Horse Is Marvel In Coming Picture

Leaping over an eight-foot wall onto the back of his white horse, Silver King, is one of the feats Fred Thomson performs in his first Paramount picture "Jesse James" which shows at the Crystal theatre December 16 and 17. It is a stunt that calls for an infinite amount of patience and unusual athletic skill.

Clearing the wall with legs spread apart is in itself a feat. Only a trained athlete could do it. But clearing it with such exact precision that the jumper can land exactly in the saddle requires such a high order of skill that it has never been done in the movies.

In the first place, Silver King had to be coaxed into standing without the slightest move in a hot sun as his master suddenly appeared over the wall. This is enough to startle any high spirited horse and cause him to shy. After several preliminary jumps in which Mr. Thomson balanced himself on the wall the big horse became accustomed to the surprise and made no move.

When the cameras began grinding Silver awaited the leap with no sign of tenseness, but the instant his master was settled into the saddle he broke into a terrific gallop and disappeared out of the picture as though he fully understood that it was necessary to make Jesse James' escape seem dramatic.

THE WAYNE HERALD

The Oldest Established Paper in Wayne County... Published Every Thursday... Entered at the postoffice at Wayne, Nebraska, as Second Class Mail Matter in 1886 under the act of March 3, 1879.

MEMBER NEBRASKA PRESS ASSOCIATION 1927... SUSTAINING MEMBER NATIONAL EDITORIAL ASSOCIATION 1927

The person who will hazard no risk and assume no responsibility, is likely to find himself trailing in a very narrow circle, accomplishing little for himself or any one else.

It may require several more years to secure all the gravel needed hereabouts, but we will not be satisfied until hard-surfaced highways connect Wayne with every town in the county.

If Governor Al Smith is nominated for president, and if he is correctly apted in wanting to know what states are west of the Mississippi river, he may wake up on the morning after election to find out that they are numerous and powerfully resentful.

A correspondent writes this department suggesting that among most welcome Christmas remembrances would be letters to dear ones or to old acquaintances. People like to receive personal letters, and as contributors to holiday cheer, they would take an important part.

Colonel Lindbergh's flight to Mexico this week is accepted by Mexican newspapers as a means to encourage friendly relations with the United States.

To rid the business district of snow would be a trade advantage that would be worth all it would cost, and if the authorities can figure out any practical way to do it, their efforts would be appreciated.

While congress is in session to consider laws and ways and means to run the government, its members are devoting major attention to plans for next year's president.

BIRTHDAYS. We had a birthday this week, but we have quit advertising our age and we are trying to quit thinking that years are multiplying so atrociously fast that we will soon be a useless bark.

NAPPING. Omaha, Neb., Dec. 9, 1927. E. W. Huse, Wayne, Nebr. My dear Huse: The Broken Bow Chief—an outstanding Nebraska weekly—is putting up a new modern building to house its plant, and if too many blizzards and freezing winds are not inserted into the weather, the improvement will be completed in January.

Severe weather lay up long enough this week to give farmers who had not finished picking their corn, a chance to complete the job. But the Nebraska climate is unequalled for its versatility and it exercises its prerogatives without any advance notice or playful fooling.

We note that Father Flanagan's boys' home at Omaha celebrated the tenth anniversary of its founding December 12, and that during its existence it has handled 2,148 homeless boys.

We hope the excitement over discovery of something unusual in the soil on the Lesman farm will prove fully warranted by later developments. If the ground contains radium or other rare qualities, it will become very valuable.

Report of the letting of a contract for a new dormitory at the State Teachers College is encouraging. The building is needed by the school and it will add an important improvement to the town.

Los Angeles has shown itself rather particular in the quality of its visitors, having lately fired one so called gangster back to Chicago from whence he came.

This reminds us that when Maupin was touring northeast Nebraska for the Omaha Bee-News a few years ago he rearranged the map by locating Randolph in Wayne county, and how he squared himself with Cedar county we do not know.

GIVING. The enjoyment of fortunate children on Christmas would be less complete if the less fortunate ones were neglected. Having in mind a generous distribution of holiday happiness, individuals and organizations everywhere are planning to give happiness to many who might otherwise be left out in the cold.

