## Historical Records Panned In State

Four Nebraskaans, in addition to Dr. Addison E. Sheldon, the editor, have combined their talents and contributions in a most valuable historical volume by the Nebraska State Historical Society, just off the press.

N. C. Abbott, of Nebraska City, has traced the name Lincoln, as applied to cities and towns, from its Celtic-Roman origin, when it was spelled Lyndon, down to its present wide use in the United States. As he proceeded with his evolution, he endowed what might have been a dry subject with historical color and enriched it with deft touches of author skill until it emerged a precious and delightful contribution to the annals of the historical society, of which Mr. Abbott is the president.

Mrs. Margretta Dietrich has presented the life of her late husband, Charles H. Dietrich, former governor and United States senator, to his fellow citizens, in an intimate way so they may better appreciate his work as a private citizen, public official and statesman.

Indian lore and history will always be subjects of interest to Nebraska that will increase as the red men disappear from view and their lives enter the heroic mould. Major A. L. Green, of Beatrice, who in 1869 was appointed Indian agent to the Otoe tribe and continued in that connection until 1872, has contributed a valuable compilation of records, facts, and comment that will add considerably to Nebraska Indian history.

A young woman, Miss Lillian M. Willman, of Grand Island, took for her school thesis the history of old Fort Kearny. First located near present Nebraska City, then removed near the present city of Kearney on the Oregon trail that it might better protect settlers in the interior, Fort Kearny until its abandonment in 1871, was an important military garrison. It is

## Who says it is too EXPENSIVE?

Tests show that on gas cost per mile Red Crown Ethyl is a truly economical fuel.

Your motor develops more power. You shift gears less frequently. You run a lot less on the gas-wasting low and second gears. You don't have the expense of removing carbon. Gas knocks are eliminated. Engine wear and strain are reduced.

Far from being expensive, new Red Crown Ethyl is regularly used by thousands of Nebraska motorists in town and country because it gives more power and more work from their motors per dollar of fuel. Use it and find out how much better your motors run on this distinctly finer gasoline.

"Never Shall Forget What Konjola Did"

Just Another Proof Of The Powers Of This New and Different Medicine.

MR. JACK BARRY

"I shall never forget what Konjola did for me," said Mr. Jack Barry, R. F. D. No. 7, Lincoln. "I had a bad case of catarrh for several years. My complexion was bad and my bowels badly put out of order. I could not sleep right for I had to get up in the night to use a nasal spray. "I read so much about Konjola that I gave it a trial. I now have finished the third bottle and I am certainly improved. The catarrh is clearing up day after day. I have a good color; I am getting a full night's rest and I have been able to quit using laxatives. "One does not have long to wait for results once Konjola is put to work. A complete treatment of from six to eight bottles is strongly recommended for the best results. "Konjola is sold in Wayne, Neb., at Pelber's drug store, and by all the best druggists in all towns throughout this entire section."

## Motor Accidents At Head Of List

### Nebraska Statistics Show Many Children Hurt on Horses and At School

During the last two weeks, there were 3 persons disabled which brings the total, since January 1, 1930, to 378.

Eleven children were injured by falls from horses and 45 other children suffered fractures while at school or play. Twenty-one other boys received fractures and sprains while playing football.

Park animals injured 28, disabled 4 and killed 4, while farm machinery injured 15 and disabled 8. Other farmers were injured 6, 6 were fatally injured, 32 falls injured 21 children, 30 adults and killed 4 adults. Power machinery in the home injured 8. Burns and scalds resulted in 17 injuries and 4 deaths; most of these were carelessness with oil and gasoline. Two children were poisoned, 3 drowned in tanks and one strangled.

At a season of year when motor vehicle accidents should decline, we seem to suddenly have developed a mania for accidents by direct law violations. Most flagrant causes of the 277 motor vehicle accidents which have within two weeks killed 29, disabled 13, and caused injury to 30 other persons are:

- Intoxicated drivers, 7; blow outs, 19; loose gravel, 18; hindering and defective lights, 18; 12 railroad crossing accidents injuring 20 and killing 9 persons. Excessive speed and passing highway markers, 47. Trucks were involved in 44 out of the 277 accidents.

Twenty-five participated in 6 of the 29 accidents responsible for the 29 motor vehicle deaths.

The usual consistent traffic law violator is a potential murderer, not susceptible to safety education

and subject to control only by drastic traffic law enforcement.

Is Nebraska to submit to traffic murders at the rate of 2 a day as peacefully as we have submitted to terrorization by bank bandits for lack of an enforcement personnel?

