CONSOLIDATED WITH THE WAYNE REPUBLICAN WAYNE, NEBRASKA, THURSDAY, APRIL 14, 1927. Vol. 41, No. 5

## Pageant Gives State History

"Nebraska, the Hope of the Pioneers," to be Presented in Four Epochs at Fair.

## To Choose Queens

Selection of Characters to be Made by Popular Vote—Preparations Start Soon.

One of the big attractions of the Wayne County fair last year will be remembered as the three-part historical pageant, "Wayne County," written by Mrs. S. A. Lutgen and sponsored on the three successive nights by the Wayne Woman's club, civic groups and the fair association, respectively.

The fair association has again requested that Mrs. Lutgen prepare a similar pageant for the coming year, the completed pageant to occupy four nights and each night to be sponsored by an organization or group of organizations under a general chairman.

The title "Nebraska, the Hope of the Pioneers," gives the clue to the theme of the enterprise.

The first night is taken up with epoch one, "Exploration and Early Settlement." This features the Lewis and Clark expedition, founded by the Oregon trail which is followed by the pony express and overland mail, and first friendly gatherings at the forts.

Epoch three deals with "Statehood and National Participation," the main episodes of which are as follows: The inauguration of Governor Bullock and the first official ball; and old time political rally; menace to crops by grasshoppers; early hardships of blizzards, featuring bravery of Mrs. Penny in saving her school; and, as a closing, the honoring of J. Sterling Morton as the big factor in planting trees and choosing the state flower.

The young man employed at the Alvin Vogel farm southwest of Wayne, suffered two broken ribs Tuesday when a horse pushed him against a manger in the barn.

## Wishes for Rain April Last Year AVOIDED LITTLE

A year ago we were wishing for rain, but our wishes availed little or nothing. During April last year the fall of moisture amounted to only forty inches, following unusually dry years, will in due course of time prove a boon to agriculture and business.

## Will Landscape The Kay Grounds

Resort South of Wayne Will Be Converted into Beautiful Park This Summer.

One of the projects of landscape gardening which will add to the beauty of Wayne this summer is the making of the Henry Kay and Son property just south of town into an attractive resort.

The Kay's have the past year constructed a large, sanitary swimming pool with ample conveniences and a large dance pavilion on the grounds.

Another landscape project in progress is the beautifying of the grounds around the new training school at the State Normal Teachers College.

They visited their daughter, Mrs. Herman Elvers in Berkeley, a brother of Mrs. Milliken, Luther Heikes, at Orange, and a niece in Texas. They went on many sightseeing trips also. Enroute home they stopped in Omaha to see another daughter, Mrs. Edgar Badgett.

Kiss Shortens Life. Hartington Herald: The psychologists, always delving into the mysterious and making disquieting discoveries, have now announced that a kiss shortens life three

minutes. Statisticians, using this as a basis, have figured out by weeks and months the heavy mortality resulting from the habit of kissing and the prospect is altogether an alarming one. And yet we presume people will go right on in the future as they have in the past indulging in this dangerous practice and thereby shortening their lives. We commend this matter to the Nebraska legislature now in session for prompt and drastic action.

Former Carroll Girl Wins Honor in West. Neva Jones, formerly of Carroll, has received honor in commercial work in the Hugo, Colo., high school. She received a gold medal and a Morocco card case for having written sixty-six words a minute for fifteen minutes without a single mistake. Neva is a daughter of Mr. and Mrs. Rollie F. Jones who used to live at Carroll.

Choir To Creighton To Present Program. The Wayne State Teachers College choir of about thirty voices, accompanied by Prof. and Mrs. Leon F. Beery, Prof. J. G. W. Lewis and Prof. W. C. Lowrie, went to Creighton Friday to give a concert there that evening. This is the first of a series of concerts which the group plans to give in towns of the northeast Nebraska. There were solo and group selections and a variety of numbers.

It is dangerous to drive in a fog, especially if it's mental. Paterson News.

#### IN WASTE BASKET

Ord Quiz: I looked in vain, last week, for any copies of the Ord newspapers in the waste baskets; but I saw scores of those four-page folders which the Ord business men put out. There is no use; people are more interested in a sheet that carries news stories as well as advertising than they are in an advertising sheet alone. This fact, I believe is too well established with all advertising men to even need argument.

in Great Falls, Mont. They will live in Great Falls.