Kriedler reported receipts of \$14,896, and Secretary J. E. Martin reported disbursements totaling \$14,518. Henry Sunderman, president for twelve years, was unanimously re-elected as was W. M. Kriedler, treasurer, and J. E. Martin, secretary. Vice presidents are: Oscar Sunderman, Fred H. Davis, Homer Ochser and Charles Kilow.

Thieves who broke into four places in Greighton Wednesday of last week, escaped in a Ford coupe bearing a Madison county license. The Weller lumber yard was entered with a crowbar. Work garments were taken. Entrance was gained in the John Farmer store through a rear window and overcoats and other clothing were missed. Change amounting to \$1 was taken from the Agler and Haki shoe store, entrance here being made through a rear window. The Rees and Wegner garage missed \$25 in change.

Fruitless Worry.
Omaha World-Herald: Wise, indeed, was the patriarch who said: "Worry is useless. I am now in my nineties and looking back over the years that have passed it is found that the things I worried about most never happened."
And still people throughout the world worry, if not over one thing, over another. Farmers worry for fear it will be too wet or too dry; business men worry for fear they have bought too heavily or too light; employees worry that they will be laid off or dismissed; employers worry over outstanding credit accounts and incoming bills; fathers worry for the future of their boys; mothers worry fearing their wish; students worry over their forthcoming examinations; misters their flock will dwindle and the mass of humanity go straight to hell.

Some of these things do happen. We see them happening every blessed day of the year. But what of that? Worry would not hinder. It only helps bring about that which we worry over. With worry indelibly stamped on our mind we are not as clear as we might be if we scoffed at worry and pushed ahead. No great problem of an intricate nature is ever quite successfully worked out while the brain is befuddled with worry. Deep study does not require worry. It does require stern thought, then action. The best plan may fail utterly but not because worry did not enter into its fabric. The man who worries over his physical condition, calls a physician and continues to worry about his health day and night, would often have saved money by calling an undertaker at the beginning, a noted physician once asserted. As a living example of not worrying one may point to Chauncey Depew, who at an advanced age is hale and hearty—and he says he never worried; that when he closed his office door for the day he locked up all business affairs and went home, into a different world. Chauncey Depew has always been one of the most active of men. He has had to do with matters of importance throughout the civilized world, and yet never worried.

Life is too short to worry over little things or big things.

For Handling Checks.
Genoa Signal: Lincoln business circles are considerably disturbed over the announcement that beginning January 1 all Lincoln banks will charge 2½ cents on each check they handle that must be sent out of town for collection. The Lincoln banks say the expense involved in handling out-of-town checks is too great to be borne longer by them and Lincoln business houses say that the banks do too high and that the banks do it indirectly by facilitating the transmission of business in Lincoln and by everything that increases the prosperity of Lincoln establishments. The banks set the example of offering all sorts of free service and now they are feeling under the necessity of doing something to make it possible to pay dividends to their stockholders.

Sheriff's Sale.
By virtue of an Order of Sale, to me directed, issued by the Clerk of the District Court of Wayne County, Neb., upon a decree rendered therein at the April, 1926 term thereof, in an action pending in said court wherein Omaha Bond

and Mortgage Company, a corporation, was plaintiff and William E. Kenrick, et al., were defendants. I will, on the 30th day of December, 1927 at 10 o'clock a. m., at the door of the office of the Clerk of said Court, in the court house in Wayne, in said county, sell to the highest bidder for cash, the following described real estate, to-wit: The Northwest Quarter of Section Fifteen (15), Township Twenty-Six (26) North, Range One (1), East of the 6th P. M., Wayne County, Neb., to satisfy the aforesaid decree, the amount due thereon being \$8,527.04, with interest and costs and accruing costs.

Heat Water for Live Stock During Winter Weather
Fresh water, easily accessible to cattle, hogs and other live stock is an important essential during cold weather. A tank heater is necessary to prevent freezing. Give your stock plenty of water by installing a tank heater.

McCormick-Deering Feed Grinders
Built in three sizes, from 6-inch to 10-inch, requiring from 3 to 16 h. p. according to size and type. Designed to grind various combinations of grains and forage crops.
Save 12 per cent to 26 per cent on your grain bill.
Actual tests with whole grain, fed to healthy, full-toothed animals, show an average loss of from 12 per cent to 26 per cent. In other words, out of every 100 bushels of whole corn fed, 26 bushels yield practically no nourishment. The unground oat diet shows a loss of 12 bushels out of every 100. Even though you feed only a few animals, such feeding losses cannot be overlooked. A few minutes, now and then, with a McCormick-Deering Feed Grinder will turn the whole grain into nourishing, easily-digestible feed at low cost.

