Rev. P. A. Davies Speaks Wednesday At Convocation Held At Public School

Rev. P. A. Davies of the Presbyterian church spoke to school children at the public school Wednesday morning, admonishing them to be thankful for the blessings which will mark their Thanksgiving holiday. School was dismissed Wednesday evening for a week-end holiday and will not resume again until Monday morning.

Tuesday evening was a time of great excitement for members of the junior class who presented their class play, "Dangerous Men," at the Gay theatre under the direction of the Misses Helen and Vera Mae O'Neill. Dress rehearsals held Thursday marked the close of an intensive period of drill.

Natural gas was piped into the public school building this week. The new fuel will be used in the science laboratories, and will heat water for boys' and girls' showers in the gymnasium.

Try Knighthood Plan.

The national Knighthood of Youth club has been organized in the sixth and seventh grades under the direction of Miss Maude Currey. Officers in the new organization are Dorothy Heidenreich, president, Lois Thompson, vice president, Hazel Capsey, secretary, Dean Cook, treasurer. The group is working on a national plan which gives a book in the class for every good habit formed by the group, and a similar award for every bad habit broken by the group.

Represent School At State Meeting

Fourteen students of Wayne Teachers College attended a state-wide student disarmament conference held on the campus of the University of Nebraska at Lincoln on November 22 and 23. The following were members of the conference: Milton Alumbaugh, Merwin Seymour, Gladys Morgan, Harlin Borin, Arlene Castner, Arlene Lagaschulte, Dorothy McCandlish, Phil Mitchell, Joseph Knibbs, Jeanette Lewis, Delbert Clark, Desford Ralph Malcolm and Arthur Hill. Miss Pearl Hutchinson, Prof. George Costersat and Dr. J. L. Lewis, of the college faculty also attended the meeting.

Fourteen students of Wayne Teachers College attended a state-wide student disarmament conference held on the campus of the University of Nebraska at Lincoln on November 22 and 23. The following were members of the conference: Milton Alumbaugh, Merwin Seymour, Gladys Morgan, Harlin Borin, Arlene Castner, Arlene Lagaschulte, Dorothy McCandlish, Phil Mitchell, Joseph Knibbs, Jeanette Lewis, Delbert Clark, Desford Ralph Malcolm and Arthur Hill. Miss Pearl Hutchinson, Prof. George Costersat and Dr. J. L. Lewis, of the college faculty also attended the meeting.

Children Whose Handwriting Improved Admired Best

Children whose handwriting improved during the year were awarded the best handwriting awards in the sixth grade recently. Arnold Juncal and Fred O'Hershey have already completed the drills for the year. In the third grade children who have finished the first writing project are the following: Irene Beck, Mildred Franzen, Nonie Jane Hall, Wilma Jean Hogneworth, Barbara Book, Annabelle Jensen, Leora Suna and Wendell Swinnee. Lila Westernhaus has completed the second writing project.

First Grade Children Who Have Celebrated Their Birthday Anniversaries

The first grade children who have celebrated their birthday anniversaries the past week include Hazel McPherson and Dorothy Nelson. The two children treated their classmates with a birthday gift. Norman Ray Reynolds is a new pupil in the first grade.

Roger Seymour, who was five years old one day last week, treated members of the kindergarten at that occasion.

An informal party hour was held in Roger's honor.

Prepare Original Projects.

Striking originality is being shown by members of the eighth grade who have been working out individual projects concerning material found in the short story, "Man Without a Country." Some of the pupils have been making scrapbooks in which they have collected material concerning the story. Others are making sets of Nolan's room as it is described in the story. Still other members of the class have worked out detailed character studies of the man who lost a right to his country. Among other interesting work are sets of puzzles which have been made with "Man Without a Country" as a background. Some of the pupils have chosen to make detailed maps of the world on which is shown the route of the ship which carried the condemned man. Special encouragement has been given to children who wished to try new projects, reports Miss Avery, who is in charge of this work.

Booklets which contain the story of the landing of the pilgrims are being prepared by members of the second grade.

The story is being illustrated with free hand drawings which the children have originated. Learning the colors of the spectrum has been another project in the second grade. The past week scenes have been drawn and painted and the rainbow has been included in them, with the colors appearing in their proper order. In correlation with the drawing and painting, the children have been reading the poem, "The Rainbow."

