THE KNOT-HOLE

No. 34 Wayne, Neb., Thursday, October 30, 1930 Vol. 1

You've no doubt heard of the guy who enlisted in the 16th Infantry so that he could be near his brother who was in the 17th Infantry.

Keep your buildings and fences in good repair. This can be done easily and cheaply if action is taken immediately when a break is noticed. But if allowed to run down over a period of years, the cost of rehabilitation is enormous. A few boards or other repair items promptly applied will cost but little and will keep your equipment as good as new.

We heard of a fellow who went to a wedding this month. It was such a big affair that he lined up four times to kiss the bride before they threw him out.

The editor and his better half took a long drive in the country last Sunday. That Wayne county has some good farmers is evidenced by the beautiful homes we saw. We have every reason to be proud of our Wayne county farmers.

Isn't it funny how many people there are who think they are smart enough to beat the other fellow at his own game? They are the fellows of whom it has often been said, "there's a sucker born every minute."

Starting furnace fires is a simple matter if you use our kindling.

This ad. appeared recently in a Kansas paper: FOR SALE—Big fat hog. Come out and see me. Jim Larkin.

Banner steel fence posts are quick and easy to set and cost less than several of some other kinds. Prices are as follows: 6 ft. angles 32c, 5 ft. R. R. rail 36c, 5 1/2 ft. R. R. rail 38c, 6 ft. R. R. rail 36c, 6 1/2 ft. R. R. rail 40c.

The man who boasted to his son of his own youthful halcyon days pranks now regrets it.

The reason why we don't sell some other brand of fencing instead of AMERICAN is because we are convinced AMERICAN is the best.

Corn picking is progressing rapidly in Wayne county and the yield is surprisingly large in most fields.

Local candidates are putting the finishing touches on their campaigns for support, and next Tuesday will conclude the contest.

If conditions are bad, they have a peculiar way of showing it hereabouts. According to reports, people are buying and improving about as liberally as ever.

THE SENATORSHIP. Avant garde! Avant garde! Let us banish the miasma of magnified evils and adopt a policy of constructive thinking and doing.

We believe with the Lincoln Journal that there is no good reason for one to tear his garments over any supposedly lurking trust.

On this premise we wish to base our preference for former Senator for G. M. Hitchcock to succeed Senator Geo. W. Norris.

While we may disagree with former Senator Hitchcock in a few party policies, we are justified by a conspicuous precedent and by assurance of constructive qualities of mind to vote for his election.

high plane of living is fully maintained. We think Governor Westery's record will stand closest scrutiny and deserves popular approval at the polls next Tuesday.

Many teachers and others recall with high favor the public services of John M. Matzen as state superintendent some years ago, and are for his election at this time with a ton of emphasis.

Miss Ellen M. Brown, former superintendent of Thurston county, contributes an article to the Friday Times pointing out Mr. Matzen's fitness and endorsing his present candidacy.

While present-day political campaigns arouse some unpleasant feelings, they are not so bitter and hateful as they were in the old days.

On the contrary, calamity talk subsided and the pendulum started back, markets improved, money came out of hiding and healthy times were soon restored.

FOOTBALL. Football is losing its original spirit as a wholesome American game as pointed out by the World-Herald.

The football player makes the biggest sacrifice. He enrolls at colleges to train his mind for his life work.

The wild excitement over football in the great colleges, and the demand of the public for victory or retirement for players defeat the purpose of the game.

This is the situation confronting the parents and the educators of America today.

If colleges can find a way to keep the competitive spirit, but end the rising tide of professionalism, they will be doing a great good for themselves.

Might as Well Say "BOY SCOUT TRUST". A newspaper article printed in Omaha Thursday quoting Senator Norris attempts to involve the Nebraska Power Company in politics. In commenting upon the testimony before the Nye Senatorial Expenditure Investigating Committee that Walter W. Head, Chairman of the Board of Directors of this company gave some of his personal funds to conduct a poll of republican voters in Nebraska, Senator Norris is quoted as saying: "Walter Head was formerly president of the Nebraska Power Company. He is now chairman of the board of directors of that company." Later in the statement Senator Norris is quoted as saying that the Nebraska Power Company "is a part of the power trust." Mr. Head is now president of the Foreman-State National Bank of Chicago, is chairman of the board of the Omaha National Bank and has long been active in republican politics in Nebraska. An attempt to involve the Nebraska Power Company in politics because of Mr. Head's political activities might just as reasonably be applied to any other of his many and worthy interests. Mr. Head is a director of the International Y. M. C. A., a director of the Chicago and Northwestern Railroad, a director of the New York Life Insurance Company, president of the Boy Scouts of America, a director of several banks and many other institutions, and a farm owner. Instead of singling out the Nebraska Power Company and erroneously claiming that it is part of a "Power Trust," reference might just as reasonably have been made to the "Railroad Trust," or to the "Insurance Trust," or to the "Banking Trust," or even to the "Y. M. C. A. Trust," or to the "Boy Scout Trust," or to the "Farm Trust." As a matter of fact, any statement that there is a "Power Trust" in Nebraska, we emphatically deny. There are, in Nebraska alone, many separate and distinct Power Companies with separate and distinct ownership and management. The Nebraska Power Company is not in politics. It has not contributed one cent either for or against the election of Senator Norris. The implication that this company has anything to do with the Senatorial election in Nebraska is without foundation. The sole business of the Nebraska Power Company is to sell electricity to its customers at the lowest possible rates and to furnish the best service we know how to furnish. We believe we are doing this to the satisfaction of our customers. J. M. Peterson, President, Nebraska Power Company

Hunters Bring In Variety Of Game

Orcutt's station checked a total of 35 pheasants for first four days of the season. There were brought out of county hunters who brought in bags, and only three violations were mentioned for that section of the county early in the season. Wild ducks are reported to be abundant along the creek bottoms, and many pheasant hunters who find their chosen game grown vary are being satisfied with good bags of ducks.

THE GOLDEN RULE
November Low Price Demonstration
Each day brings us nearer to cold weather—don't delay the purchase of the things you need to keep you warm. You can buy them at the new low prices—prices that are "pushed down" to the lowest point consistent with market costs and economical operating expense.

We Have Pushed Prices Down
Some folks may think that price reductions come voluntarily—they do. In many instances—but to get the full advantage of a lowering market, one must aggressively go after price concessions. Soft "honeyed" words do not always bring home the bacon—friendly connections between the buyer and the seller do not always work towards the desired end. We believe that we can sell goods cheaper because we are constantly on the alert to take advantage of every market situation. Since last April we have continually been pushing prices down, and every reduction that we have gained we have passed on to our customers.

RUPTURE EXPERT HERE

C. F. Redlich, Minneapolis, Minn., will demonstrate without charge his unique method.

WAYNE

Tuesday, November 4

at the Stratton Hotel from 10 a. m. to 4 p. m. Evening by telephone appointment.

Mr. Redlich says: "The 'Perfection Retention' method is a rupture procedure by which the position of the ruptured organ is held in its original position and the opening is closed and the opening without discomfort or detention from work. It is practically everlasting, sanitary, comfortable and actually holds ruptures which heretofore were considered uncorrectable.

Stomach troubles, backache and constipation, nearly always a consequence of rupture, promptly disappear.
