Rites Are Held In Allen Church

Conduct Services, Tuesday For Mrs. Susan Kingston Who Died Sunday.

Came From Ireland

Deceased Had Lived at Wayne Stanton, Pender and Allen Many Years.

Funeral services were held on Tuesday afternoon at 2:30 in the Allen Methodist church for Mrs. Susan E. Kingston, who passed away Sunday, November 16, at the home of a daughter, Mrs. E. C. Wharton, near Allen, after an illness of only three days, aged 81 years, 2 months and 10 days. Rev. E. N. Littrell had charge of the rites and interment was made in the Allen cemetery.

Mrs. Kingston's maiden name was Miss Susan Bennett. She was a daughter of James and Mary Ann Bennett and was born in Ireland September 6, 1849. She was married there to James R. Kingston February 19, 1873. The family came to America the following year and settled on a farm in Stanton county where they endured the many hardships of pioneer life. In 1877 they moved to a farm in Dixon county, close to where Allen now is. They resided there until 1897 when they went to Pender where they resided until the death of Mr. Kingston April 1, 1915. Since then Mrs. Kingston had made her home with children spending much of the time in Wayne.

Deceased united with the Methodist church at an early age and remained a faithful member throughout her life. She was a kind and loving mother and friend.

Mrs. Kingston leaves nine children as follows: Richard Kingston of Caldwell, Idaho; Mrs. J. P. Lynch of Rock Valley, Iowa; Ernest Kingston of Platte Center, Neb.; Mrs. E. C. Wharton of Allen; Mrs. William J. Clover of Pender; James E. Kingston, Matthew Kingston, Mrs. E. R. Metz and Robert J. Kingston of Wayne. There are 27 grandchildren and ten great grandchildren.

Everett Olmsted Dies Last Week

Deader in Clothing Here for Score of Years Before Going To West.

Everett P. Olmsted, postmaster in Penrose, Colorado was stricken with a heart attack from which he died while at work November 10. Word received here tells of his work in Colorado, following his departure from this community some years ago, following 20 years' residence here.

Mr. Olmsted, who was born in Stark county, Ill., July 28, 1860, lived as a child on a farm near Murray, Iowa, where he was graduated from high school. He was married Feb. 15, 1881 to Miss Mary Melissa Weir, after which he engaged in the clothing business. He later came to Wayne, where he was a dealer in clothing for a score of years before moving to Norfolk, where the family resided for a short time.

In 1911, they moved to Beaver Park, Colorado, where Mr. Olmsted was one of those interested in the community development. Since 1924, he has been postmaster there, and had contributed materially to the progress of the town. He held office as secretary-treasurer of the Fremont Federal Farm board, gaining wide acquaintance over the counties with which he dealt.

Mr. Olmsted is survived by his three daughters, Mrs. R. L. Dietz, Mrs. H. W. Bates of Canon City, and Mrs. U. J. Post of Ten Sleep, Wyo. There are two grandchildren, Elizabeth and James Dick. Services were conducted November 13, with burial in Lakeside cemetery, Canon City.

Dr. House Writes Of New Grandchild

Wayne friends were interested in learning of the birth of a daughter to Mr. and Mrs. Maurice Ryskind of New York City, on Armistice day, Mrs. Ryskind is the former Miss Mary House, daughter of Dr. J. T. House, from whom word of the new grandchild came this week. The infant will be called Ruth House Ryskind, according to word received by Miss Clara Madsen.

ONE DAY EARLY.

The Herald will issue Wednesday morning next week—one day earlier than usual—to reach readers in the outlying territory ahead of Thanksgiving day. Thus, news and advertising copy should be speeded up accordingly.

COURT HOUSE AT PENDER FOLLOWS CITIZENS' UNITY

WE made a brief visit to Pender recently in company with T. S. Hook who had business there in connection with his duty to invite people to establish safety and peace of mind by proper life insurance coverage. Mark Murray who has been publisher of the Pender Times for over forty years and who is sound on most subjects outside of politics, showed us the court house which, on failure of the county to vote bonds, was made possible through local generosity. An old school house was reconstructed and put into shape for the court house, and the total cost ran but slightly more than \$13,000. The different rooms, including the jail, are comfortable and attractive, and the building suggests a value much above the cost. Editor Murray pointed out the big hotel which was built many years ago by the enterprising Mr. Peebles, and which apparently is much larger than the town needs. Mr. Peebles was a leading spirit in the early days of Pender, and he was prominent in politics, at one time having vied with the late Ross Hammond for the republican nomination for congress in this district. Hammond won in the convention, but was defeated in the election. Editor Murray has done well to stick to his last in one spot, and when, if ever, he gets enough to retire, he won't have to worry over how he will make the final grade.

Give Judgment In Court Case

Stranger Cashes Three Checks in Wayne and Leaves—Other Action Taken.

Judgment for \$46.38 with interest at 7 percent from May 31, 1930, also costs of \$1.20, was rendered in Wayne county court on November 13 in favor of George C. Staben and against George B. Gordon. Staben filed complaint in court alleging that he sold and delivered in May, 1930, to the Gordon Motor company, of Winside gas and oil to the amount of \$65.25; that the defendant paid a small amount on the claim; that July 31, 1930, the Continental Oil company of Lincoln, for which plaintiff is agent, retained the amount due from Gordon out of the wages of plaintiff; and that the sum of \$63.88 with interest at 7 percent from May 31, 1930, is due. In court November 13 Gordon acknowledged his indebtedness. After subtracting credit of \$17.50, the amount of \$46.38 with interest and the costs of \$1.20 are found due the plaintiff.

A man of about 40 years of age, giving his name as Clyde Francis, cashed checks at three filling stations in Wayne last week and left this section. Each check was for \$8. The man had most of the checks out to himself and had signed the name of Lloyd Powers. At each station he bought a small amount and took the balance in cash. Before making the rounds he had cut the telephone wire leading to the Powers farm.

Ed. Geer, charged by V. V. Chambers with attempt to wound him, pleaded guilty in county court Friday and paid a fine of \$5 and costs of \$7.60.

Elected Member Of Honor Group

Prof. J. Q. Owen Is Named to Medieval Society of America for Special Work.

Membership in the Medieval Academy of America, a society to which recognized scholars of the country are elected, has been bestowed on Prof. J. Q. Owen of Wayne. Certificate of membership was received by Prof. Owen Monday. The society is established to conduct, encourage, promote and support research, publication and interest in medieval records of literature, languages, art, sociology, history, science and other aspects of medieval civilization. Only those who have taken special work in this field are admitted. Prof. Owen has worked in the English field with Martin E. Ruud, Frederick Kaerber and Karl Young, among the world's recognized scholars in this period.

Personal Taxes Are Being Paid

Personal taxes, due November 1, are delinquent December 1 and draw 10 percent interest from that date. So far 660 persons have paid personal taxes, this being more than paid the whole month of November last year. There still remain about 3,800 persons who are to pay in this county.

Budget Request Given to Board

Maintenance And Expansion Needs Of Four Schools Being Considered.

Library Inadequate

Wayne Asks Study Room to Meet Requirements of This Growing Institution.

Budget requests filed with the state normal board by the Wayne, Kearney, Peru and Chadron teachers colleges for maintenance and expansion in 1931 and 1932 total \$2,078,696. Secretary H. E. Reische of the board has submitted the requests to the state tax commissioner and budget commissioner for approval.

The maintenance sum for the two-year period is fixed at \$1,763,696, an increase of \$198,042 over the 1929 request. Maintenance increase requested at Kearney and Wayne is 15 percent and at Chadron and Peru it is 10 percent. The present appropriation for maintenance and the increases asked for are:

- Kearney, \$426,000; increase requested, \$63,900.
- Wayne, \$405,548; increase requested, \$60,832.
- Peru, \$374,352; increase requested, \$37,435.
- Chadron, \$368,754; increase requested, \$35,875.

New buildings asked at the four institutions amount to a total of \$315,000. These include the following:

- Peru—To complete science building \$40,000; dormitory requirements, \$25,000; repairs and equipment, \$15,000.
- Wayne—Library and classrooms, \$80,000.
- Kearney—To complete training school structure, \$80,000.
- Wayne—Auditorium, \$75,000.

Wayne college has been in need of additional library room for several years. The number of students has doubled many times since the present library was provided. With the increase in number of students and change to the four-year college work the equipment and housing of the library have become inadequate.

Dr. U. S. Conn has figured expenditures carefully and finds that the increase requested by the school for maintenance is small in proportion to the additional service being rendered by the institution.

Swimmers Take Tests Thursday

Mrs. Rasmussen Passes Five Girls In Life Saving Class at College.

Red Cross swimming instruction was given gratis last week by Mrs. H. B. Rasmussen of Sioux City, who came here to give life saving tests to a group of girls at the college. These girls had been working on the tests all fall, in the hope of being able to pass the examination when Mrs. Rasmussen came. Final tests were given Thursday evening, and the following girls were passed as life savers by Mrs. Rasmussen: Nan Bangs, Marjorie Snell, Esther Spangler, Marion J. Theobald and Leora Wetherell.

Following the tests Thursday evening, the girls entertained for Mrs. Rasmussen with a spread at Neihardt hall, where she had been a guest during the days of her stay. Mrs. Holmes and Miss Estler Dewitt were also guests.

Boys To Take Tests.

Boys who recently began practice will go this week to Sioux City to take their tests. LaRue Hogle and Kenneth Seymour are the two who will be ready to pass the tests this week-end.

Both boys and girls who pass the tests will receive their emblems soon.

Mrs. Rasmussen, who has passed both the life saving and examiners' tests, hopes soon to take the examiners of examiners' tests, which will enable her to do advance work in Red Cross groups. Her work in the field has been done gratis, as is all work done by Red Cross officials.

George Roe Has An Operation, Friday

George Roe, well-known in this community as a pioneer, underwent a major operation in a local hospital Friday, November 14. He will be confined to the hospital through his convalescence.

Elected To Place In East Hospital

Miss Phyllis Lewis who has a position in a hospital in Lancaster, Pa., has been chosen to a place in a New York hospital. She will go to her new work after the holidays.

NEW POSTOFFICE HERE WOULD SEEM VERY PROMISING

IN line with an extended building program on the part of the government in the interest of employment as well as public need, Senator Smoot of the public buildings committee is quoted as suggesting the erection of postoffice buildings in towns where postal receipts do not reach more than \$3,000 per year. The report states that the law now restricts building in towns where the postal incomes are not less than \$7,500. Senator Smoot proposes a change in the law if necessary.

