Investigator Says Business Is Good

Omaha—Glenn Eastburn, commissioner of Omaha chamber of commerce, after a speaking tour of western Nebraska, continues to send in optimistic business reports from that section. He interviews business men at each speaking point. "The only complaint I found at Alliance was that the wheat crop was too large and the surplus is burdensome," he reported. C. A. Newberry, hardware man, told him people in the Alliance section do not expect any relief from national or state farm legislation. "The improvement must come naturally, Newberry believes. "Conditions in Alliance are as good as in any town of its size in this section of the country," said Frank Aegg, president of the Alliance First National bank. "Future business depends directly on prices of agricultural products. Business transactions last year were better in unit volume but less in dollar volume. Liquidations have been satisfactory and we are in good financial position." F. W. Hargarten, lumber and coal dealer, said that while 1930 business was less than in 1929 it compared very favorably with 1927 and 1928. He also complained of large crops and unsatisfactory agricultural prices, but predicted business will be normal before fall.

The body was buried here January 11. The account received from St. Louis was that Miller died Christmas day. Peterson said Friday he had learned the body was found in Miller's apartment, that the man died from bullet wounds in the head, and that a coroner's jury at St. Louis had called the case a suicide.

Lower prices for farm products with the exception of corn fed cattle, plenty of moisture generally over the state with the exception of parts of eastern Nebraska, and a good condition of winter wheat were listed by Nebraska bankers in their mid-month report to the state and federal division of agricultural statistics.

Western bankers report that heavy snowfall and unfavorable weather has retarded corn picking so that it is estimated that 15 percent still remains in the field.
