FIRE DOES DAMAGE TO WAYNE CHURCH

Building of the Evangelical Lutheran Denomination Nearly Destroyed Last Sunday

FRAMES OF FIRE UNKNOWN

Flames Crept Under the Roof and Multiplied the Tasks of the Volunteer Firemen.

Damage whose origin is uncertain, this evening destroyed a portion of the new building estimated at \$3,000, the new building of the Evangelical Lutheran church of which Rev. H. A. Teckhaus is pastor, in the southwest part of town, shortly after noon last Sunday. The building was insured for \$1,500, and contents for \$100.

Services had been held as usual Sunday forenoon, the congregation being dismissed at 12:30. At 1:30 p. m. the pastor returned to the church and discovered the flames were serious. The pastor ordered the men living in the neighborhood made the discovery.

Firemen, however, were reported promptly, and as the flames were eating their way under the roof, a good deal of difficulty was experienced in reaching the roof. The fire was quickly checked when it was reached, and danger to the parsonage was averted. The firemen worked the hose until the flames were under control, which has been frequently expressed.

The church will be rebuilt as soon as possible. It is expected to be able to complete the building ready for use within two months. In the meantime, congregations will accept an invitation to use St. Paul's Lutheran church. The Baptist church also offered all of its building, and the Methodist church offered the opera house, all of which were appreciated. The building damaged was built in 1891.

How the fire started is unknown. One theory is that it came from the furnace chimney, and another that it was caused by electric wires.

It is reported that the fire had been discussed by the council and members of the Evangelical Lutheran church desire to express their gratitude for the assistance rendered them last Sunday by neighbors and friends and especially by members of the church who were present during the service.

The pastor expressed his appreciation of the help given by the fire department.—H. A. Teckhaus, Pastor.

Final Examinations at High School

This Week Winds Up First Semester at the Wayne High School

The week closes the first semester at the Wayne high school, and final examinations are now being held. Promotions will be announced Monday.

Four students who have finished the high school course this semester, will enter the State Normal. Others who have completed the course will stay in the high school and continue the work of contributing to the debating team.

The basketball team of the high school will go to Bloomfield tomorrow to meet the school team of that place.

Basketball Tournament.

The latest high school basketball tournament will be held in Lincoln, Neb., March 10, 11, and 12, when over three thousand spectators are expected to attend. The school athletic department is expected to decide the basketball championships for 1921.

Over 170 high schools next teams to Detroit for the event, and over two hundred spectators are expected to attend the event next March.

Plans for the tournament have been received at the office of Director Fred W. Luehring at the University of Nebraska.

One of the teams will be classified into eleven divisions, each group consisting of sixteen teams. It is expected that the teams will be divided into seven groups.

Except that new divisions will be added to take care of the additional schools.

The year's last year's tournament in the various classes follow: Class A, Lincoln; Class B, Superior; Class C, Hambley; Class D, Kimball county.

Class E, Lincoln; Class F, Lincoln; Class G, Geneva; Class H, Miffland; Class I, Teachers' College High School; Class K, Cortland.

Elector's Start Held Today.

Omaha, Neb., Jan. 19.—(By H. W.) The Lincoln residential elector and Mrs. Draper Smith, alternate of Omaha, who plan to carry the state's electoral college.

They are expected to leave Nebraska on their flight Thursday, weather permitting. Mrs. Smith, who is 80 years old, made a great flight off at Martin. O. President-elect Harding's home.

REV. WM. KILBORN TALKS ON 'WAYNE WOMEN'S CLUB'

Speaks on "English Church and School System"—Other Club Members Overcome Objections.

The Wayne Women's club met in the basement of the city hall yesterday afternoon, and reviewed the financial statement of the club before the state legislature, manifested interest in a local playground and listened to an address by Rev. William Kilborn of the Methodist church.

A report was made to the effect that a total of \$272 was turned into the club's treasury as the result of the largest sale December 10, of \$5,000 had been received from different sources by the club, most of the amount having gone into the opera house property.

The club was asked to cooperate with the city government in re-opening the city park into a well lighted playground. A willingness to do so was expressed.

The state president of women's clubs who expects to visit Wayne in February, will be invited to also come to Wayne at that time.

At 4:30 p. m. the speaker presented the substance of a bill before the legislature, offered by the child's welfare commission, and designed to provide for the care of children.

A resolution supporting the proposed law was adopted.

Rev. William Kilborn who was invited to speak on "English Church and School System." He said English people benefited by their defeat in England and Gibraltar. As a result, English schools were enlarged and extended.

Children are required by law to attend school from five to sixteen years old. School rules are more strict in England than in the United States. Single mothers are employed for life, and the girl and family were not open to all—but no class distinctions exist and any one who can qualify is admitted.

The speaker praised the old cathedrals of England, with whose walls religious service was made profoundly impressive. He said the church was the center of the community, and its clergy were paid by the state. Unfair church discrimination, with consequent undue influence in politics, had led to the establishment of the church of England, and give all churches equal opportunities.

The speaker expressed his deep satisfaction over the advantages of American citizenship, and emphasized the fact that this citizenship and democratic democracy would spread over the entire world.

Creighton Youths Will Be Restricted

Following Investigation, Boys and Girls Are to Be Regulated

Creighton, Neb., Jan. 19.—(By H. W.) A great many Nebraska towns have been "talking the movement, but Creighton has acted.

Following an investigation into conditions among high school students here by Taylor of the state board, and a request of the school board, a mass meeting was called—March 20th—200 persons attended and a committee was organized, headed by H. R. Stainhouse, and most of the leading citizens, met to take action.

The state board of resolutions adopted—part of which, by the way, have not yet taken effect:

An 8 o'clock curfew established for all boys and girls under 18 shall be accompanied by a chaperon at the dances, moving picture shows and the state fair.

All public dances must be diligently supervised.

At least one teacher will be present at each night school party, regardless of where it is held.

"The plan is working nicely," said Mayor Stainhouse. He appealed to the parents of Creighton to be on guard against the possibility of immorality among certain of the high school students had developed.

Miss Taylor made no recommendation, but a bare report of conditions and the school board made the recommendations which she approved.

"The good people are all back of us."

Even the boys and girls, aside from a few of the boys, were on the "blue law" have entered "reasonably well" into the new regime.

There are about 100 students in the school.

WAKEFIELD SUFFERS DEFEAT

Wayne High School Wins Over Opponent in a Game of 24-25

The Wakefield high school basketball team came to Wayne, Friday evening, to play the high school here, was an exciting game from start to finish and ended in a score of 24 to 25 in favor of the home team.

Hog Market This Week.

Lincoln, Neb., Jan. 19.—(By H. W.) The sale in receipts of supplies on the local hog market today was accompanied by a substantial advance in price and a brisk demand prevailed throughout the entire session.

Today's receipts were posted as 12,800 head, considerably less than the total receipts of the past week last week, but entirely in keeping with the receipts at the other western markets today.

With 83 head remaining unadvised, yesterday's trade closed at the advance, which was made earlier in the morning. The general market was steady, with a few higher rates than Saturday's trade.

Both the packers and shippers were in the yards in full force early this morning, and the market was fairly brisk.

Prices at 25 cents higher. Toward the middle of the session they warmed up a bit more and were offered at 25 cents higher than the average price paid on yesterday's market.

Trade was brisk from the start and many of the pigs were sold at a comparatively early hour. Those who held their consignments off the opening trade were not offered until they were in the hands of those who elected to hold for a longer time were forced to accept a time cut toward the close.

One of the features of the receipts today was the absence of big hogs, and the abundance of trim, heavy-weight hogs which met the demand of the buyers. What heavy hogs there were were offered from the early market for prices from 20c to 30c in advance of those quoted yesterday.

When \$9.90 was paid for 71 head of 217-pounds by a shipper, the practical top was \$9.85, but prices were bid up to \$9.90. Bill of the receipts changed hands for \$9.48 to \$9.80; with the heavier hogs bringing up the lower end.

SECOND IN SERIES OF FATHER-SON BANQUET

Over One Hundred Attend and Listen to Talk by Dr. Titus L. Lowe

The second of a series of father-son banquets were held at the First Methodist church in Wayne, Monday evening, and was successfully enjoyed attendance.