Reward Fast Workers.

Fast readers in the second grade have been divided into a special group. This division has just finished its fourth book of outside reading.

Sunsets, for which Nebraska is famous, have been painted in water color by third grade folk the past week.

Thanksgiving stories have been read to give the children the historical background of the coming holiday.

"How We Travel" is the subject under discussion in the third grade this week.

Different kinds of conveyances have been studied, and reports have been made by the children.

Consider Modern Factories.

Modern factories are being studied in the sixth grade. Eston McGarragh, who had a project of automobile manufacture, brought an interesting series of exhibits when he made his report. Betty Helen Ellis discussed sugar, and used lantern slides in telling the story of its preparation for table use. Betty Blair told the story of paper: its manufacture and various uses a subject which has many sides, and which was outlined.

fined them over Thanksgiving day. At least I hope not. Neither the jurymen nor the members of their families relish the idea of spending Thanksgiving apart from each other. The good judge will have his turkey of course, and his inclination will be to allow the good citizen on his jury the same privilege. As for the unfortunate citizens in the dock, if any there are, they will be thankful for the hope that after the holiday, judge and jury may deal a little more mercifully with them.

Welfare and Relief The Need is Great

Your Chance To Help Others By Helping YOURSELF

Local Cleaner Cooperates With Golden Rule
With the spirit of cheerfulness and helpfulness at this time, Jacques Cleaners of Wayne, will cooperate with Golden Rule in preparing the garments for clean, healthful service for the needy.

Golden Rule Store makes this startling announcement very timely! Arrangements have been completed with local welfare workers and organizations to take care of all LOCAL NEEDS First. Whatever clothing is not needed in Wayne county will be donated to the worthy institutions such as Salvation Army and Red Cross at other points. Golden Rule is offering its mammoth stock of men's and women's garments at every-day prices—with a liberal allowance in exchange for your old garments. You need the new garments—those less fortunate are in great need of clothes to tide them over the bitter winter.

Golden Rule Sacrifices Their Profit For Welfare Relief HERE!

We are absolutely sacrificing our profit in this mighty effort. Profit is of least importance! We are eager to help those in need and have completed arrangements with the Red Cross and W. C. T. U. of Wayne, under the direction of Mrs. W. C. Fox, to place garments with those who are in need. Mr. Jacques of the Jacques Cleaners has consented to clean and repair all garments at cost PAID FOR BY GOLDEN RULE; insuring all clean, healthful and serviceable clothing for the Welfare relief of Wayne county. It is your one chance to help others by helping yourself. Welfare organizations need the help—Golden Rule presents this feature event with that one fact in view.

Golden Rule Has Decided to Offer This Service For Two Days Only

Friday and Sat., Nov. 27-28

Our Plan

COLD weather is here! Many families are in need of clothing to ward off the ravages of cold and sickness. Organizations are soliciting funds, clothing and food for those in need. Golden Rule is doing its share. We sacrifice our profit to the relief of the unfortunate. Your old clothes may save someone from many hardships this winter. It is not like a contribution—you gain in spirit of the season. Gain in the appearance of new clothes and carry the thought of helping others. Golden Rule offers you this unusual opportunity! Bring to the Golden Rule your old clothing such as suits and overcoats—Exchange with us for new goods and we will allow you—

Home Tried Recipes

Colonists Had Cause For Thanks

Thanksgiving Day Menus From First President To Modern Times.

Oyster stuffed turkeys, gleaming cranberry jellies, rich pastries and delicate desserts made in the tray of the electric refrigerator grace this year's Thanksgiving board. In the early days, however, Thanksgiving day or any other holiday was responsible for a much simpler menu.

On the colonial board, says material sent out from the George Washington bicentennial commission, Thanksgiving delicacies were quite different from the modern ones. Luxurious foods in our days include such delicacies as avocado pears, oysters out of season, lush and delicate persimmons, fish from the waters of the earth—anything, in fact, that a man's palate may fancy. In colonial days, however, the list of luxury foods included many articles which we would place on the necessity list.

Imports from across the seas in colonial days included sugar, molasses, tea, coffee, even the common spices. Pumpkins and squashes which were native to the new soil were utilized by colonial housewives, and so we have our tradition of pumpkin pie for Thanksgiving dinner. Indian corn and common beans, made a succotash that colonists enjoyed, and everyone knows that the prevalence of wild turkeys gave us the great bird for our national Thanksgiving day meat.

