AUDITED LIST INTO 3,000 Nebraska Farmer OCT 1933

NRA MEASURES ARE EXPLAINED

Supt. H. R. Best Urges Clear Thinking in Study Of Modern Problems.

The economic situation as interpreted in the general attitude of the people, in the situation in the east, and particularly in reference to Columbia university, was discussed by Supt. H. R. Best in his address before Kiwanis club Monday noon.

"If we are going to get any place as far as studying the present situation of change and uncertainty, we must get away from all traditional thinking and from stereotyped habits—we must learn to view things in a rational manner," said the speaker. "Just because one differs with us in thinking is no reason for labeling him a communist or bolshevik, no matter how close he may approach these two so-called enemies. The country would be better off today if we'd quit listening to those who rave against the two dangers, as well as to those who advocate them. Communism is a dead issue today; it's only importance was in its industrial policies and the NRA has taken all thunder out of these!"

"Russia is not a communist state. In fact it is far from it for in adopting a differentiated wage scale the Russians recognized the differences in skill, and thus threw over communist teachings. "Since the World war we have entered a new era, one of rapid changes, and because of these changes many of us have been disturbed and unhappy. The main objective of education today should be to keep people from becoming unhappy—to orient them to the rapid change through which we're passing. From a political state we've developed into an economic state. The past 200 years have been given over to solving political problems but the next 100 will be devoted to our economic questions. No individual today but would throw over the principles for which his forefathers died, for economic security."

"Our major problem today is not production but consumption. The government advocates the NRA, but doesn't claim it to be a solution for our economic problems. It's merely an emergency measure to bring us out of chaos. Destruction of food and other products will not solve our problems, but will bring us money and help us back to prosperity. The weakness of the plan is that it will result in each farmer producing less, and Secretary Wallace favors reducing the number of farmers. "The codes as drawn up look after the trades, but the whole plan is somewhat unfair to the consumer. Furthermore, the economic recovery act will mechanize labor and so will cause more and more unemployment. NRA authorities say there are 12,000,000 unemployed but this doesn't take into consideration the many who have never held a job, it only includes former workers. In truth, there are about 16,000,000 unemployed in this country at present. Unemployment is not a new phenomenon. We have always had about 3,000,000 unemployed. It is inherent in our industrial system. "Our economic situation in agriculture can't be solved by taxing all the people to pay some of them not to produce food stuffs. However, the farm plan will probably have temporary success, and so will the other emergency measures. About 48 years ago we reached over-production, but were then on the 12-hour day. The 8-hour day solved our troubles, and now the 40-hour week will relieve us again, temporarily. But we must set up machinery to give everyone work and thereby control working time. Owen D. Young, the noted financier, says unemployment is not necessary, but is merely maladjustment, and that we must set up machinery with coordinating and fact-finding offices to study and control the situation. With proper mobilization and distribution of labor and machinery must come an adequate monetary system, for ours is not adequate for this industrial age."

Memorial service was held for J. G. Mines, charter member of the club and former treasurer, who died August 7. Charles Craven made a brief talk, expressing the sympathy of the membership and loss to the community. Harry Craven told about plans for the county fair and urged everyone to attend. Only one visitor was present, George Krampling from Norfolk who was the guest of Charles Brown.

Will Demonstrate Bindweed Control. A demonstration of methods of applying sodium chlorate for eradication of bindweed, or creeping Jenny, will be given Friday at 9 o'clock on the R. G. Rohrke property west of Hoskins cemetery on the road east of the flag pole. Persons interested in bindweed control are invited to attend.

SCHOOL ATTRACTS AMBITIOUS YOUTH DESPITE BAD TIMES

REOPENING of the Wayne State Teachers College this week brought hither many ambitious young men and women. New students have joined the ranks of those who are returning to resume work for college degrees. The city is pleased to welcome these young persons—an important addition to the local population. It is gratifying to note the determination of youth to acquire knowledge despite economic barriers, and be equipped to perform highest service and gain greatest enjoyment when the depression is crowded off the track and opportunities are accordingly multiplied. A new social and business order would seem in prospect, and the youth in training now will undoubtedly find a finer sense of justice evolved from the crucible of present trial than that which hitherto obtained under the influence of an inordinate money mania.

