Collision Proves Fatal To Two

Elmer Evans and Pender and Young Daughter-in-Law Killed Instantly.

Three Still Live

Neighbors Hasten To Crash Scene Early Tuesday Afternoon To Give Assistance.

ELMER EVANS, 57, and his daughter-in-law, Mrs. Mable Evans, 27, of Pender, were killed instantly on highway number 9, nine miles south of Wakefield, about 1 o'clock Tuesday afternoon. The WNAJ gasoline truck in which the victims were riding was coming from the north down highway 9, and Edward Kai, who had just borrowed a fork from his brother, Emil Kai, was coming from the east in his car when the two vehicles collided. Kai's pick-up Ford bears on its side headlights, marks of the truck which is said to have rebounded and turned over at least twice from the force of the impact. Both the Ford and the truck were practically demolished.

Mrs. Evans, wife of the dead man, was riding in the truck cab, between her husband and her daughter-in-law when the accident happened. She had only slight injuries, and was able to extricate herself from the twisted mass of wreckage that had been the truck cab, and go to the Emil Kai place to summon help. She took with her small Eunice Evans, daughter of the dead woman, who escaped with minor cuts and abrasions, although both were suffering from shock.

LIMIT VACATION PERIODS TO HELP BUCK DEPRESSION

OUT OF respect for the depression and to hurry its recession, it has been suggested that a considerable part of the money usually devoted to vacations be used this year in making practical improvements or in wiping out any lingering indebtedness. At this time of the popularity of moratoriums, we could very appropriately have a sort of suspension of expensive vacations to curtail individual moratoriums on obligations and to enable expenditures for permanent betterments. How far one may go in reducing vacations depends on the resources and requirements of different persons. One may have to have a respite from routine with leisure amidst new scenes to speed up making the grade. Another may find greater ease and satisfaction through relief from burdens of cost permitted in order merely to indulge passing pleasure. Certainly usual vacation expenses may be modified in support of essentials, or may well be entirely avoided to pay debts and clear the calendar of pressing annoyances. Manifestly, one should have the courage to turn his back on lake sides and mountain slopes while indebtedness lingers and some one else is sticking to his task and holding the sack.

Cancel Parole From Hospital

Lady Charged With Writing No-Fund Checks Returned to Institution.

Will Go to Yankton

Person Signing Name of Mrs. J. Harder Is Identified in Court Here Saturday.

HEARING on the charge of writing no-fund checks, brought by J. J. Ahern against Mrs. J. Harder, resulted Saturday in cancelling parole of defendant at the state hospital in Yankton, S. D. The woman is being held here and will be taken to Yankton soon.

Defendant in the action has been employed as housekeeper at the A. W. Freeman home at Burke, S. D. On May 16 she was in Wayne and gave several checks, signing them Mrs. J. Harder below. The woman testified that her name is Mrs. J. Harder, and that she has been married about 25 years. Her maiden name was Amanda N. Winter. She has three children, the eldest 23. She and one of her children were in Wayne the day the checks were written.

Mr. Freeman, by whom the woman was employed at Burke, wrote the court that her name is Mrs. A. N. Dea Herder.

The woman was in the state hospital for the insane at Yankton for 18 months, and was paroled last September.

Wayne County Farmers Look For Good Corn Crop This Year If Rains Come During First Of Tasseling Season

Drying Winds in June Are Charged With Causing Light Grain Crop.

Threshing Goes On

Timely Rains Will Produce Fine Corn According to Forecast of County Farmers.

Although Wayne county farmers agree that the yield of small grain crops is smaller this year than usual, it is also agreed that the prospects for a bumper corn crop are excellent, pessimistic reports notwithstanding. This week marks the peak of threshing activities over the county, with many outfits covering territory around Winside and Carroll Monday morning, and others beginning as early as last week-end in Hoskins vicinity. Around Wakefield threshing began the first or the middle of the week.

Of threshing on his land, Henry Frevert states he had a yield of 600 bushels harvested from 27 acres planted to barley, not a big yield, but good enough, considering weather conditions during the important growing period. That barley is harder than oats during the growing time seems to be demonstrated by the fact that oats on a similar piece of land brought a smaller yield, although the total figures were not available Wednesday.

Small grain is poor this year, admits W. H. Gildersteeve, who believes that 20 to 35 bushel estimates will approximate the yield on the average Wayne county field of small grain. Contrasted with the average "good" yield of 50 to 60 bushels per acre, the farmer naturally thinks 25 or 30 bushels looks small, but experienced land owners say no bigger crop could have been expected this year.

FRIENDLY SPIRIT OF COOPERATION AT HARVEST TIME

COOPERATION among farmers and their wives during harvest follows a long established rule and reflects a fine, wholesome spirit. Getting together to help one another is not anticipated as a hardship, but rather as an occasion of pleasant social experience. The men go to work in the field and the women do the not less important work of preparing the meals. In the old days they came in wagons and buggies; now they travel in automobiles and lose no time on the road. Horses used to furnish power for threshing machines; in this day engines are employed. Time was when everything for the table was laboriously cooked over hot stoves; now many prepared foods are provided from nearest markets, and new conveniences lend comparative facility to the task. Distances to town have been largely eliminated by automobiles and good roads, and thus anything overlooked for the menu may be quickly furnished. The old spirit of friendly reciprocity remains, but it is made easier and more attractive with the assistance of modern advantages.

Natural Gas Line To Be Extended

Company Plans to Serve Northeast Nebraska Early This Fall.

Norfolk Will Vote

Wakarusa and Emerson Grant Franchises and Are Assured of Service Soon.

ACCORDING to plans of the Missouri Valley Pipe Line company, extension of natural gas to serve towns between St. Louis City and Norfolk will be realized this fall. As soon as preliminary work on franchises and right-of-way is completed, construction will be under way. Service will probably be instituted in Wayne by the middle of September.

Ordinance calling an election to vote on granting 25-year franchise to serve Norfolk with natural gas was presented to the city council there Monday. At the suggestion of C. H. Kelsey, attorney for the company, final consideration was postponed to a later date.

Before presenting the ordinance Mr. Kelsey read a letter from one of the managers stating that the rate schedule offered would save Norfolk \$2,000 a month at its present rate of consumption. He also stated that the company would install a new distribution system in the city, spending thousands of dollars for local labor. The company gave assurance that its lines would be extended to Norfolk immediately upon granting of the franchise.

The proposed rate schedule runs from \$1.10 per thousand cubic feet for the first 2,000 feet to 55 cents per thousand for all in excess of 10,000 cubic feet per month. Meter charge is 50¢ a month and minimum bill is \$1 a month. Industrial rates in use in Lincoln, Beatrice and York are included.

Franchise given.

Fremont citizens, in a special election July 20, voted 1,116 to 231 in favor of granting franchises for introduction of natural gas in that city.

Emerson village board at a special meeting, decided to extend the natural gas franchise there for a period of six months. A representative of the company said the plan is to extend the line from Sioux City to northeast Nebraska. The Emerson board was informed that service would probably be established there within 60 days.

Wakarusa council recently extended the 25-year franchise to the natural gas company for 180 days. The franchise was subject to cancellation May 22 but it now extends six months longer. The gas company informed the council that service would likely be established this fall.

Guests Honor Old Resident

Compliment Mrs. J. R. Rogers on Birthday Anniversary At Mines Home.

Reaches Ninety-Six

Relatives Gather To Congratulate Native of New York State Who Had Many Experiences.

MAINTAINING a lively interest in life, in her reading and in callers who come to see her, is Mrs. J. E. Rogers, who celebrated Wednesday the ninety-sixth anniversary of her birthday. Mrs. Rogers is willing to talk of events in the past, but even more interesting to her are the events of the present, as she reads them in the newspapers and magazines. She likes to talk, too, of the work of the younger members of the family, and to discuss the problems of the day. Last autumn she cast her vote in the election, although she was unable, because of a broken hip, to leave the house. Intensely alive to the possibilities of the campaign, however, she would not be deprived of her opportunity to vote.

Has interesting life.

The story of Mrs. Rogers' life, from her birth at West Farms, now a part of New York City, is a story of fortune and ambition. Mrs. Rogers was born in 1835.

To honor Mrs. Rogers on her birthday, her daughter, Mrs. J. G. Mines, arranged a picnic supper to be held at the Mines home Wednesday evening. Special plans are always made for Mrs. Rogers' birthday, and the family has, for many years, opened their season at Lake Okoboji by having Mrs. Rogers' birthday party there.

At the supper last evening guests included Mr. and Mrs. Paul Mines and family, Dr. T. B. Heckert, Bert Cassin, and Mrs. R. B. Atwater and daughter of Des Moines. Mrs. Atwater, who is a granddaughter of Mrs. Rogers, came here with her daughter Wednesday of last week for a short visit preceding the birthday event. Mrs. Atwater and daughter plan to return to their home today.

Fontenelles Are Still On River

Emily L. Fontenelle, Oldest French-Indian Pioneer, Describes Past.

Treasurer Gives Report On Funds

Semi-Annual Statement of Moneys Collected and Spent in Period.

Emily L. Fontenelle has lived on her particular bluff overlooking the Missouri river, a mile or two above Decatur, for so many years that she has forgotten when she came there. She says she is 106 years old, and that she came to this unsettled prairie from her home in a mission post "many, many years ago—long before this war."

Emily Peppan Fontenelle was the child of a French missionary and a Pawnee Indian woman. She married Henry Fontenelle and came, with him and his family, under the leadership of Logan Fontenelle, to make the first settlement along the Nebraska section of the river, before there was a sign of Omaha, its little rival, Decatur, or any town to mark the grass.

On the point above the river, the Fontenelles reared their family of nine children. Of the nine, says the oldest settler, only one is left, and she points to the neat small house, next her own, where resides Eugene Fontenelle, her son.

Remembers Beginnings.

The early days along the stormy river are clearer to Mrs. Fontenelle than are the later days. She remembers what a vast field surrounded their bluff above the river, how wild the prairie was, and what skill it took to deal with the Indians in the first days. Several years ago, however, the undependable old river swerved a bit in its course, lashed against the Fontenelle land, and carried away great chunks of it into the river. At the corner of the doorway it stopped, and today there is only a slight drop into the willow thickets to show where the water course lay only a few years back.