On Holiday Tables.

One Thanksgiving day table of the early days, the commission report states, had turkey, duck, ham, chicken, beef and pork for meat, tarts, creams, custards, jellies, foils, trifles and floating islands for dessert, 20 kinds of sweetmeats, and an abundance of fruits, raisins and nuts. The meal had, the article states also, the usual accompaniment of beer, porter, punch and rum.

Especially in New England, cooks used an abundance of apples in preparing desserts. Tarts and pies, fritters and dumplings were made, and many of them graced early holiday tables. November was a busy month, and colonists must have sighed with real relief when its work was done, and the mighty feast was on the table and ready to serve.

Mrs. Julia Lage's Fruit Cake Recipe

An old-fashioned recipe for fruit cake which makes one's mouth water is the one contributed this week by Mrs. Julia Lage. This cake will keep for months, as long as a year if you can persuade the family not to eat it up during the holidays. To preserve it successfully, wrap the cakes in waxed paper and store in tin boxes. Fruit cakes made now and wrapped in paper would make delightful Christmas gifts. They may be presented in bright-colored boxes purchased for the purpose, or you may decorate ordinary coffee cans for the purpose. Chinese red lacquer will transform the most commonplace container, and the recipient will have another moment of delight on opening the box and finding that it contains a home-made fruit cake.

To make this delicacy, which requires no leavening, and which is as rich as a fruit bar, assemble the following ingredients:

- 1 pound butter
- 1 pound brown sugar
- 1 pound flour
- 1 dozen eggs
- 4 pounds of raisins
- 2 pounds of currants
- 1-2 pound citron
- 1 cup of dark Karo syrup to moisten the mixture
- 1 cup grape juice
- Spices, particularly allspice or cinnamon, or your own favorite mixture.
- Cream butter and sugar, beat and add the eggs, and mix the flour with the fruit before adding it.
- Bake this cake in a large dripping pan, making a sheet of cake. Cut into large squares, wrap in paper to store, and put away in tins.

- ### Christmas Plum Pudding
- 1-2 pound beef suet
 - 1 cup of flour
 - 1-2 pound of stoned raisins
 - 1-2 pound of currants
 - 2 ounces of citron cut fine
 - 1 cup sugar
 - Grated rind of one lemon
 - 2 cups of flour
 - 2 level teaspoons baking powder
 - 1-4 teaspoon each of ground cloves and cinnamon
 - 1-2 teaspoon each of mace and salt
 - 2 eggs
 - 1-2 cup sweet milk
- Sift together three times the flour, baking powder, spices and salt. Chop fine the suet, mixing it with the cup of flour, add the fruit, sugar, lemon rind and the flour mixture. Mix thoroughly,

then stir in the eggs beaten very light and mixed with the milk. The mixture should be quite stiff. Steam for six hours in a buttered two-quart mold. Serve with sauce. Chopped figs or dates and nuts can be used for fruit.

Oatmeal Cookies.

(Mrs. A. L. Ireland, Wayne)

- 1 cup white sugar
- 1 cup lard or meat fryings
- 2 cups flour
- 2 cups oatmeal
- 2 eggs
- 1 cup raisins cooked and cooled
- 5 tablespoons of the juice in which the raisins were cooked
- 1 teaspoon of soda
- Pinch of salt

It will be noted that this recipe calls for no flavoring, as the raisins provide sufficient flavor. Nutmeats may be added if desired. This recipe makes about 50 drop cookies of medium size. They are delicious with a meal, or with a single cup of coffee fixed to taste with cream and sugar. And school children won't object to finding oatmeal cookies in the lunch box.

Cheese Pie.

An adventure in eating is cheese pie. If you want to try it, here's the recipe.

- 2 eggs
- 2-3 cup cream
- 1-4 cups cheese
- 1 teaspoon vanilla
- 4 teaspoons flour
- 2-3 cup sugar
- Crumb crust

Beat the egg whites very stiff, add the egg yolks and beat again. Beat cream until stiff and add cheese. A combination of cream or cottage cheese and offer soft cheese may be used. To the cheese add vanilla, flour mixed with sugar and the eggs. Turn into pie-plate lined with crumb crust. Sprinkle the top with reserved crumbs and bake in a slow oven until browned.

