world, and this picture presents just that. The Barbarhan. Friday and Saturday. As a change from the overflow of stories concerned with city ife, "The Barbarian," starring Ramon Navarro, is described as a Roman-tic comedy laid in the colorful atmospheric background of the Nile river and the Egyptian desert. Navarro is seen as a resourceful rogue ostensibly occupied in the legitimate business of guiding tour-ists through the picturesque pyra-mid sight-seeing country, but more subtly engaged in the more roman-tic activity of impressing wealthy widdows with his charms. It is a new kind of "raghet" and one said to be as diverting as it is ingenious. Into the story enters Myrna Loy as a young English girl who has come to Gairo te marry the somewhat slow-witted engineer of a new ac-sueduct. Navario enters her emvevening. with his Homer returned home parents, Mr. and Mrs. John Leuck of Lincoln visited in the F. S. Utecht

effort will be lost. "The core of the recovery effort is fairs ness—fairer competition and fairer wages. It neccessitates the cooperation of employ-ers, workers and consumers. It entails in dividual sacrifices in the interest of the gen-eral welfare. The government is a kind of umpire to see that, no one takes advant age or breaks the rule, which fundamental-ly is the Golden Rule. The expert duty of an umpire cannot be handed over to a war-time hysteria among 720 000 000 peop

me hysteria among 120,000,000 And the spirit of boycott and of bit s is the antithesis of cooperation, of irit of brotherhood which alone will the recovery program to full success

Special VOTERS of Wayne are asked **Special** VOTERS of Wayne are asked to go to the polls next Tuesday **Election** and vote on a proposition to is-sue \$25,000 in bonds for a community house. It is understood the federal gov-ernment will cash the bonds and contribute an additional amount, around \$12,000, for the building project. The Wayne Wo-man's club will contribute \$6,000. The improvement depends on voting the bonds. If the bonds carry by the required sixty per cent majority, construction is expected to start in another month.

the enterprise is defeated through to vote bonds, it is unlikely in some year the government would be it ion to contribute a share of the funds is not certain that delay would find oman's club ready, as now, to add it coumulations. Building at this time s. Building at this tim jobs during an emer doubtless through com lso furnish od and would make considerable re unty doles which would hav

to be met by taxpayers. If the building is ever to be built now is the time to build it. Its need lies in capac-ity and conveniences to accommodate large crowds. It would answer demands now pressing on the city school for additional quarters. It would help keep the town from slipping in the direction of village pro-portions, and thus would safeguard future property values. Every private invest-ment is insured by every public investment, and the future of a community is largely determined by the public spirit and for-ward-looking resolutions of its citizens. The vote on the proposed bond issue next Tuesday will show which way we are trav-eling.

A recent magazine article explains that congress in 1920 authorized the war de-partment to arrange for the next war in a way that would require equal participation of all persons and all property. Wages and all values would be kept at peace-time levels with no chance for anyone to prof-iteer. This arrangement makes large headway in the direction of permanent peace.

Again the president admonishes people to quit hoarding gold. We would advise the chief executive that this section is en-tirely free from the objectionable habit. Neither is any other kind of money being hoarded hereabouts, as far as we are able to observe or learn or learn

The way to continue in a place of auth ority is not to abuse it. The less one who is trusted with high place and large power, betrays a secret belief that he is divinely ordained, the longer he is likely to be per-mitted to stick and draw the usual emolu-

ocutember is just around the corner, and the year's harvest is either completed or assured. Soon the air will bear a touch of frost, and vegetation, coloring and with-ering, will perish. Then winter—a short one, it is hoped—will be upon us. September is just around the

Si-can boycott is inconsistent with the lage is a cheap, succulent feed that is well by identified with the NRA movement.

The sild has proved to be a life saver to many farmers during the past few years where their feed supply has been cut down by drouth or adverse weather conditions. Many farmers are again turning to the silo as a means of preserving immature or another instance of preserving immature or built instance of preserving immature of preserving imma

Many farmers are again turning to the silo as a means of preserving immature or drouth-injured crops. Placing crops in the silo increases their feed value and makes good feed out of roughage which otherwise could not be utilized. By all means the silo should be filled this fall and if possible additional silage space provided even if it has to be a temporary or trench silo. silo

Farms And Farming. (Omaha Daily Journal-Stockman) Anent the continual advice of the social writers to move back to the farm, the in-clination of people from time immembrial has been to go to the cities to live. The country apparently has all the natural ad-vantages, and in recent years most of the artificial advantages, and yet the urge to move from the farm to the city is as strong as ever.