However, we had supposed postal receipts had to reach a minimum of \$20,000. Be that as it may, Wayne's postoffice rolls up annual business of more than \$20,000, and it would seem entitled to a building if towns of one-third or less should have appropriations for that purpose. It would appear the part of wisdom for the government to supply towns that now deserve the improvement without waiting to change the law to accommodate points of very inconsiderable receipts. A year ago an effort was made to secure favorable action in Washington, but the effort arrived nowhere as it had done at different times previously. Wayne's size and postal business deserve a federal building, and the public buildings committee of the government ought to be persuaded on a basis of cold facts without the necessity of calling out the band and burning a lot of red fire.

Laurel Farmer Ends Own Life

Body of Ralph Bruggeman Found By Wife in Barn Thursday Morning.

Funeral Saturday

Rites Are Conducted at Presbyterian Church With Burial at Laurel.

The lifeless body of Ralph Bruggeman, 30, Laurel farmer was found hanging in the barn at his home early Thursday morning by his wife who went to call him to breakfast. No motive for the act is known. The family arose early as usual and Mr. Bruggeman had gone to feed the horses while his wife prepared breakfast. He planned to go to the corn field early. When Mr. Bruggeman did not answer her calling, Mrs. Bruggeman went to the barn and discovered that he had taken his life.

Mr. Bruggeman was the youngest son of Mr. and Mrs. L. D. Bruggeman of Laurel, and besides his parents, he leaves his wife and a 2-year-old daughter. He was a grandson of Mrs. Augusta Bruggeman of Carroll, and he leaves five brothers and six sisters.

Funeral services for deceased were held Saturday afternoon at 1:30 from the Laurel Presbyterian church, and burial was made in the Laurel cemetery.

Boy Scouts Hold Court Of Honor

Merit badges go to workers in various troops. Several New Members.

Court of honor was held by the local boy scouts in the office of J. H. Kemp Friday evening, when merit badges were awarded as a part of the program. Among such badges were the following: Lewelwyn Whitmore, badge for pioneering; Alphonse Martischang, animal industry; Kenyon Lewis and Miles Tyrrell, aviation; Tom Cavanaugh, public health and firemanship; Einar Bernston, art.

Kenyon Lewis received also the star badge, which is awarded when a scout has earned five merit badges. Donald Wright and Gerald Bunney were admitted to the rank of tenderfoot scout.

Tweety Whitmore and Weldon Haas were admitted to the rank of first class scouts, and John Alden Lewis was made a second class member of the troop.

Troop 175 Meets

Troop 175 met Friday evening at the high school, accepting Paul Young as a tenderfoot scout, and Donald Wamberg, who was transferred from another troop.

Vogt Land Sale Has Good Result

The 131-acre farm of William Vogt, Sioux City, which was sold at auction November 10 by Vogt & Zicht, Wisner, for \$120 per acre. The auction of land proved a good way of disposing of the property.

Red Cross Roll Call Conducted

Canvass Made On Saturday In Wayne Brings Total Of \$236 To Date.

Until Thanksgiving

Carroll and Winside Report Amounts Received First Day of Drive.

Canvass conducted Saturday in Wayne for the annual Red Cross roll call, which is held from Armistice day until Thanksgiving, brought in \$236 for the fund. Business houses and residences were visited and booths were maintained down town in the evening. The drive will continue until next Thursday and others wishing to subscribe may leave their membership money with Mrs. D. J. Cavanaugh at her home or in the library.

Mrs. Cavanaugh was assisted Saturday by Mrs. Gertrude Morris, Mrs. William Melior, Miss Anna Gleaser, Miss Mary Gillies, Miss Ariene Urban, Miss Ada Tolleson, Miss Louise Eggert and Miss Verna Mae O'Neill in the business district. Canvass of the residence sections was made by Lucile Wright, Kathryn Kemp, Margaret Fenske, Peggy Morris, Gwendolyn Mulvey, Jean Wright, Elaine Yocum, Helen Jones, Mary Alice Strahan and Mildred Moses.

In Other Towns. Canvass in charge of Supt. George Hall of Winside brought in \$20 Saturday. The solicitation in charge of Mrs. Charles Mills and Mrs. W. C. Logan at Carroll brought \$19. Hoskins has not yet reported. Supt. Russell Melberg has charge there.

Reports for the county in to date total \$275 and this amount will be increased before the close of the period.

Technician Here To Address Men

Kiwanians Plan to Entertain Norfolk Members and Others Next Monday Evening.

Technical phrases of sound motion pictures were explained Monday to Wayne Kiwanians by Max Newman, sound technician for the Western Electric company. The speaker used drawings, tubes and other apparatus to explain the process of voice reproduction. He showed the three processes through which the sound passes to be recorded into electrical impressions and explained that the same three processes are used to reproduce the voice. Discs and films are both common in talks. The discs are similar to phonograph records and are run simultaneously with the picture. The difficulty with these is that the reproducing needle often slips and gets the records out of harmony with the picture. The film type has impressions along the side and thus as the film runs the sounds are reproduced. This proves most satisfactory.

E. E. Gailey arranged for Mr. Newman's talk.

L. W. McEntt and W. D. Noakes were received into club membership and were instructed in the club aims by William Beckenhauer, representing the educational committee.

The Kiwanians plan a dinner and social evening next Monday for Norfolk members and their wives. The speakers will also be represented: International Trustee Howard T. Hill of Manhattan, Kan., will deliver the principal address at the after-dinner program. Dancing and cards will close the evening.

Married Thursday By Radio Pastor

Miss Estella M. Libengood, daughter of Mr. and Mrs. William Libengood of near Laurel, formerly of Wayne, and Mr. Lloyd Robertson of Spokane, Wash., were married at Yankton, S. D., Thursday, November 13, by the radio pastor, Rev. Mr. Cleveland. They were accompanied to Yankton by the bride's brother and sister, Lawrence and Miss Anna Libengood, and Miss Garnet Childs.

Relatives and friends were entertained at a shower in the Libengood home Friday evening to honor the couple, who received many beautiful gifts.

Mr. and Mrs. Robertson left on Monday for Spokane, Wash., where they will make their home, the former having a government position there.

Brother Of Wayne Woman Passes

Herman Krup of Etzen, Minn., brother of Mrs. August Lubberstedt of northwest of Wayne, died Monday, according to word received here Tuesday, Mr. and Mrs. Lubberstedt left Wednesday for Etzen to attend the funeral which will be held Friday. The Lubberstedts had visited the Krup family this September.

Buy's New Safe In County Office

Wayne county has bought from the state a guarantee department a one and one-half ton burglar proof safe for the treasurer's office. The safe has time locks.

Kingsbury Hall Is Being Removed From Wayne State College Campus

One of Earliest Dormitories Will Soon Be Dismantled—Other News At College.

Kingsbury hall, one of the oldest dormitories at the Wayne State Teachers College, is being removed from the campus this fall. The plan is in the future to build a brick hall, similar to Neihardt, for girls on the site of Kingsbury and North dormitories and then to house the young men in Terrace hall. North hall is now being used by the men.

Work of removing plaster, lathing and interior partitions is well under way in Kingsbury hall. The exterior walls will be removed last. Materials will be saved for use on the campus. After the building is removed the ground will be leveled.

Kingsbury hall was built in about 1900 when the school was owned by the late Pres. James Pile. Miss Elizabeth Kingsbury who taught in the Wayne Teachers College from 1910 until 1920 and who taught previously in the normal college, was preceptress of the hall for many years. The building was named for her. When first constructed the hall had the dining room and kitchen for the school on the lower floor and rooms for girls in the second and third stories. When the present cafeteria was built in 1924 Kingsbury hall was remodeled and the lower floor also made into rooms. It contained then housing for about 100 girls. The last few years boys had occupied the hall and this year the men transferred to North dormitory and Kingsbury was in use no more.

Kingsbury was the first hall on the campus to be provided with steam heat.

Need for Library. The new library appropriation for which is asked the coming two years, is an improvement needed ahead of the dormitory. The school has 16,000 volumes in the library, and storage for these and study space are insufficient. In summer periods it is necessary to use class rooms in science hall for library work. No plans of style or location are yet made for the library building. When this is built the present library rooms in science hall will be used for classes.

Second Quarter Opens. Second quarter of the college term opened here Monday with some new enrollments. A few new classes were started.

School will be dismissed Wednesday night next week for the Thanksgiving holiday.

Several Players Out Of Football

Injuries Prevent Several Wayne College Men From Entering Omaha Game.

Wayne State Teachers College football team meets Omaha university at Omaha this Saturday and several of the local men will be out of the game on account of injuries sustained in recent contests. Captain Dennis will be unable to play because of an injured knee. Kieffer, regular guard, and Hanson, regular tackle, will probably be out of the lineup on account of injuries. Arbutnot, who has been playing at quarterback and half, and Grubb, who plays at fullback, are also on the injured list.

The probable starting lineup for Saturday and weights of the men are as follows: McKinley, center 190; Hunt, right guard, 190; Steady, left guard, 185; Sexton, right tackle, 183; Paul, left tackle, 190; Lindamood, right end, 180; F. Evans, left end, 175; Anderson, quarterback, 145; Copeland, right half, 150; D. Evans, fullback, 160; and Andrews, left half, 145.

The last game of the season will be played next Thursday with York.

Union Services Arranged Here

Rev. W. E. Braisted Delivers Sermon at Thanksgiving Meeting in Methodist Church.

Wayne churches will hold union Thanksgiving services next Thursday morning at 10 o'clock at the Methodist church. Rev. W. E. Braisted, Baptist pastor, will deliver the sermon and other ministers will participate. Special music is also planned.

Skating Pond Is Built Now

Frost Will Make Youngsters' Newest Amusement Place Ready For Use.

When the first hard frost of the season glazes over the ponds, Wayne youngsters will have an opportunity to learn how to cut figure eights, and to glide in true skaters' fashion, for local firemen have arranged a pond which will be open to all who wish to skate. Land was leased from Henry Isom, one block south of the Evangelical Lutheran church, and firemen spent Sunday surveying out a 150 by 300 foot pond. This area has been banked and walled with earth and eight inch boards, and will be flooded as soon as the ground is frozen. In cold weather the flooded pond will freeze solid in a short time, and be ready for skating.

Firemen are offering the pond as a public benefit, and no admission will be charged. All children and young people who know how to skate, or want to learn, will have a good opportunity to do so without going far away from home, a point which will gain favor with parents.

The decision to arrange the pond was made at the meeting of the group November 5.

