For special attention to your dental needs see Dr. R. W. Casper, office phone 120, a14t. Herbert A. Welch and family moved Thursday to the new residence Homer S. Seace built on east Tenth street.

Clarence Auker and family moved last Saturday from Wayne to a farm one mile north and one mile west of Wayne.

Dr. Young, dental office over the W. A. Hiscox store. Special attention given to extraction of teeth. Phone 307W. m21f.

Mr. and Mrs. Clyde Hagfield and the former's mother came from Plainview Thursday to spend the day with Mrs. J. M. Barrett.

Intelligent people who want good positions get ready for them and then they get them. Get ready at Nettleton Commercial College, Sioux Falls. 0611.

Mr. and Mrs. C. R. Glenn and daughter of Detroit, Mich., arrived Thursday noon to attend the funeral of Mrs. Glenn's mother, Mrs. George D. Bush.

Miss Henrietta Michaels of Yankton, visited September 25 with Mrs. F. E. Powers here. The women are cousins. Miss Michaels teaches in Yankton.

In the list of those who donated to the Red Cross relief fund for the flood sufferers, published last week, the J. O. B. club was unintentionally omitted. The club gave \$5 to the fund.

Joe W. Baker bought the R. A. Bunn residence on east Fourth street. J. H. McCurry, who bought the Palace cafe here, moved his family from Scribner last week Wednesday to the Baker residence. The Dunns recently moved to Scribner.

William Sievers left last Thursday for his home in Lancaster, Calif., after spending three weeks here visiting relatives. His father, Peter Sievers, who has been ill, is much improved. Rudolph Sievers plans to go to California later this fall to visit his brother, William Sievers. Carl Thomsen came from Lancaster with the first named, but he left about ten days earlier.

Normal human blood is too thick to be drawn through the mosquito's small piercing tube. They must first inject a thinning fluid. In that way disease germs are set afloat in the blood stream—bacteria of burning fever and crippling disease. There is also the danger of streptococcal infection (blood poisoning) from scratching the bite. Mosquitoes must be killed. Health authorities advocate Fly-Tox. Simple instructions on each bottle (blue label) for killing ALL house insects. Insist on Fly-Tox. Fly-Tox is easy to use. Safe, stainless, fragrant, sure. 0611.

**Dr. House Writes From West Virginia**  
Dr. J. T. House of Montgomery, W. Va., writes Sept. 26 expressing congratulations for the Herald's issue of August 11. Dr. House states that he and Mrs. House spent the summer vacation in Col-

lege Park and Washington, and had a most pleasant time.

"Among other memorable experiences," Dr. House states, "was that of visiting the battle ground of Gettysburg, where we saw the 'bloody angle' where Pickett's charge was shattered, the spot where Lincoln stood as he delivered the speech that every school child knows and all the other scenes of the field where the war for the Union reached high tide, to recede thereafter to its close.

"The college here continues to grow and prosper," writes Dr. House, "though, of course, I never cease to suffer for one more sight of the vast reaches of the plains and the poet's town where I spent many happy years."

### Crystal Attraction Last Of This Week

"Rough House Rosie" Clara Bow's new Paramount starring medium, which comes to the Crystal theatre on Friday and Saturday of this week finds this cyclonic little actress the laughable, lovable belle of Tenth Avenue, living by her wits, loyal to her friends, irresponsible and seemingly irresponsible—until called on to prove her true qualities.

The Nunnally Johnson story was placed in Frank Strayer's directorial hands. Strayer, brought to Paramount from the independent lots, is a former projectionist, who became an expert, film cutter and finally a director, winning a reputation in that field as a fast worker, fine story teller and master of technical detail. He recently completed "Steppin' Out" and "Sweet Rosie O'Grady."

Reed Howes, also a graduate of the independent studios, plays the male lead. A pronounced athletic type, Howes is ideal as Joe Hennessey, the fighter who strains for a championship bout and gets it. Arthur Housman, well known character playwright, exacts the second featured role as Howes' trainer.

Doris Hill, one of Hollywood's prettiest girls, is seen as Clara's best friend. Miss Hill last appeared in Wallace Beery's "Casey at the Bat." Others in the strong supporting cast include Douglas Gilmore, Henry Kolker and John Miljan. Gilmore had the romantic lead in Bebe Daniels' "A Kiss in a Taxi." Kolker, who also appeared in that comedy, portrays the manager of the cabaret in which Clara stages her dancing act "Six Roughnecks." Mr. Miljan, with a varied background of stock and repertoire, played prominent parts in fifteen pictures last year.

