McCormick-Deering Farm Machines and Implements

These Facts Mean More Profit on Farmall Farms!

Under average soil conditions the Farmall will plow from 7 to 10 acres a day, ich is as much as three men can do with nine mules or horses.

Twenty acres a day can be bedded up with two middle breakers and a Farmall, ich is the work ordinarily of two or three men and six to eight horses.

The Farmall with a two-row lister can cover 20 acres a day, doing the work of or three men and six to eight horses.

In planting cover the Farmall can easily hours 20 to 20 acres a day two tables.

or three men and six to eight horses.

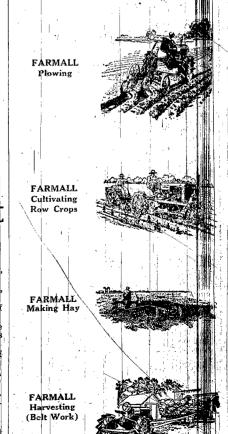

In planting corn, the Farmall can easily cover 20 to 30 acres a day—two or three es as much as can be done with a team. If four rows are planted at a time; this eage is practically doubled.

One man with a Farmall can cultivate 15 to 25 acres a day, doing the work of or three men and six to eight horses.

The Farmall when equipped with mower attachment will cut 20 to 25 acres a day. The Farmall and tractor binder can cut 30 to 35 acres of grain a day.

For pulling the corn binder or corn picker, the Farmall saves both time and labor. Ask us to show you this tractor and the modern tools that work with it. Demontions can be arranged on your own farm if desired. No obligation.

Friday Evening.

Wayne county dairy calf club was organized Friday evening at the city hall with O. H. Liebers of Lincoln, Dr. W. M. Hawkins and D. S. Wightman in charge. A number of interested boys were present and six joined the group. Harold W. Lemon, herdsman at Fairacres farms, was elected by the boys as their leader.

LeRoy Stamm is president of the club; Leonard Blecke, vice president; and John Von Seggern, secretary-treasurer. Other members are Walfred Carlson, jr., Willard Blecke and Leonard Nelson. All live at Wayne excepting the last named who is from Winside. The club work will be conducted just as the beef and pig clubs. Meetings will be field monthly with trips and social times scattered through the year.

Fairacres Farms is furnishing to a limited number of boys their purebred Holstein heifers free of charge or condition that the first calf produced by each is to be returned to the farms.

Mr. Liebers, who is head of the Nebraska Dairy Development association has done much work work.

Permanent Improvements

Good farm equipment implies good buildings. To make them permanent they must be kept in repair and all surfaces exposed to the weather protected by paint. It's none too early to plan for the work you expect to do

Let us figure with you.

Harvey Hostetter

McCormick-Deering Farm Equipment

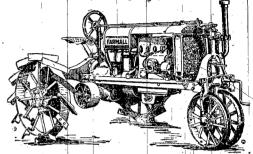

We carry the famous McCormick-Deering lines of farm machinery, but we have repairs for all makes of machines. If you expect to need a new machine or repairs to speed up your work and increase production, come in and let us solve your problems. We will cooperate with you in making your farm business easier and more successful.

Let These Modern 4-Cylinder Tractors Serve You-

> McCormick-Deering 15-30, 10-20, Farmall

13-30, 10-20, I arrivate The years of experience of the Harvester Company in the hullding of power farming equipment has produced three finely developed McCormick-Deering Tractors. One is a 3-plow fractor, with power to spare. The others are 2-plow tractors, with a liberal surplus of power. Where any member of this trio of tractors is on the job power farming is at its best, easiest, most profitable level.

So popular have the 15-30 and 10-20 been for several years that you can now find them plugging
