Hoskins Boy Hurt in Automobile Accident

Hoskins, Neb., May 30.—Cliff Fletcher, the 7-year-old son of Mr. and Mrs. Willard Fletcher, living two miles north of Hoskins, was seriously injured Thursday noon while returning home from school by being struck by an automobile.

George Sweigard, who was driving the truck, gave the boy a ride home and when they reached the Fletcher home, Mr. Sweigard stopped to let the boy off. The child walked around the truck to cross the road and failed to see an approaching automobile driven by George P. Drevesen, who was accompanied by his mother, en route to Hoskins from Winslow.

Plumpea Car Over Bank
Mr. Drevesen drove around the truck just as the boy was about to get behind it, which prevented Mr. Drevesen from seeing him and his car was nearly upon the child. In order to escape from hitting the boy, Mr. Drevesen swerved out of the road and plunged over an embankment six feet high. He, however, was too dazed and could not prevent the accident.

The child's leg was broken at the knee, the bone penetrating the flesh. He was also badly bruised and his back injured. He was taken to a doctor at Hoskins for first aid treatment and then taken to a hospital in Norfolk. Some fear was expressed here that the leg might have to be amputated, although it was believed that it could be saved.

Won't Amputate Leg
Norfolk Daily News: At a Norfolk hospital, where Cliff Fletcher, the 7-year-old son of Mr. and Mrs. Willard Fletcher, of Hoskins, was taken after being injured in an automobile accident Thursday afternoon it was said that the boy was getting along nicely and that it would not be necessary to amputate his broken leg. It was also said that the broken leg was the only serious injury from which he is suffering.

The Early Days in Two Counties

From Wayne-Herald for June 5, 1902:
Gay Hunter entertained a jolly lot of his friends at a birthday party yesterday afternoon.

J. W. Zeidler has begun the excavating for a handsome new residence on the property just west of the city limits.

Marshall Miner informs the Herald that up to date fifty-two dogs have been paid into the city treasury.

Arthur Tucker went to Cedar Rapids, Neb., Tuesday where he has purchased an interest in the Cedar Valley bank and where he will assume the duties of cashier.

J. W. Bartlett who has been a member of the board at the head of the Baptist college at Grand Island, left in company with Bangor Kimball of Wakefield, to attend the commencement exercises held there this week.

Mrs. H. P. Cunningham, daughter-in-law of Mr. Cunningham, departed away last Thursday for home near Randolph, at the age of twenty-two. She is survived by her husband and her mother. Her funeral services were held at the Methodist church here.

On last Thursday evening the members of the Board of Missions met at the home of Rev. Father Weber, who is the pastor of the church.

From PIONEER JOURNAL—June 1, 1882:
Anyone who may ride through the country in any direction from Pottawatomie cannot fail to be impressed by the beauty of the scenery and the substantial signs of thrift and prosperity which everywhere meet his eye.