All alone in her little old house lives Emily Fontenelle. The same warm sun still shines on the flat dorstones in front of the porch, but few visitors stop. Every day she sees her son, and sometimes some one calls to see her, and to listen to her tales of the early days.

"I am glad you came," she said Sunday to Miss Margaret Schemel and Miss LaVern Keetzel, who stopped there with Mrs. W. C. Keetzel and William C. Keetzel of Lyons. "Once some women came hundreds of miles to take my picture." And so she posed for the party, standing against the light of a north window as an indomitable pioneer, her face a blood-red stain within her.

TURKEYS RAISED TO DESTROY HOPPERS

Myron Colson was there from Winner, S. D., for the week-end. His family returned with him Monday. Mr. Colson has about 1,000 turkeys at his Winner hatchery. The birds are especially desired this year as they destroy grasshoppers.

BUMPS IN PAVEMENT ARE BEING REPAIRED

Bumps in the pavement, caused by intense heat, are being repaired by the city this week. New concrete is placed and the streets relaid.

City May Get Another Well

Council Discusses Plan of Increasing Facilities for Extra Pumping.

Consider Expense

Increased Demands Now Placed on Water Supply Influence Members of Group.

AT the informal meeting of council members and Mayor Orr Tuesday evening, plans were discussed for the digging of a third well to supply water for Wayne. Chris Fredrickson of Carroll, who dug the other two wells for the city, was present at the session, and stated that he would estimate the cost of digging such a well at about \$1,400.

Councilmen met Wednesday evening, but were able to take no action on the matter.

After a consideration of the water supply, the increased water consumption of the past few years, and the danger of fire, councilmen seemed to be of the opinion that another well, equipped with a new pump, is necessary to complete the waterworks here.

Consumption of water has increased enormously during the last five years, it was pointed out. Although the supply of water now available is sufficient for ordinary needs, the pumps now in use are not capable of pumping water to the surface fast enough during the hot, dry weather when so much water is being used.

To Bid on Pumps.

Bids will be received Tuesday, July 28, on a new pump which the council proposes to purchase. Last week council members in regular session discussed the placing of a new pump in one of the old wells, believing that the added pumping facilities would be sufficient, inasmuch as it can be brought to the surface with sufficient rapidity.

On further investigation, however, it was believed that Wayne would not have enough water, even with the new pump, to meet any unexpected demand, such as would be experienced, for example, in a large fire. Therefore, it was decided at the informal meeting on Tuesday to gather for a stated meeting at which to decide on a proper course of action.

The placing of a new well, and the installation of a third pump would mean, say council members, that the other two wells and their pumping apparatus would be left as they are. The new well would probably be located in the same vicinity as the other two, to facilitate their care, and to make one center for pumping operations.

It is also believed that the construction of a new well might prove an economy superior to the proposed method of adding a new pump to one of the old wells.

Married Saturday At Northern Lake

Miss Donna Sonner Becomes Bride of Louis Holmes At Point O' Pines.

Miss Donna Sonner, daughter of Mrs. Gertrude Sonner, was married to Louis A. Holmes, son of O. E. Holmes of Grand Island, Saturday morning, July 18, at Point O' Pines on "Fairy" lake in northern Minnesota.

Mr. Holmes was graduated from the Wayne high school and attended the Wayne State Teachers College two years. She received an A. B. degree from the University of California at Los Angeles and is a member of Alpha Delta Theta sorority. She taught the past year at Scottsbluff, Neb.

Mr. Holmes was graduated from the University of Nebraska and is affiliated with Kappa Sigma fraternity.

Mr. and Mrs. Holmes will reside in Washington, D. C., where the former is in government service.

Have Picnic Sunday.

The Eric Thielman family spent Sunday at Yellow Banks near Norfolk.

Board of Library Elects Officers

Important New Works of Reference Are Placed On Shelves Here.

Members of the Wayne Library Board met at the library Tuesday evening to elect D. H. Cunningham as president, Mrs. O. R. Bowen as vice-president, and Mrs. E. S. Blair as secretary. R. W. Casper will fill the unexpired term of F. G. Philoit. Committees will be appointed later.

New books on the library shelves include a six-volume set of Galtsworth, published by Scribner. The set which has a most appealing format, includes: "The Forsyte Saga," "A Modern Comedy," "Cavendish," a collection of shorter pieces; "Three Novels of Society," and "Three Novels of Love."

A complete history of mankind from the beginning is the four-volume set, "The Stream of History," published by Parsons.

For Booklovers.

Copeland's "Treasury for Booklovers" is a five-volume work containing excerpts from the best-known and best-loved authors, comprising a set which should be very useful.

One of the important new novels is Pearl S. Buck's "The Good Earth," the very graphic and beautifully written story of events in the life of a Chinese peasant who loved the land.

A surprise in the appearance of Grace S. Richmond's "Red Pepper Burns Returns," a continuation of the series so popular with the reading public since its first appearance a number of years ago.

Also on the list of books received is "The Doctor of Lonesome River" by Editor Marshall. A long list of books "set unreservedly will go on the shelves soon."

Water, of course, is the greater necessity of the two, but lights seem rather important. When one is accustomed to the convenience of touching a switch and having light or power—for instant and continuous use. The city plant is one of its own excellent patrons, realizing and needing the help of electricity, the modern servant.

In May of this year, the plant utilized a total of 2,262 KWH for light alone. For power, pumping, and so forth, they used another 3,790 KWH, bringing the total used in the plant well above the 4,267 KWH used in lighting the city streets during the month of April.

For the same month, the commercial circuit, that is, lights and power bought by users in the city amounted to 112,690. Altogether, including power used by the city plant, light used there, and light used on the street, the May total was 124,658 KWH.

Totals for April were about the same, with a commercial circuit amounting for that month to 104,850 KWH, and a total of 117,554 KWH. In June, the totals stood high this year, with 116,790 KWH purchased in the residences and business houses of the town, and a grand total of 128,936 KWH used in Wayne for the month.

That the popularity of electricity has increased, and that more users are being added all the time is shown when the record is consulted again. The peak load for the year 1929 was 133,159 KWH, made in December at the city plant. The use of lights impervious. But, on the other hand, June, 1931, when the days are longer than at any other time during the year, showed a consumption of 128,936 KWH.

In January, 1930, Wayne people "let their lights shine" to the extent of 132,332 KWH. In February of the same year, they used 111,266 KWH, and in March, 119,509 KWH. By December, 1930, Wayne was using 154,513 KWH of current, showing an encouraging gain.

Primitive folk searched hard for good drinking water, and took their baths in brooks. They struck fire from tinder of flint, or sometimes equally remote from oil, fire-making materials. But they never wanted a drink any water, no.

Funeral Services Held Here Friday

Rites for Mrs. J. G. Miller Are Conducted at Home By Rev. P. A. Davies.

Funeral services were conducted at the home in Wayne last Friday morning for Mrs. James G. Miller, 70 long resident of Wayne county, who died in an Omaha hospital Tuesday, July 14, following an operation, aged almost 59. Rev. P. A. Davies of the Presbyterian church, had charge. Interment was made in Greenwood cemetery where brief rites were conducted, the Rev. E. O. taking part.

Rev. Davies paid high tribute to deceased in every line of endeavor in which she engaged, stating that the passing of one with such talent and ability so early in life is proof of immortality. Mrs. Miller had marked talent in music. After college work here, specializing in music under E. M. C. Eszerman, she studied at and was graduated, Rock Island, Ill., and was graduate. Later she spent a year taking special pidgeon and piano instruction in Chicago. Mrs. Miller was a great reader, always interested in the best and most worthwhile literature. Her music and reading made for her a large place in literary and social activities of the city.

Mrs. T. T. Jones and Mrs. L. W. Ellis sang "Some Day" by Gabriel, at the rites Friday. Franklin Phillips played the piano accompaniment.

Palbearers were H. S. Ringland, E. A. Forbes, H. J. Felber, C. H. Fisher, A. T. Cavanaugh, J. H. Kemp, H. B. Craven and D. H. Cunningham.

Those here from a distance for the services were the following: Mrs. A. W. Stewart of Minneapolis, Minn., Mr. and Mrs. E. A. Forbes of Rhinelander, Wis., Mrs. Emma Agler and Mrs. Jerry Longnecker of Winside, Mr. and Mrs. Ray Agler of Wakefield, Mrs. Ed Magnus and Mrs. Emily Woolston of Magnet, and Mrs. L. W. Schwedhelm of Wakefield.

Frevert Family Reunion Sunday

Descendants of C. Frevert Gather at Norfolk Park For First Picnic.

The first reunion of descendants of the late Conrad Frevert, who lived at Wayne in 1864, was held Sunday at Norfolk park near Norfolk. Five of the children, Fred, Marjorie and Carl Frevert and Mrs. Ed Hageman, were present and their families. The group included 71 relatives, and 23 were unable to attend. Holding of the reunion may be made an annual affair. Games and visiting were diversion, and sumptuous dinner was served.

Those from Wayne in attendance were the following: Mr. and Mrs. Henry Frevert, Mr. and Mrs. Ernest Frevert and Ruth, Merlin and Granville, Mr. and Mrs. H. C. Barelman, Eldon, Ardath and Lois, and Mr. and Mrs. Ed Frevert, Mr. and Mrs. Herbert Frevert, Mr. and Mrs. Harvey Larsen, Mr. and Mrs. Ed Hageman, Leona Hageman, Gilbert, Nelda and Edna Baier, Mr. and Mrs. Carl Frevert, sr., Mr. and Mrs. Fred Frevert and Dolores and Marcella.

Those from other points were: Mr. and Mrs. Herman Frevert, Miss Mary Frevert, Marvin Frevert, Ferdinand and Esther, of Pilger; Mr. and Mrs. Paul Spittgerber and Harvey Allen, Roland, Dorothy, Marjorie and Evelyn of Wisner, Mr. and Mrs. Fred Frevert, sr., and George and Fred, Mr. and Mrs. Will Frevert and Vernel, Eunice, Myron, Dale and Wesley, Mr. and Mrs. Carl Frevert, jr., and Arlis, Clifton and Audrey, Mr. and Mrs. Albert Frevert and Joyce and Clarice and Mr. and Mrs. Will Krohn and Phyllis, June and Nathalie of Wausau; and Mr. and Mrs. Harris Sorensen and Delwin of Wakefield.

