Methodist Episcopal Church. (Rev. John Grant Shick, Pastor.) Sunday school at 10 a. m.; Conrad Jacobson, superintendent. Epworth League at 7 p. m.; Miss Ruth Adams, leader.

Mid-week service on Wednesday night at 8 o'clock. Public worship at 11.

At the 7:30 service a morning opportunity will be given for parents to have their infants and small children

children baptized; and baptism will also be administered to adults. Reception of members from the preparatory class will also take place. Persons to unite with the church on confession of faith. Following these services the sacrament of the Lord's supper will be observed. A cordial invitation to all to worship with us.

Two meetings have been held recently with a class of preparatory members preliminary to receiving them into full membership. It is hoped that every member of the class can be present to be received next Sunday morning. The members of this class and any relatives who may accompany them, will be invited to take communion together. This should be a beautiful service. Parents and other members of the homes from which these candidates are specially invited to be with us at this service.

At least four little folks were not able to be present to be baptized on children's day so we are announcing baptism for children next Sunday morning. Any parents having children whom they wish to have baptized are invited to be present with them.

Dairying Pays Well in Wisconsin County

Dairy farming in Green county, Wisconsin, has become a profession scarcely noticeable. C. M. Craven, who recently returned from a trip to Wisconsin, tells of the promising conditions there and states that authorities assert that there has been no bankruptcy in the state of Wisconsin for a good many years. An article in the Omaha Herald a couple of years ago stated that Green county was the richest county in the United States and it seems to be living up to this reputation. Little dairy business has been noticed the last year, but its effect has been slight. New Glarus, Wis., a town made up largely of dairymen who have made their money in dairying, is the highest per capita assessed community in the state. Thus it is evident that dairy farming must pay.

Otto Meier Weds Miss Emma Meyer

Miss Emma Meyer, daughter of Mr. and Mrs. K. Henry Meyer of Wayne, and Mr. Otto Meier, son of Mr. and Mrs. Henry Meier of Monroe, Mo., were united in marriage Thursday, June 19, at 2:30 at the Lutheran church near LaPorte. Rev. H. J. Borenmann performed the double ring ceremony in the presence of about eighty relatives and friends. The young couple will live on a farm eight miles southeast of Wayne. The bride wore white silk broad-canton crepe and veil. She carried a bouquet of white roses. The bridesmaids, Miss Erna Barckmann and Miss Johanna Strudhoff, were Ernest Meyer, brother of the bride, and Henry Strudhoff were best men. Following the wedding a reception was held at the K. Henry Meyer home. A sumptuous dinner was served to all the guests. The house and tables were decorated in the bride's chosen colors. The bridal couple received many useful and beautiful gifts.

Bressler Park is Enjoyed by Many

Bressler park in Wayne is a popular place for children and grown-ups alike all summer. There have been as many as seventy-two children in the park in an afternoon and every day the number ranges from thirty to fifty. The children mostly vary in ages from 4 to 18 years and the majority are between the ages of 10 and 14. Miss Frances Beckenauer, who is park supervisor this summer, has charge from 10 until 12 each morning and from 1:30 until 6 each afternoon. In the afternoon she has a supervised play period and a story hour. During the former she instructs the young folks in the playing of such games as baseball and volleyball. The smaller children do constructive work in the sand piles. Miss Beckenauer tells the children stories and allows them to tell their own stories. This makes them interested and alert.

then put into the barns. These small bundles over the field make one think of an army camp. This is a country of diversified farming—as is Nebraska, but dairying is stressed. Many chickens and hogs are raised, but there is very little amount of cattle feeding. The farmers are progressive and industrious. After retiring, farmers continue activities in behalf of community development. It is possible to go from one end of Green county to the other on concrete highways. One of the towns voted \$4,000,000 for paving bonds last year. This prosperity is also shown in the many buildings being constructed. Mr. Craven lived in Monroe, Wis., when he was a boy and he said there were many blocks with only one house. Now there are as many as fifteen houses to a block, this being due mainly to the efforts put forth on dairy farming.

