Market Report

Furnished by Swanson, Gilmore & Walsh, Sioux City Stock Yards.

Oct. 7.—The western rangeland movement for 1925 has apparently reached the flood stage. The first two days of this week brought 240,000 cattle to the 11 leading markets of the country, an increase of 28,000 over the delivery of the corresponding period last week.
At Sioux City the receipts proved the heaviest in history. Over 20,000 cattle arrived the first two days of the week. But strange to say the market fell remarkably well considering the size of the supply, not only here but at other leading centers as well.
The percentage of corn fed material included in receipts at this time is hardly worth more than passing mention. For good kinds the prices range from \$12 to \$15 with ripe feeds quoted up around \$15 and warmed up from \$8 to \$11. Taken all the way through the corn fed mart reflects little change.
For the most desirable of the grass steers to killers the opening week market ruled steady. Excessiveness later took the edge off the deal and the finish was around 25 cents lower by the middle of the week. Treatment of inferior and common material, much of which was offered, was even worse.

Best of the range steers sold over the week fair to good kinds for \$6.50 to \$8.00, ordinary stuff around \$6.00 and plain stuff down to 25.
Butcher cows and heifers sagged about 25 to 40 cents the first half of

the week. The decline resulted more because of increased demand than because of the largeness of the supply. At the decline demands were broad and healthy. Best range heifers stepped up towards \$8, higher with bolognas from \$4.00 to around \$6.50.
Canners maintained a buoyant sale over another week at firm prices. The outlet extended from \$2.50 to \$3.75. Bulls also have been favored by strong demands and are fully 25 cents higher with bolognas from \$4.00 to \$4.75.
The tenth annual stocker and feeder show occupied the center of the spotlight this week. In addition to the show cattle from practically all states between the Missouri river and the Rockies, the ranchers liquidated heavy numbers of western grassers suitable for stocker and feed lot usage. In anticipation of a heavy country call the dealers loaded up and the movement was absorbed without difficulty. Prices were maintained on a steady basis over the first half of the week. Only where the quality was noticeably lacking did the traders insist on a schedule reflecting some minor discounts as compared to the close of last week.

Fancy fresh feeders are worth upwards to \$9.00, but actual tops this week hit \$8.50, although the auction sale on Thursday is expected to bring out some new front figures. Fat to feed thin steers sold from \$7.00 to \$8.00, with ordinary kinds around \$5.75 to \$6.25 and common stuff down to 25, with trash to \$4.00 and up.
Fleshy feeding heifers sold in long strings out of first hands this week to \$6.50. Best thin heifers earned \$5.90, while the bulk of the fat to good heifers sold from \$4.75 to \$5.00.
Hog prices seem to have reached a temporary stopping point after taking the heaviest decline in many months. Best light butchers are worth just over \$12 on the river, with heavy butchers barely able to flirt with that level. Sows are moving

around \$1.00 to \$1.50 under heavy butchers.
On the present basis the outlet seems very uncertain as is indicated by the day to day fluctuations that range from an uneasy harmony with the volume of receipts. Packers appear impatient to force another loss and make no bones about hogs losing money at current prices.
Midweek shows the best of the fat lambs slightly over the \$15.00 level, with feeders around \$14.75 for a week. Prices are from 25 to 50 cents lower for the first half. The reason is found in a 30,000 head increase in the movement to the 11 leading markets the first two days of the week.

Club to Meet Together.
 The five women's clubs in Wayne are planning three big united meetings for this year. The first will be Nov. 9 and at this time Dean H. H. Hahn will read a paper on "Psychology." The second will be Jan. 11 and at this time the program will be a surprise. The last gathering will be Feb. 15 and will be devoted to the worth of the home economics department at the State Normal will speak. As each of the clubs usually asks members of the State Normal and high school faculties for papers, as there are comparatively few members in each club and as the work of preparation of a paper should warrant a larger group hearing these the stated plan has been arranged. Another reason for the united meetings is that all women of Wayne need to become better acquainted. It is felt that many have remained in their small groups and have not had an opportunity to meet others. The meetings will bring the women into a larger group. Two women from each club will serve on a committee to provide a social time at the close of each program.

Robert Stambaugh Travels In West

Robert Stambaugh who just returned from a trip through the west visited many former Wayne people and an account of his journey will be of interest to many here. He first went to Pocatello, Idaho, to visit a cousin and from there went to see other relatives at Aberdeen, called the town of churches. After two weeks here he went to Los Angeles, Calif. and visited with Mr. and Mrs. W. A. Fisher, Fred Stele and Miss John Eliason at Long Beach. The latter has two brothers and he also visited them. He called on the following former Wayne people: G. H. Fortner, Mr. and Mrs. W. S. Goltz and two sons of Wilmington, Mr. and Mrs. M. S. Davies of Wilmington-Breck Livermore, Fred Dean and family, Mr. and Mrs. Oliver Gamble's youngest daughter and family, Mark Jeffries of Santa Monica, Bert Brown of Long Beach and Oscar Kemp of San Pedro. From there he went to San Diego and visited with the Rev. Mr. Eckhart and two sons. Here he saw Dr. H. G. Leisenring. All these cities have fine paved roads leading to them. Mr. Stambaugh saw 2,000 oil wells in the section here. There are many beautiful valleys between San Diego and Portland and the hills are covered with fruit trees.

