Traffic Rules Tightened Up

Winside Will Consider Use Of Electric Current From Wayne Plant.

Abolish Nuisance

Spring Improvements for City Include Housecleaning on Rules for Motorists.

Strict enforcement of traffic rules, with careful observance of all provisions intended to safeguard the welfare of individuals was agreed upon by council members at their meeting Monday evening. The discussion of traffic law enforcement was brought about when council members reviewed the accident in which Betty Pile was injured this week, and other accidents which have occurred within recent weeks. It was determined to take up a new course of "Safety First" for Wayne people, and council members are seeking the aid of the law-abiding public in carrying out this ideal.

Special offenses noted were those of driving "one-eyed" cars, speeding, violating stop signs, driving with cut-outs open, and making "U" turns. All these forms of bad driving must be eradicated in Wayne, the council says, and townspeople are urged to observe the laws designed for their own safety and protection.

Asks Removal of Nuisance. E. O. Stratton appeared before the council Tuesday evening with a request concerning the removal of the whistle, regularly blown at 7 in the morning, at 12 noon and at 1 o'clock. He maintained that the blowing of the whistle at the "front door of the hotel" constitutes a nuisance, for the reason that it disturbs unobedient hotel guests who are unaccustomed to hearing it. He asked, therefore, that the location of the whistle be changed if possible in order to change this condition. Council members discussed the matter, and promised to consider some change. It was not decided at Tuesday evening's meeting what would be done about the matter, although it was deemed most feasible to move the whistle to the city power plant.

Lights for Winside. S. A. Hemple is to go to Winside Monday evening to meet with the Winside town board to discuss the possibility of furnishing electricity to the village from the plant here. If the Winside plant changes to alternating current, Wayne would be expected to furnish the daytime load, electricity being wired to Winside, and sold there. Construction of 1 1/2 miles of line, at a cost of \$10,000 per mile, as regularly estimated, would total around \$18,000, it was reported. A number of farmers living in the vicinity of Winside have already expressed their willingness to purchase electric current from the Wayne line, in event that Winside accepts the proposition, and the line is constructed.

Details have not been considered as yet, and it is not known what route the line would take. Several routes have been discussed, but the farm load on any proposed line would help to determine the one finally taken, it was pointed out.

Mention Floodlights. The use of floodlights, similar to those on Main street, between Fourth and Fifth was discussed, councilmen repeating opinions of townspeople who have commended the new lights. Inasmuch as the installation cost of the new type of light is less than the initial cost of putting in street lights of the other type, the council is considering the addition of other lights of the same kind on Wayne streets.

Among city improvements mentioned were the dozen new seats which have been ordered for the park, the work on the new sewer outlet and a proposal to pave certain alleyways, an advantage during a season when paving is so cheap.

Bound Over Here To District Court

Preliminary hearing was given in Wayne county court Thursday in the case charging Claude Forney with sale of mortgaged cattle. Defendant was bound over to the district court and gave bond. The same day Forney pleaded guilty in county court to a charge of possession of liquor and he was given a fine of \$100. He put up a stay bond which allows him five months to pay the amount.

Appropriate Sum To Improve River

The government war department has appropriated \$5,798 for improvement of the Missouri River between Sioux City and Fort Benton, and \$698,792 for work between Kansas City and Sioux City.

MARCH RINGS IN WORST STORM OF YEAR LAST WEEK

THE first real touch of wintry weather of the year, happening in the closing days of March, showed that the month had not lost its teeth. Snow followed a preliminary fall of rain and the mercury sank below freezing. East and west roads were especially blocked, and caterpillar tractors and other equipment were required to restore possibilities for travel. In a few days main highways were opened. But the storm was mild here in comparison with that which attacked other sections of the middle west. Eleven were frozen to death, among them five children in a stalled school bus in Colorado. Others perished in Wyoming, Missouri and Minnesota. Snow and freezing cold were reported in Oklahoma and Texas. On the rocky mountain slopes many cattle, caught in snowdrifts, were frozen to death. According to reports from other parts of the central west, the storm was comparatively mild in north-east Nebraska, the only suffering being temporary inconveniences and brief interruption of the usual routine. We now look to April for warm rains and genial sunshine.

Sioux City Man Is Speaker Here

History of Stock Yards Companies Is Told To Wayne Club.

Laws To Regulate

George Manton of Cherokee, Iowa, Will Address Wayne Group Next Week.

History of stock yards companies was told by W. Bigues of Sioux City, who addressed Wayne Kiwanians Monday following their regular noonday luncheon at Hotel Stratton. He showed that the service rendered, controlled by law and agreement with other agencies, deserves the compensation asked. In early days persons having livestock to sell took animals to town and waited for buyers. Later the buyers organized and peddlers were first known. Buyers of stock then began to furnish pens near their places of business in order that those bringing stock would have places in which to keep animals. Buyers began to compete with each other in sale of stock, each trying to outdo the other and thus gain favor of the raiser. Graft and unfair advantage followed.

The government interfered with unfair competition methods and passed laws which regulated the organization and management of stock yards companies. Charges for rental and feeds were fixed. The only sources of income for the stock yards companies are the yard rentals and feed, and the speaker stated, the amounts charged are deemed fair. No profiteering is allowed and the stock yards pay only small dividends on investment, he stated.

The stock yards companies are not connected with commission firms, Mr. Bigues explained, their only service being to accommodate shippers. They run "livestock hotels" near the buying center.

George Manton, secretary of the Cherokee chamber of commerce, will address Kiwanians next Monday. D. H. Cunningham will speak the following week.

Debaters Bring Home Silver Cup

Northeast District Tourney Held At Hartington Last Tuesday Evening.

Winning the championship for the northeast Nebraska district, Wayne high school debaters Wednesday evening last brought home the silver cup trophy offered by the Hartington Lions club as a prize to the victors. The cup, which is on display in L. A. Fanske's window, is a tall silver trophy, appropriately engraved.

Debaters who made the trip were Mary Jane Morgan, Stanley Davis, Max Hendrickson and Dean Winegar.

Supt. H. R. Best and W. A. Behl, debate coach, accompanied the young speakers to the meet. The champion will compete.

The journey began in the morning with Wayne, Hartington, Wakefield, Pierce, Newcastle, Creighton and Wayne college high. In the evening, Hartington and Wayne met in the final class on the state question of disarmament. J. Arthur Nelson, of Fremont judged the affair, and Supt. H. R. Best of Wayne was the chairman of the entire tourney.

Leaders Chosen For Celebration

Plans for Semi-Centennial Observance in Wayne Are Under Way.

Name Committees

Free Acta, Parades, Ball Games and Other Features To Be Arranged.

Committees were named and entertainment plans begun last Thursday evening at the city hall for the celebration planned July 2, 3 and 4 in observance of the fiftieth anniversary of this city. Various groups will begin at once to make the semi-centennial a banner event for northeast Nebraska.

M. L. Ringer is general chairman. Committees named last week are as follows:

Free Acta—George Anderson, H. B. Craven, Dr. L. F. Perry, Henry E. Ley and R. L. Larson.

Spring Luncheon To Be Saturday

Girl Scouts and Mothers Plan Affair This Week At Hotel Stratton.

Plans for the spring luncheon to be held at Hotel Stratton April 4, for girl scouts and their mothers, at which Miss Elizabeth R. Bealer of St. Louis is honor guest, are being perfected by the girls and the director, Miss Bealer is regional director of the Covered Wagon area of girl scouts for four states—Iowa, Kansas, Missouri and Nebraska.

The month of March is the international girl scout month and the luncheon was originally planned to take place March 21. Owing to Miss Bealer's inability to be present on that date, the affair was postponed. Decorations for the hotel dining room will be as originally planned, carrying out the international spirit for the month. Flags of different nations of the world will form the larger part of the decorations. Placecards will carry the "trefoil" or official girl scout seal, these having been made by girls of Mrs. G. W. Coster's group.

The luncheon program will be opened and closed with the flag and address of welcome and Mrs. L. W. Ellis will respond. Mrs. A. W. Ahern has a talk on "Community Committees." The group of girls in charge of Mrs. G. W. Coster's group have a flag pageant, showing the history of the flag through all the years.

Miss Bealer's talk, on an unannounced topic, will constitute the main part of the program. LaVerne Larson is toastmaster for the occasion.

Any cancelling of reservations for the luncheon must be done by today, April 2. Later cancellations will not be accepted.

Observe Birthdays Here Next Sunday

J. S. Carhart will be 82 years old Sunday, April 5. The day is also the birthday of Mrs. C. E. Carhart. In honor of the anniversaries Mr. and Mrs. J. S. Carhart will entertain Mr. and Mrs. C. E. Carhart and Mr. and Mrs. K. B. Carhart at dinner.

Five Silver Cups Trophies Given In Music Contest To Be Held Here

High School Athletes Will Enter Invitation Meet At Hartington Soon.

Plan Spring Work

Journalism Class Apprentices Get Practice in Meeting Newspaper Deadline.

An array of five silver cups will be trophies offered as prizes to winners in the music contest which will be held in Wayne April 11, reports Supt. Best. The prizes will go to the best performers in the following events: Girls' glee club, boys' glee club, mixed chorus, band and orchestra. All numbers will be in the first class group.

Wayne debaters who defeated their competitors at Hartington last week will represent the second northeast Nebraska district at the meet scheduled to be held in Lincoln April 16, 17 and 18.

Seniors are working on the play, "Tightwad," which will be presented this spring. Members of the cast are learning their lines and reading the play over preparatory to beginning work on the action.

To Give Orations. Wayne orators will have an opportunity to display their skill Friday, April 3, when they are to go to Randolph to the sub-district declamatory contest. James Davies will speak in the oratorical division and Mary Jane Morgan will speak extemporaneously. Coach W. A. Behl will accompany them to Randolph.

From five to seven contestants will appear in each section of the contest, according to advance reports. Three contestants will be chosen to enter into the sub-district contest to be held here April 24. No decision has been made as yet, concerning the town which will have the district contest.

Juniors Sponsor Program. Charles Riley McCalley, impetuous and reader, gave an entertainment at the high school auditorium Tuesday afternoon. Members of the junior class sponsored the entertainment, which included humorous readings, pianologues and violin solos. Miss Arlene Urban, instructor in music at the school here, played Mr. McCalley's accompaniment. The entire school attended, and the juniors took in \$40. Profits are to be used to finance the annual junior-senior class banquet.

The Pep club is entirely out of debt at the completion of the candy selling campaign. The blue sweaters, bearing the club emblem, are all paid for. There will be no further Pep club activities until the track meets open.

Consider Track Meets. No track meet has yet been arranged for this week, but an invitation meet will be held at Hartington Friday, April 10. Coach Holder plans to take ten men to the meet, and promises to tell more about the meet when the boys come home. The team has been developing nicely, he reports, and should look forward to some pleasing victories this spring.