McCormick-Deering Engines
Full-powered engines with removable cylinder, enclosed crankcase, magnet to ignition, efficient fuel mixer, etc. Sizes 1½, 3, 6, and 10 h. p.

McCormick-Deering TRACTORS
Sturdy, 4-cylinder tractors, built in two sizes, 10-20 h. p. and 15-30 h. p. Also, the all-purpose Farmall. Ideal tractors for winter belt work.

For years the McCormick-Deering has provided the standard farm power, made in two sizes, 10-20 h. p. and 15-30 h. p. Fully equipped 4-cylinder tractors with ample power at belt, drawbar, and power takeoff. Thousands upon thousands of successful farmers rely on McCormick-Deering Tractors to keep down the costs of farming. They are beating down the high cost of labor by making that labor do two or three days' work in one, and that method leads to farm profit.

McCormick-Deering Corn Shellers
For every need; ranging from the 1-hole steel hand sheller to the power cylinder sheller of 350 to 400 bushel per hour capacity.

The funds of the county, and its numerous sub-divisions, of which the county, through its county treasurer, is custodian, are found to be deposited in the banks of the county, at the close of business for November, 1927, as follows:

First National Bank of Wayne.....\$39,941.76
State Bank of Wayne..... 35,578.77
Citizens State Bank of Winside..... 23,847.63
Merchants State Bank of Winside..... 22,988.92
Carroll State Bank of Carroll..... 20,541.19
Hoskins State Bank of Hoskins..... 20,090.91
Farmers State Bank of Altona..... 12,847.70

Anson A. Welch, judge of the district court, ordered the payment of a Mother's Pension to Lizzie Longnecker of \$30.00 per month, for a period of six months, beginning December 1, 1927, to ward the support of her minor children, Harold Longnecker aged 8 years, Hattie Longnecker aged 6 years and Edna Longnecker aged 1 year.

On motion the above order is duly approved and the county clerk ordered to draw the warrants in compliance with such court order. Whereas, the First National Bank of Wayne, Nebraska, owes certain personal property tax to the County of Wayne, Nebraska, for the years 1925 and 1926, and Whereas, said County of Wayne has heretofore contended that said bank should pay at the rate of seventy (70) per cent of the rate imposed on tangible property, and Whereas, said First National Bank has contended that it was indebted to said county for said taxes at the rate of five mills as provided by the statutes of Nebraska, and Whereas, in the case of Merchants National Bank vs. Otto J. Bauman, et al, brought in the Federal Court for the District of Nebraska in Douglas County, Nebraska, and it was therein decided that said National Bank should pay at the rate of five mills as contended for by said First National Bank of Wayne, Nebraska, and Whereas, said judgment of said court has become final, and Whereas, in a case recently tried in North Platte, Nebraska, involving both state and national banks it was decided that all banks were liable for the payment of said five mills as contended for by said First National Bank of Wayne, and Whereas, an appeal is contemplated from said action so tried in North Platte, Nebraska,

Now, therefore, it is agreed between said county of Wayne, Nebraska, and said First National Bank of Wayne, Nebraska, that said First National Bank shall on this date pay to the County treasurer of the county of Wayne, Nebraska, the 1925 and 1926 personal tax on said five mill basis with interest thereon to this date, which said payment shall constitute a full and complete payment and satisfaction of said 1925 and 1926 tax, unless in an appeal to a court of last resort from a decision adverse to a national bank in the state of Nebraska wherein said question so existing between said First National Bank of Wayne and said county of Wayne is presented, directly and unequivocally, and the question so presented is germane to the issues before said court, and in the event said court holds contrary to the contention of the said First National Bank of Wayne, Nebraska, and holds that said tax shall be based on the rate of seventy per cent of the rate imposed on tangible property, that thereupon the said First National Bank of Wayne shall pay to the said county of Wayne the remainder of said personal tax for 1925 and 1926 as may be determined by said decision so rendered.

