THE KNOT-HOLE No. 26 Wayne, Neb., Thursday, December 29, 1928. Vol. 2 Again we observe it (should be easy. But to buy a Christmas present for us this year because we need about everything. This is one of the fall seasons when the man who has his farm fenced hog tight is getting well paid for the fencing by the down corn saved. There are no two ways about it—a farm well fenced pays big dividends on the fence investment. It is not too late to drive Banner steel posts nor too late to put on American fence. We received a car each only last week. Dear Editor: "I am in love with a homely girl, but she doesn't return my love. However, she is a pretty girl with lots of money wants to marry me. What shall I do?" "Marry the one you love and send us the address of the other one." Smith—"How much did your last loud speaker cost you?" Jones—"Well, I'm still paying her \$25 a week alimony." We have just heard of one young man who is using his Christmas savings this year to pay the last installment of "EVERYTHING TO BUILD ANYTHING WITH" last year's Christmas present. But that's lots better than not paying the installment at all. Several farmers have placed orders with us for Tip-Top six-pen farrowing houses for spring delivery. There is nothing else like it in the farrowing house line. Call and let us show you this remarkable improvement. Farmer, (to chemist)—"Now you be sure to mark on them bottles which is for my wife and which is for my cow. I don't want nothin' to happen to that Jersey cow." The world owes you success and joy, The world owes you respect; And all you have to do, my boy, Is hustle and collect. If price is a factor, and it often is, in your coal calculations, we believe we have a great value in our Kentucky lump coal, rescreened, at \$10 per ton. We know it will out-heat anything we have seen at any where near the price. Our honest opinion is that some of the higher priced coals are much cheaper in the end, but we can't get that across to all of the people. Only 22 m. s. d. u. Carhart Lumber Co. Wayne, Neb.

ITZA PIPE

Thanksgiving

Says Itzas "As in years of yore, 'There's much that I am thankful for.' Both in the winter and the summer, 'I'm thankful that I am a plumber!' We have every reason to be thankful for the fact that we are in the plumbing business in this community. The success of our business and the knowledge that we are the leaders in our line are blessings we do not forget. We trust everybody has something equally valuable to be thankful for.

## Douglas Fairbanks In Thrilling Film

In Douglas Fairbanks' new picture, Douglas Fairbanks as The Gaucho, at the Gay theatre next Sunday and Monday, he has the most dashing part he ever played. A gaucho is a picturesque nineteenth century character little known to the States, and apparently destined to attract more than ordinary attention there as well as in South America.

The scenes of Doug's plays have been veering southward; France, England, Arabia, Spain, the Antilles—and now the Pampas. The story has no definite locality but is laid in the Pampas regions at large, making no pretense at historical accuracy, but using the picturesque environment as a background for romance. Douglas Fairbanks as The Gaucho is a tale of treasure, combat, intrigue and love, concerning the adventures of a bandit who crosses the Cordilleras with his riders to seize a city grown rich from the offerings of pilgrims to its sacred shrine. For the first time the star has two leading women, one a wild madcap, the other a saintly character. The production has a conflict of love interests, said to be much stronger than in any previous Fairbanks picture.

Under the instruction of real gauchos from Argentina, Fairbanks has become an adept with the boleadoras, which he uses in the picture as one of his many striking feats of prowess.

## Asks Large Sum In Damage Suit

Norfolk, Neb., Nov. 21: A suit for \$30,000 damages was filed in Madison county district court by Burt H. Schurr, as father of Arnold Schurr, 18, a minor, against August Manske, father of Maynard Manske, a minor, and a car sales company, all of Norfolk. This suit arose out of an accident which occurred in Norfolk last April 19, in which young Schurr lost a part of a leg. Negligence on the part of both defendants is charged by the plaintiff. It is alleged in the petition that young Manske was less than 16 years old at the time of the accident, and was violating the state law by driving a motor-

cycle. The plaintiff also charges that Manske was an incompetent and reckless driver. It is alleged that young Manske invited young Schurr to ride with him on the motorcycle from the Norfolk high school building.