Crust for Cheese Pie.

- 1-2 cups swieback or rusk crumbs
- 1-2 cup chopped nut meats
- 1-2 cup sugar
- 1-2 cup melted butter
- 1 egg white beaten stiff

Roll swieback or rusk through the food chopper. Mix crumbs, nut meats, sugar and melted butter. Reserve one half cup of this mixture for the top. To the remainder add one egg white beaten stiff, and spread in bottom of deep pie plate. Put in the filling, sprinkle with the reserved crumbs and bake.

Chocolate Cake.

(Mrs. C. C. Stirtz, Wayne)

- 2 cups sifted cake flour
- 3 teaspoons baking powder
- 1-2 teaspoon soda
- 1-4 teaspoon salt
- 1-2 cup butter
- 1 cup sugar
- 2 egg yolks
- 3 squares melted (unsweetened) chocolate
- 1-4 cups milk
- 1 teaspoon vanilla
- 2 egg whites, stiffly beaten

Sift the flour and measure it, add the baking powder, soda and salt and sift again. Cream the butter, add the sugar and beat gradually until creamy. Add the egg yolks and the melted chocolate, then add the flour and the milk alternately, beating the mixture smooth after the addition of each ingredient. Add the vanilla and fold in the egg whites. Bake in two nine inch square tins in a moderate oven for 30 minutes.

To finish the cake, frost with the following icing, which is rich enough for a queen's taste. Directions should be followed exactly to make this frosting successful.

- 2 cups of sugar
- 2 squares of unsweetened chocolate
- 2 tablespoons light corn syrup
- 2-3 cup milk
- 2 tablespoons butter
- 1 teaspoon vanilla

Cook the sugar, chocolate and syrup with the milk stirring until the sugar is dissolved. Cook the mixture until it will form a very soft ball in cold water: It is important not to cook the frosting too much.

Remove the frosting from the fire, add the butter, and cool. When the frosting is lukewarm, add the vanilla and beat until creamy. Be careful not to beat this frosting too much. If you want to make a special cake, add English walnuts.

Early Days In Wayne County

(Taken from the Herald files for Nov. 27, 1913)

Wayne county teachers' association met at the courtrooms in Wayne for a session at which Supt. Gerald Cress of Winside presided. All of the numbers on the program were given by the men of the county, with the exception of chorus singing which was led by Mrs. Louise Murfree.

The city council met to discuss the improvement of the sewerage system. The new system was to run seven blocks between Nebraska and Window streets.

The annual Knights of Pythias election resulted as follows: W. D. Redmond, C. C.; Frank Morgan, V.

C. L. A. Kiplinger, prelate; Dr. T. Jones, M. of W.; H. B. Jones, M. of E.; W. H. McNeal, M. of F.; W. K. Hiesler, K. of R. and S.; R. N. Donahy, M. A.; Dr. T. B. Heckert, trustee.

Harvest in Those Days.

A harvest that was worth talking about was reaped from the Strada ranch land in the fall of 1887, according to a clipping from the Herald for December 1, 1887. The item stated that the ranch had yielded a total of 60,000 bushels of corn that fall.

In 1880, the Ponca Journal carried a history of attempts to mine coal in the vicinity of town. A four and one half foot vein of the fuel had been discovered, the story said, and efforts were being made to get a paying mine started. The first work of the kind began near Ponca in the sixties, according to the old Journal.

E. B. Patterson of Wakefield purchased in 1913 the building of G. W. Wendel and planned to engage in barbering. Mr. Wendel bought the Frank Leuck blacksmith shop and planned to erect on the lot a modern garage.

Concerning the school house at Winside, the Herald in 1913 carried the following item: "The school board has purchased chairs for the assembly room in the new school building, and will probably erect a stage. The room is 46 by 50, with steam heat and electric lights, and when furnished it will be a beauty."

Miss Gusta Koll, daughter of Mr. and Mrs. Fred Koll of Winside, became the bride in 1913 of Herman Hilkepmann. The Rev. Mr. Press officiated at the marriage ceremony. At the reception held at the Koll home after the ceremony, covers were laid for 160 guests.