## Former Instructor Speaks In East

Prof. W. C. Lowrie, formerly of Wayne, delivered an address in Wilmington, Del., October 14 and The Evening Journal there says the following:

Walter C. Lowrie, professor of economics and commercial law at Beacon College, delivered a very interesting talk to a group of business men last night in Beacon College auditorium, and was most enthusiastically received by the entire audience. Mr. Lowrie spoke on the value of a training in law pertaining to business and showed in his talk by many illustrations the large sums of money which may be saved by one's having a knowledge of the law. Speaking on the subject of contracts, he gave a concrete case of how a lost fifty thousand dollars because of incorrect wording in a will. If this doctor had had some knowledge of a corporation he would have been fifty thousand dollars to the good, whereas he did not get any of this amount. Mr. Lowrie's explanation of negotiable instruments, bailments, unfair competition and suretyship was greatly appreciated.

## Stricklands Travel Through Five States

Returning Thursday evening from a 2,200-mile motor trip, members of the Strickland family reported fine weather, turning cold only on the last day of the journey. Typical fall weather prevailed through South Dakota, Minnesota and Michigan, where the Stricklands visited.

In the nine days they were gone, the party visited Pierre, S. D., Duluth, Minn., Gladstone, Mich., and Chicago, Ill. They stopped two days in Chicago where they visited Mrs. D. C. Strickland's daughter, Mrs. G. L. Tillquist.

Those who went on the trip were Mr. and Mrs. Guy Strickland, Mrs. D. L. Strickland and Miss Nell Strickland.

## Program Of Music Given At Church

Prof. and Mrs. Albert G. Carlson and Miss Gladys Sulerud of the Wayne State Teachers College music department, gave a delightful program of songs and piano music in the Wakefield Mission church Friday evening.

Preceding the musical numbers Prof. Carlson gave a talk on music appreciation and its personal applications.

Miss Sulerud gave two groups of songs from old and modern composers. Among those especially enjoyed were "The Star" by Rogers, "Pale Moon" by Logan, "Hark! Hark! The Lark," by Schubert, "Take Joy Home," by Fromm, and "How Lovely Are Thy Dwellings," by Liddle. Miss Sulerud has a lovely soprano voice and she sings with ease and expressiveness. Miss Sulerud's song accompaniments were played by Mrs. Carlson. With sympathetic touch and tone these lent much to enjoyment of the songs.

Prof. Carlson played two groups of piano numbers including a "C Minor Sonata" by Beethoven, "Polonaise in A Flat" by Chopin, "Spinning Song" by Mendelssohn, "Hungarian Fantasy" by Schlisinger and some modern compositions. Prof. Carlson played with splendid enthusiasm. His remarks before each number gave points of special interest about the selection.

The choir sang several selections. History of various church departments was presented. Basket dinner was served at noon.

## Comedy Is Story Of Golf Romance

Competition is the spice of love! And "Follow Thru" is the sugar of entertainment. Plenty of competition, plenty of hilarious com-

edy, plenty of frobbing romance, and a real golf story that goes outdoors for its entertainment.

Charles Rogers and Nancy Carroll head the brilliant cast of "Follow Thru," all-Technicolor, which comes to the Gay theatre Sunday, Monday and Tuesday, October 26, 27 and 28.

There's fun galore in "Follow Thru," what with Zelma, O'Neal that lively little lady of "Varsity Drag" fame and her side-kick, the comic Jack Haley, and fat and jolly Eugene Pallette, heading the fun force. And there's excitement too in the big out-door golf scenes, with woman fighting woman, for a man's love.

## Demand Is Fair For Labor Of State

Lincoln, Neb.—Nebraska's workers are finding a fairly satisfactory demand for their services, the United States department of labor reported.

The employment situation, the

department said, is "fairly satisfactory for this time of the year."

A survey of general employment conditions over the state, Richard P. Jones, bureau director, said, indicated seasonal increases in the meat packing industry, flour mills and canning establishments.

Building operations, he added, are not quite adequate to furnish employment to all available craftsmen, but the surplus of building tradesmen was not found to be large.

Normal employment, Jones said, was found in nearly all other lines of endeavor.

"A large volume of unskilled workers," Jones reported, "continues to be absorbed in highway construction, farm operations, municipal improvements and other outdoor work. There is, however, a surplus of male and female

## Mortgage Holder Wins Farm Case

### Lincoln, Neb. — The supreme court found that title and possession of a Wayne county farm once belonging to Richard Ritze now belongs to Stephen E. Auker. Auker foreclosed a mortgage on property given by Ritze and secured a deficiency judgment. The deflation reduced values so that the land did not bring the amount of the mortgage.

Auker levied on the farm although it was in the name of Ritze's two sons and daughter, and sold it to himself at a sheriff's sale. The children of Ritze said the transfer to them was for a valuable consideration. The lower court held it not theirs.

The action of the district court was affirmed.

## College High Wins Game With Wisner

### Local Students Defeat Visitors On Friday Evening at Wakefield

Wayne college high school and Wisner football teams met at the college field here Friday evening and Wayne won by 47 to 0. The local students showed lots of determination and good interference. They easily outplayed the opponents.

Robert Theobald, Harold Anderson, Delmar Fitch and Forest Ingwerson starred for Wayne and made the touchdowns. The Wisner captain starred for the visitors.

Wayne goes to Wakefield this Friday for a game.