After passing an automobile, it is charged, Manske was traveling at the rate of 30 miles an hour when he crashed into the side of a car driven by William Pickard, an employe of the car company. The car company employe is charged with negligently entering an intersection, and was traveling at a speed in excess of 12 miles an hour. Because of the loss of his leg, Schurr claims that he has suffered permanent stunting of growth, a loss of 20

pounds in weight, and shattering of his nervous system. Stanton county fair board meets December 11 to elect directors and transact other business.

Miss Pearl Trentz and John L. Kessler of Randolph, were married Monday of last week. Rev. William Kerns of Wayne, performed the ceremony at the Randolph church, the pastor there being away.

The annual meeting of the Blue Pole highway association will be held in Norfolk December 5. All towns on the road which runs from Omaha to the Wyoming-Nebraska state line are asked to send representatives.

# The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed, and faster acceleration—it offers a type of performance that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads, it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation

averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline pump and filter... new and larger carburetor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with an adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

The Christmas season, now approaching, is a powerful force in the spread of good feeling.

Automobile accidents, due to drunkenness or other incompetence, may be expected to prompt more completely restrictive legislation, defining qualifications for driving and fixing assurance of reparation in case of accidents.

Most of the corn has been gathered and farmers are now able to give more attention to other branches of their business.

People outside of newspaper circles are sometimes distressed over mistakes of commission and omission made by editors, reporters and printers.

Herbert Hoover has reached Nicaragua in the course of his southern trip, and his speeches emphasize the purpose as one to create a closer understanding anywhere at any time.

Omaha people have been terrorized by the succession of hatchet murders, and they have been locking their doors and taking other precautions.

We are issuing a day earlier than usual this week in order to accommodate ourselves to Thanksgiving day.

A recent magazine article points out that rich relations are as undesirable as poor relations.

THANKSGIVING. Thanksgiving day which invites review of blessings, exalts a man's soul and tends to kindness and fellowship.

all kinds of hardship. The writer suggests the ups and downs in material possessions. The man who was rich yesterday may be having hard sledding today, whereas the fellow who is struggling to make ends meet today may be rich tomorrow.

Better Newspapers. Omaha World-Herald: Prof. Willard Grosvenor Bleyer, director of the school of Journalism at the University of Wisconsin, has been poking into the musty files of American newspapers for 240 years past.

He finds that newspapers now print a greater volume of news more accurately presented, less sensational news than the penny dreadfuls of the thirties and the so-called yellow of the nineties.

Here is an estimate from one who can bring to bear upon the subject the impartiality of an outsider and the knowledge of special study. It should be reassuring to readers who in all ages have doubtless wondered how much reliance they might place on their daily paper and comforting to those workers in the newspaper vineyard who are given to speculation as to the trend of American journalism.

The Hoover Plan. The federal reserve board was created for the purpose of outlawing money panics. The Hoover plan of accumulating during fat years a reserve to be drawn upon during lean periods, just endorsed by the federation of labor, is calculated to minimize if not make impossible the customary conditions that follow depressions.

Business. Sioux City Journal: A survey announced in New York shows that the industrial output for October went to a new high record for the month. This resulted from expansion in key industries, which are now running in a way that indicates that a new peak for all time may be reached in the last quarter of the present year.

When the new idea takes hold—the one about selecting perfume to reflect the temperament of the user—we expect to become more familiar with the aroma of the quince blossom.—Detroit News.

Scientists have discovered that the Eskimos in the Arctic region were preceded by a race of more intelligence. The fact that they are no longer there shows they had more sense than the Eskimos.—Macon Telegraph.

Politics makes strange bedfellows—Massachusetts and South Carolina, for example.—New York Evening Post.

ENCOURAGING. Talks at the banquets incident to the opening of Hotel Stratton last week expressed high satisfaction over the unity of purpose and action which resulted in the needed improvement. It was pointed out that indifference and inertia mean decadence, and that no town can stand still.

at the job keeps the income going and in turn it finances the flow of goods to the consumer. Governor Brewster, who acted as Mr. Hoover's spokesman in presenting the plan said that unemployment at times has decreased the capacity of the American people to buy to the extent of five billions a year, a condition that nobody wants, because nobody profits and everybody loses.

