involve the department in some local difference of opinion such as we have had here. In all these years, Wayne has not acted arbitrarily in this matter. We have many friends and customers on each of the proposed routes.

But such an agreement seems impossible at the present time. Land owners and tenants along one of the proposed routes are determined the highway shall be built their way—the land owners and tenants along the other route are just as determined it shall go their way.

About a month ago our county commissioners received a telephone call from Pierce asking them to come over with some other Wayne men to go over the proposition of securing the improvement of a highway between Wayne and Pierce. The Pierce men had some hint that if we got busy and urged such a road at this time, we had a chance to get some action on it.

While in Pierce we took up the matter of securing the cooperation of Pierce in having this highway routed through Carroll. The way we wanted Carroll to be on the state highway. We could not obtain the consent of Pierce to this change.

To Wayne Herald: During the past twelve years several delegations from Carroll and vicinity have come to Wayne asking our cooperation in securing a graveled highway between Wayne and Carroll. Some of these delegations urged a road east from Carroll which would connect with our Main street road 3 miles north of Wayne.

Why hasn't this highway been built after all this petitioning? The state has been building highways along less important routes. Why have they not built this one? One of the chief reasons, we believe, is that about the time a delegation returned from Lincoln after petitioning for the building of such a road, another delegation took it upon itself to file objections to the proposed route and to ask for a different route.

As a result the state highway department has hesitated to proceed with either road. There is only a certain amount of money to be had for state highways in Nebraska. The gasoline tax raises only just so much money, and there are numerous projects in other parts of the state, which the highway department is constantly being urged to build.

Appeal On Program. Miss Maybeth Bowman and Miss Ida E. Fisher have been asked to take part in programs of the Iowa-Nebraska state teachers association.

Teachers Drop First Game To South Dakota By Score of 7 to 0.

Wayne Teachers last Friday lost their first football game of the season to the Springfield, South Dakota, team by a score of 7-0.

Wayne failed to take advantage of the opportunities to score. Copeland made a 55-yard run which set the team on the road to a touch-down but they failed to tally.

One of the main weaknesses of the Wayne team seemed to be their kicking. Although ten passes were attempted only three of them were completed.

The officials in the game Friday were: Dale, Nebraska referee; De Klotz, South Dakota, umpire; Metzger, South Dakota, head linesman.

The starting line-up was: Newton, guard; Kramlich, guard; Paul, tackle; Sexton, tackle; Ambrose, center; Mahler, end; Owens, end; Kunkle, quarterback; Copeland, halfback; Grubb, fullback; Evans, halfback.

October Ushers in a Promising Home Grid Schedule for October

When lazy, warming Indian summer gives way to the first crisp days of autumn, football season is upon us.

While the Wayne eleven suffered defeat by a small margin at its opening game with Southern State normal last week-end, indications point to a well-balanced and lively list of home games, fought by a team which is expected to come back with plenty of fighting spirit.

Coach Ray Hickman started fall practice as soon as college opened this fall and will continue with five two-hour practices each week until the final game is played.

The drawing power of football is the speed displayed on the gridiron, says the coach, and also the fact that this is the most colorful of sports.

That football training enables players to develop physically is shown by the many light-weight high school graduates who come out for practice and build up real strength and endurance.

F. S. Berry Speaks To Norfolk Club

F. S. Berry's address to Norfolk Rotarians Tuesday last week was voted by members as one of the most interesting programs ever given before the club. Mr. Berry, who was introduced by Judge C. H. Stewart, spoke on "George Washington" and the constitution in a "new and refreshing vein."

Until the people of intelligence in our country begin to take an interest in the government and the constitution, the speaker said, we can expect more and more restriction of our rights and liberties and more and more destruction of that which the framers of the constitution intended it to be.

There is nothing in the constitution itself which takes away a single right from any man, Mr. Berry pointed out, but added that the people have "unkinked" with it and altered it until it is no longer what the constitutional assembly left as a heritage to future generations.