Contestants for the music contest in this district have been working under the direction of Miss Urban. She will take the girls' glee club to Newman Grove Friday, April 10, to compete in the glee club and chorus section. The smaller group contest will be held at Wayne State Teachers College Saturday, April 11, when Wayne high school will be represented by the "double quartet" and several soloists, both instrumental and vocal.

Study Scientific Wonders. Magnets and static electricity have been interesting subjects touched in Mr. Albert's physics class recently. Current electricity and the various types of batteries are under consideration now. Some of the students have been making blue prints of the magnetic lines of force.

A visitor in the kindergarten room last Friday was Mrs. Clarence Sorenson. Kindergartners have enjoyed working on rabbit and chicken patterns for Easter.

A study of where clothes are made is being made, with the help of lantern slides, in the third grade this week. In their arithmetic class third grade folks are learning about liquid measure.

Another interesting project in the third grade is the measurement of the length of the arm.

Semi-Centennial Plans Discussed By Number of Wayne Business Men

To Mark Anniversary. C. W. Brown of the Golden Rule store notes especially the fact that Wayne, in fifty years, has made a place for itself. He, too, views the celebration as a further opportunity to put Wayne "on the map."

Guy Strickland of the Central garage discussed the matter briefly Wednesday afternoon, commenting on the opportunity the celebration will give for business men and townspeople to cooperate toward a new success. Success has marked the founding, organizing and working of the city of Wayne. Surely the celebration of its fiftieth anniversary should reflect some of the spirit of that success.

Howard Hrabak takes a stand for the centennial celebration, hoping that it will crown Wayne's fifty years with an appropriate observance. He advocates a three day show, with places of business kept open during the time, giving out-of-town visitors, as well as home folks an opportunity to touch the possibilities of shopping here.

"The citizens of Wayne and tributary territory, having made such wonderful progress and development, believe it most fitting that the city should be heartily in favor of observing the fiftieth anniversary of its founding, thus giving an opportunity for thankfulness and celebration that we live in Wayne, Nebraska," says H. S. Ringland of the First National bank in discussing the proposition, which has his hearty support.

Opinion on the hill is in favor of a celebration. Prof. W. C. Hunter, among others, has mentioned that.

Remaining Stock In Store Is Sold

Remaining stock of the Jeffries Style Shop was sold this week to a Sioux City man who packed and took it away Tuesday. The building, damaged by fire recently, will be repaired at once. Several parties are in line for the building but it has not yet been definitely leased.

Hold Election Early In April

No Competition in Wayne And Wakefield For Vote This Spring.

Candidates Named

Contest Is Found in Nominations For Winside and Carroll Village Offices.

The annual spring election is scheduled in Wayne, Wakefield, Winside and Carroll for Tuesday, April 7, and the only competition is in the last two named towns.

Voting in Wayne will be done between the hours of 9 a. m. and 7 p. m., in the first ward at the city hall, second ward at the Grace Lutheran church and third ward at the court house.

Candidates for the city council in Wayne are: First ward, W. S. Miller; second ward, J. S. Horney; and third ward, E. D. Bichel. L. A. Fanske and A. T. Cavanaugh are candidates for the board of education.

In Wakefield Dr. G. W. Henton and Fred Larson are candidates for the council, and M. F. Ekeroth and Dr. C. B. Coe are candidates for the school board.

H. C. Barrels and H. H. Honey, candidates for reelection on the village board at Carroll, have no competition. Two will be chosen for the school board and the four candidates are: M. S. Whitney, John L. Laurie, Dr. W. C. Logan and George Linn.

Henry Fleer, G. A. Mittelstadt, J. G. Schmode and David Koch are candidates for the Winside village board, with two to be chosen. I. F. Gaebler, Ed Hornby, Clifford Imel and A. H. Schmale are nominees for the school board and two will be elected.

Storm Severity Told in Letter

Daughter of W. A. Stewart Tells About Suffering And Loss In West.

Mrs. Charles Sokol of Sidney, Neb., daughter of Mr. and Mrs. W. A. Stewart, writes her parents March 30 in regard to the storm which visited that section last Thursday. Excerpts from the letter are as follows:

"The storm the other day left such awfulness in its path. The school bus tragedy in which five children perished and 15 others suffered greatly from exposure happened just south of us. The bus driver who ventured out to try to reach farm house to get aid was found frozen a short distance ahead of the bus. The little Miller girl who was frozen to death has two sisters here at the academy. It was their father who was driving the bus and was frozen. They found the little 7-year-old boy who was lost on return from school at Mead, 24 miles south of here, this morning buried under eight feet of snow.

"One big cattle feeder about a mile out of town lost 500 head of feeders. He had about 3,000 head in his lot. They say the cattle are standing up along fences and feed boxes frozen stiff. Almost every farmer lost all or most of his stock.

"It was certainly bitter cold and the wind blew 75 miles an hour for three hours Thursday night. It started Tuesday night and began to let up Friday noon. It snowed about 14 inches yesterday but there wasn't any wind so it didn't hurt anything. Lots of people here had hands and feet frozen from exposure last week and a doctor's wife told me of eight new cases of pneumonia. The storm caught so many people without fuel as none looked for this kind of a storm so late in the year. Some families burned their furniture to keep from freezing. Of course none of the coal companies could deliver in the storm. It is clear now but not thawing yet.

"Snow is way higher than one's head on the streets here. Little aisles are shoveled from one store to another like it was last fall when we had so much snow. Trains are running again and men are working night and day to get the roads open."

Relative of Wayne Woman Is Killed

Lieut. E. B. Ryan, who died from injuries sustained when his airplane fell 15 feet into water near San Diego, Calif., was the son of a cousin of Mrs. A. B. Carhart of Wayne. Funeral services were held this Thursday at Elk Point, S. D.

Deceased was 28 years old and was the son of Editor and Mrs. Thomas H. Ryan of Elk Point. Since finishing the university at Vermillion he had been in the U. S. marine corps. His wife, parents, a sister and two brothers survive.

EQUAL FAIRNESS IN ALL WAYS IS GROWING DEMAND

AS the truck and bus business grows with the hard surfacing of roads and the possibilities for improved service, legislatures are getting around to the adoption of regulations consistent with those imposed on railroads. Manifestly, all kinds of transportation facilities should have equal advantage and each should carry its proper share of the tax burden.

Just as opportunity is the growing demand for the same federal restrictions on broadcasting as those imposed on newspapers. Congress has been asked to pass laws dealing equally with all mediums of publicity. The public should be guarded against lottery schemes over the radio as well as those through a newspaper. In addition, the metropolitan newspaper should be required to observe the same postal rules as those that shape the course of the small community newspaper. Often advertising schemes that get into a big daily,—perhaps inadvertently—

are necessarily refused by a comparatively obscure weekly publication. This inequality is plainly unjust and entirely out of accord with the policy of a square deal. The ban on chance games should be applied to the radio, the big daily or small weekly, a group or an individual with equal fairness. Agitation in that direction promises to bear fruit.

Former Resident Dies in Lincoln

Funeral Services Are Held At Jones Home Here This Tuesday.

Mrs. Harriet Gipe, sister of Mrs. F. H. Jones of Wayne and resident here about a year, died Saturday morning at Lincoln, following "six years' illness, aged 64 years, 2 months and 27 days. William Beckenbrauer went to Lincoln Saturday to bring the body to Wayne. Funeral services were conducted Tuesday afternoon from the Jones home in Wayne with Rev. P. A. Davies, Presbyterian minister, in charge. Interment was made in Greenwood cemetery.

Deceased's maiden name was Miss Harriet Ione Loreure. She was born January 1, 1867, at Independence, Iowa. She lived in St. Joseph, Mo., and came to Nebraska when a young woman. She taught school in Knox county. She was married August 29, 1906, at Monoweb, to D. H. Gipe.

Mrs. Gipe lived at Creighton several years. She spent a year here with Mrs. Jones and returned to Creighton when the latter was taken ill. Mr. Gipe died a year ago and Mrs. Gipe then went to Lincoln to make her home.

Mrs. Gipe leaves three sisters, Mrs. Jones of Wayne, Mrs. F. W. Waite of Seattle, Wash., and Mrs. E. A. Dunn of Peru, Ill., and one brother, Frank Loreure of Ord, Neb. One brother, Will Loreure of Creighton, died Thanksgiving day, 1929.

Mrs. Gipe joined the Presbyterian church at Millerborough, near Creighton, 40 years ago.

March Rains To Help Spring Crop

C. W. Long's Charts For Two Years Show More Moisture Now.

Hope for less dry weather in 1931 gets a boost from C. W. Long's report, made from his drug store at Wakefield, showing that March of this year had more snowfall, more precipitation, and more cloudy days than had March of last year. The temperature charts for March 1930 and March 1931 show that the latter month was colder, although the coldest day in March this year was 11 degrees above the zero mark, and last year the temperature sank to only two degrees above zero on the coldest day in March.

Mr. Long's complete chart follows:

Table with 3 columns: Month, 1930, 1931. Rows include Mean Maximum, Mean minimum, Mean, Maximum, Minimum, Range, Precipitation, Greatest 24 hours, Jan. to April 1, Snowfall, No. days .01 or more precipitation, Clear days, Part cloudy, Cloudy.

The weather report is made each month by Mr. Long who is the government observer.

Chimes Installed In Wayne Church

New chimes are being placed in the Methodist church this week in connection with the pipeorgan and will be played for the first time at the morning service on Easter.

School Praised By Legislators

Visitors Commend Wayne College Management In State Report.

Appropriate Funds

Maintenance Increases Are Given All State Institutions for Biennium.

Wayne State Teachers College visited March 22 by 24 Nebraska legislators, was given highest praise by the committees here for inspection. Report of the legislative committee, written to Dr. U. S. Conn is as follows:

"This school was visited by both committees and in our estimation is outstanding in every way in Nebraska can justly feel proud of this State Normal. The buildings and grounds are wonderful and your committee only asks that each member of both houses visit this school and see for themselves as words are entirely inadequate to make a complete report and do the school justice.

"The Wayne Normal was established in 1911 and is located on 51 acres. This is one of the highest and most sightly spots in the beautiful little city of Wayne. The campus comprises ten buildings, most of them new and in good repair. At the time of the inspection the enrollment was 660 pupils and 54 teachers. The last summer school enrollment was over 1000.

"The only recommendation that we can make is for a continuation of the wonderful work the school is doing under the present superintendent and nothing should be done to hamper the growth of this institution."

The house finance committee reported Monday the general appropriations bill which gives the Wayne college \$166,380 for maintenance the coming two years. This is an increase of \$60,832 over the governor's recommendations. No fund was provided for new buildings. The school had asked for a new library. The only new building graded teachers colleges was \$50,000 for social science structure at Peru. For maintenance Chadron college received \$394,629, an increase of \$35,875; Kearney receives \$490,061, an increase of \$63,921; and Peru receives \$411,787, an increase of \$37,435.