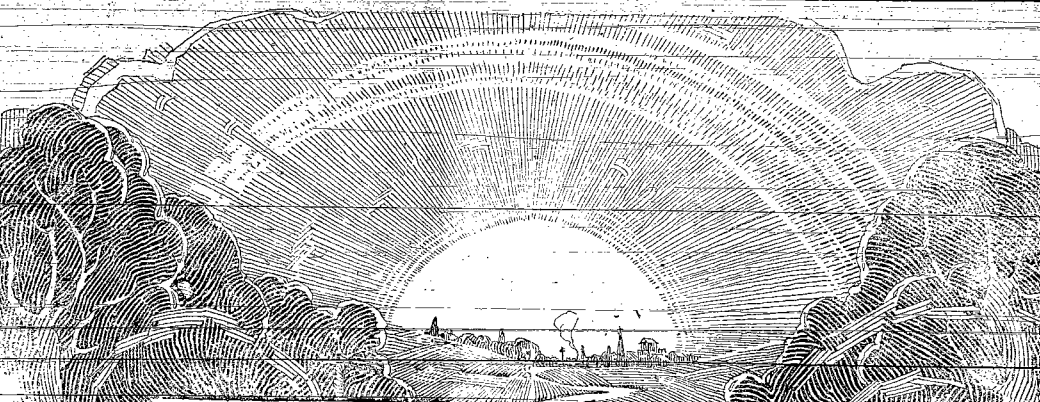

In all the state of Nebraska we doubt if a county can be found that excels over in its natural resources, as well as in the eternal beauties of nature. Other counties in the southern and western portions of the state are more fertile, but other counties are better known and more thickly populated, but in fertile soil, in timber, in abundance of water and in the natural advantages which constitute the real wealth of a community, Dixon county is preeminent. We hope and believe that the difficulties under which the early settlers of the north-eastern Nebraska labored have disappeared in common with the settlers of all new countries, they met with many discouragements.

Some of the obstacles against which they fought, have left an impression which is not yet obliterated, and created a prejudice against this section, which still lingers in many minds. We believe, however, that starting all the states west of the Mississippi river particularly, were settled under discouraging circumstances, which were forgotten in the subsequent prosperity of the state. Droughts, grasshoppers and other evils are visitations commonly inflicted upon new communities, but droughts and grasshoppers' loss

afflicted. At the conclusion of the campaign, a delightful reception was given the couple at the home of County Treasurer Fred Volpp.

Last Thursday evening the graduation class of the Wayne high school held commencement exercises at the opera house. The stage was decorated with flowers, and the class colors, under blue and cream, were arranged back and forth across the platform, in the center of which was suspended an improvised bell tower, which was placed the slogan, "Let the Ropes of the Past Ring the Bells of the Future." The class is composed of fifteen young ladies and three young men, namely: Emma Adair, Margaret Adair, Libbie Ellis, Mary Fair, Jennie Gaertner, Laurel Lumbard, Ida Messer, Clara Stricker, Clara Ahorn, Jessie Tucker, Elsie Warnock, Blanche Young, Gayle Jones, Edna Relyea, Georgia Terwilliger, John Bell, Frank Gerton and Edward May, who were seated on the stage. The program began with a piano solo by Georgia Terwilliger and Gayle Jones. Rev. M. Stewart delivered the invocation, after which Miss Clara Philles, Miss Maude Brittain, Walter Goldie and L. H. Hott sang a quartet number, "The Home of the Future." Fancy Bids," Rev. W. S. Lewis of Morning-side college, delivered the oration for the class, concluding remarks by Miss Emma Adair, and the singing a piano solo by Libbie Ellis and Elsie Warnock. "Farewell Remarks," by Miss Emma Adair, and the singing of the class, and a solo, by Miss Luella Cook, D. C. Main, president of the board of education, presented the diplomas to the class.

This Rainbow Gives Promise of a Bright Tomorrow

You may more fully realize the prosperity ahead by using latest and best machinery. If you need a new machine to hurry your farm work and save valuable time, don't delay, but come and let us fit you out. On high-priced land one cannot afford to fool away time with worn-out or out-of-date equipment. You need the latest and best to serve the ends of economy and make your season's work as profitable as it should be.

Call us for either a new machine or a repair and we will be on the job immediately, giving you the best service and the lowest prices within the range of possibility.