Supt. Taylor Has Given Out Funds

School Districts Will Get Money From State in Annual Division.

State Superintendent of Schools Taylor has finished the apportionment of the \$515,974 temporary school fund, and announced the apportionment by counties. In three counties the claims for tuition of children of army officers were disallowed, the claims amounting to \$804 of available money. Deputy State Superintendent Austin states that the money would be included in the January apportionment, which is the next semi-annual apportionment of money.

Three-fourths of the money is distributed to school districts on a basis of the school census, about 95 cents to the pupil, figured on a basis of \$386,842. The other one-fourth of the entire amount is divided equally among 6,452 Nebraska school districts. Figured on a basis of 19.98 to each district, this amount totals \$128,947.

Wayne county gets an apportionment of \$4,757. Other apportionments are as follows: Antelope county, \$6,874; Boone, \$6,499; Box Butte, \$4,299; Boyd, \$3,817; Brown, \$3,054; Burt, \$5,148; Cedar, \$7,434; Cherry, \$6,043; Colfax, \$4,591; Cuming, \$5,568; Dakota, \$3,591; Dawes, \$4,521; Dixon, \$5,427; Dodge, \$8,691; Douglas, \$5,145; Garfield, \$1,747; Greeley, \$4,153; Holt, \$8,475; Knox, \$8,978; Lancaster, \$29,427; Madison, \$8,790; Pierce, \$5,174; Platte, \$8,589; Rock,

Six From County Are In University

Four of the six students from Wayne county who have been attending the summer session at the University of Nebraska are from Wayne, according to registration figures released by the registrar. All four are men who are taking work in the graduate college. They are Earl G. Albert, Walter D. Albert, A. J. Foy Cross, who will teach in Superior this year, and F. G. Dale.

Other representatives from Wayne county are Fred Gemmill of Carroll, who is a sophomore in the college of engineering, and Miss Beatrice Cobb, who lives near Wakefield. Miss Cobb is a junior in the teachers' college and will teach in Wakefield this year.

The majority of students enrolled in the summer session are teachers who taught during the past year. Of the 2,713 registered, 687 are of this group. Those who attended school during the winter number 916, while the remaining 110 were engaged in various occupations.

Registration figures show slight increase over the number taking work at the university last summer. Most outstanding is a 23 percent increase in the graduate college, with many teachers returning to work toward advanced degrees. Those taking the six weeks' term completed their work last Friday, July 17. The nine weeks' period ends August 5.

THE KNOT-HOLE

No. 41 Wayne, Neb., Thursday, July 23, 1931. Vol. 4

Now's the time when the 'Having a fine time, wish you were here' postal cards begin to arrive, from friends on vacations.

A few days ago a farmer friend was in our office and the conversation finally drifted around to the quality of merchandise. It was stated that the pure food laws protect the purchaser of foods because the law requires that the manufacturer must label the can showing the net contents and the quality, but said our farmer friend, 'When I buy a suit of clothes I can't tell what I'm getting and when I come in here and buy a 2x4 I don't know what kind of wood it is or what grade it is.' 'Hold on there,' said we as we handed him a 4-Square 2x4. 'Read what it says on both ends of this 2x4. He read "Warranted made of Douglas Fir. Number one grade. Weyerhaeuser." That a farmer friend now knows that he can buy 4-Square forest products with the full assurance that no substitutions of grade can be put over on him.

If we could operate our business in a tent out on some country road, we could cut our overhead considerably. But would you like to trade in a place like that?

Loyal people, those Californians. One of them recently went to Florida when his doctor told him he had but six months to live.

If you have any plans for business expansion, this is certainly the time to carry those plans through. We're on the up-grade. Prices are at their lowest ebb.

Remember that here is the place to get good cedar posts at 15c.

We are pleased to note that several Wayne people are taking advantage of present low building costs. In a very short time some are going to be heard to say, 'What a chump I was not to have built in 1931.'

Carl Lueders is a mighty fast work-man everybody knows, but last week he had three hay racks to build and so many repair jobs came in we had to put on two extra carpenters part time to get the work done when promised.

Are you waiting until better times to paint those buildings? Then you'll have a long wait. Now is the time. Paint is low, labor is plentiful — paint now!

Uncle Andy Mellon is reported to have received the following letter recently: 'I have received your application, but as I already belong to several orders I do not care to join your income tax at this time.'

We know a man who makes a practice of painting all his farm buildings every four or five years. It is a mighty good plan. We can

THE WAYNE HERALD

E. W. Huse, Editor and Proprietor. The Oldest Established Paper in Wayne County. Published Every Thursday.

Subscription, \$2.00 Per Year in Advance. Entered at the postoffice at Wayne, Nebraska, as Second Class Mail Matter in 1886 under the act of March 3, 1879.

Townley A. C. TOWNLEY who passed out of sight following collapse of his non-partisan league scheme several years ago, has come to the surface again, evidently in the hope of gaining personal prestige or advantage from the depression.

The time is ripe for organizers who instead of trying to quiet the disturbed waters till the storm is passed are preaching a doctrine of dissatisfaction and in order to further their own interests do so by attempting to make people more unhappy and dissatisfied.

An Abused Privilege THE prevailing policy that "the customer is always right," is abused by some customers according to an article in a current magazine.

For yielding to improper influences in his decisions as magistrate of the women's court of New York City, Jesse Silberman has been summarily removed from the bench.

Noting modern conditions and habits, the editor of the Omaha Journal-Stockman makes this observation: "Another change we have noted of late years with more or less misgivings.

Tribune, and president of the Nebraska Press Association, is accounted for on no good ground, and an abnormal state of mind would seem to have been the only cause.

The problem of preserving the supply of golf balls has been solved. The Christian science Monitor explains: "All the golfer has to do is to raise a flock of white butterflies."

Droth in Montana and Wyoming is sending feeders into fortunate fields of Nebraska, and prices for the animals are said to be low.

The annual fair will be the next big attraction in Wayne county. Copies of the premium list will soon be ready for distribution.

Aid to Germany is pointed out by national leaders as necessary to keep the country free from the control of communists.

The new trucking law goes into effect August 2, and it requires that each trucker who conveys livestock, must carry a permit describing the shipment and showing the authority of the owner.

Following Wayne's semicentennial sendoff, the next important celebration will be that of George Washington's bicentennial birthday.

Educating Against Accidents. (Sioux City Journal) The consensus of psychologists, traffic experts, manufacturers of motor cars and law enforcement officers is that the best way to reduce the automobile death toll is through educating the general public to be careful on the streets and highways.

If the newspapers of the country would turn the spotlight day after day upon automobile accidents, they might be able to attract the public's attention to the fact not only of the enormous and unnecessary toll of human life but of the hazards faced by every individual who gets behind the wheel of a motor car.

The suggestion is made that local traffic accidents that result in death or injury be given prominent display in newspapers throughout the country.

The best advice any driver could be given is "watch the other fellow." There is no safety in a driver going halfway in the matter of responsibility in traffic.

Omaha Journal-Stockman: Some of the insurgents are now suggesting the cultivation of grasshoppers as a cure for overproduction.

SENTIMENT. Persons bearing an excess of sentiment suffer distress little understood by those who are stolid and comparatively insensible.

Eggs are used in some parts of Armenia instead of money. But doubtful currency is not, of course, tested by hanging it on the counter.

Our idea of a belated improvement is the invention of welded-steel-frame houses contemporaneous with a steady decline in the number of children.

It's all right to rejoice internationally about the debt-holiday, but don't forget there will still be the holiday-debt to worry about before the summer is over.

Bureau of Navigation issues an order that canoes out in the moonlight in navigable waters must be equipped with proper lights.

Thursday picnic guests at the Herbert Green home were Mrs. Kay, Miss Anna Kay, Miss Vena Green, Mrs. Mary Green, Joe Allen and Bobby Green, Mr. and Mrs. A. C. Bichel, Mrs. Lloyd Conger of Sioux City, Miss Grace Long of Los Angeles. The affair was planned to compliment Herbert Green and Margaret Bichel on the occasion of their birthdays.

Picnic for Sixty.
Sixty guests enjoyed a picnic at the park Thursday to honor Mrs. H. A. Cole of Sioux Falls, S. D., and Miss Grace Long of Los Angeles. Hostesses at the affair, which was most informal, were Mrs. Frank Watson, Mrs. T. C. Hyspe, Mrs. V. H. R. Hanson and Miss Vena Green. At the close of the time, light refreshments were served. Out-of-town guests were Mrs. Mary Corham of Tulare, Calif., and Mrs. R. R. Larson of Wayne.

For B. G. Lehman.
In birthday compliment to R. G. Lehman, a picnic gathering was held at Wakefield park Sunday. Guests at supper during the evening included the following: Mr. and Mrs. Charles Nelson and son, Earl, of Concord, Mr. and Mrs. Nelson, Mr. and Mrs. Sundell, Mr. and Mrs. Herman Lehman and son, Elmer, of Dixon, Mr. and Mrs. Herman Johnson and son, Harold, Mrs. Fred Notte and son, Delbert, Mr. and Mrs. Henry Pohlenkamp, Mr. and Mrs. Oscar Anderson and Eleanor and the Anderson's daughter-in-law, Mrs. Anderson and Mr. and Mrs. Fred Lehman.

Wakefield Man Wins In Match
Eighty Entries Listed From Northeast Nebraska at Golf Meet on Sunday.
Walter Johnson of Wakefield won the first flight in the invitation golf tournament in which there were 80 entries Sunday. The match was played on the Wakefield course, with Johnson matched against Al Dowling of Madison in a very close contest which was not won until the ninth hole was played. Spectators commented on the championship possibilities of young Dowling, who is only 18 years of age.