He was later selected for principalship of John Walton Spencer school and four years ago was transferred to principalship of the Silvanus A. Ellis school. He will continue as principal of this school and do the administrative work as so. As administrator Mr. Pile will take the place of M. W. Way who died this summer after serving the school 44 years.

UNSIGNED LETTER FITS INTO OTHER FORMS OF SPITE

IN A period of feverish anxiety when the boycott and coercion and other forms of hatefulness are tempted, the anonymous letter appropriately comes trotting along to complete evidence of nethermost human qualities which contrast with courageous efforts put forth by the masses in a critical time. Just last week an unsigned epistle of poison, threatening withdrawal of business, on complaint that one employee does not need a job whereas some one else does need it, was received by a local dealer. Assumption is that efficiency should be displaced by inefficiency if the latter is in greater personal need. A business head should be told what to do and how to do it, excepting in the matter of paying obligations and keeping off the rocks. The anonymous toward usually assumed false ground, seldom failing to allow reins to revenge rather than rule of facts and reason. He is out to hurt, and delights in seeing his pathway strewn with results of slyly projected javelins of unfounded spite.

REGISTRATION TOPS THOUSAND

Wayne College Enrollment Breaks All Records Of Previous Years.

Wayne city resumed its habitual collegiate air this week as hundreds of college-bound young men and women poured into town, and swarmed over the campus upon the hill. Enrollment shows a sharp increase over any previous year, says Dr. U. S. Conn, and it appears that registration will be 15 to 20 per cent higher than last year. Last year about 700 were enrolled, and this added to the 255 pupils at training school brought complete enrollment to over 1,000.

Dr. Conn states that there were many transfers from other colleges and universities. Quite a number of young folks came hoping to find employment during their college year, and some were compelled to return home, as openings were limited. A marked increase is noted in the number of students taking preparatory work for medicine, law, engineering, and other professions than teaching. New requirements in languages have resulted in greatly increased enrollment in these subjects.

Chapel period Wednesday was given over to general instructions about class work, and announcements of activities during the first few weeks. Considerable repair work was done on the power plant during the summer, and it was necessary to reset two boilers. A new gas contract has been entered into with the Peoples Natural Gas company for fuel during the year, as gas heating has proven very satisfactory to officials.

Grid Prospects Good. Coach W. Ray Hickman is busy organizing his football squad, and while there are not a large number of letter men back, there are some excellent prospects among new recruits. Indications are that about 100 men will try out for places on the team. Harold Walden, A. B. '30, will assist the coach. Mr. Walden has been coaching at Allen the past three years.

Y. W. C. A. Entertains. Collage Y. W. C. A. arranged a get-together in Nethardt recreation room Wednesday evening with new women students as special guests. Grace Walters of Tilden, the social chairman, was in charge. At cabinet meeting Tuesday evening, two vacancies on the cabinet were filled. Arlene Casteel of Randolph, replaces Ruth Armstrong who did not return. She will be in charge of membership. Alberta Simon of Coleridge, will be candy chairman.

BUILDING SITE DECIDED UPON

Option Taken On Lots West Of City Hall For New City Auditorium.

Wayne City's handsome new auditorium building will probably be situated on the lots just west of city hall, as result of action by council Tuesday evening. An option was taken on the two Griffith and Savidge lots on southwest corner of Second and Pearl streets. If the option is taken up the city will pay \$6,000 for the site. All councilmen were present, and all but Dr. J. G. W. Lewis voted for the motion.

Delegation of Legionnaires, representatives of electrical companies and typewriter salesmen waited upon the council, and several important questions were disposed of in the lengthy session. Acting upon recommendation of the electric light committee, the council voted to purchase a Brown-Boveri regulator from the Kormeyer company of Lincoln. After hearing the relative merits of two typewriters discussed by salesmen, decision was made in favor of the Royal machine at cost of \$85. This will be installed in city clerk's office.

