SERIES OF WAYNE AUTO ACCIDENTS

CLARENCE PRESTON INJURED

Son's Mystery Attacks to Manhood of His Accident—J. H. Kemp Suffers in Collision.

Two Laurel high school girls, Joyce Bell and Virginia King, were severely injured, when, in company with Helen King of Laurel, the car they were driving, was struck last Thursday morning by a train from the Wayne Monument works, driven by Wm. Fox. The accident occurred at the intersection between the road on the road from the cemetery. The two girls were taken to the Wayne hospital where examination showed that Miss Bell suffered a fracture of the pelvis and broken clavicle and the other a broken right bone. Their condition was considered quite serious as they are recovering from the slight injury. Miss King was slightly bruised and suffered a few sprains.

WESTERN UNION LOSSES TO WAYNE STATE TEAM

Wayne Normal eleven fought its way to another victory by defeating the heavy Western Union college team last Friday.

The Wayne Normal eleven continued its record of success against Western Union by defeating the heavy Western Union college team last Friday. The first quarter ended in a tie, but Wayne fumbled and Mertz, Western Union tackle, picked up the ball and ran for a yard. In the second half Wayne came back strong, making touchdowns in both quarters and restricting the Iowans to a gain of only two yards in the last quarter. Wayne was superior in all departments of the game except punting where Western Union had a slight advantage. Wayne gained howitzers and punts and kicked long range punts and kicked long range punts.

FARMERS' STATE BANK AT WINSIDE IS CLOSED

Installation Affairs Taken in Charge by State Bank Examiner.

The Farmers' State Bank at Winside was closed by the state bank examiner, J. W. O. Harper, on Monday morning, and its affairs were taken in charge by Paul L. Zuelow, state bank examiner. Excessive loans and depressed values are said to be responsible for the failure. A. H. Schmale of Lincoln, was given charge of the bank Tuesday pending appointment of a receiver. According to a Winside report, the bank had a capital stock and surplus of \$50,000; loans and discounts of about \$57,000, and deposits of about \$126,000.

VETERAN CORN BURNER LOSSES TO A NOVICE

Frank Steyerstar, who has a record of thirty years as a corn burner, claimed that he could husk three bushels of corn in one hour.

Frank Steyerstar, who has a record of thirty years as a corn burner, claimed that he could husk three bushels of corn in one hour. He was challenged by a novice, A. B. Jeffrey, who was married, December 25, 1858, to Margaret Harrison. In the year 1866, they emigrated to Canada where they resided four years. They moved to Baltimore, Md., in 1870 and from there to Jones county, Iowa, in 1881, finally coming to Wayne county, Neb., in 1888. Mr. Steyerstar husked twenty-five bushels, the latter winning to the utter surprise of the former. Steyerstar says he never husked corn in one hour before, and believed a new hand at the business could not husk more than twenty-five bushels a day.

One of the world's most extraordinary voices. Both a bass, rich and full,—and a baritone, brilliant, scintillating.

Hear Middleton, the masterful basso of the Metropolitan Opera Company, New York.

Friday Night, Nov. 11—Normal Auditorium

Some artists are great of voice. Others are merely great of stage performance.

To judge how truly great is Arthur Middleton, hear him outside of his physical presence. Hear his voice as it is literally Re-created by the New Edison.

Only then will you be able to appreciate fully its sublime beauty.

It is actually true that thousands of music lovers have heard Middleton publicly compare his voice with the New Edison's Re-Creation of that voice, and could distinguish no difference.

C. H. Randall, the Randolph banker, was in Wayne Saturday on his way to Omaha. He says Nebraska will in due time get its share of the federal money designed to tide over farming communities, and with such assistance he believes the position of the farmer will be materially strengthened. He returned recently from Los Angeles where, he says, the depression is not felt. He says corn sells for \$2 per bushel in California, the price being due to the high freight rate.

From Producer to Consumer—O'Neill, Neb., Nov. 4.—Farmers and small ranchmen of this part of Nebraska are killing and dressing their stock and selling it directly to the consumer by the nearby town.

As a result retail meat prices are literally "shot to pieces." The farmer is selling his meat at from 15 cents per pound to 18 cents per pound delivered at the door.

Some of the more enthusiastic farmers in the vicinity have gone so far as to offer beef, pork and fowl cooked and canned delivered to the consumer's door.

Farmers declare that by this direct-to-consumer method an average steer will net \$40 over and above the cost of feeding and butchering. The average price of a feeder at the shipping centers is \$35, with commissions and freight charges still to be deducted.

