Editor F. D. Stone in Hartington Herald: One of the most instructive features heard over the road from the broadcasting studio of the Wayne Herald was a series of questions and answers in regard to the gold standard. This is a current problem in which everybody is interested but about which almost everybody has quite vague ideas and the attempt of the Wayne newspaper to inform the public is timely. Editor Huse asked Prof. Lewis of the Wayne State Teachers College a number of questions and, while not claiming to be an expert on monetary standards, he elucidated the subject very satisfactorily. Gold, he explained, is an arbitrary standard adopted for the sake of convenience and "going off" the gold standard means a temporary or permanent abandonment of the gold dollar as the measure of value. That inflation of the currency might be dangerous, the Wayne educator did not deny, but he seemed to think that the economic situation demanded some such radical policy.

Nebraska Crop Report For May

Another abnormally short winter wheat crop is in prospect for Nebraska. The downward trend in planted acreage and an abnormally heavy abandonment in western Nebraska party account for the short crop.

Out of 2,890,000 acres of winter wheat sown last autumn, a total of 2,023,000 acres remains for harvest. About 30 percent of the sown acreage was abandoned.

The abandonment was confined largely to the western two thirds of the state and particularly the western third of the state. The estimate of abandonment is 30 percent as compared with 32.6 percent last year making it the third highest abandonment on record.

Considerable of the wheat left for harvest is very thin and some of it may yet be abandoned if the weeds get ahead of the wheat. However, weather conditions have been most ideal for the past three weeks for stubbling of wheat.

Out of a total of 356,000 acres of rye sown last fall for all purposes, there remains for harvest 214,000 acres. The condition is 72 percent and the forecast 2,140,000 bushels. Last year, 283,000 acres were harvested and the production was 2,830,000 bushels.

About 16 percent of last year's hay crop remains on farms. Larger supplies are accounted for by the fact that last year's hay crop was good, shipments were lighter, the demand for hay for feeder cattle was reduced and most of the winter was open and required less feed.

Out of 39,985,000 acres of winter wheat sown in the United States last autumn, a total of 27,096,000 acres remain for harvest. This is an abandonment of 32.2 percent or 12,889,000 acres. The condition of winter wheat is 66.7 percent and the estimate of production 237,485,000 bushels.

Plan Poppy Day Sale For Wayne

To America, now going forward in a great drive against the economic enemies which have invaded the country, comes a message from the men who fifteen years ago were giving their lives in defense of the country.

Parents' day and honor the supreme sacrifice our war dead made for America. A country which remembers deeds such as theirs cannot be indifferent to present calls for patriotic service.

The women of the American Legion Auxiliary, who will bring up the poppies of poppy day, are carrying out a very valuable work for the country. With their memorial flowers they are helping keep alive a memory more precious than any material riches—the memory of men who were willing to die that America might live in freedom and happiness.

County Officers At Norfolk Meeting

Frank Erickson and Miss Bertha Berres of Wayne and David Koch of Winside, represented Wayne county last Thursday when commissioners and clerks of 13 north-east Nebraska counties met at Norfolk to discuss laws.

Division of tax money, officials' salaries, mileage of county officials, care of poor, semi-annual payment of taxes, control of bind weed and old age pensions are among the topics.

Some of the officials voiced disappointment over the automobile license fees and the distribution of the money, pointing out that counties will have to greatly curtail their highway improvement programs.

Under the new law, the counties will receive one-half cent more of gasoline tax monies, but 10 percent of the amount will go to cities to be used on street work.

During the discussion of the new law pertaining to semi-annual payments of taxes, it was brought out that work in the county treasurers' office will be practically doubled, and the work in the county clerks' office will be increased.

The blind pension law, county officials understand, will be enforced somewhat like the present palmer law in that if there be a relative financially able to take care of a blind relative without support, he is compelled to do so.

Week Proved Best Of Year In Stock

A report of May 13 from the Sioux City stock market states that the current week proved by far the best of the year for the producer and seller of live stock.

All classes of stock mounted to new high levels, although trade continued uneven. The gratifying feature was the fact that the advances were scored in the face of heavy receipts in practically all departments with liquidation of fat cattle heaviest of the year to date.

Advances were general throughout the industry, with top fat cattle equaling the best level since January, barring one sale last week, and with the average cost of fat cattle on the Sioux City market, the highest since in November.

The hog market in the continued advance, featured by a sharp spurt Friday went to the best level since last August.