The Legionnaires, Dr. William Hawkins, E. E. Galtley and John Brisben, who had been appointed by Commander C. A. Orr, appeared before the council and asked for quarters in the new city building. Their request was referred to the building committee. Ordinance No. 378 which created a new sidewalk district on north side of Ninth street between Windom and Nebraska, was read for the first time and received favorable vote. Rules were suspended and the ordinance passed to second reading. Final action will be taken at next council session. A letter of protest from the owner of property affected, was given consideration but members felt that the sidewalk was needed and sufficient warning had been given.

Canvassing of ballots from the special election of September 5, showed the following results: First ward, for proposed bond issue to build community building, 168, against 37; Second ward, for 265, against 77; Third ward, for 338, against 1; total, for 577, against 132. A total of 709 ballots were cast, and the proposition received strongest support from residents of Third ward where ratio was almost five to one in favor of the issue.

Wheat Acreage WHILE we have a feeling of aversion for waste of food... For destruction of food animals and for curtailment of farm production...

Nebraska's corn crop which ranks second in the nation this year, furnishes ample ground for chest expansion. The Omaha Journal-Stockman explains: "Our 1933 corn crop is now estimated by the department of agriculture at 2,284,799,000 bushels last year."

Samuel McKelvie's Nebraska Farmer advises farmers "to take some of their land out of production and restore its fertility. These are good things to do always and no farmer should feel that it is the duty of the government to pay him for doing them."

The city council has taken an option on a suitable site for the proposed new community hall, and steps will follow to further the improvement with the least possible delay.

will banish fear and establish absolute confidence in the banking system. It will be a powerful leverage in promoting investments and building up trade activities.

A Washington report indicates a prospect for 702 new post office buildings at a total cost of sixty-two million dollars. Wayne wants only one of the 702 post office improvements, and thus only a fraction of the cash to be distributed in that way.

But it looked like headway in the direction of the coveted improvement, and accordingly the band was called out and congress was given a vote of thanks.

Summarizing—two friendly gestures having been flung out by congress within the short time of a half century, it looks as though this town should now share in the benefits of the government's huge building program.

EXCESSES.

We have never tried material excess—unlimited luxury and unrestrained participation in high flying and high living but plenty of evidences show that the experience is not a success—not what imagination pictures it. Over-indulgence threatens ruin, and unless stopped in time, causes ruin.

Man At West Point Killed By Neighbor

West Point, Neb., Sept. 8.—Ed. Forks, unemployed carpenter, shot and killed his next door neighbor, Charles Moulton, former insurance salesman here, shortly before 8 a. m. today and then gave himself up to authorities.

Mrs. Forks said her husband had threatened his family several times and also had threatened to kill Moulton of whom he was jealous. She said he had been drinking and all last night threatened to kill Moulton while she spent the night pleading with him not to shoot the neighbor.

She said she sent her 15-year-old son, Richard, to warn Moulton to leave his home by a different route this morning but Moulton as usual came out a side door which faces the Forks' back door. Forks, his wife said, walked off his back porch and at a distance of about fifty feet fired on Moulton with a shotgun as he started for town. Moulton was killed instantly.

Neighbors heard the shots and found Mrs. Forks consoling Mrs. Moulton.

Moulton was an active insurance man here for many years and a member of the Lions club but for the last two years had been working in a cleaning and dyeing establishment. Both men were about 40 years old.

Moulton was survived by his widow and four children, Charles, 15; Eileen, 17; Robert, 15, and Donald, 13.

Movielites

Don't get yourself all dated up for the week-end, friends, because there's a head-liner due at the Gay—the first film to be made with all-musical continuity. "Melody Cruise" has everything—rhythm, smart modern situations, unique dance numbers, and plenty of songs by that popular radio star, Phil Harris.

Wednesday and Thursday of next week bring a film which provides plenty of food for thought, for serious thought, too. It took pictures like "Little Caesar" to drive home the utter disregard for life and law that gangsters developed with the advent of bootlegging. It remained for a picture like "I Am a Fugitive" from a Chain Gang" to lay bare the horrible abuses practiced in some of the chain gang prison camps. We have had pictures exposing the grafting activities of unscrupulous politicians in local, state and national life. But it remained for "The Mayor of Hell" to open our eyes to the conditions that lead boys, first to reform schools, turn them out hardened criminals to prey upon society. That's the lineup folks, so take your pick.