The Strike Menace. Philadelphian Public Ledger: By calling off the strike order the railway brotherhoods bowed to public opinion and yielded to the mandate of the federal government; but there is nothing in their action which offers any guarantee to the public that their threat will not be renewed. It would be a mistake to look upon their present surrender as indicating any intention on their part to give up the general strike as a weapon to be used against the railways and the public at some future stage of the wage controversy when they may deem it necessary to carry their fight to the last ditch. The public and the government will not make the error of overconfidence.

Order To Show Cause. In the district court of Wayne County, Nebraska. In the matter of the application of George F. Tonjes and Henry F. Dinklage, administrators of the estate of George F. Tonjes and Henry F. Dinklage, administrators of the estate of George H. Dinklage, deceased, for leave to sell real estate appraised at \$15,000.00, in and to-wit: The northeast quarter of section 29, township 25, range 5, east of the 6th P. M., in Wayne County, Nebraska, and the northwest quarter of section 3, township 24, range 5, east of the 6th P. M., in Wayne County, Nebraska, or a sufficient amount thereof to bring the sum of \$15,000.00 for the payment of debts allowed against said estate and costs and expenses of administration for the reason that there is not a sufficient amount of personal property in the possession of said administrators belonging to said estate to pay said debts and costs.

Wherefore it is ordered that all persons interested in said estate appear before the district court of Wayne County, Nebraska, at the court house in the city of Wayne, in Wayne County, Nebraska, on the 10th day of December, 1921, at the hour of 3 o'clock p. m., of said day to show cause, if any there be, why license should not be granted to said George F. Tonjes and Henry F. Dinklage, administrators, to sell said real estate, or so much thereof as shall be necessary to pay said debts and costs. It is further ordered that a copy of this order be served upon all persons interested in said estate by causing the same to be published three successive weeks in the Wayne Herald, a legal weekly newspaper, printed, published and of general circulation in said Wayne County, Nebraska.

Anson A. Welch, Judge of the district court. o207a.

Bull's Color Sense Vindicated. Little Rock Gazette: Red ties, says a psychologist, frequently lead to divorce. So do red hats that cost more than \$35.

Marguerite Moers Marshall contributing to the daily press, says systematic business methods for the home. She contends that a woman is often led along in ignorance of her husband's financial condition and spends money without full understanding of family resources. She advocates a budget plan for the home with the wife assuming the responsibility of handling the income. She would have all the cards thrown on the table by the man of the house with nothing concealed. She believes that better understanding, equal responsibility and systematic spending would encourage economy and prosperity in a substantial foundation, which to rest when days of production are over.

Three years ago Armistice day was ushered in amidst the shrieking of whistles and much rejoicing. Three years ago the financial condition of the third anniversary, we are still in the throes of reconstruction. A year and a half of inflated currency, swollen values and abused credit has been followed by a year and a half of depression and paralysis, wrecked fortunes and shattered prospects over the world war ended. On the boys fought, has been going through a dark period of readjustment, and is still suffering from the wounds of the war. Generally normality will return. The ideals for which blood and treasure were freely given, will be more clearly understood and appreciated when present clouds lift, when burdens become less and pre-war conditions have been generally reestablished.

Agriculture Notes

Silage for Corn Belt Cattle.
 It has been many years since corn silage was considered merely as a feed suitable for dairy cows, but it has rapidly attained a wide use among beef producers in the corn belt. Now all feeding that is not done on pasture may be divided into two classes—that in which silage is fed and that in which it is not fed. As a whole the two classes are now about equally divided, but in some states the difference is very marked. Surveys by the United States department of agriculture covering the last two winters, showed that 83 per cent of 4,506 cattle fed in Indiana received silage in their rations; 81 per cent of 7,280 in Illinois, 30 per cent of 8,290 in Iowa, 8 per cent of 6,129 in Nebraska, and 56 per cent in Missouri.

Where silage is used it supplies most of the roughage. Nearly all the silage is made from corn, probably 95 per cent of the total. Sorghum, sunflowers, and legumes are sometimes used in localities on the extreme edge of the corn belt, such as western Kansas and Nebraska and western and northern South Dakota. A greater use of silage depends largely upon the supply and value of the other feeds available.

The main facts about the use of silage in fattening cattle are thus summarized by the department: The greater the proportion of silage to corn the cheaper the gains. The greater the quantity of corn, the less silage consumed. Silage will not fatten cattle unless accompanied by concentrates. In silage most of the cornstarch is used. Cattle fed on silage will eat more straw or stover. If purchased protein feeds are added

to the feed, the resultant manure is worth \$100 per ton. The silage is worth quite as well as those strictly dry-fed. Adding corn to the silage produces a better finished animal that usually brings a higher price, and it also results in better gains on hogs that follow the cattle. Silage-fed cattle require more than those fattened with corn and the value of other concentrates should be a guide as to the limit of corn in a silage test.

