Reducing the public debt, created by the World war, a billion dollars per year is one of the tasks performed by the national administration under the fire of savage critics.

"The best investment I can make—an expense I am always glad to meet," exclaimed a local citizen as he turned over \$100 for advertising in the Herald during August.

People who agree with you on nothing that does not discredit another's efforts or seek to tear down his reputation were made that way for a reason not yet revealed.

Both political parties in state conventions last week expressed intentions to change the primary law and eliminate its faults. This of course either could easily do, though neither explained how it could or would be done.

People can exchange views dispassionately enough on most subjects outside of politics and religion. One likes a fellow if he does not drag out some unreasonable and impossible set of church dogmas or try to impose illogical causes and cures for any vexatious economic condition. When he does that his otherwise likable qualities are pushed under a cloud.

The court docket in Cedar county shows 120 civil cases, twenty divorce actions and ten criminal proceedings.

THE PLATFORMS.

At their respective state conventions last week, republicans and democrats issued platforms quite in conflict for the consideration of voters.

The republican platform endorses the Hoover administration, commending its constructive policies in both foreign and domestic relations. Progress made in the cause of universal peace and trade extension is mentioned with approval.

The democratic platform twists the elephant's tail in desperation, striking like the poplins of the republicans administration has brought the country to the verge of moral, political and material ruin.

While some of Candidate Charles Bryan's most thinly disguised political unbecomings is said to have been heaved through the transom by the resolutions committee of the democratic convention, his finger prints were apparent in holding the republican administration responsible for failure of the bank guaranty law.

Proceedings. We are not surprised at the number of civil suits which usually follow harmless disagreements, but we are distressed by the number of divorces wanted and the number of crimes alleged in an ordinarily mild and orderly county like Cedar.

Nature favored the Cedar county fair with good weather last week, and as a consequence a record attendance rewarded the management. For several past years the elements seemed to have selected Cedar county fair dates to provide the usual autumn precipitation, but this year they showed a more friendly feeling by postponing the wet spell until a later time.

Roger W. Babson issues an encouraging prediction for agricultural communities. He says 1931 will be a better year than any seen for a long time. He adds that prices for farm products will tend upward while commodities which the farmer buys will be at a consistently low level.

Dr. A. L. Bixby, Lincoln Journal's post-philosopher, turning to advantage a lot of first-hand information about western mountains and deserts, is writing a continued story for his Daily Drift, though its installments do not appear every day.

Former Senator G. M. Hitchcock's reference to the eight prosperous years prior to 1920 as due to democratic control reminds us that the World War took place during that period.

At their respective state conventions last week, republicans and democrats issued platforms quite in conflict for the consideration of voters.

Frank O. Edgecombe, able editor of the Geneva Signal, takes twenty years' evolution of the Wayne Herald as a text for a column editorial touching the requisites for building a community newspaper, stressing desirable location as quite as essential as fortunately directed effort.

THE PRESIDENT.

It is reported that a writer stationed at Washington City is paid \$25,000 per year to discredit President Hoover. The writer is expected to belittle the president's achievements, exaggerating anything that may be construed as a shortcoming and obscure any outstanding virtue or accomplishment.

President Hoover has been handicapped from the first by people from within and from without his party circle, seeming to do everything possible to hamper and embarrass his leadership.

Germany is more intensive in farming than in the United States. Returns are greater on the average, though the total production is not so large there as farms are very small, according to B. Grone and Miss Bertha Grone who arrived home Sunday from a summer's sojourn in Europe.

Farming is more intensive in Germany than in the United States. Returns are greater on the average, though the total production is not so large there as farms are very small.

Germany is mostly of older type. Modern devices are being introduced gradually. One relative of Mr. Grone has a tractor and threshing machine and he uses these on a number of farms for himself and others.

Mr. Stone in Hartington Herald: Editor Huse of the Wayne Herald comments on the fact that it is just 20 years since he assumed control of that newspaper and notes with a pardonable degree of satisfaction the progress which has been made.

Mr. Sundell and daughter, Miss Edith, and Miss Esther Henschke of Wakefield, visited Miss Emma and Miss Agnes Richardson Tuesday.

