to get the finest tone quality

Hear the Radiola 20, before you buy. Hear it in competition with the latest models of any make. If you want clear tone and real music, you will take nothing else at anywhere near its price. It is single-controlled—it has a power Radiotron, for clear volume. It operates inexpensively—with five tubes drawing small current—but doing the same work as more tubes in the set.

It has features new to many sets now—but thoroughly tried, tested and perfected in this Radiola 20. It has far outrun expected sales, and proved its superiority in use everywhere!

It is the choice of many who could easily buy higher priced sets. And, perfected by the engineers of RCA, General Electric and Westinghouse, it is the only buy for the man who has a limited amount to spend for radio and wants to buy permanent satisfaction.

Two new players have been very successfully introduced at the line and backfield are working hard under the direction of Coach Peterson. Although the absence of Dennis at quarter back and Wilson at guard is felt, both of these men will probably be out of the Pilger game, Dennis because of a bad back and Wilson because of a broken rib. Fifteen men made the trip to Pilger.

Mr. Sogesser, aided by Mr. Peterson, is training his midpoints for spectators high school football material in later years. His team played the normal (inter-school) team last Saturday as a preliminary to the college.

First Grade. Mrs. L. W. Vath, Mrs. Martin Ringer and Mrs. A. W. Christensen are the factors in the first grade last Friday.

Mildred Raddatz moved to Lincoln. The A class girls of the first grade, Betty Helen Ellis, Mildred Ringer and Betty Strahan had a perfect attendance record for the first six weeks of school.

WITHOUT MONEY.
 "Can We Get Along Without Money?" Was the subject of a sermon preached by a local minister last Sunday. The speaker pointed out Jesus as one who lived without money, and who immortalized his name and deeds by his manner of living. His life work will be remembered as a helpful influence through all succeeding ages, while rich men without number will soon be forgotten. But a manly steady according to modern style and convenience without a fairly steady influx of shekels would seem quite impossible. Needs incident to existence were less in the time of Jesus and in the country where he lived. He received little sympathy or support for his cause from the rich of his time. But while material requirements are greater in this day, we give too much emphasis to accumulation of money. We too often look to dollars as the reason for service. We should look to serve as one's chief purpose, supported as a natural consequence by adequate material revenues.

Of the frustrated claim by Charley Bryant that a deficit exists in the state treasury, President J. S. Conn of the Wayne State Teachers College is led to suggest in refutation that never in the sixteen year experience of that school has one penny of money been delayed in being sent or paid.

It looks to this department that Governor McMillen has made a veritable and satisfactory chief executive, and that criticism aimed at his administration is unwarranted by self-seeking politicians. We would like to see Wayne county people go to the polls next Tuesday and give McMillen a big vote of endorsement which we think he deserves.

Political candidates seem to be un-animously in favor of the primary. It appears to make them shudder to even think that some ogre might issue the call for general or the undergrowth to assault and cripple it, so that it won't be in working order when the next election rolls around. In the eyes of the voters, the issue of candidates for the primary, we know of no one who would have the heart or hardihood to cast a straw in its path.

An article in the current Literary Digest quotes an eminent physician in regard to injurious tobacco habits. He is foolishly followed by many young girls. The physician says that the habit of smoking makes the young girl prematurely old, giving her a wrinkled face, puffy eyes and a red nose. He points out that besides whiskey mining the health of girls who are weak enough to yield to it. The doctor also denounces use of tobacco, lack of sleep and inefficient methods of reducing weight, as damaging to appearance and ruinous to health.

Charles W. Bryan, democratic candidate for governor, held up the veto power to the gaze of his Omaha audience and shouting his opposition to repeal of the primary law or the bankruptcy law. He leaned on the veto as a last resort, much as one would put a foot on a Gatling gun, to give the presence of a menacing band of Apache Indians. So far as we know all candidates have come out without any feeling or equivocal against disturbing either law, and thus if there is no chance of electing any one of a conflicting state of mind, what's the use of becoming so fearful and excited? Why doesn't this Don Quixote from the land of dunes—of his attack on imaginary opposition to some other law? Why doesn't he take a stand against negro slavery?

A motion picture at the local theatre Monday night showed the natives of an island of the Samoan group, situated 4,200 miles southeast of San Francisco. The people live without any modern conveniences and apparently provide food and raiment for themselves by means of tools from native trees and grasses. As to raiment, Samoan fashion does not demand much in quantity, nor does the little required seem to call for anything in the way of expensive fineries. We were impressed by the intelligent faces of the natives, well shaped heads, sense of humor and muscular

TO FINISH.
 Many people fail in what they attempt because they start but don't finish. It is better to begin a small undertaking and complete it than to introduce some big project and fizzle before you have gone far. We once knew a very ingenious inventor who could work out plans for a wonderful accomplishment, but he never accomplished it, never could bring it to the point of utility and profit. Of course he is like the man here who can do so well for the first quarter and then lies down, leaving another quarter unfinished. Don't you think that is a pity? An enterprise that gives promise of big results, and then the scheme suddenly flashes and goes sour, surrendering to weak knees and deficient backbone. The world needs more finishers. It needs more people who bring plans to a triumphant conclusion and build up a sound workable superstructure. Often all needed to turn the wheel to success is a little more needed is to stick and push. Often a narrow gap remains between carefully laid plans and worthy achievement because of the spirit-splitting lack of determination.

P. S. Beizer of Hoskins, has invented a mail-pouch strap with spring lock. This dispenses with the bunglesome padlock key used.
Miss Bessie Pierson of Carroll, and Miss Bessie Pierson of Randolph, were married November 14, 1906, at the A. P. Pierson home in Randolph.
Mr. Olds is a druggist at Carroll.
Lewis Larson of Craig and Miss Beryl Taylor of Carroll, and Lewis E. Pierson and Miss Sarah Pierson of Carroll, were married at the Presbyterian parsonage in Wayne November 17, 1906.

