Wayne Author's Book Now On The Market

The first copies of the new book of which Prof. O. R. Bowen of the faculty of the Wayne Teachers College is the author, treating of the government of Nebraska, have been received by the publishers, P. H. and F. C. Jones, and are now ready to supply the demand. Many orders had been received in advance of the arrival of the work, and the first edition is expected to be exhausted sooner than originally expected.

The book is the only one devoted to Nebraska government since the publication of the new constitution, and therefore it meets a very apparent need. Its success will be evidenced by the number of orders, and the author and his publishers are to be congratulated, the former on his timely and comprehensive effort, and the latter on their foresighted enterprise.

Market News

Cattle: Receipts of cattle at Omaha, last week totaled an unusually large number of good and choice beef steers. Shippers favored medium and heavy weights but the outlet from this source was limited. Local packers took the plain, medium and common grades, and while the demand was fairly broad, it was not especially active. Best beef steers sold the middle of the week at \$8.50 and other sales were reported around \$8.25. The bulk of the choice stock closed up at \$7.75-7.85. Choice beef cows in small lots sold up to \$6.50 with good grades moving near \$6. Good heifers brought \$7. Light veals sold at \$8-\$8.50. Choice sorted feeders changed hands at \$7.50-\$7.60.

Hogs: Receipts of hogs were considerably lighter both at Omaha and elsewhere. Shippers were liberal buyers, purchasing mostly the better grade of medium and light hogs. Local butchers sold the middle of the week at \$9.75-\$9.85. For the week, prices advanced 25c. Wheat: The market was uncertain during the week and no sales were made in prices. Reports from the southwest were mixed, favorable conditions were favorable to selling buyers and cash market strong. The visible supply, 38,179,000 bushels, showed a decrease of 678,000 bushels for the week.

Corn: The visible supply of corn was 46,609,000 bushels, an increase of 1,531,000 bushels for the week. Cotton offerings were light and domestic demand slow. Potatoes: Receipts of crops continued heavy, and while eastern markets were bare, steady, local prices advanced. Local prices: Per case, \$6-\$6.50; per dozen, 20c. Linn Pottery: Local prices: Spins, 20c; Hens, 20c; stags, 17c; old roosters, 2c.

Potatoes: Potatoes continued to move at the rate of about 700 cars daily including light shipments of

Business: St. Louis City Journal. Business conditions in America in 1921, which were far from satisfactory, resulted because of an economic demoralization throughout the world, principally in Europe. Europe has been the best customer of the United States, and when sales fell off, due to Europe's inability to buy, the reaction was immediate and hurtful. Europe is now regaining its buying strength. Exports from America are increasing rapidly. More than 170

representatives of the country's leading export firms met last week at New York and considered what could be done to encourage foreign buying. Some interesting reports were made at that meeting. Some export managers declared they were getting two and three times the business they had three months ago. One said his January business was double the December volume. February business doubled that of January, and he did more in the first two weeks of March than in all of February. That is distinctly encouraging. Another announcement that ought to be encouraging was that the export trade of last year, while not what it should have been to make business in this country good, was just as great as it was before the war. That does not seem to indicate that the bottom has dropped out of the European buying market entirely.

More export news than this is available. It is now shown how the seasonal statistics of the United States are facing a splendid prospect for 1922. An increasing world demand for farm products, due to the fact that 10,000,000 tons as compared with 8,000,000 tons as was withdrawn, reduced farm operating costs and better prices point to prosperity for agriculture. Washington now expects more than \$2,000,000,000 worth of food and farm products to be exported this year. Before the war the United States exported 10,000,000 tons a year, valued at about \$1,000,000,000. The farmers are now exporting goods at the rate of 20,000,000 tons a year, which is the record. During and immediately after the war, when buying was heaviest in history, farm products exported totaled 16,000,000 tons. Although 1921 brought many business disappointments, that record of 16,000,000 tons was increased last year by the farm exports by 25 per cent. Some of the elements that have been gaining abroad are corn exports, increasing from 45,287,000 bushels before the war to 129,055,000 bushels in 1921, and exports of foodstuffs and food animals that increased to \$1,610,000 in 1918 to \$692,767,000 in 1921.

Spring buyers of merchandise are so active in Chicago that wholesale prices for agricultural products which encouraged the result of better weather spurt beyond what their expectations were at the first of the year. This is the result of higher prices for agricultural products which encouraged residents to buy goods in larger volume. A bigger farmer is being met and a bigger there is nothing to indicate that it will not constantly increase.