Plates were laid for over 100 and the program was arranged in a comfortable for ten additional men.

The ladies of the church choir prepared to serve the banquet and the finest testimonial that could be paid to their skill, was the manner of the men and boys as they partook of the good things prepared.

Prof. O. R. Bowen acted as toastmaster and in his easy, gracious manner soon had everyone feeling comfortable.

A short address was made by the pastor of the church and the music was furnished by the entire assembly, under the direction of Prof. E. F. Fowler.

The string quartet by 100 male voices, were sufficient to cause the ladies to rise in their seats to cheer and listen.

The principal event of the evening was the address by Dr. Titus L. Lowe, pastor of the First Methodist church of Omaha. It is constant in the gentleman's magnetic personality, and was most apparent throughout the occasion. He made a masterful appeal for clean living and stressed the fact that all phases of human life are affected by the same laws of nature and politics and religion should not be separated but should be harmoniously interwoven.

He interpreted the meaning of the word and accounts of his experience in the war zone of France, closing with a mighty appeal for better work and better citizenship in the local community.

The enthusiasm of this meeting it has been noted in the extensive work being undertaken by the pastor and members of this church in trying to harmonize and co-ordinate the efforts of the numerous churches of the church and community. All are looking forward to another of these "get-together" meetings.

WAYNE LOSES IN BASKETBALL

Local Sixteen Defeated by Colner and Donnie

Two basketball games were played at the Wayne State Normal the past week. The first game was played between the Colner team and Wayne.

Wayne played in a score of 12 to 24. Friday evening Wayne met Danne Colner, who has been a member of the Colner team for some time. The game was held at the home of Danne Colner.

In the second half Wayne soon caught up, and by the time they had won the end when Donnie made a basket. The game ended in a score of 16 to 17. Referee King of Norfolk officiated.

AS A GEOGRAPHY AUTHORITY

Prof. E. E. Lackey Returns From Consultation With Publishers

Prof. E. E. Lackey arrived home yesterday morning from a consultation with publishers of the new edition of his book, "Lackey's Geography Material," which he has been consulted to write.

The favor with which Mr. Lackey's work as a geography expert is received, will be pleasing news to his Wayne colleagues and friends.

Wedding Bells Ring in Wayne Vicinity

Marriage at Evangelical Lutheran Church, South of Wayne

Mr. Fred Eichenkamp was married to Miss Edna Luth, daughter of Fred Luth, at the Evangelical Lutheran church northeast of Wayne, yesterday afternoon at 2 o'clock, the pastor, Rev. E. E. Lackey, performing the ceremony.

Mr. Eichenkamp is a native of Nebraska, and is a member of the First Methodist church of Omaha. He is constant in the gentleman's magnetic personality, and was most apparent throughout the occasion. He made a masterful appeal for clean living and stressed the fact that all phases of human life are affected by the same laws of nature and politics and religion should not be separated but should be harmoniously interwoven.

He interpreted the meaning of the word and accounts of his experience in the war zone of France, closing with a mighty appeal for better work and better citizenship in the local community.

All are looking forward to another of these "get-together" meetings.

DISCARD DIRECT CURRENT ON FEB. 1

Change in the alternating electric current in Wayne is expected to be completed February 1, when all alternating the old direct current will be abandoned without ceremony.

Lights connected with the new current were turned on in streets outside of the business district Saturday night. During the process of making the change the streets were usually dark.

The task of replacing the old current with the alternating has been long and hard. The new system is the universally popular one, and is said to give advantage in the long run. It has often been regretted that the alternating current was not installed when the plant was built. Thus, the burden of expense in making the change could have been avoided.

Drunk Up the Evidence

Clark, Neb. Jan. 19.—When Dick Clark was arrested for the possession of intoxicating liquor, expert testimony was allowed. The half pint of gin and tonic was found in the liquor was tested by four experts.

When the bottle was passed to the fourth only a few drops remained.

When the bottle was returned to the court it was empty.

The evidence being all gone, the court dismissed the case.

The prosecution claimed that Clark dropped the bottle from his pockets while searching for a handkerchief. The town marshal, standing nearby, made the arrest. Several hundred townspeople were in court to hear the evidence, owing to the prominence of the prisoner.

Stanton, one of the most prominent citizens of Tilden, was first called as a witness. The bottle was first put in his hand and after testing he told the court story which made the crowd laugh. He declared it was not intoxicating liquor.

Next the witness was called. He took up the contents, and testified that he had not tasted liquor for four years, and the court declared that this evidence was not reliable.

Ray Ashburn drank liberally of the contents, and passing the bottle to Otto Emrick, remarked it could not be alcoholic.

When the bottle reached the court, it was empty and there being no further evidence, the prisoner was acquitted of the charge.

Nebraska Pen Overcrowded

Wayne Pen, Too—A Temporary Fix Will Be Made

Wayne penitentiary to provide sleeping quarters for the overflow population of the institution. Wayne Penitentiary said. The temporary dormitory will contain fifty beds.

The penitentiary now has a population of 300. Two years ago there were less than 800 at the prison. The population has increased steadily during the past few months, and with the start of the institution new policy of holding up paroles the housing bill has become a serious one.

Warden Fenton said Omaha and Lincoln are both overcrowded. He told back a number of prisoners because of the serious lack of room at the institution. He believed the population will jump to 800 within a few weeks.

The Back Bone of a Range is the Back Flue

When the back flue gives out the range ends.

In the back flue concentrates dust and acids, salt, moisture and everything that goes through a range. It is the "catch-all" of any range.

You seldom notice the backbone of a range. Knowing this, manufacturers slight this all important part of a cooking machine. Nevertheless, when the back flue rusts out the range becomes junk.

The Copper-Clad range is equipped with a solid one-piece malleable back flue. It cannot rust, crack or break.

And the Copper-Clad is the only range thus equipped for a lifetime of service.

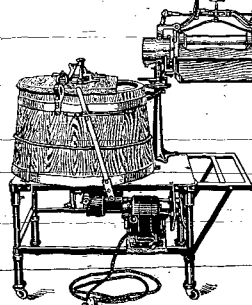

Let us show it to you.

Weather Was Seasonable. Kansas City Times: The news accounts of the perilous trip of the navy balloonists to the Canadian wilderness, make a good deal of the fact that there was snow up there and uncomfortably low temperatures. But it could hardly have been hoped that the excursionists would find a plain garden in the vicinity of Hudson's bay.

Limit to Immigration. Chicago Tribune: It is inconceivable to the opposition that unrestricted immigration may bring to the United States many European distasters without contributing anything to the relief of humanity. The interests of American nationality, of the American political system and of American industries demand a relief from overstrain. We have reached the point of saturation and we cannot take care of aliens driven here in a panic.

A Question of Security. Sioux Falls Argus-Leader: Secretary Houston announces that the war finance corporation will lend money only to such as have gilt-edged securities to offer. The next step is to determine what the term means. Is a good farm a gilt-edged security or not?

Nice Debating Topic. Springfield, Mass., Republican: The proposal of the "allied citizens of America" for a federal constitutional amendment to base representation on the house upon the number of citizens instead of the number of inhabitants—"excluding Indians not taxed"—raises an interesting question of governmental theory. But it is likely to remain an academic question.

The Princely Editorial Salary. Ohio State Journal: The fact that President Wilson, who has had no special experience in this noble profession was offered \$150,000 for one newspaper article may give the public some idea of what we regular editors get.

DEATH OF JUDGE J. B. BARNES

Started His Practice of Law at Posen in Early Seventies.

Lincoln, Jan. 20.—Judge James B. Barnes, who died Saturday night at 8 o'clock at his home, 1717 D street, was one of the best known jurists in Nebraska, having been attorney and judge since 1873, twelve years of that time on the supreme bench. His latest work was as deputy attorney general of Nebraska, from which he retired but a few weeks ago because of failing health.

Judge Barnes was born in Ash Grove, Ohio, in 1831 and was called to the bar in 1857 and went to war at sixteen, serving with company E, First Ohio volunteer light artillery. Returning home in 1865, he finished his education at high school and read law until the spring of 1871, when he came to Nebraska, settling at Posen, in Dixon county.