LIVELY WEATHER CHANGES BUT NO EXTREMES SO FAR

SATURDAY night rain fell and snow threatened, but the skies soon cleared and temperatures did not descend to expected levels. The elements thus far this fall have been mild and comparatively easy on coal piles. Some quick changes have been rung in as a reminder of the resourcefulness of this latitude, but snow and extreme cold have been postponed. The days of flies and box elder bugs are about over for the year, and noses, ears and exposed necks no longer furnish parking spaces for them. Abatement of the fly and bug nuisance is one of the winter compensations guaranteed by this climate. Another compensation is the way chilly elements quicken arterial circulation, sharpen appetites, build robust health and defer funeral expenses. With corn out of the fields, farmers are turning attention to other things, and all are fortifying themselves against any disorderly notions that the weather may be disposed to exercise.

Fathers And Sons Attend Banquet

Rev. P. A. Davies Discusses Double Challenge of Sons to Their Parents.

The double challenge of father to son was the message brought by Rev. P. A. Davies, father and sons at the annual banquet at the Carroll Presbyterian church Tuesday evening. He emphasized the fact that the father, by his example, must challenge the impressive son to courage, to clean living, to honesty, and to all the virtues which will make of him a good citizen.

Boys, on the other hand, challenge their fathers, through their idealism, to higher ideals and finer living. Youth, he explained, has ideals which have not yet suffered, disillusionment. If fathers are to serve their sons, Rev. Davies said, they must meet these ideals with understanding.

It is the young people who see race prejudice swept away, mission work fulfilled, religion taking its high place in every day living, and war a thing of the past. If older people can see some of the ideals of youth through their own experienced eyes, fathers and sons can work together toward a more complete fulfillment of the world's finer destinies.

Have Fine Toastmaster. Gomer Jones of Lincoln, well-known as a school man in this section of the state a few years ago, acted as toastmaster for the banquet. He spoke several times during the course of the evening, using the general theme of fathers and sons and their ideal relationship. Mr. Jones stressed particularly the importance of the good example which the ideal father should set for the ideal son.

Other speakers on the evening's program emphasized the same points, bringing them to attention in various ways. Rev. R. L. Williams of Carroll, who was called on extemporaneously, spoke with special interest in this topic. Extemporaneous speaking completed a carefully arranged and interesting program.

Music was furnished by E. O. Davis and others.

Hold Service In Church Here

Rites Are Conducted For Mrs. Rosina Haberman Monday Afternoon.

Passes On Friday

Deceased Had Been Resident of This Vicinity For About Half Century.

Mrs. Rosina Habermann of near Emerson, passed away Friday, November 14, after a lingering illness of over a year, aged 83 years, 9 months and 11 days. Funeral services were conducted Monday afternoon at the Lutheran church northeast of Wayne. Rev. F. C. Doctor officiating. Interment was made in the church cemetery.

Miss Rosina Bartling was born February 3, 1877, at Hooper, Neb. She was baptized into the Christian faith in infancy. When a child she came with her parents to Dixon county, locating on a farm northeast of Wayne. Deceased was confirmed in the Lutheran faith at the age of 14 years. She was married June 28, 1901, to Fred Habermann. Four children were born to this union, two having died previously.

Deceased leaves two children, Lora and Elmer. She is survived by three sisters, Mrs. William Wischnof of Amrit, Minn., Mrs. George Reuter and Mrs. Fred Avermann of Wayne, and two brothers, Henry Bartling of Wakefield, and William Bartling of Shoales.

Former Resident In Fatal Wreck

Charles A. Whalen of Omaha, Is Killed and Others Are Hurt Near Ashland.

When a speeding car forced them so close to the edge of a highway near Ashland that their machine turned over into a ditch Saturday morning, Charles A. Whalen, 50, Omaha politician and former resident of Wayne, was instantly killed, his wife was seriously wounded and two daughters suffered minor injuries.

Mr. and Mrs. Whalen and their daughters were enroute to Liberty, Neb., to spend the week-end with relatives. Witnesses said that the motorist who crowded Whalen over sped by and did not stop. After the death of Howard Whalen, owner of a Wayne bakery several years ago, Charles Whalen came to Wayne to operate the business. He stayed about a year and a half and then went to Omaha when the bakery was bought by Albert Johnson.

Mr. Whalen leaves a brother, O. M. Whalen, and a sister, Mrs. Anna Ackerman, at Stanton, and a sister, Mrs. W. W. Wiley, at Pierce. Glen Whalen who drives the Olson laundry truck here, is a nephew.

Represents State At Judging Meet

Lorenz Kay, son of Mrs. Henry Kay of Wayne, and student at Nebraska College of Agriculture at Lincoln, was recently appointed as one of three students to represent Nebraska at an international stock judging meet at Kansas City, Mo. The three young men attended the contest November 17, 18 and 19.

Heavy Rains Here

Rain in this vicinity Wednesday totaled about an inch and a half. About an inch of moisture was recorded in the fall last Saturday night.

Tommy—"Why do you suppose Adam was created first?"

Dad—"Oh, perhaps to give him a chance to say something."

The president says we should get ready to be thankful for our "physical well being." And so many of us with bad cases of sniffles!

Now that corn picking is over, what few fine days are left can be profitably employed making things sung and ship-shaped around the place before "Old Man Winter" sets in for good. We have a complete line of material with which to make lots of these little repair jobs.

Teaching is all very well, but there are some things a baby has to find out for himself, such as the difference between shaving and whiplash, cream and sugar. Let us show you the difference between 4-Square lumber and the ordinary kinds. Eleven reasons why it is better. And it costs you less.

The other day a man came into our office and said he had "lost his religion." Yes, he fussed and swore and every-thing because the furnace puffed in his face. We've heard of others who do it, too. In every case of this kind, we recommend "Hot Lump Coal."

The President has set aside Thursday as the day to be thankful for several things. It is believed quite a number of local people will

comply with the request.

The drunk halted in front of an enormous stuffed tarpon in a glass case. He stared at it for a minute or two in silence. Then he said: "The fellow who caught this—hic—that fish is a—hic—liar!"

Keep your buildings and fences in good repair. It will save you many dollars later on.

Sailing on unruffled seas will never develop a good mariner. Sailing on the unruffled sea of prosperity does not develop the ability to withstand the jolts of business depression and adversity. The obstacles of adversity will develop leadership in those who have the capacity to solve their problems and who have the will to succeed in the face of all difficulties. In these distressing times, the man who finds himself in difficulties, but who sets to work to pay his obligations, will later find he has laid this foundation of his own prosperity. His success will be largely determined by the amount of energy he devotes to his calling.

The merchandise we sell must please you, not only at the time the sale is made, but your satisfaction

with your purchase must continue long after the merchandise itself is forgotten. That is our policy.

Yesterday a man who has been a customer of ours for ten years was in and said, "Carhart, I've figured a good many bills with you in the past few years and I have always found your prices the lowest and your quality the highest." That's the kind of advertising we like.

When two men swap dollars each still has just one dollar, but when they swap ideas each of them has two.

He—"Who asked you?"

She—"Mother and father."

Yes, indeed, but PA still supports him."

Complaints Filed In Pierce County

Norfolk News, Nov. 13: Complaints were to be filed in county court at Pierce today. County Attorney E. D. Beech told The News, charging Milton Jones, 50, of Winslow, with shooting with intent to wound, and also against Mat Madsen, 33, and Joe Carwell, 43, both of Winslow, charging the former with intoxication and the latter with illegal possession of intoxicating liquor.

This action is the outgrowth of a shooting affray which took place Sunday evening at the farm home of Robert Granfield, three miles northeast of Hadar. Miss Myrtle Granfield, 24-year-old daughter of Mr. and Mrs. Robert Granfield, was painfully wounded in the legs when fired through a window from a weapon in the hands of Jones, who is the injured girl's uncle. Madsen and Carwell were with Jones at the time the shooting took place.

Home Alone at Time.
Miss Myrtle Granfield and her sister, Lola, were said to have been at home alone at the time of the incident, about 9 p. m. The latter was slightly wounded by the shot, it was reported.

Myrtle was brought to a Norfolk hospital early Monday morning after being taken to the office of a physician at Pierce. A number of shot were removed from her legs.

She was sufficiently recovered Wednesday, however, that she left the hospital and presumably returned to her home.

Date of Hearing Uncertain.
County Attorney Beech stated that it was impossible to tell when the hearing of the case would be held until after the men had been arraigned.

Jones' action with regard to his niece is said to be the result of an infatuation for the young woman. He has in the past strenuously objected to her receiving the attentions of young men and last summer was held in the Pierce county jail for a week when he was unable to put up a \$1,000 peace bond. The complaint, filed by the girl's mother, Jones' sister, was withdrawn at the end of a week.

The three men have been held at Pierce since Sunday night.

Methodist Episcopal Church.
(Rev. W. W. Whitman, Pastor)
Sunday, November 23, 10:00 a. m., Sunday school session opening with devotional services conducted by Prof. G. W. Costerian, superintendent. Our school is equipped with exceptionally qualified teachers in every department. If not already a member you should join some class next Sunday.

11:00 a. m., worship with sermon by the pastor, and special music by the choir with Miss Arlene Urban, director. Our sermon theme for next Sunday will be "The Psalmist: Thanksgiving Service." We hope you will be in the service. Please bring a special Thanksgiving offering for Mrs. Emily Ding to help her to return to her family in China.

7:00 p. m., young people's devotional meeting.

7:30 p. m., another stereopticon lecture. We have ordered the pictures, "Central Africa" as a contrast to the pictures last Sunday on north Africa.

Union Thanksgiving services will be held in this church Thursday morning, 10 o'clock, Nov. 27. Rev. Mr. Braisted of the Baptist church will deliver the Thanksgiving sermon. Make your arrangements now to attend this service.

Sunday, November 23:
10:00 a. m., the church Sunday school Bible study. Topic: "What Following Christ Means." Young people's discussion group led by the pastor. Welcome to all classes.

11:00 a. m., worship, inspiring music, preaching. Subject of the message: "Religious Life in Our Home." The national women's club suggested that this vital subject be widely considered this Sunday. The pastor is glad to cooperate.

6:30 p. m., the young people's fellowship-discussion hour. This is a Thanksgiving meeting you will enjoy as you share in it your best life and thought. Try it.

7:30 p. m., a very special service. A Thanksgiving musical service directed by Prof. Howard Hanscom, with instrumental and vocal numbers, some of them by Prof. Hanscom himself which you will enjoy.