Mr. and Mrs. W. T. Kusel of Chadron, Neb., the latter a sister of Mrs. G. A. Lamberson, arrived in Wayne Thursday of last week after an extended trip of three months through the south and west, including visits in Utah, northern Nevada, Arizona, California, Texas, Kansas and Oklahoma.

HEN BREAKS RECORD FOR TAKING SHORT VACATION PERIODS

A Nebraska City hen of the Buff Orpington breed does not believe in vacations. Just once in a while she takes a Sabbath day off but only four times since last November 10 has she failed in her daily duty and announced the result with a proud cackle. She has laid 280 eggs since November 10 up to August 20 and her owner confidently expects her to pass the 300 mark before another November 10 rolls around. The National egg record is 310 eggs made by a White Leghorn hen.

The Nebraska City prospective contender for the championship is a year and three months old and is a giant in size compared with other hens of the Buff Orpington breed. Poultry judges say she is almost perfect in shape and type. This birdy has not been entered in any poultry show because her owner does not want her to get out of the laying habit.

The best Nebraska record for egg production by any one hen is 248 eggs, according to H. H. Seymour, who owns the Nebraska City hen. The hen has no royal Buff Orpington blood in her veins though she came from a pen of good stock owned also at Nebraska City.

There are 10 million hens in Nebraska, laying an average of 80 eggs a year each. If all of them would lay 300 eggs a year the product would be 3 billion eggs which at 12 cents a dozen would bring 30 million dollars—enough for President Jefferson to have paid for the Louisiana purchase with an additional 15 millions for exploitation and settlement.

Local Persons Attend Meets

State Party Conventions In Lincoln On Tuesday Attract Delegates.

Name Committees

Leaders Discuss Sets of Resolutions In Gatherings of Adherents to Both Party Line-Ups.

Attending, with Prof. O. R. Bowen, T. S. Hook and H. H. Addison the convention in Lincoln last Thursday of the republican party, F. S. Berry was selected to serve on the state central committee from District 11, with Mrs. Marie Weekes of Norfolk. Among Wayne people who attended the convention and returned home Friday were Mr. and Mrs. Eli Laughlin, Robert Simmons of Scottsbluff, who discussed facts concerning the regular policies of the republican party, met with great favor in the convention. He spoke of the policies of the party in the light of what has been accomplished in Nebraska, and in the nation, backing up statements with statistics and examples. Mr. Simmons is of the committee on appropriations. One of the important topics mentioned by Simmons was the veterans' bonus bill which came before the nation this year. He stated that the bill, as vetoed by President Hoover, would have brought about conditions which the present bill will take care of in a much more efficient manner. The new bill, he pointed out, will not allow pensions to go to men who last year paid an income tax.

Democrats Select Mrs. Bowen.
Mrs. O. R. Bowen was selected by the democratic group to serve with Frank Warner of Norfolk as a member of the state central committee from District 11. Reports of delegates from most of the thirty-three senatorial districts were heard, and discussion had.

Among those from Wayne who attended were Bernard Spittgenber, Frank Klopping and James Brittain.

The convention was reported well-attended, and interesting.

Fire Marshal Visits This City
Deputy Wilson Makes Wayne Headquarters For Study Of This Section.

"Poor city housekeeping has many bad effects. One of the worst of them, considering the public pocketbook, is the raising of the insurance rate," insisted Thomas L. Wilson, state deputy fire marshal, who arrived in Wayne last Wednesday to begin an inspection campaign. Mr. Wilson devoted the first days of the time to investigation in the city of Wayne. Working from this time, he will investigate other towns in the section.

Wayne has an amount of garbage which would not exceed, says the marshal, a total of more than twenty loads in a month. The total for a week would be about five loads, which could be divided into two and one half loads for each of the two collections which should be had in a week.

One of the best methods of improving city housekeeping, Marshal Wilson finds, is the adoption of the city scavenger system.

