

CONSOLIDATED WITH THE WAYNE REPUBLICAN

WAYNE, NEBRASKA, THURSDAY, APRIL 10, 1924.

VOL. 38, NO. 7.

TUESDAY'S PRIMARY SHOWS LIGHT VOTE

Norris for United States Senator and Adam McMullen for Governor Carry the County

MEARS HAS BIG LEAD HERE

Delegates to the County Convention April 24 to be Known After Official Caucus.

No great excitement over candidates was evident in the primary here on Tuesday, and a light vote was polled. Candidates conducted their canvases with uniform fairness and courtesy, and no ill feeling developed among them. Those who received victory without bragging and those who lost accepted defeat with apparent good nature.

As will be seen by a table of the returns from the county in today's Herald, the candidates receiving the substantial lead here are Senator George W. Norris also had a big plurality over his two opponents for the United States senate. It is felt that the party of S. Norris, the republican nomination for lieutenant governor and Judge A. A. Welch for district judge to succeed himself were both very close affairs.

For the republican nomination for governor, Adam McMullen is the leader here, and for the republican nomination for state representative, meta little opposition from his rival, Chas. Grant.

For the republican nomination for governor, Adam McMullen is the leader here, and for the republican nomination for state representative, meta little opposition from his rival, Chas. Grant.

For county assessor, V. L. Dayton was unopposed, and William W. Brennan with opposition, and for that office William Assenheimer won the democratic nomination.

GRANT MEARS IS NEAR TOP FOR STATE OFFICE

Over 800 Precincts Yet to Hear From May Give Him Nomination.

Eleven hundred twenty-five precincts reported out of 1,536 in the election this morning by Grant E. Mears, for the republican nomination for lieutenant governor, a total of 18,006, placing him second from top. Williams has 21,707, McClelland 17,214, and Conroy, 9,858. Williams' small lead with 81,971 precincts to hear from gives Mears a candidacy basis for hope. Mears in a report this morning that McMullen has a substantial lead over Mears for the republican nomination for governor, according to reports from the state and Senator Norris swept the state.

Junior High Gives Overture Next Week

"The Ghosts of Hilo," an Hawaiian operetta written by Paul Blasc, will be presented by the public next Wednesday evening, April 16, at 8 o'clock at the State Normal auditorium by the junior high of the training school. Prof. Leonard B. Beard, conductor of the operetta and Mrs. J. E. Fisher, in charge of the rhythmic dancing work to be presented.

The local operetta takes place in a glen near Hilo, a town on one of the Hawaiian islands. It is believed the island is haunted and that the souls of the departed and the inhabitants think this is the dancing of ghosts. Once, after a storm, a little girl is found at the entrance of the glen and the father seeks her. This is on the anniversary of a flood lake, nature, and the celebration strikes the girl, who lives with the Princess of Hilo.

Numbers during the intermission will include: Cello solo, Margaret Ahern, accompanied by Milton Ahern; trio, "By the River," and "Melody in D"; Elvera Mallory, Margaret and Marion Ahern; flute solo, "Cherries," Marion Joe Theobald.

CORN TESTING IS PROVING BENEFIT

Greater Wayne Club Helps 109 Farmers Select Seed for This Year's Planting.

CAREFUL SELECTION NEEDED

Crop of 1923 Shows Better Test Than Corn Raised Past Year in Wayne County.

That seed corn bears testing regardless of how carefully it is selected and graded and that the 1923 crop is ahead of the 1923 crop for seed use are two decisions reached by the Greater Wayne club in the tests made for 109 farmers the past week. Prof. E. J. Hunter, president of the club, and a corps of helpers took sample kernels from the ears of corn brought to them Saturday for testing. One Wayne county fieldman stated that thousands of dollars would be saved in this county alone by this systematic testing.

The corn testing of the Wayne club was done by the rag doll method. Results are not far enough along to give a definite report as yet but the tests have shown that the 1923 crop is better than the 1922 crop. The testing is a most worthwhile project for the Greater Wayne club and the vicinity is being benefited by the move.

Hunter who is conducting meetings here until April 27, spoke Monday evening at the meeting of the members of the Northeast Nebraska Ministers' association at the session held in the Baptist church. Besides the local pastors there were present: Mrs. M. Gansko, hotel manager, and Mr. Fox before the fire department arrived. Mr. Gansko was unopposed in the local pastorage where he is serving at noon when the fire started.

Tourist Park Will Have New Driveway

It was decided at a special meeting of the city council last evening that 500 feet of lining be put in the tourist park on south Main street to help D. Hall get the place open for the picnic grounds. The Hall is leveling the grounds, planting shrubbery and grass and when the drainage is completed will have a good park ready.

Miss Elsie Ford Piper went to Waterloo, Iowa, to visit for the week end. She will also attend the teachers' meeting in Norfolk.

