\$30,000 in Hidden Values

The five-point insulation is only one of the concealed qualities of the Herrick. There are other features not found in ordinary refrigerators but absolutely necessary to good refrigeration.

HERRICK REFRIGERATOR

These features—the insulation and structural features—cost the builders thousands of dollars per year extra. But these extra values do not increase the selling price.

Cost Kept Down More than a quarter of a century of experience has uncovered manufacturing short-cuts—methods that lessen the labor and reduce the cost.

No Mold, Taint Nor Decay

Dry, purified air is constantly in circulation through an iced Herrick. This keeps food from spoiling. It eliminates the conflicting currents of warm and cold air which cause moisture.

It is this moisture in ordinary refrigerators that causes mold and decay. But foods can remain in the Herrick indefinitely without spoiling.

It is time to begin freshening up the appearance of the town. Beating sunshine and whipping winds cause ill effects that need to be covered with paint.

Fordyce Man Hunting Wife Who Left Home

Norfolk Daily News, April 23—Because her mother is seriously ill, Mrs. Anna Meirose is being sought and is asked to return to her home at Fordyce, says her husband, C. Meirose, who was in Norfolk seeking his wife.

Mrs. Meirose left her home at Fordyce in company with Ralph Hill, who claims Harrington as his home, about 10 o'clock Monday evening, following a dance at Fordyce, her husband says.

After her departure, her mother, Mrs. Mary Schoenfelder of Dimock, S. D., was called. She shortly thereafter informed of the situation causing a nervous breakdown and she is now in a serious condition and wants to see her daughter at a time.

The elopers are believed to be traveling in a seven passenger Buick touring car.

The woman is described as five feet and three inches tall, 105 pounds, black hair, brown eyes and is 22 years old. When last seen she was wearing a blue suit.

The man is of slim build, about five feet and seven inches tall, weighs about 135 pounds and has light brown hair.

Police are being asked to hold the couple if seen.

Methodist Church Notes. (Rev. H. M. Murten, Pastor.) The special post-Easter meetings began Sunday. Evangelist R. A. Richmond of Lincoln is in charge of the campaign.

Mr. Richmond is continuing his series of meetings for Norfolk district and recently concluded very successful meetings at Beemer, Walthill and Ponca.

One of the special features of the campaign will be the emphasis which will be placed upon the introductory services. There will be a half hour of preaching the sermon given over to community singing, speaking, special music, instrumental and vocal.

These contributions will be taken from the community at large.

Next Friday night is to be "patriotic night." A patriotic program of all-night duration will be given. Among the numbers will be Van Dyke's "Home Again," a reading to music by the evangelist.

The subject of the sermon subject will be "Well Diggers," and in the evening, "God's Anathemas."

Tuesday night of next week will be children's school for the young people's night. The married folks will be asked to furnish the music.

Wednesday night of next week will have set apart for the Epworth Leaguers. They will have full charge of the introductory services.

Possibly one of the most important of the special features of the campaign will be held next Wednesday afternoon for "women only."

The evangelist will furnish and serve coffee. This service is for the entire community. Every woman over 18 years of age is urged to come.

The evangelist will tell all unmarried women who they should marry and they should perform the ceremony. Literally

scores of women have said, "that is the best address of a lecture I have ever heard." At Ponca, when the evangelist stepped into the church at 3 o'clock, this service drew a house full of people.

Don't be sorry you missed it; be present next time.

Let us do the best we know how to make people believe us when we say that everybody, regardless of religious denomination, is more than welcome to all these services.

First Presbyterian Church. (Rev. Stephen E. Yamm, Pastor.) Everyone appreciated the fine day on Easter Sunday. The spirit and music of Easter mingled in good services. The flowers, the music, the speaking were in keeping with the day. May the remembrance of our Lord's resurrection reinvigorate our lives for Christian service.

Next Sunday will be another important day in our church life. All the members of the church and all canvass men will be present. It is essential that all members of the church should attend. After dinner the every-member-canvass will be held.

In the morning the pastor will talk about the "Why and How of the Every-member Canvass." In the afternoon the canvass men will be present. To know that we have met our appointment will inspire us of duty. We will renew our motto, "Somebody from every member of the church."

Report of the canvassers will be given at the evening service. Plan to be present at this meeting to help to hasten the kingdom of our Christ.

The Other Fellow's club will hold their banquet Friday evening at 6:30 p. m. A good number of speakers will be given. The speaker of the evening will be the Hon. F. W. Henrichs, a distinguished lawyer of New York.

Nurse Chappelle Says Tanlac Brings Most Gratifying Results

Nurse with 15 years' experience urges use of Tanlac—Tells of best medicine experience with world's famous tonic.

"I have direct and personal knowledge of so many cases where Tanlac has restored health and strength and helped weak, rundown people to feel like the best that nature can be an unusual medicine," is the emphatic manner in which Mrs. M. E. Chappelle, Blue Mount and Thomas Aves, Wauwatosa, Wis., a practical nurse of fifteen years' experience, pays tribute to the famous treatment.