The Tuberculin Test.
 The "arax plan" of eradicating tuberculosis of live stock is now well established in an organized manner. This plan, an area of considerable size, generally a county, is freed from tuberculosis by the systematic testing of all cattle under the supervision of inspectors. It has been accepted by the livestock owners, as they evidently believe the plan is a practicable one. The work can be conducted in a much shorter time and at less expense than the accredited herd work. Then, too, it means the suppression of the disease in a large area of a given area, in contrast with accrediting herds here and there which may be in close proximity to infected herds on adjacent farms.

As a demonstration of the feasibility of tuberculin testing of all the herds within a county, no better example can be given than that made in Wahiakium county, Wash., during July and August, 1921. The work started in that county August 3 and was completed September 1. Every herd in the county with the exception of two was tested by Dr. L. V. Hardy, veterinary inspector of the Bureau of Animal Industry, United States department of agriculture.

One of the two herds not tested consisted of only two animals. The owner desired to have his cattle tested but was unable to catch the animals, which were running in a large pasture and were very wild. The other owner refused to submit to the test until just as the inspector was leaving the county, when he sent word that he desired that the test be applied.

The work was carried on principally in cooperation with the farm bureau members. They furnished complete wharves for the use of the owner who owned an automobile. The county appropriated funds to pay operating expenses of the automobiles, and also to hire conveyances when necessary.

Exceptional Blanket Values Most Desirable Overshoes and Rubbers

Since cotton went up Hope muslin has advanced 4 cents a yard, gingham 3 cents a yard and all other cotton goods in proportion. The advance on blankets and comforts must be considerable. You certainly will make no mistake in buying your blankets now. Our stock was bought early at the low price and at one-third less than regular, because they are seaman's sample blankets. You can get full size cotton blankets of fair weight as low as \$2; fine plaid blankets, big sizes, at \$2.00, and big size some plaid and silk binding at \$4.00 and \$5.00. Buy your blankets and comforts now.

Another group of those excellent \$1.50 black silk hose from the Wayne Knitting Co. have just reached us. Also a dandy drop stitch pattern, brown leather, wool, hose to sell at \$1.50. These are exceptional values and we can get only a limited number at a time because the factories cannot keep up with the demand. Try Wayne Knit stockings for the children. They will save you a lot of darning.

Don't wait until the first heavy snow comes and then rush to the closest store to buy whatever overshoes at whatever prices you can get. Take time now and look around and get the best overshoes at the lowest prices. Of course we think there are no overshoes and rubbers like Bacon Falls. We have been selling them for years and continue to do so because they outwear any ordinary rubber footwear we can buy. They are made by a factory outside of the rubber trade and are really exceptional values. The very best men's 4-buckle all rubber arctics are \$4.50 and the 6-buckles \$5.50. Women's and children's arctics are priced equally moderately low.

Army Blankets

A word about army blankets. Every kakti colored blanket you see is not an army blanket. Thousands of pairs of kakti colored cotton, cotton and wool mixed, and shoddy blankets have been made by this year to sell to people who were made army blankets. Examine these blankets before you buy. Look for the U. S. stamp on them. There is also a great difference even in real army blankets. They are not all the same grade by any means. Remember there are only getting half so much blanket as when you buy regular pair of wool blankets.

For Extra Size Women

Women requiring large sizes in wearing apparel will find we have not forgotten them. Just now we have an especially good assortment of large size coats in both cloth and plush. They are up to date in style and designed to reduce the appearance of size. Our stock of large size dress waists in both silk and georgette is most complete. Outside dress skirts are here in both tulle, serge and silk poplin. Outside knee dresses, petticoats and shoes are in stock in good variety.

Men's 4-Buckle Army Overshoes \$2.25

We got hold of 100 pair of men's 4-buckle all rubber arctics, made for army use which we are selling at \$2.25. Just half the regular price. We had some of these arctics last winter and they gave splendid service and sold out in quick time. Buy your overshoes now—here it will pay you.

New Goods

We are buying new merchandise every day. We are not speculating in new goods or buying any great quantities but we are keeping our stocks new up to date and complete in line so that you can depend on having a good selection when you come to make your purchases.

Ladies' Shoes

We have just found where to buy ladies' fine black kid shoes, made light and comfortable sitting like a turn shoe but having a good insole to keep the uppers from breaking out at the lower edge. They are certainly good looking comfortable shoes at a very moderate price, \$5.00 for the low heels, and \$5.00 for the Cuban heels models.