After he had practiced his law five years he moved to Lincoln, where in 1875 was elected district attorney for the sixth judicial district, becoming district judge in June of 1876. E. K. Valentine, who resigned to go to congress.

At the expiration of four years he was elected for another four years, and though the Sixth district then included much unorganized territory, he was able to conduct his business, or which could be reached by rail, road, he made a record of never missing a term of court or failing to be ready to open court at the time and place fixed by law.

Retiring voluntarily from the bench to engage in the practice of law, he opened an office in Posen, where he remained until October 1882, having lived in Dixon county seventeen years. He then moved to Norfolk, where he lived for about twenty years, having a large practice in the supreme court, the federal court and over much of north Nebraska.

Judge Barnes was appointed as supreme court commissioner, January 1, 1902, and the next year was elected to the bench by a majority of nine thousand votes. Lincoln was his residence continuously after 1908. He served for twelve years on the supreme bench from which he retired about a year ago. For several months he served as assistant to Attorney General Davis, until his health forced him to give up that work, which he survived by his wife, and two sons, John, Jr., an attorney at Casper, Wyo., and A. K., living in Denver.

Wrote Important Opinions.
During his long period on the bench he wrote many important opinions including one sustaining a law of 1907 which provided for a reduction of express rates. This law was opposed by every express company doing business in Nebraska, and his case was long and hard fought. The opinion of the court, written by Judge Barnes, added to the precedents of Nebraska's highest jurisdiction an interpretation of the right of the people to control and regulate corporations engaged in business as common carriers that had been classed among the strongest and soundest findings pronounced by any court in the land on that subject.

Many attorneys who have practiced in the supreme court will remember the theories that used to circulate about his habit of going to sleep during an argument or at least falling with closed eyes. It is told of him that quite often he would disconcert an attorney by suddenly opening his eyes and asking a pertinent question. Now and then he would on such an occasion demand in a stern tone whether the attorney meant to say so and so about a certain case cited. "I know what it is in that case, for I brought it to this court," he would say. Among his fellow jurists he enjoyed a reputation of having not only a broad and thorough knowledge of law, but an aptitude for seeing the clearest facts of a case and rendering his opinion in the most concise and clear-cut terms.

THEATRE DESTROYED BY FIRE

Picture Film Catching Fire, Spreads Flames Over Nearby News.

The Ever-right theater recently opened in Wynot, burned to the ground Saturday night. While the picture was being shown the film ignited and exploded. The building was in flames in a very short time. Salvator Lutz, manager, who had his hands and face badly burned. The fire department was called and succeeded in saving the adjoining buildings.

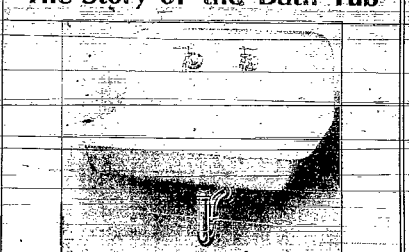

Miss Agnes Graham and the science classes of the Wiener high school receive messages from the Wayne State Normal wireless station each morning and evening. Supt. Demmel and Trustee Officer Wallestadt of Coleridge have had considerable difficulty in keeping a number of children in school. Investigation showed that the children were kept out of the public school by attending the Lutheran parochial school where religion only was taught. County Superintendent Schvorn and County Attorney Ward informed Rev. E. Wickman that the children must keep up their regular work under a teacher holding a registration certificate. After fulfilling these obligations the parents are at liberty to give their children as much religious instruction as they see fit.

Carl Ruther, a pioneer of Stanton, died at his home Saturday, January 8. The business houses were closed

The Story of the Bath Tub

"Adam Thompson of Cincinnati, was the first man in the United States to use a bathtub. This was on December 20, 1842, and caused widespread publicity. The newspapers devoted columns to violent discussions of it. Some claimed this type of bathing was a degenerate luxury, designed to corrupt the democratic simplicity of the republic. The medical fraternity denounced it as dangerous to health and bound to result in rheumatic fevers, inflammation of the lungs and the whole category of zymotic diseases.

"In 1848, an ordinance prohibiting bathing between November 1 and March 15, failed by only two votes in the Philadelphia Common Council. During the same year, Virginia laid a \$30.00 tax on all bathtubs. Boston, early in 1846 made bathing unlawful except upon medical advice. The ordinance was never enforced and in 1862 was repealed.

"President Millard Fillmore installed the first bathtub in the White House, and in 1851 he broke down practically all prejudice, with the result that by 1850 every hotel in New York had one bathtub and some had two and even three. And in 1920, the Pennsylvania Hotel of New York alone contains 2,200 Kohler bathtubs."

Harding-Exercising Care	

Washington Post: From the day of his election it has been expected that Mr. Harding would select men of a high order of ability for his advisers—men in whom not only

but the country would have an abiding confidence. That feeling still prevails, and is confirmed by the deliberation that has marked his course in choosing his cabinet.

Still Being Tried.

Logistics Chief: The attempt to log into morals into people meets with just about as much success as does the driver who attempts to climb a telephone pole with his automobile.

COMMUNITY PROPOSITIONS
We have before us the report of the closing of a "community" store at the instance of Hank Doering.

Some well educated theorists are so anxious to experiment with government that they forget the danger of losing permanent injury to the people.

Suppose a crowd of college professors and an equal number of farmers mutually agreed to exchange vocations...

With material and wages high priced, building operations were reduced to the minimum in towns and cities last year.

Ownership of a newspaper is a particularly trying thing. It is not only a business, but a trust.

Many men will mercifully keep their wives away from Oklahoma if a certain bill, mentioned in the following dispatch, becomes a law.

Thus, we always feel sorry for a community proposition. Much is expected from it, but inevitably little, if anything, is realized.

Patrons have been circulated in support of the bill before the legislature providing for the censorship of moving pictures.

Lincoln Journal: The Portland Oregonian is having an unpleasant time with a well-to-do citizen who objects to the published statement that the precipitation in Portland is about the same as in New York City.

NEBRASKA LEADS IN ALFALFA

State Ahead of Neighbors in Hay Production for Last Year

Lincoln, Neb., Jan. 17.—Nebraska led all other states in the production of alfalfa hay during 1920. Its total production from 1,232,947 acres planted was 3,527,689 tons showing an average yield of 2.86 tons per acre according to statistics compiled by A. E. Anderson, federal state field agent for the bureau of crop estimates and Leo Slight, secretary of the state board of agriculture.

The state department of agriculture estimated the value of Nebraska's alfalfa crop at \$35,276,835. This estimate, it is explained, was Dec. 1, when alfalfa was selling for considerably more than now.

In all other years Kansas has led all other states in the production of alfalfa. This year the Sunflower state second, but produced only 2,773,284 tons less than Nebraska.

Nebraska also led Kansas in area planted in alfalfa in the first time. Kansas averaged in alfalfa in 1920 340 and its production averaged 2.71 tons per acre.

Nebraska farmers have been trying for twenty years to produce more alfalfa than Kansas. Kansas has always led in both production and acreage. In 1919 Kansas had 1,100,000 acres in alfalfa and Nebraska had 1,020,000 acres less or 116,152. Production that year in Kansas amounted to 3,014,244 tons and 275,234 tons in Nebraska.

The production of alfalfa in both states increased steadily during the calendar season of 1920. In 1919 Kansas production was 3,674,072 tons and compared to 4,088,598 tons in Nebraska. In 1916 there was a decrease in production of more than a million tons in Kansas and nearly as much in Nebraska. Neither state since then has equalled the production record of 1916.

California is the third largest alfalfa producing state, according to M. E. Anderson. South Dakota is fourth and Montana is fifth.

Dawson county led all other counties in Nebraska in alfalfa production in 1920, producing 116,432 tons. Antelope county was second, having produced 106,720 tons and Scottsbluff county was third, producing 106,212 tons.

Three counties—Cuming, Dodge and Merrick—produced an average of 3.4 tons of alfalfa to the acre during the year, leading all other counties in yield.