Appropriations for the university, teachers colleges, and other state institutions were \$1,371,163 above Governor Charles Bryan's recommendations. The committee added \$412,500 for the university, \$235,083 for the teachers colleges and \$705,600 for other institutions. A large share of the increases were for construction and repairs.

Early Resident Has Birthday

Mrs. Ellen Armstrong, early resident of Wayne, was 86 years old Wednesday. Friends called but no observance was planned as Mrs. Armstrong has not been well.

Winnebago Gets Hospital Facilities

The government office of Indian affairs is to construct hospital facilities at a cost of \$135,000 at Winnebago.

## New Atlas Comes For Library Use

Thomas Mann's Nobel Prize Work Is Added To List of Fiction Recently.  
A full-sized atlas that is enough to set the most confirmed stay-at-home to wandering is the property of the Carnegie library, and is to be kept in the reference room for the use of readers. The volume is fully illustrated with large, clear maps, has the 1930 census of towns and is ornamented with fine half-tone reproductions of photographs, and with animated maps which are most amusing.  
Other new books on the shelves will help to build up the already remarkable circulation, which reached 1,347 for the adult department in March, and 1,138 for the other department during the same month. The record is outstanding for the month, and shows an accelerated interest in reading which is most encouraging. Many school children are doing helpful reference work in the library every day; the place is open, librarians report.  
Get New Volumes.  
"Swallows and Amazons" by Arthur Ransome is an attractive new volume just received, as also is "Cranes Flying South" by N. Karazin. The last named is a Russian story, translated into English.  
A helpful reference work is the Nebraska Blue Book, a copy of which for 1930 is now on the shelves. The two volumes of "Bird Lore," by Frank M. Chapman, have been collected and bound in leather, making a most attractive volume, which will be in great demand during the spring months, for it identifies birds and tells of their habits.  
Burns Mantel's 1929-30 volume, which under the name of "Best Plays" is ready now, will furnish entertainment for many who have been unable to keep up with the theatrical trend through the stage season.  
"Gao of the Ivory Coast," by Katie Seabrook bids fair to be popular with young people. Elizabeth and Grenville Kleiser have a volume, "Random Rhymes," which was a gift to the library here.  
Purchase Classics.  
"The American," Henry James' old, but well-liked book, has also been added. Edith Wharton's "Ethan Frome" is another in the same category.  
Children may enjoy Dorothy Whitehill's "Polly's Summer Vacation," a book for girls, and part of a series already in the library.  
Nobel Prize Book.  
"The Magic Mountain" by Thomas Mann, a Nobel prize novel in 1929 will be read—and liked—by many readers.  
A gift to the library are the following volumes of general interest: "Practical Eugenics," Robin; "A Text of Hygiene," Robin; "Old Age Deferred," Lorand; "Health Through Rational Diet," Lorand.  
Other new volumes, particularly of fiction, will be added through the spring months.

## Infant Son Dies Here Last Friday

Jackie Eugene Siebrandt, infant son of Mr. and Mrs. Edgar Siebrandt, passed away Friday, March 27, in Wayne at the home of his grandparents, Mr. and Mrs. Fred Martin, aged 6 months and 27 days.  
The body was taken to Tekamah Saturday and funeral services were held Sunday at 2 o'clock at the home of Mrs. Siebrandt's aunt, Mrs. Henry Stanley, with Rev. Mr. Hutchison in charge. Miss Iris Brooster of Herman, sang "Beautiful Baby Hands" and "Beckoning Hands." Burial was in the Tekamah cemetery.  
Jackie Eugene Siebrandt was born August 23, 1930.

## Farm Work Moves Faster Than Usual

Washington—Farmers are making faster progress with their field work this season than usual.  
The agriculture department, in its monthly report on the farm situation, said Tuesday:  
"Cats are practically all sown, cotton planting is going forward, corn planting is working up into the Kansas states, the Dakotas are sowing spring wheat, potatoes are in the ground through the middle states, and fruit trees are blooming in the central valleys."  
A special report from Iowa said all early indications point to an increase in acreage of cultivated crops in Iowa this year, particularly in corn acreage, possibly the largest corn acreage in the history of the state. Expected changes in crop acreages are for increases in those crops which will replenish loss feed supplies. There has been practically no precipitation throughout the winter in the upper two-thirds of the state and the need for moisture is acute.

## Fremont Shipping Eggs to Europe

Lincoln, Neb.—Europe is going to consume at least five car loads of Nebraska eggs each week under a contract already made. A Fremont produce concern, the state publicity department says, has a standing order to ship five car loads each week to New York for export, until June.  
The contract, the state publicity department said, is one of the largest of its kind ever closed by a Nebraska egg dealer.  
Nebraska ordinarily produces about 67,000,000 dozen eggs a year, the department estimates.

## Easter Vacation In Wayne College

Wayne State Teachers College will have Easter vacation this week-end with no school Friday or Monday.

## Sustains Bruises When Hit By Car

Betty, little daughter of Mr. and Mrs. James J. Baker, had her head bruised Monday afternoon when she was accidentally struck by a car driven by a high school boy. Examination showed no broken bones but her face is swollen and her head pained her considerably after the accident.

## Pioneer of Madison County Dies Monday

Madison Charles Stork, well known pioneer resident of Madison county, died at his farm home in Fairview precinct Monday morning following a brief illness with pneumonia. Rev. L. V. Hassel, pastor of the Methodist church here, officiating at services which were conducted Wednesday.

## Begin Work on New Radio Station Soon

Norfolk: Work has started on the new power plant of radio station WJAG to be located on a hill-top west of the city. Construction of the building to house the big generator and transmitter was begun Tuesday and next week the 100-foot towers will go up. It is expected that the plant will be in operation by May 1.  
The new plant and equipment are expected to increase the range of the station about 100 percent. A directional effect will be secured, the station going out stronger to the north and west than in any other direction.

## Fire Destroys All Flock of Chickens

Crofton, Neb., April 1—About 2 o'clock Tuesday morning Mr. and Mrs. Frank Weisler, living four miles west of Crofton, were awakened by the bright lights of an automobile and upon arising found their brooder house containing 400 month old baby chicks just about burned to the ground. Louis Schmidt returning from Addison was the first to notice the fire and upon driving into the farm lane leading to the buildings discovered the fire about burned down and in backing out on to the highway awakened Mrs. Weisler.

## Boy Lives After Cavein at Sandpit

Two broken legs and possibly internal injuries were reported for Clyde Klecker, 16 year old Norfolk boy who was trapped in a gravel pit cavein near Norfolk Tuesday. The boy was helping fill a truck with gravel, and had gone into the pit just before the catastrophe occurred. Two thousand citizens responded with shovels in hands when the call for help was broadcast. Late reports Wednesday stated that the boy was a little better but not yet out of danger.

and getting it into copy within a given amount of time. The experience is part of the regular journalism course at the high school, each pupil having one such experience during the semester.

## THE KNOT-HOLE

No. 25 Wayne, Neb., Thursday, March 26, 1931. Vol 4

This is one of the years in which March came in like a lamb and went out like a lion.

April, the month of showers. It's usually all wet, but we like it just the same.

Use our sack coal service. None but the best coal is put into our paper sacks—Hot nut and hard nut.

Our idea of a real monopolist is the guy who captures both arms of his theatre seat and holds them.

A few days before the storm of last week, we delivered a 16x18 six pen farrowing house to Chas. Hansen. We'll bet both he and the pigs were glad the storm didn't catch them without that farrowing house.

When the tired business man can retire to the farm and the tired farmer can retire to the city, both believe they will be happy—but they won't.

"I didn't have any idea the old barn could look as nice as it does,"—another comment from a barn paint customer.

As we drove by a farmer's place a few days ago we noticed a long row of ash trees. Under the trees was a machine in a machine that could not be replaced, new, for less than two thousand dollars. A very small cash outlay would provide a shed that would protect and

add years and years of usefulness to that machinery.

Next time you're out window shopping, just stop for a minute or two at our show window. We have a very attractive kitchen dresser on display.

Your dollar will buy more now than at any time in ten years. Isn't it about time to buy the things you need?

You'll buy your paint as if you get our prices.

The office loafer says, "The only time a married man is allowed to have his full say at home is when he talks in his sleep." Apple-sauce!

Business is good with us because we are up and coming to meet the needs of our customers.

We've been putting out one bunch of ornament used in farm fence lately. Ready for yours?

Being a gentleman is like being happy—if you have to try to be, you aren't.

Four more loads of those big straight cedar posts went out again this week. You'll buy 'em too, if you need 'em. One look will do the trick.

The first moustache comes on the installment plan—a little down each week.

## Music Students Present Program

Students of the college music department gave a splendid recital at the school auditorium Tuesday afternoon. From the voice department songs were given by Roland Wachter, Irol Whitmore, Audrey Miller and Bernice McGath. Chris Christensen and Naomi Burkhead played piano solos. The college male quartet, composed of Harry Langley, Einar Lindberg, Henry Hall and DeForrest Hartepick, gave two well chosen numbers. Miss Barbara Seabury assisted with a humorous reading.

The Argentine Government is going into the grain business. We would be glad to sell it ours.—American Lumberman.

Defends Farm Board. THE Christian Science Monitor points out that stabilization of wheat prices is not the only thing set out to be accomplished by the federal farm board.

The Monitor concludes: "Instead of subsidizing the wheat and cotton crops, it can devote its energies to the further promotion of cooperative organization, and to educating the farmer toward diversification of crops."

Confidence in prophets who predict the end of the world should not be carried to the extent of giving away one's property. The guardian of an aged woman in Lincoln is suing to recover \$3,000 which the latter gave to a religious organization in the belief that all earthly affairs were to be wound up and that she would not need the money.

Wayne will share with the State Teachers College in satisfaction over approval of the institution expressed by the legislative delegation following a visit of inspection. The committee spoke in commendatory terms of the school's grounds, buildings and equipment and of the care with which they are kept.

Wayne is not old at 50, but it is old enough to figure that it is well started and that under the momentum gained, it should redouble its energies and accelerate its forward speed.

The legislature is working on a proposed income tax. It is hoped it is just a new way to harvest tax money without increasing the tax burden.

The motor vehicle still furnishes the favorite means of extinction. Since January 1, fifty-seven have been killed in automobile accidents in Nebraska.

A Good Suggestion. "It's a poor joke: 'When some woman bushes with embarrassment, 'When some heart carries away an aching...'"

Just As Big Coward. "The mental giant who takes advantage of a mental inferior is just as big a coward as the heavyweight who pokes a little man on the chin."