Washington announces officially that employment in increasing. Fourteen industries were reported; with ten of them showing increased pay roll lists. The iron and steel industries led the movement with an increase of 9.3 per cent, and the motor car industry was next with a gain of 4.8 per cent. Building activity is active throughout the country, absorbing unemployed in thousands. Strikes in progress and threatened do not seem to disturb business greatly. The eastern textile strike is still on, but is not expected to last much longer. The apparently inevitable strike of the coal miners, while more disturbing to industry than any other labor movement at this time, has not come yet and there is some hope that a settlement will be reached before April 1, the date selected for the walkout.

Would Shoot Chicken Thieves. Bloomfield, Neb., March 26.—Chicken thieves have been plying their trade here so diligently that farmers have organized and are prepared now to give them a shotgun reception. Many homes have been

equipped with a burglar alarm, connected up with the farm house, and shotgun stands beside the farmer's bed, loaded and primed for action. Some interesting reports were made at that meeting. Some export managers declared they were getting two and three times the business they had three months ago. One said his January business was double the December volume. February business doubled that of January, and he did more in the first two weeks of March than in all of February. That is distinctly encouraging. Another announcement that ought to be encouraging was that the export trade of last year, while not what it should have been to make business in this country good, was just as great as it was before the war. That does not seem to indicate that the bottom has dropped out of the European buying market entirely.

Lincoln Journal: What these attractive coal negotiations mean is that the mine operators and the miners are trying to agree on a price to charge the consumer for coal, and upon a division of the profits thus assured. The consumer can rest upon the peaceful consciousness that the contending parties will not extract more marrow from the bone than it contains. He has the beneficial protection of the natural limit upon what the traffic can bear.

Illinois Child of Six Explores Seven Months in African Jungle

Alice Hastings, 6-year-old girl of Illinois, has just returned from a year spent in the jungles of Kivu country, Belgian Congo, Africa. Her experiences, of being carried through jungles by natives, as shown above, seeing lions and gorillas slain, and visiting with pigmy tribes, are with Alice in Wonderland adventures. Her father, a Chicago lawyer, was member of Carl Akeley's exploring party. Her mother and two other women also made the trip. Alice, though only 5 years old at the time, was taller than the duel of a pigmy tribe—visited. He thought her curls reflected the first white child the tribe had ever seen. The meet shows Alice as she arrived in New York last week.

The near approach of April suggests the advisability of ridding yards and alleys of weeds and other unsightly accumulations.

Selfish politicians kicked just as hard against Jefferson and Lincoln as their modern counterparts do against present-day statesmen.

Thanks to the thoughtfulness of striking coal miners, they have delayed the date of their tie-up until warm elements will be due and the necessity for fuel will be materially reduced.

Of the thirty-nine young ladies and one young man who won scholarship honors at the state university in Lincoln last week, it is interesting to note that the highest average was made by a young man. While it seems that more young ladies than young men have ambition for educational attainments, it is surprising to see distinguished exceptions among the latter.

An impression is prevalent among the Europeans that secretary Hughes was not sufficiently diplomatic in presenting this country's claims for reimbursement of maintaining an army on the Rhine. The claim was not pressed until it became apparent that it was to be ignored. European nations would make a better impression over here if they would get down to brass tacks and make an effort to meet obligations rather than loaf around and carp about deficient diplomacy.

The Randolph tragedy in which a woman was made the victim of a murderous attack by her husband, shows the low depth to which the human mind will sink when driven by hate or revenge. The woman was running a restaurant and making a living for herself and two children. Along came the husband and tried to kill the one who is providing for his dependent offspring. A man of woman who will resort to such violence, leaving little ones to the mercy of society, is an unconscionable brute, to say the least.

We once knew a man who discovered every inconvenience and discomfort for the accommodation of others. He would loan anything he had without comment, to whether it was ever returned. He contributed to every call for charity. He would sit up nights with the sick, dying or dead. His generosity was regularly and elaborately imposed upon. He could not get a start for himself be-

cause he devoted most of his time and energy to answering the requests of neighbors and friends. Was he ever rewarded? Not before his death.

An election without former Governor John E. McPherson in it would be a good deal like the play of Hamlet with Hamlet left out. Relief has come with the announcement that he will file for congress in the Fifth district. The campaign will now proceed regularly. And by the way, it is only fair to say that Mr. McPherson possesses a large fund of moral judgment.

George Ades story in the March American, contrasting youthful employments and amusements with those of forty and fifty years ago, is interesting. He calls attention to the fact that the telephone and automobile have wiped out old-time lines between large cities and rural communities. Recalling boyhood experiences, the author thinks a great deal is required to satisfy the young of today, though he does not express alarm over the present trend.

It is likely all efforts to avert the impending coal strike, due to start April 1, will fail. The miners seem determined to quit work and would probably be disappointed if the long threatened tie-up did not happen. The operators are also getting ready for the fray. The coal consuming masses who comprise a huge majority of the population, will be interested spectators and innocent sufferers. The participating operators and mine owners and the non-participating public will jointly contribute to the consequential loss. Efforts for the protection of the general public in labor controversies, a law for compulsory arbitration should be adopted, a court procedure that would determine a cause on actual merit and give no one undeserved advantage. But this is what strike promoters don't want. They want force substituted by paralyzing industry. And it is organized force, stripped of reason, that is making labor unions unpopular and ineffective.