In the general trade, cattle are quoted largely 25c higher than at last week's close, hogs fully 50c higher and lambs 50c to 75c higher.

Markets that affect the general trade continued to give outstanding support. Hides are highest in many months, and more than doubled prices at which they averaged throughout all of 1932.

Under the new law, the counties will receive one-half cent more of gasoline tax monies, but 10 percent of the amount will go to cities to be used on street work.

PRESENT PLAY ON WEDNESDAY

Shakespearean Favorite Will Be College Feature On Commencement Week.

The dramatics classes of Wayne State Teachers college will, on Wednesday evening, May 24, 8:15, present "A Midsummer Night's Dream," probably the most universally popular Shakespearean comedy. Three distinct themes run through the play and constantly intermingling.

As part of the festivities preceding the wedding of the Duke of Athens to Hippolyta, queen of the Amazons, the duke has ordered the Athenian youth to prepare some entertainment.

Egeus, an Athenian, brings his daughter Hermia before the duke with the complaint that she refuses to obey her father's command to marry Demetrius, choosing instead Lysander, whom she loves.

In the fairy kingdom in the woods, King Oberon, piqued by a disagreement with his Queen Titania, orders Puck to procure love juice which when put on the eyelids of those who sleep, will insure their love for the first person she sees on waking.

Bottom, the weaver, and his friends appear to rehearse the play they are to present before Egeus. Puck, in fun, puts an ass' head on Bottom, which frightens his friends away.

Meanwhile Oberon finds out Puck's error in administering the love juice and corrects it by touching Demetrius' eyes himself, so that Demetrius, waking, and seeing Lysander making love to Helena, becomes jealous and wants to fight him.

Bottom, finding Titania making love to Bottom, removes the spell from her eyes, and restores his normal shape to Bottom, who at once returns home with his mind full of the wonders he has seen.

Thesens and Hippolyta, hunting in the forest, find the lovers, Helena and Demetrius, and Hermia and Lysander. He is delighted with the settlement of their love affairs and invites them all to a feast at Athens with him.

There is a wedding feast for the three couples at the palace of Thesens, after which the crude and amusing play of Bottom and his companions, entitled "Pyramus and Thisbe," is presented.

In the night the fairies dance through the house singing songs of blessing on its occupants.

The vocal music incident to the play is being directed by Prof. H. H. Hanscom and Miss Ardath Conn. Mrs. Doris Childs is pianist. Two of the dances were composed by Louis J. Chalif of the Chalf Normal school of Dancing while the clown dance has been composed by Miss Drake.

Each room in the Hoskins public school is planning a picnic for today if weather permits. School closes Friday. Final session of Hoskins public school will be held Friday, May 19, according to Prof. Russell Mellberg.

Members of the 10th and 11th grades at Hoskins high school and their sponsors, Miss Carrie Stamm and Miss Marian Behmer, and three drivers, William Langenberg, Harvey Anderson and Leo Jordan, "sneaked" a week ago Monday and enjoyed a full day of activity. They visited Niobrara and Yankton, then went on to Sioux City where they were dinner guests of Tom Kirby, and also were his guests at a show later. Some of the visitors attended the boxing match.

Banquet Is Well Attended. The Hoskins Evangelical church was scene of a large gathering at a week ago Tuesday evening when annual mother-daughter banquet was held. Over 100 attended. The program included the following numbers: Toastmistress, Mrs. Clarence Schroeder; instrumental number, Ruth Jochens; toast to mothers, Evelyn Walker; response to daughters, Mrs. C. Schmidt; tableaux, "Childhood Days, School Days, Sweetheart Days, The Wedding and Motherhood," a solo, "Mother Machree," sung by Clarence Schmidt.

Original Settler Of Hoskins Is Buried

William Lalk who homesteaded the Hoskins townsite back in 1877, and who farmed many acres of the surrounding country, died at Ashton, Idaho, a week ago Sunday, and was buried at Fort Atkinson, Wis., Friday afternoon. Mr. Lalk was about 78 years of age. He came to this country as a young man of 22 and took out a homestead which included the land upon which the town was built. About 1885 he went back to Fort Atkinson for his sister, Miss Anna Lalk, now Mrs. August Behmer of Hoskins. Later he sold the land which later became Hoskins, to the railroad, but continued to farm in this vicinity. He built many houses and always planted trees around them for what was a great love of trees. About 34 years ago Mr. Lalk left for Ashton and has made his home there since, continuing his work as mason and carpenter. He had never married. Besides his sister, Mrs. Behmer, he leaves a niece in Hoskins, Mrs. Walter Ohlund. There are three other sisters and a brother living.