Entries were as follows: Allen, one; Norfolk, one; Newman Grove, three; Oakland, three; Sioux City, three; Omaha, four; Wausa, three; Hartington, four; Randolph, four; Emerson, four; Wisner, five; Columbus, five; Madison, six; Pierce, one; Wayne, 14; Wakefield, 19. Ten flights of eight each were played. Qualifying scores were in the forties, for the most part, because of the number of hazards.

Former Second Army Head Applauds Scout Program; Sees No Military Analogy.

Gen. Robert Lee Bullard "A Girl Scout wears a uniform, and so does a soldier, but so does a trained nurse, too. Personally, I can see more in common between the qualities essential in a nurse and a soldier than in those of a soldier and a Girl Scout."

Minor accidents will happen on the best regulated luke, but they have no terrors for the Girl Scout, who, living up to her creed, is "prepared" to meet emergencies with her first-aid kit.

To Perform at Nebraska State Fair

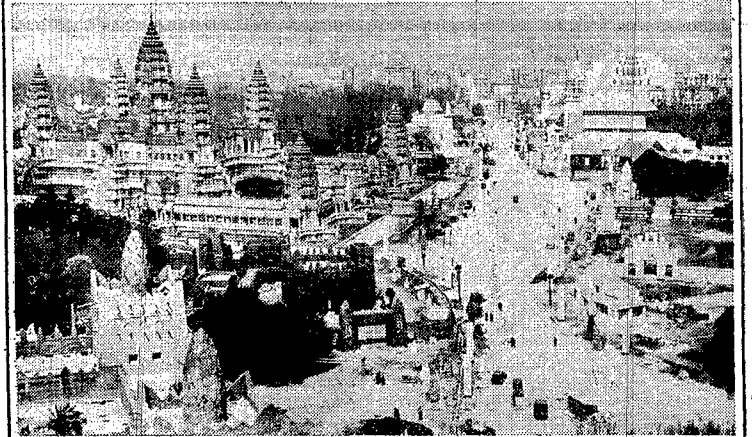

Remarkable action for a draft horse is exemplified in this new member of the famous Chicago Stock Yard six-horse team. Bred by Iowa State College, he was secured by the Chicago Stock Yard after his winning of the reserve gelding championship at the International Live Stock Exposition last December. Although only four years old, he tips the scales at 1900 pounds. He is a purebred Cleveland, a breed famous for its size, color contrasts, and flashy action.

Chicago Stock Yard Six-in-Hand as They Will Appear at the Nebraska State Fair

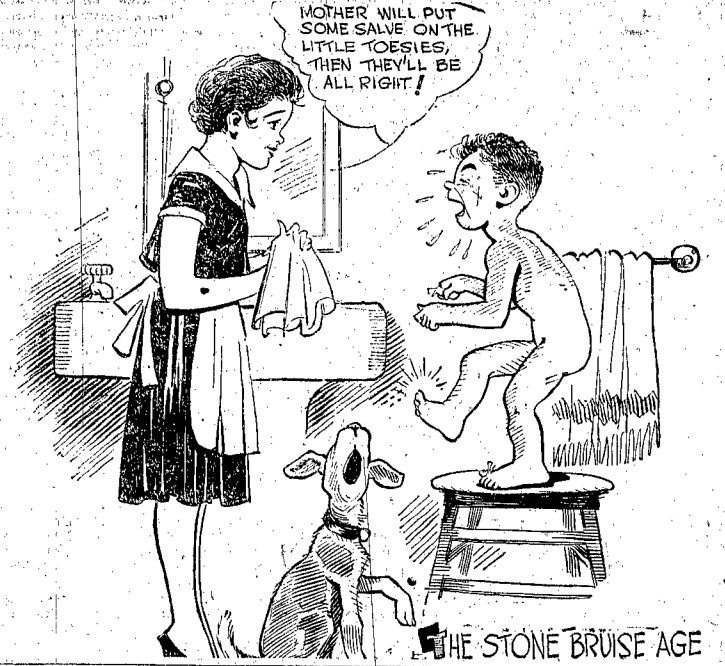

Lincoln—Nebraska farm and city folks will again be treated to the thrilling performances and spectacular maneuvers of this well-known six-in-hand of ton weight draft horses during the Nebraska State Fair, September 4 to 11, according to Secretary George Jackson. Billy Wales, who has become a familiar figure to Nebraska State Fair visitors by his skill in putting these massive horses through their complicated paces, will again appear in the driver's box. By winning the blue ribbon in the International Live Stock Exposition six-horse team competition last fall, where they were matched with the leading six-in-hands of the country, the Chicago Stock Yard team won the honor of being the national champion exhibition draft horse sextet for the present year.

Eating Is Reduced to Smaller Scale at French International Exposition

A general view of the scene of the French International Colonial Exhibition, showing some of the realistic exhibits created for the exhibition.

The art of eating has undergone many changes during the past 50 years, but perhaps the most notable from the point of view of the caterer is that today people do not want to eat in large places or eat together in great numbers, according to Albert Delahaye, director of Potel et Chabot, famous Paris restaurant which has made history in its service. There are close to 200 eating places at the International Colonial Exposition at Paris, but the majority are small and not one could take care of the customers who would sit together at former French expositions. A few hundreds would be a good crowd for dinner at the Potel et Chabot restaurant in the Indo China section, whereas during the exposition of 1900 this house served 22,695 persons at a lunch, all eating at the same time. "The small restaurant is in keeping with the spirit of the times," explained Delahaye. "It is just as easy to serve large numbers, but people now want to feel a more intimate atmosphere in a restaurant. Just as the many and varied courses of the old days, comprising a dinner that would now be considered a disgraceful orgy, have dwindled to a few and with portions small, the size of the restaurant has been cut down. The changed condition recalls the famous feast of the last great exposition in France which still is talked about as the largest ever held in the history of the world. It was served within a period of one hour and 25 minutes on Sept. 22, 1900, and was known as the Banquet of the Mayors of France. The notes said plans for the banquet, made by M. Legrand, then director of Potel and Chabot, are still in the archives of the house. The lunch was arranged for 25,000 plates and was given in keeping with the spirit of the times. Three thousand workers, of which 2150 were waiters, were employed in the task of cooking and serving. The tables, covered by tents, covered five miles, and in addition there were 1100 side tables used in connection with the service. The table cloths and napkins together measured close to 24 miles in length. The feast was a 10-course luncheon and 44,000 bottles of wine were served. There were 95,000 large plates, 30,000 desert plates, 25,000 glasses of four sizes, 60,000 knives, 55,000 forks, 55,000 spoons and 2000 packages of toothpicks. After the official function was completed and the guests had departed, another 3500 persons were served, including the musical corps of the Garde Republicaine, the artists of the opera and the police and firemen on duty. There is no demand for such a feast today, said Delahaye. Of late years the largest number to be served at one time comes under 3000.

THE STONE BRUISE AGE IN THE WORLD OF SPORTS

TENNESSEE HAS TAKEN UP STUDY OF RED SOX AND YANKEE BOX SCORES. THE REASON IS EARL W. WEBB AND WILLIAM BEN CHAPMAN

BY PHILIP MARTIN

If you should ask me to name the most improved baseball players in the major leagues this year, I should have to place near the top of the list Earl W. Webb of the Boston Red Sox and William Ben Chapman of the New York Yankees. Success has come to this Tennessee pair in a big way. Webb is nearing 32, a veteran in baseball experience but a youth in American League chronicles. Chapman is not yet 23 years old. Both are stars of the highest degree.

From Ravenscroft, Tenn., came Earl to a life of baseball. He launched his career in Memphis where he caught on as a pitcher in 1920. From the Southern Association he moved to the Mississippi State League, to the Southern, to the Eastern, to the American Association and eventually to the National League where he was considered not good enough as an outfielder to stick with the New York Giants. Earl then moved back to the Southern Association in 1928, but his murderous punch with the bat soon attracted a Wrigley scout and he was bought by the Chicago Cubs.

Webb played two years with the Cubs, batting .302 in 102 games in 1927 and .250 in 62 games in 1928. That wasn't good enough, so Earl traveled clear out to Los Angeles to play with the Angels in the Coast circuit. But not for long. Earl showed them that 235 hits for an average of .357 in 183 games was big league talent. The Red Sox spotted his average and bought him. He paid dividends last season by blasting the ball for a .323 average in 127 American League games. But look where big Earl is now.

garden in acceptable style. He's leading the major leagues in the production of two-base wallops. In short, he's the punch Boston has been looking for since that generous moment in 1919 when the Red Sox sold Babe Ruth to the New York Yankees.

Now three cheers for Ben Chapman. He arrived as a Christmas present to Father and Mother Chapman in Nashville in 1908. They probably planned his career in medicine or law or business, much as all mothers and fathers do, but Ben early announced that he was to be a ball player.

Young Chapman's first job in organized baseball was with Asheville in the South Atlantic League. He played shortstop and batted .336. This fine work brought a promotion to St. Paul in the American Association. He played third base and again hit .336. And then the Yankees brought him in.

Last season was Ben's first under the big tent. He wasn't a failure, but then he wasn't a howling success either. Playing third and second in 138 games he batted .316, a pretty good average for a first year man. But look at him go now. He's an outfielder, playing along side of the great Babe Ruth and the fast Earl Combs. And speaking of speed, watch Ben's smoke.

He has been hitting around the .320 mark all season with plenty of extra base wallops. On the bases there has been no stopping him. Ben may be the only major leaguer to steal 30 bases this season. He has that many thefts now—and the schedule is hardly more than half completed.

Missouri Neighbors Born 118 Years Ago Talk Over "Good Old Times"

WHEN an 118-year-old Missouri farmer goes to visit his 118-year-old neighbor, what do they talk about?

The question was answered recently when a listener-in found Thomas N. Kemp, born in Carroll county, Tennessee, Sept. 10, 1812, chatting with Benjamin Hodge, who was born Dec. 23, 1812, in England. The chat was on the doorstep of the Hodge cabin near Poplar Bluff, Mo., and they talked of droughts, crops and the weather.

Never a word about the moratorium or the possibilities of auto-giro navigation did these old men utter. When conversation drifted away from present-day problems, they talked of the world as it was 100 years ago—a time that both remember clearly.