H. B. Dinwiddie to Speak Here Friday

Rev. Howard B. Dinwiddie who has just returned from an extended tour of the Amazon valley, South America, for the placing of volunteer missionaries, will stop in Wayne Friday, April 12, en route to the Pacific coast to New York and will speak tomorrow afternoon at 3 o'clock in the Community house.

Mr. Dinwiddie has spent his last year in Ireland and Scotland to present Christianity to the large centers there. Over 300 young men and women offered themselves as missionaries as a result of his work and of the spiritual revival that aroused all peoples in these countries. Mr. Dinwiddie was finding work in the South American for many of these.

Good Roads Men to Be Here Next Week

At the regular meeting of the Greater Wayne club to be held next Monday evening at the city hall W. H. Blakeman and F. H. Beels of Norfolk, president and field representative, respectively, for the Nebraska Good Roads association, will speak on federal aid in improvement of highways. If federal aid is what is wanted by the business men will be keen to the situation, states Prof. E. J. Hunter, and will help get this so the town may benefit in trade from the highway. Mr. Beels will invite everyone to the meeting next Monday at 8 o'clock.

Card of Thanks.

We wish to thank those who tendered their assistance and sympathy at the time of the death and funeral of our beloved wife, mother and sister; also for the beautiful floral tributes. In each of these ways our brothers and sisters of the church and home.

Air, Room, Exercises Vital to Chickens

The artificial method of brooding chickens consists in supplying, artificially, heat as nearly as possible like that furnished by the hen under natural conditions. The temperature of a hen is about 106 degrees F., but as hens seldom sit closely on chickens the latter do not receive this degree of heat. Hens adapt their methods of brooding to conditions, such as outside temperature, size of the chickens, and wet weather, and the operator of an artificial brooder must meet these conditions as nearly as he can. Some of the most important faults in the management of brooders are overcrowding and lack of ventilation and the failure of chickens to get sufficient exercise. The brooder should supply the proper temperature, be readily adapted to meet the changes in weather conditions, be easy to clean, and be well ventilated.

Chickens are usually left in the incubator from 24 to 36-hours after hatching, without feeding, before they are removed to the brooder, which should have been in operation for three or four days at the proper temperature for receiving chickens. A beginner, says the United States department of agriculture, should try this brooding system carefully before he uses it. After being placed in the brooder the chickens can

be given feed and water. Subsequent loss in chickens is frequently due to chilling received while taking them from the incubator to the brooder. In cool or cold weather they should be moved in a covered basket or other receptacle.

Brooder houses should have from one-half to two inches of sand, dry dirt, cut clover, or chaff spread over the floor and in the brooder pen. The houses should be cleaned frequently, as cleanliness is essential in raising chickens successfully.

When chickens are first put into the brooder they should be confined under or around the hover by placing a board or wire frame a few inches outside. The fence or guard should be moved farther and farther away from the hover and discarded entirely when the chickens are three or four days old or when they have learned to return to the source of heat. Young chickens should be closely watched to see that they do not huddle or get chilled. They should be allowed to run on the ground whenever the weather is favorable, as they do much better than when kept continuously on cement or board floors.

Name Country Club Committees of Year

The board of directors of the Wayne Country Club met Thursday evening at the First National bank and A. T. Cavanaugh, president of the club, appointed the following committees for 1924: Memberships, C. H. Fisher, chairman, C. E. Wright, F. G. Dale and J. S. Horner; grass, W. E. Van Suggden, chairman, F. S. Morgan, J. W. Jones and Clyde Oman; house, Mrs. J. W. Jones, chairman, Mrs. C. H. Fisher and Mrs. A. B. Davis; program, F. S. Morgan, chairman, J. J. Ahern, H. B. Jones and E. H. Hufford; finances, C. M. Graves, chairman, C. H. Fisher, J. H. Kemp and H. Hahn; and ladies' activities, Mrs. L. A. Fanske, chairman, Mrs. E. W. Huse, Mrs. E. E. Gately, Mrs. W. K. Smith and Mrs. E. E. Lackey.

Holstein Firm Sells Stock.

Winnebago, Neb., April 5.—The Walhalla Holstein association, conducted for some years at Walhalla under the management of C. W. Mathewson, is selling its purebred Holsteins and going out of business. The association owned about twenty head of registered dairy cows, most of which have been sold. One of these held the state record for the production of milk per year and the reason for discontinuing the business is the difficulty in securing efficient help, Mr. Mathewson states.

Allen Enters Prison.

Lincoln, Neb., April 5.—Arthur S. Allen, former Lincoln county clerk, convicted of forgery and embezzlement of public funds and sentenced to serve out to five years in the state penitentiary, arrived at the institution here today and was dressed in. He was brought to Lincoln by Sheriff L. L. Berthe, of Lincoln county. Prison officers said he would probably be assigned to clerical work.

Find Skull of Indian Warrior.