An announcement that Dr. Charles Reigel Scoville is to hold a series of evangelistic meetings in the Christian church at Beatrice, reminds us of a rather bitter controversy that developed some months ago as a result of Scoville's being baptised, at a place where we were trying to plant along the Daily Express. Dr. Scoville stirred up the ire of other denominations by stressing immersion as the necessary means of salvation, and one of the Methodist ministers of the town sent The Express a communication seeking to combat this elaborate form of baptism. This called for an answer by the Christian church preacher. The result was the publication of a series of red-hot debates. We finally referred the dispute to the railway commission, which spirit of levity the Christian preacher did not like. But that ended the controversy. Unless Scoville has modified his position, the subject is essentially of immersion, we will guarantee that Beatrice denominations that believe in a restricted use of water in baptism, will become nettled, resentful and mad.

**QUIXOTIC MRS. WEEKES**  
A few weeks ago we wrote a deserved appreciation of the activity of Congressman Robert E. Evans in behalf of farming interests, and it

has evoked a blast of adverse criticism from Sister Marie Weekes of the Norfolk Press. Sister Weekes wants to know what Mr. Evans was doing when the revenue law was being reconstructed. Probably forgetting this query after rambling on for a mile, she answers it by saying he ought to increase the surtax from 32 to 50 per cent, which accomplishment was manifestly beneficial to the agricultural districts. In sobbing her way along, Sister Weekes is unable to see clearly or speak consistently, usually contradicting herself as she attempts to write much on one subject.

We wish to call our sorrowful sister's attention to the January issue of the magazine, "The County Agent and Farm Bureau," published in Chicago. Now born to the first article entitled, "The Farm Bureau and the Bloc," written by J. R. Howard, president of the American Farm Bureau. This article goes on to show what has been accomplished by the coordinated effort of the so-called farm bloc, and it mentions committee members who were conspicuously identified with the work of the organization. The name of Congressman Robert E. Evans is included in the list. Let us copy one paragraph from this farm magazine to show Sister Weekes what the author thinks Congressman Evans and his associates have done.

"The agricultural bloc transcends party lines. It has its own caucus and is not amenable to the party whip or party discipline. Heretofore many bills have been sidetracked simply because of policy and the domination of leaders who would hold up the bill rather than risk a division split in the party ranks. The bloc has thus not only kept new and constructive measures from the cold storage warehouse of socially appointed congressional committee; it has also taken measures out of cold storage and passed them."

Reverting to the income tax bill, it should be explained that Congressman Evans was in the thickest of the fight to raise the surtax from 32 to 50 per cent, to increase exemptions from \$2,000 to \$2,500 and to double exemptions for dependents. These things for the relief of farming communities were accomplished, and Mr. Evans was one of those whose force was unqualitiedly and unflinchingly devoted to the task.

Sister Weekes alludes parenthetically to our knowledge of affairs in Russia and the "Nonpartisan League" in this connection, but we wish to express gladness over the acknowledged failure of bald and ruinous socialism in Russia, and the success of salaried socialism in this government. We were also glad that Townley of the Nonpartisan League renounced socialism and accepted political alliances in his recent speech at Lincoln. And by the way, this renunciation proves the disputed charge of two years ago that Townley was a socialist and was seeking to lead people into the socialistic camp.

Sister Weekes ought to try to be fair to Congressman Evans even if the task is altogether impossible. He has worked and voted for every measure helpful to agricultural interests. He has been steadfastly against movements inimical to such interests. He has been a member of an agricultural group that has had to contend with powerful eastern organizations that would otherwise give little consideration to the farming communities of the west. We would like to see Sister Weekes overcome her prejudice and selfish partisanship. Conditions are really improving, and Congressman Evans is contributing his full share to the improvement. Sister Weekes ought to cease moaning long enough to sit up and enjoy the betterment and sight of prosperity and content.

## Something Worth Saving for—a Home

IF YOU can afford to build, at all, you can afford this little bungalow. You can pay out on a home quicker than you can save the same amount in any other way. A home makes you save, and helps you to do it.

You'll like this cozy home, with its five rooms and bath, its big closets and its built-in features. The spacious front porch was made to enjoy. The house is only 24 feet wide by 36 feet deep, and because it is simple in outline, it is economical to build.

All the materials you need for building this house are procurable from stock. This includes stock sizes and designs of Curtis Woodwork, saving you the expense of a special order. We can secure the plans and material bill if you wish.