Explains Scavenger System.
The scavenger system, as explained by Mr. Wilson, is simple in operation, inexpensive, but effective. City forces already employed could be utilized to collect twice a week the garbage and rubbish which accumulate in the alleys. Suitable disposal could be made of the rubbish at once, thus obviating the development of flies, and the assembling of rats in alleys.

Incinerators are effective, Marshal Wilson says, only if waste material is disposed of in them, and not left to provide a breeding place for flies in summer, and a home for rats in winter. Flies are well-known as common carriers of disease and infection. Rats, while less frequently associated in this connection, are known to be carriers of serious infections.

Mr. Wilson's investigation of conditions in designed to reveal any laxity in observation of the state fire laws, and to point out, with the assistance of local law, if necessary, the importance of obeying the injunction to clean up.

Each place of business receives a slip on which the marshal has made notations designating in which particular the establishment may have erred from the rules prescribed by the state for safety against fire.

Suffer Injuries In Car Accident

Mrs. Max Beghtol of Lincoln, Relative of Wayne Woman, and Children Are Hurt.

When a truck at St. Paul, Minn., September 2, struck a taxicab in which Mrs. Max Beghtol and children, Martha and Robert, of Lincoln, were riding from one depot to another to return home from a sojourn in California, Mrs. Beghtol suffered three skull fractures and internal injuries and the children were cut and bruised. No hopes for recovery were held for Mrs. Beghtol. Martha's left hand was almost severed. Mrs. Beghtol's husband is a cousin of Mrs. J. E. Hufford of Wayne, and a number here know Mrs. Beghtol through association with the Kappa Kappa Gamma sorority in Lincoln.

Mrs. Beghtol was relieved somewhat Thursday when pressure was removed on her skull fractures. She did not regain consciousness after the accident. As soon as Mr. Beghtol heard of the accident he and Mr. VanHorn went by plane from Lincoln to St. Paul, arriving there in three hours. Robert Beghtol, 15, came back to Lincoln with Mr. VanHorn Friday. Mr. Beghtol and Martha, 11, remained with her.

The Beghtols have a summer home on a California lake and the three were returning home last week by the northern route after spending a few months in the west.

Teacher Of Indians Is On Retired List

Under congressional retirement act, S. Toledo Sherry, South Sioux City, Indian teacher, was retired the first of this month after thirty years of service at Pine Ridge school. Mr. Sherry has evolved the model farm plan of education for Indians and he plans to devote the rest of his life to having this adopted in all schools.

Arrive In East After Four Days

Mrs. W. C. Lowrie, Miss Minnie and John Lowrie, who left Wayne August 27 by car for Wilmington, Del., to join Prof. Lowrie who had gone there in the spring to teach in Beacom commercial college, arrived at their destination Saturday, August 30. They traveled non-stop at night and had a wonderful trip all the way. Their only car trouble was two flat tires. The Lowries found the scenery beautiful all the way east. They like Wilmington and find people very friendly there.

Miss Minnie and John Lowrie enrolled in Beacom college September 2, as also did Boyd Luckey who accompanied them east on the trip. John is organizing an orchestra in the school.

The Prof. Lowrie family is located at 2098 Van Buren street, Wilmington.

Former County Farmer Is Dead

Rites for Joe Sheets of Pilger Held Thursday—Interment in Wayne Cemetery.

Funeral services were held Thursday afternoon from the Methodist church at Pilger for Joe Sheets, former Wayne county farmer, who passed away at his home in Pilger September 2. Mr. Sheets was 69 years old. Rev. E. L. Peterson had charge of rites and interment was made in Greenwood cemetery in Wayne.

Deceased lived on a farm southwest of Wayne about thirty years ago, later moving to Stanton county. He had made his home in Pilger for several years.

Joseph Henry Sheets was born April 13, 1861, in Augusta county, Virginia. He lived in the east until about twenty years old, when he came west to Marshalltown, Iowa. Later he came to Nebraska, locating in Wayne county where he farmed for nine years. For the past fourteen years he had lived in Pilger and before that, on a farm in Stanton county.

Deceased was married to Miss Selma Maude Tidrick November 30, 1899. Mrs. Sheets is a cousin of Mrs. True Prescott and Mrs. Maria Wolf of Wayne.