Omaha, Neb., April 5.—Frank Caswell, 18, son of Mr. and Mrs. Fred Caswell, Bellevue, who was carrying a cello beneath his house, came upon a perfect human skull. Strewed about in the earth were many bones. Robert F. Gilber said in his opinion is the skull of a Pawnee warrior that lived and roamed the forest near Bellevue some 200 years ago or more.

Prison Reclaims Escaped Man.

Lincoln, Neb., April 5.—C. F. Kneib, 32, pleaded guilty before District Judge Moore to a charge of escaping from the state reformatory and was sentenced to 1 to 10 years to run concurrently with his previous sentence of one to two years for breaking and entering. Kneib left the reformatory December 5, 1922, and was rearrested at Wichita, Kan.

Former-Husband Thanks Pastor.

Columbus, Neb., April 5.—W. A. Justis, convict husband of Mrs. Elizabeth Justice, was buried here last week after taking poison, has written a letter of thanks and good resolutions to Rev. T. M. Pyle, pastor of the First Baptist church, who officiated at the young woman's funeral. Justice is serving a term for forgery in the Missouri state prison.

Pilger Bank Closes.

Pilger, Neb., April 2.—The First National Bank of this place closed its doors this morning to a great shrinkage of deposits and frozen paper were given as the cause. E. H. Schaberg was president of the institution and R. B. Crane, its vice president. Deposits were given as \$241,000 on the bank's last statement. Mr. Schaberg is a resident of University Place, a suburb of Lincoln.

Urges Forest Protection.

Lincoln, Neb., April 5.—In response to a request from Jay Higgins, Halsey, Neb., supervisor of the Nebraska national forest conservation, Gov. Bryan announced today he would issue a proclamation urging cooperation of Nebraskans in observance of forest protection week, April 21 to 27.

Firemen After Recruits.

Wynot, Neb., April 5.—The members of the Wynot fire department had a recent meeting resolved to take more members into the organization and to stage various entertainments in the near future to stimulate interest in the department and for the purpose of finance.

Burglars Loot Drug Store.

Wynot, Neb., April 5.—Burglars evidently of the amateur type, forced entrance into Schulte drug store here and escaped with a quantity of cash, watches and cigarettes. No clues were found.

idges delegates to the polls and then pick them out of the ballot. As we expect the ballot did not carry enough information to enable people to vote according to intentions.

Store clerks should not be violently active, but they ought to stir around and make enough noise to smother the ticking of a clock. If one hears a clock measuring off time he gets the impression that nothing else is happening. For business houses, we are against clocks that have cut-outs of trip hammer attachments, but in case such a fixture is permanent and can't be dispensed with, its noise ought to be submerged even if it is necessary to haul in a rock crusher.

The returns are sufficiently in to end harrowing suspense over the candidacy of J. P. O'Droney for delegate to the democratic national convention and give assurance of his complete victory over all opposition.

New-Hartington-lets have the red fire. And when the northern sky is lit up by sheets of flame and bursting bombs, the display should not be mistaken for the Aurora Borealis or a naval battle on Bow Valley creek. It will be Hartington hailing high Heaven to witness the triumph of its leading citizen.

An observing citizen ventures the opinion that the middle west has developed people of superior intelligence, character and power of achievement because they came here hard up and had to get into the harness and work and produce. It may be added that nature furnished a climate that makes people rugged and ambitious, and provided resources that are abundant-enough, but that had to be subjected to much painstaking energy to be turned into advantage. There is nothing in this mid-western climate to cause one to sleep on the job. One can't pick someone out of the ground or off the trees without previous effort. People have had to employ their muscles and brains, and the consequence has been the development of fine citizenship, great resourcefulness and surpassing energy.

Youthful dreams differ very much according to environment, reading and training. At some time, most boys dream of pirates. A boy expects to be a pirate or a pirate hunter. A scholarly gentleman explains that he read a great deal about pirates when he was young and that at one juncture he resolved to buckle on the armor of a knight and go forth to serve society by capturing its piratical enemies. During a period when he was hungry all the time, he dreamed of running a store, so he could eat at frequent intervals.

Practical and constructive effort.

PARTIES AND PUBLIC POLICY.

Some qualifications necessary to our form of government, but they should not be allowed to interfere with and retard public service or constructive stationing for the benefit of the people or for an against a measure or an individual because of party affiliation rather than because of intrinsic qualities. We have neglected the ourselves long ago to think more of party labels than of public policies. While there is a growing tendency on the part of the majority to desert party lines, leaders usually still adhere to party regularity.

For instance, the tariff has been the football of party politics, whereas it is a sectional problem and should be handled scientifically, according to supply and demand, here and abroad, unhampered by party prejudice. A republican who is for or a democrat who is against any kind of tariff is narrowly partisan. Any tariff that is not a compromise favors one section of the country to the detriment of another. A tariff wall that protects giant manufacturing industries that don't need protection, without helping the farming communities of the middle west, is discriminatory and unjust. What we need is less politics and more sound statesmanship in handling vital legislation like the tariff.