To Relieve Hunger. Contributions of corn by American farmers to feed hungry people abroad has prompted this editorial comment in Monday's Sioux City Journal:

The news reports that the farmers of the country are prepared to give corn in any amount up to 50,000,000 bushels and more for the relief of the hungry contains this introductory sentence: "The great heart of the American farmer is in the right place and in the right property." That is an expression of opinion, not ordinarily permissible in news reporting, but it is not out of place in this instance, for the reason that it is an exact statement of fact.

The little mustard seed has grown overnight almost into a great tree. A project suggested by a single farmer of generous intent has developed into a mighty movement supported by more than 1,000,000 men of the farms.

The farmer has no cash to give, but he offers to give that which will require cash to buy. He offers the product of his toil and sweat, and in so doing he offers a bit of himself, which is a thing not to be sold, even in terms of cash. It now becomes the duty of those who are able to give cash to see that the farmer's generosity shall be recognized and that the grain he so freely offers shall be gathered and conveyed to the needy.

The farmer within the last six months or more has seen his profits on a year's operations shrink to the vanishing point. His loss has been grievous and hard to bear. He has the losses in many other lines of business. Notwithstanding his loss, however, he shows his generosity and his generosity with the generosity of the men and women in the cities who are giving cash that the hungry may eat. It is the whole truth to say that

As I am going to farm on a smaller scale, I will sell at public auction, on my farm, four miles north and one-fourth mile west of Wayne, six miles south and two and one-quarter miles west of Concord, and one mile north and eight and three-quarters miles east of Carroll, on

OF THE VERY BEST BREEDING

Saturday, January 29

AT GIBSON SALE BARN, EMERSON, NEB.

Sale Starts at 1 p. m.

Everything cholera immune and guaranteed breeders or I will refund your money if notified in a reasonable time and the sow is returned in good condition.

They will be bred to "Another Rainbow" whose gilts on sale day will speak for his ability as a sire. He stands on the best set of underpinnings that a boar ever had and transmits the same. The gilts are bred to "Orange Surprise" and "Resolute." "Orange S" is by the great "Big Bob" boar that Chas. Schram owns and he stands fair to out-do his illustrious sire if he keeps on growing. He is the making of a 1,100 pound boar. Resolute is by "Orange Model" another giant boar. No offering this winter can surpass the breeding of these three boars. The sows are sired by "Fussys Timm," "Major Price," "Imperial Buster," "Orange Model" and "Designer," a most wonderful breeder. The gilts are sired by "Another Rainbow" and "Howa Timm." Fred Seivers' new herd boar. Boys, he will make them all go some to be defeated next fall. The eight Timm gilts are bred to "Another Rainbow." I want to say that this entire lot is the best I ever offered for sale.

Terms: Cash or you may have a reasonable time if you desire. A catalog will be gladly sent upon application.

his heart is in the right place and is functioning properly. The response that the people of the country, the farmer and the city dweller alike, are making to the appeal of the hungry and the starving, is no more than we expected, but notwithstanding, it is an inspiring revelation of the heart of America. Again I do not make a confession that the world is our neighbor. Again do we recognize the obligation of those to whom much has been given. We will be able to give, and give again many times, and yet not approach the impoverishment suffered by those doomed unless we shall be generous. The project of feeding the world's hungry was first contemplated and had the appearance of an impossible undertaking. But confidence increases that the job will be done.

Bloofield, Randolph, Carroll and Norfolk will send representative. An interesting program will be carried out. It will consist of papers on Christian stewardship and a discussion of the work of the society. Also a report of the national conference held at St. Paul, Minn., in November will be given. Everybody interested in the work of the society is invited.

Minerva Club
The Minerva club met at the home of Mrs. J. T. Hines Monday afternoon. At the business session a petition to the state legislature was presented to the ladies to sign. The members asked the legislature to enact the laws recommended by the children's code commission. The law provided for the inspection and approval of motion picture films and provided for a board of censors consisting of three members. It was almost unanimously approved. The hostess served refreshments. Mrs. H. D. Athey had charge of the lesson. She gave a fine paper on "Poets of the Nineteenth Century." Mrs. O. W. Crabtree read two poems. Mrs. House and Mrs. Beaman favored the club with a piano duet and responded to a hearty welcome. The hostess served delicious refreshments.

The "U.S." Walrus

Warm as an Arctic— washes off like a Boot

The "U.S." Walrus—worn by farmers everywhere

FOR years farmers have needed a high rubber overshoe—easy to put on and take off—warm and comfortable—one that could be easily cleaned of the dirt of the barnyard.

There's an overshoe like that ready for you this winter. With an all-rubber surface—snow-tight and water-tight—lined with soft, warm fleece—the U.S. Walrus is just the thing you've been looking for.

It slips right on over your leather shoes. You can work in sticky mud all day, but when you get home a pat of water or a rinse at the pump washes the U.S. Walrus as clean as when you started. No chance for dried mud to rot that smooth rubber surface!

At exactly the place where overshoes usually wear out first, the U.S. Walrus has been made *strongest*. Its sole consists of heavy layers of the finest rubber. All other points of strain are specially reinforced.

Ask your dealer to show you a pair of the U.S. Walrus. Examine for yourself their wonderful built-

to-wear construction. After you've worn a pair for a day or two, you'll realize why farmers everywhere are buying them.

Other types of "U.S." Footwear—built for rough service

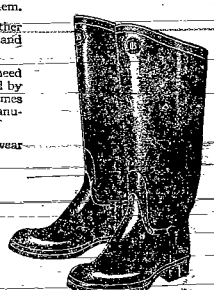

U.S. Boots have all the wear and comfort which the accumulated improvements of 74 years have given them.

U.S. Boots lace on over the sock like a leather shoe. Your feet wear them all day long in mud and water—your feet will stay dry and comfortable.

The U.S. kind of footwear has a type for every need—arctic, rubbers, "overs." Every one is backed by over half a century of experience. The rubber comes from our own plantations—the whole process of manufacture is supervised by experts.

Always look for the U.S. Seal—it means solid wear and long service for your money!

"U.S." Boots—Reinforced where the wear is hardest. Made in all wide sizes—styles—High, Half-High, and Knee-High. In red, black, and white

duet the devotionals. A tea will be served and a free will offering with be taken.

Hosatochen Campfire

The Hosatochen campfire girls met Tuesday after school with Miss Mable Brittle, their guardian. The regular business was transacted and several new members were voted in. The girls will have a candy sale Saturday at the Judson Furniture store.

Alpha Women's Club

Mrs. C. E. McLennan was hostess to the Alpha Women's club Tuesday evening. The meeting was called to order by the president and all members answered to roll call by a signed topic. Miss Martha Dewey read an excellent paper on the "Poetry and Music of the Bible," and Miss Martha Dewey very ably discussed "The Bible." Mrs. L. B. Young favored the ladies with two vocal solos. Guests of the evening were: Mrs. J. A. Garnon and Mrs. H. W. Windley, sister of the hostess. Mrs. McLennan, assisted by her sister, served light refreshments.

Nineteenth Anniversary

The pleasant home of Mrs. J. H. Wright was the center of a happy occasion Tuesday afternoon when the Women's Home Missionary society celebrated their nineteenth anniversary. The rooms were prettily decorated with fragrant carnations. Mrs. C. E. McLennan presided and gave the words

welcoming the friends and out of town guests who were present. The song, "Jesus May Come Today" gave the keynote of the occasion.

The lesson exposition was followed by a brief report of His mighty work in the dark lands, where thirty-five to one hundred dollars will support undivided ministers and teachers. There are still one thousand tribes living in outer darkness. The reports from these native missionaries show that hundreds of converts have been won to Christ during 1920, and proves that the native preacher is the least expensive and the most effective instrument in winning those in all lands who have no other opportunity to hear that Christ died for them. Special music was furnished by Miss Beckenauer and Mrs. Phillips. Mrs. Henry J. Martin of Emerson gave a touching report of the Bible Society circle she is conducting there and read feelingly the new version of the "Ninety and Nine." Miss Richardson, volunteer for South America, and Miss Laura Thompson to Africa, and Miss Soderberg of China, and others gave feeling testimonies of Christ's leading in their lives.