April Arrives. THE ARRIVAL of April brings the world nearer vernal sun and summer warmth. Some chilly days and a few snow storms may be worked into the program to tax mankind and arouse fortitude, but we know they are out of order and cannot be greatly prolonged.

Will Rogers. Will Rogers' appearance in a talking picture at the local theatre this week reminds us that his humor never bears taint of filth. His power to enliven interest and hold attention does not depend on a half concealed morsel of ribbing in his suggestion.

Business. Sioux City Journal: In a summary prepared for the Federal Reserve Bulletin it is set forth that industry has made in recent weeks a steady gain throughout the country. In the most important industries the gains in February were better than seasonal. There is always a pickup during that month, but this year the increase is greater proportionately than ordinarily is the case.

When Babies Come. Omaha Daily Journal Stockman: Along about this time of year the live stock farmer is almost certain to be a place of unusual interest. Population is on the increase. Johnny comes running after his morning trip to the barn, all out of breath to tell his father of some new and to him unexpected arrivals. How many babies in the litter? Is that new baby a lively fellow, or does he field pampers to get him started?

Hard to Understand. Omaha Journal Stockman: Failure of the different branches of our government to agree on policies or to cooperate in carrying out a matter which the average citizen had difficulty in understanding. Particularly has such opposition of aims and policies been apparent since the creation of the Federal Farm Board.

Too Much Squabbling. (Geneva Signal). O'Gara of Cedar gave the house a verbal spanking for its proposed frequent jugglings with the statute book. "Six years ago," he said, "we made the jack rabbit a game bird and this year we scratch him off. Four years ago we changed the law relative to terms of treasurers and now you want to put it back. This is nothing but chicken feed and I'm sick and tired of it."

Confidence in prophets who predict the end of the world should not be carried to the extent of giving away one's property. The guardian of an aged woman in Lincoln is suing to recover \$3,000 which the latter gave to a religious organization in the belief that all earthly affairs were to be wound up and that she would not need the money.

The tragic death of Knute Rockne, Notre Dame's famous football coach, spread profound regret among football fans everywhere. He was a genius in directing the activities of boys, and he exercised strong influence in behalf of healthful living and fine character. As a superior leader of youth, his place will be hard to fill.

Cedar county publishers have formed an organization for mutual sympathy and aid. Editor Allison of the Laurel Advocate is president, and Dudley Stone of the Hartington Herald is the secretary. The members will meet at proper intervals to talk over problems incident to the business and figure out ways to solve them.

The mistake of taking down snow fences too early should not be followed by an equally grievous mistake of paring down underdrainage too early. Better to perspire in vernal warmth than to invite a funeral by catching cold.

We want and need rains, but we don't want to get wet except when we elect to take a bath. We want moisture in the fields, but not on ungraveled roads. No doubt nature could arrange to serve greater convenience, but probably it won't do it.

Wakefield schools will enjoy a brief spring holiday when classes will be dismissed Thursday evening not to meet again until Monday morning. The recess will give teachers an opportunity to visit their homes.

Wakefield debaters reached the second round in the debate tournament held at Hartington Wednesday evening, March 25, when speakers from schools in north-east Nebraska were invited to meet to fight out the state question on disarmament. Adeline Sar, George Larson and Marvin Nuernberger were speakers for Wakefield, and won a decision over speakers from Pierce Wednesday evening. They lost to Hartington that afternoon when they attempted the affirmative side of the question. Six towns were enrolled in the meet, including Hartington, Wayne Training School, Pierce, Croighton, Wakefield and Wayne. The last named won the Lions club silver trophy.

**April Fool Sheet**

The Duster for March 30 was an April Fool sheet, printed on pale yellow paper, and called the "Tord Breeze." The edition was crammed with nonsense for the occasion.

Wakefield tracksters are hoping to go to Pender about April 10 for a track meet to be held there. Towns invited to participate are West Point, Wisner, Wakefield, Lyons and Oakland.

Coach F. G. Dale of Wayne State Teachers College writes to Super. W. C. Chapman promising to come here April 17 to award the basketball stars. In his letter he comments on the Wakefield team: "I noticed your boys especially during the regional tournament and they were always gentlemen, on the floor and off. They were good sports at all times, and I am sure they were always a credit to your school and community."

**NEW MINISTER IS HERE FROM OMAHA**

Services in the Swedish Mission church will be resumed Easter Sunday, when the Rev. Turnquist who comes here from Omaha to take the place vacated by the Rev. John G. Nelson, will be in charge. Rev. Turnquist and his family plan to arrive here Wednesday in order to be settled in time for the services. The parsonage has been repaired and put into condition by the people of the church.

**Detlef Kai Dies Suddenly Monday**

Rites Will Be Held Here Thursday Afternoon — Relatives Arrive.

Coming as an extreme shock to family and friends was the death Monday evening of Detlef Kai, which took place following a very brief indisposition. Mr. Kai had attended Sunday evening a party given for him by his daughter, Mrs. A. C. Bichel, in honor of his birthday anniversary, which would have been Friday, when he would have been seventy-four years old.

Last rites are to be held this afternoon. Rev. H. A. Teckhaus of Wayne has been asked to conduct a service at the Kai home at 1:30, and Rev. C. H. Rumbaugh was asked to conduct the service at the Presbyterian church at 2:30.

Detlef Henry Kai was born April 3, 1857 in Holstein, Germany. He came to America at an early age, settling at Glenwood, Ia., in 1876. It was during 1891 in Glenwood that Mr. Kai married Johanna Margaret Sloan.

He came to Wayne county, where he located on a farm, in 1884. In 1896, he located at Wakefield, where he has lived during the greatest part of his residence in this country.

**Leaves Many Relatives.**

Mr. Kai was one of a family of ten children. There are left to survive him four brothers, Will and Fred Kai of Wakefield, Iowa, and Carl Kai of Menden, Iowa. There were five sisters, only one of whom is living, Mrs. Charles Thompson of Wakefield.

The Kai children are Amelia, wife of A. C. Bichel of Wakefield, Grace, wife of John Johnson of Oakland, Iowa, Anna, of Wakefield, Mabel, wife of Herbert Ercen of this place, and Louis, who is employed near Wakefield.

Mrs. Johnson planned to come from her home in Iowa, and Carl Kai and other relatives were expected from Minden, Iowa for the services Thursday.

### Ideal Kitchen Is In Better Home

#### Home Economics Group Is Given Opportunity To Demonstrate Ideas

A better home kitchen, 1931 model, is being displayed in Judson's window this week in connection with an observation of Better Homes in America week. The display was arranged by Miss Mary Currier, and her home economics class from Wayne State Teachers College, and is meant to represent the model kitchen in which modern Mrs. America prepares her meals on a minimum schedule of time and energy, with a maximum result of palatability and healthfulness.

Stock shown in the window comes from Mrs. Judson's store and accessories were contributed by other merchants. The color scheme

of green, orchid and cream carries out the theory that the home-maker's workshop should be an attractive place, and not too much of a come-down from the pleasant interiors in other parts of the house.

Centers marked in the Kitchen lay-out are the storage center, where cupboards and a refrigerator are placed; a cooking center, graced by a range; a cleaning center where an orchid sink attracts the eye; and a serving center, where a shining percolator waits among the pink cups and saucers.

The new ideas of convenient and comfortable working heights for tables, stoves and stoves, and of conveniently arranged working centers are exemplified in the girls' ideal kitchen. Their ideas are gleaned from texts written by famous experimenters with comfort in home management, a subject which has come to intrigue more and more women since their advent into the business and professional world.

### Planting Trees To Be Stressed

#### Better Homes Committee Urges the Observance This Arbor Day

### To Exchange Bulbs

#### Model Kitchen Is Arranged in Store Window—Dining Room Will Be Shown Next

State chairman of the Better Homes in America organization suggests the planting of trees by school children in Nebraska, on Arbor day, April 22, both in towns and in rural districts. The Wayne Better Homes in America committee feels it emphasizes the plan and would make the slogan for the movement, "Arbor trees planted this Arbor day than ever before."

The seed and bulb exchange is arranged for April 12, to 13, at Denbeck's market. Persons wishing to trade are asked to prepare seeds and bulbs now in labeled packets and bags.

The four \$10 checks being circulated in Wayne as a trust project, in connection with Better Homes will be exchanged in payment of debts until April 23 when they will be called in and cashed. At the end of three weeks it will be possible to tell how many hundreds of dollars in debts these four checks have canceled.

The efficient kitchen now on display in the Judson store window and in which several Wayne merchants have displays, will remain through the first week and part of the second week in April. The kitchen has been planned by the home economics department of the Wayne State Teachers College under the direction of Miss Mary Currier and is a model of efficiency and attractiveness.

The dining room with a buffet luncheon arranged will be on display beginning April 10. Members of the Better Homes in America committee wish to thank those who are cooperating in making possible the window displays.

The kindergarten class at the training school, directed by Miss Arvine Luets, has completed a model town. The work has taken the better part of a month and the project is complete with dwelling houses, stores, school houses, churches, streets, lawns and trees.

Baptismal service. Reception of members. Solo. Communion service. Recessional. Benediction. Postlude.

**Presbyterian Church** (Rev. P. A. Davies, pastor) Easter services at ten o'clock with an Easter message by the pastor and special Easter music by the choir. An opportunity will be given at this hour for parents to present their children for baptism. At the close of the service there are a number to unite with the church. We would urge our members to be at Sunday school at 10. The morning service will begin promptly at 11. The intermediates will have a short service at 6:30. There will be no evening service at our church as we have been invited to attend the Easter play at the Methodist church. We hope that our members will attend in large numbers for we understood that this is a beautiful play. In response to the request of many, the young people of the church are making plans to repeat the play pageant "The Dream That Came True" on the evening of Sunday April 12. Will you that have seen it tell your friends about it? The congregation was pleased with the beautiful solo last Sunday given by Miss O'Neill. The C. E. service last Sunday evening led by David Young was one of our best. The subject was, "Christ, The Master."

**First Baptist Church.** (Rev. Wm. E. Braisted, pastor) 808 Logan St., Phone 309-J. Easter Sunday, April 5, 1931; 10:00 a. m., the church Sunday school for bible study. Chimes are being installed in the church this week and will be played for the first time at the Easter service at eleven o'clock.

**Evening service, 7:30 o'clock.** Easter play "Simon the Cyrenian," directed by Miss Lenore Ramsey. Characters: Thomas, a disciple James Morris; James, a disciple Richard Fenske; "The Lad of the Loaves and Fishes," Miles Tyrrell; Drusilla, the wife of Simon, Harriet Craven; Simon, Harry Ellis Fisher. Place: A secluded spot near Jerusalem. Time: Five days after the crucifixion.