The primary law is another public policy which is generally accepted as inevitable but of doubtful value. It was adopted to get rid of objectionable features in the convention system. It has resulted in a large number of renegades and impostors to those things as candidates for offices, and notwithstanding the costly effort to inform people, it largely results in guess work and selection of nominees. No matter how well fitted for a public trust a man may be, he needs a barrel of money if he is to become a candidate with any hope of winning.

The tariff, the primary and other questions of public policy should be determined by rules of praeftability and not altogether by the traditions and theories of partisan politics.

1,000 Pounds TROPICALLY Ripened Bananas

On Sale Friday and Saturday, 11c Per Pound

This is a saving of over 25 per cent on perfect fruit. Let's have your banana business Friday and Saturday. Can please you in both price and quality, 11c per lb.

Carload Semi-Solid to Arrive Friday

Barrels, half barrels, kegs and fifty-pound pails. Do not deprive yourself of increased and quicker gains by being without Semi-Solid. Can you mention one item that's come into its own and created a world wide equal to Semi-Solid? Semi-Solid sells in Germany, France and England at 8c per pound. In Wayne it sells for \$3.85 per hundred. The foreigner uses it for the same purpose as the Wayne county farmer—to create health, and vitality, a faster gain and shorter feeding period. If you are in the hog or poultry industry, you can't afford to be without Semi-Solid. 500 lbs. Semi-Solid dilutes to 2,500 gallons which can be fed with efficiency. For chicks and laying hens feed Semi-Solid just as it comes from the barrel. Secure your requirements Friday on arrival of car.

1,000 Pounds Free Semi-Solid Saturday

Bring your container—every family will get ten pounds free of charge. We suggest this be fed to chicks in wood or stone containers (no metal) or better yet, spread on a board and suspend high enough to force exercise by jumping. Don't forget—next Saturday is free day on Semi-Solid.

Quality Baking Powder

DANGERS OF A COLD
Wayne People Will Do Well to Heed Them.

Many had cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Pills at the first sign of kidney trouble. Follow this Wayne resident's example:

Mrs. J. L. Soules, says: "A cold settled on my kidneys and put them in a badly disordered condition. The muscles of my back were stiff and my kidneys were so sore and weak I could hardly get through my time. Many times it was impossible to get a night's rest on account of the worn-out and miserable condition of my back. A friend told me about Doan's Pills. After using Doan's I bought at the Wayne Drug Co. I was much better in every way. I haven't had to use Doan's for some time."

Doan's Pills at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Soules had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

In Position for a Chiropractic Adjustment

Health will Come if You Will Stick

This is an assertion which we can prove. Nothing equals Nature in making us well and keeping us well. Chiropractic and Nature are in accord.

Chiropractic is scientifically and morally right, and in a few years will be legally right in every state in the union.

Chiropractic has no need of medicine, surgery nor osteopathy, hence Chiropractic is not any of these.

The fact that many find immediate relief from Chiropractic vertebral adjustments proves that pressure on nerves is the cause of disease.

Frank Lockwood of Wakefield was killed April 28, 1904, when he was crossing a bridge with a tractor engine. Lockwood was running a sawmill and was moving to Wayne county. The approach of the bridge gave way and Mr. Lockwood was caught between the engine and tender of the machine. He was 40 years old and unmarried. Almon

Samuelson, engineer for Mr. Lockwood, sustained a broken leg.

From Ponca Journal, April 8, 1884:

The river was so full of ice yesterday that no mail was got across, probably from the effects of some gorge giving away above.

Gravel walks are a good thing and a walk is really needed it is as well to take the mud off 'the gravel' as to venture to travel one of them.

Good board walks are blessings as well as ornaments to the town, but the Lord save us from gravel!

The Omaha Indian reservation lands embraced in townships 24 and 25 north, of ranges 6, 7, and 8 east, will be thrown open to settlement on Wednesday, April 30, at 12 o'clock noon, under the terms heretofore published.

In the case of James Crawford against the town of Ponca, which was tried before the district court at this place last week, the jury rendered a judgment in favor of the plaintiff for \$1,000.

The evidence in the case it appears that in the spring of 1879 James Crawford, then living in Wayne county, came to Ponca and in the evening fell off the end of the walk along the building which is now the skating rink.

Where he fell the walk came to an abrupt termination at about three feet from the ground, by a box on the ground which was used as a step.

It was a walk put in to get to the county offices which were then in the back part of the building, and not for general travel down the street, there being a good walk on the other side for that purpose.

It was further shown that James Crawford was seriously injured and claims to have had two ribs broken. He was helped up and walked with assistance down to the Central hotel, where he went to bed without medical attendance, and next day rode to La Porte, 35 miles, on a load of wood.