Mr. Stambaugh went from California north along the coast. He stopped at Live Oak, Calif., with Mr. and Mrs. G. Bannion, formerly of Wakefield. From here he went to Oregon to visit Mr. and Mrs. Elmer Lundberg and son, Louis. He visited in Washington with Mr. Will, superintendent of the government reservation for raising fruit trees. While here a forest fire that covered 1,000 acres spread in this section. He went to Portland and visited Charles Huff. He saw Mt. Shasta, Mt. Hood and Mt. Helens, all snow covered. He saw Henry Gottman who operates a large berry ranch and who moved from Wayne twenty years ago. Mr. Stambaugh visited his brother in Tacoma, Wash. Large new Baptist and Presbyterian churches have been built here and he talked to Rev. Mr. Richmond who was formerly in Wayne. With a party of relatives he visited the government sheep station at North Dakota. At Ryder he visited the J. L. Stenner family, former Wayne residents. He went from there to St. Paul and then home. Mr. Stambaugh traveled

7600 miles and was gone about thirteen weeks. He reports a fine time at every point visited.

Why Red Crown is ECONOMICAL When the first automobiles came to Nebraska, it was the Standard Oil Company of Nebraska that furnished them with gasoline and oil. The experience and growth of the intervening years have brought a knowledge of motor needs and a development of facilities such as your own organization in the state enjoys. All this experience and all these facilities are back of Red Crown Gasoline and make it really the most economical gasoline you can use. It is a balanced gasoline, with just the right proportion of highly volatile low boiling point fractions to give instant ignition and quick starting, even in the coldest weather; together with the higher boiling point fractions that develop maximum heat, expansion and power. This means a lean mixture, and the leaner the mixture the more miles per gallon. Whenever you need gasoline, pull in at the Red Crown sign. You are sure of prompt, obliging, courteous service and full measure of high quality, dependably uniform gasoline. Get the Red Crown habit and save money. NATIONAL CANDY DAY

It's Saturday, October 10th

With few exceptions, every human body must be fed a certain amount of sugar—and Candy is one of the most healthful and most enjoyable forms in which to present it. Good, purely made Candy, such as sold by the dealers whose ads appear on this page, should be encouraged in every household. This is the purpose of National Candy Day. October 10th has been set aside this year by the confectioners throughout America, as a day upon which they can promote and demonstrate the value of this tasteful stuff. Order Candy for the youngsters, it's good for them. Make sure of a box for "her," be it mother, sweetheart or sister. They'll all welcome candy from these stores.

Stewart of Battle Creek, secretary; Lincoln, Neb. Oct. 3.—Preservation of the old home here of William J. Bryan as an everlasting memorial to the late congressman, will be considered by the board of trustees of the Lincoln Methodist hospital, which plans to meet here Wednesday.

The board will also consider changing the name of the hospital to the Bryan Memorial hospital, the site for the institution having been donated several years ago by Mr. and Mrs. Bryan. Favorable action in this respect is looked for by A. R. Talbot, president of the board and long time friend of the commoner.

Furniture and relics in the Bryan home will be left intact, said Mr. Talbot. Those interested in the erection of a Bryan memorial in Lincoln hope to have the home preserved, he said, and to include in it as much as possible of the old Bryan "belongings." This the hospital board is willing to do, "if the people of the state and friends of Mr. Bryan raise enough money to make it possible," he declared.

Action to preserve the home followed the suggestion of Joseph Daniels, former secretary of the navy under the Wilson administration.

In connection with the Bryan memorial, Mr. Talbot said he believed the construction of units to the hospital now under way would be a most fitting memorial to the commoner, especially if a stone monument of the Bryan era were erected in the center of the hospital court as is being proposed.

Mr. and Mrs. Bryan decided their home, known as Fairview, to the Lincoln Methodist Hospital association several years ago. The home was to be used as the administration building,

According to Prof. Tice, this country is to have at 1 o'clock in the morning of Nov. 13th, "the most brilliant display of meteors since 1873."

Houseswood was almost entirely destroyed by fire a few days ago, at a loss of about \$3,000,000. Heavy as the blow was, the citizens have started to rebuild, to rebuild their town. A few weeks hence, the city will be all built up again, and with a few more fine lines of buildings than it had before.

An effort is being made in Connecticut to have her constitution amended so that her citizens will vote only once in two years. People are rightly beginning to believe that frequent sessions of the legislature are of no real benefit, but are an expensive nuisance. We believe that a session once in five years would be still better. In fact, if a state was to have such a legislature as Nebraska was favored with last winter, it would be much better for the people if they did not meet at all.

The basis of Red Crown's POWER

For forty years the Standard Oil Company of Nebraska has been working in this state, extending and improving its service. Born in Nebraska, the company has grown up with the state—grown with its needs because it studied and cared for those needs. It is deep-rooted because its strength is drawn from years of service.

The automobile industry has moved far and fast in all those years, but Red Crown Gasoline has kept step with the changes. It is a *balanced* gasoline, built to definite specifications, with the low boiling point fractions that insure quick starting in the coldest weather and a wealth of the higher fractions that insure maximum heat and expansion—the real driving force.

Do as experienced motorists have done since automobiles first came to Nebraska. Pull in wherever you see the Red Crown sign. There you will receive obliging, courteous, prompt service and full measure of gasoline *balanced* to give quick starts, clean, complete combustion and full power on a lean and economical mixture. *Get the Red Crown habit and save money.*