"Rough House Rosie" moves from an amusement park to a cabaret, from there to a police court, thence to a country club for a swimming pool sequence and closes at a fight stadium's ring-side. Here's variety with a big V!

James Murray officiated as first cameraman. Murray also turned the crank on Karl Brown's remarkable production "Stark Love," in which only native talent was used. Max Marcin wrote the adaptation. The screen play was prepared by Ethel Doherty and Louise Long.

**Fire at Orchard.**  
Orchard, Neb., Sept. 28.—Fire of undetermined origin Tuesday evening late badly damaged the interior and the furnishings of the Catholic church, two and half miles east of here.  
The Orchard fire fighters rushed to the scene and subdued the flames with chemicals. The fire started in the rear of the church.

### Mission Worker Speaks In Wayne

Arthur Jensen Who Teaches in Native School in Africa, Talks to Bible Class.

Arthur Jensen who teaches in a mission school in south Africa, spoke to the Wayne young people's bible circle, Friday evening at the E. B. Young home, describing life and showing pictures in his field. Mr. Jensen is working under the Scandinavian Alliance mission, and the pictures he showed were most of them taken by himself. He and his wife, and daughter and son are here on furlough. The family is visiting in New Jersey. Mr. Jensen spoke in the Concord Free Mission church Thursday evening. He went from Wayne to California. The family returns to Africa in January.

Mr. Jensen and Mr. Christensen, the latter from Iowa, conduct a school for natives of south Africa. A brick building is constructed for the school work. The two families also have brick homes. This is the only material that is lasting in south Africa because white ants are so numerous and destructive. Natives live in straw huts, the only openings in which are small doors into which the dwellers crawl.

Land in this south Africa section is rocky, and scarcely any trees grow. Very little farming is possible. Natives raise a variety of corn which they grind into meal. This is the principal food item. Mountain goats and native cows are herded. Deer are the only wild animals there. Milk from the cows and goats is used for food. One peculiarity of the African cow is that the animal will not be milked unless its calf is beside it. Calves are never taken from the cows.

Boys from 6 to 8 years of age herd the cattle. They spend the daytimes at this, and attend special sessions of school conducted for them in the evenings.

Only boys attend the school. Those of other ages than the ones herding cattle attend in the daytime. School is conducted five days a week, and subjects taught are elementary reading, writing, etc. Religious instruction is also given. The school has been in operation for about twenty years.

Mr. Jensen explained that the wearing of clothing seems to be a sign that the natives have adopted Christianity, for only those who are Christians wear clothing. Garments sent from this country are the only ones they have. These are distributed by the missionaries. Some natives wrap themselves in blankets.

Climate in south Africa is very warm. The coolest weather comes during winter here, and the temperature is then only cool. Summers are intensely hot, and helmets must be worn for protection from the heat.

### Man Is Released On Assault Charge

West Point, Neb., Sept. 28.—William Noonan, farmer, who was held in the Cuming county jail since Sept. 21, charged with an attempt to assault Miss Gladys Ford, Beemer, a teacher in District 40, northwest Cuming county, was released on \$2500 bond Wednesday. Bond was given by his father, Michael Noonan.

Noonan was given a preliminary hearing Tuesday evening before County Judge McDonald who bound him over to the district court. Judge A. A. Welch of

### Paul B. Bowen Is Honored In School

Wayne, who presided over the fall term of district court here this week, set Nov. 1 as the date of trial.

On questioning and cross-questioning, Miss Ford steadfastly maintained that Noonan was her assailant. Miss Ford was attacked by a masked man while alone in the school house about 5 p. m. Sept. 19.

She suffered from fright and bruises, but was able to return to her school work this week.

### Test Radio With Australia Sender

Henry Gulliver, who recently received word from H. W. Wheeler of Eben Hills, South Australia, that the latter heard the Wayne State Normal radio code station January 8, is corresponding with Mr. Wheeler to plan for further tests. In November the two will try to talk to each other by radio, tests being planned by each. Mr. Wheeler is a college student in Eben Hills.