Besides his wife deceased leaves three daughters and one son: Miss Laura Sheets who teaches at Wobach in Greeley county, Mrs. George MacKlin who teaches at Laurel, Miss Doris Sheets of Omaha, and Eldon Sheets, at home. The three girls are former students at the college in Wayne. One child died in infancy.

Mr. Sheets also leaves three half brothers: Thomas Sheets of South Dakota, Daniel Sheets of North Dakota, and James Sheets of Cedar Rapids, Iowa.

Mrs. Lund Enjoys Sojourn At Lake

Wishing that she might have remained in the lake country during the entire autumn season, Mrs. C. J. Lund returned Wednesday evening last week from Big Stone Lake, S. D., where she had spent six weeks of the summer.

Mrs. Lund, whose cottage is situated on the lake shore, where cool breezes, and pleasant showers of rain were frequent occurrences, enjoyed her stay so much that she plans to go early another spring, remaining until the heat of the summer is well past.

Timely rains meant a good crop, and green pastures in the vicinity of Big Stone Lake, Mrs. Lund stated. Corn was in good condition around the lake, although much of the South Dakota corn, like that in Nebraska, has suffered

Under congressional retirement act, S. Toledo Sherry, South Sioux City, Indian teacher, was retired the first of this month after thirty years of service at Pine Ridge school. Mr. Sherry has evolved the model farm plan of education for Indians and he plans to devote the rest of his life to having this adopted in all schools.

Arrive In East After Four Days

Mrs. W. C. Lowrie, Miss Minnie and John Lowrie, who left Wayne August 27 by car for Wilmington, Del., to join Prof. Lowrie who had gone there in the spring to teach in Beacom commercial college, arrived at their destination Saturday, August 30. They traveled non-stop at night and had a wonderful trip all the way. Their only car trouble was two flat tires. The Lowries found the scenery beautiful all the way east. They like Wilmington and find people very friendly there.

Miss Minnie and John Lowrie enrolled in Beacom college September 2, as also did Boyd Luckey who accompanied them east on the trip. John is organizing an orchestra in the school.

The Prof. Lowrie family is located at 2098 Van Buren street, Wilmington.

Warmth Is Needed To Mature Corn

Lincoln, Sept. 4.—Considerable warm weather is necessary for the filling out of late corn, but it has made good progress during the past seven days, the Lincoln weather bureau said today in its weekly crop bulletin.

The report said the week was favorable for general farm work, except that rain interfered with haying and threshing in some localities. Fall plowing and seeding of winter wheat have progressed well.

Winter Wedding Just Announced

Miss Grace Johnson and Lieutenant Ralph Woods Were Wed in December.

Mrs. Charles Wesley Johnson of Villisca, Iowa, has announced the marriage of her daughter, Miss Grace Marie, to Lieutenant Ralph Nisley Woods. The ceremony was performed on December 23, 1929, at Pineville, Ky., by Rev. A. G. Cox of the First Methodist church.

Mrs. Woods is a graduate of the Wayne State Teachers College and assisted in the registrar's office at the school. She is also a graduate of the University of Nebraska where she was a member of Alpha Omicron Pi sorority. For the past three years she has been assistant to the director of teacher training at the university in Athens, Ohio.

Lieutenant Woods is a graduate of the United States Military academy at West Point, N. Y., and is now stationed at Fort Benning, Ga., where the young couple will make their home.

City Establishes New Fire Records

Local Squad Answers Calls To Town and Country Blazes In Year.

Thursday morning's fire in the Wayne laundry building was the twenty-third alarm of the year. Little damage was incurred. The only loss was the burning of a belt which had caught over a generator. Smoke was rather dense after the belt began blazing, but the quick response of the fire department obviated a serious conflagration.

Fire calls made from January first to September 4 of this year began with a fire on the Roy Jeffrey place, January 9. A call to the H. W. Bonawitz place followed January 30.

Three calls were made in February, the first February 7 at the G. W. Costerians. Following that were calls at P. C. Crockett's, February 9, and T. Collins February 22.

