be willing to negotiate treaties giving tangible form to the peace and assistance. Undoubtedly he is friendly to Europe, and willing that the United States should assist Europe. But nothing is more certain than that he would refuse to negotiate treaties of alliance or covenants of nations.

State Committee Meets.
Lincoln, Neb., June 21.—Charles A. McCloud of York was elected chairman of the republican state committee at the meeting of the committee held at the Lindell hotel this afternoon after the state officers, upon request of the committee, had recommended the York man for the place. He was given authority to select his secretary and executive committee. The latter consisted of one man and woman member from each congressional district. No other candidate was proposed.

Robert Smith of York was expected to back the election of Mr. McCloud, insisting that he would not be able to hold certain elements in the favor of the ticket.
Vote Almost Unanimous.
C. N. McElfresh of Columbus, supported the contention of Mr. Smith and said that there were 900 members of the farmers' organization in Platt county who would not support the ticket if Mr. McCloud was chosen.

Mr. Shreve of York, R. H. Rankin of Beaver City, A. N. Dodson of Wilbur, O. G. Smith of Kearney, and several others spoke in favor of the election of McCloud and when the motion was put it was practically unanimous, but a very few noses being heard.

which struck a ditch in the ground and turned over, pinning the 12-year-old boy beneath it. He suffered no broken bones or cuts but received internal injuries. It has not been determined yet just how serious these are. He is the son of Mr. and Mrs. Carl Thompson. The first of the week his condition was reported improved.

**Emerson Defects Wakefield.** The Emerson baseball team defeated the Wakefield team Sunday afternoon at Wakefield by a score of 7 to 0. The game was well attended and Wakefield had a good group of spectators but were unable to gain any points.

Wakefield will play The Olson Sporting Goods of Sioux City here next Sunday at 3:30. A game was called for Wednesday afternoon with Laurel on the home field.

**Chautauqua Begins July 19.** The Redpath-Horner company will open its five-day program in Wakefield July 19. This circuit is well known in this territory and promises to present an interesting week of entertainments.

The Lotus company appears the first step for the entire afternoon program and the prelude in the evening. The five men and two women furnish a variety of solos, romances using stuporous costumes to portray three historical periods in music and literature. The French national car was loaned from 1890 to 1894 and at the present time.

Charles H. Plattenberg, who delivers an address the first evening, is one who gives constructive criticism to help the small towns.

The afternoon of the second day, Raymond Gilbert, a man of broad experience, speaks on the destiny of our great country.

Engene Laurant and his company, artists in the art of magic and mystery, will have the entire second evening. He is termed the "Ambassador from Wonderland."

The Premier artists, who give a complete program the third afternoon and conclude in the evening, are a company of three women and two men specializing in songs that are dear to Americans everywhere. They are individual and group artists.

Besides the Premier artists, the third evening also includes a lecture by Mrs. L. H. Dickason on "Four Square Living." He is one who has helped reach our present standard of national righteousness.

Miss Clara Harrold reads the play, "Friend Hanna," the fourth afternoon and the evening program is the presenting of the comedy-drama, "It Pays to Advertise." This play is one of the most popular features on the circuit.

The music on the last day will be furnished by the organists, a company of vocal and instrumental artists.

The closing lecture will be delivered by George C. Aydelott, who explains the individual efficiency, a preparation for opportunity and emergency.

**SOCIAL**

**Sunday Evening Guests.** Mr. and Mrs. F. P. Fisher entertained thirty-seven friends and relatives for Sunday evening dinner.

**Shower for Mrs. Henry.** Mrs. Milton Henry was given an honor at a miscellaneous shower given Saturday evening at her home in Wakefield. Mrs. Henry was formerly Mrs. Pearl Matheson. She received many gifts.

**Mrs. Tell, Hostess.** Mrs. John Tell entertained Wednesday afternoon of last week for her company. The guests were Mrs. Schreiner of Fenner, Mrs. E. R. Wright of Wray, Mrs. Arthur Larson and Miss Lottie Childs. (Continued on Last Page.)

## "Handsome is as Handsome Does"

An old adage as true today as in all the yesterdays.

No car offers cleaner lines, more truly dignified gracefulness or deeper lustre of finish than does the Cleveland Six. But these qualities would be but a surface, were it not for what is beneath them.

The exclusive Cleveland motor, the most highly developed of the powerful over-head type, gives a character of performance in flexibility of power and speed, and in dependability and endurance, that surpasses other light cars.

The sturdiness of its chassis construction, the ease of its control, the soft cushioning of its low underling spring construction, the certainty of its brakes—all these qualities add to the comfort and safety of its performance on any kind of roadway, on the steepest hills and in crowded traffic.

Mr. and Mrs. Jens Jensen enjoyed a visit from Mr. and Mrs. Knudsen and family and Mrs. Geo. Buskirk, jr. Miss Mary McGuire and Walter Buskirk on Sunday.

Mr. and Mrs. A. W. Dolph, Mr. and Mrs. W. C. Ring and Marcel, Mrs. Etta Waves, John Park, Adolph Mack, Geo. Buskirk, sr. Mr. and Mrs. Frank McGuire and daughters, Mrs. John Glissman and Clarence, Miss Carriebell Bauner, Francis, Helen and Dorothy McGuire, were Sunday supper-guests at Geo. Buskirk's, jr.

Clarence Thompson met with a very painful accident Friday while assisting his brother Charlie in gathering up the wire from the mud caused by the storm. The wagon in which he was pulling the wire upset and landed on his shoulder.

A doctor from Sioux City, as well as one from Wakefield, was called and he seems to be on the road to recovery.

Mr. and Mrs. D. Hermer and Mrs. Orval Puckett were among the friends of the Twyford family east of Perdue who enjoyed a birthday party for two of the Twyford grandchildren whose birthdays are on the same day and they are of the same age—2 years.

A bountiful dinner was served and later a feast of angel food cake and cream was had. Needless to say a delightful time was enjoyed by everyone.

**Married.** Wednesday, June 16, Rev. Mr. Fetterolf of the English Lutheran church at Wayne, united in marriage at the parsonage, Mr. Edward Kai of Perdue (Leslie) and Miss Emily Pasvar of Bancroft vicinity. The witnesses were Emil Kai, brother of the bridegroom, and Miss Louise Pasvar, sister of the bride.

The bride is a graduate of the Perdue high school and a successful rural teacher. She numbers her friends by her acquaintances. She was attired in a blue silk traveling suit.

Mr. Kai is well known and industrious young man, a son of Mr. and Mrs. Detlef Kai.

Miss Pasvar left on the afternoon train for a short honeymoon trip to Omaha returning Saturday evening. They will be at home after

July 1 on a farm of the bridegroom's father where a new modern house is being erected. May happiness, prosperity and long life be their reward, is the wish of their many friends.