### Paul B. Bowen Is Honored In School

Paul B. Bowen of Wayne, son of Prof. and Mrs. O. R. Bowen, has been appointed to the board of editors of the Nebraska Law Bulletin, paper published by the law department at the university of Nebraska.

Mr. Bowen has been a student at the university in Lincoln for the past two years, and has received high scholastic honors. The Nebraska State Journal for October 1 tells of the appointment as follows:

"Announcement has been made of the appointment of the following men to the board of editors of the Nebraska Law Bulletin: Paul B. Bowen, David F. Foster, Herbert S. French, John H. Kuns, Philip H. Robinson, Ronald G. Yoder, Norris Chadderton, George F. Johnson, Lumir Otradovsky, Donald Russell, Charles Uhlig, Clarence C. Virtue. The Bulletin is published by the University of Nebraska college of law under the editorship of Prof. Maurice H. Merrill."

### Talk This Over With Your Furnace

—Less Than a Bushel of Ash to a Ton

Ashes are the unburnable waste in coal.

And your furnace will prove to you that there is more heat for less money when you burn a coal that contains less than bushel of ash to the ton.

And that's what you get when you burn

### Consolidation Elkhorn Coal

For Consolidation Elkhorn Coal by actual burn-test contains under 3 per cent of ash which is less than a bushel of ash to a ton of coal.

Consolidation Elkhorn is mined so clean that it is over 95 per cent pure combustible in the fire, does not contain a single piece of rock, slate or bone coal, and will not clinker.

Your fuel dollars buy pure heat and very little waste and ashes when you burn Consolidation Elkhorn. Talk the fuel question over with your furnace and order your coal now.

### Kleenburn

Northern Wyoming Coal to Arrive Soon.

It is clean coal and it burns clean. No soot, no annoying gasses. Low ash, no clinkers and lots of heat. A ton of Kleenburn is a ton of satisfaction.

Also have hard coal briquets.

Also Pennsylvania and Colorado Hard Coal.

THE KNOT-HOLE No. 18 Wayne, Nebraska, Thursday, Oct. 6, 1927. Vol. 1 The fair is over. The weather was far from satisfactory, but the people came to see it proving that it is appreciated. We heard many comments on the late dates used by the fair board and believe the people generally desire a date very much earlier than the management has seen fit to use in the past. Len McClure says his idea of helpfulness is to bring a basket of fruit to the sick man and then sit on the bed and eat it. The large corn crop is going to tax the capacity of corn cribs on most of the farms hereabouts. It will not do to pile it on the ground—too much waste. We have 500 bushel steel corn cribs and wood slat snow fences that will be a great help in this emergency. The great coal strike in the Illinois fields has been settled. It will be some time before mines can be operating to full capacity. We will have some of it just as soon as shipments can be made. Charlie Martin thinks that if all of us knew everything about the rest of us, none of us would associate with any of us. We heard yesterday of the young minister who was invited out to dine just before his evening sermon. He sat politely at the table but did not eat. "I never eat before I deliver an address," he explained. After the address. Coleman Radiant Heater TRADE MARK REG. Gas Heat—No Matter Where You Live The Coleman Radiant Heater is the latest achievement in more than a quarter of a century's experience in manufacturing gasoline lighting and heating devices. It is made by the Coleman Lamp Company, whose gas pressure products have always been recognized as a standard of quality and service. Here's What It Does: 1—Gives you fresh, clean, sun-like warmth, any time, in any room. Radiates a flood of live, glowing heat to every corner. 2—Gives you quick heat. Generates in three minutes and starts heating up immediately after lighting. 3—Keeps air in circulation by warming first the air near the floor, which is replaced by the cool air above it. This insures a constant, even temperature, which means health and comfort. 4—Gives a clean heat without smoke, soot, dirt or ashes. Saves the time, bother and expense of firing the stove or furnace for short periods of the day—saves from one to two tons of coal a year. 5—Insures plenty of warmth and comfort in the coldest weather, even with the coal bin empty or the gas line broken. 6—Gives you a complete portable heating unit that makes and burns its own gas from any good grade of motor gasoline—no pipes, no hose, no connections. See it Demonstrated at Carhart Hardware Co. The BIG Hardware with a Little price Wayne, Neb.

### Schools of Wayne Planning to Secure Series of Historical Motion Pictures

Grades Represent Song in County Fair Pageant Saturday—Other News of Week.