The next morning medical attention was called, and it was decided that two ribs had been broken. The point on which the town makes its defense is that the ribs were not broken—and that he did so, pass two nights and ride 35 miles on a load of wood, before it became necessary to summon a physician.

Easter Greetings

At this time of the year when all Nature takes on new form and more resplendent garb—when she begins life anew, it is fitting that we turn our thoughts to the betterment of both our spiritual and physical welfare.

Unlike Nature we cannot again return to the Springtime of life. But, like Nature, we can during the Springtime of life prepare for the Fall and Winter that are to follow.

Are you preparing—are you laying aside something for your Winter?

A Savings-Account is the finest thing in the world to lean on in later life. Start it now while your earning capacity is greatest. Make up your mind that you will be independent in later years. Putting aside a certain amount each week is the very foundation of all success.

This Bank offers you its complete service—rounded out by years of experience and will be glad to offer suggestions as to the proper plan for you to pursue in establishing a competence for later years.

Conkey's Butter Milk Starting Feed
is doing wonders for the chick industry in this community.
It Saves the Chicks—Scores of Housewives Vouch For Conkey's Food
Vouch For Conkey's Food
Thousands of Chicks Die from Improper Feeding
Raises Husky Chicks

This superior chick mash was the first commercial poultry feed containing buttermilk—that is why we call it the only original buttermilk starting feed. Conkey's did not "just happen"—it is a scientifically-balanced feed as clean and wholesome and as conscientiously-prepared as "infant food." Selected, whole grains, ground to proper fineness, are combined with other ingredients so as to make the feed readily digestible, palatable and nutritious. Taste it, smell it, that's the way to judge a chick feed.

Conkey's carries buttermilk in just the right proportion as an aid in prevention of bowel troubles, White Diarrhea, "leg weakness," etc. The buttermilk is Semi-Solid buttermilk, blended with the other ingredients by the original process in such a way as to preserve the appetizing, tonic, and other properties of the newly churned product.

Feed It First Eight Weeks

Conkey's is all the chicks need the first eight weeks except greens, charcoal grit, clean water and some fine scratch grains in the litter for exercise. Give grit and water from the start. During the second week add green stuff and in the fourth week finely cracked grains, like Conkey's Chick Grains.

Don't be influenced by "cheaper imitations" labeled "buttermilk"—that word may be used to cover up a multitude of "stuffy" grains, mill sweepings, poisonous weeds, musty screenings or worthless by-products having little or no nutriment value.

Workings of the Esch-Cummins Law
As Viewed by Our Patrons

In a recent speech made by Mr. P. R. Wigton, Commissioner of the Traffic Bureau, Chamber of Commerce, Watertown, South Dakota, before the Rotary Club of Watertown, he said, among other things, as follows:

"Under the operation of that law (Esch-Cummins) we have seen a great recovery and improvement in railroad transportation. In a matter of service the railroads are rendering a performance heretofore unequalled, although the only fair test of this law has been during the year 1923.

"During the past year the railroads have handled the greatest volume of tonnage in their history, and that in an expeditious and satisfactory manner.

"There was practically no shortage of cars or equipment evident during the past heavy shipping season, a condition which has not existed since the war; there was no general embargo at terminals due to congestion and inability to move freight, and there were no serious delays to shipments due to lack of proper functioning of the transportation machine, all of which means dollars in the pockets of shippers.

"For these reasons I place adequate transportation ahead of cost of transportation.

"To have our freight rates and passenger fares cut in half would help us little if the service were to be likewise curtailed and made uncertain and unreliable. Ideal transportation is adequate transportation at the lowest possible cost.

"Everyone is more or less familiar with the condition of the railroads when turned back to their owners after Federal Control. They were depleted in finances, undermined morally and their operating equipment reduced to a point of famine.

"Tonnage offered the railroads for transportation has increased so rapidly that constant additions to equipment are necessary to meet the growing demand.

"Very little equipment was added during the 26 months of Federal Control and the existing equipment was permitted to deteriorate.

"Drastic action was necessary to recover from this condition and such action was accomplished by purchasing and putting into service over 4,200 locomotives and over 200,000 new freight cars during the year 1923.

"That is the principal reason why we did not suffer from car shortage during the past year."

This statement by Mr. Wigton pertaining to the Transportation Act (commonly known as the Esch-Cummins Law) is so interesting that we are giving our patrons an opportunity to read it.

W. R. Ellis Speaks In Behalf of Boys Here

Following the noonday luncheon of the Kiwanis club Monday, Orin Main, from Shanghai, China, guest of his aunt, Mrs. Winifred Main, was introduced and made a brief talk. He was followed by the speaker of the day, W. R. Ellis. Mr. Ellis spoke in behalf of more direct and personal interest in the development of the boys of the community. He told how a man's influence had materially helped shape his course in early life and emphasized the fact that words of counsel and encouragement at the right time mean much in the development of character and in the building of useful lives. His talk made a favorable impression and promises to result in constructive effort along lines suggested.