In witness whereof the parties have hereunto set their hands this 6th day of December, 1927. (Seal of county) The County of Wayne, Nebraska. By Frank Erxleben David Koch Henry Rethwisch Its Commissioners.

Fatal Accident On Road Near Stanton

Stanton, Neb., Dec. 12.—Ted Kloppe, about 25, Wisner, was killed, and William Buskirk, O'Neill, is so seriously injured he is not expected to live, as the result of an accident in which their automobile ran off the grade and crashed into an electric high-line pole, about two miles west of Stanton yesterday afternoon, shortly before 6 o'clock. Kloppe, driver of the machine, was instantly killed when thrown clear of the touring car as it upset. Buskirk, who is in a hospital, had not regained consciousness at 9:30 o'clock this morning, having been unconscious about fifteen and one-half hours at that time. He is suffering from a serious skull injury. His chances for recovery are regarded as slight. Buskirk was still bleeding profusely from cuts about his face at 9:30 o'clock. Paul Callics, Stanton, was the first to arrive at the scene of the accident. Assisted by other motorists, he brought Kloppe's body and Buskirk to Stanton. Last summer Kloppe and Buskirk worked with a paving construction gang in Stanton. This fall they hired out as corn huskers in this vicinity. Kloppe's brother, who is employed as a corn husker by Andrew Kinsley, well-known Stanton farmer, is expected to arrive here this morning and make funeral arrangements. The father and two brothers of Buskirk, all of O'Neill, arrived here this morning after being summoned by Sheriff Roy Whalen.

Suit Would Break Will At Madison

Madison, Neb., Dec. 9.—The Susan F. Kierstead will contest case is being tried in district court here and likely will require the remainder of the week to finish. The estate consists of about \$60,000 worth of property and the will is contested by 13 relatives, largely nephews and nieces of the testatrix, scarcely any of whom are beneficiaries under the will. The will, it is alleged, was drawn by M. D. Tyler, attorney of Norfolk, and witnessed by Donald D. Mapes, and R. M. Powers, also of Norfolk. It gives Minnie A. McGinnis, Norfolk, \$500; Mrs. Daisy Beatty, Tilden, \$1,000; Mrs. Mary Saxton, \$500; Bertha Huston, \$500; Mrs. Lillie Pryce, Portland, Ore., \$1,500; Mrs. Ella Shippee, Los Angeles, \$500; John R. Saxton, Tilden, \$500; Samuel Whitehead, Kansas City, \$500; Guy E. Kierstead, Tilden, \$1,000; M. D. Tyler, Norfolk, \$1,500; Methodist Episcopal church, Tilden, \$1,000; Methodist Episcopal church, Norfolk, \$500; Methodist Episcopal hospital, Omaha, \$10,000 and the rest and residue to the Woman's Home Missionary society of the Methodist Episcopal church. The plaintiffs claim testamentary disability. It is said that they have summoned a large number of witnesses to prove their contention that the testatrix at the time she executed the will, and for years prior thereto, was suffering from senile dementia. The first conflict in the trial arose during the examination of jurymen, plaintiffs taking the position that membership in the Methodist church disqualified a jurymen from impartial service. The judge overruled this objection.

Dog Rescues Farmer Attacked By Hog

Spencer, Neb., Dec. 12.—Attacked by a hog and saved by a dog, John Ableidinger learned the great need of being more expert in the art of hog calling. As he said "Poohy, Poohy" to his hogs the head of the herd became enraged and attacked Mr. Ableidinger as he distributed their breakfast to the troughs. The 500-pound beast made a lunge at Mr. Ableidinger's legs and threw him then began chewing at his legs. Finally the animal was about to attack him in the face when the faithful "Shep" came to the rescue and clearing the fence rushed the hog and chewed his hind legs till Mr. Hog assumed the defensive and, chasing the nimble pup as he harried him with a nip here and there, gave Mr. Ableidinger a chance to crawl to safety. Whether the dog ever does another worthy deed or not he saved his master's life and won a sheltered life for the rest of his dog career. The doctor was called and dressed the man's wounds which would have been more severe had not the hog been handicapped by having his tusks removed a year ago. Mr. Ableidinger now preaches to all farmers his newly learned creed: "Dehorn the bull, detusk the hog and keep a dog."