Don't put off building any longer! Come in and talk to us about this little home. Ask us for a free portfolio of "Better Built Homes."

## A New Blouse To Wear With Your Suit

You will find just the correct thing among the many new styles we have just received. Extra size folks will be particularly pleased with the nice dress waists we have for them.

Have you noticed the display of Aprons and "Apron Dresses" in our south window? The "apron dress" idea is new and meeting with much success. You get the style required in a nice home dress at just about the moderate price of a nice apron. Notice the pretty styles shown in the window at \$2.00 to \$3.00. The aprons are 75c to \$1.25.

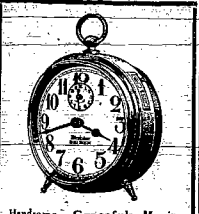

If you would like a few helpful suggestions in planning your curtains and draperies we can be of service to you. You will find a nice assortment of new nets and cretonnes here for carrying out the late drapery ideas.

We bought a special value in yard wide tafeta silk this week which will mean a saving of 30 cents a yard to you on the material for your new cases. Comes in navy, brown and black. Sixth finish silks, especially in black, are selling particularly well. We have four new numbers for you.

A silk novelty is silk jersey in flesh color, woven tubular like pillow tubing. By taking the required length, finishing the top and adding shoulder straps you can make yourself a dainty and practical silk vest for a moderate outlay.

**Emma Goldman**  
 Omaha Bee: Emma Goldman, scolar not only at organized government, but at ordinary standards of private morality and decency as well, has broken into print to tell of her observations in bolshevik Russia. She is a woman of high ability which she enjoyed for so many years, a notoriety achieved sometimes by speeches insisting resistance to government, sometimes by an insulting and degrading that institution which is the foundation of the bulk of human happiness—wedlock—the same. She—desecrated the tomb of her fellow men—not merely for her political views as she claimed, prevented as these were, but because of her private character.  
 One can understand the reason for Emma's new activity; she enjoys the limelight. But it is beyond comprehension why the opinions of a mind so out of tune with the spirit of mankind can be considered by others to be either interesting or valuable. Emma Goldman has been immersed in silence for two years. What she needs now is more silence, lots of it.

**Twentieth Amendment Suggested**  
 New York World: Plainly the United States needs a twentieth amendment, and immediately. It would provide that all cabinet officers should be ex-officio members of the house and senate, with all the privileges and immunities of cabinet members except the right to vote. That would make impossible so futile a debate as that which the senate has carried on in respect to the conference treaties and such farce as the house has played with the bonus bill. Moreover, the responsibility of the administration would be definitely established through its cabinet representatives. If such an amendment were in force, Mr. Hughes himself would have presented the case for the treaties. There would have been no need of letter writing. He would have been on the floor of the senate in person to supply all the information that was demanded and to answer all questions. When the senate had finished with him and he had finished with the senate, all the mysteries would have been cleared away and no senator could pretend that he did not know what he was voting for or what he was voting against.

**Lady Luck was With Him**  
 New York Evening News: An illiterate justice of the peace used to consult what looked like a law book but really a "man" order catalogue. One day a negro was laid before the squire on a charge of drunkenness. The squire heard the evidence and then, after opening his book and glancing at it, fixed the negro \$4.49, to be worked out on the roads at 25 cents per day. As the negro was being led away he said to the marshal: "I sh'ld be 'unlucky nigger!" "Unlucky nothing," said the marshal. "If the squire had happened to open that book at automobiles instead of pants you'd be working on the road the rest of your life."

**Pittsburgh Gazette-Times:** A Philadelphia judge rebuked a jury for drinking a quart of evidence given them. It would seem that the court was guilty of contributory negligence in giving them the opportunity.

**Carload Semi-Solid Butter Milk**

3 1/2c per pound. To Arrive in About Ten Days  
 This car will contain sixty barrels and we wish to engage the co-operation of farmers on this well known auxiliary food. For pigs, calves and chickens, results considered, Semi-Solid Butter Milk is the most economic food obtainable. It's no experiment, scores of farmers know its merits, have been well pleased and will use it again this year. Just sold a barrel to be used exclusively for raising chickens.

**Place Your Order and Save \$1.00**  
 Everyone placing their order will save \$1.00, this amount being saved by the Carload proposition. If you are raising pigs or chickens you should be interested. Call us up; we will place you in direct communication with farmers in your own community who will tell you you can't afford to be without Semi-Solid Butter Milk. It's their own experience. Phone No. 2.

**Basket Store Blend Coffee—3,000 Pounds Bought**  
 Coffee is an item that promises to be 5 cents per pound higher within the next sixty days. A portion of this advance has already taken place in the eastern markets. We have contracted for 3,000 pounds and are taking care of our patrons at the old price. Particular care is taken to keep Basket Store Blend up to the good old standard and you may be assured you are securing more good cup value for less money than any coffee on the market. We suggest this the proper time to secure a supply of ten to twenty-five pounds as a protection against advanced prices. When present contract is sold we must advance.