The vocal numbers are: Solo, "Come Ye Blessed," Prof. Howard Hanscom, by Mr. Harry Langley; solo, selected, by Miss Slerud; anthem, "Praise the Lord O My Soul," Miss Mabel Pope, by the chorus choir.

Music lovers will not want to miss this program of worship and inspiration.

Wednesday, each week, 7:30 p. m., the life enrichment meeting through Bible study, conference, prayer. Welcome.

Thursday evening the chorus choir will meet with Prof. and Mrs. J. C. W. Lewis, 320 Nebraska St.

Advance notice that you may plan for it. The union Thanksgiving service will be held at the First M. E. church, at 10:00 a. m. Thursday, Nov. 27. Can we not give one hour or so that day to worship and gratitude?

Thanks. The church and pastor appreciate the free issuing each week, of these church announcements, by our local papers.

Construction Of Gas Line Progressing

Sioux City Journal, Nov. 18
With the completion of the construction of the natural gas line from Texas and Oklahoma fields to Walthill, Neb., work now will be continued on a line to Sioux City as long as the weather will permit.

The work is being done by the Smith Bros. Construction company, Dallas, Tex. A main line extends from the gas fields as far as Lincoln, Neb., and a smaller 18-inch line extends from Lincoln to Walthill.

It was expected that gas would be available for towns from Fremont to Walthill not later than December 1. The Central States Electric company, which now serves Homer, Winnebago, Walthill and Rosalie, Neb., with electric power has the gas franchise for those towns and also at Lyons, Pender and Decatur. Distribution lines for gas have been laid in all towns except Pender and Decatur.

The cost of constructing the gas line is about \$40,000 a mile. The mid-month payroll of about \$20,000 was distributed Monday at Walthill, which is serving as headquarters for the construction concern.

Several Injured At Madison Sunday

Norfolk News, Nov. 17: Three women and two men were seriously injured in an automobile accident near Madison Sunday evening according to reports reaching Norfolk, one of the women being in a Madison hospital, and another woman and a man in a Norfolk hospital.

The injured are: Miss Elizabeth Gage, 23, an Elgin school teacher, a fractured right leg; Mrs. Glenn Smith, Norfolk, severe scalp wound and other cuts and bruises; Glenn Smith, 25, Norfolk, fractured right leg; Mr. and Mrs. Ambrose, Mrs. Smith's parents, the former having a broken collar bone and broken ribs and the latter sustaining a serious scalp injury and injuries to her legs.

All of the injured except Miss Gage were in the Smith car which had stopped at the side of the highway while the men changed a tire. The car in which Miss Gage was riding, said to have been driven by a Neigh man, came along and crashed into the Smith machine with a terrific impact.

Miss Gage and Mr. Smith are at a Norfolk hospital where their condition was said to be good late Monday forenoon. Mrs. Smith and her parents are at Madison. Mrs. Smith's condition is reported to be serious.

Faulty Distribution.

Omaha Journal-Stockman: Both industry and agriculture have been learning valuable lessons during the alternate post war periods of inflation and expansion and of deflation and contraction of production.

Now that the prevailing depression has affected practically every hue of human endeavor, this matter of distribution is receiving more attention.

This generation has been so blinded by the mass production theory and attendant sales volume crazes that it has neglected its distribution problems.

Well, Pat is away. He didn't say exactly where he was going, but he headed south. I expect you will find him down in the Ozarks.

Material is arriving every day for the new city garage that Scace is building just north of the power house.

Have you heard of the Scotchman who studied for the ministry to escape the collection plate?

Since Pat has been away we upset the office, shook it around a little and set it down again. With a little rearranging, a coat of paint inside, and several other small changes we think we may be able to make an office out of it.

It is perfectly all right for a woman to want to hold on to her youth, but she should not do it while he is driving.

Ed Sandahl was in Monday after some more fence material. He seemed well satisfied with the posts and wire he bought a while back, anyway he came back for more.

Sambo. "Parson, you come around here and ask for money for your church. I thought salvation was free."

Colored Pastor. "Yes, sah! Yes, sah! Salvation is free. So is watah. You get all de watah you want by goin' down to de rishan an' carrying it home in a bucket, but if you want de watah piped to yoah house you shore has got to pay for it."

The Wayne Fire Department don't parley long over getting in an ice skating rink in Wayne. Last meeting night the subject was brought up and it was immediately decided to build one and now it is all ready for the water and freezing weather; and then the kiddies of Wayne will have a place to skate and enjoy themselves, and absolutely free, too. Remember, on New Year's Eve the firemen are sponsoring a masquerade dance and they have set their mark for the sale of at least 500 tickets. Come on, let's go!

Traffic Cop. "Hey, your lights are out."
Motorist. "I know it. I put some of this prohibition alcohol in the radiator and they went blind."

There isn't hardly a day goes by without someone either calling up by telephone or coming in in person and telling us to send up some coal like they burned last winter. You bet we have it, and exactly like what you used last winter.

The only thing we can't find a place for is a boiler. Some people say there is a place for everything.

"But, Judge, you don't know that woman; I ain't no deserter, I se a refugee."

Estimate Of Crop Shows Increase

Lincoln Journal, Nov. 19: The November estimate of corn production is 235,493,000 bushels, which is above the October estimate and the five-year average of 223,580,000 bushels. New high records have been established in the production of sugar beets, flaxseed and beans, according to the state and federal division of agricultural statistics. Potatoes will yield ninety-seven bushels per acre and the production will be 8,924,000 bushels. Apples and peaches are much below normal.

The 1930 crop, after withstanding drought, hot winds and extreme temperatures during a large part of the growing season, is now going on record with an average yield of 25.5 bushels against 26 bushels last year and the five-year average of 24.85 bushels. The production is 235,493,000 bushels as compared to 237,744,000 last year and the five-year average of 223,580,000. Compared to normal, the highest yields this year were made in the western counties of the state. The injury from drought and high temperatures was greatest in the eastern and part of southern and northern Nebraska.

Approximately 91 percent of the 1930 corn crop is of merchantable quality and 4.5 percent of the 1929 corn crop remained on farms November 1.

The average yield of potatoes is 97 bushels, which is the same as the yield last year and well above the five-year average of 90 bushels. The production is 8,924,000 bushels against 8,924,000 last year and the five-year average of 7,907,000 bushels. The commercial crop in western Nebraska is good and the commercial early potatoes in Kearney and Buffalo counties yielded well above the average. Early plantings throughout eastern Nebraska have been excellent but late plantings have been poor.

The average yield of sugar beets is 13.7 tons, making the new high production record of 1,091,000 tons, which is above last year's record production of 1,054,000 tons. Average weight per measured bushel of winter wheat was 59.7 lbs.; spring wheat, 57.8 lbs.; oats, 33 lbs., and barley 47 lbs. Test weights of winter wheat were above the average.

Buckwheat yields will average eight bushels and the production is 8,000 bushels. The average yield of flaxseed is six bushels and the production 144,000, which is above last year's record breaking crop of 129,000 bushels. The average yield of grain sorghum is twenty bushels per acre and the production 460,000 bushels against 376,000 bushels last year and the five year average of 420,000 bushels.

The yields of other minor crops are as follows: Sweet sorghum forage, 3 tons; alfalfa seed, 2.8 bushels; red clover seed, 1.8 bushels; sweet clover seed, 4.4 bushels; total production of apples is 462,000 bushels against 869,000 bushels last year; grapes, 1,825 tons against 2,225 tons last year; pears, 27,000 bushels as compared to 40,000 bushels last year. The average yield of beans is eleven bushels making a record production of 99,000 bushels as compared to 85,000 last year.

Estimates of leading crops for the United States this year and last are as follows: Corn, 2,094,481,000 and 2,614,307,000 bushels; potatoes, 368,444,000 and 359,799,000 bushels; sugar beets, 8,952,000 and 7,672,000 tons; total apples, 162,016,000 and 142,078,000 bushels; commercial apples, 33,080,000 barrels and 29,011,000 barrels. The average yield of corn for the United States is 20.6 bushels. Approximately 72,419,000 bushels of the 1929 corn crop remained on farms Nov. 1.

Have Strange Find In Pierce School

Pierce, Neb., Nov. 17.—Boys of the country school house, three and one-half miles north of this city, have found a valuable study on which to put their spare moments.

During sessions of the classes of the school, the children and the teacher, Miss Ellen Miller, have been continually disturbed by late by noises under the building. Finally this week the boys brought a big steel trap to school and set it under the front stoop. The first night the proceeds of the experiment amounted to a few bunches of fur caught on the trap. The second night a large possum proved to be the prize.

As the boys set the steel jaws the third time, they captured a large rat.

Students and teacher are bothered no longer by noises under the building.

Sheep Feeding Is Stacked But Little

Lincoln, Nov. 18.—Lamb feeding operations in Nebraska this fall are but little below the record operations of 1929. A. E. Anderson, state and federal crop and livestock statistician, said today.

Shipments of Feeder Lambs to Markets to Increase

Shipments of feeder lambs to markets to Nebraska feed lots for the period July to October, inclusive, were estimated to be approximately 100,000 head more this year than last, Anderson said.

"An abundance of feed and unfavorable prices of corn along with usually low prices of feeder lambs have evidently induced farmers in these districts to undertake such increases."

The feeding situation for the country at large, Anderson said, was very certain on Nov. 1, with available information pointing to a decrease of 500,000 head in the number of lambs ready for market after Jan. 1.

Cattle Shipping Brings Stock In

Cattle shipped into Wayne during the past week were as follows: Frank M. Griffin, two loads of cattle; Jack Denbeck, one load of cattle; Charles Meyer, jr., four loads of cattle; Edward Perry, four loads of cattle; Ernest Hartridge, one load of cattle; E. H. and high temperatures was greatest in the eastern and part of southern and northern Nebraska.

Judge Turns Jones Over To District

Milton Jones, Winside, accused of attempting to kill by shooting his niece, Myrtle Granfield, at Hader, November 9, was ordered bound over to district court Tuesday. County Judge J. B. McDonwald, who heard the testimony in county court at Pierce, gave the order. Jones was held in jail when found unable to pay a bond of 15 thousand dollars.

Deeds Recorded In Wayne County

Deeds recorded in Wayne county the past week include the following: David J. Davis to Emma Davis, November 13 for \$1, lot five, block three, First addition to Carroll. Thomas Roy Jones to Mary Ann Jones, November 13 for \$1, the southwest quarter of section 22, township 27, range one.