Prof. J. G. W. Lewis of the State Normal, Miss Pearl Rutherford of the training school, P. W. Maynard, history and social science instructor and Supt. T. S. Hook are making efforts to bring a series of American history moving pictures to Wayne. These history pictures are put out by Yale university and are known as the "Chronicles of America" series. Different phases of American history are shown, making them very useful for teaching purposes in the class room. The titles of some of the pictures are: "Gateway to the West," "Eve of the Revolution," "Declaration of Independ-

ence," "Dixie" and "Pioneers of the West." Six or more of the films are to be shown. It is of interest to know that Wayne is the first town in Nebraska to try to obtain these pictures on such a large scale, thus marking the school one of the most progressive in the state.

**Assembly Notes.**  
Robert Jorgensen played the snare drum and Alma Martin played the piano for the assembly march last week. This week Max Rhodes and Alma Martin are playing the piano and Robert Jorgensen plays the snare drum. Jeanette Lewis and Irol Whitmore entered school Monday, September 26, and enrolled as juniors. Dorothy Hanson entered school Tuesday, September 27, as a sophomore. The three students formerly attended the State Normal.

A new bulletin board has been put in the back part of the assembly room. It is being used by the ancient history, the American history and the economics classes. Various projects, problems and clippings of interest are posted here for the use of the students.

The county teachers' institute was held last Monday and Tuesday, October 3 and 4. School was dismissed so that the teachers might attend. Miss Pearl Sewell had charge of the whole institute. The Wayne teachers took a general part. Supt. T. S. Hook was in charge of one section.

**Commercial Notes.**  
Typewriting classes have finished six exercises this year. New instruction books are being used. All commercial classes have a speed and accuracy test once each week.

**Music Department.**  
Almost every school in the county had a float in the fair parade last week. Each float represented a song. "John Brown Had a Little Indian," was the song represented by the Wayne grade school float.

All the Indians who took part were boys from the grades. They were as follows: Harry Kemp, Warren Bald, Billy Rundell, from the sixth grade; Frank Gamble, fifth grade; Tom Cavanaugh, John Alden Lewis, Junior Fleetwood, fourth grade; Paul Mildner, Joe Smolski, third grade; Lloyd Surber, second grade; and Franklin Henkel, Robert Kingston, Freddie Cross, Donald Smith, seventh grade.

**Senior Notes.**  
The French class has read the short stories, "Hansli le Bassu" and "Hansli the Hunchback." The United States history class has finished the chapter on colonization. Maps were made showing the New England colonies.

The Economics class is studying the price of grain on the Chicago board of trade. A record of the price will be kept through the semester.

**Junior Notes.**  
"The Merchant of Venice" has been reviewed by the English II classes.

The economics class studied the chapter on "Production."

**Sophomore News.**  
The second year agriculture class has made a study of judging beef cattle and dairy cattle. Students have learned the parts of horses and cattle and have judged horses. Two trips to J. H. Miner's and one trip to A. T. Claycomb's for the purpose of studying the cattle have been made.

Dr. W. M. Hawkins gave a lecture Monday, September 24 before the class which proved to be very interesting and beneficial.

The ancient history classes are working out four projects namely: Life of the empires of the east and various steps of progress in the Stone age; various steps of progress in Egypt; influence of migratory movement and the progress of the Semitic and Indo-European people.

The second year English classes are classifying sentences according to grammatical construction and according to rhetorical construction. Diagrams of sentences are made in order to clarify the construction of sentences.

**Freshman Notes.**  
The agriculture class is studying modern and ancient agriculture and plant propagation which deals with the study of the seeds and grafting of plants. The class is taking up the study of elements of soil as well as the texture and structure of the soil.

In laboratory an experiment

"How plants receive food," has been worked out. The class has made one trip in the country gathering weeds to use for study.

The public speaking classes have just finished the impressive speeches. The "Gettysburg Address" was recited as an illustration of impressive speech. Belief speeches are to be given next.

**Athletic Notes.**  
The team scrimmaged against the college seconds Tuesday night, and showed improvement in better defense and offense. On Wednesday at 2:30 a light work-out was given, consisting of pass defense formation for receiving kick off, signal drill and charging. The team had a light signal drill on Thursday in preparation for last Friday's game.

Allan Purdue was unable to play in the game last Friday because of his grandmother's funeral.
