\$1550 But You Can't Ride on the Paint! Imitation diamonds can be made to look so real and sparkle so brightly that it is difficult to tell them from the genuine. But try to sell one and you will find out its real worth in a flash. Same with automobiles. Weaknesses of construction in a closed ar can be hidden, for a time, with paint and varnish and fancy tings. But all is not quality that glitters. You can't ride on the paint. And when you place such a car in the second hand market, you suffer a heavy depreciation because it lacked real intrinsic value at the outset. Use will never improve a mediocre product. The second hand floor is the melting pot for automobile values. Cars are stripped of artificial values and only inherent worth counts. Motor car owners tell-us that the trade-in value of any Studebaker car at the end of three or four or five years of useful life is greater than on any other car built today—the percentage of depreciation is the No wonder the Studebaker Light-Six Sedan is the fastest selling ality Sedan in the world! Do You Need a Corn Planter?

Many farmers need new corn planters at this time, and they will do well to let us show them the superior points in the No. 8 International Hill Drop and the No. 1 International Variable Drop. Either machine offers big advantages, and either will speed up the work of planting corn.

We have the well known and always reliable McCormick-Deering mowers. If you need a mower, come in and let us show you.

We have on hand an ocean of repairs, and can fit you out without delay.

Let us be of service to you.

STATEMENT

To Its Patrons:—The railroads are a part of every farmer's farm, every manufacturer's factory, every merchant's store, and, indeed, they constitute a vital part of every industry.

In view, therefore, of the announced purpose of a few men in public life to continue to use railroads as easy vehicles to political preferment, it is apparent that every farmer, manufacturer, merchant, and, indeed, every thoughtful person everywhere should devote some time to a study of railroad problems.

It is likewise apparent that the railroads should lend all assistance possible to those willing and, as we believe, anxious to learn the true facts.

Therefore, it is the purpose of the Chicago, Saint Paul, Minneapolis and Omaha Railway Company to present, through the local press in communities in which it operates, statements from time to time bearing upon the particular railway problems in which our patrons and the public are vitally

This Company wants to continue to be a helpful factor in the material and social progress of every community that it serves. It wants to ren-der the best possible service at the lowest rates consistent with fair compensa-tion for its employes and-a reasonable return upon its investment.

To this end it is essential that the Railway Company and its patrons undertake, in a spirit of mutual helpfulness, to arrive at a better understanding of the fundamental facts under lying the problems which pertain to railway maintenance, operation and financing.

We believe that the outstanding and predominating characteristic of the average American citizen is his love of justice and fair play. That if the public be kept advised of the true facts, the railroads have nothing to fear from public regulation.

We therefore ask the readers of The Herald to study the statements which this Company will publish in future issues. We invite constructive suggestions and earnestly urge a study of railway problems uninfluenced by political prejudices.

The kailroads constitute the greatest industry in America, and indeed in the world, outside of agriculture. This is true not only because of their common carrier functions but also because they are the largest employers of workers—both skilled and unskilled—and and the largest purchasers of supplies and materials. Their success or failure is of vital concern to all.

Millions of Families

"I will build a car for the multitude" Said Henry Ford in 1903—Read how the fulfillment of that prophecy is now made possible through the

Ford Weekly Purchase Plan

For many years it has been Henry Ford's personal ambition to make the Ford the universal family car—to, put it within the reach of the millions of people who have never been privileged to enjoy the benefits of

During the past fifteen years over 7,500,000 Ford cars have been placed in the hands of retail customers—more than a million and a half of them within the past twelve months—and yet there are still millions of families who are hopefully looking forward to the day when they can own a Ford.

And now the way is open.

Under the terms of this plan you can select your Ford Car, set aside a small amount each week and you will be surprised how soon you will own it. In the mean-time your money will be safely deposited to your credit in one of the local banks where it will draw interest.

Think it over. Five dollars will start an account. The whole family can participate in it-father, mother, brothers and sisters each doing a little.

Why not start today? Stop in and talk it over with your local Ford dealer. He will be glad to fully ex-plain-the details of the plan and help you get started toward the ownership of a Ford car.