After the song, "What Will It Be to See Jesus," a suitable gift was presented to Mrs. E. L. Dean who leaves soon for California, to the deep regret of her many Wayne friends. Mrs. H. C. Chester will be hostess next week.

Mrs. J. Fox and baby and Miss Johanna Fox left Wednesday morning for Stour City and will visit several other points in Iowa before returning.

TO TIDE OVER STRINGENCY

Governor's Bill For the Establishment of County Warehouses.

Lincoln, Neb., Jan. 18.—A bill, which, if passed, would bring into being Gov. McKelvie's plan for the issuance of warehouse receipts for grain and for the establishment of county and farm warehouses, in which grain would be stored pending sale, was introduced into the lower house of the legislature yesterday by Chairman Vance of the committee on agriculture and twelve other representatives.

The bill, in accord with the plan of the governor for tiding over the times of money stringency, such as that which occurred last fall, owing to the farmers' inability to sell grain and produce on a shattered market.

Fights for Movie Bill.
An attempt of Representatives Byrum and Gifford to remove their bills on the subject of the movie industry from the committee on child welfare to which it was referred by Speaker Anderson, was blocked yesterday afternoon by the majority on the floor.

The Byrum and Gifford bill opposes appointment of moving picture censors and provides that movies shall be watched by the county attorneys.

Acting Governor's Salary.
The question of who shall pay the salary allowed by law to the acting governor of the state during the absence of the regularly elected official is one that is bothering the lawmakers just now and it will, all probability, bring forth some legislation before the session closes.

During the biennium just closed, Gov. McKelvie was absent from the state just fifteen days. Under the law, Lewis C. Barrows is entitled to the salary of the governor during the time that he is acting.

Pass Salary Measure.
The Nebraska senate Monday afternoon passed the first two bills to go through the 1921 state legislature, which are the bills introduced by the finance committee, appropriating \$67,700 for expenses of the session, and House Bill No. 77, also introduced by the finance committee, appropriating \$116,000 for legislative salaries, were the two measures approved by the upper house.

MISS PIPER'S SISTER WRITES

Letter Descriptive of Life and Customs in Portugal Received.

Miss Elsie Ford Piper, member of the Wayne State Normal Faculty, has received an interesting letter from her sister, Mrs. Clark Hagenbuch, who is living in Portugal. Dr. Hagenbuch is physical director of boys' work in Portugal, and was sent there last August by the international committee.

These excerpts from the letter will be of public interest.

"I am going to try to tell you something of how you are in the town. We came up here last Wednesday from Lisbon and expect to stay a week. The Stallings, whose guests we are, are just real American college people. Mr. Stelling is the general secretary for Portugal. Their home is very nice but a typical Portuguese house with many small rooms and casement windows eighteen inches deep. All the houses are straight and end-on-end, the windows are the most part white with red tile roofs. Most of them are three stories high. The people have a little ground and their build up. They are farmers, say they have a house of twelve rooms.

"C Coimbra is the Athens of Portugal. The servants here speak better Portuguese than the higher class most anywhere else. The university, one of the oldest European universities, Coimbra is much prettier than Lisbon from the point of houses and clean streets. There is the same story of poverty everywhere—and beggars. Awful!

"Everything is bought at markets. Here you see women with three or four eggs and a few grapes for sale. They have them and so come to sell for they need something else. They buy in small quantities too. It is pitiful but they have had so little for so long that they feel they can't buy much. The Stallings' servant buys potatoes every day.

"I must tell you of a trip we took yesterday. Mr. Stalling got a man to 'dicker' for an automobile to take us to Bescoia to see the castle which flour a month's pay if he tried to hire one.

In a Ruined Palace.
"Bescoia is a mountain about twelve miles from Coimbra which in the year 1200 the government gave to the monks. It was bare and they planted trees and shrubs. It is wonderful but they have some pine all over it. Here at the base of the mountain is the summer palace of the late King Charles. It is wonderful to see it to the government before the fall of the kingdom. The palace is built around the monastery which was built in 1228. There are pictures hanging in the hall of the palace and the doors which open into the monks' cells still hang on the original hinges. They were left for about noon and we went out over a fair road past fields of grapes. There is a law that everyone must build a wall around his place whether it be a garden, a farm or an olive orchard. In many places they have thrown up dirt and planted cacti on top which grow to high as a wall.

"The grapes just now are wonderful. If this country had any economic sense it would be a rich place; but some other country profits from everything. Americans buy the olives, paying very little for them. They take them and what is not good for them? And so with everything.

"We went through many villages which had no means of communication with the outside world except ox carts. One street of houses is so narrow that two big cars could not pass each other. The houses are not shade affairs and dirt. Not as we think of dirt but real dirt. Then here and there are nice large places with lovely gardens. We saw men treading grain and one mill grinding. It had large stone towers with wheels and sails like a Dutch windmill.

"Our car took us to the high cross on top of the mountain. We walked down, stopping to eat our lunch. When we had taken with us a spring near which was a large stone table. The spring and table are kept clean by men who live on the top of the mountain. From the top of the mountain one can see miles in every direction; the towns in the distance looked very beautiful. The path we walked down is called the 'romes' path, which pictures Christ's journey to the cross. A fine place—but too much 'gingerbread' to be beautiful to us. We had tea there for one can't enter unless he orders something of 'romes' if he can have it. We went to the village below. There used to be a great casino there but now gambling is forbidden.

"Another thing that we saw this same day was a great 'festa' of the church. When the republic was first established, all religious demonstrations were prohibited but since the government has changed hands so many times they are lax in enforcing the laws. It was confirmation Sunday and all the banners and rockets and firecrackers were in use. There was a procession with a band, the priests in their robes (and the white maidens overdraped), little children with wings and a platform on which was a statue of Christ surrounded and with flowers. The children who were confirmed were in white with white veils. They were followed by the congregation, a motley crowd at the best.

"After dinner in the little town we came back by moonlight. As the time here is one and one-half hours earlier than standard time, the evenings are very long. We came through one village where they were dancing in the street, a drum and a kind of bagpipe furnishing the music. Just think! We saw all those interesting things in one day.

The fish is the mark of the poor and it is so high now they can't get it. Sugar can't be obtained under an ordinary plan. I wish I had the fit

How I hate to go back to the hotel in Lisbon and to French cooking. Say what they will, the Americans are the best cooks on the face of the globe. Everything here is always fixed just as it was the day before and the day before that and as it will be tomorrow."

SPECIAL ELECTION ON FEB. 8
Allen and Ponca Will Appear in Hot Rivalry Over County Seat

Last week the supervisors of Dixon county issued a call for a special election to be held February 8 to vote on removal of the county seat from Ponca to Allen. A petition bearing sufficient signatures, which was filed with the board, prompted the action. Allen and Ponca will now engage in a spirited endeavor to win support, each presenting its claims to voters in as attractive and forcible fashion as possible.

A Generous Legacy.

The copy of a will found in the pocket of a coat belonging to one of the insane patients of the Chicago poorhouse, has been found and published. The author of the will had been a lawyer and the following follows: It is worth reading and considering:

"I, Charles Leinsberry, being of sound and disposing mind and memory, do hereby make and publish this my last will and testament, in order as fully as may be, in distinction of my interests in the world among succeeding men:

"That part of my interests which I possess in land, recognized in the sheep-bound volumes as my property, being inconsiderable and of no account I make no disposition of the same by my will, my right of my being being but a life estate, is not at my disposal, but, these things excepted, all else in the world I now proceed to devise and bequeath.

"Item: I give to good fathers and mothers, in trust for their children, all good little words of praise and encouragement as all such are of names and endearments; and I charge said parents to use them justly, but generously, as the needs of their children may require.

"Item: I leave to the children ineluctively, but only for the term of their childhood, and in every year the flowers of the field, and the blossoms of the woods with the right to play among them freely, according to the customs of my people, and to them at the same time against thistles and thorns. And I devise to children the banks of the brooks and the sand bars of the rivers, the waters thereof and the odors of the willows that dip therein, and the white clouds that float high over the giant trees.

