Bewildered By Big City Ways

"The Wilderness Woman," the new Robert Kane production for First National at the Crystal theatre on Friday and Saturday of this week, tells the story of an Alaskan miner and his daughter who, having suddenly struck it tremendously rich in the far north, set out for New York. The adventures that befell them when, for the first time, they came in contact with the conventions and restrictions of modern civilization, are productive of the comedy.

Arthur Stringer wrote the story for the Saturday Evening Post, where it appeared as a serial.

In the roles of the rich miner and his daughter Chester Conklin and Aileen Pringle appear attractive advantages. This is Miss Pringle's first comedy part, and she is a different actress from what she has been in the Elmer Clay and vampire roles that have been hers heretofore. Lowell Sherman, usually the villain, appears this time as hero. Others are Henry Vihart and Ruth Cay, and a cute and amusing little bear cub.

Howard Higgin directed the picture under a scenario prepared by Paul Bern and Paul Schofield.

Guatemala Student Has Come To Wayne

Miss Pauline Jove of Guatemala, Central America, has come to Wayne recently from Boone, Iowa, where she completed high school, and she plans to enroll for college work at the State Normal. Miss Jove has been visiting in the E. B. Young home. An interview with her, published in the Norfolk News, is as follows:

Not many American girls who are happy in luxurious surroundings would leave their homes for five years to study in a foreign country to become a high school teacher.

With determination to receive an American college education, Miss Pauline Jove of Guatemala, Guatemala, Central America, who was in Norfolk, Wednesday, came to the United States in 1924 to pursue her scholastic work. Last summer she was graduated from Boone, Ia., high school, and is now planning to enter some college or university.

Miss Jove comes from a prominent Guatemalan family, her mother's ancestors being members of a distinguished lineage. Several years ago Miss Jove made the acquaintance of Miss Fern Honser of Minden, Neb., who is a missionary in Guatemala. There developed between the two an intimate friendship.

One afternoon Miss Jove was chatting with Miss Honser who was teaching in the missionary school called The Garden of Roses. The American woman suggested that Miss Jove go to America, pointing out the many advantages to be gained.

After gaining her mother's consent, Miss Jove, accompanied by an American missionary, came to America. This week the Central American student is visiting at the home of Mr. and Mrs. E. B. Young of Wayne, who were in Norfolk to appear before WIAG's radio family Wednesday.

"Americans are not ashamed to let do any kind of work," Miss Jove said when asked what differences she noticed in Americans from her own countrymen.

Miss Jove says she approves of

bobbed-hair but not for herself. She prefers to retain her dark tresses that have a natural wave.

"I never thought much about them," was her answer to "What do you think of American boys?"

"Your people in this country are so friendly and I have met many kind of people in many American homes that I have visited."

Miss Jove admitted that she was surprised to find all sorts of students mingling together in schools of this country. Before coming to the United States, she attended an exclusive boarding school where only members of distinguished families were enrolled.

She is an attractive girl who possesses all the qualities of refinement. Miss Jove speaks English, French and Spanish fluently.

She does not plan to return home until she has completed her college work. Upon her return she expects to take up missionary work among her own people.

"The singers were accompanied to Norfolk by a number of friends and relatives."

If You Desire a Front Bedroom

Many persons like to have a house with a bedroom at the front. Here is such a plan, so arranged that the living room is made no less attractive than it otherwise would be. The home is in excellent taste and embodies the best of new ideas in residence construction.

The low, sloping roof means a better looking house with less material, and ventilators in the attic remove danger of excessive heat sometimes caused by low roofs. The plan provides for a living room, dining room, kitchen, two bedrooms, a bathroom and a sleeping porch.

Hofstra Will Save Your Chickens From Mites. Without injury to the chicks, you can safely apply Hofstra powder—it will not injure the eyes. The next two months is a critical time. The mites and lice on your chicks will cost many dollars if proper precautions are not observed. Hundreds of housewives have learned the merits of Hofstra. 15c cans, 30c, 60c, \$1.20 packages.	Wheat Market Advancing The lack of moisture has had much influence on the wheat market. The purchase of 5 or 10 sacks of Victor flour may prove a "good buy" at this time. Victor, as you probably know, is not only the best seller, but the best flour obtainable.
Semi-Solid Buttermilk All sizes. Bran, brown or white shorts and rolled oats in original bags.	Picnic Items We have a complete line. If you are going on a picnic, see us first about the "eats."

Wash with a MAYTAG FREE

LET us send you a Maytag. Do a week's L washing at our expense and without obligation of any kind. Let the Maytag prove that it washes a tubful of clothes in 3 to 7 minutes. That it washes the most delicate fabrics as gently as by hand. That it washes greasy work-clothes and grimy play-clothes clean as new.
Let it prove that the satin-smooth, cast aluminum tub keeps water hot for an entire washing. That the tub cleans itself in 30 seconds after the washing is done. That it is easily adjusted to your height and the height of the rinsing tubs.