#### Wintersteins Are On Way To Coast

Mr. and Mrs. J. A. Winterstein, who started a few days ago by car from Wayne to California, write from Fort Worth, Texas, April 6 as follows:

"We are delayed here on account of rain. We have traveled on the Meridian highway to Fort Worth. We were delayed somewhat in Nebraska because of bad weather. Before leaving we visited relatives in Madison and in the southern part of the state. Crossing into Kansas April 2, we traveled on rough roads to El Reno, Okla.

"Sandstone and shale are seen on the whole trip through Kansas. There are large black boulders in the southern portion. Fruit trees are all in bloom at Salina, Kan. The panorama of wonderfully improved farms across the entire states of Kansas and Oklahoma is a sight never to be forgotten. There are fine bungalows, massive barns, many Jersey cattle and White Leghorn chickens, and billowy wheat fields.

"Corn planting, what little is done, was finished through southern Oklahoma. Cotton will not be planted until next month. We are now down in the cotton and cactus country. Peas are in bloom; lettuce is large enough to eat and the weather is like Nebraska's June. Mrs. Winterstein is feeling well and we are enjoying the trip."

**Des Moines Economy Self-Feeder**

The high-priced feed wasted by trampling under foot, by chickens, birds and rats as well as uneven feeding by ordinary scoop and shovel methods in the average hog lot will pay for three Des Moines Economy Feeders in a single year. The labor of occasionally filling a Des Moines Economy is not to be compared with the work of shoveling feed twice a day. Another advantage is that a bunch of hogs fed from our feeder make a uniform growth, as no pig can "hog" all the feed. Each one has an equal chance.

The Economy way of feeding is such a great improvement over old methods that this Self-Feeder never fails to pay for itself several times over in the feed saving and increased profits.

Economy Feeder users everywhere testify to the feed saving, labor saving, sanitation and faster growth of hogs fed this better way.

**Dempster Windmills**

Let Us Show You These Windmills and Their Perfect Working Parts.

ROLLER BEARINGS, SELF-OILING

In making selection of a windmill a person should carefully consider what kind of service and durability he might expect. All old-type mills required one to climb the tower to oil it. Hence, it was usually neglected, resulting in a hard-running, short-lived mill. The Dempster Mill Mfg. Co., in keeping with the age of improvements and inventions, have gone farther than anyone else and are giving you a mill with **Timken Roller Bearings, Running in Fluid Oil.** And to prevent any possibility of leakage, we use a thick felt washer around the main shaft, and as a still further precaution we have a method of sealing the Timken bearing with hard oil. This in no way detracts from the proper lubrication of the bearing, but acts as a sheath to prevent the loss of the liquid oil. This insures **Easy Running and Long Life.** Also one that is easily and quickly repaired. In the use of these bearings we were able to make the mill more compact, reducing the weight but with more strength.

# Goodyear's new balloon TIRE

In the 29x4.40 size  
**\$13.00**

The new tire shown above is the famous Goodyear All - Weather Tread, scientifically redesigned for balloon tire use.

The first advantages of this new tread are traction and resistance to skidding.

The sharp-edged, diamond-shaped blocks are placed in a semi-flat design so that they not only grip the road, but they retain their usefulness longer than any non-skid tread ever before tried.

The second advantage is long, slow, even tread wear.

And with these virtues of traction, non-skid and long wear, this new tread is perfectly quiet and does not produce the vibration of many non-skid designs.

We have this new tire now in the 29 x 4.40 size for Fords and Chevrolets.

### Utilac

This is a new product manufactured to meet the demands  
for household uses of a satin enamel finish in bright colors and  
quick dry. Utilac attains results without the drawbacks of of-  
fensive odor, difficulty of application, necessity for special ex-  
pensive thinners which other lacquers require, or excessive costs.  
No special brushes necessary. Loosening or picking up of under-  
coats or old varnished or painted surfaces need not be feared.

Utilac possesses the working qualities of a high grade  
enamel, flowing out to a smooth, hard, durable, satin finish sur-  
face. Articles painted with Utilac are dry in four hours.