Rev. W. W. Tait of Randolph gave a series of lectures concern-

This Muddled World

The world chaos that gains impetus with every rising sun has reached a critical point in the United States. A country and a government that have held up as examples of progress and glorious democracy are floundering in a sea of unrest, rebellion, crime and misery. In this hour when problems of supreme importance confront us, it is interesting to observe the censorious spirit that dominates the mind of man. Every fellow is disposed to blame some one else for all the ills which he has become heir to. The government, the trusts, the war, prohibition, automobiles, the newspapers and chain stores, the republicans, the democrats and the tariff—these and other forces are called into account for afflicting us with low priced cotton and wheat, shrinkage in property values; loss of credit, threatened bankruptcy and all the other evils that beset us. Seldom, if ever, is there heard in the chorus of denunciations, one word of self directed blame, but whether we are willing to admit or not, our troubles are, in part, at least, self-made.

A people, for the most part accustomed to living moderately and even frugally prior to the war, were launched into an orgy of spending such as has never been known in the history of man. Although endowed with a modicum of reasoning power, we have carelessly thrown discretion to the winds changing our standards of living from quiet simplicity, to frenzied luxury. Equipped with sufficient mathematical knowledge to know that four from two leaves minus two, men and women with incomes of \$200.00 a month have spent at the rate of \$400.00. This has applied quite generally whether the

Farming and other business are more or less demoralized, but it is not due altogether to 5 cent cotton and the tariff. It is due in part to our waste, abuse of credit, poor business management, and laziness.

Before we see the end of this many of us who are now riding may be waiting, but that probably would be as it should be. The men and women who honestly work their ways out of the present economic labyrinth will be those possessed of the proper intestinal stamina. For some time now we have heeded something to divide the sheep from the goats, Crooks and dealbeats have been sailing along in the vanguard of society and the church, enjoying all the privileges and often more than those who make up the ranks of honest citizenry. If the present crisis serves as a leveler in the business and social realms, much will be gained. The seeming success of the dishonest during the reign of extravagance through which we have just passed, has had a baneful effect, serving to give sanction to the theory that the way to win is through shady paths.

If it serves to make us a little more concerned about the quality of the men who are entrusted with our governmental affairs, it will be well worth living through. As it is and has been, our most responsible trusts are often given to men who could not make a living for themselves in any other than political fields.

There is really a great deal about our present status to give us urge to go forward and cheer in the hope that in going forward much that has been unwholesome will be left in the discard.—Miss Emily Woodward, News, Vienna, Georgia.

the fresh cigarette!"

FRESHNESS

— that's the thing!

CAMELS are never parched or toasted

HAVE you noticed the new trend in cigarettes?— freshness is the popular thing.

That's because a fresh cigarette, as demonstrated by Camels, is something smokers have discovered as better than anything they ever tried before.

Camels are fresh in the Camel Humidor Pack because they're made fresh to start with — blended of choice, delicately mild, sun-ripened tobaccos in which the natural moisture and fragrant flavors are vigilantly safeguarded.

The tobaccos in Camels are never parched or toasted — the Reynolds method of scientifically applying heat guarantees against that.

That's why we say with so much assurance that Camels are truly fresh. They're made fresh — not parched or toasted — and then they're kept fresh in the Camel Humidor Pack.

Try Camels' freshness for a change. Switch over for just one day, then change back — if you can.

Positive Proof of FORD ECONOMY

City of Detroit purchases 137 new Ford cars Hundreds now in use prove low cost of operation

THESE 137 new Ford cars represent one of the largest deliveries ever made to a municipality at one time.

21 radio-equipped Ford scout cars were traded in on this purchase. They had been operated day and night for two years in heavy traffic and all kinds of weather.

Their individual records ranged from 78,434 miles to 143,723 miles with a grand total of 2,283,097 miles. The operating cost of the 21 cars was 2,284 cents a mile — less than 2 1/3 cents. This cost included all fuel, oil, tires, repairs and every other item except depreciation and insurance.

Of 577 Ford cars in Detroit City service, the 300 in the Police Department traveled a total of 6,591,937 miles during the past fiscal year, at an average cost of 2.9 cents a mile.

Many claims have been made on operating costs, but here in the carefully kept motor car records of the City of Detroit is positive proof of Ford economy.

In the paragraphs above, it is seen that 21 Ford scout cars averaged less than 2 1/3

cents a mile and 300 Ford cars in all branches of Detroit police work averaged 2.9 cents a mile!