**Carload Chick Feed**  
 At \$2.25 Per Hundred  
 We are receiving some very satisfactory co-operation on the sale of tested No. 1 chick feed. The car is now one-half sold and orders pouring in every day. Without this is the best and cleanest food on the market and the price less than you have ever paid. Why wait and pay more? Simply phone your order. You are protected. Car to arrive about April 10.

**Carload Sugar Has Arrived**  
 If you have placed your order we have saved you money. Please get your sugar as soon as possible as we need the space badly. To those in the market for sugar we can save you money. Our best advice is that you should continue to advance. We have the sugar, either beet or cane, ready for delivery now. Phone No. 2.

**Easter Candy Novelties**  
 Ducks, Chickens, Rabbits and Easter Eggs, also egg dye. Secure your supply early.

**Glauber Salts**  
 4 cents in barrels, 4 1/2 cents in 100-pound sacks. Many farmers use this item as a regulator for hogs. If your supply is running low, phone us, we will supply.

# DIDN'T KNOW A WELL DAY IN 17 LONG YEARS

## Omaha Woman Was Compelled to Live on a Very Light Diet and Even Then Suffered Tortures From Dyspepsia — Tanlac Restores Her.

"I certainly know how to appreciate the wonderful health-Tanlac has brought me because for seventeen long years I didn't know what it was to have a well day," said Mrs. Frank Svetella, 2416 Twenty-ninth St., South Omaha, Neb.

"Thank these kind of diet, but even then I suffered tortures from indigestion, for nothing I ate agreed with me for years. I never weighed more than one hundred and five pounds and was so weak and ran down for a great deal of the time I could hardly stay on my feet."

"Tanlac has made me like a different person. I feel stronger and better today than I have in twenty years. I am glad to be able to go to Tanlac for the way it has touched up my stomach and given me new life and energy."

Press Fair to Labor— Editor and Publisher: Camp followers of labor's army who hit to edit the American press on its unfair handling of labor news will find precious little comfort in the New York newspaper's treatment of their controversy with the pressmen. There has been no editorial comment, and the news has been presented largely in formal statements by both parties. Whatever comment or explanation has accompanied the news leans backward in its endeavor to state the union case fairly.

Pinchot's Idea of Right— Harrisburg Patriot: Persons knowing the personal character of Forestry Commissioner Gifford Pinchot are not surprised that he should refuse salary from the state during the time he is campaigning for governor. His conception of public duty is expressed in performance, not in platitudes.

Never-Would be Ratified. Lincoln Star: The treaty situation at Washington is anything but optimistic, and yet it could be worse. What if the house had to ratify, too?

### Farmers Hold Mass Meetings in Logan

The farmers of Logan township, Dixon county, have been holding mass meetings to discuss road improvements and other timely subjects. A meeting was held at the Leseman school house five miles northeast of Wayne, Friday evening, as Dixon county road fund is exhausted, the farmers have agreed that each one shall drag the road around his place.

It was the opinion of the meeting that half of the automobile license money should go to the county. The meeting expressed opposition to the present school law, contending that when a pupil attends an outside school, the charge should be made to the parents rather than to the district.

### Culled From Herald's Exchanges For Week

Boone county commissioners have decided to lower the levy for the 1922 taxes.

The 8-year-old son of Bon Hall, living west of Ponca, had his fingers and his right hand badly crushed in the pulley of a hay fork recently. His father was putting a rope on the wagon, and the boy was on the rope, his hand passing into the block, badly crushing two of his fingers.

Frank Hruska, a Jefferson county farmer, committed suicide by cutting his throat with a razor Wednesday of last week. He had just returned from the Mead hospital at Rochester, Minn., where he had gone for treatment. He did not tell his family the result of his trip, and it is presumed that he was despondent about his health.

The Pierce Commercial club at a recent meeting discussed the improvement of the roads running out of town. Good roads will be considered by the farmers are going to cooperate with the town people in the better roads campaign.

H. D. Neal who was a resident of Pierce county for twenty years, died of apoplexy at Plainview Monday of last week. He was engaged in veterinary work.

Two Cedar county women, Mrs. E. J. Trombic and Mrs. Harry Kaufman of Coleridge, have taken out hunting licenses, the first to be issued in that county to feminine hunters this year.

A wireless receiving set has been installed at the K. P. club rooms at Blair. The members expect to get the monthly reports, all the latest news and daily musical programs.

The Congregational church at Hartington plans to build a new church. The present structure is in its second reincarnation, having served its day as the first public school building of Hartington, and later as a Methodist church before becoming a parsonage.