"Melody Cruise"

Friday and Saturday, Sept. 15-16. Naughtily! Nuttily! Musical! Here's a merry merry musical movie which is an innovation in the movie world. Chorines, wailing sopranos and crooners are absent—in their stead are 36 maidens in rhythms and songs which are woven easily into the continuity. The songs are part of the story, and the musical dialogue takes place of spoken dialogue. Trick photographic effects are made use of—fish are shown dancing on the waves... stars form music bars and shimmering notes in the sky... steamship whistles in varied tones combine in a symphony... an oceanliner waits on its stern in the harbor. Charles Ruggles, comedian, heads the cast which includes Phil Harris, radio crooner and orchestra leader from Coconut Grove in Los Angeles, Greta Nissen and Helen Mack. When a millionaire playboy, with his buddy, he writes a note to his buddy's wife outlining his pal's indiscretions, specifying that his letter should be opened only in case of his own marriage. Thus he takes out bachelor insurance, by penalizing his friend for letting him fall in love. Some amusing situations develop, particularly when two chorus beauties remain on board after a gay farewell party, and are passed off as nieces. One of the high-lights of the film is the skating ballet which presents 36 glittering-garbed beauties in motion.

"The Mayor of Hell"

Wednesday, Thursday, Sept. 20-21. James Cagney grew up in the "gorilla jungle" of New York City just below the gas house district—that's why he was chosen to play the part of Patsy Gargan, hand-boiled ward healer in "The Mayor of Hell." And that's why he played it so convincingly—he knows what a street boy's life can be. Appointed temporary warden of a boys' reformatory through political pull, he is attracted to the nurse, Madge Evans, and decides to help her in reforming the school. With her help he establishes a self-governing boys' colony, gives them good food and gains their confidence. But when he is recalled to settle gang strife and the grafting, tyrannical warden returns. A riot results, and the boys employ their new knowledge of self-government to hold court and try the warden for murder. What chance has he against a thousand desperate, betrayed boys? You'll see next week.

"Turn Back the Clock"

Sunday, Monday and Tuesday. Remember how they made love back in 1910? Remember the be-feathered hats, the frills and parlors—the curls and middy blouses, which were effected by the fashionable young ladies of the era? Remember the one-lunger auto of 1916 vintage which apeed the motions of a bucking horse? Let Tracy will take you back and treat you to many a laugh in his newest starring vehicle, "Turn Back the Clock." Here's the plot in a nutshell—Lee is the owner of a none-too-successful cigar store and meets the wealthy girl he might have married. Knocked down by a car, he dreams that he is back in the village of Corliss, armed with the knowledge of what the next 20 years will bring, well versed in 1933-model love-making, and showing the belles of 1910 some high speed. Mae West gives a good performance as a wife smothered by the worries of everyday existence. Plenty of good humor as you can well imagine.

Henry Reynolds and John Austin

Henry Reynolds and John Austin Reynolds left Saturday night for Chicago to spend a few days at the fair.

Pig Clubs Will Be Well Represented At The County Fair

One of the centers of interest at county fair this year will be the section devoted to 4-H pig work. Practically every member of the Sow and Litter club and the Pig club will be on the grounds, keeping a watchful eye on a much-prized entry in the pig exhibit, and enjoying the color and excitement and confusion which make a fair such a thrilling and delightful place to smaller folks. About 25 pens are devoted to the club entries.

The Sow and Litter club was organized here last March, and the Pig club followed in June. The two groups are combined this year with Joe Beckenhauer as leader. Meetings are held at city hall from six to ten times during the year. Each owner of a sow is required to keep a complete record of the litter, showing amount of feed used, hours of labor, and resulting profit or loss. Usually members will keep one pig out of the litter, and thus are eligible for the Pig club.

Members of the group are:

Ivan Davis, president; Ernest Sievers, secretary-treasurer; Walfred Carlson, George Claycomb, Clarence and Don Carlson, Milton, Meredith and Willis Johnson, Alfred Sievers, Alvin Carlson, Ronald Stringe and Vern Sievers.

Condition Is Fair In Stock Market

Live stock markets were in only fair condition during the week, and while prices in many departments were unusually low and not far from the lowest of the season, there were more strong than weak spots in the general trade, and there were scattered instances of outstanding improvements.

