Here's A TWO-ROW Labor Saver!

Farmers call the Rock Island No. 190 the most sensible two-row cultivator because it is simple, does a perfect job, is easy to run, is light and strong, and is extremely light draft.

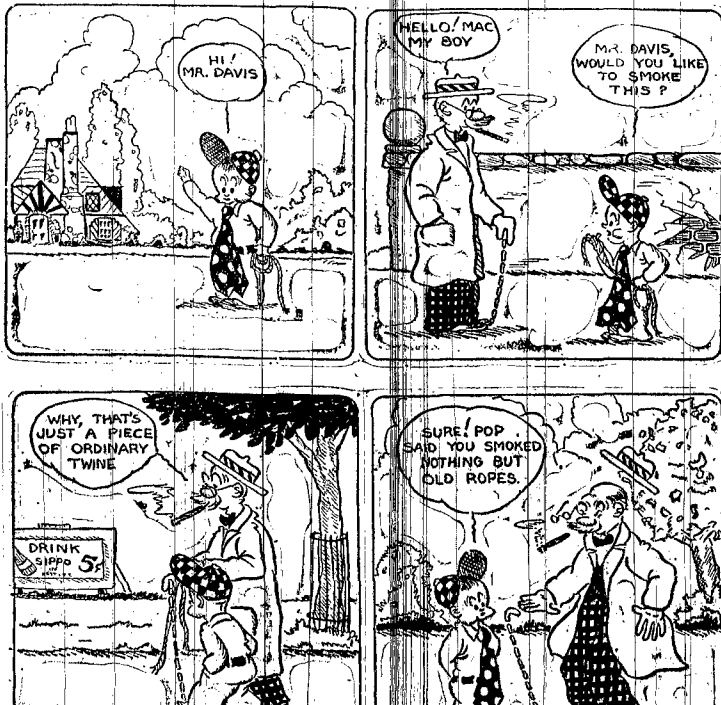

The easy shift of No. 190 is due to the carrying of the weight on a two-ball pivot — one for each axle. Fitted for either three or four-horse hitch. Sold with 8, 12 or 16 shovels. Adjustable wheel tread. Will follow either single or double-row planters or listers.

We can tell you many more good things about the No. 190, something new in gang control.

Come in and sit on the seat of this cultivator—try out the levers.

Journalist's Creed

The following "Journalist's Creed," written by Dr. Walter Williams, dean of the school of journalism of the University of Missouri, has been given a conspicuous place in that institution.

I believe in the profession of journalism.

I believe that the public journal is a public trust, that all connected with it should be held to the full measure of their responsibility, trustees for the public; that acceptance of lesser service than the public service is betrayal of this trust.

I believe that clear thinking and clear statement, accuracy and fairness, are fundamental to good journalism.

I believe that a journalist should write only what he holds in his heart to be true.

I believe that suppression of the news, for any consideration other than the welfare of society, is indefensible.

I believe that no one should write as a journalist who would not say as a gentleman, that bribery by one's own pocketbook is as much to be avoided as bribery by the pocketbook of another; that individual responsibility may not be escaped by pleading another's instructions or another's dividends.

I believe that advertising news and editorial columns should alike serve the best interests of readers; that a single standard of helpful truth and cleanness should prevail for all; that the supreme test of good journalism is the measure of its public service.

I believe that the journalism which succeeds best and best deserves success—fears God and honors man; is stoutly independent, unmoved by pride of opinion or greed of power; constructive, tolerant but unmercifully self-controlled; patient always respectful of its readers but always unflinching and quickly indignant at injustice; is unwayed by the appeal of privilege or the clamor of the mob; seeks to give every man a chance, and, as far as law and honest wage and respectability of human brotherhood can make it so, an equal chance; is profoundly patriotic while sincerely promoting international good will and cementing world-comradeship; is a journalism of humanity, of and for today's world.

FRIGIDAIRE

Makes Ice Despite Great Heat!