"And I leave to my people, and to long days to be very in, in a thousand ways, and the night and the train of the Milky Way, to wonder at, but subject to the laws of the rights hereinafter given to lovers.

"Item: I devise to boys, jointly, all the useful life fields and common waters, but without any unpleasant waters where one may swim, all snow-clad hills where one may coast, and all streams and ponds where one may fish, or where, when grim winter comes, one may skate, to hold the same for the period of these bequests. And all means with the clover blossoms and butter flies; the woods with their appurtenances, the squirrels and the birds and the echoes of their notes, and all distant places, which may be visited, together with the adventures there found. And I give to said boys each of a great number of the fireside at night, with all pictures that may be seen in the burning wood, to enjoy without let or hindrance, or without any interruption or care.

"Item: To lovers I devise their imaginary world, with whatever they may need, as the stars of the red roses by the wall, the bloom of the hawthorne, the sweet strains of music, and aught whereby man may desire to figure to each other the loveliness and beauty of their love.

"Item: To young men, jointly, I devise and bequeath to all boldness, inspiring sports of rivalry, and I give to them the disdain of weakness and strength. Though they are rude, I leave to them the power to tolerate lasting friendships and of possessing companions, and to them exclusively I give all merry songs and grave discourses to sing to their joy.

"Item: And to those who are no longer children or youths or lovers I leave memory, and I bequeath to them the volume of the poem of Burns and Shakespeare and of other poets if there be others, to the end that they may live the old days over

The Value of a Good Back Bone.

There is a vast amount of health and energy wasted through neglect of the human spine. Such neglect being the cause of all forms of disease—annually killing people in this country. Much of the destruction of life and happiness could be avoided by attention to the spine that will insure lasting life sections in true alignment. A backbone in true alignment means perfect health because it insures freedom of the nerves through which nature works on the body. Health is therefore conserved by the natural bodily resistance I leave memory, and I bequeath to them the volume of the poem of Burns and Shakespeare and of other poets if there be others, to the end that they may live the old days over

the health than anything else.

The chiropractor is a spine specialist and where pressure on the nerves occurs through subluxated (displaced) vertebrae (small bones of the spine) he gives an adjustment which puts the vertebrae back in their original position and relieves the pressure. Health is then the result. Consultation and spinal analysis free.

WAS IN DESPAIR

SAYS-MRS. WEIGEL Didn't Think Any Medicine Could Help Her But Takes Tanlac and is Well and Happy.

"I have a better appetite, sleep sounder and have more life and energy since taking Tanlac than I've had before in my career," said Mrs. W. A. Weigel, 4106 Binney St., Omaha, Neb.

"Nine years ago my stomach began giving me trouble and I was going down hill gradually and recently I became almost helpless. My appetite was so poor I didn't care to eat and suffered so much that I actually dragged to go to the table. Finally I got so weak and nervous I couldn't get any restful sleep and went down hill rapidly.

"I suffered so long and so much and had taken such a quantity of medicine I began to think there was nothing bad that could help me. But when I began taking Tanlac it had a most wonderful effect in a short time the indigestion was gone. I now feel like a new woman, am just as well as I ever was and I owe it all to Tanlac."

Tanlac is sold in Wayne by H. J. Feber, in Carroll by L. R. King, and in Winslow by B. & C. McIntyre—adv.

The Early Days in Two Counties

From Wayne Herald, December 31, 1920: D. A. Jones came from Lincoln to spend the day of his home...

The teachers of Wayne county will meet this day at the home of Mrs. Milton Campbell, 25, died at his home near Wayne Tuesday, January 2, 1921.

On account of ill health John Harrington has decided to sell out his business.

Friday afternoon Mrs. Guss and Miss Dickey treated their pupils to a bobbed party.

The railroad company has consented to construct crossing over the Bloomfield branch.

Miss Emily Grace died of heart trouble at the home of her parents in Wayne Wednesday, Jan. 27.

Miss Anna Paulson and Mr. Geo. W. Suhre were married by the county judge Wednesday, Jan. 27, 1921.

Markets—Wheat, 57c; oats, 9c; corn, 9c; flax, 56c; butter, 10c; eggs, 10c; potatoes, 20c; hogs, \$2.65.

One hundred fifty carloads of sugar beets have been shipped to the Norfolk factory from Wayne this year.

From Ponca Journal January 22, 1920:

The train had run about two miles on Tuesday when it was found that the mail had been forgotten. Hence it came back and took a fresh start.

It appears that the statement which a Sioux City man made to Mr. Sullivan, viz., that he had a contract for laying the iron on the railroad from this place to Newcastle, is wholly untrue.

A team with a load of ties broke through the ice on Saturday while crossing the river from Sioux City to Covington. They were fished out however without damage, except a cut harness and a coal bath for the driver.

A gentleman from Sioux City, who came up to this town Monday evening, and who is interested in railroad matters in this and Cass county, states that unquestionably the road will be built on the Newcastle route.

He states that taking into consideration the fact that the road is entirely graded between Ponca and Newcastle, the bridges nearly all built, and the right of way already purchased by the railroad company, that the expense of completing that line will not be to exceed half what it will cost to build the same distance on the Martinsburg route.

Agriculture Notes

Freed From Fever Scourge. Areas aggregating 50,555 square miles formerly infested with cattle fever ticks, were released from federal quarantine last year by the United States department of agriculture.

The total area freed from ticks since the beginning of the work in 1906 is 509,084 square miles, or 70 per cent of the area originally infested. The work is progressing also in additional territory.

Following the eradication of cattle fever ticks well-bred stock may be safely introduced. In fact, regions of the south now removed from quarantine are raising and marketing excellent cattle, say department specialists.

Boys' and Girls' Clubs. Supervision of boys' and girls' sporting clubs by the United States department of agriculture, in cooperation with state agricultural colleges, was continued during the last fiscal year.

In seven states, where there were 112 members, with 23,450 members, of whom 12,786 made reports from which the following totals have been compiled: Eggs set, 73,117; chicks hatched, 510,478; value of products sold, \$24,791.92; value of stock on hand, \$382,277.37; exhibits sold, 112; mounds exhibiting, 5,015; prizes received, \$9,681.11.

Feature of progress was the improvement in quality of fowls bred by club members.

Boys and girls won prizes in open competition with older and established breeders.

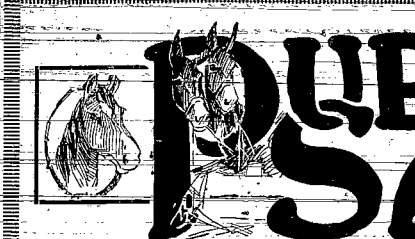

Cattle Tuberculosis. Conspicuous among the efforts of the United States department of agriculture to suppress animal diseases, is the past year's success in the excellent progress in tuberculosis eradication.

The accredited herd men, under which cattle, passing a series of official tests, receive appropriate recognition, has met with general support from live-stock owners and state sanitary officials. During the fiscal year ending June 30, 1920, a total of 695,364 cattle were tested. Of these, 28,616 reacted and were removed.

The number of accredited herds at the end of the year was approximately three times as large as on June 30, 1919. The records show also that in addition to fully accredited herds, 17,456 other herds containing 257,577 cattle have passed the first official test, no reactors being reported.

The public interest in the tuberculosis eradication activities, the enthusiasm with which cattle owners are cooperating are shown by the number of applications for testing received. The waiting list at times has included nearly 5,000 herds.

A noteworthy development in tuberculosis eradication is the fact that in

Notice to Owners of Dairy Cows

The dairy law of Nebraska requires that all cows from which any milk or cream is sold for consumption shall be tested at least once each year by an approved veterinarian. The only exceptions to this are in cases where milk or cream is delivered to a dairy where the product is properly pasteurized before it is sold to the public, or where the entire product of the herd is sold for manufacturing purposes.
Cow owners are urged to have this testing done during the months of January and February for the reason that more time is available, and when a number of cows are assembled at one time and place, reduced rates for testing will be made. The law provides this testing shall be done by an approved veterinarian, and the following are the approved veterinarians in this district: Dr. J. C. Johnson, and Dr. D. D. Tobias, Wayne, Neb.
Arrangements should be made to have this testing done within the time specified, as the dairy inspector will check all cow owners who are required to test. Attention is called to the fact that the dairy law provides a penalty for failure to comply with the above provisions.