Do It Early. (Dr. A. L. Blyer.) Here is a thought you must allow. It is quite in line with reason: To do your Christmas shopping now. Will not be out of season.

Why linger, like a shackled hound, Until the Christmas season, And then go spinning round and round. As one devoid of reason?

Go now and choose the comforts lacked, While mental moorings are intact, And pockets bulge with booty.

1927 and 1928. Last year the trend was steadily downward, whereas this year it has been an upswing with several industries going to new high records for output. Because of the decided upturn in the industry, steady throughout the year, and in the last few months constantly gaining momentum, it is believed in the west that the seasonal recession will be small.

The advancement and expansion noted this fall came at a time when the presidential campaign was in full swing. The fact that industrial activity gained instead of losing ground shows the presidential struggle exerted no undue influence upon the economic situation.

Revenue freight car loadings for the week ending November 10 numbered 1,058,295, a decrease from the figure of the preceding week of 50,047 cars but an increase over the same period of last year of 78,161. Live stock loadings suffered the only decrease.

York Republican: It was a Scotchman who conceived the idea of sending out Christmas cards. That was in 1840. He did not know he was starting a custom that would grow into a great commercial enterprise.

Churches. St. Paul Lutheran Church. Sunday school at 10 a. m. Preaching at 11 a. m. Dr. Guss will install the new pastor, Rev. W. C. Heidenreich, at this time.

First Methodist Episcopal Church. (Rev. V. W. Whitman, Pastor) Family day will be observed by the Sunday school next Sunday at 9:45. Father, mother, son, daughter, grandparents, uncles and aunts, bring the whole family.

First Presbyterian Church. (Rev. Fenton C. Jones, Pastor) 10:00, Sunday school. Prof. A. B. Gilver, superintendent. Growing every week. The second goal is just around the corner.

Baptist Church. (Rev. A. C. Downing, Pastor) "Offer unto God thanksgiving." We have every reason to offer unto our God thanksgiving.

Our music certainly attracts the crowds. The audiences last Sunday were large and enthusiastic, both morning and evening. Remember that on December 16 and 17 we have programs you will want to see and hear.

The Iowa silent reading tests were given to the high school last week Tuesday and Wednesday. The purpose of these is to make a study of the difficulty a pupil has in perusing what he reads. Miss Mary Mielcz and Walter Albert were in charge of the tests. A report will be given at the next faculty meeting.

The football boys had their pictures taken last Wednesday. The Pep club, which has been organized recently, elected Evelyn Mellor president.

A ticket sale was held in the assembly last week Wednesday noon for the operetta, "The Bells of Capistrano."

Ruby Dunklau had to drop school several weeks ago on account of her mother's health. Frank Clayborn returned to school last Wednesday after being absent two weeks because of the children having chicken pox. He was allowed to come back after presenting a health certificate signed by a doctor.

**Debate and Commercial Notes.** Debaters are having workouts at the college library whenever possible. During the last week examinations have interfered with the work to some extent.

Trial debates will begin in two weeks. A series of inter-class debates may be arranged if enough students are interested. No definite plans have been made yet, however.

Members of the debate team will listen to the debate between the University of Kansas and the University of Nebraska, which will be broadcast over the radio on November 30.

Certificates were given to those who made more than thirty words a minute with fewer than five errors in a speed test given as a six weeks examination. Irol Whitmore, Jeanette Lewis and Evelyn Larson received certificates.

Members of the bookkeeping class who rated highest in the Twentieth Century Objective tests were Melba Thompson, Marietta Chichester and Esther Thies.

The first year shorthand class is starting to transcribe letters on the typewriter.

**Athletics.** Wayne closed its football season by tying South Sioux 6 to 6. It was a hard fought game, neither side having an advantage. A large crowd saw the game and the Wayne school band played throughout the game.

During the first quarter, Sund smashed through the line for Wayne's touchdown. The attempt for the extra point failed. At the end of the half, the score was: Wayne 6, South Sioux 0.