For more than 50 years "Uncle Tommy" Kemp and "Uncle Ben" Hodge had lived within 15 miles of each other. Each had been hearing for years about the other but it was not until a recent Sunday afternoon that a relative cranked up his small motor car and took Uncle Tommy over to see Uncle Ben.

"Glad to meet you," said the younger 118-year-old man to the other. "I've been hearing about you being a few months older than I."

"And I'm glad to see you, too," was the reply. "I've been curious to see the man that they said had lived almost as long as I have."

And then each told the other about his birthplace and his boyhood.

Thomas N. Kemp, above, although 118 years old, still chops wood. Benjamin Hodge, insert, who is the same age, cuts weeds for exercise.

as they once did. "Until two years ago I could see to hit a bird with a rifle 50 yards away," said Uncle Tommy. "Now I can't hardly see at all at night." And Uncle Ben added that he, too, had been going to bed with the chickens recently since walking after dark has become risky. Mr. Kemp lives most of the time now with a granddaughter and her family. However, he still puts out a garden. Mr. Hodge continues to live in his own log cabin and to cultivate a small piece of ground, but most of the hoeing these days has to be done by grandsons who come to visit him. Despite the less efficient eyesight, neither of the aged men wears glasses. "Too old to get used to 'em," remarked one and the other nodded affirmation. "Youngsters, and old folks too, are different these days from those of 100 years ago," opined Uncle Ben Hodge to the third person at the meeting. "Now Uncle Tommy and I remember, when we were boys."

The Prairie. Omaha World-Herald: Nebraska is the place for vacationing. Nebraska is the Rockies. Among the high plateaus of its ridges and peaks, with granite walls surrounding one, rest is sought, from the daily toil. It may be that the magnificent peaks of the Tetons attract. It may be that the impressive ridges of Yellowstone call. It may be that the lovely recesses of Spearfish canyon lure. The Nebraskan takes his trip, and gazes, in wonderment, at the mountains. He is humbled by the strength of nature. He is in the midst again of his own prairie land. Then if he be a true Nebraskan, if his blood and his spirit belong on the plains, he will know a happiness that his vacation has not brought him. For he will find in the swelling prairies, with their rustling corn, their yellowing grain, their deep green alfalfa, their cows and pigs and farmsteads a beauty that no mountain can hold. He will recognize that only when land is smiling so, as the crops that sustain man spring from the earth's breast, are nature and mankind in tune with each other. The mountains are grand to look at—and more, on the prairie is the place to live. It was an essentially greedy call that drew the gold-seekers of the east across the western prairies eighty years ago. Those who first answered that call felt the primitive hope of quick riches, something for nothing, or at least, something gained for little given. They pressed on, hastily. Others, however, stopped here. They felt the call of the prairie. They saw this vast land and they loved it so much that they were willing to give up their hopes for quick riches, in order to stay and toil. They wanted to live here and till the soil and make things grow and produce food for man. They wanted to know the satisfaction of surveying broad acres. They were willing to dare the hazards of hot winds, destroying grasshoppers, killing drought, with the certainty that whatever they sown would come slowly, if only they could stay here and live where man and nature were one. They chose the hard road, those pioneers, and the men who have come after them know the hard road too; but they chose the happy road. To the true Nebraskan, there is no beauty like that of the prairie. There is no scene on any mountain that can match the vistas reaching before the eyes of him who surveys fertile land, producing crops, teaming life. Fields whose colors come from grain; whose limits are marked by trees; whose water comes from peaceful streams—these win the heart of the son of the prairie.

Hartington Gets Change On Lights

Hartington city council has just granted a 25-year franchise to the Hartington Power Co., superseding the franchise of the Hartington Electric Co., which still had a score of years to run. The new franchise will also supersede that which was once granted to the Cedar Light and Power Co., and which would have had 15 years to run.

For five years, various electric light interests have fought for supremacy in Hartington, and five local plants have been absorbed by the high line within the last two-year period alone. The fight began with an effort to get lower light rates than the 14 cent top rate which was charged at that time. The high line company in

operation at that time refused to grant lower rates, so Heber Ford and his interests erected a new \$130,000 plant. After the high line plant was completed and had been placed in operation, the high line company cut off its local distribution system and organized the Cedar Light and Power company to operate the plant. The rate was cut, at that time, to six cents per kWh.

Mrs. Mary Surber Dies In Lincoln

Word has been received of the death last week of Mrs. Mary D. Surber at her home in Lincoln. Mrs. Surber, who was 78 years old at the time of her demise, had made her home in Lincoln for seven years, but before that time, she

 The Union service will be held in the Presbyterian church at 8:00 p. m.
 Ladies' Aid this Thursday afternoon at the church.
 The Women's Missionary society will meet with Mrs. E. J. Fiosser the last Wednesday in July.

Christian Science Society.
 410 Main.
 July 26:
 Services at 11 a. m. Subject: "Truth." Golden text: Zech. 8:3.
 The public is cordially invited.
 The subject of the lesson-sermon read at all Christian Science churches and societies on Sunday, July 19, was "Life." Biblical citations were read to show that God is Life, and since there is but one God there can be but one Life, which is reflected by spiritual creation. The selections read show that God is not in matter, and that man's existence is dependent on God and not on any material thing. One citation read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 288), is as follows: "The chief stones in the temple of Christian Science are to be found in the following postulates: that Life is God, good, and not evil; that Soul is sinless, not to be found in the body; that Spirit is not and cannot be materialized; that Life is not subject to death; that the spiritual real man has no birth, no material life, and no death." One selection read from the Bible is in part as follows: "He that hath the Son hath life; and he that hath not the Son of God hath not life." (1 John 5:12).

First Baptist Church.
 (Rev. Wm. E. Braisted, Minister)
 Res. 608 Logan St., phone 309J.
 Sunday, July 26, 1931.
 The pastor hopes to be back! If not, Dr. J. G. W. Lewis will have charge of the meetings, S.S. class and worship period, speaking the message. And it will be a good one if he does.
 10:00 a. m., the church Sunday school, with cordial welcome to all. Make it a record attendance. Hot or cold we live and die. Let's prepare for both.
 11:00 a. m., the worship, special music, and vitas me no matter who brings it. We come to worship and learn and get inspiration. Come in that spirit and God will bless speaker and hearers.
 6:30 p. m., the young people will meet as usual for fellowship, study, discussion of a trial topic with their own leader. Tried it? Welcome to all young people.
 8:00 p. m., the union meeting at the Presbyterian church. It was voted to unite through July. Whether to go on will likely depend on what these so far have really meant; whether our own people have attended as well as at their own church, or have played hookie. Which is it?

8:00 p. m., Wednesday, the life enrichment hour. Miss Axford will be the interesting, helpful leader. Bring your best and help.

Presbyterian Church.
 (Rev. P. A. Davies, pastor)
 Services for next Sunday are at the following hours: Sunday school 10 a. m.; morning worship, 11; Young people and intermediate, C. E. services, 6:30 p. m.; Union evening service at our church at 8, with Rev. H. A. Teckhaus bringing the message.
 We were privileged to hear Richard Pinkham in a beautiful solo Sunday morning. Mrs. R. W. Casper will sing for us next Sunday.

Mrs. P. A. Davies had charge of the C. E. services last Sunday night. And our four delegates, Harry Kemp, James Davies, Mary Ellen Gulliver and Jessie Hanson, brought us most interesting reports. All four plan to attend the conference next year. A number

of others also state that they are going.
 Next Saturday evening the young people's C. E. society will serve ice cream and cake on the church lawn. We urge our people to come for our young people are worthy of your support and socially these are worthwhile occasions.

Next Sunday may be the last before the pastor and his family take their vacation. We have not fully made our plans but the month of August is the time given for vacation.
 The intermediates are grateful for the fine support they received at their ice cream social last Saturday night. They made considerable more than enough to pay their \$10 missionary apportionment.
 The pastor and his family spent Tuesday at Norfolk picnicking with a number of other minister families of our Presbytery. Some of the time was spent in making plans for the next meeting of Presbytery.

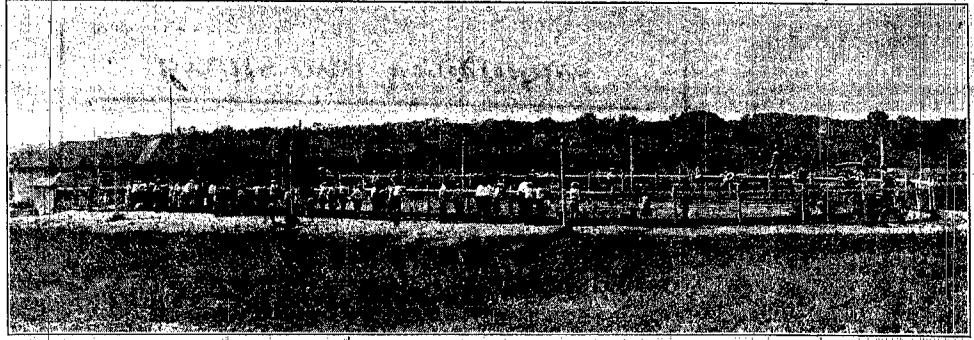

Father Kearns Has Children's School
 Fifty children from Wayne, Carroll and Winside are enrolled in Father William Kearns' religious instruction class which meets at the high school from 8:30 in the morning to 3 o'clock in the afternoon. Father Kearns is assisted in the work by two Sisters of Mercy from Omaha, Sister Ed-

mund, and Sister Anna Marie. The former is Loretta Croghan, a graduate of Wayne high school and the college here, and the latter is a daughter of Frank Thielman.
 Classes began July 6 and will continue until the first of August. The children are not being prepared directly for confirmation, and no

confirmation service will follow the term of instruction. The lessons are in daily conduct, and in catechetical matters.

Kicks Of Animals Cause Accidents

Casualties on Fourth Are Heavier Than Year Ago In This State.

Accident statistics as compiled by the Nebraska Press Association and the rehabilitation division of the state department of vocational education for the two-week period ending July 14, 1931, are as follows:

No. of Accidents	Inj.	Dis.	Total
Motor vehicle accidents	225	298	1,309
Other public accidents	116	112	10,122
Agriculture accidents	71	2	73
Industry—employment	32	32	33
Home accidents	73	72	75
TOTAL	527	586	26,612

Of the 586 persons injured, 26 suffered permanent disabilities.

