Call New Pastor To Altona Church

Rev. E. J. Moede of Sheridan, Wyo., has been chosen pastor of the Altona Lutheran church and has accepted the call. He will be here about the middle of September.

The former pastor's parsonage here has been remodeled and will be occupied by Prof. C. E. Germeroth and family. The new pastor will occupy the residence which has been the home of the Germeroths. Women of the congregation papered the second floor rooms of the new home for the Germeroths Monday.

No services will be held in the Altona church next Sunday on account of the mission festival at Rev. H. Hopmann's church in Wayne. This congregation is invited to attend there.

Score Is Tie In Game On Sunday

Altona baseball team met a team from northeast of Wayne Sunday at the fair grounds diamond in Wayne and the score stood 5 to 5 at the close of the contest.

Modern Woodmen and Altona meet in a baseball game next Sunday, Sept. 9, at the Kay amusement park. s6t1

Amalgam Fillings For Teeth

Amalgam is an alloy of silver with other metals.

Fillings with this alloy produce a hard in material that becomes plastic in from six to twelve hours. It is equally as good for preserving the teeth as gold—is much easier to use and not expensive.

My experience has been that fillings of this material preserve the teeth for five, ten and twenty years.

Leadership Is Not Luck

Doing things a little better than they are commonly done is the everyday work of the Steele-Siman Outfit

For That Is What Tells The Story

The age and reputation of a business house tells the story of its dependability, and dependability is absolutely essential in the Live Stock Commission business. For many years we have been building our organization to take care of the service requirements of our customers. We have departments to look after your buying or selling wants, whether it be cattle, hogs or sheep.

It is wisdom and economy to place all your business through one organization whose age, reputation and growth is the best evidence of its efficiency.

Put us on your pay roll, by consigning your next shipment to us and give us a chance to display our ability as "Real Salesmen and Caretakers."

LET US HEAR FROM YOU

Phone 293 Wayne, Neb.

Full Line of Wallpapers and Quality Paints

(Continued on Page Five.)

Mirroring The Fashions Of Fall

(Continued from Page Two.)
single, narrow strap up the instep joins another strap around to the counters. For a black frock there is a smart band of black satin and silver, designed with much grace and precision.
Variation in Sport Shoes.
Sport shoes are refreshingly bright in various leather combinations. Beige antelope and brown patent leather are effective in one pair. Brown and white lizard with white antelope are especially good in another. Mark the effective points on the counters of the lizard—the binding of the same, the double narrow straps over the instep tied with cord and tassels. Calfskin and lizard also are interesting in an oxford shoe.

Polo clothes are correct when worn by the woman's identical with the man's. An outfit consists of white breeches, brown boots, a sateen vest over a knitted polo skirt, and a white helmet. Informal wear includes tan whip cord breeches, brown field boots, white riding skirt and white helmet.

Clothes for Hunting.
Shooting clothes seem most snappy in tweed and covert cloth. The comfort of a divided skirt in covert cloth with a shooting jacket over it is evident. Canvas top boots and a gabardine trench raincoat may be useful, too. A heather mixture in tweed makes a sportswear appearance in a suit for Diana, the huntress. A wrap-around skirt with a double-breasted jacket, a fitted felt hat and sensible oxfords finish this outfit.

If one should be compelled to venture forth in the rain, and those women who are deep in club activities and politics will need to go promptly, there are raincoats that are good looking, without the dismal effect that used to be associated with that name. Light weight silk coats are possible that slip folded into a flat envelope when not in use. Heavier coats are also designed of rainproof materials, that may be worn all day if needed. There is nothing about them to suggest rain when the sun shines, and they will be a great blessing to business and club women.

Man Is Killed Shooting Rats

Belden, Neb., Aug. 30.—While shooting rats in the woodshed at his home here, B. S. Roland, 60 years old, a retired farmer, accidentally shot and killed himself, his head being blown off.
Mr. Roland was using an old fashioned hammer shotgun. When her husband did not return from the wood shed and she heard no more firing Mrs. Roland went to investigate and found the body of her husband.
The dead man had resided in Cedar county 30 years. Nine years ago he retired from the farm and took up his residence in this town. Besides the widow, five daughters survive him.
Mrs. Roland, who has not been in good health, is suffering from shock as a result of the death of her husband and is not expected to survive him long.