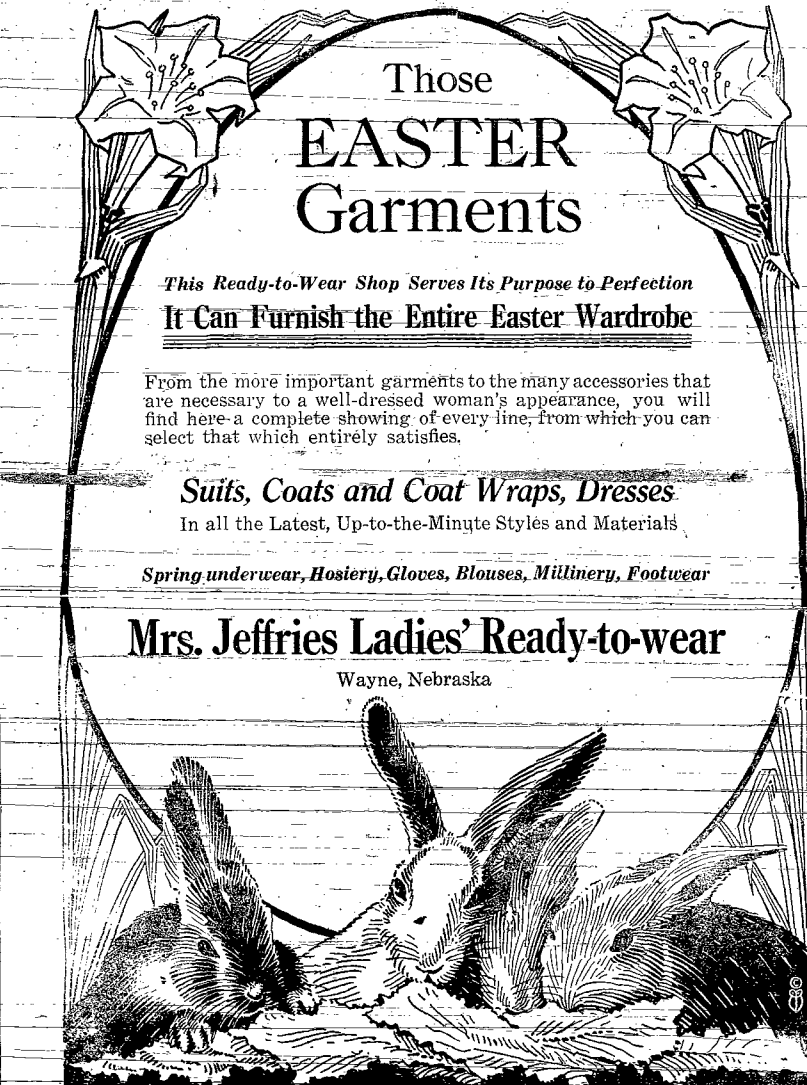

Hopewood Park, camping, picnicking and amusement point, of Cedar county will be opened for the season on April 17. L. F. Hesse is proprietor.

While making a visit to Laurel county, State Fire Inspector E. F. Dowling declared that village to be the cleanest and best wired town that he had visited.

Property owners of Newman Grove have decided to have reinforced concrete used in the pavement which will be put in this year.

This pavement will be built so that after the base shows wear a covering of either brick or asphaltic concrete can be laid over it and it will be the same as new pavement. The pavement at Newman Grove will be fifty-six feet wide.

The Community club of Newman Grove has purchased a wireless receiving set which will be installed in the club rooms. Daily market reports will be received and posted on the bulletin board. The set will cost around \$200 and the busi-

### Agriculture Notes

**Testing of Cattle.**  
The total number of cattle now under supervision in the tuberculosis-eradication work being carried on by the United States department of agriculture in cooperation with the state has passed the 2,000,000 mark, the total for February being 2,027,000. During that month 200,984 cattle were tested, bringing the total of cattle once tested up to 1,181,516, and the total of those in fully accredited herds to 229,716. There are now 361,826 cattle on the waiting list. On March 1, more than 12,000 farmers and breeders and accredited herds in 12 states have been notified.

**Changes in Road Materials.**  
In the last ten years there has been a great change in the type of road suitable for traffic conditions on main traveled highways, according to engineers of the bureau of public roads of the United States department of agriculture. In 1910 plain and surface treated macadam were considered among the highest types of paving for country roads and a large percentage of the "miles" of the two types. There was a small mileage of brick and concrete and a somewhat greater mileage of bituminous macadam but the plain and surface treated macadam

were the predominant types of hard surface roads. How great the change has been is shown by figures recently issued by the bureau. On Federal aid roads completed between 1918 and 1920 only 2.3 per cent of the total area paved was plain and surface treated macadam. The types that formerly constituted such a small part of the mileage were as follows: Bituminous macadam, 3.1 per cent; bituminous concrete, 6.3 per cent; concrete, 19.3 per cent; and brick, 4.1 per cent. Weighing Milk.

