THE KNOT-HOLE

No. 21 Wayne, Nebraska, Thursday, Oct. 27, 1927. Vol. 1.

The fellow who gets his storm sash now is going to be mighty glad of it in a few more weeks.

We've just made an important discovery. Those ladies who are gazing at the display windows of our local stores are hot admiring the merchandise. They're looking at their own reflections in the glass. Just watch 'em and see if we're not right.

We now have on hand a large quantity of snow fence put up in fifty foot rolls. They make good portable corn cribs too.

Today we have a letter from a New York concern wanting to sell us a book entitled, "How to Keep Your Money and Make It Earn More." We're acting on the first suggestion.

Everyone should be mighty thankful that we had the weather during September and October to mature a corn crop that at the end of August looked hopeless.

If you don't think

lodges last Thursday evening at a banquet which closed a central school of instruction at Tekamah. About 350 were present. After the banquet, Dr. Charles Shepard of Lincoln gave an illustrated lecture on "Masonry in American History."

distance a road we could hear just as plain? And a cow we crab because the static cuts us out of Hong Kong.

HOT LUMP, the only coal that cauli-flowers.

There's nothing about a farm that is as inconvenient as an old broken down gate. And there's nothing so convenient as the Iowa. It's a humdinger.

Of course you're going to use shingles on that roof. But have you decided what kind? If economy interests you at all, just investigate our Red Cedar shingles. They're heavy and will last as long as the building.

May we mention our wall board department again? More of it is being used every year. A n-d Wayne could use more of it profitably, too.

The man who dislikes taking ashes is the fellow we want to try our Black Band coal. We know it will produce much heat and less than eighty pounds of ash to the ton.

Remember when we used to brag that we had talked to Omaha by long Household Hints.—You men who haven't time to patronize a shoe parlor will find that one of your wife's stockings, when used vigorously, will give your shoes a splendid lustre.

Since the inception of Radio, the Atwater Kent manufacturing company, through its production engineers and experts, have been working out manufacturing economies in the world's largest radio factory.

These advancements have not only enabled the Atwater Kent Manufacturing Company to maintain, but improve the standard of their products.

In keeping with the long established Atwater Kent policy of sharing with the public the results of economies as fast as they are put into practical operation, a new remarkably low price schedule on Atwater Kent Sets, Speakers, and "B" Power Units became effective October 20.

Wayne county will have a corn husking contest next week, and we hope the winner will prove strong enough to land high in the state contest that comes later.

One Wayne county farmer who retired a few years ago, and who has been spending most of the time since in California, has decided to quit the Pacific coast and reestablish himself on his own farm here.

The fact that some one had deposited \$800 in the collection box of the new Lutheran church at Beemer following dedicatory services Sunday without betraying his identity, looks as though his act of generosity was prompted by highest motives.

In view of the rising tide of prosperity with consequent invitations to invest, Omaha bankers have issued warning to people of the state not to put surplus money into questionable schemes.

The announcement that Rev. Chas. R. Scoville of the Christian church is engaged in a series of revival meetings at Sioux City reminds us that a man by that name—probably the same one—conducted meetings in Beatrice twenty years ago when we were toiling in the newspaper vineyard there.

Of the many young men who entered the war, some came out of it wrecked physically and mentally. They were sensitive, and they felt deeply the brutality of armed conflict.

We notice the Ord Quiz is running a series of articles explaining to its correspondents what is news and what is not news. It is a fact that some trivial mentions find their way into so-called news columns.

definition of war was right. People everywhere should be impressed with the horror and waste of war, but if it ever comes again, every individual and every dollar should be drafted.

An Arkansas senator shouts that the bankers are against relief measures for farmers. This does injustice to members of a big group who have been struggling particularly hard in late years in helping farmers and others steer their banks over troubled waters.

A report comes out of Omaha quoting the president of the Nebraska Women's Christian Temperance Union as designating Wayne and Madison counties as "weak points" in the state.

In our judgment, the Omaha Bee wisely disapproves of the suggestion of an eastern educator that high school graduates be sorted over with a view to determining their capacity and fitness to enter college.

Football Picture Comes To Crystal

Every essential ingredient for screen entertainment is contained in First National's great story of college life today, "The Drop Kick," starring Richard Barthelmess, showing at the Crystal theatre October 28 and 29.
Much comedy, dramatic situations, the thrills of a great football game, tender romance and a plot that holds interest from start to finish feature this gay story of the football hero who is dethroned through no fault of his own.
An excellent cast is seen in support of Barthelmess, including Barbara Kent, Dorothy Revier, Alberta Vaughn, Dorothy Revier, Jr., Eugene Strong, Hedda Hopper and the Ten National College Stars, recently chosen by First National in a nation-wide search for new screen talent. The football teams of Stanford and University of Southern California appear in the football scenes.
