THE WAYNE HERALD

The Oldest Established Paper in Wayne County. Published Every Thursday. Entered at the postoffice at Wayne, Nebraska, as Second Class Mail Matter in 1885 under the act of March 3, 1879.

Subscription, \$2.00 Per Year in Advance.

It is charitable to attribute misstatements to faulty memory rather than to intention to falsify and deceive.

The unseemly scramble for the cigar stub which Calvin Coolidge tossed away, is the first information revealed to us that the former president was addicted to the habit of smoking.

Dr. A. L. Bixby, general post-philosopher of the Nebraska State Journal, is back on the job in Lincoln after visiting relatives and friends on the western coast, reviewing mountain scenery and absorbing Chinook and other mild winds.

Henry Ford has another idea, or rather he endorses one that had been expressed many years ago and many times since. He advises that food supplies should be condensed and served in pellets, thus saving time and waste.

UNAVOIDABLE. Of course the president is held responsible for things which no one in his place could prevent. People were warned against speculations in Wall street long before the crash came, but they did not listen.

NOT QUOTED. The Herald recently quoted an Iowa farmer's objection to reported advice of Mr. Legge of the federal farm board to cut down crop acreage.

Mr. McKelvie made no such suggestion in his address at Geneva Friday. The publishers of the newspaper named know enough about Mr. McKelvie to doubt the accuracy of any statement that he had done anything foolish, anything so clearly foolish as to let their land lie idle.

devote more attention to flowers and music and carefully selected jokes. We are glad to note that Editor F. D. Stone of the Hartington Herald, who spent the winter in Arizona for the benefit of his health, has returned to his home post. He shows such exuberance of health and energy, as reflected by his writings, that he will have to be kept in restraint until the message of Nebraska weather works some of the Arizona elixir out of his system.

First report of the Literary Digest's poll on prohibition showed a total of 271,000 votes from the following ten states: Illinois, Indiana, Iowa, Kansas, Minnesota, Missouri, Nebraska, New Jersey, New York and Ohio. The number is but a fraction of the 20,000,000 votes indicated as an indication of popular feeling.

A recent survey by merchandising experts points out some of the faults in salesmanship and leads to efforts for better training of salespeople. It is hoped to overcome an attitude of indifference and at the same time to avoid high pressure that tempts misrepresentation and gives offense, repelling rather than attracting trade.

The state legislature, called together in special session to enact banking legislation, adjourned Saturday after passing a measure only slightly changed from the one which the governor proposed. To meet the deficit in the bank guaranty fund, the new law provides for two-thirds of one percent assessments on average daily deposits in state banks, and these assessments are expected to raise \$3,600,000 in ten years.

The Signal says: "Friday afternoon we listened attentively to the address at the city auditorium of Sam R. McKelvie, former governor and now member of the federal farm board. On returning to the Signal office we began reading Nebraska weekly newspapers received on the afternoon mail. The Wayne Herald found articles that apparently stated in substance that Mr. McKelvie and other members of the federal farm board are advising farmers to stop planting crops and to let their land lie idle as a means of reducing the crop surplus.

PRACTICE URGED. Norman Thomas, ordained Presbyterian minister and socialist leader of New York, substituted for the regular pastor of Park Avenue Presbyterian church recently, and he told the congregation that the habit of professing one thing on the Sabbath and practicing another thing the balance of the week, weakens the status of church and makes religion practical and serviceable.

A Spur to Prosperity. (Literary Digest.) The idea that the problem of hastening the revival of business activity is one of distribution rather than production, and that, therefore, advertising will play a large part in solving it, has recently been advanced by a leading banker and by a leading statistician.

Mr. McKelvie did make certain suggestions about the situation that were calculated to interest every grain raiser who sat in his audience. He spoke of the fact that there are sections in the United States where wheat can be produced at 50 cents a bushel; that if the price of wheat is forced to an extremely high point much additional land would be broken out and put into wheat.

Mr. McKelvie said he did not doubt that most farmers would want to continue to raise some wheat but he suggested that there should not be too much dependence on wheat here in the corn belt. He presented the thought that farmers should select their crops as much as possible in relation to the probable demand and the probable stability of the market. He called attention to the fact that Nebraska is building up a great volume of production from cows and hens.