In agricultural accidents, the major causes were: kicks from horses and cows, 12; sunaways, 9; other animal accidents, 11; tractors, 6; binders, 5; stackers, 2 and other farm machinery, 19.

Industrial accident causes were: Explosions, 8; falling or flying objects, 8; power machinery, 8 and electric shock, 1.

Home accident causes were: Falls from cherry trees, 7; falls on steps or stairs, 3; falls from other elevations, 13; other falls, 22.

Burns and scalds injured 11 persons and 5 others had hands crushed and bruised in electric wiring.

Short accident causes were: Baseball, one death and six injuries; golf, one injury; swimming, 6 deaths and 2 injuries; riding, 1 injury and 2 injuries; 1 gunshot accident caused 2 injuries and 1 disability.

Fireworks and firecrackers caused 39 injuries. This is an increase of 10 accidents over last year's independence day casualties.

Motor vehicle report for two-week period ending July 14, 1931.

No. of Accidents	Inj.	Dis.	Total
Skids	25	1	50
Tire blowouts	14	14	14
Mechanical defect	4	4	4
Losses Control	21	1	35
Speed	12	1	22
Passing car struck car	8	8	8

Driver asleep	3	3	3
Driver ill	3	3	3
Passing signals and highway markers	3	3	3
No lights	10	10	10
Blinding lights	7	7	7
Reckless driving	24	1	24
Railroad crossing	1	1	24
Miscellaneous	28	1	24
Aviation	1	3	0
TOTAL	238	11	298

There have been 23 trucks involved in accidents in Nebraska during the last two weeks. Excessive speed, loss of control and skids caused 4 of these. Two drivers were charged with reckless driving. Trucks struck two pedestrians and were involved in 3 collisions. One driver was ill and 3 fell asleep at the wheel. The length of time these men had been on the road is unknown.

Home, industrial and agricultural accidents each show decrease compared with the last half of June. Motor vehicle and other public accidents are on the increase.

If the hot weather and open roads continue for next two weeks, auto accidents in Nebraska probably will cause approximately 350 casualties with fatal results for 25 to 30 persons. Of the hit-and-run drivers, 7 drove passenger cars and 2 drove trucks. Eleven persons were injured while cranking cars.

Accident casualties since January 1, 1931:

Inj.	Dis.	Total	
Motor vehicle accidents	274	91	138,2973
Other public accidents	798	28	63,889

Town Tattler Told All News

Brief Topics Treated in Gay Fashion by Journalists of the Early Nineties.

It sounds like a recent innovation, but the "Town Tattler" in Wayne was a creation that belonged to the Gay Nineties. The Herald of July 24, 1890 carried a portion of a column devoted to the saucy gossip of the Tattler, which is almost as amusing today as it must have been in those early days of Wayne county journalism.

"What the Town Tattler has noticed," begins the column, and whispers confidentially into the Public Ear.

"That most of the walks on the side streets are badly out of repair and will need attention at once.

"That if Wayne would become a first-class town she must add to her improvements a fire proof court house, first-class water works and a creditable opera hall.

"That now is the time to make these improvements and direct capital and immigration to our beautiful city.

"That those who oppose public improvements, promote private selfishness.

"That the late rains have benefited the people of Wayne county to an extent that cannot be estimated in dollars and cents and proves beyond a doubt that this is a favored portion of the mortal vineyard.

"That the water hole near Peavey's grain office is an unnecessary evil and should be blotted out forever.

"That Wayne has many bright prospects, and that if she gets a 'hustle on her,' she can become the leading city of northeast Nebraska.

That there are too many dogs

around town and that a judicious use of the shotgun would prove a blessing in disguise.

"That the old lumber yard west of the old Commercial House presents an unsightly appearance, and old 'Father Time' should loan the city dad's scythe long enough to level the crop of weeds that adorn its surface.

"That the festive little fly and his lively cousin, the audacious musketeer, have made their appearance, bringing their families with them. They say they have come to spend the season in Wayne, and that all old scores must be settled without delay. Al-

though there is much kicking when they present their bills, yet they never get discouraged, and each morning and evening finds them on with reinforcements and renewed energy, the one performing a waltz on the apex of your bald cranium, and the other, sinking his swordlike proboscis deep into the small of your back, just where you can't reach him, and drinking in the last drop of your life's blood in calm serenity, while, in mad frenzy, you perform the gyrations of a jumping jack, praying the good Father above to end your miserable existence or smash that steaker. Yes, surely, they have

some, and man mourneth in sackcloth and ashes."

State Association For Development

Marketing of Resources for Better Advantage Is One of Aims.

The Nebraska association, recently formed with headquarters at Lincoln, has for its purpose the making of a greater state. A permanent organization is to be ef-

ected at the time of the state fair in September. To improve conditions in Nebraska, to develop resources, to encourage industrial activities and other means of making a better state will be outlined in the program drawn up at that time.

Well-posted Nebraskans know that this state produces a bigger volume of a greater number and wider variety of the surplus commodities of agriculture than any other state in the union. This list of bulk commodities includes alfalfa, barley, butter, cattle, cheese, corn, eggs, hay, hides, hogs, honey,

potatoes, poultry, rye, seeds, sheep, sugar, wheat and wool.

The association is concerned with the best way to market these bulk products. Should they be placed on the market at whatever price the market will pay or should they be converted into finished products of commerce and command a greater return? The Nebraska association's answer is that it is time to adopt a program for industrial development based on Nebraska's wonderful agricultural and other resources. Penn P. Fasora, executive secretary of the association, gives the following reasons in support of the proposed

industrial program: First, that it will make better home markets for Nebraska products; second, it will build better payrolls for Nebraska workers; third, it will keep here profits for Nebraska capital and management; fourth, it will increase the number of Nebraska taxpayers to bear the costs of government; fifth, it will assure a more stable and more profitable market for Nebraska quality products.

The new organization is strictly non-political and non-profit and is interested in the further development of each of Nebraska's communities.

ONEARTH MAMMOTH

Fossils at Ainsworth.

Ainsworth, Neb. — Nebraska's sandhills recently yielded another big discovery conclusive of the presence of mammoths upon its plains hundreds of years ago.

The latest discovery was made by M. F. Skinner and his assistant, Ralph Meffer, both of Ainsworth, who have been conducting subterranean explorations for the American Museum of Natural History at New York.

It consists of a skull and jaws, with some of the skeleton of another of the strange long jawed fossil elephants in this region.

Slightly different than previous specimens, this discovery is of a rather small type of mammoth. The skull, including the tusks, only measures 4 feet 6 inches long, and about two feet wide. The lower jaw strangely, only lacked two inches of being as long as the skull with its tusks. The jaw had two small tusks in the end of it, each about five inches long.

This, scientists have said, gives the species the title, "the four-tusked elephant."

The skull has three grinding teeth on each side, with a grinding surface about three inches wide and 17 inches long. Indicative, its discoverers say, that its ability to handle food was of no small proportions.

The fossil was found on the E. H. Beller ranch, north of Ainsworth. It will make up part of a shipment of 1,500 pounds of fos-

and family, Mr. and Mrs. A. J. Kirwan and family, the two families last named coming from Sioux City for the day.

Mr. and Mrs. Albin Carlson were last week Sunday dinner and supper guests at the Carl Gunnarson home at Concord. Other guests were Mr. and Mrs. Harold Gunnarson and Clarence Dehlquist. In the afternoon the group attended the Free Mission church program.

Enjoy Picnic Sunday.

Members of the Ladies' Aid of Rev. Doctor's church and their families enjoyed a picnic at the church at noon Sunday. Games and informal entertainment were diversion for the afternoon. Arrangements were made by committees.

May Protect Birds to Eradicate Pests

Lincoln, Neb. — Closing of the open season on pheasants in Nebraska counties as an aid in the war on grasshoppers is advocated by Deputy Secretary Dwight Felton of the state department of agriculture; it hunters do not kill the birds this fall they will eat many of the hoppers this fall and next year, he believes.

One Custer county farmer accidentally hit a young pheasant on the highway and opened his crop. It had in it 17 grasshoppers, one cricket and a quantity of alfalfa.

Frank B. O'Connell, head of the state game, parks and forestation commission, said the commission would be willing to co-operate in closing the pheasant season if

counties wish. He said it was up to individual counties. Twenty-three counties held open season on pheasants last year. O'Connell estimated the number of pheasants killed last year at 150,000.

The latest report of grasshopper pests from Dodge county, where County Agent M. C. Townsend requested information as to method of obtaining state aid. Considerable damage to crops in that county is reported, but Townsend said it was unlikely the county would have to ask state aid.

Custer county has recently been granted \$600 state aid by Gov. Bryan to war on the grasshoppers.

A social leader says people are fonder of their homes than ever before. Maybe he believes in that old saw about absence making the heart grow fonder. — Thomaston (Ga.) Times.

Home Tried Recipes

Uncooked Dressing. 1 cup vinegar, 1 can Eagle Brand milk, 2 eggs. Mix the milk and the eggs, stir in the vinegar, and your dressing is done. Fancy Teacakes. (Mrs. C. A. Chace, Wayne) 1 3/4 cup pastry flour, 1 cup sugar, 2 eggs, 1 cup sour cream, 1/2 teaspoon soda, 1 teaspoon baking powder, 1 teaspoon salt, 1 teaspoon vanilla. Beat the yolks of the eggs, add the sugar and cream and beat until foamy, using a rotary beater. Add the flour, into which have been sifted the other dry ingredients, and add the white of the eggs. For a fancy dessert, make small tea cakes by this recipe, placing ice cream between two of the cakes and covering the dessert with butterscotch sauce, the recipe for which is also printed in this column. The cake is good baked in thin sheets and used with fruit and cream as a short cake. Butterscotch Sauce. (Mrs. C. A. Chace, Wayne) 1 cup brown sugar, 1 cup white sugar, 2 rounding tablespoons butter, 1 rounding teaspoon of flour. Cream may be used and a pinch of salt, to substitute for the butter. Boil the mixture and serve over teacakes. Dessert. (Mrs. C. A. Chace, Wayne) 27 marshmallows, 8 1/2 cup of water. Put the marshmallows and the water over the fire, stirring constantly until the marshmallows are melted. Add the juice of one medium sized lemon and one cup of whipping cream, which has not been whipped. Pic into sherbet glasses and chill several hours before serving. This dessert is not to be frozen, merely chilled. Chopped almonds or candied fruits make a nice garnish.