About Prices

You can buy our best lowest light outings at 15 cents a yard any time. Our percales, gingham, sheetings, are all priced at rock bottom. Ladies' or men's fleeced union suits are \$1.50. Good wool serge dress goods \$1.25. Boys' and girls' shoes of real leather that will wear are \$3.00 and \$3.00. Post toasters are \$1.25. Boys' and girls' Matches 5 cents. Peaberry coffee 25 cents. Good flour \$1.85. These are just a few examples of our every day prices in different departments. A fair and reasonable plan, a good quality merchandise at the lowest price we depend on to build and hold our trade. You can depend on getting all your goods at all the time at the rock bottom price here. If you pay cash we give you an extra three per cent discount by means of our discount stamps. That added saving amounts to a great saving in the long run. More than any saving you can make on occasional weekly specials elsewhere.

Dress Materials

The straight line styles now prevailing in ladies' dresses are so easy to cut and fit that home sewing has become very popular. Dress goods, silks and trimmings have been selling far better with us than for years past. We have been buying new materials in these lines every week to keep our stock complete and up to date to meet this increased demand. Here you will find the cotton and silk and wool crepe, weaves, tulle, satins, serges, striped, prunella, silving, plush and many flannels that are in best style. Also trimmings, buttons, ornaments, laces, fancy ribbons, girdles, tassels and headings necessary to give the correct finish to your garments. This week we received a good shipment of these goods from the eastern markets.

Boys' Shoes

We will shoe your boys or girls in good wearing, good looking shoes for \$3.00 to \$4.00. If the shoes don't give your money's worth in wear we are right here hands to make good and will do so cheerfully. We know how to fit the children's feet correctly and they get the most careful fitting that we give the grownups.

Silk and Wool Yarn

Silk and wool yarn is the favorite knitting material for fine sweaters and cardigans. The demand for it has been much greater than the supply and all colors are not available. We have a good order with three whole sale houses to ship certain most wanted colors as fast as they get them in so you have a good chance of getting what you want in these yarns here.

\$3.00—Boys' Shoes Girls Shoes—\$3.75

We will shoe your boys or girls in good wearing, good looking shoes for \$3.00 to \$4.00. If the shoes don't give your money's worth in wear we are right here hands to make good and will do so cheerfully. We know how to fit the children's feet correctly and they get the most careful fitting that we give the grownups.

Japanese Crepe

Japanese crepe, a plain color crepe material in shades of apricot, delft blue, and Nile green are just here. They are very popular for children's dresses, ladies' waists, negligee, etc.

Gift Materials

Seven weeks until Christmas. Time to start work on the gifts you are going to make at home. We have just received a good shipment of stamped fancy work pieces, threads, yarns, art tissues, covered buttons, chiefs, laces, tassels, tassels, ribbons, silks and other materials you will need for this work. Just as you can books in which you can soon as apply begin getting into storage the price is going to jump.

Package Coffee Cheapest

The oil in coffee gives it its flavor. After coffee is roasted this oil begins to evaporate and the coffee loses strength. That is why good coffee is put up in airtight packages. The very best of coffee is put up in sealed containers as the surest means of keeping all the strength. They are really cheaper to buy in the long run in open barrels or bags because less is required to make each pound of liquid coffee. Buy good coffee in airtight containers—buy a little at a time and have it fresh when it is fresh, roasted—grind it fine—and you'll get the most coffee and the best lasting coffee for your money. We buy our coffee often, every two weeks, you can depend on us for good, fresh stock.

The Best Apple Buy

We have only fifty baskets of those fine big Jonathan apples left. They are cheaper at \$1.15 than bulk apples because there is no waste on account of bruising. They are much cheaper than box apples. In fact they are by far the "best apple" buy now on the market in both the price and quality. Get your basket while you can, as soon as apples begin getting into storage the price is going to jump.

Fl. Dodge Man in Poor Health for Ten Years—Before He Slept on Tanlac—Now Feels Fine

"Tanlac is the right medicine for old folks," says I, and I have never seen anything that could come up to it during the seventy-three years of my life," said Henry D. Desinger, of 275 S. Seventh Street, Fort Dodge, Iowa.

"I don't care how old a man happens to be," says I, "if he is not feeling his best and can't do it, he will just take a few bottles of Tanlac. Stomach trouble had been gradually pulling me down for about ten years until Tanlac stopped my stomach on the side and sent me climbing up the hill of good health. I suffered from indigestion, accompanied with sour stomach, bloating and palpitation of the heart, and I also had terrible nervous sensations. I was very nervous, too, my nights were restless and sleepless and I was in a bad way. I never expected to be a well man again."