"It's a good thing we had the telephone to call your Daddy!"

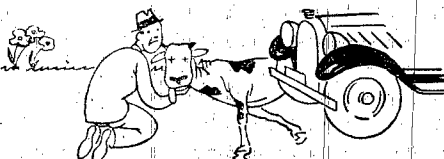

An experience that brought home to this family the priceless value of their telephone.....

A woman went to the home of her son to take care of her grandchild, less than a year old, while her son and his wife were away. After they had left, she began to feel ill. She telephoned her son, who came home and found his mother unconscious. With treatment she revived.

Had there been no telephone, it might have been hours before she was discovered. And the baby would have been in danger, too, because there was no one else in the house to look after him.

May 9, 1933

A great thing has occurred amongst us. We have made a complete turn-around, and at last America's face is toward the future.

Three years—1929 to 1932—we Americans looked backward. All our old financial and political machinery was geared to pull us out of the depression by the same door through which we entered. We thought it simply a case of going back the way we came. It failed. We now realize that the way out is forward—through it.

Thanks for that belongs to President Roosevelt. Inauguration Day he turned the Ship of State around. Having observed the failure of sincere efforts to haul us back the way we came, he designed a new method—new political and financial machinery—to pull us out the way we are going—forward. He is clearing international obstacles out of the way; he does not stand in awe of tariffs. The people begin to feel that he does not take advice from the "interests"; that he has courage and loyalty to work for one supreme interest only—the welfare of the American people. That is a big achievement for two months in office.

And now we all look to what is coming; we grow less and less concerned with what is behind. We are looking for a hand-hold on the haul rope. Every man wants to do what he can, and all he can.

The best thing I can do for the Country is to create industry by building good motor cars. If I knew anything better to do, I would do it. Industry must be my contribution. Motor cars must face ahead to the future, like everything else. They are so much a part of the Nation's daily life that if they lag behind they hold the Country back.

GRADUATION 1933

Graduation time brings its vanguard of social events, and class parties, reunions, teas and banquets are included on the calendars of local graduates. Perhaps a few suggestions for favors and games will not come amiss.

Amusing party favors can be made from school supplies and will add much to the merriment of a dinner or bridge. Long narrow erasers form the bodies, and features are made from gummed dots or drawn on the flat end of the eraser. Wire card holders are stuck in the sides to form arms and legs and can be bent to form feet. Dress them as desired, with cotton whiskers, tumbled hair, black lace mantilla and Spanish frock of crepe paper, policeman outfit, black commencement robe and hat with diploma in hand. Or you can dress the erasers to represent, the guests.

Clever favors may be made by cutting out linen squares in handkerchief size, and applying these with weep penknives bearing the school letters. Use the school colors.

"Future" parties are fun at graduation time. When guests arrive, present each girl with a corsage of spring flowers, in which is hidden some trinket affording a peep into the future, such as wedding ring, tiny thimble, silver coin, pen point, button, etc. The ribbons on these may run in pairs, so that two girls having rose ribbons will sit at the same table. The boys might find their fortunes hidden in a Jack Horner pie which has rib-

bons in the school color running to their places, and a trinket attached to end of each. Table covers might be in pastel shades, or in the school colors.

"Around the Corner" Party.

With the renewed feeling of optimism, an optimistic party would be enjoyed: As a starter, try "Rockefeller low." Three or four guests are secretly given dimes, and the others are told that there is a millionaire in the crowd who will pay a dividend to the thirteenth person to shake his hand. Heated hand-shaking follows and the dime-bearers keep count and present their dimes to their thirteenth handshaker.

For "Barter" slips of colored paper are hidden around the room and at a signal everyone starts to hunt them. As soon as all are found, the players begin to buy, sell or trade for the colors they consider luckiest. At end of a few minutes, leader announces value of each color, and the one totalling the highest count receives a toy bank as a prize.

"Auction sale" is played as follows: Chairs are arranged in a circle, one for each player but the auctioneer. Each guest is given a slip on which is written the name of a farm animal or implement. All players stand inside the circle of chairs and the auctioneer takes one slip, reads the name of the article he is about to sell and then gives a brief description of it. After active bidding the auctioneer says "Sold" and everyone scrambles for a seat. The one left standing becomes the next auctioneer.