If Green county, Wis., has been slow to develop such an enterprising industry in the resources there, why could not Wayne county add to its financial returns by emphasizing dairy farming? It is a great asset to this community. With the unlimited resources here it seems that dairy farming would offer opportunity to the farmers of Wayne and surrounding counties.—E. H. H.

Hurt in Auto Accident.
 Madison, Neb., June 23.—Mrs. G. Schwartz, living on a farm southwest of this place, was quite badly injured when the car driven by her husband was forced into a ditch to evade hitting another car Saturday evening at the intersection of the Meridian and Upland highways one mile west of town. She was badly cut about the face, one gash about five inches long under her chin was cut to the bone, while another gash was made in her cheek and another over one eye, caused by the broken windshield. It is understood that Mr. Schwartz drove into the ditch to evade hitting two other cars which had met at the intersection in a collision. It all happened so quickly that no one in the damaged car of Mr. Schwartz appears to know very much about it.

Poison Proves Fatal.
 Newcastle, Neb., June 22.—The 3-year-old child of Mr. and Mrs. Lester Bishop, living 5 miles north of here, climbed up and got hold of some medicine containing some strychnine, which was on a shelf, and swallowed enough of the poison to cause its death.

The crucible of revision downward until a reasonable basis of values has been reached.

People of Wayne should appreciate the fact that the forthcoming Independence day celebration, under the auspices of the American Legion, is a good stimulant for the town. The celebration is a good advertiser. It spreads the impression that the town is not a motley organization, but that it is filled with live wires of high voltage.

The railroads have a real problem in their decreased passenger traffic. Automobiles and good roads have more and more diminished use of railway trains. It is especially true that automobiles have supplanted use of trains for short drives.

on serving the popular welfare. Mr. Jones who is carefully discriminating in forming judgments, was strengthened in his already favorable impression of the country's leader.

The adverse criticism appeared in the communication from some outlet in the state who had concluded that the president was controlled by the so-called "big interests." He did not give any good reason for his opinions. At long range and without adequate facts, he just made up the thumbs of some industrial ogre, and yielded to an irresistible itch to say so.

ELIMINATING NEWSPAPERS.

A writer in last week's Saturday Evening Post calls attention to changed conditions in the newspaper field, to the elimination of many publications and to the substitution of the press agent for the star reporter.

Thus, duplication and enormously increased cost of production have made newspapers the only way to diminish serious economic extravagance and waste. From 1914 to 1921, the number of newspapers in the United States rose 50 per cent.

KILLIAN'S Annual Manufacturers' Sale

Sale Starts Friday, June 27
and Ends Saturday, July 5

Here is an opportunity to make unusual savings. This sale, as you know, is an unusual event, established nine years ago, and brings to you hundreds of articles bought underpriced of the manufacturers at their spring clearings. Our buyers have just returned from the eastern markets. The manufacturers' profits have been eliminated. In addition to these, many items from our own stocks which are reasonable and on account of recent bad weather must be sacrificed.

Tanlac a Blessing Says Mrs. Dietz. "If It Didn't Save My Life It Has Certainly Given Me Back My Health." "If Tanlac has not actually saved my life, it has certainly given me back my health and I shall never stop praising it," recently said Mrs. Geo. E. Dietz, 333 So. 11th St., Lincoln, Neb. "For months I had suffered dreadfully from indigestion, pains around my head, smothering sensations and hiccups spells, and was in as bad health as one could be and still keep going. I was nervous almost to distraction, so thin, pale and weak that I was just a shadow, and I thought my days were numbered. "My brother urged me to take Tanlac and the very first bottle made me feel better for the better. Now I not only have my health and strength back but my weight has actually gone up 16 pounds. Tanlac was a blessing to me. "Tanlac is sold up all good druggists. Accept no substitute. Over 40 Million bottles sold. Tanlac Vegetable Pills, for constipation, made and recommended by the manufacturers of Tanlac. 1924