Dr. Callias' Reason.
Aurora Republican: Dr. Jennie M. Callias, Democratic national committee woman from Nebraska, said a few things after reading Al Smith's acceptance speech and announcing her withdrawal from his support. And for those who are sincerely interested in the prohibition question and believe it is a vital issue in the campaign, what she said is worth pondering. Among other things she said: "I shall oppose the election of Governor Smith because he is opposed to the principles of prohibition, and this promises to work for its serious modification. . . Governor Smith promises to enforce the law, but he has not enforced prohibition in New York. He favored and signed a bill for the repeal of the New York prohibition law to place it beyond his power to enforce the law. He

cannot and will not enforce a law in which he does not believe." There you have it, devoid of a bombast. There is no hint that Governor Smith is insincere, no questioning of his motives. But there is the statement which is borne out by public records, that prohibition has not been enforced in New York state. There is the statement that Governor Smith, by his own admission, is opposed to the principle of prohibition and pledged to work for its modification. These two, the fact that he is opposed to prohibition and the fact that he has failed to enforce it in his own state, are enough to indicate what would probably happen should Governor Smith be elected president of the United States. Those who believe in prohibition and those who do not have their opportunity. Smith is wet, all assertions to the contrary notwithstanding. Dry democrats and wet republicans should remember that and vote according to the dictates of their conscience.

Local Man Weds Missouri Girl

Wilbur Hansen Marries Miss Mabel Heithold in New Haven on Wednesday.
Miss Mabel Heithold, daughter of Mr. and Mrs. Herman Heithold of New Haven, Mo., and Mr. Wilbur Hansen, son of Mrs. Wiebke Hansen of Wayne, were married at the Lutheran church near New Haven at 2 o'clock on Sunday afternoon, August 26, eighty-five relatives and friends being present for the ceremony. A reception followed at the home of the bride.

organdie. She carried flowers also. David Noeker of Gerald, attended Mr. Hansen as best man. Geraldine Scherer, as flower girl, was dressed in pink and carried a basket of pink flowers.
Mr. and Mrs. Hansen will live on a farm near Wayne.
Near relatives who attended the wedding were: Mr. and Mrs. Alex Suhr and family of New Haven, Mr. and Mrs. Otto Heithold and family of Pender, Mr. and Mrs. D. Heithold of Wayne, Mr. and Mrs. Arthur Heithold of Hoskins, Edwin Heithold of New Haven, Miss Ella and Miss Helen Miller of Wayne. Others were present from St. Louis and New Haven vicinity.

Writes Of Visit In Southern State

Mrs. E. L. Griffith, who went from Wayne a few months ago to visit in Kansas City, Mo., has gone to Scottsbluff for the winter. She

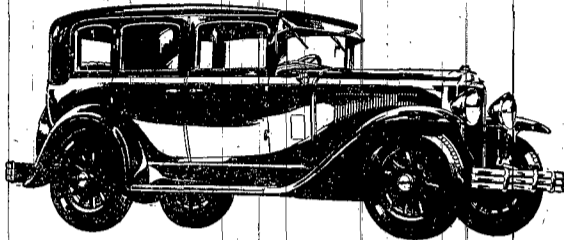

writes of her visit in Kansas City as follows:
"My vacation in Missouri was very fine. Kansas City has so many places of interest to visit. I spent two days at Excelsior Springs and was surprised to find such an enterprising little

city with the finest, modern hotels and many pleasant parks. Excelsior Springs also has a tourist camp equipped with nights, ovens, showers, etc.
"The weather in Missouri has been very comfortable with frequent rains."

All men are born equal. Then they begin to outgrow it.—Tolstoy do Blade.
Smaller dollar bills are now being manufactured. They give about the same mileage.—New York Sun.

Culture is sadly on the wane in America, according to a French critic. Maybe he had in mind the fact that a prize-fight doesn't seem to draw quite \$1,000,000 any more.—Jackson Daily News.

The new Buick is the new Style

More than handsome... more than luxurious... a wonderful new type of motor car beauty... a thrilling turning point in body design

It will be imitated, of course! The new, the fine and the beautiful always inspire emulation. But so great is the cost of building the magnificent new Fisher bodies for the Silver Anniversary Buick that imitation will be possible only to much lesser ears, and even these will find difficulty in finding where Buick leads!

