## However you travel

Whether by rail, steamship, or automobile, you will find American Bankers Association Cheques the safest, handiest way to carry your money. "A. B. A." Cheques are easy, because if not countersigned they are useless to anyone but the owner. They are convenient, because hotels, railroads, steamship companies and merchants everywhere accept them as readily as cash in payment of bills, and because the only identification needed is the countersignature of the owner in the presence of the person accepting the Cheques.
