TALKING PEACE.

Mrs. W. E. Minier of Onleland, who represented the Nebraska Federation of Women's clubs at the fifth annual conference in Washington, D. C. recently to discover the cause and cure of war, will speak at the Kiwaris eth's noenday luncheon next Minday and to school students and the general public in the auditorium of the State Teachers College in the evening Trend of the conference's discussions is of lively and general interest. Its conclusions pointing to settlement of disputes without bloodshed or other sacrifices, will make people think and lend their influence to peaceful, constructive policies. Leading nations of the world are thinking and talking peace, and their peoples are developing the good sense to demand the rule of reason and conciliation unmoved by the plassion of hate or greed.

HORSES FATE IN AUTO COLLISION WINS SYMPATHY

THE Lincoln Journal bestows in his way. This always with a shudder of horror that one needs of collisions of automoliles with horses. The horse is an intelligent and often handsome beast of which the man who works with it, often thinks a great deal. And when a horse and automobile crash, the horse usually gets the worst of it. Both the animal and the machine have breakable parts, but the michine can suffer a cracked rib or broken leg without a shiver of pain. The horse is not built the same way. Sympathy goes out to the poor dumb beast in these clashes of flesh and blood with machinery.

New Beauty for the New Ford

THE NEW FORD TOWN SEDA

ANOTHER STEP FORWARD

HE introduction of the new Ford bodies has set a high standard of motor car value From the new deep radiator to the tip of the curving rear fender, there is an unbroken sweep of line

flowing grace of contour gaining added charm from the rich and attractive colors. You will take a real pride in the smart style and fresh new beauty of the Ford just as you will find an ever-growing satisfaction in its safety, comfort, speed, acceleration, case of control, reliability and economy. In appearance, as in mechanical construction, craftsmanship has been put into mass pro-New beauty has been added to outstanding performance.

A feature of unusual interest is the use of Rustless Steel for the radiator shell, head lamps, cowi finish strip, hub caps, tail lamp and other exposed metal parts. This steel will not rust, corrode or tarnish and wil retain its bright brilliance for the life of the car. Here, as in so many other important details, you evidence of the enduring quality that has been built into the new Ford.
