## Value in Heat

Buying Heat and Buying Coal  
Are Two Different Matters.

There are numerous products from the mines that are sold for coal, but the difference in the amount of heat you get from the different grades of coal is tremendous.

We will tell you when you buy from us just what you can expect in heat value; will advise the proper grade of coal for your equipment.

We may advise a higher priced coal because it gives you heat at less cost.

Evening services at 8 o'clock. The Woman's Home Missionary society had an interesting meeting last Thursday with Mrs. Elizabeth Williams. Contributions of the society to various causes for the year just closing amount to \$170. The auxiliary is to be commended.

The Ladies' Aid is closing the year with an excellent record. Twenty-four new members were reported last Wednesday. They remind one of the story of the old man who started to walk several miles to a neighboring village. "You've walked all of the way," exclaimed a friend. "How did you get along?" "Fine," said the gentleman, "that is, until I found a sign 'slow down to fifteen miles an hour' and that kept me back some." The Aid had a contest for membership and Mrs. Will Jones and Mrs. J. H. Hanson were capturing the former's side gaining ten and the latter's fourteen new members. Mrs. Jones' group will entertain the others and the new members soon.

The Ladies' Aid society serves a chicken supper this Thursday at the church; the proceeds to be used to help the church budget for the year.

Officers of the Ladies' Aid for the coming year are: Mrs. V. G. Williams, president; Mrs. W. H. Hoopl, vice president; Mrs. H. V. Garwood, secretary; and Mrs. Dave Theophil, treasurer.

Nebraska

The Conquered Desert

Napoleon of France needed some ready cash in 1804, and thinking that this part of the country would never amount to much, sold the territory containing Nebraska to Uncle Sam.

As late as 1858, the North American Review spoke of the territory west of Omaha as a "vast desert which can be crossed, if at all, with camels."

But as a desert, Nebraska has not been much of a success. Today the average annual value of the crops from the state's fertile fields, exceeds \$400,000,000, not to mention the state's factory output of more than \$600,000,000.

Nebraska is growing steadily and requires more and more local and long distance telephone service. At the present rate of Nebraska's growth, we must spend about three-fourths of a million dollars annually for new telephone facilities in this state.

In order to provide for the growing demands for telephone service, vast sums of money must be constantly obtained from investors. Nearly half a million people already own Bell System stock or bonds. We shall be pleased to have you, also, as an investor in the business. Any telephone employee will gladly give you full information about Bell stock or bonds; or call our Manager.

As Nebraska prospers, the telephone is successful. Therefore, we constantly strive to provide reliable telephone service at the lowest possible charges consistent with reasonable wages to employees and a fair return on the money invested in the business.