**Christian Science Society.** Beckenhauer Chapel, 401 Main St. April 5: Sunday school, 9:45 a. m. Services: 11 a. m. Subject: "Unreality." Golden text: 11 Cor. 4:18. The public is cordially invited. The subject of the lesson-sermon read at all Christian Science churches and societies on Sunday, March 29, was "Reality." The object of all the selections read from the bible and the Christian Science textbook was to show that God and His works are wholly spiritual and good, and constitute reality. The lesson also showed that there is a difference between that which God knows and does and that which mortals believe, the latter being unreal. One of the biblical citations reads, "I know that, whatsoever God doeth, it shall be forever: nothing can be put to it, nor anything taken from it." One of the citations from "Science and Health with Key to the Scriptures," by Mary Baker Eddy (p. 207) reads, "There is but one primal cause, therefore, there can be no effect from any one cause, and there can be no reality in aught which does not proceed from this great and only cause."

**Wayne Hospital Notes.** A. G. Grunmeyer goes home today after a major operation. Peter Rodell, 76, of Concord, is able to be in a chair now after an operation. Charles Rahrberg of Osmond, goes home this Thursday after medical care. John Rossacker went to his home at Carroll Tuesday after care for blood poisoning. F. E. Reiflinger of Tyndall, S. D., who was in a critical condition is improving now. Mrs. R. E. Jones returned to Carroll March 30 after recovering from a major operation. John Parke, little son of Prof. K. N. Parke, had one hand and arm amputated when the member was caught in a wing.

Heart warming meetings, led by the young people themselves. You'd like this. Try it.

7:30 p. m., Easter evening service. Inspiring music, baptism, and a message by the pastor, Sublet, "Go Tell."

Tuesday evening, the workers' conference of the S. S. meets at 7:30. Wednesday, 7:30 p. m., the life enrichment hour. Studies in Acts. All are welcome whether connected with this church, or any church. Thanks. The thanks of the pastor and the splendid audience last Sunday night that practically filled the whole house, are hereby expressed to Prof. H. H. Hanscom, the double chorus, soloists, and the instrumental trio, for an evening of more than usual musical enjoyment, and not less a deep spiritual impression in all. The dying and living, redeeming Christ will be more vitally real to many of us because of this fine service.

Pre-Easter meetings continue, Thursday night subject, "Joy," Friday evening, "Glory." Meetings at 7:30 p. m. So far the attendance has been highly encouraging. All are cordially welcome to these hours. To all other churches seeking to know and do the will divine, and to their pastors, this glad Easter time, this pastor and church would extend its greeting and all good wishes for fresh spiritual grace, power and love in Christ Jesus.

**Plan Story Hour At City Library** Story hour for children is planned at the city library next Saturday afternoon at 1:30. All children are invited. Miss Marion Jo Theobald will have charge.

Parke, had one hand and arm amputated when the member was caught in a wing.

### Stock Shipments For Week's Time

No cattle or hogs have reached Wayne by rail during the past week, although a number of shipments have gone out to the city markets. Edward Perry sent a load of hogs to Sioux City March 31. Kay and Swartz consigned a load of hogs to the city March 30. Gilderleeve and Noakes sent a load of cattle to Omaha March 29, completing the record for the period.

### Wife of Former Carroll Man Dies

While being taken from her home near Cook, Mont., to a hospital at Cody, Wyo., Mrs. Clarence Linn, sister-in-law of George Linn of Carroll, died March 22. A doctor and nurse who were caring for Mrs. Linn thought it best that she be taken to a hospital. The Linn home is 14 miles beyond the automobile road. In a raging blizzard this distance was made by sled. An automobile then took the patient and others on to the hospital.

but Mrs. Linn died before the destination was reached.

Funeral services were held Friday at Cody Presbyterian church. George Linn of Carroll, and deceased parents from New Jersey were among those attending.

Mrs. Linn's maiden name was Margery Eels. She was born September 14, 1893. She was doing home economics extension work for Wyoming when she was married in 1929 to Clarence Linn who survives and who used to live at Carroll.

### Deeds To Property Filed In County

### Happy Chick News

During the past week we have had a little of what you might call winter, that is, it just gave us a taste of what it could do if it wanted to.

Last Friday we delivered a six-year farrowing house to Art Dryer, 16 miles south-west of town.

If your stock gets on the neighbors' land, and there are damages to pay, don't blame us. We have the fencing that will keep them where they belong, and save all the hard feeling in the community. Play safety first.

They say a little learning is a dangerous thing, especially if it is learning to drive a car.

How about one those Long-Bell lawn chairs? We have one on display in our office. You can get them in the knock-down and set them up yourself, or buy them already assembled for \$2.95.

"What are those names doing on the pay roll?" asked the new political boss. "Them two birds is the ones that does the work here," was the reply.

We never worry if a fellow claims to be selling the best in town for the money. The fact that he makes the claim will probably stir him to put up a better article than he otherwise would put out. Advertising improves the goods.

Good fellow (at police station): "Could I see the fellow who was arrested for robbing our house last night?" Sergeant: "Why do you want to see him?" Good fellow: "I want to ask him how he got into the house without awakening my wife."

Women are somewhat like houses. If they have just been singled and painted it is hard to tell the old ones from the younger. Ever stop to think how far a pretty Mule Hide roof would go toward obliterating the old house up?

A passing school boy remarked that his teacher must be pretty old, for he heard her say that she used to teach Caesar.

You know we are headquarters for the Simplex Brooder stove for this section of the country. We are sending them out every day, either to the adjoining towns or to customers in the country adjacent to Wayne.

If we were to swap dollars, neither of us would be a cent better off, but if you will come in and swap building ideas with us, it may be to the advantage of both of us. It will not cost you a cent to try it out.

We have received in the past week two dandy cars of lumber, consisting of flooring, siding, sheathing, and dimension lumber. Come in and get some of this new stock and at the new low price, too.

This is the Happy Chick brooder house factory, at Wayne, Nebraska, Station P. E. T. E. signing off... "April Fool."

### Cedar County Case In Supreme Court

Lincoln, Neb. Clara Day Becker, Myrtle Shell, Jess Jordan, Norma Wilson and Howard Wilson, have filed an appeal from the finding of the Cedar county district court that the transfer by Posey Day of his farm and town property in Laurel, made to Samuel N. Day, a son, was valid.

Mrs. Becker, a daughter of Posey Day, claimed that undue influence was used on him to secure the execution of the deeds at a time when he was mentally incompetent because of age and did not know what he was signing.

Mrs. Becker said her brother told her father that she did not care anything for him and had thrown him out of her house, and that anyway she was married to a man with five farms. These things were not true, she said, and she asked that the deeds be canceled.

The other plaintiffs are minor heirs of the other children of Posey Day.

Blair, Blain, veteran track athlete Lawrence ducked when Blair yelled a warning, and the coach received only a glancing blow.

After his wound was dressed at the hospital, Lawrence left for Chicago for an Easter vacation.

**Car Damaged in Crash.**  
Crofton, Neb., April 1.—Clifford Strom of Hartington badly damaged the front of his new sedan when he crashed into one of W. A. Schmidt's big motor trucks, driven by Jack Schmidt, while the latter was stalled near the overhead bridge three miles east of Crofton. After extricating himself, Mr. Schmidt towed Strom's machine to a Crofton garage. Accompanying Mr. Strom were four boy friends from Hartington, but none of them was injured.

**Test in Antelope.**  
Neligh, Neb. The field force of the state, which is making tests of cattle of Antelope county for tuberculosis, is finding a considerable number of reactors.

The largest number reported in any herd was reported from the vicinity of Park Center, southwest of here, where 16 belonging to one farmer were found to be tubercular.

On the other hand, they report finding few reactors in some sections of the county.

### THE GREAT AMERICAN HOME

**Fewer Crossing Deaths.**  
Sioux City Journal: Although no sensible person will believe that grade crossing accidents can be prevented altogether so long as streets and highways cross railroad tracks, the fact that the 1930 death toll in accidents of this kind was the lowest since 1922 is both welcome and encouraging. The interstate commerce commission has reported that there were 2,020 deaths at grade crossings in 1930, as compared to 2,485 in 1929.

The commission also reported that the number of injured and the number of accidents at grade crossings decreased appreciably. The injured in 1930 numbered 5,517, and there were 6,504 last year before. There were 4,852 crossing accidents last year and 5,675 in 1929.

The American Railway association emphasized that the reduction in fatalities was nearly 19 percent and that it was made when there was an increase of approximately 4 percent in all other fatalities on the nation's highways. This is a good showing, since any improvement is to be welcomed. The death toll last year in traffic accidents, streets and highways, was increased by some thousands.

**Need More Snow.**  
Omaha: Despite recent snow storms, reports come from western Nebraska stating that they really need more moisture in order to get their crops planted right. "It is dry and getting drier in our section," stated Jake Weimmeister of Scotts Bluff county. "We had a little snow this week, probably between two and four inches, but we could use another foot or so. The snow drifted some and blocked a few of the east-west roads, but the north-south ones stayed open all right."

"We haven't done much in the fields so far. We have been waiting for rain of snow."

### LANDSCAPE PLANS

Omaha Journal-Speckman: "Landscape plans" cannot be given which will fit every farm home, but certain factors must be considered in landscaping any farmstead.

Landscape architecture deals with arrangement of land and elements upon the land for use and enjoyment. In order to be most useful the buildings, gates, walks, driveways, and other elements making up the farmstead should be arranged so that the members of the family can do their various tasks with the least work. Getting a bushel of corn from a crib a long distance from a feeding floor seems a trivial waste of time when considered day by day, but when considered from a standpoint of a lifetime it can become important.

With the advent of radio, good roads and other modern conveniences the tendency of many farmers is to remain on the farm rather than to retire to town. Because of this tendency more interest is being shown in creating a beautiful place in which to live. The appearance of the farmstead itself, the trees, the shrubs and the views from the house and yard should be considered.

The farm home should be located on high ground to provide a better view and also good drainage without which no farmstead is properly developed. Proper drainage will also permit more efficient use of the farmstead, because it helps to list

### STATE APPROPRIATES FUNDS FOR COUNTIES

Lincoln, March 30.—A biennial budget appropriation for Nebraska expending agencies, state institutions, the university and four normal schools, of approximately \$40,000,000, was recommended by the house finance committee today in a substitute measure introduced just before noon.

In rough figures, the recommendation of the committee slightly exceeds that of 1929 legislature. Because of a number of duplications, it was impossible for the committee to strike off a definite total.