move from the faint of the task as ever. "There is no denying the reasonable-ness of the ruralist's case," declares the Herald-Tribune. "City air is bad. Noise is terrible. Overcfowding gets worse and worse. Summer heat is all but unbear-able. Smoke soils one's cloths and smells affend one's nostrils. able. Smoke some offend one's nostrils. "Farms now hav

offend one's nostrils. "Farms now have good roads and auto-mobiles, bathrooms and running water, electric light and home refrigeration, the same radio stars as anybody else and the same movies in an uncrowded theatre in some nearby town, often closer either in miles or minutes than many a city dweller to theatres he attends. In comparison with the city, farm life sounds like paradise. The only trouble is that nobody wants it. "There imust he some urban lure potent only trouble is that nobody wants it. "There must be some urban lure poten and universal. We suspect that it is ex

"There must be some urban fure powers, and universal. We suspect that it is ex-citement." We are persuaded that need of keeping interested is as deep a human necessity as love of food." As a matter of fact, people are going to consult their own tastes and inclinations in picking their places of living and no amount of exalted advice is going to change matters. And it is just as well that we are so constituted. It serves to maintain a healthy halance of city and country living that amount of expert advice could creited. It serves to maintain a lance of city and country living count of expert advice could cre ate.

Without much question, a great deal of the activity in business and improvement in general conditions, noticeable during the past two or three months, have been di-rectly due to the increased buying power of farmers on account of the higher prices commanded by farm products. When the former, the the more the increased farmer has the money, he is certainly good buyer.

farmer has the money, he is certainly a good buyer. Now the commercial reports have it that the slowing down of business recently is just as directly traceable to the slump in prices of farm products. After mount-ing steadily month by month since March, farm purchasing power is said to have re-ceived a sharp setback between July 15 and August 16, the opening of harvest seasons for many crops. The bureau of agricultural economics announces that purchasing power of farm-ers, as of August 15, was 64 per cent of the average for the pre-war, period, 1909 to 1914. In June it was 62 per cent, then moved up steadily to 71 per cent of pre-war on July 15. Another explanation is that the prices of what the farmers buy have advanced sharply while prices of what they sell have been declining for two or three weeks. At any rate, this condition appears to be clear-

ny rate, this condition appears to be clear reflected in the slowing down of business

ly relected in the slowing down of business in every section of the country. The current number of the Annalist points out one definite consequence of this rise in farm income. Sales of mail-order companies are running above those of a year ago, despite the fact that their selling prices are still below the level of last sum-mer.

It is worthy of note that the whole cou is come to an appreciation of the vita sity of a strong agricultural buying r in any program of business revival ed. the clined the nati farm prices de drooped. Th prosperity lies in profitable agriculture.

"All together for the long pull and th strong pull that will take us up the hi again." — Daily Sentinel, Fairmont, Minn. hill

risis — .... time ets of recov was immed fourteen years ago If our forefathers could estab-lish orderly society in the face of a foreign foe and of hostile Indians, if the north and south be reunited after nal.strife, we can, ould be with de ed to thing thing to do with. Woring back prosperity on fundamental prin-ciples. Qualities inherited from oburageous antecedents are cer-tain to be reflected in stalwart mastery of present difficulties. We need fortitude and patience, and we may feel certain that out of the crucible of trial will oom a stronger nation and an advanced civilization

FOR SALE!

An improved Cuming county farm

of 153 acres.

Located 11 miles south of Wayne and 9 miles

northwest of Wisner.

This farm is being offered to settle an

estate. It is an exceptionally good

farm with a very good set of improve-ments consisting of a 2-story, 8-room house, barn,

double crib, hog house, granary and other build-ings, water works, two wells, 30 acres in pasture with running water, balance under cultivation. The plow land is mostly smooth bottom land and

very highly productive. This is one of those farms that will raise 50 bushels of corn when the ordinary average is 30 bushels.

# **BUY THIS TIRE**

S Prices are marching up. But if you act in time you can still buy Goodyears at prices shown here—and most of them lower than they were last fall ... Look at this new 1933 Goodyear Pathfinder. With FULL CENTER TRACTION, 20% thicker non-skid tread, and stouter Supertwist Cord body, it turns in more miles, more blowout protection, more safety, than you could get from any tire costing four times as much a few years ago . Now is certainly the time to replace worn, dangerous tires with Pathfinders all around, No one can guarantee how long today's still low prices can last. We have your size. Be sure to get Goodyear

