THE WAYNE HERALD

E. W. Huse, Editor and Proprietor. The Oldest Established Paper in Wayne County. Published Every Thursday. Entered at the postoffice at Wayne, Nebraska, as Second Class Matter in 1886 under the act of March 3, 1879.

The Herald's broadcast experiment by remote control with WJAG, popular Norfolk Daily News station, has been maintained for three months. The service has been kept up without financial profit.

Undoubtedly advertisers have been generously rewarded, but just as certainly they cannot use the radio to the exclusion of the newspaper and score equal advantage.

The radio tie-up is the most daring venture the Herald has ever undertaken for Wayne—especially daring at a time of economic uncertainty—but also it is its most stimulating contribution to public service.

Primary Market VERY old-timers remember when local demand determined prices for live stock. Time was when possible consumption and apparent supply in the immediate neighborhood regulated the market.

Inflation Will Be Controlled. Omaha Daily Journal-Stockman: A good deal of loose talk is going around about what can be expected in this country with the currency inflated.

Expect Normal Registration. Wayne college training school orchestra, under direction of Prof. John R. Keith, provided music for the Wayne Herald radio broadcast last Thursday morning.

MOTHERS' DAY. Next Sunday is Mothers' day, and the occasion elevates life's most valuable relationship, most cherished memory. The hardest human specimen is softened by recollection of his mother.

demand, would seem to encourage violence. Let us hope that conditions will so right themselves that farm communities will not be further handicapped in the struggle back to normal.

We notice A. C. Townley of St. Paul, Minn., was one of the speakers at the farm holiday meeting at Des Moines last week when a proposed farm strike was considered.

In this week's Wayne Herald will be found a picture of the State Teachers College Training school orchestra as it appeared in recent broadcast from the Herald studio under direction of Prof. John R. Keith.

The session of the state legislature was prolonged beyond the hour set for adjournment in order to dispose of business that hung fire longer than expected.

Another farm organization is proposed in Minnesota with "Farmers' Civil Disobedience League," as the name suggested for it.

Twenty are being selected from Wayne county for reforestation work. It is hoped some local enterprises will give employment to those who fell outside the county's quota.

Some rain has fallen here the last week, and it is all needed to soak the soil to a proper depth and give crops a healthy start.

Inflation means a cheapened dollar. In other words, the dollar will buy less of the things offered in the market.

Expect Normal Registration. Wayne college training school orchestra, under direction of Prof. John R. Keith, provided music for the Wayne Herald radio broadcast last Thursday morning.

MOTHERS' DAY. Next Sunday is Mothers' day, and the occasion elevates life's most valuable relationship, most cherished memory. The hardest human specimen is softened by recollection of his mother.

An Impractical Scheme. Norfolk Daily News: The cost of production section, which Senator Norris and others sought to attach to the farm bill, against the wishes of the administration, is a politician's measure.

While congress is considering solution of farm problems, the National Farm Holiday association in session at Des Moines has called a farm strike to start May 13 and has instructed an executive committee to fix an embargo on foodstuffs.

OPTIMISM.

There are many sound reasons for encouragement. One thing that should make Nebraskans feel especially serene is the fact that among all states, Nebraska is in the best financial condition.

MOTHERS' DAY.

Next Sunday is Mothers' day, and the occasion elevates life's most valuable relationship, most cherished memory. Firemen Lily Pool To Have Fountain
The bread of charity that Wayne cast upon the waters of homeless wanderers has come back, in a measure, in the Lily pool that will beautify the east lawn of the city hall. The excavation is completed and transients who asked for lodging in the city jail dug it.
The pool is about 18 feet in diameter and when complete it will be two and half feet deep. In the center a fountain will spray its water over the lilies and water flowers to be put in the pool. Around the edge a rock run will be built.
The plan is to cement the pool and A. E. Davison will direct the firemen who will do the cement work. The fire department is building the pool. The committee in charge of the project includes J. M. Pile, chairman; Willis D. Noakes, S. A. Hemple, R. L. Carpenter, M. L. Ringer and A. E. Davison.
