A rotation best suited to a low-producing sandy soil is unlikely to be suited to a highly productive silt loam.
Each farm presents its own problems. The farmer who farms more or less with livestock is not so much concerned with rotation as with the herbage of crops necessary to meet his feeding requirements.

Announcement

The Farmers Union Cooperative Creamery of Fremont, will open a produce station in the east building formerly occupied by the Wayne Herald. We will be located and ready to serve you within the next two weeks. A definite opening date will be announced in the Herald January 13.

C. A. Schultz who has had several years' experience in this line of business will be local manager.

This creamery, with headquarters in Fremont, has a number of stations in Nebraska and can serve you right.

Flexibility Needed In Crop Rotation

Flexibility in crop rotation is a long recognized principle of farming economy. A century's history contains many illustrations of the use that has been made of this idea from the Middle Ages to the present time, especially in Europe. It is commonly observed, however, says the Bureau of Soils of the United States Department of Agriculture, that uniformity of soil, even on a single farm, is most unusual, and that the field may require an entirely different rotation of crops from another adjoin-

Early Days In Two Counties

Early Days from the Wayne Herald for February 28, 1907: Will Jenkins has rented the Sam Jones farm near Carroll. L. H. Phillips is moving from Winside to St. Lawrence, Kan. Matt Jones is building a new barn on his farm near Carroll. John Gottman has moved to the former Mellor farm east of Carroll. Leon Lush dislocated one of his shoulders while working in the hay mow. J. W. Black will move from Carroll to a farm he bought near Randolph. Arthur Ziegler is moving from Carroll to the Hefti farm near there. Henry Kahl and family have moved from Omaha to a farm in Leslie. Mr. and Mrs. Philip Horn have moved to the Froedrick farm near Carroll. The 4-weeks old baby of Mr. and Mrs. Fred Kallstrom died in Winside. E. W. Steele plans to move to the farm formerly occupied by E. H. Wright. Jerry Miles and Austin Darnell are moving from Winside to Denehoff, N. D. A son was born February 17, 1907, to Mr. and Mrs. Norman Burns of Wayne. Emil Anderson and Miss Maggie Blair were married in Wayne, February 27, 1907. Alex Borg and his brother are leaving Wakfield to farm in Walworth county, S. D. Techarah Morgan bought the Tom Havas farm near Carroll, consideration being \$63.50. Herman Chilcott moved to the farm formerly occupied by his father in Leslie precinct. Ray Roberts of near Carroll, suffered injury to one of his knees by running a nail into it. Mr. and Mrs. George Hofeldt were in Getta, Neb., to attend the wedding of John Hofeldt. Mrs. W. J. McNeal entertained a group of men in honor of Mr. McNeal's birthday anniversary. Fred Volpp of Scribner, and Nels Grimley of Washington, are planning a trip to Europe this spring. Mr. and Mrs. William Baumgardner went to Kansas City to attend the funeral of the latter's sister. Charles Harmon of Tahor, Iowa, is moving to a farm near Hoskins, formerly occupied by Samsarian brothers. W. J. Templeton and Alfred Williamson went from Winside to Wessington, S. D., to farm the coming year. John Lechreck has rented the Graves farm northeast of Wayne. L. A. Keller who has occupied it, will move to South Dakota. Mr. and Mrs. L. M. Owen entertained for Mr. and Mrs. E. E. Fannston who moved from the community northwest of Wayne. C. O. Fisher of the lumber firm of Fisher & Son sold his interest to W. F. Dickerson of Rising City. Harry Fisher retains his half interest in the business. The fourth meeting of the Win-