\$1,600,000 has been expended in manufacturing the dies alone for the new Buick bodies; and the gracefully curving side panels which form one of their distinguishing characteristics represent the most expensive steel paneling work employed on any automobile in the world!

But it is not in the matchless grace and beauty of exterior design alone that the Silver Anniversary Buick eclipses other cars. The velvet mohair upholstery in the closed models—the hardware and fittings—the many appointments of luxury and convenience—are all of the richest quality; and the bracing of the bodies, which imparts strength and durability and freedom from squeaks and rattles, is the most efficient and effective known to motor car practice.

In dashing beauty—as in fleet, powerful performance—the world holds no equal for the Silver Anniversary Buick with Masterpiece Bodies by Fisher.
It is more than handsome, more than luxurious—it marks a thrilling turning point in body design. And the motoring public, buying in such tremendous volume as to force the great Buick factories to work day and night to supply the demand, is elevating it to the prominence of a vogue!

**Early Days In
Wayne County**

From the Wayne Herald for August 29, 1908:

C. A. Berry left for a trip to Idaho.

Harry Armstrong went to Minneapolis.

Miss Vallie Amcoast is home after a visit in Ohio.

A. L. Tucker went to Trip, S. D., to visit his sister.

Mrs. N. G. Bentley went to Lincoln to visit friends.

J. L. Beaton has been appointed postmaster at Sholes.

Lee Buroker is playing in Reed's band at Des Moines.

Miss Sarah Milligan is home from a visit in Pennsylvania.

F. A. Berry returned from a trip to Excelsior Springs, Mo.

Miss Edna Neely has been visiting her brother in Sioux City.

D. J. Davis of Carroll, returned after a month's visit in Ohio.

Warren Clisson of Sholes, is the proud owner of Shetland ponies.

John Heckert of Los Angeles, visited his cousin, Dr. T. B. Heckert.

C. M. Craven went to Excelsior Springs, Mo., to spend a few days.

Mrs. Frank Hubbert of Bonesteel, S. D., has been visiting in Sholes.

Mrs. Reiley of New Mexico, is visiting her mother, Mrs. F. M. Griffith.

James Maher of Platte Center, visited his brother, Dan Maher, in Carroll.

Mrs. George Brewer and daughter of Omaha, are visiting Mrs. Guy Wilbur.

Dan Harrington left for New York and Philadelphia to buy merchandise.

Prof. and Mrs. F. M. Gregg of Peru, visited in the O. J. Buffington home here.

August Dangberg sold his threshing machine to Marshall Anderson for \$1,200.

Jake Roush and Mrs. Dan Roush and son left for a visit in Clearwater, Minn.

Miss Lee Hale returned to Alkinson after visiting her cousin, Mrs. W. A. Hisco.

Miss Lena Williams of Red Oak, is visiting her aunt, Mrs. Frank James, in Carroll.

W. H. McCusky, early resident of Winside, died. Funeral service was held in Sioux City.

Mrs. Henry Schroyer went to Norfolk to see her father who was injured in a run-away.

Mrs. McManigal will go to St. Charles, S. D., to teach. She also plans to take a homestead.

Mrs. A. N. Matthey, Mr. and Mrs. Wm. McCabe and Paul Hennon are leaving by car for Indiana.

Mr. and Mrs. Fred Krakow of Emerson, visited the latter's parents, Mr. and Mrs. George Hoefeldt.

Mr. and Mrs. Oscar Ramsey who have been on a claim near Phillips, S. D., plan to return to Winside.

Dave Leary has been chosen janitor of the Winside school. The office pays a salary of \$27 a month.

Fred Pepperkorn has bought the C. Benson residence in Winside and plans to move into town next year.

Wayne county teachers' institute was held in Wayne. Prof. F. M. Gregg and Mrs. M. A. Phillips were instructors.

Miss Faye Brittain left for Spokane, Wash., to visit her sister, Miss Edna Brittain. She will then go to Centralia to teach.

John Gettman and Miss Celia Buck were bruised considerably when the team they were driving ran away and threw them from the buggy.