THE KNOT-HOLE

No. 28 Wayne, Nebraska, Thursday, Dec. 15, 1927. Vol. 1 This is the season when the days get shorter. Also the cash. Some people laugh at the importance of times. A short time ago at a funeral, one of the pallbearers slipped and nearly fell into the grave. And the other five smickered in spite of themselves. The weather here has been having the past week or so is mighty hard on the coal bins. If yours is getting low, just call 147. You may be sure we have what you want and at prices no higher than you would have to pay for coal that might not be so good. By starting right now and saving \$2 a week, you could give your wife a present of \$100 next Christmas. If she has a weak heart, though, you'd better not try it. It's awfully handy to be able to start to the telephone and order a load, a ton or only a few hundred pounds of your favorite coal, now isn't it? That's the service your local coal dealer renders you. He invests his money in sheds in which to store this "EVERYTHING TO BUILD ANYTHING WITH"

the bridge according to the requirements of law and asks the right to operate it as a toll bridge for a period of 20 years, after which the states and counties may purchase it and convert it into a free bridge if they so desire. In this case the states and counties would pay the company the actual cost of construction, this sum to be determined by a board of abstraction to be chosen by both parties. Two years in which to build the bridge are asked by the company. The bridge will have the regulation 18-foot driveway. A similar proposition has been made at Blair, Neb., but as yet no definite action has been taken there.

Prehistoric Bones Found Near Verdigre

Verdigre, Neb., Dec. 10.—Edward E. Kuehl, who resides one and a half miles south of here along the banks of Verdigre creek, has received word from Dr. E. H. Barbour of the state university at Lincoln, that bones Mr. Kuehl found recently on the banks of the creek a mile and a half south of his home, are those of prehistoric animals. There were seven specimens, which Professor Barbour classified as follows: No. 1—The toe bone of a fossil horse, first phalax. This was found about 100 yards from Verdigre creek. No. 2—The ankle bone, fossil rhinoceros, central tarsal, and this was found about five yards from the creek. No. 3—The head of the humerus of a young fossil rhinoceros. No. 4—Fragment of fossil bone. No. 5—I lime concretion. No. 6—A rough lime concretion. No. 7—A piece of fossil bone, silicified, probably from the femur of the four tusked mastodon. The other fragments are fossil bones. Mr. Barbour advised Mr. Kuehl not to give up looking as he might find some very valuable specimens. Mr. Kuehl sent the specimens to the state museum at Lincoln to keep.

Nebraska Potato Crop Yield Good

Lincoln, Neb., Dec. 9.—Nebraska's potato crop shows a yield of 106 bushels an acre this year, a report of the state and federal division of agricultural statistics declares. Last year's average was 73

Sheridan and Sioux counties each produced more than 500,000 bushels this year. Dawes, Kimball, Brown and Morrill had smaller productions and acreages. Total production for 1927 will be 8,904,000 bushels as compared to 5,329,000 bushels last year and an average of 8,378,000 for 18 years, statistics reveal. Almost half of the state's production, 4,833,800 bushels, was grown on 33,900 acres in the eight northwestern counties, commonly referred to as the commercial potato district. This also is the largest commercial potato crop Nebraska has had since 1922, when 6,000,000 bushels were produced, and this year's yield of 131 bushels an acre in this area is the largest since 1917. Box Butte county is the leading potato county with 11,800 acres, producing 1,293,000 bushels, the records show. Scotts Bluff county is second with 996,800 bushels from 5,696 acres.

Love One Another.

Dr. A. L. Bixby, Don't stand the Savior by, saying that he advocated war. He spoke in parables, and the sword he said he came to bring, was the sword of the Lord and Gideon and not a murderous Damascus blade. Either this interpretation is true or Christ was faking when He admonished those of the faith to love one another. Perhaps the mailed fist will some day be a deal better. Wall Street Journal.

Let us come together in the spirit of thanksgiving, for as we review the history of our church we have every reason to be glad and rejoice. Special music will be rendered morning and evening. At the night service we shall bring the last of a series of messages on the "Life of Christ," using again pictures and song. This coming Sunday morning is the time when the groups will bring in the amounts, collected and secured toward the anniversary fund. The group bringing in the largest amount scores an

additional 500 points in the contest. Thursday of this week (today) we shall have our monthly fellowship supper and program. The "White Group" will be in charge. W. W.