The annual meeting of the Laurel Commercial club was held last Wednesday evening at which time election of officers resulted as follows: President, G. A. Wright; vice-president, Vito H. Kopp; secretary, Ferdinand I. Soder; treasurer, E. O. Waite. R. H. Broughton who has directed the band for the past year, made a report, and it was decided to retain his services for another year. The Commercial club members decided to request the village board to make a party for the support of the band. Wednesday evening. The Fourth of July celebration with the American Legion at Laurel was planned to hold this year has been cancelled because of heavy celebrations but the boys may have declared themselves in favor of a celebration for next year. Dr. Joseph W. Porter who passed away at Ponca last Tuesday at the age of 85 years, 2 months and 6 days, was somewhat of an inventor. The following account of his mechanical inventions taken from the Dixon County Advocate: "From his experimental work over twenty years ago has evolved a number of the most improved and successful incubators on the market today. One of his early patents covers his No. 1 incubator, now known and marketed at Des Moines, Ia., which patent was sold outright in 1907. His two sons, L. N. and W. S., are engaged in the incubator business at Blair, Neb., which is also the result of the doctor's earlier experiments, the boys taking up the work where he left off about five years ago. The first three days of last week, thirty-one cars of stock were shipped from Colquhoun, Okla., eighteen cars were shipped to Chicago. The corner stone of Hartington's new city hall was laid yesterday at the American Legion post of that place. Father John Palubicki of Stanton, delivered the address of the occasion. Albert Babbes who lived near Wisner, died last Wednesday of injuries received when a horse kicked him. While unloading a team of horses from the hitch at the sign of the day's work, Tuesday, one of the horses kicked him in the abdomen. He was rendered helpless and was found by his father after the horses came from the field alone. He was carried to the Norfolk hospital but the injury was too serious to permit recovery. Recently Tony Leiting of the Randolph vicinity, with the aid of two friends and their rifles, killed a coyote which had been seen frequently on that place. The animal weighed thirty-five pounds. A. N. Farmer of Grand Rapids, Mich., recently made a visit to Storm Lake, Ia., in search of a site for the erection of the orphan home of the Brotherhood of the American Yearling. According to the plan for this home, it will care for 1,200 to 1,500 children under the cottage plan. The yeoman are looking for a suitable site containing about 1,500 acres, a good share of it first-class farm land. In this city for orphans will be an administration building, hospital, school buildings, vocational shops, a chanel, bank library and stores. Each child will be given the advantages of a home. Each cottage will house twelve to fifteen children. A big farm will be operated in connection with the home. The swimming pool at Humphrey with its new tile and concrete. Several improvements have been made, including a bath house. Contract has recently been let for the construction of a well to be used to furnish the water supply for the pool. A bus line has been started between Steamboat Grove and Scribner. The bus will leave Steamboat Grove each morning in time to catch the train on the main line of the North western out of Scribner and the return trip will be made after the last train on the main line from Onaha reaches scribner. Governor McKelvie and members of the state park board, visited at Helena mineral springs last Tuesday at the invitation of Custer county citizens who wish to see a state park established there. About two thousand people were at the picnic dinner which was held at noon after which a program was given. Governor McKelvie as the principal speaker.

Business Sioux City Journal: The summer season is at hand, and everybody is watching for signs of the business revival long promised and so confidently expected. These signs may not be apparent to all, but if the resume reports bearing official stamps from government, or factory or counting house are to be believed, and The Journal thinks they are reliable, all indications are that business is on the upswing and is now moving a little faster. After all, the man on the street or in the office must depend on information of this kind, and he has not been fully related that personal junketing trips throughout the country have revealed better conditions than were expected. In many ways business is still slow. Few lines are producing to the limit of their capacity. Some are, but they are not doing so. They have a long distance to go before they operate at anything approaching 100 per cent. Notwithstanding this admission, which every business man readily will make, the improvement over just a few months ago is considerable. Last winter the whole country was distressed with the mass of millions unemployed. Today there is little heard about it for the reason that unemployment has been greatly decreased. It was gradual, just like the return to business, consequently it was not generally noticed. And a short time ago certain classes of labor could not be obtained. Some sections have reported the demand for labor as exceeding the supply. Hard times hardly could consistently exist when there are jobs anywhere without workers to take them. The condition of growing grain is a little better than that of grain in the market. Fluctuations have been feverish, especially at Chicago, but prices have not broken in a way that many farmers would regret. As of live stock, continue to hold their own. Money is easier at New York, with both time and rates for the borrower. The stock market is not so good as it might be, but American business interests are waking up to the fact that they should enjoy the bounteous dinner of fields of competition or lose customers and the opportunity to make new

ones. There is a movement on the part of American commercial interests to investigate conditions in Latin America and it is about time they were doing so. It is a rich field and there are the only things necessary for the Americans is to develop it with sales. Freight rate reductions, recommended on all lines by the Interstate commerce commission, caused rejoicing in all shipping circles. Reductions, averaging around 10 per cent, cannot help but stimulate buying, since it virtually will mean, if the reductions are passed on to the consumers of goods, as they should be, unless retailers in particular have been losing money, the purchase of commodities for 90 cents which formerly cost \$1. Buyers are sure to appreciate this and they can be expected to loosen their purse strings which have been drawn quite tightly since the country understood what deflation really meant. The reduced freight rates ought to be the signal for laying down the last bar in the once famous luxury strike. Once this country the reduction will not do for some time is, to end the national worry over industrial labor problems. Since the railroad went wrong, it was created proportionately with the freight rates and the rail workers desire them kept where they are, a conflict of opinion and desire is at once created. What it may develop no one knows right now, but is the prevailing belief that considerable talk will be heard throughout the country within the next few months. However, that is nothing for the public to worry about at the moment since it will do enough of that when a strike comes.