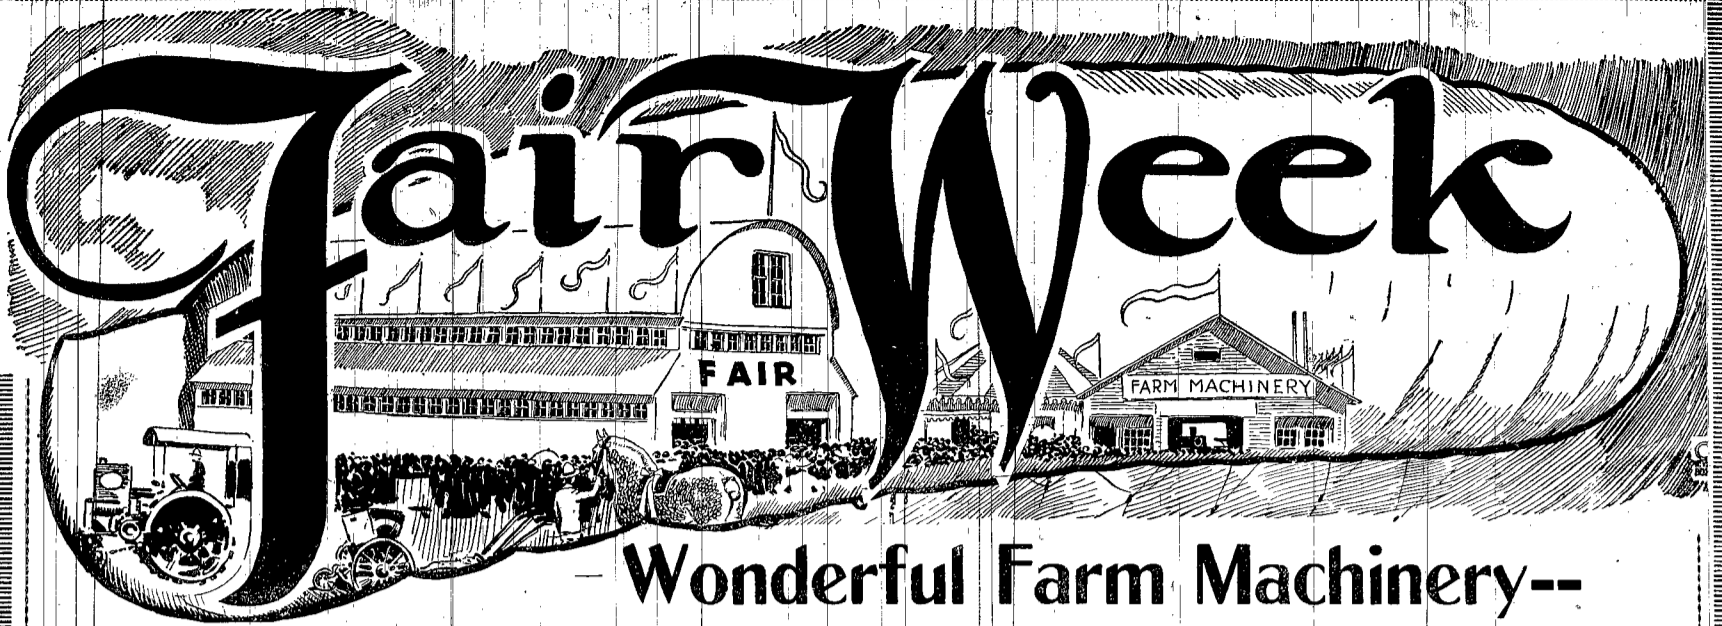

W. F. Bryant of Hartington, was here in the interest of a history of northeast Nebraska, which he is writing for Morton's history of the state.

Herman Lundberg and Miss Anna Lund were married August 20, 1908, at the Charles Lund home, Rev. C. J. Ringer performing the ceremony. They went to Creighton for a visit and will return to live in Wayne.

Wayne county old settlers' picnic was held in Bressler grove. Officers were elected as follows: John T. Bressler, president; O. F. Evans, vice president; George R. Wilbur, secretary; David Cunningham, treasurer; Dr. R. B. Crawford, historian; Miss Charlotte White, assistant historian. Program committee for the next year is: Mrs. J. M. Pile, Mrs. J. T. Bressler, Miss White, Mrs. Crawford and Mrs. Anna Bright.

