NUMBER FIFTYTWO

CARROLL BANK ROBBED MONDAY BY THREE MEN

Three Masked Bandits Hold Up Men, Scoop Up Money And Speed Away.

LOSS IS FULLY COVERED

Three masked, shabbily dressed but sufficiently armed and business-like bandits held six men at bay Monday morning in the Carroll State bank, scooped up \$153.85 in currency and cash from the safe and made their escape.

The car which figured in the Carroll robbery, was found by Sheriff A. W. Stephens Tuesday evening 20 miles west of Wayne.

The robbery occurred about 9:30 a. m. and came at a time when only V. G. Williams was in the outer part of the bank.

The bandits then covered County Attorney H. D. Addison, H. L. Bredemeyer and Worley Benshoof who were in the front office and Lew Guble who just entered the bank and picked up V. G. Williams on their march to the rear of the bank.

While the shorter one of the two robbers kept the other five covered, the other forced Patton into the vault and forced him to open the safe.

The robbers were evidently nervous and new at the bank robbery game since they missed a considerable amount of securities and currency in the safe and also over-looked \$29 in currency lying in plain sight on the ledge inside the cashier's cage.

The bandits appeared to be young men of about 21 years of age. They were dressed in light overcoats and work clothes.

The whole robbery was over in a few short minutes and pursuit was organized at once. However, with a few minutes head start, the bandits were easily able to elude any pursuers.

Many Sign Petition. John Halle of St. Helena, Neb. for many years a worker in behalf of the Meridian highway, was in Wayne the last of the week securing signatures on a petition asking congress to widen and surface the highway which extends from Canada to Mexico, through Wayne.

Crime Prevention. Speaking of crime and its cost, it is said the average expense incident to keeping a man in prison is \$600 per year.

Inclemency of Fortunes. An insurance company announces the startling discovery that of 180 men, from 25 to 65 years old, only one is rich.

MORE EFFORT TO EXTEND BUSINESS LESS TO REDUCE

LARGE employing institutions, sometimes reduce overhead to a point that so weakens service that the chance to reduce loss grows less.

The railroads have complained of lack of patronage and have necessarily cut costs of operation, but they have neglected to attempt recovery through tolling shippers what can be done for them in the way of rates and service.

The railroads and other employing organizations might well do less retrenching and get more vigorously behind a movement for more business.

Speaks on Schools.

"What's right with our schools?" Prof. K. N. Parke asked in his radio talk Saturday. So many have been criticizing the schools that Prof. Parke took occasion to tell "what's right with the schools."

"First," Prof. Parke said, "the American school is a school for all the people." All groups have equal opportunity.

"Second," Prof. Parke added, "the American school is free and open to all. Less than 100 years ago many schools on this continent were tuition schools."

"Third," (the American public school is supported by public taxation. We are coming to recognize that the public school is our greatest productive institution.

"Fourth," Prof. Parke said, "the American public school is controlled by all of the people. No 'upper' class dictates what shall be taught. No religious group uses it as an instrument for extending its creed."

"Fifth," the American school offers a complete education. That is as it should be in a true democracy.

"Sixth," the rapidly increasing growth of attendance reflects a growing confidence in the schools. In 1870 six children out of every 10 between ages of 5 and 18 were enrolled. In 1925 more than eight out of 10 of the same ages were enrolled.

D. P. Miller Speaks.

President Roosevelt has submitted to congress his plan for farm relief. D. P. Miller began Tuesday in his radio address, and the basic purpose is to raise the price of farm products.

Briefly the president wants: First, the power to obtain, by contract with farmers, a voluntary reduction in acreage or production of certain crops, in return for which reduction, producers will be compensated by means of rental or benefit payments; second, the power to impose taxes on the processing of basic farm products; third, the power to enter into marketing agreements with the processors, marketing agencies and processors of farm products. The intent is to get together the producer, marketer and processor and have them decide what plan of acreage reduction and what scale of tax on the processed goods may be best.

"There would probably be two major classes of contracts with the farmer. In each the farmer would agree not to use a certain portion of his land to raise restricted crops. He could use this to raise crops not restricted. In return for this the farmer would be compensated either by being paid flat cash, rental for this unused land or the government will return to the farmer the processor's tax it collects on each bushel of the product the farmer sells.

From California we received some pretty booklets entitled "The Land of Oranges." On the last page of each is a place to keep a weight record. Children were measured and weighed and the average weight table used to see how much each one should weigh. The records will be kept for each month.

Dorothy Renz visited the school all day, March 24. The visitors' list now numbers 15.

Covers for the Good American booklets were made Friday. Boys who could correctly state the five rules of a good American were given cardboard copies of Billy Bumps and paper patterns for his coat and cap. Girls likewise received copies of Dolly Dingle and patterns for her coat and hat.

Marjorie Harrison was absent March 31. Other attendance was perfect for that week.

In the health contest Sunbeams are still leading the Wideawakes by several points. In a new arithmetic race the liquid in the blue thermometer has gone much higher than that in the red, those on the blue side are Marjorie Harrison, Warren Renz, Rosalie Korn, Junior Noakes and Melvin Korn. Plans for perfect attendance at both church and Sunday school during the entire year, were awarded to the following last Sunday morning during Sunday school exercises: Harvey Podoll, Donald Podoll, Frank Flier, Elwin Trautwein, Adelyne Most, Vernon Nelson and Rev. Most. Recipients were given their choice of cross or star badges set with their birthstones.

A meeting of Sunday school teachers and officers was held at the H. G. Trautwein home Tuesday evening of last week, with all but one teacher present. Subject for discussion was "Expressing the Creative Power." Plans were made for children's day rally. A new junior Bible class was formed with Mrs. Ed. Weible, superintendent of the Sunday school, as teacher, and Mrs. Thorvald Jacobsen will teach the intermediate Bible class now taught by Mrs. Weible. The change will take place after Easter. It was decided to have a class attendance banner for the Sunday school, and Mrs. Herman Podoll volunteered to make it. Name of the class with largest attendance will be posted on the banner each Sunday.

**Our Roots are in the Land**

There is a dignity and importance in the work of the farmer. He follows the oldest and most basic of all industries.

He stands as a symbol of security, for though investments may fail, the regular rotation of seedtime and harvest continues. His is the most tangible of all returns—food—and the most powerful.

It is our function to aid him in directing this power so that it may be directed into the most fruitful channels not only to himself, but to the country. Our wide facilities and experience will help him to develop his business—for it is a business.