Business. Sioux City Journal: The business situation for the country at large has changed but little in the last month or so. Unemployment remains at about the same figure. Meanwhile buying power has not been stimulated appreciably.

In Court At Albion. Albion, Neb., March 19.—In district court Monday Ronald J. Gutru, former cashier of the failed Bradish bank, pleaded guilty to a technical violation of the banking laws in making an incorrect report as to the amount in the savings account of the bank. The court sentenced him to three months in the penitentiary and costs of the suit.

be interesting to see how this works out, particularly at this time when an upturn is confidently expected throughout the country. The planned public improvements conceived as a result of President Hoover's prompt action last fall following the stock crash, some will get under way, with some billions of dollars employed to stimulate business activity on a large scale.

Lincoln Journal: An automobile and a train met on a crossing near Lincoln the other day and two men were killed. The accident happened in daylight at a signal guarded crossing and witnesses said the men in the automobile appeared oblivious of the approach of the train.

No Show for "Reds." Omaha World Herald: The Fat Boy and the Pickwick papers had nothing on Soviet atheism in the way of making the blood run cold and the hair stand on end with tales of horror.

It has done this by making possible mass production and mass distribution. Machinery brought us mass production, but only through advertising have we achieved mass distribution.

Lutherans To Meet. Blair, Neb., March 18.—Dana college will entertain the southwestern regional conference of the Lutheran Student Association of America here March 21 to 23.

TERMS: Cash, or make arrangements with your banker. All property must be settled for before being removed.

## This Outfit Will Put a Fine Finish on Your Fields

... in One Easy Operation

ONCE OVER with a McCormick-Deering Tractor Disk Harrow is far better than twice over with a single disk harrow. Much finer pulverization takes place because the rear disks split the ridges left by the front disks, reducing the surface to a well-pulverized, moisture-conserving mulch. It puts a perfect finish on the field, in one surprisingly speedy operation, promoting seed germination and plant growth, and assuring bigger and better crops with increased profits to you.

Our tractor disk harrows are equipped with McCormick-Deering heat-treated crimp-center disks that are so tough that you can haul one edgewise against a concrete floor and not hurt its edge. If you are in the market for a disk harrow, you should come in and see this McCormick-Deering.

# the NEW Polarine

is the modern motor oil

New refining equipment and processes alone made possible the new Polarine—with every desirable quality oil can have—free from disadvantages; previous refining processes had never overcome.

The new Polarine contains less than half the carbon residue of old process oils—has greater lubricating value—deposits less carbon in the motor.

The lighter grades of the new Polarine have a "pour point" below zero. The heaviest grades flow at 17° below freezing.

In stability and protective body at high engine heat the new Polarine sets new standards.

The light, bright color of the new Polarine shows freedom from wax and tar ingredients.

On all points of both quality and performance, you cannot buy an oil—made by any process, from any grade of crude, at any price—that will do more for your motor than the new Polarine.

This new Polarine is sold at no advance in price. Consult the Chart for the correct grade.

COMPARE VALUES BEFORE YOU BUY AN AUTOMOBILE

Low charges for distribution of the new Ford save you at least \$50 to \$75 in addition to the many savings in making the car