From the Ponca Journal December 12, 1880:

The remarkable weather we are now having, is similar to that which we enjoyed in this country nearly all of last winter. Such warm, sunny and agreeable weather is a striking contrast to that in the east. It is indeed about the same as is found in California. We doubt if it is as profitable to the business part of the community as cold weather and plenty of snow would be. But to us who have a hard time to get wood and warm clothing, this weather is a blessing.
Herald Point business men ordered an elephant from an eastern firm for advertising purposes. Some time elapsed and the West Point firm had forgotten the order. Last week the elephant came and the parties to whom it was consigned were horrified when they saw the animal. It cost \$200 freight charges. They refused to pay it. The agent couldn't hold the elephant and the freight bill at the same time (they were so large) and the animal wandered up town. Strangely enough he went to the drug store where he made "it" of the "hides" and "clothes" and finally wound up in a "drunk". The agent has sent in his resignation to the company and all trains "run wild" through the town.

Wayne School Notes

(Continued from Page Three.)
The procedure of meetings, also a program for the year.
The H-Y will give an entertainment November 2 for the purpose of financing the opening banquet of the state association for which Wayne is responsible. This was thought a much better plan than appealing to the people of Wayne for donations. The program will consist of two one-act comic plays, "The Amateurs," and the "Filing of Uncle Tom's Cabin." There will be singing, readings, piano selections and skits. The entertainment will last about two hours.
Dramatic Club Notes:
The Dramatic Club recently increased its membership which makes a total of thirty-six.
A party was given by the club last Saturday night, October 23, at the school building for the members of the faculty and the new members of the club.

QUALITY AT LOW COST

Your neighbor has
a MAYTAG
You can afford one too

IN FACT, you cannot afford to be without a Maytag, if you are interested in cleaner-washed clothes, done with so little effort on your part. If you are interested in turning that long, tiresome wash-day into the short and easy "Maytag wash-hour."
Remember, too, that clothes home-laudered in the Maytag are sanitariously clean.
And they last longer because, while the Maytag washes more thoroughly on account of its unusually turbulent water-action, it washes as carefully—as gently as human hands.
Use a Maytag in your own home next washday without expense or obligation of any kind. Do a whole week's washing—wash your finest fabrics—wash all your heavy, bulky things—let the Maytag prove its outstanding thoroughness—its hand-gentleness. If it doesn't sell itself, don't keep it.
Phone Us---
For homes without electricity, the Maytag is available with hand-cranked motor.
A Word With the Old Folks
Elderly People Are Learning Importance of Good Elimination.
In the later years of life there is apt to be a slowing up of the bodily functions. Good circulation, however, is just as essential to the old as to the young. Many old folks have learned the value of Doan's Pills when a stimulant diuretic in the kidneys required to counteract burning passages of kidney secretions are often signs of improper kidney function. In most every community are scores of users and endorsers who speak the most of Doan's. Ask your neighbor!

telling foginess. Games appropriate to Halloween followed. Junior Meyer, dressed as a clown, brought gifts to Miss Winick. A basket was decorated to represent a pumpkin and this in a decorated wagon, held the gifts. The hostesses served a two-course luncheon at the close of the afternoon.

Dramatic Club Acting.

The dramatic club of the Wayne high school held a Halloween party at the hall on Tuesday evening, October 24. Sprites in gay costumes, fairies, clowns, and a train of oriental peoples made their way to the high school. They came in by the door by a stranger from another world and led through caves of terror and through the death chambers of long departed humans. On every side were heard the groans of tortured and uneasy souls. Then suddenly they were brought from the caves of terror into a brightly lighted room which lay in the golden light of the brilliant sun; like a great field of flowers. Pumpkins, nestled at the feet of the ghosts of mice. Golden leaves lay all about. The revels then began. A costumed Halloween clown strolled forward from the group and in a skillful way brought music from a piano draped with corn stalks. The pieces were both of a popular nature. Bertha Pollard, acting as the program announcer, then, summoned from the darkness, another spirit, Aukle Finner as the spirit of fun. She read two humorous poems, "Mine, under the Table," and "In the Penal Way." The remainder of the evening was given to an informal program. Halloween games as peanut toss, nut throws, apple diving, and top, as fairy clocks chimed nine o'clock. Mrs. Lutgers entered. Fortunes were then in order. All who wished were told their fortunes: Mrs. Lutgers told the fortunes to the group and read privately. The luncheon consisted of chicken sandwiches, a baked pumpkin pie, chocolate, olives and pickles. Salads, raw, in black and orange cups added to the luncheon. Dick Fauske and Nevell Pollard, dressed as Jewish swells, hearts, Dick being the lady in the case. Miriam Howe and Jane Von Stoggen were Halloween twins; Ardy Gillespie and Mildred Bonawitz were reborn as King Holloway, Frederick Berry and Miss Cora Schalk, Halloween clowns; Hope Hokin a French maid; Louise Rich, a dancer; Alma Martin, clown; Joe Lutgen, ghost; Bernard Pollard and Kathryn Green, Duxey boy and girl; Prudence Bush, society dame; Natalie Johnson and Dorothy King, gypsy girls; Margaret Farnok, Spanish lady; Sibyl Lewis, Troubadour; Evelyn Hokin, Spanish girl; Edna Jeffrey, mountain climber; Franklin Philco, the Black Pirate. Two strikes for the witching hour the entire cast assemblage melted one by one, and two by two, into the velvety depths of

the night. Miss Betty Pugh and Mrs. Allis N. Pollard are sponsors of the group.

Note the large, well-lighted living room extending across the entire front. Observe the built-in features conserving every bit of space.