INTENSE interest has been aroused by the heat test being shown in Frigidaire display windows throughout the United States, where subjected to temperatures of 120 degrees, this electric refrigerator freezes ice cubes. This unusual demonstration followed engineering research to determine the maximum temperature under which this could be accomplished. With sides of the cabinet subjected to a radiant heat temperature of 180 degrees, tests showed ice could be frozen.

This heat resisting cabinet is only one of the many outstanding features in which "Frigidaire" claims leadership. And it is all true, every word. No split hairs, no quibbling as to what is actually meant, no dodging a single issue. Telling the story—proclaiming the fact that there are now **three times as many** Frigidaires in use as any other make of electric refrigerator; and more than all others combined.

Relatives Wayne People In Storm

Brother and Sister of Mr. and Mrs. Ireland and Mrs. Day-ton's Nephew Suffer Loss. The homes of G. A. Ireland, brother of A. L. Ireland of Brenna precinct, and of Mrs. R. E. Elliott, sister of Mrs. Ireland, were in the path of the tornado which struck Tekamah late Thursday afternoon. The former home was completely demolished with all of the furnishings. The Elliott home was damaged beyond repair but most of the furniture was untouched. No one in the two families was injured severely. The Ireland family went into the basement of the home upon seeing the rapid approach of the threatening tornado cloud. Mr. and Mrs. Ireland and daughter whose home is situated near a bluff, were unable to see the storm, when, without warning, it was upon them. Mr. Elliott was on the front porch where he had gone to watch the clouds. Mrs. Elliott and daughter were in the living room near an arch which separated this from the dining room. When the storm struck the house Mrs. Elliott and her daughter clung to the posts of the archedway and to each other. Force of the suction prevented Mr. Elliott from getting the door open. Flying debris caused the two in the house to suffer slight bruises. Outbuildings at the two homes were flattened and shrubbery and trees broken. The Elliott place is in ruin. Two people who were neighbors of the Elliotts were very seriously injured. The G. A. Ireland home was wrecked beyond repair. There were portions of sidewalls and chimneys left standing at the Elliott home. The path of the tornado also included the Elliott farm six miles northeast of Tekamah. Damage there however was not so great. Several outbuildings were destroyed, and trees broken. The path of the storm at Tekamah was perhaps several blocks wide. Most citizens of the town who were not shut off from a view of the approaching tornado,

were given enough warning to hasten to safety. Mr. and Mrs. A. L. Ireland drove to Tekamah Friday to visit their relatives and to see the damage done by the storm. The home of Mr. and Mrs. F. A. Schrawger of Tekamah, the former a nephew of Mrs. S. W. Dayton of Wayne, was reduced to a mass of debris by the tornado. Mr. Schrawger and his wife fled to a storm cave when warned of the tornado's approach. Mr. Schrawger sustained a laceration on one arm which required several stitches to close when struck by a flying object. The only things left intact in the Schrawger home were some jars of fruit in the basement. At the Schrawger farm near Tekamah some stock was killed but no damage was done to the buildings. Lyons Veteran Dies. Lyons, Neb., May 1.—James D. Hart, 25, a civil war veteran, died here Thursday morning after an illness of several weeks. He came here 65 years ago, and was one of the first settlers. In 1861 at the age of 17, he enlisted in the United States Army, and served under General Grant and later under General Sherman. Mr. Hart is survived by his widow and one daughter, Mrs. C. O. Shumway of Heslar, Neb., and a brother, Riley S. Hart, who is the last civil war veteran in Lyons. Serves Many Years. Madison.—Clara L. Kaul Davis, county treasurer, has worked in the court house here longer than anyone else, with a record of twentyfour years service in various offices. Beginning in 1902, as Clara Kaul, she worked eight years under Judge Baas at fifty cents per day. Next she served eight years as deputy clerk of the district court under W. H. Field, present mayor of Madison. Under P. A. Ruth she worked eight years in the treasurer's office as clerk and deputy. Two years ago she married Postmaster Fred H. Davis of Madison. When her term expires, Mrs. Davis will have been county treasurer four years. She will not be a candidate for re-election. Try a Wayne Herald Want Ad.