THESE are days when every dollar counts. The period of reckless spending is over. People are going back to the good old-fashioned principles of thrift and economy. Value is again being carefully considered. Nowhere is this more important than in the selection of an automobile. For the purchase of a car represents a considerable investment. It should not be decided on hurriedly, but only after analyzing every important factor that concerns cost, value and performance. The time to do this is before buying—not afterward when it is too late. ON THE basis of cost, performance and the actual comparative worth of every part, the new Ford is a value far above the price you pay. It is made of better materials and with greater care and accuracy because of the recognized efficiency and economy of Ford manufacturing methods. The value of these methods is known and understood by millions of people. It is not generally realized, however, that these same principles of efficiency and economy are applied also to every step in the distribution of the Ford car. The low cost of selling, financing time payments, etc., means a direct saving to you of at least \$50 to \$75 in addition to the money saved by Ford economies in making the car. There are definite reasons why this is so. (1) The Ford dealer does business on a smaller margin of profit because of the greater number of cars he sells. His discount or commission is the lowest of any automobile dealer. The difference in your favor, ranging from 25% to nearly 50%, comes right off the price you pay for the car. (2) No expensive extra equipment is needed when you buy a Ford. The car leaves the factory ready for use. The f.o.b. price includes a Triplex shatter-proof glass windshield and an extra steel-spoke wheel, in addition to four Houdaille double-acting shock absorbers and fully enclosed four-wheel brakes. Any accessories you may wish for your individual taste are sold considerably below the usual prices. None of these charges for selling, financing or accessories is marked up or increased to cover a high trade-in allowance on a used car. Get all the facts, therefore, before you buy and figure out just what you are getting for your automobile dollars. Go beyond the f.o.b. price and find out how much more you pay the dealer than the dealer pays at the factory. Analyze the used-car allowance. Compare all charges—item for item—value for value. WHEN you do this you will have a new appreciation of what the Ford Motor Company and Ford dealers are doing to keep down the cost of Ford cars. You will also know why it is possible to put so much real value into the new Ford and still retain the low price. The money you pay goes for value in the car. It is not wasted in excessive costs in manufacturing or selling.

## Chevrolet announces A NEW SERVICE POLICY

The Chevrolet Motor Company and its dealers are pleased to announce a new service policy—one of the most liberal ever offered on a low-priced automobile.

Put into force as a written agreement given to the purchaser by the Chevrolet dealer when the car is delivered—it offers the following provisions:

- 1 Every Chevrolet owner receives his car from the dealer in perfect condition—thoroughly lubricated, properly adjusted, and ready to operate efficiently from the first mile of ownership.
- 2 Every Chevrolet owner is entitled to free inspection and adjustment of his car at the end of the first 500 miles of usage.
- 3 Every Chevrolet owner is entitled to free inspection of his car every 1000 miles thereafter, so long as the car is in operation.
- 4 Every Chevrolet owner is entitled to free replacement of any part which may prove defective in workmanship or material, within the terms of Chevrolet's standard warranty. This includes both parts and labor.
- 5 Provision number 4 will be carried out by any Chevrolet dealer in the United States. As a result, the Chevrolet owner may travel to any part of the country, with assurance that the guarantee on materials and workmanship will remain in force.

This new policy constitutes proof of Chevrolet's high quality—for such liberal provisions could only be made in connection with a car built of fine materials to exacting standards of workmanship.

Back of this policy, and assuring its successful operation, is one of the most complete and efficient service organizations in the world.

There are more than 10,000 Authorized Chevrolet Dealer Service Stations in the United States alone. Each employs skilled mechanics, thoroughly trained at Chevrolet Service Schools. Each has specially designed tools and machinery developed exclusively for Chevrolet service work. And each has on hand, at all times, an adequate stock of genuine Chevrolet replacement parts.

Chevrolet's flat-rate charges, including both parts and labor, are the lowest in the industry on many service operations.

In considering the purchase of a low-priced automobile, think what this service means—in terms of lasting satisfaction, as well as in increased economy.

Chevrolet cars range in price from \$495 up, f. o. b. factory, Flint, Mich., in.

### Early Days in Wayne County

From the Wayne Herald for March 21, 1912:

Mrs. S. H. Rew of Winside, is recovering from a severe illness. A son was born March 16, 1912, to Mr. and Mrs. Pelt Nelson of Wayne.

Louie and Fritz Dimmell left Winside for a visit at Los Angeles, Calif.

The small daughter of Dr. and Mrs. G. J. Hess is very ill with pneumonia.

William Davis of Elencoe, Iowa, arrived here to visit his brother, A. E. Davis.

Evan Jones of Red Oak, Iowa, arrived for a visit with relatives near Carroll.

Miss Alice Kate came home from the state university for a week's vacation.

L. S. Neelham and family of Winside, left Florida en route home, after a visit there.

A. M. Helt has the contract for a house which Prof. C. H. Bright is planning to build.

Mrs. Chas. Madden and daughter, Pearl, left for Brookings, S. D., to visit relatives.