FOR SALE OF SCHOOL LANDS

One of Major Propositions Touchled Upon by Gov. McKeelin.
Lincoln, Neb., Jan. 18.—Another administration measure signed by Representative Betton and Senator Evans found its way to the lower house today.
The measure provides for the sale of state school lands at public auction to the highest bidder. This was one of the major propositions touched upon by Governor McKeelin in his message to the legislature. He recommended the sale of school lands as a method of raising money to form a fund for the purpose of purchasing homes and farms.
The bill provides for sale of the lands at expiration of present leases when the sales proceeds are canceled or forfeited for nonpayment. This land shall be offered for sale once a year by the land commissioner, and, in the event the lessee is a bidder, but is not the highest bidder, the successful bidder must reimburse the lessee for the amount of improvements placed on the land. Lands containing minerals are exempt from provisions of the bill.
No person shall be permitted to purchase more than 80 acres of land and the county treasurer in the respective counties are made state agents to collect the money. The interest rate on sale contracts is specified at 6 per cent. The purchaser is obliged to pay 25 per cent of the sale price in cash. The balance of the sale shall be made in 20 annual installments.
The land must be repossessed by the land commissioner or a deputy and the chairman of the respective county board before it is sold.

Five Bills Introduced

Lincoln, Jan. 18.—Ceremonies of receiving two hundred dollars from the University of Nebraska, mechanical department having been carried out in the senate with pomp and dignity Tuesday morning, that body set about to knock five bills into indefinite postponement.
Then it marshaled three more bills out on the general file and passed one of them on to third reading after a committee of the whole session, at which no dissenting voice was raised.
A bill was placed in the hand of Senator Duesbe's bill, S. P. No. 8, providing for the mortgaging of a wife's real estate, but the committee left the bill to lie in state until the introducer returns from a western Nebraska irrigation congress.
Bills Knocked In Hand.
The fatal potting was administered to the following measures on reports of standing committees:
S. P. No. 15, Bandall—Permitting married women to sell real estate. Judiciary committee.
S. P. No. 18, Beebe—Outlawing estate claims after two years. Judiciary committee.
S. P. No. 38, Dutton—Requiring school district treasurers to publish itemized annual report. Education committee.
S. P. No. 24, Boston—Calling for a committee to certify to the law advertising fixed by statute. Judiciary committee mildly rebuked introducer for putting bill in form of a resolution.

Prominent Tekamah Man Dies

Tekamah, Neb., Jan. 18.—George C. P. Latta, president of the congressman James P. Latta, and vice president of the First National Bank of Tekamah, and president of the Platte State Bank of Tekamah, passed away at his home in this city at the age of 69 years, after an illness of about a year.
Mr. Latta was born in Van Buren, Jackson county, Ia., March 9, 1851. He came to Burt county, Neb., March 18, 1871, and in February, 1872, he established the Platte-State bank in Harlan, seven miles south of this city, of which he was president until his death. He is survived by his wife, Latta had acquired large real estate holdings in Burt county and was one of its most prominent citizens.
The funeral services occurred this afternoon, Canon Marsh, of the Episcopal church, having charge of the services. The Masonic order, of which he was a Knight Templar, had charge of the ceremonies at the grave.

Grand Jury Investigates

Omaha, Neb., Jan. 18.—A special federal grand jury to investigate the activities of companies alleged to have misused the mails in the sale of stock will be recalled within the next two months, according to United States District Attorney E. S. Allen.
The operations of about a dozen companies will be investigated, Mr. Allen said, adding that he estimated the amount of stock they have sold aggregated \$40,000,000.
To Keep Down Taxes.
Lincoln, Jan. 18.—The joint legislative committee on revenue and taxation, meeting this evening, gave reasonable assurance that it is not the intention of the legislature to raise taxes the present year, at least. The committee announced its intention not to hasten revenue legislation, but to conform to the amended constitution, but to move slowly. The committee

This Matter of Courtesy.
Straubinger in the Minneapolis Journal: I notice that a lady remarks that the Journal courtesy campaign is a success because she saw a man offer a lady a seat. By the same token it is a failure, because I noticed today two perfectly healthy young men, who had been engaged in conversation about what "dude" had on this afternoon, entirely ignore the fact that a crippled old man of at least 70 years of age, was desperately hanging to the end of the seat in which they were comfortably seated. One of the troubles of the feminine mind, as applied to courtesy, is that they construe it to be something always tendered to them without any corresponding obligation on their part.
No Responsibility.
St. Paul Pioneer Press: If American courts the allied council of ambassadors at least it will have no responsibility for whatever the council may undertake that it cannot approve.

BOARD PROCEEDINGS

Wayne, Nebraska, Jan. 11, 1921.
Board met in regular session.
Present: P. M. Corbit, commissioner and chairman, Otto Miller, commissioner, and Chas. W. Reynolds, clerk.
Absent: Henry Rethwisch, commissioner.

The minutes of the meeting held on January 6, 1921, were read and approved.

On motion George T. Porter, county auditor, is allowed the sum of \$100.00 for extra help in his office for the year 1921.

Upon motion it is hereby resolved that each member of the board be and is hereby appointed a committee of one to investigate claims of demand upon the county for relief and also to investigate claims and demands of any party on county road and bridge funds to be expended in the several road districts of the county. P. M. Corbit is hereby directed to act as such committee in the 1st district and Otto Miller in the 2nd district and Chas. W. Reynolds in the 3rd district.

Provided, however, that in case of emergency anywhere in the county coming to the knowledge of any of the commissioners where it is necessary to give immediate relief to a pauper and no other commissioner being present, the commissioner present may see to it that the necessary relief is provided. Each member shall report to the full board at its next meeting, and all the members of such committee with their recommendations for action by the board. All justices of the peace, and all constables for the county, are directed to give any aid whatever except as stated below, and all persons requiring county aid, such as medical attendance, are hereby directed to make application direct to the commissioners of the district for which he acts.

Under this resolution the county clerk is given authority to call the county physician for medical attendance when they deem it necessary. County board hereby adopts the Richardson Road Draining Law, as set forth on page 305 of the Session Laws of Nebraska, for the year 1918.

County board hereby adopts the three road draining districts. Road draining district No. 1 shall comprise the precincts of Logan, Leslie, Plum Creek, Hunter and Sherman. Road draining district No. 2 shall comprise the precincts of Wilbur, Deer Creek, Sherman and Garfield. Road draining district No. 3 shall comprise the precincts of Hoskins, Hancock, Chapin and Brenna. P. M. Corbit is hereby made overseer of road draining district No. 1. Henry Rethwisch is hereby made overseer of road draining district No. 2. Otto Miller is hereby made overseer of road draining district No. 3. County commissioners as overseers of the respective road draining districts are to receive no extra compensation.

L. E. Pannabaker is hereby appointed janitor of the court house and grounds and salary fixed at \$400 per month.

On motion it is hereby resolved that the contract for the printing of commissioner proceedings be let to the Nebraska Democrat and the Wayne Herald at full legal rate, one-half of each paper.

On motion it is hereby resolved that the printing of the delinquent tax list, treasurer's statement and all legal notices and other notices ordered published by the board be let to the Wayne Herald and the Nebraska Democrat as follows: Delinquent tax list at full legal rate, one-half to each paper, all legal notices and other notices published by the board at full legal rate, one-half to each paper.

H. Skiles is hereby appointed a member of the soldier's relief committee for a term of three years.

Bond of R. H. Skiles as a member of the soldier's relief committee is hereby approved. \$600.00 is hereby made the compensation for extra help or clerk hire in the office of the county auditor for the year 1921, same to be paid by the board through claims and warrants to be drawn on the county general fund. \$900.00 is hereby made the compensation for extra help in the office of the county clerk for the year 1921, same to be paid by the board through

claims and warrants to be drawn on the county general fund. It is hereby resolved that the board allow for the year 1921 the following wages for road work: Sixty cents an hour for man and team. Thirty cents an hour for man and two teams. Forty cents and hour for single man; and further that overcost shall be allowed for work done on the receipts and also show location as to where work is done, also show the amount of work done by them used, also to account for all old lumber.