Orr & Orr had a fire March 10. Rev. H. A. Teckhaus had an alarm March 11.

April Leads Record.

There were five fires during the month of April, although two of them were only grass fires, and were not recorded as serious. The first of these was April 5 when two of them occurred; one on the Muelier place, and the other on the W. E. von Seggern ranch. A fire at J. W. Baker's was next recorded, for April 6, and on April 7, Frank Thielman put in a fire call. John Reeg completed the April record with a fire in his chicken house April 9.

Lincoln Transfer company had a fire May 10; R. B. Hanks, May 15; C. St. P. M. & O., May 20; and C. E. Thompson, May 24.

July 24 was another blaze at the C. St. P. M. & O., and there was a grass fire the same day at the country club.

L. L. Way's elevator was the scene of the next fire, July 26. Hrabak's store fire of August 6 was the largest of the year, to date.

Pete Paulsen and Fred Kemp turned in alarm on August 28, and the Wayne laundry fire of September 4, completed the record.

Damage to buildings in the year, so far, amounts to \$3,445, and damage to contents totals \$8,660.

Investigate Other Years.

Twenty-two fire alarms constituted the total number for 1928, as revealed by the report filed with the city in January, 1929. Total loss by fire was \$2,376, a total of \$1,305 on buildings, and \$1,070 on contents. Three of the fires were caused by the burning of trash.

Firemen on the active list, according to the last report of the chief, were the following: H. W. Barnett, John Bingold, Carl Bernson, Joe Baker, W. S. Bressler, H. W. Bonawitz, H. B. Craven, R. H. Carpenter, E. E. Fleetwood, D. Hall, W. D. Hall, Robert Henkle, Henry Kugler, Frank Korff, Henry E. Ley, Ray Larson, Walter S. Miller, P. L. Mabbott, Earl Merchant, L. B. McClure, F. A. Milder, Harry Perdus, Dale Rickabaugh, Martin Ringer, B. F. Strahan, Walter Savidge, L. W. Vath, Oscar Wieland, R. L. Will, A. E. Davison.

On the retired list, there are ten men who may be called upon in case of fire emergency, but who are not subject to ordinary call.

Farmers Operate Their Own Farms

Thirtyeight per cent of all farms operated in Wayne county, say Nebraska agricultural statisticians for the last year, are owned by farmers. This thirtyeight per cent constitutes a total acreage of 106,911.

Farmers are operating the other sixtytwo per cent of Wayne county farms, totaling 174,484 acres. The county has a total farm acreage of 281,345.

Of rented farms, fiftyfour per cent are for cash rent. A remaining forty-six per cent, or 80,240 acres are rented on the share plan, by which the owner accepts part grain rent.

Your neighbor on the Sinclair Truck has the answer to your oiling problems

WHEN you see the Sinclair Oil Truck coming, remember, the man driving it is always ready to stop and talk with you about your lubricating and fuel problems. He knows about oil—how to recommend the right oil for automobiles, trucks and tractors. Perhaps he can help you get better work and more power out of them.

He is not just a "salesman". Perhaps he can help you when something goes wrong with your car—if the difficulty is in the oiling. Talk with him tomorrow. Ask him questions—ask him, for example, how you can cut down your oil-and-gas expenses. He will be glad to talk with you. Your money's worth or your money back!

LESS LOST TIME with NEW Polarine

THE MODERN MOTOR OIL

Fewer worn out or burned out bearings... fewer layups for repairs and cleaning out carbon. Because the new Polarine gives better protection against friction and wear... deposits less than half as much carbon!

Here are some facts about this modern motor oil—the new Polarine:

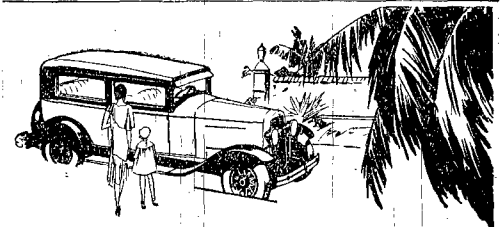

- Contains no wax or tar to form crankcase sludge and interfere with oil circulation.
- Changes its body less from zero temperatures to engine heat than any oil you can buy.
- Stays clean longer because it produces less than half as much carbon.
- Consumes slowly and resists dilution.