Weston Hughes Dies In Wayne on Friday

Weston Hughes who farmed in the Wayne vicinity for many years, passed away here on Friday, aged 48 years and 4 days. His home was at Newcastle, Neb. He leaves his wife and one son, Dornth Hughes, three stepsons and one stepdaughter, his mother, Mrs. A. H. Dyatt of Wayne, and four brothers, Joseph M. Hughes, W. E. Hughes and G. W. Hughes of Wayne, and Pinney Hughes of Chicago. The deceased had been failing in health since Christmas.

Congressman Howard Reports Interview

Congressman Edward Howard in his Columbus Telegram: "I entertained in my office this morning an agreeable gentleman from Wayne, Nebraska, Senator John Bressler, who has just returned from a tour of Europe. He visited many countries and gave vivid pictures of conditions as he found them. He said the thing which impressed him most unfavorably in all sections of Europe was the presence of military people everywhere. It looked to him like there were almost as many soldiers as civilians in some places. He said that the European

ans were always talking about the time when America would take a hand in the politics of Europe by becoming a member of the league of nations. I asked Mr. Bressler the direct question: "Do you believe America ought to become a member of the league of nations?" Promptly he replied: "Not until after the nations of Europe shall first have decided to abandon their preparations for war. In all my travels I found people apprehensive of an early war. They did not agree just what nations would be involved in the war, but they did agree that war is not far away. I want the United States to do everything possible for the peace of the world, but it will be idle to talk about world peace while all the nations of Europe are adding to their military equipment in anticipation of war with some of their neighbors." I was impressed by the earnest manner in which Senator Bressler protested against American interference in the diplomatic and political brawls of Europe, and I quite agree that he is right when he advises the United States to keep out of that mess until the Europeans shall begin trying to establish peace among themselves, and sure there can be no such thing as permanent peace in Europe while each nation is madly trying to make its own army larger than the army of its neighbor nation.

New Bank Has Been Organized at Pilger

Pilger, Neb., April 8.—Following the failure of the First National bank here last week, a new institution has been organized under the name of the Pilger State bank by Emil Folda of Clarkson and his associates. Mr. Folda, who is a member of the guarantee fund commission and president of three other banks in Nebraska, will act as president of the new Pilger bank. James Zoubek, of the Stanton National bank, will be vice president and Fred Jelinek of the Clarkson State bank will be cashier, and will move to Pilger to have active charge of the new institution here. This makes the sixth "Folda" of Europe. He visited many countries and gave vivid pictures of conditions as he found them. He said the thing which impressed him most unfavorably in all sections of Europe was the presence of military people everywhere. It looked to him like there were almost as many soldiers as civilians in some places. He said that the European

ing that the new Pilger bank will have strong backing.

Are in Auto Accident.
West Point, Neb., April 8.—E. M. Bauman, president of the Community club, met with an accident Sunday morning while driving on the Pender road. While endeavoring to close the door of his sedan car for the moment, he lost control of the machine and went over a steep grade. The car turned over on its side breaking a window and slightly denting the body. The family was in the car but besides his son, Paul, being cut on the hand no one was seriously hurt.

 We will attend the evangelistic services at the Community house for the evening meeting.
 There are many reasons for estab-

lishing the family altar. Here are some of them: (1) If you begin the day with prayer you will go forth to your daily tasks with a cheerful heart. (2) You will have strength to meet the discouragements and disappointments that may fall to your lot. (3) The family altar will sweeten home life and enrich home relations as nothing else can do. There are other reasons. Watch for them in this space next week.

English Lutheran Church.
 (Rev. J. H. Fettehoff, Pastor.)

Methodist Episcopal Church.
 (Rev. John Grant, Chick, Pastor.)
 Sunday school at 10 a. m.; Conrad Jacobson, superintendent.
 Epworth League at 7 p. m.; Prof. Jacobson, leader.
 Public worship at 11 a. m.
 The pastor has decided to give another sermon on the series "This Present World" next Sunday morning, under the theme "A World-Embracing Program."
 Remember that our church is cooperating in the evangelistic meetings at the Community house; so there will be no preaching at our house of worship next Sunday night and no mid-week meeting next week. Let's all turn out and help boost the revival.
 Mr. D. E. Brinard will be the four minute speaker next Sunday morning, speaking on the goodwill industries of the church.
 Three persons were baptized; one

received into preparatory membership, five into full membership and four by certificate of transfer at the morning service last Sunday. We welcome them all.

Our district superintendent, Dr. E. D. Hull, will be with us to conduct the second-third session of our quarterly conference next Monday night, April 14, at 8 o'clock.

