Up To Parents. Aurora Republican: One of the pet ideas of sundry parents in this rollicking age of anto-mobiles, bridge parties and committee meetings was the target for a shaft from F. M. Gregg, head of the syschology department at Nebräska Wes-leyai university, when he told the educational association re-cently that schools alone cannot be held responsible for charac-ter training. Class from teach-ing cannot rise higher than the attitude of citizens on moral is-sues because character educa-tion is complex and depends up-on too may factors to be con-trolled whilly by formal educa-tion, he said. "For instance, if the leading citizens of a com-munity are known (ho patronize hip flasks) on social occasions and the report thereof becomes a matter of levity in social cir-cles, any teaching of the schools on the subject of respect for law usprenching along and the appar-ent attempt of many parents to escape responsibility for the training of their offspring the burden cannot be shifted on to, the schools thus lightly. It is true that the child spends much of his time in the school, but if ho is influenced to a large degree by what he sees and hears at home, if his parents break the laws of the country, he is apt to break them. If they speak discrepterfully of them, he is apt to undervalue them. The home channot dodge responsibility for the moral and spiritual groundwirk of its products, the better for the children who must deneed first

ual groundwork of acts, the better for ren who must depend home and secondly

the work. No matter whether you use a pleasure car, truck or tractor, there is a TYREE CORE to fit that will put an everiasting stop to overheating. Bring your car in, we will make a thorough examination of your entire cooling system, at no cost to you, tell you exactly what is the trouble and how to fix it. If you let us make the necessary repairs, we will guarantee en-tire satisfaction and a reasonable price.

200 West First Street Wayne, Nebraska

Eventually, Why Not Now?

Buy an electric ice machine. At one time an automobile was considered a luxury. Now it is a necessity.

The electric ice machine is of more importance because it insures your nealth, sayes food and costs less to operate. Electric ice machines are constructed to last for years, and your trouble of watching the ice bill is over.

We do not know of a single owner of a Frigidaire or Universal who would go back to the old way. Those who own electric pumps would not go back to the old pitcher pump. An electric ice machine would cost no migre to operate.

We have two Universal electric ice machines on the close-out. We will install cheap and guarantee satisfaction. We will give you liberal al-lowance on your old ice box.

We are distributors for Frigidaire and Universal electric ice machines.

Call or phone for our prices and terms.

Calling by Number Is Like

Traveling a Well Marked Road

There is no waiting at the crossroads of beech when you give the operator the mber of the telephone you are calling.

Telephone lines are numbered on the switchboard. When the number is given, instead of the name, the operator can serve you more promptly, as it is not necessary for her to look up the number.

You save time by obtaining the correct telephone number from your directory and furnishing it to the operator.