Comedian Brings Laughs to Screen

Romance, as it lives and flourishes in the grimy sawdust of side shows—in the patched, poverty ridden interior of a medicine man's home on wheels! And laughs as they come in the supreme essence of humor—sublime laughs from pathos' depths—giddy laughs from sheer ridiculousness—booming laughs from hilarious situations! That, in spirit, is Radio Pictures' "Everything's Rosie," at the Gay theatre, Sunday, and Monday, July 26 and 27, starring Robert Woolsey. Woolsey soars to far higher comedy in this production even than he did with Bert Wheeler in their string of successes, "The Cuckoos," "Half Shot at Sunrise," "Hook, Line and Sinker," and "Cracked Nuts." As the faker who sells "Dreko" which cures everything from love to rheumatism; as the petty crook with the great heart who adopts a helpless, abused waif and raises her to a creature of grace and beauty; as the auctioneer who sells "Big Bens" for "27 Jewell Swiss Movement," Woolsey spills wisecracks with more than his accustomed speed, yet finds opportunity to give some excellent sympathetic acting that lends a depth of pathos as effective as it is surprising. Radio Pictures has found a new Robert Woolsey in this production.

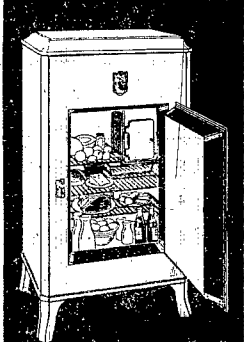

Grasshopper Report of Nearby Counties

Grasshoppers, more numerous than usual this summer, have not become a menace in Wayne county. It is thought the early and open winter are responsible for large numbers. Pheasants are found very helpful in destroying the pests. Cumming county reports the number of hoppers normal and damage slight. No serious damage has been caused by the pests in Thurston county. Dixon county board was investigating damage in northwestern parts of that section last week to see if aid is necessary. Eighty sacks of poison were distributed to farmers in Knox county to fight grasshoppers. Officials and farmers are cooperating in Cedar county to control pests before they become a menace. Infestation is worst in the north section. Some fields are damaged and others not touched. Poison has been distributed. Parts of Madison and Stanton county are infested but not seriously. IN THE WORLD OF SPORTS

WHITE SOX AND TIGERS DEMONSTRATE OLD THEORY THAT AS STAR GOES, WHETHER GOOD OR BAD, SO GOES THE TEAM

BY PHILIP MARTIN

BASEBALL probably never will reach the point where a team can be dominated by one player, yet there have been two striking examples in the American League this year where teams have fallen flat when their star performers were out of the game. I refer to the Chicago White Sox and the Detroit Tigers, pre-season choices to fight their way into the first division.

You perhaps have heard the common saying that "as Babe Ruth goes, so go the Yankees." This saying may or may not be true in all cases, but there is every indication that the current White Sox team is no better than Ted Lyons, their 1930 pitching ace. And the same goes for the Tigers and their once phenomenal young second baseman, Charley Gehring.

Lyons and Gehring have enacted the great American tragedy this season. Both have been on the shelf with sore arms during much of the campaign.

The tall Sox finger was one of the three best pitchers in baseball a year ago. Some fans will argue that he was the best, discounting Lefty Grove's more impressive record because he toiled for a stronger club.

Gehring was voted the outstanding second baseman in the majors in 1929 and was by far the best in the American League last year, though below his 1929 form. Still, he was good enough to outclass Hodapp of the Indians, Lazzari of the Yanks, Myer of Washington, Bishop of the A's and Melillo of the Browns.

Ted Lyons, 1930 pitching ace of the White Sox, above, and, below, Charley Gehring, who once played phenomenal baseball for the Tigers.

The White Sox last year got 22 victories and 238 splendidly pitched innings out of Lyons. He toiled more than any other hurler in the big leagues and the earned-run average against him was among the 10 lowest.

But alas and alack! Lyons spent the early weeks of the campaign nursing a pain in his salary wing. Since joining his club he has worked in fewer than a dozen ball games. And the Sox show it.

Lyons' loss might not have been tragic had young Pat Garaway been in winning form. But with both Ted and Pat nursing injuries and pitching infrequently, the Sox slipped to the cellar.

The season was still in its infancy when troubles popped out to harass Manager Harris of the Tigers. Foremost of these was the wingless Gehring. In training camp Charley developed an ache. He worked it slowly, figuring it was just a sore arm that needed regular exercise to become strong. But the wing refused to respond.

Harris sent Gehring to the wars when the season opened. Soon it was apparent that Gehring's arm was not strong enough to throw to first base and his entire play suffered as he worried about his failure in the throwing department. Charley was benched—and the Tigers skidded.

They brought Gehring back into the lineup the other day following an operation on his arm. His potent batting eye picked up where he had left off, but the arm leaves plenty to be desired.

To the heirs, devisees, legatees, personal representatives and all other persons interested in Estate of Joachim Bernhardt, deceased, real names unknown and the heirs, devisees, legatees, personal representatives and all other persons interested in the Estate of Dorothea Bernhardt, deceased, real names unknown:

You and each of you are hereby notified that Fred Jochem has filed an action in the District Court of Wayne County, Nebraska, against you as defendants, the object and purpose of which action is to cancel or record a certain mortgage deed executed and delivered by John E. Bernhardt to Joachim Bernhardt and Dorothea Bernhardt on the 1st day of July, 1889, and recorded on the 28th day of September, 1889, in the office of the Register of Deeds of Wayne County, Nebraska, in Book 1, page 282 of the mortgage records of said county and which mortgage deed covered the following described real property situated in Wayne County, Nebraska, to-wit: The South half of the North half of Section 32, Township 25, North, Range 1 East of the 6th P. M. Wayne County, Nebraska.

The plaintiff further alleges in his petition that the said mortgage deed is barred by the statute of the State of Nebraska and that the same constitutes a cloud upon his title and prays that the title of the plaintiff in and to the above described real estate be forever quieted and confirmed as against each and all of the defendants in said action.

You are required to answer said petition on or before the 24th day of August, 1931, or the allegations in said petition will be taken as true and a decree rendered accordingly.

Fred Jochem, Plaintiff.

ter of the Southwest Quarter of Section 34, Township 26, Range 5, East of the 6th P. M. in Wayne County, Nebraska, real names unknown, Defendants: You, and each of you, are hereby notified that on June 22, 1931, August Hilke, as plaintiff, filed his petition and commenced an action in the District Court of Wayne County, Nebraska, against each and all of you, as defendants, alleging that he is the owner in fee simple of, and is in the possession of the Northeast Quarter (NE 1/4) of Section thirtytwo (32), and the West Half (W 1/2) of the Southwest Quarter (SW 1/4) of the Southwest Quarter (SW 1/4) of Section twentyfour (24), all in Township twenty-six (26), Range five (5), East of the 6th P. M. in Wayne county, Nebraska. The object, purpose and prayer of said petition is to secure

a decree from said court adjudging plaintiff the owner in fee simple of said real estate, and that you, the above named defendants, or any of you, have no right, title or interest in, or claim or demand, or lien upon said real estate, or any part thereof and, among other things, to have decreed paid and canceled a certain mortgage executed and delivered by David M. Kite and Flora Kite, his wife, on July 2, 1897, for \$600.00 to Shumway and Everett upon said Northeast Quarter of said Section 32, which mortgage was by them assigned on July 19, 1897 to the defendant Clara Everett, and to have decreed paid and canceled of record a certain mortgage for \$1,600.00, executed and delivered on June 1, 1895, by David Longnecker and wife to Levi Kinnball upon said Northeast Quarter of said Section 32, which mortgage

was by him assigned on September 10, 1895 to the defendant Andrew W. Coulter. Plaintiff further prays in his petition that the title to said real estate be quieted in plaintiff, and that each and all of you, the said defendants, be forever barred and enjoined from asserting, or attempting to assert, any right, title or interest in, or claim or demand upon said real estate, or any part thereof, and plaintiff in his petition prays for general equitable relief. You are required to answer said petition on or before the 10th day of August, 1931.
Dated this 27th day of June, 1931.

CAR OWNERS

What Every Car Owner Should Know About Nebraska's New Financial Responsibility Law

Don't Risk the Loss of Your License, Your Registration and the Use of Your Car.

- (1) Under Nebraska's Financial-Responsibility Law, if a final judgment is recovered against you in the State of Nebraska, or in any other State, or in any United States District Court, you cannot drive your car again, nor can it be registered until you have paid the judgment up to the limits of \$5,000—\$10,000 in the case of an accident involving personal injuries, and to a limit of \$1,000 in a property damage case.
- (2) In other words, you may be placed in the position of having to meet judgments totaling \$10,000 or run the risk of losing your license and registration until you do pay that amount.
- (3) *The sensible thing to do is to carry Automobile Liability Insurance*—to carry an adequate amount of such protection and to be certain that your policy is written in a company that gives claim service in all parts of the United States and in Canada and whose policies are acceptable under the financial-responsibility laws of all States and Provinces.