The new Polarine is refined by a new process from selected oils. In truck, tractor and passenger car no oil at any price will do more for your motor. Consult the new Polarine Chart for correct grade—25c a quart.

See Our Exhibit At The Wayne County Fair Wonderful Farm Machinery Famous McCormick-Deering Lines

We have McCormick-Deering machines in stock, many of them on exhibition at the Wayne county fair this week. See these machines and note the distinct advantages they offer.

A High-Speed, One-Man Outfit

McCormick-Deering
One-Row
Tank
Corn Picker

HAVE you seen the McCormick-Deering Power Corn Picker with the 25-bushel tank? We would like to have you come in and look it over. It does the back-breaking, knuckle-bruising job of picking corn at a rate of 10 to 12 acres a day—very much faster than by hand—and exceptionally clean.

One man on the tractor seat handles both the tractor and the picker. It is operated through the power take-off of the McCormick-Deering Farmall, 10-20, or 15-30 Tractor.

The tank is a great convenience. Its capacity is usually sufficient for a trip down the field and back, and the necessity for hitching and unhitching wagons is eliminated. Steel and iron construction and evenly-distributed weight provide exceptionally light draft. Trash is eliminated by an exclusive process.

Step into our store any time you are near and we'll be glad to tell you more about it.

REPAIRS

The right kind of repairs adds new life to your machines. Use only genuine I. H. C. repairs for your McCormick-Deering farm operating equipment. A genuine repair part fits exactly and becomes a perfect part of the machine.

Corn has got to be harvested

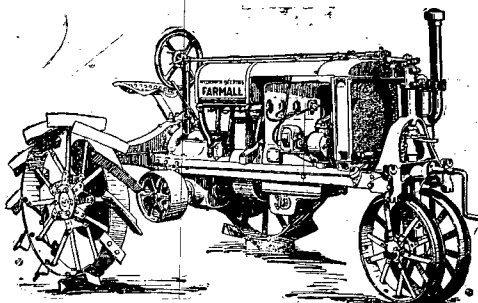

...the New
McCormick-Deering
FARMALL
One-Row Picker
is the machine to do it

If you are interested in the most modern farm machinery you'll want to know about the new McCormick-Deering FARMALL One-Row Corn Picker. It is a power-operated unit, attached to the left side of the FARMALL Tractor (the belt pulley can be used if desired without removing the picker). It has a capacity of 10 to 12 acres a day. One man easily controls it from the tractor seat.

Its 20-bushel tank has a capacity which is usually sufficient for a trip down the field and back, and the necessity for hitching and unhitching wagons is eliminated. Steel and iron construction provides ruggedness, and the weight is evenly distributed throughout.

The FARMALL One-Row Picker is a remarkable asset to the corn grower—it takes the drudgery out of a tough farm job and at the same time enables its owners to harvest their crop at less cost than ever before. Come in and ask us about this new machine and also the new McCormick-Deering (pull-type) One-Row Tank Picker.