"Finally I got hold of Tanlac, and it has taken only three bottles to put me in the best of condition. I never have a sign of stomach trouble nor do I feel any nervousness, but I feel in the best of health. I haven't dared touch wine in a long time, and I feel years younger. Tanlac has done so much for me I can never repay the debt of gratitude I owe the medicine."

Governor McKelvie Issues Explanation

Lincoln, Neb., Oct. 28, 1921.
Hon. W. H. O'Garra, Laurel, Neb.
My Dear Mr. O'Garra:

I am in receipt of a petition signed by citizens of your community, relative to a statement that was published recently in an Omaha paper, in which I was credited with recommending that farmers afford homes for the unemployed during the winter months. Had those who were responsible for the circulation of this petition, taken the time to make some inquiry, I am sure they would have refrained from such injudicious action.

This matter was taken up with me by the executive committee of the American Legion, the desire on their part being to aid the government in meeting the unemployment situation. I told them that I did not think there was a great deal of unemployment in the state, especially for those who were willing to work in the cornfields and accept a reasonable wage. To this they replied that there were many who were willing to work, but considering the amount they would receive, they could not afford to pay their fare and expenses to out-state employment. Had they had some reasonable assurance that there would be employment for them beyond the corn picking season, then it was suggested that the situation might be met by offering board and lodging to such ones during the winter months, in return for the miscellaneous work that might be done about the average farms.

This I do not think was an unreasonable proposition, nor is it anything new. I live on a farm the larger portion of my life and there was scarcely a winter that we did not keep at least one hand who worked for the board and lodging. Moreover, I know that there is enough work on the average farm that can be done by an industrious, capable man to justify such an arrangement.

The proposal that I made has no reference whatever to the one who is unwilling to work for a reasonable wage during the corn picking season. In view of the very good corn crop and the low price that the farmer is offered for it, I think that three cents per bushel is the outside figure that ought to be paid. At this rate, any able-bodied man who is willing to work can earn \$22.50 per day, at least, which, together with board and lodging, is a mighty good wage in these times. Those who are not willing to work for this wage are not entitled to any consideration whatever, and for my part I am content that they shall get through the winter in whatever way they can. But for the one who is willing to work under these conditions, I think that any reasonable arrangement offered is only in keeping with the needs of the times.

I might further add that we have already received a number of requests from farmers for men to work under the conditions that I have herein outlined.

The nation is in a perilous condition as a result of the tremendous losses that were sustained during the war. For this no one in particular is responsible, nor is anyone alone remedied. The only sane course to be followed now is for the people to join hands throughout the nation in effecting such relief as may be accomplished through useful fish effort. I am sure that that is the course that every honest public official is trying to follow, and I am sure, I regret that there is apparently so little relief from all of the effort that is being made. We simply must have confidence the future of our country, and in the meantime bear our burdens with as little complaint as possible.

The burdens of the farmer are unusually heavy, and inasmuch as all of my training has been in this line, to say nothing of the fact that all of my personal interests and all of the interests of my immediate relatives are associated with this business, I feel that I am in a position to appreciate the condition of the farmer as well as anyone. In every way that I possibly can, I am seeking to relieve this condition, but I am not ungrateful of the fact that every other business of any considerable importance has suffered very heavy losses as a result of the nationwide business depression. If a word were in all in the same boat and the fellow who rocks the boat is engaged in a mighty dangerous business.

I am sending a copy of this letter to your local newspapers, and I shall be very glad to have you bring these facts to the attention of anyone in your community, who, you think, would be interested.

Very truly yours,
Samuel R. McKelvie,
Governor.

Work Ahead for Townley.
Sioux Falls Argus-Leader: The league stands repudiated by a majority of the voters in the town which it originated and where it has had full swing. This means that Townley and his lieutenants will have some talk explaining to do when they go into other states and try to induce them to accept the league which the voters of his own state have repudiated. North Dakota now finds itself faced with a precious pile of debts and with confiscatory taxes. It will be a good many years before our sister state really gets back to normalcy, but it is encouraging to note that a start has been made and that by reason of the recall a full people-time has been saved.

Food Taking Effect.
Chicago News—Russian communists are said to be becoming more optimistic. Slowly the capitalist propaganda of food is taking effect!

Our Own Targets.
Seattle Post-Intelligencer: The bigger they build the battle ships now, the easier they will be to hit when they are used for targets, five years hence.