Mrs. A. E. Smith arrived from a visit with a daughter and other relatives at Henry, Ill.

A son was born in Sioux City March 17, 1912, to Mr. and Mrs. Ray Reynolds of Wayne.

Harry H. Lessman and Miss Mary Grier were issued a license to wed by Judge Brittain.

Harry King came from Labo, Kan., to spend the summer with his brother, Wm. King of Winside.

Mrs. M. P. Ahern arrived here from Kankakee, Ill., to visit in the home of her son, J. J. Ahern.

H. A. Meier of Gregory, S. D., and Mrs. Hattie Hutchings of Wayne, were married March 12, 1912.

Mrs. I. G. Thompson and Mrs. F. A. Benedict of Marcus, Iowa, visited in the home of Dr. Raffziger.

E. O. Gardner arrived from Strawberry Point, Iowa, where he had attended funeral services for a sister.

Lou Owen visited his wife in a Sioux City hospital. The latter is recovering from an operation for gall stones.

D. O. Dockendorf of Sheldon, Iowa, left for his home after a visit here with his sister, Mrs. C. E. Sprague.

Henry Wacker of Winside, broke several bones in one of his hands when he caught the member in an engine.

Alfred Anderson and Miss Sylvia Palmer were married March 11, 1912, at Sioux City. They will live near Wayne.

Because of a snowstorm the city council did not meet as planned to let contract for the proposed new city hall.

Mr. and Mrs. John S. Lewis of Herrick, S. D., left for their home after visiting here in the home of their son, John S. Lewis, jr.

Edmund Vance Cooke furnished the closing number for the Wayne

lecture course. His original poems and manner of setting them pleased a large audience.

The heaviest snowfall of the winter fell March 20, 1912. A moderate estimate is that there was a foot of snow on the level.

Bert Brown of Wayne, and H. C. Bartels of Carroll, have filed for representative from this county. F. H. Kohl filed for senator.

George White arrived home from Waller, Pa., where he recently purchased forty acres of land. Mr. White plans to move there.

Rev. Alexander Corkey of Wayne, addressed the members of the Second Presbyterian church of Sioux City on "The Truth About Ireland."

Miss Belle Corbie, daughter of Mrs. W. O. Corbie of Indianapolis, Ind., were married in Omaha March 18, 1912.

John T. Bressler left for Altoona, Pa., to visit a brother who is very ill. He and his son, John, will make a trip to Washington, D. C. The latter is attending school in Pennsylvania.

The library board let contract for the proposed new library building to J. F. Foster & Son of Wayne, the contract price being \$7771. The total cost will run a little over \$9000. This to include interior decoration and furnishings.

Dan Harrington died at Long Beach, Calif., March 15, 1912. Mr. Harrington came to Wayne in 1886 and has been prominently identified with the nearly fire and growth of the town.

In January, 1911, Mr. Harrington sold his store here to Garble & Senter.

Mrs. Nathan Chase of Stanton, was instantly killed March 15, 1911, in southern California when she stepped from a street car before it had stopped.

Mrs. Chase was 43 years old. She was a daughter of Mr. and Mrs. Thompson Wachob who formerly lived in Wayne.

John Cherry, Winside boy, who joined the navy a year ago, and is a regular seaman on the battleship, "Birmingham," took part in the burial of the wreck of the battleship, "Maine," which was raised in the Havana harbor, floated into the Gulf of Mexico, and sunk in 1911.

A mass convention was held at the city hall to name men for municipal offices. Mayor John H. Kate was named for reelection without opposition. J. M. Cherry and J. E. Hufford were nominated for city clerk. H. S. Ringland was named as treasurer. H. C. Henney and I. B. Brittel were named for members of the school board.

"Glorifying the American Girl," Paramount's singing, dancing, musical production coming to the Gay theatre Sunday and Monday, March 23 and 24.