The Scope And Purpose Of The President's Emergency Re-employment

Campaign

The President's Emergency Re-employment Campaign may be described briefly as a plan to add from 5,000(00) to 6,000,000 persons to it the nation's payrolls within the nation six weeks or so, through agreement made with the Freiden of the United States by some 5,000,000 concerns or individu-als, employing two or more persons each.

or the United States by some 5,000,000 concerns or individu-als, employing two or more person's each. In order that this number of jots may be finde available it will be necessary, of course, for employers in many cases to shorten working hours. The pit also provides for certain minimum wage scales, which also in many cases will mean added labor costs for the employer and the employer, while undertaking a larger expense as the direct result of his agreement, howeveer, includes a piedge of cooperation from the consuming public, and it thus anticepat-ed that the employer, while undertaking a larger expense as the direct result of his agreement with the President, will gain added patronage as the just reward of his public spirit-ed attitude. The fact also is to be borne in mind that where all em-ployers act together to put people back on their payrolls or to raise wages, no employer, as the President himself has pointed out, "will suffer because the relative level of .dom petitive cost will advance by the same amount for all." It is to be understood that this plain is supplementary, to the plan of code adoption by various industrial and frade indor, the spread of employment and the control jurgduc-tion. This plan for speeding business provery. Jaurdhed under the provisions of the National Recovery Act passed by the last Congreess, is rapidly being made affective, and there will be no let-up on the drive to make its adoption widespread. The President's Emergency Re-employment plan will bridge time and bring the nation.out of the depression more variavity. The President's Agreement alls covery many usiness groups that would not be amenable to any of the code arrangements.

repidly than if the code adoption plan were depended upon exclusively. The President's Agreement 'also covers' many business groups that would not be amenable to any of the code arrangements. And what is still more important, perhaps, the President's Emergency Re-employment campaign carries certain psycho-logical values that are as priceless as patriotism at this junc-ture of our economic history. The President 'mixelf made this duite clear in his recent radio address to the nation when he said: 'On the basis of this simple principle of everybody doing thigs together, we are starting out on this nation-wide attack on unemployment. It will succeed if our people understand it—in the big industrics, in the little shops, in the great cities and in the small villages. There is nothing com-plicated about if and there is nothing particularly new in the principle. Tig goes back to the basic idea bf sodiety, and of the Nation itself, that people acting in a group can accomp-lish things which no individual acting alone could ever hope to bring about.'' \* Thus we have all the power and pottievely of mass, attack directed along sound lines of ofranization and system. Here briefly, is an outline of this organized tack on uneimploy-ment.' In every community, organizations, are formed along military/lines, which is fitting enough, hecause the Presi-dett's/Emergency Re-employment campaign is. Uncle Sam's war of unemployment and the nation is radifing to the colors just as loyally as though we were actually engaged in a war argainsit a foreign for. The local committees in the thousands of of the and ind business and civic organizations and includes has the tamayor. These committees in the thousands of the lead-ing business and civic organizations. In the dead-ing business and civic organizations and includes has the transide letters see by General solets; three colorels/leach of whom is to take over a certain part, of the anaty general whon is a wyman. The general solets; three colorels/leach of whom is to take over a

with educational and inspirational material of all kinds from the National Recovery Administration in Washington. Literally tons and tons of printed matter have been shipped/to every igok and corner of the country.
The N. R. A. emblem, known popularly as the Blue Eagle, is one for the most interesting and vital features of the camparing and the words. "A second secon

or use united states Government and may not be used or reproduced without authority of the National Recovery Administration. The lists of all employers who sign the President's Agreement are displayed in local post-offices and it is urged that all employers who have not yet signed the agreement ido iso immediately and deliver them to their local post-matter in the president's Agreement with employers is, briefly, as follows? Any employer of a factory or mechanical worker or artisan must not pay thim less than 40 cents an hour or work him imore than 26 hours a week, except that if the employer were paying local for the molecular of the president's an hour as the all other employees those on a weekly fate—the employer can pay that rate now, but not less than 30 cents an hour as to all other employees those on a weekly fate—the employed population; or \$14.00 a week in cities of between 25000 and 00000; or \$14.00 a week in cities of between 2500 and 200000 population; or \$14.00 a week in dites of less than 25.00 appulation, and the employer agrees not to work this class of workers more than 40 burrs aweek. As it comployer as the higher paid employen. As to all ours a week is differences as between 2,500 and 200,000 population, or \$14.00 a week in differences as between 2,500 and the should generally keep the usual pay differences as between the lower and the higher paid employer. And after August 31, he must not work children lunder 16 years of age. There are, of course some other rules which apply to special cases, but the terms of the agreement as here outlined dover the large bulk of cases. utiner allerit