Keep Young.
People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Ask your neighbor! Here's a Wayne case: Mrs. Mary Beckenauer, says: "I can surely recommend Doan's Kidney Pills for I have used them. I never overcame the back-pain in my back. I was never without a dragging ache in my back and could hardly get up the stairs. I was often dizzy and my kidneys didn't act right. Doan's Kidney Pills relieved me of all the symptoms and an occasional headache. Now my kidneys are in good condition." (Statement given July 17, 1916.)

A Dangerous System.
Minnesota Journal: The system of exempting public securities from taxation is harmful and even dangerous. Not only does it divert capital from its proper uses, but it encourages extravagance in public works. Counties, cities and school districts find it too easy to borrow money that they are compelled to protect to large and too costly for them to carry. Tax exemption should be removed from all, save national and state bonds, and even the latter have a doubtful claim to ex-

News Finally Leaks Out.
Springfield, Mass., Republican: Bourke Cockran has attracted scarcely any attention in congress. But he bounded on to the front page by saying in a pro-Hylan speech in his home town that New York is the "best governed city in the world." That was news to everybody.

Choice of House Sale of All Fur-Trimmed Suits for Women and Misses 1/2 Price

This is the great sale that is held by us every year just after Thanksgiving. The weather is now so ideal for suit wearing, that we have purposely advanced the date of this sale; thus giving you the opportunity to buy a smart suit now, when you most need it—and at a saving you cannot wisely resist!

Understand, this is a "choice-of-the-house" sale in its fullest sense—without a single exception EVERY fur trimmed suit for women and misses in our second floor style shops will be offered at one-half the original price. Out they go—come and take your choice.

Keep in mind that these suits are all from our own regular stocks—you know what this means, for you know we show only high grade, correctly styled garments.

Think of It—They are All Trimmed with Fur. In Many Cases the Fur Trimming is Alone Worth more Than the Reduced Price of the Suit!

You've seen our showings—you probably have some particular suit in mind that you have set your heart on. Deduct one-half from its price and it is yours. All suits will be reduced as follows:

All \$29.50 Fur Trimmed Suits	All \$35.00 Fur Trimmed Suits	All \$49.50 Fur Trimmed Suits	All \$59.00 Fur Trimmed Suits	All \$69.00 Fur Trimmed Suits

at the meeting to hold the annual dinner at the home of Mrs. W. E. Frevert, which was a large dinner. The ladies planned to present a large print bible to Miss Thompson of St. Paul, who assisted in the children's work during the past year. The Bible circle ladies desire in this way to thank all those who contributed to the success of the recent evangelistic campaign. Mrs. H. T. Meyer, of the north part of town, will entertain the circle next Tuesday afternoon and all friends are welcome at the meeting.

Fiftieth Wedding Anniversary.
Mr. and Mrs. J. P. Gaertner celebrated their fiftieth wedding anniversary Friday at a party given by the guests. Two daughters, Mrs. Jennie Davis, who teaches at Winside and Mrs. Henry Dyer of Magnolia, and two sons, Frank Gaertner of Wayne and Henry Gaertner of Randolph. Mrs. Henry Gaertner and children and Henry Dyer were also present.

Thursday evening friends of Mr. Gaertner called and spent the evening in playing cards. In memory of the occasion, Mr. Gaertner presented with a pipe and some tobacco. Supper was served at the close of the evening.

Mr. and Mrs. Gaertner were remembered by friends with various gifts and bouquets of flowers, during the anniversary day.

In Honor of Mrs. Nita Foster Lowe.
In the social column of the Norfolk Daily News have appeared the following items relating to social affairs given in honor of the recent marriage of Mrs. Nita Foster Lowe: Miss Lucille Darland was hostess at a buffet dinner at the home of Mrs. Nita Foster Lowe, at which time the faculty was entertained. Honorary decorations were used in the evening. The gifts were Mrs. Foster Lowe was recognized by her friends Saturday afternoon, when they entertained at a kitchen shower for her, in the home of Mrs. Dudgeon. Miss Beatrice Koch and Miss Bertha Fastenau were hostesses. The house was prettily decorated in Halloween style. The gifts were hidden about the rooms, and a string, connecting the packages, led Mrs. Lowe to the places of concealment.

Following early in which guests of Mrs. Martha Winter made high score and Miss Florence Sedar, low, luncheon was served.

Culled From Herat's Exchanges For Week

By a vote of almost two to one, Dakota county voters recently defeated a proposition to organize a river protective district at Dakota City. Each land owner of real estate in the district was to have one vote for each acre of farming land and each town had one vote for the entire farm of 640 acres.

Three children of Mr. and Mrs. John F. Koch of near Concord, have died from smallpox during a period of three days. The children were: Herbert Victor, aged 8; Arnold Arthur, aged 6; and Hulda, aged 5.