side section of the county teacher's association was held. Miss Richardson of Hoskins, read a paper. H. E. Siman spoke. Amos Beckenhauer moved to the Charles Lund farm south of town. George Peters who was on the Lund farm, moves to his own land which M. Moore had occupied. R. E. K. Mellor is planning to replace the frame store building north of the Boyd hotel with a new brick structure. The Orr & Morris stock will occupy the new building. J. J. Ahern will occupy the store vacated by Orr & Morris. Buys Fremont Paper. Fremont, Neb., Dec. 30.—Byron Cooper, for six years its managing editor, has purchased the Fremont Herald from the Perkins Printing and Stationery company and will continue its publication as editor and proprietor. The Herald will continue to be printed at the Perkins plant, but Frank S. Perkins, hitherto business manager, will devote himself to job printing, stationery and office supplies business. The new publisher announces that slight changes in the policies of the Herald are contemplated, as well as some improvements. Dr. House Writes On Proposed Law A letter written by Dr. J. T. House of Montgomery, W. Va., formerly of Wayne, to the Norfolk Press will be of interest to Herald readers. It is as follows: "I am intrigued by your discussion of the county unit system of conducting schools, the possibility of a secretary of education in the cabinet, etc. There are clearly two sides to the question and I am not on either side, but I would like to speak of various considerations that seem pertinent. "1. One of the worst features of our present school system is the lack of expert educational supervision. Much as local school boards are interested in their children, they are not expert educators. The result is that the rural school teacher must hold her job largely by social grace, pull, etc. The county superintendent is elected by the voters and is often himself more ignorant of educational processes than the teachers under his control. Hence he is unable to help, being both ignorant and dependent on the voters, who are not experts. The idea is to provide for the teacher expert supervision and an independent board to pass upon her work. So far good. "2. The long hand of federal, state and county supervision may undertake more than it should in the way of control. That is, it may (and there is evidence to support this contention) undertake to standardize the thinking of all schools in economic, religious and other matters to the point that desirable variation will be prevented. That such a situation is dangerous to democracy is unquestionable. "3. How may it be possible to combine the good features of the new movement with the freedom of experiment that is now possible? How would it do to encourage the formation of teacher's federations

Contrast

Dr. A. L. Bixby in Lincoln Journal: Forty years ago now and a few days later the old Capital hotel, of which E. P. Roggen was then manager, teemed with life and animation. A royal battle was on between the cohorts of G. H. Van Wyck and Algonern S. Paddock, the two leading candidates for the United States senate. Politicians, big and little, were here from all parts of the state, as active partisans of one or the other, with a crank here or there having a dark horse in mind in case neither of the leaders could secure the coveted majority. Railroad domination in politics was then not a newspaper assumption, but a demonstrable fact, and friends of the candidates who coveted standing room on the ground floor at Lincoln received transportation coming and going, and more if deemed expedient. Dated at Wayne, Nebraska, this 20th day of December, 1926. A. W. STEPHENS, Sheriff.

Who is it that mourns for the days that are gone When fellows were helping the fellows get on; When there was political barter and trade; And flaming-red booze that our forefathers made; In oil rooms and other fit places ran free As riuults, racing their way to the sea? The old method now is no longer in style; If men wish to go to the senate they "file." Nor plead for support as did Paddock and Van. But scatter the cash from Beersheba to Dan. Discarded the methods of old—'ve now done On that which appeals to the popular vote; And it has been well demonstrated at length That money has great oratorical strength. It speaks, as it did in the old state

Keep Fit!

Good Health Requires Good Elimination. To be well, you must keep the blood stream free from impurities. If the kidneys lag, allowing body poisons to accumulate, a toxic condition is created. One is apt to feel dull, languid, tired and aching. A nagging backache is sometimes a symptom, with dizziness, headaches and dizzy spells. That the kidneys are not functioning properly is often shown by burning or scanty passages of secretions. If you have reason to suspect improper kidney functioning, try DOAN'S PILLS—a tested stimulant diuretic. Users praise them throughout the United States. Ask your neighbor!

Are You an S. P. ?
Emporia Gazette: Are you a super-patriot? Do you think that if a child fails to salute the flag the enemy is knocking at the gate? Well, if you do, the Denver school board will make you angry. Here is a little story.
"Near Denver there is a peculiar sect, numbering about six hundred, who call themselves Jehovahists, take Jehovah as their family name, regard their leader, Joshua W. Jehovah, as a reincarnation of Christ, consider themselves immortal except for the occasional interference of Satan, and reject all symbols, whether religious or political, as idols."
Now, does that of itself make you mad? Well, here is worse coming:
"They claim to respect and obey the constitution and the laws, but they do not allow their children to salute the flag."
Now are your neck hairs bristling like a dog's? Read on and get real mad:
"The children have been expelled from the Denver schools at the rate of four or five a week for this refusal. The American Civil Liberties union was preparing to take a test case to the courts when the Denver school board decided to readmit the children, wisely judging that the cause of patriotism is not advanced by a too rigid insistence upon a special form of its expression which conflicts with the fantastic but harmless convictions of conscientious people."
If this story makes you love your country better because of its

fundamental common sense and common humanity you are a real patriot. If you are dazed and annoyed and a bit angry, you are a super-patriot, probably even a 100 per center." Take something for it. It will get you if you let it grow.