Utilac is manufactured in eight popular colors: Ivory,  
Light Green, Gray, Yellow, Orange, Jade Green, Chinese Ver-  
million, Holland Blue, and Black and White.

Use on small surfaces of wood such as chairs, bedsteads,  
tables, clocks, dressing tables, cages, pottery, crockery, porch  
furniture, and many other numerable articles.

Utilac comes in different sizes. Quarts selling at \$1.35;  
pints, 72c; one-half pints, 41c.

**Helen Laughlin Entertains.**  
"We have been here long enough now to have formed some idea of how we like things. Let us get together and pass some resolutions. If you have no one to leave

your mother with, just bring her along." Twenty-eight babies, including two pairs of twins, responded to this invitation Wednesday, April 6, and went to the E. M. Laughlin home to help little Miss Helen Laughlin pass the first anniversary of her birth. The mothers voted in several contests and prizes were awarded as follows: Prettiest girl, Marjorie Harrison; sturdiest boy, Earl Larson; the bluest eyes, Delpha Horstman; the brownest eyes, Laverta Doring and Iona Heikes; and the sweetest smile, Angela Sandahl. In the birthday cake a dime was found by Evelyn Auker, a King by Tom Jorgensen and a thimble by Elmer Lloyd Noakes. Mrs. Laughlin, assisted by Mrs. G. W. Crossland and Mrs. T. C. Jorgensen, served dainty refreshments. Each tray carried a small cake with a lighted candle. The invitations for the party were engraved by Miss Mildred Page's class in engraving in the Cleveland, Ohio, schools, and were decorated by hand-painted cake and candle. The contest slips were typed and decorated by Miss Izora Laughlin, sister of the hostess. It was a clever and original party and a delightful afternoon was spent by those present, who brought many beautiful gifts and wished the little hostess many happy returns of the day.

This modern age recognizes the honest quality of Camels. The smokers of America have rewarded Real Quality with Real Leadership. For Camels have always been all quality and no-frills. The choicest tobaccos money can buy, superbly blended. Millions of dollars put into the cigarette. Never a penny expended for show. There's just one way to find the smoky thrill that has won the modern world's admiration—try Camels. You'll know such taste and fragrance, such mellow mildness, as you never hoped to find. "Have a Camel!"

Retired Nebraska Farmer Wins 20-Year Fight

Victim of Chronic Ill Health Conquers His Ailments. Now Eats Foods Long Denied Him. Praises Tanlac

J. C. Eley, 2418 R St., Lincoln, Neb., a retired farmer, says: "Seven years ago I had almost given up hope of ever getting well. For 20 years I had suffered torture. My strength had gone. In fact, I was a wreck. My arms and legs were almost useless. I couldn't eat without bloating and suffering all the tortments of indigestion. It wasn't about ready to give up when a friend suggested Tanlac. "This tonic worked wonders with me. My old strength quickly returned. I recovered my appetite and ate everything. Tanlac certainly put me on my feet. I am now 70; Tanlac made me stronger and gave me better health than I have had in years. I have recommended Tanlac to hundreds of people since and it backs up all the praise I give."

Tanlac usually conquers ailments and builds up strength in weakened bodies. It frees the system of poison caused by constipation and sluggish liver. It is nature's own remedy made from food, herbs and berries according to the famous Tanlac formula. Banish sickness from your life! Take Tanlac. The first bottle will surprise you. Ask your druggist for Tanlac—today!

Rejected Claim: Claim No. 394 of the Omaha School Supply company for \$2.65 for supplies for County Superintendent and filed March 1, 1927, was on this day examined and action rejected. Whereupon Board adjourned to April 19, 1927. CHAS. W. REYNOLDS, Clerk

Notice to Contractors: Sealed bids will be received at the Department of Public Works in the State House at Lincoln, Nebraska, on April 28th, 1927, until 9:00 o'clock a. m., and at that time publicly opened and read for gravelly surfacing, culverts and incidental work on the Wayne-Laurel Project No. 4, Federal Aid Road. The proposed work consists of constructing 9.4 miles of gravel road.

The approximate quantities are: 117,000 square yards sand gravel surfacing, 3 inches deep. 58 lineal feet 18 inch culvert pipe. 80 lineal feet 24 inch culvert pipe. 28 lineal feet 30 inch culvert pipe. 8 lineal feet 36 inch culvert pipe.