The Great Labor-Saving Farmall

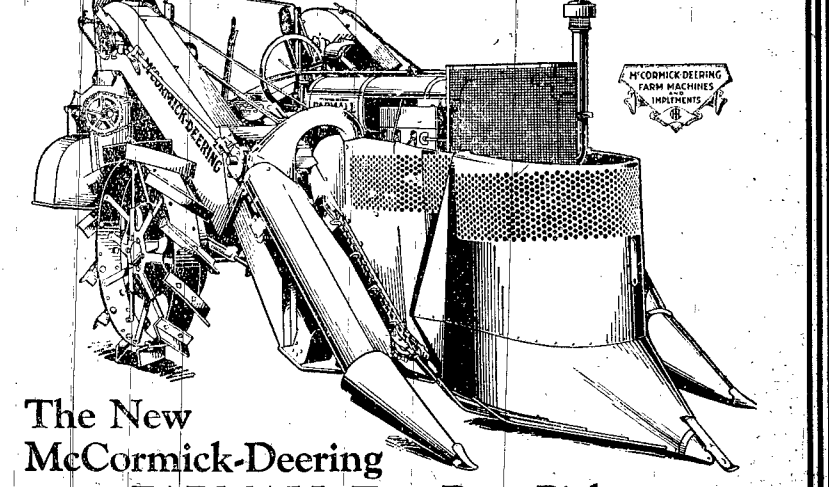

CULTIVATE your corn the new way with a Farmall! Two rows at a time! One can, with the new Farmall, cover 15 to 25 acres a day, the work of two or three men and four or six horses. Two additional two-row cultivators can be pulled by the Farmall. Where such equipment is available, six rows can be cultivated at a time.

PLOWING can be accomplished, if soil conditions are normal, to the extent of 7 to 10 acres a day with the Farmall. This is equivalent to the work of three men and nine horses.

CORN can be harvested with the Farmall at a more uniform, steady rate than ever before. Farmall can be used for pulling corn binder or corn picker, saving time and labor. With the Farmall, it is possible for a man and a boy to pick three or four times as much corn as is possible when only hand power is used.

Here's the Fast Way to Pick Your Corn

The New McCormick-Deering FARMALL Two-Row Picker

The new McCormick-Deering Two-Row Power Corn Picker—built especially for the FARMALL Tractor and operated through the power take-off—provides plenty of power and speed to handle your corn crop. It picks and husks 16 to 18 acres a day... enabling two men to pick and husk as much corn in one week as 4 hand-huskers could pick in 4 weeks.

This modern corn picker is easily controlled from the tractor seat. It will enter a field on any two rows and pick them clean without disturbing adjacent rows.

The gatherers raise the down and leaning stalks, chains carry the stalks

back, forcing them against snapping rolls, the ears are quickly snapped, elevated to the husking rolls, and then delivered to the wagon which is hitched directly to the center of the tractor drawbar.

Flexible paddles attached to a revolving beater located above the upper end of the snapping rolls force the trash down through the snapping rolls and discharge it on the ground. This feature is exclusive on McCormick-Deering Corn Pickers.

See us now about the FARMALL Two-Row Picker. We can also give you information on the FARMALL One-Row Picker and the One-Row Tank Picker.

Ability

Experience

The most valued feature of our service—more prized even than our complete funeral home and our modern equipment—is the great fund of experience residing in our organization. The various members of the staff have learned by actual practice to do their work well and give the greatest aid and comfort to those whom we serve.

Konjola Wins; Health Comes To Omaha Lady

Modern Medicine Banishes Rheumatism And Stomach Ailments - Other Medicines Failed.

MRS. EUGENIA WALSH

"I suffered dreadfully from rheumatism for more than a year," said Mrs. Eugenia Walsh, 2304 Douglas Street, Omaha. "My hips and ankle joints became so stiff and sore that it was very difficult for me to get around. At times, it was all but impossible for me to get up and down stairs. I suffered agony with a burning sensation in my stomach and I was terribly constipated. I tried medicines and treatments of various kinds without any lasting relief. It required but four bottles of Konjola to relieve me of rheumatism. Today the soreness and stiffness have gone and I can get around without difficulty. The burning sensation no longer bothers me and my bowels are regular. I am very glad to tell others of all the benefit Konjola brought me. I know it is a fine medicine because of what it did in my case." "Is it not logical to believe that what Konjola has done for others it will do for you - for everyone? This is especially so if Konjola is taken with regularity for six or seven weeks. Konjola is sold in Wayne, Neb. at Peber's drug store, and by all the best druggists in all towns throughout this entire section."

Revised Prices on Ladies' Silk Hosiery

All silk hosiery has been reduced in price. The quality has been improved. In the past few weeks there has been a decided decline on raw silk and rayon yarns which has influenced the prices of silk hosiery. Our prices are based on the newest and lowest quotations, and represent outstanding values. The lowest prices for twelve years.

Master Craft Handbags \$3.98

Think of it—a hand tooled leather handbag with laced edges with a genuine Gemo frame, turn lock.