Florenz Ziefeld's "Glorifying the American Girl" was supervised personally by the great glorifier himself. Mary Eaton, premier danseuse of a number of Ziefeld stage shows, and the leading lady in the recent all-talking musical comedy success, "The Cocoanuts" with The Four Marx Brothers, has the star role in "Glorifying the American Girl." Eddie Cantor appears in an imitable Cantor comedy skit in a revue sequence of the picture in which appear also Helen Morgan of "Show Boat" fame, who sings a typical blues song while seated on a piano in the best Morgan manner; and Rudy Vallee, of radio and stage fame, who croons a typical Vallee tune.

Much of the dazzling spectacle of the production is presented in the full colors of the improved technical process.

### Are In Finals In Basketball

Wayne Team Is Defeated by Auburn In the State Consolations At Lincoln.

Wayne high school basketball team met Auburn in the finals of the Class A consolations at the state tournament in Lincoln last Saturday, Auburn winning by 16 to 11. The half closed 6 to 5 for Auburn.

Wayne team, champion at the regional meet in Wayne March 8, met Imperial Thursday afternoon at 4:40 in the first round of the state meet. Wayne lost this game by 27 to 17. Imperial led by 12 to 7 at the half. Walter Bressler made 3 points; Kenneth Dowling, 2; Walter Sund, 13; and Max Hendrickson, 1. Frederick Dowling, Charles Berry and Herbert Perry were others who played.

Wayne's loss to Imperial placed the local team in consolations: Wayne met Mead and won by 18 to 14. The local men led by 12 to 6 at the half. Frederick and Kenneth Dowling, Walter Sund, Charles Berry and Walter Bressler were in the Wayne lineup for this game.

In the second round of the consolations Wayne won from Howell by 22 to 17. The same lineup with the addition of Max Hendrickson was used as in the Mead game.

The team then entered the consolation finals and lost to Auburn. Imperial, Wayne's first opponent, also lost to Auburn in an earlier round of the consolations.

Hartington, runner-up in the Wayne regional meet, lost in the first round to Barneston by 24 to 19. In the consolations Hartington lost to Curtis Aggies by 15 to 12.

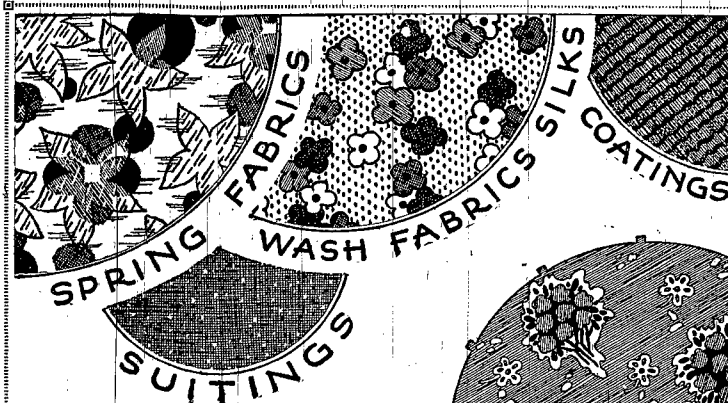

Lincoln and Kearney met in Class A finals. College View and Barneston tied in Class B finals. Newmat Grove defeated Norfolk and Auburn defeated Wayne in consolation finals.

their LIVES are in YOUR HANDS!

DOWNY LITTLE THINGS... not long out of their shells... how much they must depend on you for the things they need to live and get big. They need a feed filled with nourishment. A feed which will build bones quickly... building muscles strong... change fuzz to feathers in a hurry... all this they demand... and yet their little crops can handle only one tiny thimbleful of feed a day! What a job for feed!

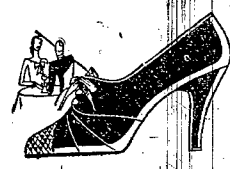

Consider Purina Chick Startena (mash) for this job! In every thimbleful are twelve ingredients! Cod-liver oil... dried buttermilk... alfalfa flour... granulated meat... these and eight others are there... each one with a real job to do. Purina Startena is mixed over and over again... 960 times... to be thorough! And you will find the same care taken with Baby Chick Chow (scratch)... to be fed with Startena.

Your chicks... what they do for themselves... what they do for you... is entirely in your hands. They eat so little... yet it counts so much... that you can afford to do only one thing... feed Purina Chick Startena!