Plans and specifications for the work may be seen and information secured at the office of the County Clerk at Wayne, Nebraska or at the office of the Department of Public Works at Lincoln, Nebraska.

The successful bidder will be required to furnish bond in an amount equal to 100 per cent of his contract.

Certified checks made payable to the Department of Public Works for not less than five per cent (5 per cent) of the amount of the bid will be required.

This work must be started previous to May 15th, 1927, and be completed by September 1st, 1927. The right is reserved to waive all technicalities and reject any or all bids.

Another Mild Winter: A remarkable series of mild winters in the United States has occurred since the severe winter of 1917-18, according to the Weather Bureau of the United States Department of Agriculture. The winter of 1926-27, just closed, has been in general, and over most of the country, one of the mildest of the long series. Other outstandingly mild winters were those of 1920-21 and 1923-24.

A few small areas along the northern border of the country were slightly colder this year than usual, but in all other regions the winter was warmer than normal, and decidedly so in the South and Southeast, temperatures ranging from three degrees to six degrees above normal. As a result of the mild weather in the South, vegetation there at the end of February was abnormally advanced, with early fruit trees in full bloom, and peach buds showing color as far north as the southern Ohio valley.

In comparatively recent years zero weather has been experienced as far south as the east Gulf coast, but this year such low temperatures did not extend farther south generally than Pennsylvania, Kentucky, and Missouri. No previous low records were broken anywhere in the country, but the maxima equalled or exceeded the previous high record at many stations.

There was more than the usual amount of snowfall in the Northeast from the Lake region eastward and south to Pennsylvania, but otherwise, east of the Rocky Mountains, there was generally less than the usual fall of snow.

Interesting in comparison is the report from the Southern Hemisphere where summer time occurs during our winter. In South America, especially Argentina, the outstanding weather feature was the unusual and persistent warmth, averaging three degrees above normal, while in Australia the season was generally mild and warm, although with no harmful temper-

atures and accompanied by unusually favorable rains. Marines, we understand that it will only be used for defensive purposes.—Punch.

Wayne Residence At Auction

I will offer at public auction my strictly modern nine-room home located on the northwest corner at 9th and Nebraska streets, on

Saturday, April 16 At 2:00 p. m., on the premises

Description of the Property

This commodious, nine-room, modern home is situated on a corner lot 75x150 feet, with an east front on Nebraska street, one and one-half blocks south of the Nebraska State Teachers College grounds.

This lot has many beautiful shade and fruit trees and a large amount of shrubbery and flowers. The paving extends around the lot and is all paid for.

The house itself is a nine-room, modern city home. The lower floor has five large rooms, a large reception hall, living room, dining room with a built-in buffet, large den, and a large modern kitchen and pantry with built-in cupboards. The lower floor of this house is finished in oak, both floors and woodwork and is in mighty nice condition. The second floor consists of four large, airy bedrooms, each with a large closet, and a modern bathroom. Opening off the hall upstairs there is a sleeping porch, enclosed, the full width of the house, equipped with built-in, sleeping porch beds. The basement is equipped with stationary laundry tubs, and electric pump, and a hot air furnace of ample size to easily heat the house.

Think This Over!

This house should have a special appeal to three classes of buyers: The investor, the "earner" and the homeseeker.

FIRST. If you are an investor or looking for a place to make a profitable investment you will certainly find it here, for there are no more paying assessments to pay, and the house will easily bring in an income considerably larger than most present day investments and leave you a building lot fronting on Ninth street.

SECOND. If you are an "earner" you can buy this home and the rental from these modern rooms will pay your carrying charges on the house. There is not a home in Wayne located as advantageously for rooming purposes as is this home.

THIRD. If you are a homeseeker, you will find this to be one of Wayne's modern, well appointed homes and one that takes its place among the best in a city made up of good homes. Your children will be just a step from one of the best schools in the state.

Located as it is on one of the best streets in the city, it is an opportunity that will not present itself soon again. BUY A REAL HOME.

REMEMBER

When this house is offered to you on April 16, it will be sold and there will be no reservation. The property will change hands and when it comes to you it comes with no further encumbrances for the paving has all been paid for and there will be no further assessments.

The terms will be liberal. Any of you can handle this property.