Week's Review of Herald Exchanges

Ponca Council is having a new city well sunk in the park. Mrs. Carrie Nagel of Wisner, died July 7 at the age of 55. Mrs. John Turner, 66, died at Winnebago Tuesday last week. A series of airplane races will be held at Norfolk August 1 and 2. Two routings of highway No. 20 from South Sioux City to Jackson are being considered and State Engineer Roy Cochran assures people of that section that the highway will be paved before winter. Christen Christensen of Pender, died July 9 at the age of 48 years. Knox county fair dates are set for September 14 to 18 at Bloomfield. Miss Della Webb of Bloomfield, died at Norfolk July 4 at the age of 64. Farmers Union of Verdigris plans to organize a cooperative bank. Max DeWitt, formerly of Wayne and Stanton, has located in Torrington, Wyo. Natural gas will be turned into the mains at West Point by the first of August, the company informs people there. Luther League convention will be held the last of this month at Newman Grove. Preliminary work is being done in Wausa to get ready for laying street pavement. Mr. and Mrs. Frank Scharfen of West Point, were married 55 years Sunday last week. Pilger village board voted to allow natural gas mains to be installed in that town. Six farmers near Creighton lost 19 cows from cane and sudan grass poisoning last week. Mr. and Mrs. Henry Tassemeyer of Tilden, celebrated their golden wedding anniversary July 16. Randolph city paid off \$4,000 worth of bonds the past year, according to report of Treasurer R. W. Hahn. The August Hitz farm home near Osmond was destroyed by fire which is thought to have started in the chimney. A barn on the John F. Koch farm southeast of Dixon, was destroyed last week by fire of undetermined origin. A new hog barn will be built at West Point to accommodate some of the stock to be shown at Cuming county fair. About 160 4-H club members from Cuming, Burt, Dodge and Madison counties camped at West Point July 20 to 22. Herman Otto Huwaldt, 54, of Osmond, died in a Sioux City hospital July 15. His wife, one son and two daughters survive. Concrete base for Stanton county's new grandstand at the fair grounds has been laid. A 4-H club barn will also be erected. Dixon voters will cast votes July 31 on the question of issuing bonds in the sum of \$14,000 for erection of a school in that village. Two carloads of poison were used in Cedar county in fighting grasshoppers. Most of it went to the northern part where the pests are worst. Miss Dorothea Rex of Neligh, former resident of this vicinity, was married June 14 by her father, Rev. F. W. Rex, to Theodore Kollmorgen of Leigh. Among a group of cousins who had a picnic at the Frank Way farm near Waterbury Wednesday last week were Mr. and Mrs. Floyd Kingston of Wayne. P. H. Peterson bought the former First National bank building at Wausa from the A. H. Banks estate for \$5,000 and will use the structure for an office. Wisner band has been discontinued because of lack of funds for direction. Prof. F. C. Reed who has charge of the Wayne band, has directed the Wisner group. Adelia Upton, 31, of Madison, sustained injury to her back last week when she fell beneath the car driven by her father and one wheel of the machine ran over her. Eight women are serving on school boards in Stanton county, one rural board consisting entirely of women. Salaries in rural schools in that county range from \$65 to \$110 a month. Mrs. Norman Ochsen of Stanton, formerly Miss Susan McCurdy, died July 9 at the age of 52 years. She is a former Wayne college student. Her husband, four sons and one daughter survive. Randolph Lions club plans to sponsor a junior fair August 20. Young folks will exhibit work done in Smith-Hughes vocational projects directed by Mr. Engel, and entertainment will be arranged. Rev. Charles E. Snyder, Sioux City Unitarian minister who has spoken at Wayne a few times, will leave July 31 for Rochester, N. Y., to be with a daughter. He will resume his ministry after recovering from an operation. Carl Shupe, Newman Grove man who is charged with driving a car over Merle Hansen, 11, was to have hearing July 22. The lad, it is asserted, was asleep on the lawn at his home Sunday last week, 30 feet from the highway, when Shupe drove by. Shupe decided to frighten the lad and drove onto the lawn. One wheel passed over the lad. Contract for graveling some streets of Randolph were let last week to Claire Roddeberg of Hartington for \$165 per yard. Estimate on the project was \$2,177. Gravel will be hauled from the Roddeberg pit near Hartington. Donald Steere, 20, son of Mr. and Mrs. D. D. Coburn of Laurel, suffered injury to his back Sunday last week when he fell from a high bluff at the river near Ponca. A tree gave way when he was getting wood for a bonfire. Graveling of highway No. 35 between Nacora and Emerson has been halted temporarily because of shortage of gravel in the pit at Coleridge. This will be resumed soon. The road between Emerson and Pender will also be surfaced soon. Thomas Barker, 89, early resident of Ponca and twin, died at Glendale, Calif. His brother, William Barker, died three years ago. To that time the men were thought to be the oldest twins living in the United States. They came to Dixon county in 1886. Mrs. Katherine Wimmer of Randolph, was 93 years old June 27. Mrs. Wimmer was born in Steuben county, N. Y., and came to Wayne, Neb., in 1889. She has three children, Mrs. Raidel of Dayton, Mont., Eugene Wheeler of Chariton, Iowa, and Frank Wimmer of Randolph. Charging that he was permanently injured by an assault which he claims the defendants made upon him, Charlie Moeller, 38, Pierce county farmer, has filed suit for \$10,000 damages in district court at Pierce against Herman Meyer, sr., Herman Meyer, jr., and Arthur Mays. Moeller's petition says that the defendants came to his farm last May 31 and set upon him. He alleges that they kicked him, struck him, pounded him and jumped upon him, inflicting serious injuries which he claims will permanently affect his health.

Early Days in Wayne County (Taken from the Herald files for July 24, 1913) The northeast Nebraska tennis tournament was played at Wayne. Resin Craven died in Wayne at the age of 84 years, following a very brief illness. Andrew Johnson, Bega, dropped dead at his home during the week of July 24, 1913. Minnie Riggert, 14-year old daughter of August Riger of Hoskins, died from burns received when she carried a burning can of varnish from the house. Carroll voted bonds for the erection of a new \$20,000 public school house. Only 50 votes were cast; 45 for the bonds and five against them. The school had, at that time, only 11 grades but the twelfth was added at the beginning of the 1914 school term. Dr. Alexander Corkey lectured on a Chautauqua circuit during the summer of 1913. The Herald carried a clipping from a New Castle, Pa., paper, telling of his fine reception. Members of the Commercial club met, and proposed the organization of a brass band for Wayne, and the creation of a country club. Both changes were placed under consideration at that time. From the Winsie items: "Graver Francis, who has been agent for the McCall Webster elevator at this place for the past four or five years, purchased the Kieffer cafe Saturday evening, taking possession at once." "The Witching Hour" was presented at the college by members of the elocution department. The play was given as the last performance under Miss McBeth, who left the normal for a year of study and travel in Europe. From the Wakefield items: "C. A. Sar, I. Predmetsky, Louis Schwedhelm and C. B. Hoogner made an auto trip to Pender, Thurston, Emerson, Allen, Dixon, Concord and Wayne Tuesday to advertise the Chautauqua which begins next Tuesday and lasts five days. Much interest is manifested among the business men, and every effort is being made to make this, Wakefield's first chautauqua, a real success." Writes from Midoclean. Miss Sara J. Killen wrote a long letter to the Herald concerning her trip to Europe. The letter was written at sea, and described the celebration of the Fourth of July on board ship. Ponca Was Growing. From the Ponca Journal for July 29, 1880: "A few years ago Ponca had simply three forlorn looking shade trees, which were situated near the schoolhouse. Now the town is so full of shade trees that one can hardly see the houses. Eight years ago Ponca had about 150 inhabitants, and was a small, dilapidated, one-horse town. It now has 800 inhabitants, fine business buildings, costly and stylish dwelling houses, and is the most active, energetic and prosperous place of its size in northern Nebraska." Normal Gets Building. Says the 1913 Herald: "The session of the board of education held at Wayne last Monday was a meeting of great importance for the local state institution. All members of the board were unanimous in their belief that a new building was needed to take the place of the old college structure and it was agreed that the old building should be razed and a new central building be erected on the site where it now stands. Changes in salary schedules were also made." What we all want is war-time wages with which to buy things at panic prices.—American Lumberman (Chicago). Wall Street bulls and bears are much of a muchness these days. The bears are afraid and the bulls are scared.—Wichita Eagle.

The secret of PERMANENT POWER. There is only one way to keep your motor full-powered. Every engineer knows the secret—correct lubrication. Every mile your motor runs with too little oil—oil of wrong grade—or dirty, diluted oil—sends it nearer the junk heap. The new model motors have higher engine speeds and higher compression. They need new model oil—new POLARINE. New Polarine has high resistance to the thinning and "cracking" effect of heat. It thickens least in cold weather. Thoroughly de-waxed, it does not clog oil lines or carbon the motor. Its oil film clings to metal surfaces. No oil can do more to keep your motor permanently powerful than new Polarine. Consult the chart for the correct grade to use—25¢ a quart for every grade. NEW Polarine STANDARD OIL COMPANY OF NEBRASKA "A Nebraska Institution" At Red Crown Service Stations and Dealers everywhere in Nebraska.

Fire Destroys Two Buildings

Call Fire Departments From Three Towns to Fight Concord Fires.

Wednesday afternoon of last week was marked by two serious fires in Concord and vicinity, totaling damage of at least \$32,500, on the elevator in town and on a barn on the David Koch farm four miles southeast of Dixon. Concord firemen and friends from Dixon organized to control the Koch fire by moving several small buildings, although the barn was destroyed and with it, some stock and hay.

The Crowell elevator, situated on an elevation at the foot of Main street, caught fire late in the afternoon, from undetermined causes. Some believe that combustion caused the blaze, although it was impossible to determine the source, so rapidly did the fire progress, once it started.

Electric wires were severed, causing the water pumps to stop, which made the situation serious for a time, as burning brands blew to roofs of many of the buildings in the business and residence sections. Firemen came from Wakefield and Laurel to assist in fire-fighting operations, which were unsuccessful.

Had Big Damage. A car, belonging to W. S. Hart, was also burned in the blaze. The car was standing in the elevator when the fire caught.

With most of the damage covered by insurance, the company is moving into the unused elevator on the other side of Main street, and will be established there in the future. A crew has been at work repairing the unused elevator, putting it into condition.

Members of the Women's Improvement League served ice cream, sandwiches, coffee and cake to members of the fire departments at Concordia church basement early in the evening, following the fire-fighting activities.

Most of the fire damage has been cleared away, electric lines have been repaired, and new posts have been placed for the renewed telephone lines, which were damaged by the flames. Several gardens in the neighborhood of the elevator were damaged during the conflagration.