Producers who ship milk to city distributors have voiced frequent complaints because of the disparity between their figures on the quantity of milk shipped and those of the dealers on the quantity received. In order to locate the cause of complaint by studying the actual loss between the country shipping point and the city plant, the United States department of agriculture made an investigation on the Baltimore market. Records kept on more than 1,100 cans showed that the loss between the country station and the city plant was less than 1 per cent. The loss on trains, probably due to spilling, was only 0.15 per cent; and from the city railroad platform to the plant it was 0.55 per cent.

However, it was found that when the milk was weighed in the city plant there was a shortage of 2.65 per cent on the amount shipped, according to can measure in the country. Of this shortage, 74 per cent was due to actual losses, while 1.92 per cent was the difference between can measure and weight. This is easily accounted for by the fact that cans become dented and battered which decreases their holding capacity. In a former investigation by the department an even greater discrepancy was found between can measure

and weight, the difference being over 3 per cent. It would seem that there would be less trouble be-

tween producers and dealers if the milk was weighed at both ends of the line.

## The Big Difference in Refrigerators

HERRICK HIGH GRADE REFRIGERATORS

The main object of any refrigerator, of course, is the preservation of foods. The refrigerator that will keep foods in perfect condition the longest is naturally the refrigerator you want—provided it doesn't increase your ice bills. The HERRICK answers those requirements with FACTS—not claims. And it does even more. It actually DECREASES your ice bills while giving you more effective food preservation. Why? Simply because the HERRICK is far more than an ice box—far more than a cold storage place. It is built on the scientifically demonstrated principle that more than merely cold air is necessary to keep foods in good condition for any great length of time. The dry, cold air circulation of a HERRICK is one of the essential reasons for this difference. Insist on a HERRICK.

**Wayne is Besieged**  
**By Nightly Visitors**

Inhabitants of Wayne who were sleeping the sleep of the blessed, were awakened Tuesday morning by an onslaught from the heavens. Marshal W. A. Stewart, on night watch, thought the town was being besieged by marauders in airplanes, and with one hand on his club and the other on his trusty revolver, he prepared for action. Some thought the midnight day had arrived, and that they heard the flap of angels' wings. Others shivered at the unearthly noises and thought that confusion had come to the scene on earth. The more timid buried their heads in the blankets to shut out the clamor and the bolder ones tiptoed to the window to investigate.

Circling over the town in dizzying eddies, were thousands of wild geese. Confused by the lights of the town, they began to swoop down above the town, swooping from one end to the other. In the business district they barely skirted the tops of the buildings, so low did they fly. With the arrival of dawn and the shutting down of the street lights, the geese found their way out of town.

Slight damage was done by the birds and some benefits accrued. The first people on the college campus Friday morning called their flag pole was bent over at the top and the blame was laid on the nightly visitors. One of Wayne's citizens evidently scared the terns before anyone else arose, and picked up all the feathers which were dropped, for he was overheard talking of the feathers which he collected for a feather bed. The appearance of the geese on Friday evening was a repetition of a large order of their visit on Wednesday near midnight.

**Receive Scholastic Honors at Lincoln**

Miss Paula Mittelstadt of Winfield, and Miss Margaret Schemel, formerly of Hoskins, now of Lincoln, were among the forty-seven students of the University of Nebraska who were elected last Thursday to Lincoln chapter of Phi Beta Kappa, national scholastic fraternity.

Members from which she collected were chosen to receive this honor. Only students who have completed sixty-four hours of work at the college are eligible.

Miss Mittelstadt, her daughter of Mr. and Mrs. G. A. Mittelstadt of Winfield. She was graduated from the Winfield high school in 1914, attending the Wayne State Normal the following year. She has taught school at Hartington and North Platte. The first semester of this year she attended the University of Wisconsin at Madison, returning at the beginning of the second semester to Lincoln where she had taken her sophomore and junior work.

Miss Margaret Schemel is a daughter of Mrs. Emma Schemel, formerly of Hoskins, now of Lincoln. She was graduated from the Wayne State Normal in 1914 and for the next two years was principal of the Danmont high school. She attended the state university and then became an instructor in the normal school at Lewiston, Idaho. The first part of this year she spent as critic teacher in the training school of the college at Greeley, Colo. Miss Schemel taught in the language department of the Wayne State Normal three summer terms. She will also be a member of the summer faculty at the Normal this year.