### YOUNG PEOPLE ARE WED ON ANNIVERSARY

**Drouth Stricken Area Improving.**  
Little Rock, Ark., April 1: Already in Arkansas it's "last year's drouth."  
Coming of spring has created a subtle change in the outlook of Arkansas toward the arid months from May, 1930 to March, 1931. Industrialists and state agricultural officials have interpreted the new psychology as a forerunner to a "New era in business and farming."  
More material evidence of the passing of the drouth period is in the sharply reduced Red Cross food lists, which once numbered half a million.  
Unofficial estimates have placed the number of dependents on foreign aid at approximately one-fifth the number which received necessities during the peak months.  
More than a week before its announced date of withdrawal on April 1 the state Red Cross organization had been reduced to a skeleton force. Only a few field workers will remain in Arkansas after today.  
Agricultural employment is rapidly increasing and added labor will soon be required. One large

rough grower in southern Arkansas has advertised for a thousand workers.  
Truck crops are now finding ready market in the large population centers of the state, while cotton planting was under way.  
Late March rains, watering garden stuff planted from the thousands of Red Cross seed packets, has produced an increasingly ample supply of foodstuffs for drouth victims.  
Approximately \$4,000,000 in federal loans have gone to the state, and farmers have taken advantage of the state's \$1,500,000 farm relief program.  
**Attend Meeting, In Dakota City**  
Rev. and Mrs. W. C. Heidenreich and Mrs. Gereon Alvin went Tuesday in Dakota City; the women attending a missionary meeting. They returned the same day.  
**CLINIC GIVES FREE SERVICE TO NEEDY**  
Free medical and surgical service for poor persons in Woodbury county, Iowa, was started Tuesday, when physicians and surgeons in Sioux City offered their services to the cause. Dispensary service, according to plans, will be offered every week day, from 12 o'clock noon to 1:00 p. m. Dentists will also aid in the work. Any poor person in need of any such service can be helped on application, the report states. The dispensary is to be operated by the Rose Cross Medical and Surgical Relief association.  
**Southeast Wayne.**  
Miss Eleanor Baier spent the past week in the Ed Hageman home.  
Visitors in the Alfred Baier home the past week to see Mrs. Baier who has been ill with inflammatory rheumatism, are the following: Mr. and Mrs. Carl Frevert, Mr. and Mrs. Will Wieland, Mrs. Ben Nissen and family, Mr. and Mrs. Ed Hageman and family, Miss Ida and Miss Frieda Baier. Mrs. Baier is somewhat improved the past few days.  
**Athlete Is Inate.**  
Lincoln College. A candidate for admission to the naval academy at Corn

Annapolis was rejected recently because his grades were not good enough. This irritated the youth and he wrote a rebuke to the academy authorities in which he said: "You can't expect a 217 pound all-around athlete to have very much time for studies." The young man is right. One cannot. But the academy was not established for the benefit of all-around athletes. It was established for the purpose of training naval officers and proficiency in the courses offered is necessary if the cadet is to qualify. Athletic prowess is merely incidental. The academy may have lost a potential football star but room has been provided for a potential naval officer.  
**To Protect Banks.**  
Lincoln Journal: An architect, after studying the problem of protecting the money in banks from robbers, has drawn up designs for a banking institution, which he believes, will be almost holdup proof. The novelty of his plan lies in the use of pneumatic change carriers in place of the money drawers in tellers' cages. The bank's supply of money will always remain in a burglar proof exchange room. The teller will not need a cage but a simple counter with a supply of change carriers and the necessary air tube terminals. When a customer makes a deposit the proper entry will be made in the bankbook by the teller and the money will be sent via the pneumatic tubes to the exchange room. When a check is to be cashed, a request for that amount will be sent below and the money returned. The principle is that in use in department stores. It has the drawback of being slower in some transactions, those necessitating a reply from the exchange room, and it demands the services of the exchange room employes in addition to the tellers. But it does guard against holdups since the only money available is that used in each single transaction. Savings in insurance and increases in the confidence of customers and employes might even compensate for the expense.

## Influence of Seasons on Longevity Is Notable, Says Wayne Mortician

Wm. Beckenhauer Discusses Record For Period of Decade Just Past.

### Death Rate Lowers

Demises More Frequent Ten Years Ago Than Now—His Records Show.

Mystery that death is, none of the superstitions with which people have surrounded it, seem to hold for only a given number of deaths occur each year, and nothing seems to change that fact. Figures on deaths in Wayne and community, given by Wm. Beckenhauer from his own records show that deaths in the community have numbered between fifty and sixty or a little above, each year during the past decade. Weather conditions, economic inflation or depression seem to have had little effect on the situation.

There were more deaths during the influenza epidemics than we ever had, Mr. Beckenhauer remarks, but, since that time, the death rate seems to have been decreasing. It is his opinion that the hope the serious illness of the "flu" years carried away the weaker members of our generation, and that the effect is noticeable in a reduced number of demises.

In 1920 there were 51 burials in Wayne. The number for the year of 1929 totaled 50. There were 48 in 1928, and Mr. Beckenhauer recalls that ten deaths occurred during the last fortnight of the year.

**Mentions War Burials.** It will be seen that the number of burials for the early years of the decade 1920-30 were larger than those for the later years. This fact may be attributed, to the number of military funerals which followed the war, as well as to the recurring epidemics of influenza which swept the country. A total of 52 deaths in 1927 compare with a just of 46 for 1926, and 49 in 1925. The number was 49 in 1924, the largest for any year during the ten-year period.

For the year 1923 there were 57 burials, in 1922, there were 66, and in 1921, the number was 62. Mr. Beckenhauer, going back over his meticulously kept records, can recall weather conditions for almost any funeral at which he has served and can locate families, relatives, dates and places at a moment's thought.

In general, the records seem to show a greater number of deaths for the colder months of January, February and March. Lighter months are June, July, August and September as the records show.

**Influence of Weather.** Influence of the weather on the death rate seems to have some importance, although season, more than temperature, seems to have significance. During the first three months of this year, 1931, a total of 17 deaths have taken place. The first was that of Sam Barnes, 89, who died January 4. Of the deaths in January, one was a small child, seven were persons past 60 years, six were men, and four were women. One of the deaths, that of I. Trumbauer, was accidental; the others were from natural causes, and took place during a period of

## SMALL CAMELS ONCE RANGED ON STATE PLAINS

MANY, many centuries ago dainty creatures about the size of a St. Bernard dog roamed the prairies of Nebraska in droves. Their scientific name is Stenonyx and a specimen has been just placed with great pride in the museum at Harvard university at Cambridge, Mass. It was found at Agate Springs, Neb., where thousands of fossils of ancient animals have been found and recovered for the museums of the world.

The Stenonyx was an offshoot of the camel family. It was not the direct ancestor of the modern camel, paleontologists say. Hundreds of them died in the vicinity of Agate Springs. Their delicate organisms were unequal to the battle with the fierce enemies and elements of the Miocene age. And so they bedded down there for the night in some ancient geological era for a long sleep. Sand covered their bodies, the bones petrified and until this day have remained there in great petrified slabs.

Several museums over the country have mounted specimens of the little camels. None has yet been procured for the University of Nebraska museum because of lack of funds. There is no lack of fossil remains. The fossil beds of northwestern Nebraska are full of the remains of little camels of the dim long ago. Much treasure from these beds may be seen at the Nebraska museum at Morrill Hall which is recognized the country over as one of the most complete and interesting from the standpoint of its display of prehistoric remains of extinct animals.

This interesting museum is open to all visitors without charge and is supported as an educational feature by the university. Here will be found some of the largest as well as the most curious fossil remains of animals that struggled for existence in the maddest age of long ago.

the year notable this season for its moderate temperature.

February, 1931, had four deaths, all of which were during cold weather. Three of the number were men.

To date there have been three deaths in March, an elderly man, a young woman, and a child. The weather has been cold and raw, typical of the March season, when the death rate is usually high.

During unusual year.

Between 1929 and 1930, the latter one of the coldest of recent winters, there was a period when 19 deaths occurred. That was from December 6, 1929, until January 20, 1930, when there were no demises in Wayne or surrounding territory. The weather during that time was cold, cloudy, dreary, of the kind popularly believed to be very bad for the health.

The first death of 1930 occurred January 20 with the demise of

## Give Examinations To County Pupils

County Superintendent Pearl E. Sewell will give the annual county examinations to about 300 seventh and eighth grade pupils Thursday and Friday, April 9 and 10, in Wayne, Winside, Carroll, Hoskins and Sholes. Rural pupils will go to one of the towns to take them. The tests will be offered in all fourteen subjects which must be passed before a pupil is graduated from the eighth grade. The examinations will be offered again in May.

## MERIDIAN HIGHWAY CHANGE PROPOSED

Change of the Meridian highway to make a straight line between Norfolk and Columbus is proposed. If such a plan is followed the highway will not pass through Madison, Humphrey or other towns on the route.

## HISTORICAL STONE IN BURT COUNTY

A mahogany granite memorial bearing historical facts about settlement of Burt county, is being placed at the court house grounds in Tekamah. Dedication is planned for May 1.

A mahogany granite memorial bearing historical facts about settlement of Burt county, is being placed at the court house grounds in Tekamah. Dedication is planned for May 1.

February, 1930, had six deaths: five men and one woman. Ages varied from 29 to 76. During that month, the weather seems to have been cold and clear with several moderate periods when the snow and ice thawed. Following the period earlier in the year when no deaths had occurred, it will be noted that Wayne community had a total of ten deaths in the time between January 20 and February 12. There was no age group to which death was confined, although the sex ratio was less well divided than usual.

**Compare Past Records.** Comparing past records with the weather for March of this year, it is noted that March, 1930, was rather a cold, disagreeable month cloudy and dark with no warm temperatures over a prolonged period. However, there were only four deaths during the time. Three were women, one was a man, which justified the record for the month preceding, when more men than women had died.

April was a pleasant month, with warm weather predominating. Six deaths were recorded, one a child of 14 months, the others, men and women of middle age. At the end of the month, Mr. Beckenhauer remembers, the weather was warm enough for farmers to plant their corn, and moisture was abating.

A woman of 66 years was the only person to die in Wayne county during the month of May. The moderating weather of the period may have been responsible for the decline, although, as a perusal of the records shows, the time

## Dead and Hurt in Auto Accidents

Of Total of 401 Persons Injured Sixteen Permanently Disabled.

Accident statistics for Nebraska as compiled by the Nebraska Press Association and the rehabilitation division of the state department of vocational education for two-week period ending March 24, 1931:

	No. dths.	Inj total
Motor vehicle accidents	162	12, 203
Other public accidents	55	3, 53
Agriculture—employment	66	2, 64
Industry—employment	28	1, 30
Home accidents	52	3, 51
Total	363	21, 401

Of the 401 persons injured, 16 were permanently disabled.

Thirty-nine of the 55 public accidents were caused by falls. Falls also were responsible for 23 bad injuries in the home. Other injuries in the home were: Power machinery, 3; burns, and scalds, 8; cuts and abrasions, 13.

In industrial accidents, 6 were injured in fires, 3 were struck by falling objects, 5 were caught in power machinery and 6 workers were hurt by falls.