All overseers are hereby notified to meet the county party with whom the county has the contract, also sign for all lumber before leaving the yards.

Report of soldier's relief commission showing monies received and disbursed for the period from January 3, 1920, to January 3, 1921, was examined, read and which report is as follows:

Receipts.
Balance on hand January 3, 1921..... \$ 20.11

Comes now J. M. Cherry, county judge, and asks that some competent person be appointed assistant to the county judge.

On motion Edith M. Cherry is appointed assistant in the county judge's office.

Report of Henry B. Bruce as constable for said county, which appointment is approved.

Report of Frank Tramm as constable for the county is hereby approved.

Frank Tramm is hereby appointed overseer of district No. 3 and road approved.

Report of J. M. Cherry, county judge, showing criminal costs and personal suspension of one member of the board for the year 1920 is hereby approved.

P. M. Corbit is hereby appointed highway commissioner for Wayne county for the year 1921.

It is hereby resolved that the use of small horse graders be discontinued for making grades by the road overseers, unless authorized by the county commissioners.

It is hereby resolved that the board allow for the year 1921 the sum of \$3.00, for sharpening both large and small grader blades.

\$1,650.00 is hereby made the compensation for extra help in the office of the county treasurer for the year 1921.

It is hereby resolved that ninety cents a mile per day be allowed for road dragging for the year 1921, wherein four horses are used, and a written contract must be entered into with the county commissioners before any bill will be allowed. Contracts can be entered into by seeing any member of the county board.

No bids were submitted on books and office supplies for the year 1921, and on motion the county officers were allowed to purchase such supplies on the open market.

In compliance with section 2737, Revised Statutes of Nebraska, for 1913, as amended, the board of county commissioners of Wayne county, Nebraska, for the purpose of creating a board of health for Wayne county, Nebraska, hereby appoints Dr. C. T. Ingham, who shall be chairman of board, Dr. C. T. Ingham, who will be physician, and Pearl E. Sewell, who as county Superintendent will act as secretary of said board.

The county board hereby adopts the following rules and regulations to prevent the introduction and spread of contagious, infectious, or malignant diseases, and for the purpose of safeguarding the public health and preventing nuisances and unsanitary conditions.

1. That a board of health for the county be appointed by the county board, the same to consist of three members, one of whom shall be a practicing physician.
2. That said board of health be and they hereby are empowered to enforce such regulation as may be adopted by this board to prevent the introduction and spread of contagious or malignant diseases into the unincorporated territory of the county, said to enforce quarantine rules made for that purpose by or the board of commissioners.
3. That in case in their judgment it shall become necessary to establish a pest house and if the pest house be established by the county board, the same shall be under the supervision of the board of health, and the said board of health shall have power to cause such person to be removed thereto as they deem necessary for carrying out and enforcement of the quarantine rules and regulations adopted by this board and in their judgment they may deem necessary. They shall elect such officers from their own body as

they deem necessary and shall keep a record of all their proceedings and persons quarantined.

4. The expenses of said board of health which are not properly chargeable to the persons affected with such contagious diseases or persons occupying premises where the same exist, shall be paid from the county treasury upon bills duly allowed by the board of county commissioners in the same manner as the other indebtedness against the county. The compensation of the members of this board of health shall be 50 cents a day, one way, and for examination and quarantine of each family \$2.00. They shall be allowed by the county board and paid from the county treasury, in the same manner as other bills against the county.

5. The county board may at any time remove any member of said board of health and appoint another in his place.

7. All persons who have been quarantined shall be thoroughly fumigated in the manner provided by the rules of quarantine, and adopted by this board at the expense of such persons and the occupant of the quarantined premises and no quarantine shall be raised until such persons and the premises have been fumigated, provided that paupers and premises occupied by paupers may be fumigated at the expense of the county. All fumigating shall be under the personal supervision of a practicing physician.

8. Whenever within the limits of this county and without the corporate limits of any city or village, a person is suspected of having smallpox, scarlet fever, diphtheria or other contagious diseases he shall immediately be isolated within his own household as a contagious disease and as soon as a contagious disease is recognized it will be the duty of the attending physician and household to give written notice of health to the clerk of the county giving the name of the disease and of the

family where it exists with the number exposed and all other particulars that may be of value.

2. The premises where the above contagious disease exists must be duly quarantined by the county board of health through its proper officer or appointee (a) by the placing upon the house or some conspicuous point upon the premises, a placard giving the name of disease in letters not less than three inches (3") in height, (b) by a verbal or written notice to the household to remain on the premises and in no way admit any other person except the others (except the physician) to approach nearer than thirty (30) feet to any house or person thus quarantined. This rule to apply also in case of exposure.

3. Such quarantine to continue until in the opinion of the medical adviser of the board of health, the last case of the disease likely to occur therein has completely recovered and is ready for disinfection, provided however, that in case of extreme necessity one free from disease may be released earlier after thorough disinfection of person and clothing and with a certificate from the above medical adviser.

4. The necessities of life, as often an occasion demands may be carried within thirty (30) feet of the quarantined house by the neighbor or other duly appointed messenger, but no matter, nor shall any effects whatever be brought away from the household until thoroughly disinfected.

5. In case of death from contagious diseases there shall be no public funeral and the body of the deceased shall be closely wrapped in sheets well saturated with disinfectant and closed in a tight case, this to be again wrapped in a disinfected cloth, and in such cases the corpse shall not be carried to or near any body of people while on its way to the cemetery.

6. This in any unincorporated district or community several families say five to eight are infected with contagious disease or very many exposures have occurred, the board of health may prohibit all gatherings of people in the community including sessions of

cers, or coroners, or clerks, they might have wot-out herding steers, or preaching in the kirk; but they were 'demons. It appears, among 'n' motors, 'em' again. And then came workmen-Number Ten, when those nine jags were going, you, one of nature's noblemen, mending up the broken...

The Cafeteria. We stand with trays and wait our turn, a long long line of hungry guys, white aprons within us yearning for Hubbard squash and custard pies. Before us there are many trays who feel and fiddle, which is wrong; and so we wait and wave our trays and wish the bunch would move along...

Keeping Faith

Yes, yes, we'll do the best we can to keep our New Year pledges, and look with scorn on any man who loses nerve and hedges. Temptations every hour assail, and say "Forget your pledge," but up to date our vows prevail, and we are strong for virtue...

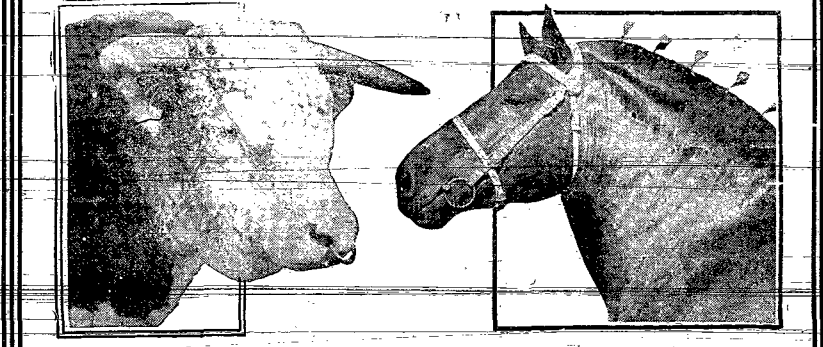

The Tramps

I spend my quiet days and hours where winter does no winking, where in December gorgeous flowers the countryside are tinting. Here come the lads who have the prize in the dog's beastly weather of countries stocked with sleet and ice...

Anti-Tobacco

E. LEWIS, Prop. Carroll, Neb.

three successive weeks prior to said day of hearing. J. M. Cherry, County Judge. (Seal) 1921. The Inaugural Ceremony. Chicago Tribune: Mr. Harding's preference, of course, ought to control the ceremonies of his inauguration and will do so. That preference is for the greatest simplicity and the cutting of public and private contributions to the minimum. We trust the effect of the decision will be what Mr. Harding wishes it to be—an example of economy in government.