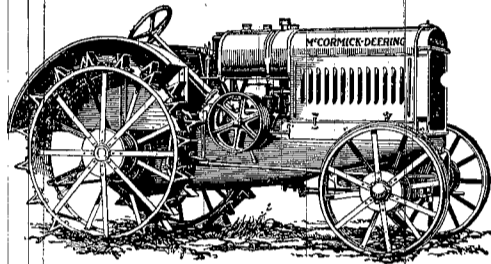

Worry. Some one lately said: "Worry is the interest we pay in trouble that is not yet due." A better statement of what worry is could not be given. Worry never accomplished anything. Worry unfits one for work, undermines mental efficiency, and destroys health. If the editor of this newspaper were an instructor or preacher, he would teach and preach the beneficial effects of that silly practice of worrying about things. Being only a newspaper editor, he can merely now and then deprecate this pernicious habit in an editorial. The best antidote and cure for worry is the realization of the fact that there is but one day to live—today. Yesterday, with its mistakes, has passed beyond recall. Tomorrow may never come. Only the duties and privileges of today front us. Let us make the most of today's opportunities and then we shall retire at its close with a calm mind to awake on another day of greater opportunities and achievements.

So far, Mr. Televox, the mechanical man, has not been used for the blindfold cigaret-smoking test.—Louisville Times.

**Wonderful Farm Machinery--
FAMOUS McCORMICK-DEERING LINES**

We have McCormick-Deering machines in stock and will have them on exhibition at the Wayne county fair next week. See these machines at the fair and note the distinct advantages they offer.

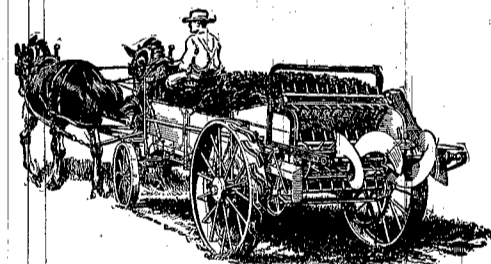

An Investment In Power

Owners everywhere are considering McCormick-Deering tractors an investment in power—an investment that is paying regular dividends by making it possible for one man to do more, to do it easier, and to do it better. In other words, by materially reducing the cost of production, McCormick-Deering tractors are widening the range of profit and making farming more pleasant.

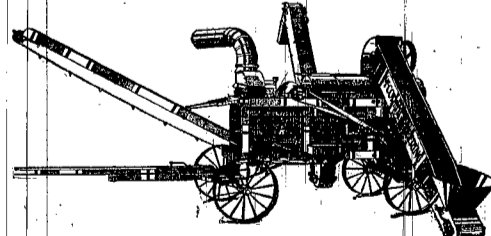

**McCormick-Deering P & O Little Wonder
TRACTOR PLOW**

The No. 2 Little Wonder combines every feature essential to good plowing with a mechanical design which puts plenty of strength where it is needed yet produces a plow that is very light in draft and as light in weight as it is possible to build a good tractor plow. It is all plow—there is no dead weight.

Frequent Spreading Enriches the Soil, Increases the Yield, Makes the Land More Valuable.

A McCormick-Deering spreader saves time, lessens labor, and does the work more efficiently than is possible by hand.

Shell Before You Sell

When you own a McCormick-Deering sheller and shell your corn before you sell it, you can be sure of receiving payment for all the corn, and you have the cobs left for fuel.

You can haul more bushels of shelled corn per load, and as a result move your crop to market in less time. The economy in this is very evident.

It also pays to do your shelling for seed and feed. You can shell just when you want to, and you put the shelling profit into your own pocket.

No matter what your shelling needs may be, you will find the right equipment in the McCormick-Deering line. The small McCormick-Deering shellers are ideal for shelling corn for seed and feed and will deliver the cobs in good condition for fuel. The larger shellers are well adapted to custom work as well as individual use, and will easily pay for themselves with what they save on your own crop and by shelling for neighbors.

Four-Cylinder Power Plant

The Standard in Harvester Design.

All McCormick-Deering tractors—10-20, 15-30 and Farmall—have the modern power plant, a fully enclosed, heavy-duty 4-cylinder engine proved by our many years' of farm power development to be the most practical power plant for the tractor. We began a quarter-century ago with a 1-cylinder design, progressed to the 2-cylinder types and outgrew the 2-cylinder period just as the automobile has done.

Our 4-cylinder tractors give the farmer liberal power, steady running, and wonderfully flexible, easy operation not to be obtained by other types. Vibration and surplus weight are reduced to the minimum, parts are properly balanced, all wearing parts are replaceable, and long life is assured the tractor. The performance of the many thousands of 4-cylinder McCormick-Deerings in every part of the country is convincing evidence of correct design.