An auxiliary of the American Legion formed last week at Okamuh, at a "Dutch Treat" supper attended by ex-servicemen and all women, who were eligible to auxiliary membership.

Herman Suhr, who left Pender for Germany in April, has returned home, accompanied by his nephew, Herman Wenke, who will make his home in this country. Mr. Suhr said that no one was suffering and that Germany was industrious and getting back to normal times.

George Mengshol of Hartington, was seriously injured last Tuesday when a car he was driving collided with a piece of farm machinery, which had been left on the street at a Halverson trunk store.

At a meeting of executive officers of about twenty banks in and around the city last week, a committee was appointed to recommend some one to act as receiver for the

closed State Bank, which recently closed. J. E. Hart, secretary of the State Bank of Dakota and former manager of the bank, charged that the failure of the bank was caused largely by poor loans.

John Harper, 79, a resident of Cedar county for more than 20 years, died last Thursday morning at the home of his daughter, Mrs. Martin Fowls, southeast of Hartington.

Recently Kearney county had a community day at which time cups of coffee were served to the oldest man resident of the county, the oldest woman resident and the couple who were married in that county and had lived the longest within its confines. The oldest man and wife, two hundred and fifty-five and one hundred and thirty-eight years, respectively, were married in Kearney county thirty years ago.

Pilger is to have a home talent entertainment course this winter, with two plays, a minstrel show, a night of general stunts and a program by the grade children of the town.

The Early Days in

From the Wayne Herald for November 14, 1901:
The two young sons of Smith McManigal are afflicted with typhoid fever.

F. W. Burdick has left for an extended trip to Salt Lake and other western points.

Robert Jones, county surveyor, is building a handsome \$2,000 home on his farm in Garfield precinct.

A crowd of young people went down to D. Cunningham's and partyed in an evening here last week.

S. E. Auker has left for Rusville, his former home, where he expects to buy some potatoes and cabbage for the Norfolk market.

A starry party was given Mr. and Mrs. Chas. Welch at their home southwest of Wayne. Mr. Welch had completed a large new house and his friends and neighbors took advantage of the occasion.

About a dozen young men spent an enjoyable evening at the home of George Mengshol, enjoying the services of the past campaign and reminiscences of other campaigns.

A quartet of local white celebrities went to Winside and badly vanquished star performers of that town. The quartet consisted of: R. J. Armstrong, jr., J. C. Miller, Chas. Reynolds and Thos. Holtz. The Winside players were: Mike Waters, Jerry Hayes, H. E. Siman and Frank Tracy.

From the College News: Ten years ago the N. N. C. began its existence in building, now occupied by the steam laundry, with seven students present the first morning. As one sees the school in its present home and proportions one can scarcely realize that the change has been accomplished in a single decade.

A team of five members of the Wayne bowling club played a cold game with Norfolk players at Norfolk, losing to them. Those who were on the Wayne team were: Krus, Davis, Hays, Rickenbaugh and Thriver. O'Connell substituted for Lucky in the second game of the series of three, which they played.

From Ponca Journal, Nov. 29, 1920:
Considerable anchor ice was running in the river during the forepart of the week.

Something very like a blizzard sailed down on us Saturday morning, only lacked one ingredient to make it first-class in all respects, and that was snow.

The train on Saturday evening did not bring up the mail. The ferryboat was stuck on a snag or sand bar and did not run, while the high wind prevented the passage of small boats. The price of wheat is advancing. Mr. Knapp informs us that he has \$3 cents for No. 1 wheat, and 50 cents for No. 2. It appears, however, that the present improvement in price is merely temporary.

On Tuesday a fatal accident occurred in Springfield precinct. A team belonging to John Stewart ran away, throwing him out, and one wheel passed over his head, crushing his skull and causing instant death. The driver, who is a family man and about forty years of age.

One, three and six, and seven and flew off. This is a very singular thing for a flock of geese at the time of year and by old hunters is pronounced to be a sign of a warm winter.

SioUX City Journal: Better business is no longer only a hope. It has become a reality with a constant, steady improvement from week to week. Practically all interests have begun to feel the urge and are responding accordingly. The country, which they already had, and, in most cases, increasing their momentum as the opportunity offers.

One of the anchor hopes for the immediate future is the improvement expected from the movement already being made in the iron and steel industries. These activities are regarded as the fundamentals on which all other business grows. They are the backbone of the country's industrial life, and without them the country would be unable to produce anything worth anything on the market.