Trapping Season Will Open Soon

The 1930-31 trapping season on muskrats in Nebraska is open from December 1 to March 1 in the eastern district and from January 1 to April 1 in the western district. Wayne county is one of the number in the eastern district. Other nearby counties having open seasons from December 1 to March 1 are Cedar, Cuming, Dakota, Knox, Madison, Pierce, Stanton and Dixon.

Several Counties Attend Meeting

West Point, Neb.—Three hundred fifty representatives from Washington, Burt, Thurston and Cuming counties attended the cattle feeders' meeting held in West Point.

Good Wayne County Stock and Grain Farm

Here is an opportunity for some one to get a mighty fine 308 acre combination farm at an exceedingly low price. Every acre of the farm is heavy black loam soil, it lays well, has about 60 acres in pasture and the balance under cultivation. This farm lays in the West end of Wayne county on a good highway. There has been an exceptionally good tenant on this farm and it is in splendid condition and is very productive.

Improvements are a 6 room house, barn about 32x40, double crib, granary, hog house, good well with water piped around the yards. Buildings need some repair and a good painting. Farm will rent well. The present tenant desires to stay if possible. It is a good paying investment at the price and is bound to advance in value.

The price is \$100.00 an acre. A \$20,000 loan on the place is due in 1935.

Growing Pains

Omaha World-Herald: The speed with which motor traffic outrages the provision made for it presents a constant challenge not only to the highway engineer but also to the public upon which he must depend for the means with which to meet that challenge. It is not merely that there are more cars upon the highway than we ever dreamed in our rural highway philosophy, but that bigger and heavier vehicles have become common, new ideas as to speed prevail, all types of cars can and do go farther and faster and perform feat unthought of a dozen years ago.

The automobile has taken almost complete possession of our civilization. Introduced to us as a pleasure vehicle, it has become a vital necessity. We could as well go without railroads, without the postal and telegraph, without the postoffice and banks and marketing agencies as without the automobile. It is a monster, when we view it through the vital statistics, a money eating traveling, when we have to step up for highway construction, a dreadful nuisance to one who would enjoy the pleasures of pedestrianism. But we must have it. It is an essential part of our economy. And we must keep up with its insistent demand for traffic channels. Not to do so is to drop out of the procession of life, to lie down by the roadside while the rest of the world goes by.

We are fairly familiar with the paving problem which has been created in Nebraska. When we recalled the job of hitting Nebraska out of the mud only a few years ago we believed we had found a happy solution of our problem in gravel. But now, long before we have completed a governing program, the traffic problem has brought us face to face with the imperative necessity of providing from 1,000 to 2,000 miles of paving with additional mileage highly desirable.

It is not enough that we should have that problem staring us in the face and clamoring for attention, but now comes the state highway engineer with the information that hundreds of bridges, large and small, all over the state have become obsolete. The present is attested by scores of accidents which have occurred upon them. It will cost Mr. Cochran estimates, \$1,000,000 to eliminate the greatest danger points and \$3,000,000 to bring all the bridges on the state highway system up to the standard demanded by modern motor traffic.

But gravel surface and obsolete bridges are not the only things which present problems in highway improvement to meet the new traffic. In Douglas county, to cite but one example, the paving program carried out a few years ago seemed at the time to answer all the new traffic conditions. It is as full of faults as an old shoe. Plenty of money was expended, but it was not enough when it was laid to accommodate the traffic of the coming of the levitron buses and the eight-foot trucks until it is too narrow by at least two feet for either convenient or safe driving. There are sharp turns, where there should be broad curves and there are grade crossings where there should be underpasses or overhead crossings.

We are afflicted everywhere with these growing pains revealed in our accumulating highway problems. About the best we can do is to apply the remedy as rapidly as we can find the means and hope to goodness it will stand against time and further growth.

New Car Plates

Now In Office

Automobile plates for 1931 have been received by County Treasurer J. J. Steele. They have a grey background with maroon figures. Wayne county has 2,600 plates for cars, 500 for trucks, 50 for tractors and 10 for motorcycles. Renewal plates may be secured after the first of December. Those getting them for the first time must wait until the first of January.

Gurney Brothers

Lease Property

Gurney brothers of Yankton, S. D., have leased for a period of years with option to buy the lot on the corner across the street east of the city power plant here from John Palmer of Long Beach, Calif., owner of the property. Construction of an oil station has been started by the Gurneys on the site.

A Period of Contrasts

Omaha Journal-Stockman: Scanning the industrial depression that has featured recent months, one is struck by the sharp contrasts that have featured the period. No better example of these comes to mind just now than the fact that although millions of men are re-adjusting jobs and the country is re-adjusting its industrial structure, and many thousands in each section are said to be in actual want, college stadiums never were much better filled with spectators for the fall football games than they have been this season.

The reason for this highly mixed situation is not hard to find. While many families have lost their jobs and incomes, wages and salaries of the people who remain employed have not been cut materially, if at all, and the result is that they find themselves with much more money to spend for their necessities and luxuries as they have and had.

The Power Issue

Lincoln Journal: It is all very interesting of course, but will somebody gifted beyond conception step forward and explain what connection the experience of Farmer Adams with Binfield, Primary et al. has with the Nebraska primary which the Nye committee was authorized by the senate to investigate, which primary was held some months before it all happened, and which will probably be admitted by the support company that they did not support Senator Norris, but whether Adams was or was not intimidated seems so irrelevant that a taxpayer is justified in protesting against the expense attached to bringing it all out.

Furthermore, the power issue, which features the Adams backward and forward movements, had nothing whatever to do with the election of a senator. It was an issue local to Nebraska, involving a change of law relating solely to municipally owned power plants. It concerned Nebraskans as solely as would any change of state law. The nearest approach to the senatorial fight seen on the surface proposed was sponsored by Attorney General Sorensen, who was an ardent supporter of Senator Norris. It is possible that most of the people who voted for Norris also voted for the Sorensen amendment and that many opposed to the attorney general's measure opposed Norris, but the connection between the election of a senator and the carrying or defeat of the Sorensen amendment is rather difficult to define clearly. This is partly because many opposed the senator who supported the Sorensen amendment.

Whether such wandering investigations concern the purchase of the senate's act in creating the Nye committee of course is a matter for the senate to determine. There is a suggestion of infringement on the sovereign rights of the state that will not meet with approval everywhere, and the committee itself would stand in higher favor with the people of the country if it would confine itself closely to the purpose for which it was named.

Blair Is Laying Paving

Blair, Neb.—Work on the Blair paving district No. 8, which comprises five city blocks, is progressing. The street has been leveled, gutters are in, gravel has been applied, and asphalt will be laid this week, weather permitting.

Another improvement planned by the city is a swimming pool, bonds for which were voted last fall. Several sites are being considered, and work will begin early in the spring.

Lease Gravel Pits

Osmond, Neb., Nov. 18.—The Western Construction company of Omaha has leased the Thomsen gravel pits and is installing larger pumps, preparatory to the furnishing of gravel to numerous projects in the northeast Nebraska. Among the immediate projects for which gravel will be furnished are the streets of Wausa, Magnet and Randolph.

Order Own Cars

Walthill, Neb., Nov. 7.—Following the refusal of the Burlington railroad to furnish the Farmers' Cooperative Grain association with cars last week, five members of the organization have ordered cars as individuals and farmers are loading the grain by hand, pending a hearing before the state railway commission Thursday.

Former Chancellor

Returns From Trip

Lincoln, Neb., Nov. 14: "Most European countries are in a lively same condition we are here," recently declared Dr. S. Avery upon his return to Nebraska early in November after a 16,000 mile trip through North America and Europe. Dr. Avery is chancellor emeritus and professor of research in chemistry at the University of Nebraska.

While conditions are relatively the same, continued Dr. Avery, Americans are not as hard up as Europeans because the United States is a richer country, in every European sense, with the exception of France. In France, employment and hard times, with low prices and little buying.

All busy in France.

In France on the other hand he found that everyone was busy and that there was apparently plenty to do. The only country with militaristic tendencies he found was Italy.

"When I was in Europe in 1890," said Dr. Avery, "only the rich could afford a horse and buggy while in America everyone had one. This time I found they were relatively backward. Now only the United States has millions of them, they know about labor-saving devices but they are not in general use."

Others visit Europe.

Several other state university faculty members have recently returned from Europe where they spent their time in study and travel. Among these are Dr. F. M. Fling who spent a year studying European history; Dr. Zora Schaup who spent a year studying in France; and Dr. R. J. Pool, who spent part of the past summer in European study. Still others traveled abroad for pleasure as well as study.

Fathers and Sons

Omaha World-Herald: Americans are a shy and bashful people, although they are often accused of being quite the contrary. Evidence of their painful reserve is to be found in such affairs as the annual Father-and-Son week. For it is only under the pressure of such a week that fathers and sons are persuaded into a public exhibition of their affection for each other, into rather awkward pledges of common understanding, and into applause for high-flown phrases of speakers who tell them how much they owe to each other.

A less reserved people would not hide their emotions for a year and then make a public display of them. Perhaps it is a good thing for American fathers to be cudgeled into these gatherings with their sons. Perhaps fairness to the boy demands that he be given a glimpse, in one week out of 52, of the obligations of fatherhood.

Perhaps the bonds between the two are strengthened, perhaps better men and better boys are made as a result.

One says "perhaps" because it seems evident that the average father and the average son need no especial prodding to grow into each other's friendship. The family tie is a strong one. Men worth their salt usually do not need to be driven to perform their parental duties. Men worth their salt command the respect and affection and loyalty of their sons. If the boys have been decently raised they do not need to be harangued into giving filial obedience. Boys are rather shrewd at reading character and weighing motives, and the chances are strong that they give every father his due.

Yet one cannot deny the strength of the Father-and-Son week movement. It has endured for years. It has drawn the male element of the population to countless dinners. It has caused shy fathers to place their arms about their sons and reserved sons to answer with cordial affection. It has been a valued propaganda for a worthy ideal, and such need rarely falls on barren ground. It has given many men and boys a night out, which they doubtless have enjoyed, or they wouldn't repeat the holiday the next year. And it has given many a mother a few hours of blessed peace from the noisy members of her family. Perhaps on the ground of this holiday for the mothers, the movement reaches its most altruistic height.

Unusual Falling

Body Is Observed

Several persons witnessed what may have been a falling meteorite Monday morning between 6:30 and 7 o'clock. The falling object described a quarter arc across the northwest portion of the sky, casting a bright bluish light similar to the trail of an exploding rocket. Persons who saw it were at a loss to know how to explain the appearance or the nature of the phenomenon.

Unveil Marker At Allen Sunday

Native Boulder Of Granite And Bronze Plate Mark Real D. A. R. Grave.