**Sandwich Galvanized Alloy Steel
Portable Elevator**

Ordinary black sheet steel is unsatisfactory for elevators. We use the best open hearth steel, to which is added COPPER. This COPPER-ALLOY STEEL fights rust and corrosion. We further treat it with heavy GALVANIZING insuring much longer life than ever before attained by steel elevators.

FUTURE NEEDS

Talk to us about your future needs in the way of tanks, pumps, windmills, gas engines, corn planters, mowers and other machines. We will be glad to show you.

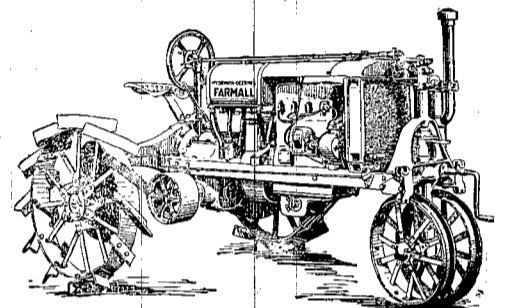

See us for anything you may need in farm equipment. You will receive prompt and courteous treatment.

REPAIRS

The right kind of repairs add new life to your machines. Use only genuine I. H. C. repairs for your McCormick-Deering farm operating equipment. A genuine repair part fits exactly and becomes a perfect part of the machine.

**McCormick-Deering
Corn
Pickers**

Do you look forward to corn husking time with a mind free from worry or are you wondering how the crop will be picked and husked promptly and without loss? The owner of a McCormick-Deering corn picker can go about his daily task or retire at night carefree, for he knows that no matter how big the crop or how scarce labor may be, he can handle his corn crop easily with his own help.

Great Labor-Saving Farmall

CULTIVATING CORN. The Farmall cultivates two rows at a time. One man can cultivate 15 to 25 acres a day, which is doing the work of two or three men and four to six horses. The Farmall has ample power to pull two additional two-row cultivators. Where this equipment is available, six rows can be cultivated at a time.

PLOWING. Under average soil conditions the Farmall will plow 7 to 10 acres a day. This is equivalent to the work of three men and nine horses.

HARVESTING CORN. The Farmall furnishes steady, uniform power for pulling the corn binder or corn picker. In doing this work it saves both time and labor. A man and a boy can pick three or four times as much corn with this outfit as they can by hand.

**The New
McCormick-
Deering**

Ball-Bearing Cream Separator

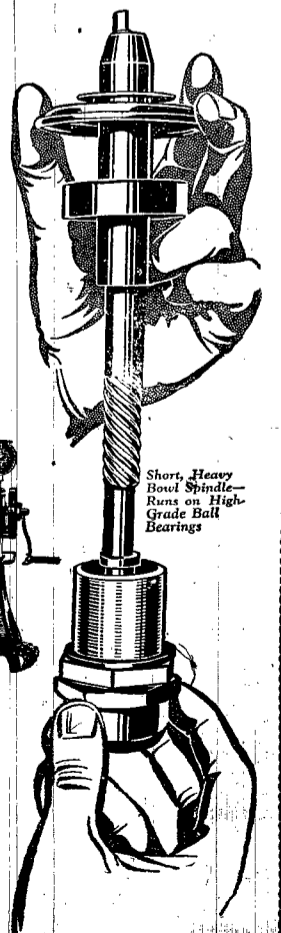

When you consider that a cream separator bowl turns approximately 9,000 revolutions a minute, you realize that THE BEARINGS AND THE BOWL SPINDLE MUST BE RIGHT. The slightest wobble, vibration, or friction in these parts makes the machine turn hard and lowers its skimming efficiency. That's why the builders of the New McCormick-Deering use a bowl spindle heavier than any other and mount it on friction-free ball bearings. McCormick-Deering engineers take no chances—they make your satisfaction certain.

Don't think lightly of the turning question. It is vital. You'll turn your machines twice each day, or 730 times a year. Isn't it worth while to save seven or eight thousand backaches during the life of your machine? Let us demonstrate the New McCormick-Deering on your farm. No obligation.

**A SMALL Down
Payment Puts a
New McCormick
Deering On Your
Farm.**