In agricultural pursuits, farm machinery led in the business of wrecking humans with 17 bad accidents of which tractors caused 4; cornshellers, 4; and circular saws, 6. Farm animals were a close second with 15 accidents of which 11

## Chapters of D. A. R. Convene At Crete

The state Daughters of the American Revolution annual convention, held in Crete from Tuesday until Thursday, last week was attended by 200 women from Nebraska chapters, among them Mrs. El W. Hise, Mrs. Jessie Reynolds and Mrs. Mae Young of Wayne. The first named, Wayne regent, gave a report of the year's work in Douglas King chapter of Wayne.

New officers of the state are: Mrs. E. H. Wescott, Plattsmouth, regent; Mrs. Horace Cary, Kearney, vice regent; Mrs. E. B. Hardeeman, Crete, recording secretary; Mrs. R. M. Campbell, Columbus, registrar; Mrs. E. J. Williams, Lincoln, auditor; and Mrs. Adam G. Mullen, Beatrice, vice regent general. North Platte entertains next year.

The organization passed resolutions as follows: That the legislature appropriate \$300 to remove the Nebraska State Historical society collection from the university to the capitol tower; that each chapter sponsor a wild flower society; that the group sponsor the "living Christmas tree"; that the group sponsor a girls' division in the American Indian institute at Wichita; that the university retain compulsory military training; and that the D. A. R. give \$300 to furnish a sun room at the state veterans' hospital.

The Wayne women returned home Thursday evening. Mrs. Ida Reynolds who had gone to Lincoln last week with Mrs. Jessie Reynolds, also came.

## Herald Receives Letter from West

Miss Laura Lyons Tells of Former Wayne People At Long Beach.

In a letter dated March 25 at Long Beach, Calif., Miss Laura E. Lyons writes of events of the past few weeks in "sunny" California.

"The Waynetes had been expecting notices of the annual picnic but as none came, Mr. Howard took it upon himself to send word to those whose addresses he knew, to meet at Elby park, Long Beach, March 14. Consequently only about thirty were present for the dinner although several more came later. Only about fifty had heard anything of it. Among those who were there were the following:

"Mr. and Mrs. Gandy, Mr. and Mrs. S. E. Auker, Mr. and Mrs. Harry Jones, Mr. and Mrs. Howard, Mr. and Mrs. W. Huribout, Mrs. Charlotte Larison Jensen and little son, Mr. and Mrs. John Larison, Mr. and Mrs. Alter and daughter, Eva, and the latter's family, Mr. and Mrs. Magnus Jensen and two children, Lute Carter and family and his two sisters, Mrs. May Chace Miller, Mrs. A. Person, Mr. and Mrs. J. P. Gaertner and daughter, Mrs. Jennie Davis, and son, Mrs. Ella Piepenstock Miller, Mr. and Mrs. Bert Brown and daughter and two little girls, Mr. and Mrs. C. Al Grothe, Mr. Goll, George Wilbur, Mr. and Mrs. J. C. Forbes, Ed Cullen, Mr. Moses, Mrs. Averill, Mrs. W. S. Goldie and Mrs. M. S. Davis.

Decide Picnic Date. "It was decided that hereafter

we would have our annual picnic the second Saturday after a child's birthday (for the Iowa State picnic is always the Saturday after that date) and not to send cards but to remember the date. The meeting place will be Elby park at Long Beach. In case of inclement weather, the affair will take place the following Saturday.

"It is very windy here today and rather chilly—regular Nebraska March weather.

**Attend Cornerstone Ceremony.** "Monday afternoon of this week we attended the cornerstone laying of the municipal auditorium. The edifice is to cost \$1,400,000. The service attending the laying of the cornerstone was very beautiful and impressive, conducted by the Masonic order. The band preceded the 100 Masons in full regalia, in their march from the temple. The band, in white uniform, went a story higher in the building than the Masonic order.

Amplifiers installed for the occasion made hearing easy even a half-block distant.

"The ceremony was opened by a band selection 'Praise God from Whom All Blessings Flow.' The chaplain gave the invocation which was followed by another hymn. The mayor introduced the master of ceremonies after which the secretary read the list of documents enclosed in the copper box—data and roster of all patriotic orders, city officers, latest copies of the Press-Telegram and Long Beach Sun, dailies, etc. A short address was delivered by Rev. Klene of the Calvary Presbyterian church and the stone lowered to the northwest corner of the second story of the building.

"A former Laurel woman and myself went up to the second story later on and gained some conception of the immensity of the building. It is hoped that the building (Continued on Page Six)

on record over a period of many years; took a death toll of eight persons, five women and three men. Of these, one death was due directly to the excessive heat, when C. A. Brown of Fremont dropped dead in a heart attack while playing golf on the country club course.

Two women and one man died in August; two men and three women in September; two men and one woman in middle aged or more, in October.

**Not Strange Condition.** With the coming of a cooler weather in November, there was only one death on record in this territory in November, that of a man who had reached the age of 89. From the day of his death on November 6 until December 3, a cold blustery period, when a man of 72 died, there were no deaths recorded, an unusual circumstance for that season. In December there were three child deaths, and a young woman also died, making the total for that month five. For the entire year of 1930, there were 51 deaths, quite evenly divided among the months of the year.

**See Even Division.** Going back into the records for several years, it is possible to see the scientific "law of chance" in operation, for about half of the deaths are of women, half of men, over a given period. There seem to be likewise, more deaths among the very young and the very old than among the people of young to early middle age, which is also in accord with the theory. Temperature seems to cut little figure, with deaths rather evenly apportioned among the months.

For the first three months of 1929, for example, there were 16 burials between January 1 and March 27. For a period between

January 1 and March 26, 1931, there were 17 burials. Showing a close agreement of figures:

Deaths for the first three months of 1929 were six men and eight women; also a close agreement, within the period. An examination of the record over any period, chosen at random, shows the tendency, long recognized by statisticians, of the operation of the law of chance. That is, if enough time is allowed to enter into a consideration, chance will operate with a fifty-fifty choice for each one of two given alternatives.

**Accidental Deaths.** To read the state accident report each fortnight gives the impression that death by accident is very com-

mon, as it is, over so large an area as the entire state. In the small area of a single community, however, death by accident stands out. The period between July 5 and Sept. 27, 1929, was characterized by a number of unusual deaths, chiefly one due to an automobile accident, one due to suicide, the

misc of a premature child, and electrocution and one drowning. Weather during that era of the year was warm and rainy, typical of the season.

Considering death over a period of years in this community leads to a belief that life expectancy is by no means long hereabouts, and is due by no human hand, but comes its appointed time.

**Oliver Row Crop Cultivator**

The No. 86 four-row cultivator with BSRO 16-shovel, spring trip, round shanks. Wheels on the gangs keep them cultivating at uniform depth in level and uneven fields. Each lever operates four gangs easily. Short pipes can be substituted, four gangs removed and a two-row cultivator made. A variety of gang equipment is available for the 86 cultivator.

Oliver Row-Crop two and four-row cultivators are flexible, easily handled, highly efficient and do the kind of cultivating that makes weed control an easy job.

Their extreme flexibility makes possible uniform cultivating, whether the land is level or rolling. Levers, easily operated, give finger-tip gang control.

All cultivator gangs are hung between the two pipes—none are carried behind the operator. The driver can always see what and where he is cultivating by just looking ahead. By securing new pipes and two extra gangs, the two-row can be converted into a four-row cultivator. A variety of gang equipment adapts these better cultivators for many conditions. All equipment is interchangeable and can be quickly and easily attached to and detached from the Row Crop.

## Early Days in Wayne County

Taken from the Herald files for April 3, 1931:  
 The Commercial club agreed to publish a pamphlet advertising Wayne.

Hays Main took first place in the oratorical contest at Norfolk March 27, 1913.

There was talk of voting on a proposition for Sunday base ball in accordance with the new state law.

Frank Morgan and Harry Fisher spent a day hunting on the reservation, returning with 19 ducks and four geese.

Mr. Herman Dooce and Miss Ellie O. Frey, both of Leslie precinct, were granted a marriage license by Judge James Britton.

Carl Brudigan came in from Wakefield vicinity to have his hand dressed after he had caught a finger in the rapidly revolving dogs of a spinning mill.

Miss Margaret Dixon became the bride of Edwin T. Slaughter of Burke, S. D. They went to live at Burke, where Mr. Slaughter was president of the German-American bank.

The bill providing for a levy of eighty-five hundredths of a mill to meet all expenses of state normal schools was passed on and passed. The provision insured ample funds for maintenance of necessary buildings.

W. J. White, well known in Wayne county, was killed instantly when he fell under the wheels of the train at Emerson. Mr. White had gone into the lunchroom while the train stopped, and when he saw the train leaving, he tried to catch on, with the result that he fell under the moving wheels.

**Wayne Voted Dry.**  
 The result of the license question, the important issue on the spring election in Wayne that year, passed off with an approval of the dry policy by a majority of 51 votes. At the election in April, 1912, when the city voted on the question of license, the dry side won by a majority of 12. At the special election in May 1911, the majority was increased to 27. This year 458 votes were cast, 252 dry and 203 wet.

**Tornado in Omaha.**  
 Of the Omaha tornado, there is the following note from one of the daily papers: Order and system are rapidly being developed out of the chaos which followed the tornado which struck the residence section of Omaha last Sunday night. Sever in the history of great catastrophes has such system been developed in such a short time. Within less than 48 hours after the destruction, permanent relief stations were established throughout the district and hundreds of families were supplied daily.

From the Wayne Herald Tribune of April 2, 1885, comes this entertaining little story: Wednesday evening of last week an immigrant family got off the train at Hoskins and 'rounded' up the children, when the father of the flock thought he noticed a shortage. He called up the oldest boy and inquired how many children had been left in Chicago. 'Sure? Yes.' 'Well, then,' he said, again carefully counting over the row of tow heads, 'we've left one on the train! A message was sent to Norfolk asking the conductor to look him up, and he was found sleeping quietly on one of the seats. A wagon was sent to Norfolk and the child was soon restored to the arms of his distracted parent.'

**Open Public Library.**  
 The public library in Wayne was opened to the public, with Mrs. M. S. Davies as librarian. The building was kept open Sundays for the accommodation of those who wished to go there to rest and to read.

Those who went to Sioux City to see Maude Adams in "Peter Pan" were: Mrs. James Britton, Mrs. James Bush, Mrs. Charles Schulteis, Mr. and Mrs. T. W. Moran, Prof. and Mrs. E. J. **Return To Farm Move Is Noticed**  
 Lincoln, Neb., March 25—Further evidence of a "back to the farm" movement was seen today by A. E. Anderson, state-federal statistician, in reports of increased demands of rental property in Nebraska.

At the same time, he had before him reports of Nebraska bankers that wheat is in excellent condition, that farmers are paying off their debts, and that several leading commodities have shown price upturns.