Ceremonies Held

Wayne, Norfolk and Coleridge Chapters Cooperate in Program.

Wayne, Norfolk and Coleridge D. A. R. Chapters sponsored Sunday a program at the Allen cemetery dedicating a memorial at the grave of Nancy Wayman Stewart, daughter of a Revolutionary soldier. The marker, a black and white granite boulder which was taken from the Andrew Johnson gravel pit northeast of Wayne, bears a bronze plate with the D. A. R. staff, Mrs. Wayman's name and the chapters dedicating the memorial.

Order of Ceremony.

A. Olson of Wayne, sounded the reveille. Mrs. E. W. Huse of Wayne, presided and told briefly the purpose of the ceremony for which about 125 gathered. The group joined in singing "America," and all repeated the Lord's prayer. Mrs. I. H. Britell, who with Mrs. S. Ringland had been in charge of getting the memorial, was assisted by Marianna Stewart and Phyllis Allen, the former a great grandchild and the latter a great great grandchild of Mrs. Stewart, in unveiling the marker. Flowers were placed on the grave by Mrs. H. S. Scace of Wayne. The eulogy prepared by Mrs. Fred Wolt of Norfolk, was read by Mrs. Gertrude Morris of Wayne. Miss Fannie DeBow of Coleridge, spoke of the D. A. R. work. Mrs. Clyde Oman, Mrs. Gertrude Morris and Mrs. Edna Davis of Wayne, sang. Rev. E. N. Lattrell of Allen, pronounced the benediction, and Mr. Olson sounded taps.

Life of Mrs. Stewart.

The life of Mrs. Stewart was described as follows: "We are here today to do honor to the memory of our sister, Nancy Wayman Stewart, pioneer and real daughter of the American revolution. "Nancy Wayman Stewart was born near Covington, Kentucky, on November 12, 1808. She came to the pioneering stock her grandfather, Michael Wayman, was one of the first German colonists to settle in Virginia in 1714. "Her father, Herman Wayman, was a sergeant major of artillery in Washington's own army and an associate of Washington. "Her mother, Frances Gore, who

GAME AND PARK COMMISSION TO OPERATE ALONE

THE Nebraska Game, Forestation and Parks commission has adopted a two years program that is epoch-making. It does not require a cent of tax money. Yet its work will go right along with undiminished aggression.

The commission derives its funds wholly from fishing and hunting licenses. It creates better fishing and hunting conditions and as the conditions improve the funds from licenses increase. So the commission may be said to create its own funds.

It is estimated by the commission that the funds to be derived from licenses the next two years will be around a half million dollars. With that amount of money the work of stocking the lakes and streams with fish, adding birds as conditions require to the rapidly growing wild bird life of the state under protection of strict game laws, stocking the game preserves with animals of the plains, hatching millions of fish in four state fish hatcheries and the smaller hatching plants, and doing the manifold duties that fall to the commission will be carried on.

The commission entertains a hope that the legislature will separate hunting and fishing licenses, requiring one license for hunters and another for fishermen. That would increase the funds of the commission and enable it to take on more work.

Caring for the parks and lakes and recreation grounds, already acquired by the state, and which were greatly added to the past year, will absorb all the funds of the commission unless some additional money is available.

A great work is being done in providing boys from seven to seventy with a natural birthright of outdoor sports and recreations. A body of public spirited men serving on the Commission is making a fine record for themselves and the state.

Wayne was represented at the program by the following: Mrs. Clara Ellis, Mrs. E. B. Flegwood, Mrs. Edna Davis, Mrs. H. W. Theobald, Mr. and Mrs. Clyde Oman, Mr. and Mrs. C. E. Carhart, Mr. and Mrs. L. A. Fanske, Mr. and Mrs. J. W. Jones, Mr. and Mrs. A. B. Carhart, Prof. and Mrs. I. H. Britell, Miss Edith Stocking, Mrs. Jessie Reynolds, Miss Mabel Britell, C. H. Fisher, Mr. and Mrs. H. S. Scace and children, Mrs. C. K. Corbit, Mr. and Mrs. C. O. Mitchell, Mrs. E. W. Huse, Miss Miriam Huse, Mr. and Mrs. Levin Johnson, Mrs. Hazel Mitchell Reed, Mr. and Mrs. C. A. Orr, Mrs. Gertrude Morris, Mrs. D. J. Cavanaugh and Mrs. Ed Perry. Mr. and Mrs. William Hugelmann of Wakefield, Miss Fannie DeBow and her parents, also Mr. and Mrs. Collins, were present from Coleridge. The Norfolk chapter was unable to be present. A number of relatives of Mrs. Stewart from Allen were in attendance.

"All the grandchildren of Nancy Stewart Wayman were born and raised in the vicinity of Allen, Nebraska. Her descendants, now living in the vicinity are the Helen Chapel family, the Sterling and Charles Stewart families, the Elita Waddell family, the family of Frank Stewart at Belden, and the Fred Stewart family at Emerson, Neb. Some of her well known descendants who are carrying on the development of our country are Albert Stewart of Tucson, Arizona, one of the best known missionaries of the American Sunday-school Union of the west; Carrie Stewart, who was at one time a missionary

Attend Hatchery School In City

Myron Colson, Miss Violet and Vernon Colson and Mrs. Christ Tietgen went to Lincoln Monday last week to attend a two-day hatchery school made possible by the Ralston Purina company of St. Louis, Mo. The program consisted of lectures on vital hatchery and feeding questions by noted speakers. Mr. Hanke of the Poultry Tribune, Mr. Townsley, former professor of poultry husbandry in Ohio and now with the Smith Inc. Co., Prof. Mussen, assistant at the university in Lincoln, Mr. McAdam and Mr. Bunell, extension

men of the Purina mills, Gordon, Johnson of the Buckeye incubator company, and Dr. Phirets of the George H. Lee company in Omaha, were among the speakers. The Wayne people felt that they profited much by the information gained and will be able to make the coming poultry season a bigger and better one for the people of Wayne community.

Hartington Man Cleared In Bank

Omaha, Nov. 14.—Edwin C. Collins, former Hartington, Neb., banker, today was cleared in federal court of a charge that he had misapplied funds entrusted to his bank, now defunct.

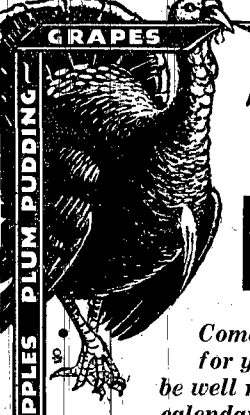

Federal Judge Woodrugh late yesterday instructed the jury in the case to find Collins not guilty of an allegation that Collins had misapplied \$14,000 left with the bank by Fred Joosten of Hartington, who disappeared a decade ago.

In a civil action, tried here in August, based on the same trans-

action, Judge Woodrugh had ruled that the Hartington banker was in illegal possession of the certificates, which represented Joosten's funds. Rules of evidence, placing the burden of proof on the government in the criminal action, led to the new ruling, the judge explained.

Wayne Has New Buildings Now

Several Business Houses Add Needed Space This Fall When Three Build.

One of the notable building improvements of the season is the construction of a new office building, planned to reach completion within the next ten days. One unit of the 24 by 32 building is now being completed for enclosure, just north of the present office. The front of this unit will be utilized as a display room and the rear will be the private office.

When this section is ready to be occupied, the present office room will be moved away, and a unit to match the newly constructed one will be joined with it, making office space, totalling 24 by 32 feet. In the second unit will be the general offices of the company.

Construct New Shop

Thompson and Bichel are building a new shop across the alley from their regular quarters. This shop, which will be one story in height, will be roughly finished inside, have a concrete floor, and house tools and equipment. Its principal use will be to provide extra space for taking care of tractor repairing during bad weather.

An addition to storage space is being constructed this week by Baker's garage. The addition will be about 20 by 70 feet in size, and is designed to take care of winter storage problem more adequately.

Miss Smawley Admires Orient

Chinese Civil War Will Clear Way for Future of Youth, Says Missionary.

"There is a fascination about the Orient, and about the work of the missionary, that never grows old," states Miss Eva Smawley, for ten years a mission teacher in Nanking, and driven from her post in the gunboat massacre of March 24, 1927. She seems especially to be impressed with the earnestness and the eagerness to learn, which characterizes the young Chinese. It is of frigid and uninteresting to be driven, with other missionaries from comfortable quarters in the school, Miss Smawley is vitally interested in China and its future, and hopes to return to the Orient.

"China's future is hopeful," she insists. "She has her own problems which her young people can solve." The civil war in which China has been embroiled Miss Smawley considers the means of setting the country right again.

Divided between the old and the new, China has a peculiar problem. Her youth nationalists are fighting down the conservatism that characterizes the old China, and, with their vitality, they must succeed, Miss Smawley feels.

Education makes a difference. Although 80 per cent of China's population of 400 million is illiterate, there is hope for the educated element, as the missionary sees it. In the quarter century that education has been free to exert its influence in the country, radical changes have been wrought, and the old ways have begun to give way to the new.

In Nanking, where Miss Smawley worked as an instructor in the young women's Bible school, girls of high school graduate standing clamor for an opportunity to enter the work. From the time of the foundation of the school in 1912, until 1927, when it was evacuated, there were 250 graduates. The institution, supported by six mission funds, employed at its height 12 full-time instructors, and a number of part-time teachers.

All of the instruction in the school, which is beginning to re-establish, is carried on in the Chinese language, which is the most practical procedure, inasmuch as the graduates will be dealing with Chinese. It is the teacher, not the pupil, thus, who has to prepare in a language in order to be connected with the school, Miss Smawley explained. This method has proved to be very satisfactory, in comparison with the methods of the colleges, where Chinese students are often forced to take their work in English.

China Wants Knowledge.

Young China, Miss Smawley believes, wants the education which the mission schools are able to give. In the beginning, she recalled, the students who attended were especially come to school. It was widely difficult to convince parents of the importance of education for women, and the women themselves seemed to be averse to the idea of gaining knowledge.

Now, however, young Chinese women are eager to adopt the new culture, breaking away from the traditions which circumscribed their ancestors.

Health conditions are very bad in parts of China. In Nanking, with the coming of the mission school, however, there have been enthusiastic "Swat the Fly" and other health campaigns.

Growing from small beginnings, the missionary feels, the cause of Christian education in the Orient, is breaking down the ancient walls of superstition, prejudice and tradition and making way for modern happiness among the young progressive Chinese who are ready to accept it.