In the third quarter South Sioux opened up with smashes and tied the score 6 to 6, failing in the attempt to kick goal. The Wayne team held South Sioux the rest of the game.

The football team had its picture taken Wednesday noon. Those who had their pictures taken were: Doc Surber, James Morris, Charles Berry, Charles Ingham, Orville Rhoades, Fred Davis, Carl Peterson, Paul Peterson, Max Hendrickson, Clemith Johnson, Wilbur Porterfield, Noel Isom, Walter Sund and Lowell Gildersleeve.

Basket ball practice started on Monday night with three squads only. Fred Davis is captain of the team.

**Your Hogs**

**How You Can Make Them Cost Less and Bring More**

MoorMan's Hog Minerals will help you right now — if you are not feeding MoorMan's now, you are passing up a profit every day that can easily be yours.

MoorMan's helps reduce the cost of fattening hogs—it makes each hog put on more solid pork from the same amount of feed because it is a complete mixture of all the minerals your hogs need. In addition to 5 bone builders and 2 worm preventives, MoorMan's contains 2 ingredients that properly regulate the digestive system and 6 ingredients that build extra flesh.

MoorMan's makes your hogs bring more because they will have a better finish—the smoother, glossier finish and firmer flesh produced by MoorMan's always insures higher prices at market time.

Begin now to feed MoorMan's. After a few days feeding you can plainly see the benefits—the marked improvement in appearance, and faster gains. Like more than 100,000 other farmers, you will find that MoorMan's Hog Minerals makes your hogs cost less to fatten and bring more on the market. Call the MoorMan Man today.

Another Carload of MoorMan's has just arrived in this County

About Nebraska and Nebraskans

Will M. Maupin.

Gov. James W. Dawes of Crete was elected to the governorship in 1882, and re-elected in 1884. It was during Gov. Dawes' two terms that the war between the settlers and the cattlemen waged at its fiercest, but was happily settled later. During the war killings were frequent and considerable property was destroyed. The cattlemen resented the homesteaders coming in, claiming that the open ranges were a necessity, and that the land would never be fit for agriculture. But the open ranges have disappeared, and instead of spelling the death of the cattle industry it merely stimulated it. The problem of handling the immense school land acreage belonging to the state caused a great deal of trouble during these years, and for several years thereafter.

By the end of Gov. Dawes' second term central and western Nebraska were dotted by the "soddies" of the homesteaders. Hundreds of thousands of acres of prairie sod were turned by the plow and seeded to crops, and villages sprang up on all sides. Railroad building activity was reaching its climax, and the dreams of the first settlers in Nebraska Territory were beginning to come true.

Nebraskans will be interested in knowing that Ruth Bryan Owen, daughter and eldest child of William J. Bryan, was elected to congress from a Florida district. Mrs. Owen's first husband, Homer Leavitt, was an artist. To them two children were born, later adopted by Mr. and Mrs. Bryan after Mrs. Leavitt divorced her husband. A few years later Mrs. Leavitt married Captain Owen, an Englishman, who was an officer in the British army. She accompanied her husband to various British army posts, and during the World War, while her husband, promoted to major, was at the front, she was prominent in war relief work in England. After the war Major Owen was stationed in the British West Indies, where he died two years later. Mrs. Owen then regained her American citizenship and made her home in Florida, and since her father's death has been living with her mother.

Three new congresswomen were elected this year, making six in all, three having been re-elected. By a queer coincidence all three of the newly elected are named, Ruth, Ruth Hanna McCormick of Illinois, Ruth Pratt of New York City, and Ruth Bryan Owen of Florida.

Mr. and Mrs. Willet Couch of Brunswick, Nebraska, celebrated their 68th wedding anniversary on Nov. 4. They are believed to be the couple longest married in Nebraska.

While Minden is celebrating the 15th anniversary of the arrival of the first Burlington train, Red Cloud is celebrating the 50th anniversary of the first Burlington train in that city.