The Epworth League contest for membership and attendance began last Sunday night and all our young people are invited to enter into it.

Envelopes will be given out next Sunday morning at the Sunday school and preaching service for the Easter week offering for the benevolent work of the church.

\$200 to \$400 Saved

On This Light-Six Touring Car

By our matchless facilities—our enormous production

HERE is a car priced at \$1,045. Built by ordinary methods it would cost you from \$200 to \$400 more.

It is in scores of ways the leader of its class. No rival car compares in the value that it offers. Let us tell you how we give that value, then urge you to see this car.

A sensation

Studebaker is today the world's largest builder of quality cars. Studebaker success is the sensation of Motordom.

Sales have almost trebled in three years. Last year, 145,167 people paid \$201,000,000 for Studebaker cars.

There are tremendous reasons for this rush to Studebaker cars. And every man who buys a car should know them.

72-year traditions

The Studebaker name has for 72 years stood for quality and class. To build an ordinary car under that name is unthinkable.

Our assets are \$90,000,000—all at stake in serving you better than all others.

We have \$50,000,000 in model plants, equipped with 12,500, up-to-date machines. We have 23,000 workers, under profane-sharing plans which lead them to stay and develop.

We spend on engineering \$500,000 yearly. We employ 1,200 men to give 32,000 inspections to each Studebaker car in the making.

We are lavish

We are lavish in things that count.

Table with columns for LIGHT-SIX and SPECIAL-SIX, listing car models and prices.

We pay 15% bonus on some steels to get them exactly right. We use genuine leather in our cushions. We use cured hair.

We use more Timken bearings in this Light-Six than any competitive car within \$1,500 of its price.

Our bodies are beautiful creations. The finish and-coach work show the final touch. But we build them in \$10,000,000 body plants of our own, and pay for these extras in savings.

Where we save

We save by enormous production—150,000 cars per year. Our major costs are all divided by that enormous output. It is utterly impossible for smaller makers to compete.

We save by modern plants, mostly built in the past five years. We save by up-to-date machines. By building our own parts and bodies.

See what this car offers

Come see what this Light-Six offers. How it excels in scores of ways any rival car.

Built with the same steels, the same car and skill, as the costliest of our cars. We have only one grade of chassis.

See its beauty, its comfort, its luxury. See how it shows one single point in a closed car which measures whether you're getting top or medium quality. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rate at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon below.

Send for the book. Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car. For instance—

It will enable you to look at any car and tell whether it's been cheapened to meet a price or offers true quality.

It will tell you why some cars rate at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free. Clip the coupon below.

Studebaker Light-Six Touring Car—\$1,045

Same steels as we use in the costliest cars we build. More Timken bearings than in any competitive car within \$1,500 of this price.

Genuine leather cushions, ten inches deep. Cured hair filling. All steel body.

One-piece, rain-proof windshield. Attractive cowl lights. Standard non-skid cord tires. Transmission and ignition locks. Perfect motor balance. Curtains that open with the doors.

By far the greatest value in this class.

Mail coupon for book about it

We machine all surfaces of our crankshafts and connecting rods, as was done in the Liberty Airplane motors. No other maker of cars at our prices does this. The result is that perfect-motor-balance, lack of vibration and long life.

Acute Diseases Relieved

Chronic Troubles Unnecessary

The cause of acute diseases, such as fevers, colds, inflammation, etc., is easily located and the nerve pressure readily relieved. In all acute cases the trouble is traced to a displaced vertebra in the spine which interferes with the nervous system of the body. Desired results are more readily realized for acute diseases than chronic trouble. The human body is a living mechanical nerve machine, liable to become injured by accidents, shocks, jars, falls and twists, which may displace some vertebrae in the spine. In acute ailments, displacement is of short standing and degeneration of tissue and depletion of nerve strength have not taken effect.

I will also relieve you of your chronic trouble. Take a new lease on health and enjoy the bright springtime.

Local Pastor Speaks Over Radio Sunday

Rev. E. G. Knock of the Salem Lutheran church, spoke Sunday afternoon from the WVAW broadcasting station in Omaha and many in Wakefield, and vicinity enjoyed hearing him. The program was given by the "Come Into Me" and "I Know the Conference of the Augustana synod and Rev. Knock is president of the conference.

This program Sunday included the following numbers: Piano solo, "Valse" and "Hungarian Rhapsodie No. 6," Prof. Nelson Johnson; solos, "Come Into Me" and "I Know My Redeemer Liveth," Miss Effie Johnson; songs, "And the Glory of the Lord" and "Hallelujah," by the vocal soloists from the oratorio, "The Messiah," by the chorists of Luther college in Wahoo; sermon by Rev. E. G. Knock; songs, "Stridborn" and "For God so Loved the World," by the oratorio chorists; vocal duet, "Crucifix," Rev. and Mrs. N. E. Kron; "Lead, Kindly Light," Rev. N. E. Kron and Dr. F. A. Linder; after solo, Mrs. N. H. Boyce; Pearson; vocal solos, "Light" and "Psalm 91st," Mrs. O. A. Henry; ser-

mon by Rev. O. A. Henry of Immanuel Lutheran church in Omaha; vocal solo, "My Prayer," Rev. C. G. Anderson; vocal solos, "The Voice in the Wilderness" and "It Was for Me," Mrs. J. Martin; and vocal solo, "Jerusalem," Rev. N. E. Kron.