# CLARINDA Lawn Mowers

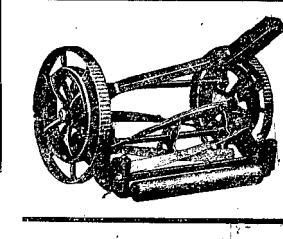

Easy to push. Easy to adjust. Highest quality. Longest service

**CLARINDA Lawn Mowers**

Clarinda Lawn Mowers are made of the highest grade materials obtainable. They have crucible steel knives, oil hardened and tempered; raised edge, self sharpening, screwed on bed knife, double riveted reel spiders, and our own exclusive patent features. Each mower has the special Clarinda Cutter Blade attachment. The unusually strong frame is due to the double cross bar construction. All handles are made of straight grain, hard, white maple, with cross bar attached by a tongue and groove joint. "Clarinda" Mowers are not high in price. Compare them with any other on the market and you'll see at once why they sell so rapidly. "Clarinda" Mowers operate on the same principle as a pair of shears; the blades being ground to a true, sharp edge, insuring perfect cutting. They satisfy the most exacting—you can't go wrong with a "Clarinda."

## Two Stocks of Coats and Dresses On Sale Here Now

**Accessories**  
A new shipment of silk crepe and georgette scarfs have just come. The printed designs are decidedly different and spring-like. Prices are \$2.50 and \$3.00.  
Our stock of silk hose has just been replenished. 20 Spring shades of fresh new stockings are ready for your selection at \$1.00, \$1.50, \$1.65, \$2.00. Point-toe heels if you prefer.  
A fresh stock of both silk gloves and kid gloves arrived this week. All in new Spring shades to match the prevailing coat and dress colors. Light colored suede gloves are 68c to \$1.35; silk gloves \$1.20 to \$2.00; kid gloves are \$3.25 and \$3.50.  
Easter time is new hand-bag time. The pouch style leather bags are favorites. They come in many colors—tans, greens and blues being particularly desirable. Moderately priced at \$2.98 and \$3.98.  
Newest among the Rayon lingerie are the new Black Bottom Step-ins and Teddies. They come in the pastel shades, are trimmed in black and have clever little black pockets. The prices are \$1.50 and \$1.98. We have a great variety of Rayon Vests, Bloomers, Step-ins, Pajamas—all priced very reasonably at 79c and \$1.00 for vests up to \$1.19 and \$1.98 for bloomers and teddies.

This week — in addition to our own stock we will have here the extra stock of coats and dresses we use in giving our out of town sales. Come and choose your Easter coat or dress from this double assortment. Many of these garments have come from the Eastern factories within the past week. The styles are the last word in Spring Fashion.

**Newest Coats \$11 TO \$39**  
The coats we received from the East this week were priced low.  
The late, wet spring has held back the sale of Ready-to-Wear garments all over the country and the factories are now offering some special values to stimulate business.  
Don't fail to see these new special priced coats and dresses this week.

**Silk Dresses \$16 \$24**  
We also show a nice stock of finer dresses at \$34 to \$48, but our largest assortments are popularly priced at \$16 and \$24.  
This week we have added to these two groups some new purchases that have the style and quality of dresses usually sold for higher prices.  
Before you buy a dress come and see these new purchases.

*"Knockless" motor fuel that turns carbon into a source of added power*

**THE** combination does it—reliable, quick-starting, clean-burning Red Crown Gasoline, with Ethyl Brand of Anti-Knock Compound added.  
On hills, in mud or sand, you can press down on the accelerator—to the floor board if you like—and get all the power with *never a knock.*

Whether your car is a service-worn veteran or brand new, you can take hills in high that now call for second. You can crawl along in traffic with less gear shifting. You get better performance under all driving conditions, the year around, with Red Crown Ethyl Gasoline. Carbon produces added power because it increases compression. The higher the compression, the better work Red Crown Ethyl Gasoline does. Try it. You'll feel the difference, like adding an extra cylinder or two. *But beware of imitations.*

Be sure you get what you pay for—sold only where you see the Red Crown Ethyl Gasoline sign on the silver pump.

For "knockless" operation avoid dilution. Wait until your gasoline supply is low before filling with Red Crown Ethyl Gasoline—then use Red Crown Ethyl Gasoline exclusively.