October was a good month for merchants as compared with September and August. What is known as agricultural activity has been greatly increased by the farmers buying more heavily than they had for some time. That is a result of crop sales which are being made in the farmers' pockets. The farmer finds he is compelled to make a certain number of purchases, even if he has to purchase some iron, tobacco, and cotton, have brought higher prices than were expected, cereals have sold heavily in the foreign markets, although trade in wheat and corn is now slow and the prices are down. Wheat came under \$1 last week, the lowest price since 1917.

Chicago, center of the merchandising business for the middle west, reports that road orders for goods are heavier than for a long time. This is taken as proof positive that business is picking up in the retail lines. Unless the merchant can sell he is not going to purchase from wholesalers and jobbers. The merchant evidently has had a demand for more goods and is stocking to meet it. The price of iron and steel has advanced, but they are numerous and continue to arrive, showing a steady upward movement in business. The iron which lacks strength only in the amount of the turnover.

A most significant report has been made by the Federal Reserve Board of government, which may be taken as having had an influence on business depression. The labor strikes for the most part have been confined to coal mines, both to the wage earners and employers, amounting in the case of the employees to \$1,179,000,000. This is a very small percentage of the nation's total pay roll. It represents a sum that would have almost wiped out unemployment distribution in 1917, since it would keep about 2,000,000 workers on their jobs for a whole year. The loss to employers is estimated to be about \$100,000,000. It is believed that the strike spirit is being somewhat dissipated. Observers generally agree that labor has about decided to wait until business reconstruction has progressed farther before making much of a fight for the adjustments it desires.

The conference for a limitation of armaments soon to open is encouraging business somewhat. It is now well known that the question of political, military and naval problems are to be discussed, and the inference is that, if the conference succeeds in making satisfactory armament limitations between the powers, the money markets of the world will be easier and more stable. That will give them more confidence in the future of American business, and must witness before it can prosper.

The New Nebraska Party, Norfolk News: If the various groups represented at Lincoln can stick together long enough to support the campaign as a unit they may be a force to be considered seriously. If they have discovered one big issue upon which all are willing to unite or a forceful personality behind, which all are willing to take their stand they may hold together. But past experience is not very reassuring on this point.

Hours of uninviting cleaning drudgery each week are pleasantly shortened by The Hoover; and surely a woman's time has value. Outlays of cash for carpet-cleaning, for laundering curtains and redecorating interiors soiled by dusty sweepings, are ended; and that is an aid to thrift. Then, too, this efficient cleaner saves many times its cost by the additional years of use and beauty it imparts to your rugs. For The Hoover's exclusive process of gently beating out all nap-weaving, buried grit as it sweeps up stubbornst litter, erects crushed nap, revives colors and cleans by air, is guaranteed to prolong rug life. You are more than paying for a Hoover. Why not have it?

The HOOVER It Beats..... as it Sweeps..... as it Cleans

We will demonstrate The Hoover in your home or at our store. Convenient terms, if desired.

Recall is Two Edged. Springfield, Miss., Republican.

The socialistic slant of the agrarianism peculiar to the nonpartisan league, combined with evidences of a backward method of administration, finally aroused a conservative reaction powerful enough to throw out the league government by the use of the recall, which has been usually condemned as needlessly unsettling by all conservative-politicians and political students.

The special North Dakota election indicates that now and then innovations from radical sources may be turned upon the radicals themselves to the advantage of the conservative elements.

FOCH AT TOMB OF WASHINGTON

It was an inspiring moment for those permitted to be present when Marshal Foch, commander-in-chief of all allied armies, visited the tomb of Washington on his second day in America. The great French hero placed a wreath in tribute to the general who had just arrived in America for the American Legion convention at Kansas City and attendance at the American Legion convention in Washington. The start of the most enthusiastic reception ever accorded a foreign visitor. All the way across the continent, Marshal Foch and General Pershing were met by record crowds, who cheered until Foch himself was often moved to tears of appreciation.

**\$20,000.00 Worth of Men's and Young Men's Clothing
Goes on Sale at Prices Lower Than You had Hoped For**

Here is the reason briefly told! Continued warm weather and other conditions causes us to be heavily overstocked. We must get our stock down where it should be. We must not have our capital tied up in this surplus stock. This is what we are up against and we are going to surrender profits in order to beat it. This situation presents a unique opportunity for you. We promise you the greatest clothing values you've seen in years.

Sale Opens Saturday Morning, Nov. 12 at 8 o'clock

Every Suit and Overcoat in Our Store---Nothing Reserved

**FREE!
\$25 Given Away**

In order to stimulate early buying, I will give to the first twenty-five adults entering the store on Saturday morning, Nov. 12, at 8 o'clock, a ticket good for \$1.00 in trade, and it can be used same as cash on any purchase you may make. Only one to a family.

If You Value Money, be Here Early.
