Warren Cope, 60, of Sioux City, was killed when he fell from a motor-propelled section car July 15 about five miles south of Tekamah, when the car was suddenly derailed. As it left the rails, Cope fell in front of it and before the car could be stopped it had passed over his body, killing him instantly and breaking some of his bones. The other six on the car were thrown off, suffering broken arms, legs and were otherwise seriously injured. Lovers of the outdoors at Plainview have gone to a great deal of work and expense in the last few years, beautifying a spot of ground that really is surprising to the eye. Plainview is proud of this playground. Just a few years ago, five miles west and one mile north there was a piece of ground with but a small stream of water running through it, fed by a number of springs. The land sloping to the north made it easy to put in a high dike around the east and south sides which was done and this gave them a nice lake, fourteen feet deep. The lake is large enough for boating and swimming, and has been stocked with fish such as bullheads, catfish, blue gills, crappies, bass and pumpkin seeds. A nice lot of shrubbery has been planted, also a fine lawn of clover and blue grass.

Can't Collect In Thurston County Pender, Neb.—Judge Mark J. Ryan, sitting in Thurston county district court here, rendered a decision against the Omaha Road Equipment company in its suit to recover \$12,754 and interest against Thurston county for road building equipment. The court held that the contracts entered into by the county board for building equipment were void, as being in excess of the powers of the county board to contract, sustaining the contention of Robert G. Fuhrman, attorney-at-law of Pender, who intervened as a taxpayer and defended the suit on behalf of the county. As a reason for appearing in the suit, Fuhrman claimed that the county authorities were not properly defending the suit. Card of Thanks. Makes You Independent

Many owners tell us the greatest advantage of owning a thresher is that it makes them independent of a busy threshing crew.

Keeps Tractor Busy

The average farm tractor is idle many weeks of the year. If you own a thresher, you can make the tractor a better paying investment by keeping it busy when it otherwise might be idle.

# Jazz Is Red-Headed, Says Titan-Tressed Drummer

BOBBY GRICE

What a girl! What a night! What a moon—shining bright!

## Who Also Adds That Waltzes Are Brunette!

New York City.—When the boys in the neighborhood yelled, "Red Head, Red Head, ginger-bread" at the sight of Bobbie Grice's red pig-tails, Bobbie used to shake her little fists, stamp her feet and weep, though never until she got home where the boys couldn't see her.

ing the members of my band, and I've listened to hundreds of girl musicians. I found that the dark-haired girls could play the soft moon-light type of rhythm, but for the snappy jazz tunes, the carrot-tops are best.

"Take the foxtrot 'What A Girl! What A Night!' No brunette could get as much out of that tune as a red head. Jazz is really a red head's music. Its very tempo is red."

**Well-Paid**  
The members of Miss Grice's band get from sixty to one hundred and fifty dollars a week, and their leader urges more women to enter the musical profession.

"It pays higher salaries than almost any other profession open to women," says Bobbie. "The idea that women can play only the piano and violin is absurd. If they are talented they can learn to play any instrument. There is a great demand right now for cornet and trumpet players, in fact, there is a scarcity of all wind instrument musicians."

Miss Grice, herself, is one of the head-line drummers in the country.

"And if a woman can play the drums, and still please her audience, she can play anything even the mouth-organ," declares this famous red-head.