Wayne county farmer for twenty-seven years, asks
support for the office of

County Commissioner
—for the—
First District

He believes in strictest economy in the management
of public affairs, and if elected he will exercise the
same careful judgment in handling county business
that he employs in handling his own business. Sup-
port for his candidacy will be confidence well placed.

Chas. H. Randall

of Randolph

A Business Man for Governor

What Randall Stands For:

Reduction of taxes to the low-
est point where effective govern-
ment can still be maintained.

Careful selection of depart-
ment heads with a view to economy
and efficiency.

Close relation between the leg-
islative and executive branches of
state government, in the interest of
better laws.

A business-like administration
of the executive branch, utilizing
the experience and capabilities of a
successful man of large affairs.

TELL your dealer you want to see a Fisk Tire beside any other he offers you. He has it in stock or can get it. See for yourself what the Fisk Tire has to offer in extra size and strength, how its resiliency compares when you flex the tire under your hand, how the depth of the non-skid tread looks beside other treads. This is the way to buy tires!

Honors Memory of Edith Cavell

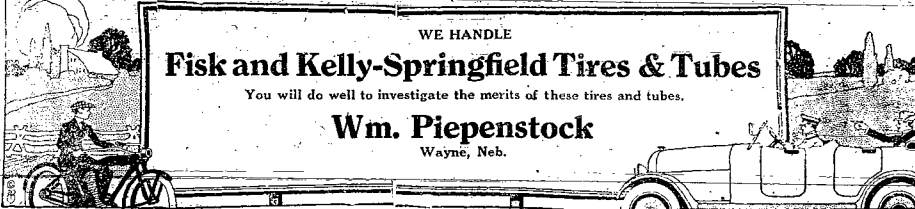

After King George and Queen Mary of England had left the grave of the murdered nurse, Edith Cavell in Brussels last week, they remained at the foot of the memorial erected to the immortal memory of the great martyr, shot to death by the German Kaiser's 'Mauritius Bluecutter,' who was sentenced to death with the British nurse, but whose sentence was commuted. Miss Bluecutter is photographed as she is placing her silent tributes on the grave of her friend.

Filling Station Service

Service is a word which is overworked, but we find no other which will serve so well. When we give honest service and courteous attention we have established a name for ourselves as square as truth itself. Service comes only when all parties concerned profit thereby, and it is the foundation upon which this institution is built and is the main reason for our rapidly increasing business. It grants the par excellence in all things connected with an oil station—best grades of gasoline, kerosene, lubricating oils and greases. We want you to get the habit of making our filling station your headquarters for service. In every department we offer inducements not found elsewhere.

Threaded Rubber Insulation has to stand a test as severe as the test of a lineman's rubber gloves.

After such a test you can be sure it will protect the plates and last as long as the battery.

Threaded Rubber Insulation makes "bone dry" shipment and storage of batteries possible. The Still Better Willard Battery—the only battery with Threaded Rubber Insulation—has been selected by 152 manufacturers of cars and trucks.

 The South Is Getting On.
 Lincoln Journal: The south is developing. This is shown by an order just placed by the Southern railway for 6,350 new steel freight cars, 500 steel automobile cars, 106 steel passenger cars and 250 caboose cars. Placed in a solid train this new equipment would reach forty-seven miles. The officers of the company have a lively anticipation of good times ahead, for they have ordered this new equipment to be ready to handle business in the fall.
 Minneapolis Journal: Conan Doyle has produced the most comfortable and Valvia the most uncomfortable hell that can be imagined. Just why go to either?