"Time and again I have urged Tanlac's use and it always brings the most gratifying results. My own mother, now eighty years old, took Tanlac five years ago and it has been her standby ever since. Nothing helps her as Tanlac does and she is as strong an advocate of the medicine as I am. Only one breakdown. Tanlac gave her a vigorous return. Her stomach was disordered, her appetite utterly failed her, and she came near having a nervous breakdown. Tanlac gave her a vigorous appetite, corrected all complaints and left her not only well and happy but so strong and active

that she looks after the home and visits around, as well. And mother

thinks the Tanlac Vegetable Pills are the greatest ever.

"In all my long years of experience as a nurse, I have never known the equal of Tanlac."

Tanlac is for sale by all good drug stores and is available on substitute. Over 40 million bottles sold.

Mrs. Ira Hoshaw, says: "I had a severe attack of the grip. My kidneys were weakened and I suffered from dizziness. I had a terrible pain in the small of my back. There was a lameness through my loins and a terrible, burning-down feeling. My head was throbbing and I could not rest at night. My kidneys acted too often. I got a box of Doan's Pills and after taking them, all symptoms of kidney trouble disappeared and they have been any recurrence of the complaint." (Statement given August 3, 1917.)

Before You Buy Hosiery From a Canvasser

Consider These Facts

We can sell you Holeproof hosiery of a better quality at less money, despite the fact that the canvasser will tell you that he can sell his goods at a much lower price because he sells direct from the factory. He neglects to tell you, however, that he receives a large commission on every sale, that his branch and district managers also receive a commission, and so on down the line.

You know Holeproof Hosiery and you know us. Do you know the canvasser and his goods? Can you trust the peddler's word? Some of these agents, for instance, pass off clever but inferior imitations as "Full Fashioned" hose. Home town merchants with a reputation to maintain could not afford such deception.

We carry complete stocks of the famous Holeproof hosiery and can prove that our goods are superior to any canvasser's at every price. And do not forget you need only purchase a pair at a time from us, whereas the canvasser requires you buy at least four pairs at a time.

NO. 990—Mock fashioned, pure thread silk \$1.50 per pair. All the newest shades, a beautiful, durable stocking. All points of wear sturdily reinforced.

Your Next Car

Will be this Light-Six, if you learn the truth

WHEN you buy a car in the "thousand-dollar" class, here are some things you should know.

We made a canvass of men who bought rival cars in this class. And we found that 96 in each 100 bought without knowing those things.

So, for your sake and our sake, we want to present them to you.

Save \$200 to \$400

Studebaker builds 150,000 fine cars yearly. It builds in model factories, is modernly equipped. It has spent \$38,000,000 in the past five years on new-day plants and equipment.

By quantity and up-to-dateness it saves large sums per car. They call this Light-Six, built under ordinary conditions, would cost \$200 to \$400 more.

11.4% less to run

This supreme quality means lower operating cost. Owners of fleets of cars in this class made audited records to prove this.

They compared 329 cars, running up to 25,000 miles each. And they found that the Studebaker Light-Six cost 11.4% less to operate than the average of its rivals. This includes depreciation. The saving was nearly one cent per mile.

The reasons are these

The Studebaker Light-Six, in its chassis, represents the best we know. In steel and in workmanship it is identical with the costliest cars we build.

It is designed and superintended by an engineering department which costs us \$500,000 yearly.

Each steel formula has been proved the best for its purpose by years of tests. On some we pay 15% premium to makers to get them exactly right.

Each car in the building gets 32,000 tests and inspections.

The cranksfats are machined on...

11.4% Less to Run

The Studebaker Light-Six Touring

Read the proof at the side. Built by the leading fine-car-maker, for whose cars last year people paid \$201,000,000. Each car, in the building, receives 32,000 tests and inspections.

Scores of extra values, due to quantity production in a model \$50,000,000 plant.

Built by a maker whose name for 72 years has stood for quality and class.

Built of the finest steels in our motor car building—the same as we use in Big Six.

All surfaces, as was done in the Liberty Airplane Motors. This extra care costs us \$600,000 yearly, but it means perfect balance in the motor.

More Timken bearings are used in this car than in any competitive car within \$4,500 of its price.

There are 517 operations in making this car exact to 1/1000th of an

inch. And 122 are exact to one-half that.

Genuine leather cushions, ten inches deep. Unusual equipment. Scores of extra values.

Made by the leaders

This is one of the cars which has made Studebaker the leader in quality cars. Our sales have almost tripled in three years.

The trend toward Studebakers has become a sensation.

Last year 145,167 people paid \$201,000,000 for Studebaker cars.

Back of this car is an honored name, which for 72 years has stood for high ideals.

Behind it are \$90,000,000 of assets, backed on 100% of assets, steter than others.

Before you pay \$1,000 or more for a car, these are facts you should know and compare. You owe that to yourself.

Send for the book

Mail us the coupon below. We will send you free our new book that will inform you on five simple things which reveal the value of a car.

For instance: It will en-able you to look at any car and tell whether it's been cheapened to meet price or offers true quality.

It will tell you why some cars rattle at 20,000 miles and others don't. It shows one single point in a closed car which measures whether you're getting top or medium quality. The book is free—clip the coupon below.

Mr. and Mrs. Harrington spent the winter at Phoenix, Ariz., where they are conducting the industry of raising grape fruit. It has been supposed that the fruit could only be raised in California and Florida, but the latest reports indicate they will make a success of the venture. Mr. Harrington brought some of the fruit which he picked from the trees himself.