Again Elected for State Church Office

Rev. E. G. Knock who has been president of the Nebraska conference of the Augustana Lutheran Synod, was re-elected Thursday to the office at the state meeting held in Omaha last week. This gathering in Omaha was the thirty-eighth annual conference. Rev. Knock's reelection speaks well for his most efficient administration the past year. Rev. C. O. Gulien of Swedeburg was chosen vice president of the conference; Rev. A. P. Westerburg of Astell, secretary; and Gust Mitten of Wahoo, treasurer.

Speaks of Mission Work With Persians

Mrs. Boyce who is a teacher in a girls' school in Teheran, Persia, spoke Sunday evening in the Presbyterian church regarding her work in Persia. She has been in charge of the program and Mrs. Boyce went from here to Randolph to attend the meeting of the Nebraska Presbyterian conference. The history of Persia is glorious, Mrs. Boyce stated. Schools for boys and girls are maintained there and religious principles are taught through the schools. The Presbyterians have charge of mission work in northern Persia and the English are in charge of the work in the south of the empire. Girls and boys are in separate schools which now have twelve grades. The bible study course is the strongest in the schools and through it a great amount of welfare work is being done. The nobility, the Mohammedans, cabinet officers and all others who would naturally oppose the schools send their children to them

because of the excellent training given. The priests in all the religions in the country say that there is nothing like these schools maintained by the church for educational advantages.
Graduation day for students is even greater than wedding day because all girls are married and few are graduated from the schools. Pupils give orations in Persian and English when they receive their diplomas.
A new educational college is to be begun soon at Teheran. A sixty-acre tract of land has been bought and the school building will cost \$100,000. Teheran is a city of 300,000 population and has no electricity, no railroads, no water system.

Persian finances have been in hard circumstances lately. Of \$11,000,000 of taxes \$3,000,000 was all that finally reached sources for the government. The remainder was used in graft. Expert financial men have been invited to go correct from the United States to help correct affairs and much is being accomplished.

Mrs. Boyce's husband is studying for his doctor's degree this year at the University of Chicago. He is principal of a boys' school in Persia.

Miss Edith Carter, until school is out here; then the five will start for California by automobile.

Clifford Carter, son of Mr. and Mrs. Nels Johnson living northwest of Winside, was pleasantly surprised Saturday evening when about fifty

of his friends came to remind him of another birthday. The Brugger orchestra, assisted by the Smith and Swanson musicians, turned music for dancing. Luncheon was served at a twenty-five enjoyable evening.

At last week's party, the hostesses of Margaret Frick, took well filled baskets to her home Friday evening and proceeded to celebrate her eighteenth birthday. The surprised hostess proved equal to the occasion and entertained her guests with various games. She was presented with a pretty vanity case. Contents of the lunch baskets furnished sandwiches, coffee, salads and cake for luncheon.

The Royal Neighbor lodge met Friday evening in the I. O. O. F. hall with twenty-six members present. After the regular business meeting the entertainment committee, Mrs. A. E. Hutchins, Mrs. Jess Witte and Miss Mamie Prince, divided the guests into groups of four, each group to sing a song. The prize was won by a trio, Mrs. Harold Neely, Mrs. H. S. Moses and Mrs. Walter Gabel. Several other contests and games made an enjoyable evening.

Nebraska's Third Industry

In Nebraska every year 15,000,000 fuzzy, toddling little chicks grow up into great flocks of clucking, cackling, crowing hens and roosters.

Poultry raising ranks third among the industries of the state.

The average annual income from the sale of Nebraska poultry and eggs is \$35,000,000, or nearly half the value of the state's average annual wheat crop.

Poultry raising and other Nebraska industries are steadily growing, and as the state grows more and more local and long distance telephone service will be required.

To keep step with Nebraska's growth, the Bell System must spend about three-fourths of a million dollars annually for new telephone equipment in this state.

In order to provide for the growing demands for telephone service, vast sums of money must be obtained constantly from investors. Nearly half a million people already are financially interested in the business. We shall be pleased to have you, also, as an investor. Our Manager or any telephone employee will gladly give you full information about Bell stock or bonds.

As Nebraska prospers, the telephone is successful. Therefore, we constantly strive to provide a stable telephone service and the lowest possible charges consistent with reasonable wages to employees and a fair return on the money invested in the business.