Farms Send Best To Livestock Show

Heavy entries in all departments of the nation's premier livestock show, the International Live Stock Exposition, are reported by Secretary-manager B. H. Heide.

Every foot of the 20 acres of buildings that comprise the permanent home of this mammoth agricultural show at the Chicago Stock Yards will be crowded with the finest products that farmers and livestockmen of this nation and others produce. As in past years, the exposition will open on the first Saturday after Thanksgiving, November 29, and will extend through to the following Saturday, December 6.

Entire Nation Represented.

Indicative of the wide area from which entries have been received for the coming show, Heide cites several of the leading breeds of beef-cattle that will be on view. In the instance of the Angus breed, herds will meet at Chicago from as far separate states as Washington and New York; the Short horns will come from as distant points as Ohio and California; and the Herefords from Wisconsin to West Virginia. Sheep will be represented by show flocks from Vermont to Wyoming; swine from Minnesota to Florida; and horses from Saskatchewan to Maryland. The International thereby becomes an annual continental "clearing house" from which emerge the champions of the day.

Fortyseven of the world's leading livestock judges are enlisted to pass upon these choice animals. The management announces that

Builders Tactics Aid Home-Owners

Use of Guaranteed, Grade-Marked Lumber Shows Progressive-ness, Says C. E. Carhart.

Most of the building contractors here are entitled to the confidence of the building public, both for their progressiveness and for their scrupulous fairness in dealing with home-builders, said C. E. Carhart, manager of the Carhart Lumber Co., yesterday, in discussing the conditions of the building trades in this city.

"If anyone should survey the houses that have been erected in our city during the last five years," Mr. Carhart declared, "he would find that the great majority of them are just as soundly constructed, embody just as many new materials, new items of equipment and new ideas in planning and design, and represent just as true values, as the homes of any other community in the country."

As evidence of these facts, Mr. Carhart referred to the readiness of the city's contractors to adopt "four-square" packaged and re-manufactured lumber for the finer details in home-building. Packaged lumber, he explained, was put on the market by the Weyerhaeuser sanitation of forest products manufacturers in northern Minnesota, Idaho and the Pacific Northwest to protect the building public.

"For many years," said Mr. Carhart, "there have been occasional complaints that the public knows nothing about lumber grades, that it can't tell one from another, and that, as a consequence, a contractor can substitute an inferior grade for what the owner specifies without the latter knowing about it. Packaged lumber makes substitution impossible, for every package states the grade of its contents in language which any layman can understand. So the packaging and grade-marking constitutes a quality-guarantee to the ultimate consumer.

"Now the building trades in our city are remarkably free from substitution. The eagerness with which the leading contractors here have accepted 'four square' packaged lumber and recommended it to their clients indicates that their methods are above-board and that their business-standards are in line with all new developments that benefit the prospective homeowner."

The Carhart Lumber company is one of the limited number of lumber merchants throughout the country selected by the Weyerhaeuser interests to be enfranchised as "authorized four-square dealers," and it carries a stock of the quality-lumber in addition to all items in the regular lumber line.

Are Asking Aid For Needy Folks

"It has surely been a great many years since those of us who are so fortunate as to have the means to provide the comforts of life had cause for greater Thanksgiving than we have this Thanksgiving."

"Many hundreds of thousands are out of work, and have been for a long time past. The majority of these have been asking alms. No one knows what will become of them during this winter, unless those who have will share of their means to help those who have nothing.

"Conditions, close times, drouth, etc., have worked a severe hardship on the Christian Home Orphanage at Council Bluffs, Iowa. It is unable to meet the demands made upon it, and with winter at hand and calls for help from scores who are absolutely without food or shelter, rapidly increasing as colder weather approaches, appeals are made to good people everywhere to come to the help of this national child-saving institution. Let those of us who have been blessed, and who are working and earning, share at this Thanksgiving season with the unfortunate ones."

The Christian Home Orphanage is non-sectarian and is supported wholly by the voluntary gifts of the people. The Home was established in 1882.

"If possible help this work to the extent of your ability at Thanksgiving."

"Address the Christian Home Orphanage, Council Bluffs, Iowa."

Blair Boy Shoots And Kills Self

Blair, Neb.—As Burdette Smith, 14, was returning from a hunting trip with other lads, he playfully pointed his gun at himself, saying, "Well, if I can't shoot anything else, I can shoot myself," and pulled the trigger. The bullet passed through his abdomen, fatally wounding him.

The boy was taken to an Omaha hospital, where he died. He said he didn't know the gun was loaded.

He is survived by his widowed mother, Mrs. Birdie Warrick, and a sister, Olive Smith, both of Blair, another sister, Mrs. Edna Metzker, of Los Angeles, Cal., and a brother, Clifford Smith, of Omaha.

Railroad Picture Coming To Gay

With engines puffing, whistles blowing and bells ringing, "DANGER LIGHTS" Radio Pictures spectacular all-talking railroad drama will spend into the Gay theatre on Sunday, Nov. 23, for a two-days' showing.

Heralded as the greatest drama of the rails ever shown on the talking screen, it has met with acclaim wherever it has been shown.

Louis Wolheim, Robert Armstrong, and Jean Arthur appear in the principal roles and are supported by such well known actors as Frank Sheridan, Hugh Herbert, Robert Edson, Allen Roscoe and James Barley.

"The picture was produced on 'locations' in twelve states. The company traveled 31,000 miles on three special trains.

Scenery of the Rocky Mountains, plains of the north and middle west and metropolitan background in Chicago have given opportunity for unusual photographic effects. Through the use of newly perfected sound recording devices, extremely realistic sound effects have been obtained, it is said.

George B. Seitz directed the picture which is an adaptation of James Ashmore Creelman's original story, "The Railroad Man."

Concern advertises the perfect bridge lamp. Must be light enough to see by, and too heavy to throw.

Home Tried Recipes

For Holiday Fruit Cakes.

Fruit cakes will keep moist over a longer period of time if the following procedure is used: After the cake is baked and cooled, wrap it in a cloth which has been wrung dry from hot vinegar. Place the cake, so wrapped, in the tight tin which is intended for its storage, airing at intervals to prevent mould and spoilage. Cake treated in this way can be expected to remain moist for as long as several months.

Stuffed Pork Chops.

(Mrs. W. S. Mordhorst, Hoskins.) Have the butcher cut pork chops to a thickness of an inch or an inch and a half. Split them through, and fill with the following dressing. Proportions for the dressing will fill seven or eight chops.

- 2 cups of soft bread crumbs.
- 1 cup of chopped celery.
- 1/2 cup of melted butter.
- 2 eggs.
- 1 teaspoon of salt.
- Pepper.

Put the chops into a roaster, baste with water, and bake until brown and tender.

Chocolate Doughnuts.

(Mrs. L. W. McNatt, Wayne) 1 cup sugar.
2 or 3 tablespoons of solid shortening.
3 eggs.
2 teaspoons of baking powder.
1/2 teaspoon of salt.
1/2 cup of milk.
1/2 cup of grated nutmeg.
1/2 to 1/4 cups of flour.
2 tablespoons of melted chocolate.

Cream shortening and sugar. Add eggs and beat, add milk and stir in the sifted dry ingredients. Roll to 1/2 inch thickness, cut with doughnut cutter, and fry in deep fat. This is a "different" recipe for making doughnuts, and one which is well liked by everyone who tries it.

Cheese Fondue.

(Mrs. Perry Theobald, Wayne) 6 slices of stale bread, whole wheat or white.
2 eggs.
1/2 cup of milk.
1/2 teaspoon salt.
Dash of cayenne.
1/2 cup of fresh grated cheese.
1/2 teaspoon of mustard.
1/2 teaspoon paprika.

Cut the bread into slices about 1-3/4 inch thick. Remove the crusts, cut the bread in finger lengths, and arrange in buttered baking dish.

Mix the ingredients, and pour over the bread. Set the baking dish in a pan of water and bake at 325 degrees F. about 30 minutes, or until the custard is set. Cottage cheese may be substituted for the grated cheese if desired. This recipe will serve six persons.

Date Pudding.

(Mrs. W. S. Mordhorst, Hoskins) An excellent holiday pudding.

Wash one package of dates, cut fine, or grind through the food chopper. Add one heaping teaspoon of soda, pour over the whole one cup of boiling water, and allow to stand while mixing the following ingredients:

Cream one cup of sugar with one tablespoon of butter. Add one egg, well beaten, 1/4 cups of flour,

Swedish Meat Balls.

(Mrs. Homer Seace, Wayne) 2 pounds of beef ground.
2 pounds of pork ground.
1 teaspoon of salt.
1/2 cup of rice, which has been soaked overnight.
3 eggs.
Minced onion.

Mix the ingredients, form into balls, roll in flour, sear in a frying pan, and place in a roaster to roast until done. This recipe will serve 12 persons.

Uncooked Date Pudding.

(Mrs. Homer Seace, Wayne) 1/2 pound of marshmallows cut fine in.
1/2 cup of cream.
1/2 pound of dates, stoned and chopped fine.
1/2 pound of graham crackers, crushed.
1/2 cup of English walnuts, chopped.

Mix the ingredients thoroughly, form into a loaf, place in the refrigerator, and leave over night. Slice for serving, and garnish with whipped cream. Will serve 12 persons.

Mince Meat.

Mince meat recipe given by Mrs. W. C. Shulteis. Recipe taken from cook book compiled by Mrs. A. C. Hoskins of Sioux City, relative of Mrs. Homer Seace.

Four pounds cooked lean meat, ten pounds sour apples, four pounds seeded raisins, two pounds dried currants, two pounds suet, one pound citron, two quarts of cider, three or four pounds of sugar, two tablespoons of cinnamon, two tablespoons of allspice, two tablespoons of salt, one tablespoon of cloves, one tablespoon of nutmeg, one tablespoon of mace, one lemon (juice and grated rind), one pint of peach pickle syrup.

Take seven pounds of beef from the neck, wash and cover with boiling water. When it comes to a boil, skim and let boil for four or five hours. When half done, add salt and a tablespoon of whole black pepper. As soon as the bones loosen, lift the meat onto a platter, but let the broth boil down to three cupsful. When the meat is cold, put it through a grinder, omitting the gristle and skin.

When ground, it should weigh four pounds. Strain the broth and pour over the ground meat.

The apples must be cored but need not be peeled unless the skins are very tough. Either chop them or put them through the coarse part of the grinder. The sugar and spices should be mixed together before adding them to the mince meat. Put the raisins and currants into a granite stew kettle, pour in the cider, and let them simmer for thirty minutes, or until the raisins are filled with cider. Dip the citron in flour before grinding it, then put it into the hot raisins. The suet and citron are ground through the fine part of the grinder.