"The increased demand for share rent farms," he commented, "may be accounted for by the uncertainty of future prices of farm commodities. The present conditions in Nebraska reflect the general tendency toward the 'back to the farm movement' which has been in evidence since the financial depression led to unemployment."

Uncertainty in future prices for farm commodities, he continued, has led to the demand for share rental farms. Because of it also, there has been smaller "turnover" among tenants this year. Range

land in the southwestern portion of the state is still being rented for cash.

Farm indebtedness, the bankers reported to Mr. Anderson, is about 5 percent less than a year ago.

Mr. Anderson found from the reports that winter wheat condition is 95 percent, or 4 points higher than a month ago, and that the moisture supply is ample, especially in the western part of the state. Spring work has been advanced

because of the unusually mild winter, and most of the oats will be in the ground before April.

Increases took place recently, he said, in the quotations on corn, oats, hogs, butterfat and eggs. This was the first upturn reported in many months.

## Master Clock Is Installed at Plant

A master clock has been installed at the Wayne city power plant to regulate electric current. The clock is accurate and will enable those having electric clocks to keep them the same. The clock will enable those at the plant to blow the whistle more nearly at an exact time.

# Seeds

## Wertz Seeds for Quality

Our line of sample seeds, now here for your inspection is entirely free from weed seeds. To be absolutely free from weed seeds, planters should carefully inspect samples. This you are able to do when you select Wertz seeds — Samples are pure and clean, but no cleaner than stock from which they are selected. Seed is guaranteed to be free from noxious weed seeds, such as dotter and thistle.

## Beware Untested, Unlabeled Seeds

Wertz Seeds have long been famous for purity and high germination. The quality of these seeds is familiar to farmers of the Wayne vicinity where many have tried and approved them in former years. You will be more than glad if you take the time to look these seeds over before buying.

BOY SCOUTS ENROLL MORE MEMBERS. An enrollment of 24 scouts was reached Thursday evening when the following were voted into Winside Boy Scout troop: Arnold Porter, Junior Brune, Aronol Trautwein, Lyle Jensen, Norris Weible, Vernon Nelson, Clarence Witt and Alfred Jugel. Members who have completed work on the tenderfoot tests include Richard Moore, Stanley Prince, Frank Weible and Irving Anderson.

GIRL GETS BURNS AS STOVE COLLAPSES. When a heating stove, near which she was working, collapsed Saturday morning, Ruby Steffen, daughter of Mr. and Mrs. Frank Steffen, suffered severe burns on

the palms of her hands and the inner surfaces of her arms. There were minor burns on her face, and she was bruised when the stove struck her, throwing her to the floor beneath its weight.

The accident occurred early in the morning before the fire had reached its usual daytime warmth. Some of her clothing was reported to have burned, but the burns about arms and face were considered the most serious.

Mrs. Steffen, who has been suffering from sinus trouble, had not yet come downstairs when the accident happened, and Mrs. Steffen has outside. Helen, a younger sister of Ruby's, saw the accident take place, and hurried to her father for help.

Mr. and Mrs. Ferdinand Voss and Mrs. William Koepke, sr., neighbors, came to the Steffen home later in the morning to assist, and Mr. Voss took the family to Norfolk, where Ruby's burns were dressed, and Mrs. Steffen received further treatment for her trouble. At latest reports, the girl's burns were said to be healing fairly well.

Epworth League Play. Rev. W. A. Mansur has suggested the presentation of the Epworth League play April 17. Miss Rachel Bracken will coach the play.

Improves After Operation. Verdel May Niemann, daughter of Mr. and Mrs. Florenz Niemann, is improving at a Norfolk hospital, following an operation which she underwent Thursday.

Work on Road. Work on the Winside-Wayne road is still in the second mile. Grading operations are getting well under way, and detours were cleared as soon as possible following the heavy snows of the week-end.

Returns from Springs. John Beuthen returned Wednesday evening last week from Excelsior Springs, Mo., where he had spent about three weeks in the interest of improving his health. Fred Nurnberg returned with him.

On Way to Recovery. Miss Margaret Miller, who has been seriously ill following an appendectomy in a Norfolk hospital some time ago, is reported to be recovering nicely at this time. She will be able to return home in a few days.

Attend Scout Circus. Attending the Boy Scout circus in Omaha Saturday were Mr. and Mrs. Frank Wilson and sons, Robert and Hamer, and daughter, Mary Frances. The storm prevented others from attending, although large groups had planned to be present for the affair.

Goes To Randolph. Mrs. Chris Hansen returned Sunday evening from Randolph where she had gone the preceding Wednesday to be with her parents, Mr. and Mrs. William Bowles, during the illness of the former. Mrs. Frank Lorenz, a sister of Mrs. Hansen, will spend this week with Mr. and Mrs. Bowles, as Mr. Bowles' health is precarious.

### Nebraska Develops New Industry

Morrill, in the North Platte valley of Nebraska, boast of being host to the first plant of its kind to be installed in the state—a beanery. A beanery is a place where beans are sorted for market. The beanery is being operated on a twenty-four hour shift. Thirty girls and women are used in each shift. They receive piece pay. Each operator earns at least \$2.00 a day. Skillful operators earn twice that much. No, the ladies do not pick over the beans like a housewife might in her kitchen. The operators are seated on comfortable seats at benches and the beans are brought to them on broad belts that are operated by electric motive power. Under a good light the deft fingers of the workers reject the foreign substances that may have been picked up in the bean harvest, sort out the discolored grains and allow the clean beans of uniform size to proceed on their way to the markets. Beans, like potatoes, are graded as to size and quality, and choice beans, like certified seed potatoes, bring a better market price. A good many beans are raised in Nebraska. The 1930 crop amounted to 118,081 bushels from 10,000 acres. The yield was 11.8 bushels.

Hartington Plant Operates at Loss. The Hartington Electric Light company, organized as a result of dissatisfaction with rates charged by the Interstate company, reports a loss of \$18,000.

The plant was constructed by the Western States Public Utility company, with a provision that profits were to be used in paying for the property, the title to pass to the city when completely paid for.

Debts to the Iowa Public Service company led to transfer of management to it some months ago, the latter company seeking to bring operations to a paying level. The latter company announced that it will not advance further operating expenses, but will either ask for a receiver or close the plant, unless a new franchise is given under which new financing might be possible.

Agriculturalists To Consider Policies

Lincoln Journal: World agricultural policies with a view to organizing agricultural production in different countries so as to equalize the supply with the demand for farm products will be considered at the fifteenth international congress of agriculture at Prague, Czechoslovakia, June 5 to 8, this year.

Ninety-two national agricultural associations from twenty-seven countries will participate in this congress to be held under the auspices of the international commission of agriculture.

Prof. Dr. Ing. Vlad. Bidlik, president of the organization committee, has asked the United States department of agriculture to bring the congress to the attention of agricultural scientists and leaders in this country. The department has acquiesced in this request and suggests that American agriculturalists who may be traveling in Europe at the time of the congress will find it to their advantage to include Prague in the itinerary.

The congresses are held every two years in different countries, under the auspices of the government of the countries in which they are held.

The program this year is separated into seven sections entitled: agrarian policies and rural economy; agricultural education and extension; agricultural co-operation; vegetable production; animal production; agricultural industries, and the "rural woman."

The section on agrarian policies and rural economy will consider the possibilities of organizing agricultural production in different countries with a view to bringing about an equilibrium between supply and demand of agricultural products, and in what measure and by what means the expenses of production may be decreased. The importance and possibility of research on the formation and forecasting of agricultural prices will also be considered.

The section on agricultural education and extension will consider "services of agricultural consultations on an individual basis; methods employed and results obtained; and modern methods for promoting progress in rural districts by means of radio, motion pictures, agricultural exhibitions, and other agencies for making known the results of research. The section on agricultural co-operation will consider the possibilities of co-operation, the means employed and results obtained. The section on vegetable production will consider national and international legal protection of new plant production, and the actual status of the question of inoculating the soil.

The section on animal production will consider heredity and its control in individual animals in order to improve their economic yield, and the possibilities of raising fur-bearing animals in connection with farming. The section on agricultural industries will consider the industrial utilization and conservation of potatoes and other vegetables. The mission of the woman in the struggle against the rural exodus will be the principal topic of the section on the rural woman. The feeding of the farm family by means of products grown on the farm will also be considered by this section.

MARRIAGE AT WAYNE IS KEPT A SECRET

Favor Pierce School In District Court

The case of the Nebraska State Bank of Norfolk, vs. school district No. 2 of Pierce county has been decided in favor of the school in district court. When the Pierce State Bank closed in March, 1928, the district showed a deposit of \$5,751.65 to its credit. The Pierce board learned that the Nebraska State Bank of Norfolk claimed to hold \$44 unpaid and registered school orders of the Pierce district, aggregating \$7,041.19. The Norfolk bank claimed to have purchased the warrants as an innocent buyer. The Norfolk bank sued the school district. The district claimed the school treasurer had sufficient funds to pay the warrants and that the Norfolk bank was thus only entitled to the difference between deposits in the two banks.

Miss Byerly Gives Prize Definition

Occurring in the April number of FORUM is a definition of the term "friend," which was sent in by Miss Virginia Lee Byerly, sister of Mrs. O. R. Bowen of Wayne, and well-known here. The definition was submitted to the department of the magazine which has been running a series of such contest letters, taking different words for different months. Miss Byerly's definition was listed second, and was reprinted in the magazine as reprinted here:

"A friend is one who recognizes the struggles of another and senses his aspirations, is tolerant of him while not condoning his faults, neither overestimates the strength of his character nor exaggerates the weakness, endeavors to see beyond the act—evil or good—the thought that inspired it, sympathizes with him in his failure but rejoices as sincerely in his success, and through all has faith in him and is loyal to him."

Miss Byerly, who is at present in Coral Gables, Florida, plans to return soon to Nebraska where she will be with relatives again.

**Grain Is Needed**

**By Dairy Calves**  
If a calf is going to make a good high producing dairy cow it must receive the proper care from the day it is born. The time when heifers need more attention than is given by the average dairyman is from six months of age until the first calf is dropped.  
In general, no calf should be turned out before she is six months of age. The young heifer while in the barn should receive all of a good quality hay she can eat. Three to four pounds of grain daily is a necessity if a good milk record is to be made by the mature cow. The secret of raising a good cow is to start her growing from the day she is dropped and never allow her to stop until she has reached full development. Most dairymen have their own methods of feeding the young calf, but after six months of age most calves are neglected, being forced to make their growth on pasture or hay alone.  
A good growing ration to be used from six months to maturity consists of 400 pounds of good young corn, 200 pounds of good alfalfa hay, 300 pounds of ground oats, 300 pounds of wheat bran and 100 pounds of