**George Baird Writes Home From Ireland**

George Baird who left Wayne on January 27, for a visit to his native country, Ireland, writes to his home, a cordial welcome to the State Bank of Wayne, concerning his trip. Mr. Baird reports that none of the factions in Ireland were working to satisfaction and that there is a lot of disturbance. He mentions that the two parties are especially disturbing in Belfast where shooting and looting are common. As in prices he says they are about the same as in the United States and that the country would be all right if there were more rain and not enough frost in winter.

Mr. Baird landed at Southampton, England, 6:30 a. m. from the train to New York, from which he could get boat for Belfast. The letter to Mr. Lundberg was mailed from Mullaghmore, Ireland, on March 10, and reached Wayne last week.

**Baby Girl is Burned By Scalding Water**

Phenice Isabelle, 14 months old daughter of Mr. and Mrs. Walter Taylor, living north of Wayne, was badly scalded Sunday of last week when her brother, Walter, aged 5, accidentally upset a pan of hot water upon her. The baby was in her box near the stove when the accident occurred. Mrs. Taylor was in the kitchen but had her back to the stove. Water had proceeded to a frosting pan and then splashed to fill it with hot water from the teakettle. Mrs. Taylor did not see the accident, but it is thought that the pan became so full and hot that the boy dropped it, causing the scalding water to fall on the baby, whose face, neck and arms were severely burned. A physician was summoned and with good care, the life of the child was saved. Edward Taylor, aged 8, another brother of the injured baby, was hurt last month when the sled on which he was coasting, collided with a tree.

**Haywood as an Employer.**  
 Springfield, Mass., Republican—Olive B. Haywood, 22, of I. W. It will be interesting to see how he will deal with sabotage now that the show is on the other foot.

**Pender Stockman on Selling At a Profit**

Daily Drivers Journal-Stockman, March 25.—"These cattle are not to be finished by any means, but they are ready to make some money for me and that is all I ask," said Harvey Leonard, young stockman of a Pender, who was here today with a load

of steers that he has had out about 40 days. He was on his way to follow the old plan that whenever cattle will show a profit it is a good time to sell them," he added.

"Cattle have been moving out of the feed lots up there quite freely all season, and at present are not overly plentiful. As a rule feeding operations have been profitable this year, and the general condition of farmers is better than it was last fall.

"There has been an unusually broad demand for bred sows all this winter. Sales where either pure bred or grade sows were offered have been well patronized, 240 having been a common price for just good grades, and there are still plenty of buyers for the few bred sows that are being offered for sale. Losses have been quite heavy in the first litters of pigs this spring, the cold snap taking quite a good many pigs even where they were well cared for, and consequently only a few sows have farrowed so far."

**Moock-Biggs.**  
 Harry E. Moock of Norfolk, and Miss Allison M. Biggs of Boone, Ia. were married in Wayne by Judge J. M. Cherry on Thursday, March 23. The young couple came to Wayne on the afternoon train, accompanied by Leon Rimovsky of Norfolk, and returned on the evening train. They will make their home in Norfolk. Mr. Moock is a brakeman of the Northwestern railroad and the bride has been a dental assistant in Des Moines.

**Steuckrah-Herrmann.**  
 The marriage of Miss Lillie Katharine Herrmann of Madison, and Oscar H. Steuckrah of Randolph, took place here Wednesday, March 22. Rev. H. A. Tuckman, performing the ceremony. They will make their home on a farm near Randolph.

It is difficult to kill a lie, and the lie of the demagogue, whose chief aim is that of the saving of the people and the only trustworthiness of the honest farmer, can travel around the earth while facts are rubbing their eyes.

**N.P. League Officer—Resigns.**  
 Lincoln, Neb., March 22.—Richard Miller, secretary of the non-partisan league of Nebraska, yesterday tendered his resignation according to announcement made last night by C. A. Sorenson, general counsel of the league. Mr. Sorenson said it was Mr. Miller's intention to engage in private business.

The freight train enroute to Stock City from South Norfolk contained three freight cars and was moving slowly. The automobile was being piloted and badly crashed.

**Demagogues.**  
 Daily Drivers Journal-Stockman: The most pernicious enemy with whom the farmer has to contend is the demagogue who is seeking to create class hatred and to make the farmer believe that the business interests of the country are in jeopardy to wrest from him the fruits of his labor. Some of these demagogues, unfortunately, are in the United States Senate, where they are at liberty to spout geyzers of misinformation and vituperation without fear of contradiction; some are in the lower house; others claim to be the leaders of rural thought through agricultural publications, and still others are the self-appointed spokesmen of the only men of rural population at so much per head; but be they where they may, they are public nuisances and menaces to the greatest character.

Not long ago, for example, farmers were informed that the live stock exchanges of the country were systematically robbing them by fixing the price of cattle and hogs through collusion with the packers. It is useless to inform the public that the contrary is the case, for the only men of the highest integrity can obtain membership in such exchanges. In fact, more than once exchanges have expelled crooked members even at