Mix all together in a granite bread pan and allow it to be thoroughly heated.

Learning to Promise. Geneva Signal: November 6 Kansas cast about 600,000 votes. There were three candidates for governor and Doc Brinkley, the goat gland specialist, running as an independent and seeking vindication or something, got nearly one-third of the votes. While Brinkley was not elected governor, he performed a real feat in getting nearly 200,000 votes from the supposedly educated and intelligent people of Kansas. Brinkley made wild promises about what he would do if elected governor, some of them more fantastic than the promises made by Charley Bryan in Nebraska. If Brinkley had run for governor seven times, as Bryan has in Nebraska, perhaps he would have been elected also. It should encourage him to learn of the success of Mr. Bryan in capturing the Nebraska governorship.

RUPTURE

Don't submit to avoidable operations or the use of antiquated trusses, as they all set where the lump is and not where the opening is. The opening is seldom larger than a dime (no matter what the size of the rupture), and all cases can be retained with the end of a lead pencil. The Spermatic Shield-Complex in combination with the Retaining Sings (Patent No. 747247 and other patents pending)—a scientific achievement in a highly specialized art. It will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Infinitely superior to any instrument method or operation and producing results in no other way obtainable. All cases are secure a lifetime as against further trouble or expense. Large or difficult cases or incisional ruptures (following operations) especially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments, or prescriptions, with distinguished personal patrons of all nations. Everybody! Come to Concord High School Carnival at Concord High School Saturday Evening, November 22

Today the Chevrolet Motor Company presents the Bigger and Better Chevrolet Six, a new model of the six-cylinder car which has enjoyed such wide popularity. In both the chassis and body of this new six-cylinder Chevrolet you will find expressed, as never before, Chevrolet's well-known policy of progress through constant improvement. For—without departing from the basic features which have won the enthusiastic approval of over 2,000,000 buyers—Chevrolet has produced a six-cylinder car which represents an entirely new standard of quality, value and refinement in the low-price field. Your first impression of the new Chevrolet will be one of striking fleetness, grace and beauty. The car is longer, lower and modernly smart. The radiator has been deepened and its appearance enhanced by a curving tie-bar and chrome-plated parabolic headlamps. The long hood lines sweep back unbroken to blend gracefully into the new Fisher bodies. And never was Fisher's fine craftsmanship more evident than in the bodies of the new Chevrolet Six! Not only are the smart, graceful, new bodies roomier and more comfortable, but as you study them you will discover many gratifying new features and pleasing refinements—many examples of that painstaking attention to detail which is the basis of true quality. Mechanically, too, the new Chevrolet Six is a better automobile. The wheelbase is longer. The frame is stronger. The steering is easier. The clutch is more durable. There is a smoother, quieter, easier shifting transmission. In fact, wherever finer materials and more advanced design could add to Chevrolet quality or increase Chevrolet's traditional economy of ownership—improvement has been made. See the new Chevrolet Six—and you will agree that here is the Great American Value!

AT NEW LOW PRICES

Chevrolet has long been one of the lowest priced cars in the world. Yet due to the savings of volume production and increased manufacturing efficiency, the Bigger and Better Chevrolet is offered at new low prices. Come in today. See and drive the new Chevrolet Six. Learn the new economy of owning a modern, fine quality, six-cylinder automobile.

Put An End To His Stomach Trouble—Declares He Feels Like A Young Man.

MR. ALLAN W. BURNHAM "I enjoyed good health all my life until about a year ago when my stomach commenced to bother me," said Mr. Allan W. Burnham, 71, 1013 South Washington street, Aberdeen, S. D. "First it was indigestion, but turned sour, causing pain and heartburn. I tried one medicine that did no good and then my attention was attracted to Konjola. Up to now I have taken three bottles of this medicine. All indication of gas disappeared, my food digests properly and I eat and sleep better than for years. I feel just like a young fellow. I cheerfully recommend Konjola."

Physical Education Is Made Part Of Grade School Course Of Study

Physical education has been started in the public school, each pupil in the grades receiving training of this kind on alternate days of the week. The courses, which have been inaugurated this month, are taught by the teachers from the first grade up to the departmental grade. In the departmental grade, Miss Marjorie Pease takes charge of the girls and Mr. Holder has the boys. Instruction lasts over a minimum period of thirty minutes. Some of the classes are devoted to apparatus work in the gymnasium, Swedish drills, games, and some outdoor work.

Defining is being continued with practice work in the classroom. The scheduled debate with Pierce has been postponed indefinitely. Norfolk team will appear on the high school schedule soon. Have Art Exhibit. An exhibition of the masters will be had November 17 to 23 at the high school, when 150 art prints will be on display. The showing comes from a commercial art company which rents the display to the schools, with a certain amount of the proceeds going to purchase prints for the walls of the various school rooms.

Each grade will devote time to observing the display, and special classroom work will be given in order that pupils may learn the stories of the great pictures and become familiar with names of the masters. The public is invited to come to the exhibition for which a small fee of admission will be charged. Choose Play Cast. Cast for the junior play, "Kempy," to be presented at the Gay theater December 15, has been chosen, and rehearsals are to begin. The following will fill roles: William Mellor, Charlene Brown, Louise Beckenbauer, Eugene Leonard, Truma Prescott, Esther Ames, Vernon Kay and Luther Elming. Junior high school students are planning a Christmas cantata with tableaux and readings, to be presented on or about December 12 in the high school assembly. The affair will be given in the evening, open to the public, with a small admission fee charged.

An operetta will be given by senior high school students some time early in January, and preliminary plans are being laid. To Finish Season. Football season is drawing to a close. Enthusiasm still runs high for games and it is planned to banquet members of the team after the season closes. Friday's game was between Wayne and Wisner second teams at Wisner. Celebrate Birthdays. One of the birthdays celebrated last week was that of Paul Harrington, first grade, who was six years old. He treated the members of the class to candy bars, and games were played in his honor.

Grade children were weighed and measured last week for the second time since school started. Two-thirds of the children in the first grade came up to standard or above. First grade children who came up to the perfect average for the first time were: Phyllis Mitchell, Betty Hill, Harold Racherbauer and Paul Peterson. Second grade pupils who have had 100 per cent in all spelling tests since the spelling contest began are: Nona Jane Hall and Wilma Jean Hogewood. Those who had 90 per cent or above on the tests were: Lila Wosterhouse, Elaine Rhodes, Mildred Ann Mann, Annabelle Jensen, Barbara Hook, Marjorie Gildersleve, Mildred Franzen, Wilbur Ahlvers and Frederick Ahlvers.

Wayne and Wisner high schools met in football at Wisner last Friday and Wayne won by 45 to 0. All of the second team men who have been in the lineup this season, took part in the game. Robert Young, Walter Sund and William Mellor, jr., each made one touchdown, and Maxwell Hendrickson made four. Two of the extra points were made by Hendrickson and one by Young. Wayne team goes to Wakefield this Friday afternoon for a game.

Nebraska Corn May Be Second

Lincoln, Neb., Nov. 13.—Nebraska's estimated corn yield of 225,492,000 bushels may give the state second place of the nation's corn producing states, Evan Jones, assistant to A. E. Anderson, statistical expert, said today. Estimates now on hand, he said, fix the Illinois crop yield at about 231,400,000 bushels, about four million bushels under Nebraska. Iowa is first with 360 million bushels.

Reading the Bible

Geneva Signal: At the November 6 election the people of Arkansas enacted a law providing for "the reverent daily reading of the Bible without comment in public tax-supported schools." It may be doubted whether such laws advance the cause of religion, and of conscience. Legislation is not likely to be effective in spiritual matters.

Collision Kills Youth From Albion

Albion, Neb., Nov. 17.—A heavy sleet storm here Saturday evening which made automobile travel extremely hazardous caused the death of a 19-year-old Albion youth and injury to four others when two cars collided on the highway one mile west of this city. The young man who was fatally injured was Clarence Meyer, son of Mr. and Mrs. William Meyer, who live in the Akron neighborhood about ten miles west of here. With him were two brothers, Ernest, 24, who was seriously injured, and Herman, 16, who was said to be only slightly injured. Head Out of Window. Clarence Meyer was behind the wheel and his brothers say he was driving with his head protruding from the window of the light colored car, because the windshield was coated with ice. The top of his head was taken off when the cars came together. He died instantly. In the other machine, which was a new one, were Melvin Psthammer, 16, and Rudolph Johnson, 16, both of whom were said to be only slightly injured. The two cars were completely demolished. Ordered To Go Home. It was said that Tisthammer and Johnson, who also live on farms near here, had been speeding around the city during the evening and had been ordered to go home by police authorities. Besides his parents and the two brothers who were with him, Clarence Meyer is survived by another brother, Fred. Funeral arrangements have not yet been announced.

Pierce County Man Takes Life Sunday

Pierce, Neb., Nov. 17.—Believed to have become deeply discouraged over the state of his health, Thomas Chilvers, 71, a prominent northeast Nebraskan and at one time county clerk of Pierce county, took his life at his home here between 6:30 and 7:30 Sunday morning. He had been suffering from diabetes and ulcers of the stomach for the past two years, it is said. Mr. Chilvers apparently arose early Sunday and went to the garage, leaving all the doors closed and starting the motor. He then shot himself twice through the head with a pistol. Wife Hears Motor. He was found early Sunday forenoon by his wife and a neighbor, a Mr. Lehman, who became alarmed when they heard the motor running inside the garage. Pierce County Man Takes Life Sunday

Pierce, Neb., Nov. 17.—Believed to have become deeply discouraged over the state of his health, Thomas Chilvers, 71, a prominent northeast Nebraskan and at one time county clerk of Pierce county, took his life at his home here between 6:30 and 7:30 Sunday morning. He had been suffering from diabetes and ulcers of the stomach for the past two years, it is said. Mr. Chilvers apparently arose early Sunday and went to the garage, leaving all the doors closed and starting the motor. He then shot himself twice through the head with a pistol. Wife Hears Motor. He was found early Sunday forenoon by his wife and a neighbor, a Mr. Lehman, who became alarmed when they heard the motor running inside the garage. A Universal Desire

The profession of funeral directing was developed as a response to the universal desire to have all possible respect to the remains of those who have passed on. The modern funeral director is a man of specialized technical training and long practical experience. His function is to give necessary counsel and advice as well as actual service to those bereaved. The members of this organization are fully prepared to do in such a manner.