Day and night, twenty-four hours a day, these Ford cars are in operation. Few branches of transportation demand such grueling service. The records show that low fuel and oil consumption is but one of the Ford's many economies. Ford materials, simplicity of design and accuracy in manufacturing provide unusual strength, stamina and freedom from replacements and repairs.

The individual car buyer as well as the purchasing department of a city or a business cannot afford to ignore the proved economy of the Ford car.

Pulitzer Prize Play Is Coming To Gay

"Street Scene," picturized from the famous Pulitzer prize play by Elmer Rice, will be presented by Samuel Goldwyn at the Gay theatre on Sunday, Monday and Tuesday, November 29 and 30 and December 1. In directing the story of a warm-hearted romance against the living screen of a city street, King Vidor makes of "Street Scene" his most ambitious effort since "The Big Parade."

Sylvia Sidney in whose ears are still ringing the nation-wide acclaim that greeted her appearance in "An American Tragedy" has the romantic lead in the picture. William Collier, Jr., plays opposite her. Estelle Taylor follows her brilliant performance in "Cimarron" with the exacting and difficult role of Mrs. Maurant, when, to many of the play's multitude of friends who believe "Street Scene" to be as much a story of mother love as Goldwyn's earlier "Stella Dallas," is the most important of all.

Elmer Rice himself adapted his stage play to the screen for Mr. Goldwyn. It ran for 600 performances in New York, and played for two years through the principal cities of the United States. Mr. Rice directed the New York, Chicago, London and Los Angeles stage productions. A published version of the play has appeared in five languages.

Not so much with the street, but more so with the people whose lives radiate from its rusty brownstone houses, is the play concerned. A girl who knows her mother is unfaithful, an insensitive, cruel father, a cynical old Jewish socialist trying to read a purpose into life, young love trying to rise above the squalor and misery, a lone

some woman, hungry for some one to talk to, these are the strings that King Vidor weaves together as the play relentlessly moves toward the end.

Most of the original stage cast were brought to Hollywood for the picture. Beulah Bondi, David Landau, Russel Hopton, Anna Kostant and Greta Granstedt are among the featured players. Every detail of a tenement block in New York's west sixties was recreated with the most complete authenticity, the houses, the occupants, the passers-by, street noises, traffic, even to the nearby elevated, where an actual trolley was built to create noises that are among the undertones of the picture. Capt. Richard Day and Willie Fogarty supervised the elaborate production details under the supervision of King Vidor and Mr. Goldwyn for this United Artists picture.

Spring Seems To Be Here.
Homer, Neb.—Woodland flowers, such as violets, are blooming again. Ducks were hatched at the John Queen farm last week. Fruit trees are blooming at the P. C. Van-Cleave farm. William Wilke, near Emerson, found on digging into his potato field that a second growth of potatoes had grown on the old vines. B. McKinley, of Homer, has been enjoying fresh November radishes and lettuce from his garden.

Pays \$200 An Acre.
Blair, Neb.—Not much Washington county land is changing hands at this time, but an 80-acre farm belonging to Louis Sorenson was sold by August Dunklau for \$200 an acre. The improvements are not much more than average.

The yellow peril isn't a rice but a streak.—Schenectady Gazette.

Bones Of Mammoth Found At Orchard

Orchard, Nebraska—George Edwards, farm youth residing about eight miles north of here, has been unearthing the bones of some extinct mammoth. The bones thus far unearthed seem to indicate the presence of a valuable deposit that was made in this part of Nebraska during the ponderous beast age. The animals are thought to have died in some river, where the bones became embedded in mud, which later turned to rock or hard clay.

Most of the relics uncovered are petrified. Several museum officials are interested in the young man's discovery and they have promised to make an investigation. A few of the bones resemble those of the two-ton hog which is said to have roamed Nebraska prairies 2,000,000 years ago.

Only two skeletons of this big wild hog have been found, and both were found in Nebraska. One now is in the Carnegie museum at Pittsburgh, and the other is in the Nebraska university museum at Lincoln.

Wins Decision.
Homer, Neb.—Dr. Frederick Root and Amanda Herze won a decision of \$8,000 for damages to their farm, three miles east of Jackson, for right-of-way for paved highway No. 20, in district court at Dakota City.

Two boards of appraisers had set damages at \$14,000 and \$10,025, the state rejecting these as too high.