Followers of the University of Nebraska football team will be interested in knowing that Verne Lewellen, captain of the 1922 team and 1924 graduate, was elected district attorney of Brown county, Wis., the Green Bay district, as a republican, at the recent election. The office pays \$10,000 a year in salary and fees. Lewellen has been playing on the Green Bay professional football team while establishing a law business, and is reported as receiving \$2,000 a game for five games a season. He also pitches for the Green Bay baseball team.

At the election in Minature on Nov. 6, the supply of official ballots was exhausted before all had voted and sample ballots published in the Minature Free Press were cut out, marked and received by the judges.

W. Halsey Bohke is probably the youngest man ever elected to the bench in Nebraska. He was elected judge of Adams county at the recent election, and will not be quite 26 years old when he dons the judicial ermine. He filed for the nomination while a student in the University of Nebraska Law school, and was nominated before he had received his diploma. Born on a farm near Kenesaw, he graduated from the Kenesaw high school before entering the university. He will be 26 years old on March 17, next.

Before leaving for a visit to a daughter in New York, Mrs. E. W. Nash voted an absent voter's ballot. She died on the train three days before election. Attorney General Spillman ruled that the ballot should not be counted. As Mrs. Nash voted for Smith the loss of the ballot cut no figure in the results.

Because the government has cancelled all oil leases in the Salt Creek district of Wyoming, the Sinclair pipe line which runs from the field to Kearney, Mo., will be abandoned. The line traverses Nebraska for a distance of nearly 450 miles, and has numerous costly pumping stations every 15 to 20 miles. Those pumping stations, together with the most bungalows provided the employes and represent an investment of about \$75,000 each, and the entire line and equipment represent an investment of about \$22,000,000. Several hundred Nebraskans will be thrown out of work.

Notice of Hearing. To the creditors, heirs, legatees, devisees, and all persons interested in the estate of James P. Gage, deceased:

You and each of you are hereby notified that on the 13th day of November, 1928, Thomas Brockmann filed his petition on the County Court of Wayne County, Nebraska, alleging that one James P. Gage, also known as J. P. Gage, died on the 22nd day of April, 1883; that said James P. Gage was at the date of his death a resident of Clinton County, Iowa; that said James P. Gage died seized of the southeast quarter of Section thirteen (13), Township twenty-seven (27), north, Range three (3), east of the 6th P. M., Wayne County, Nebraska; that he left a last will and testament, a duly authenticated copy of said will and the probate thereof petitioned for has this day filed for probate in said county; and that an application has heretofore been made for its admission to probate in any county in this state.

Your petitioner prays for the admission to probate of said instrument as the last will and testament of said James P. Gage; that a decree be made and entered admitting said will to probate as the will of James P. Gage, and dispensing with the appointment of an executor or administrator with the will annexed, and an order barring all claims against said estate, and that the court decree the descent of the real estate which the deceased owned at the time of his death in Wayne County, Nebraska, in accordance with the terms of said will.

A hearing will be had on said petition at the County Court room in said county on the 1st day of December, 1928, at 10 o'clock A. M.

J. M. Cherry, County Judge.

**What's the Answer.**  
Norfolk Daily News: The Hastings Tribune springs an old one which, so far as we know, has never been answered satisfactorily. It says:  
"A mathematically inclined Hastings man announced that the annual depreciation in the value of the automobiles in Adams county amounts to about as much as is realized from the county's wheat crop in a year. He counts the average depreciation to be \$150 per car, and on the six thousand cars of the county that depreciation would total nine hundred thousand dollars. But, an auditor inquired, if we lose that much by depreciation, how can we go on? We go on, someone else answered, by buying more and more new cars. Conversation is sometimes devious, circuitous and doubtful. But it is never hesitant!"  
Another statistician, not long ago, did some figuring and announced that the corn crop of the whole state would not pay the vast sum that Nebraskans spend annually for the purchase and operation of cars, depreciation included.  
Yet we continue to buy and operate cars; we find a few hundred thousand dollars more for radios; we manage to dress pretty well, to eat three meals a day and live more comfortably than ever before. And at the same time we are putting more and more money on deposit in our savings and commercial banks.  
What is the answer? Can some mathematician give it?