The outstanding discouraging and depressing feature was the slow, sluggish, and declining fat cattle market. The declines in this department came in the face of improved beef markets and also in the face of advancing hog and lamb prices. The cause of the continued weakening trade for beef steers and yearlings was overmarketing and burdensome receipts of this one class in all sections of the country. Fed steers and yearlings are weak to fully 25c lower for the week, with the best off most, and with the price spread at this time narrow. Butcher cattle held about steady as supplies of such cattle were moderately light, and as there were continued strong and active consumptive demands for low priced beef. The best cattle at Sioux City this week brought \$6.40, but few passed \$6.00, and the bulk of the better grades of steers and yearlings sold between \$5.00 and \$5.75, with numerous

We earnestly believe the company has very bright prospects ahead and that their anticipations of striking a valuable vein of coal will soon be realized."
Editor of the Ponca Journal writes in 1878: "Last Monday in company with Sheriff Jones, behind his matched team of bays, we wended our way to Martinsburg, which by the way, has grown nearly beyond recognition. It is a fine location for a town and it bids fair in the not far distant future to make a place of considerable note in the county. From here we tra-

veled up South creek to the Logan valley, and people would hardly believe the story of the vast improvements that have been made. This county does not look like it used to.
Fine, large farms and fine houses now cover the prairies where just a few years ago it was a vast plain of natural meadow. Now it looks as though civilization had struck in. Large herds of cattle can be seen with grass and hay enough for millions more. This is paradise of the stockraiser.
After leaving Logan creek we traveled over a little higher country, finding less water but plenty for all purposes. Still we found the same improvements. LaPorte was reached about 2 o'clock. We stopped with Mr. Agler, as jolly a host as one could wish, and there we partook of his table comforts with a hearty good will. After dinner we went up town and there shook hands with County Clerk Crawford, Attorney Britton, Supt. Patterson and Editor Hunter. Next morning we started home, reaching Ponca about 4 o'clock, having a very pleasant trip."

NOTICE TO CONTRACTORS.

WITH President Roosevelt's acceptance of the NRA Automobile Code, Chevrolet, the world's largest builder of motor cars, officially begins operations in accordance with the administration's recovery program.

Although the official code was signed only a few days ago, it will be of interest to Chevrolet's many friends to learn that the Chevrolet Motor Company started to carry out the spirit of today's recovery program over three years ago! At that time, we put into operation a "share-the-work" plan, whereby our workmen cooperated in spreading the work to give more men jobs. By means of this plan, as well as by regulating hours of work per week to meet retail demand, and by building up parts stocks in lean seasons, it was possible to carry 33,000 men on our payroll through the depression. For eleven months of each year since 1929, we have kept our employment within 10 percent of this average. We are justly proud of that record. We are also proud to say that Chevrolet workmen did not, at any time during the depression, become a burden on public welfare departments.

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN, Division of General Motors

CHEVROLET

On August 1st of this year, Chevrolet announced a blanket wage increase as well as the adoption of a 7½-hour, 5-day week and the employment of 12,000 additional men. This wage increase was the second in the last 4 months, Chevrolet having been among the first to put a blanket wage increase into effect.

We feel that the President's recovery program deserves the whole-hearted support of every citizen and manufacturer in America. It is a bold, swift, courageous plan to start the ball rolling toward economic recovery. Its sincerity is unquestioned. Its objectives are admirable. And the direct, forceful steps the President and his associates are taking to make it a success, should stir the pride and admiration of every American.

We are proud and glad to do our part. And we are deeply grateful to the American people for the patronage that has enabled us to anticipate the present recovery program and to play our part today. After all, the immense number of men employed by Chevrolet is a direct result of the continued preference America has shown for Chevrolet.

High School Has Big Enrollment

Classes Are Dismissed All This Afternoon Because Of The County Fair.

Winside public school enrollment brought out an interesting fact—grade school enrollment is gradually decreasing and high school attendance is growing. This is surprising when one considers that grade school folks are required to attend, while high school students are usually beyond the compulsory attendance age limit. Grade attendance in 1931 was 96, in 1932, 87, and in 1933, 85. High school total for 1931 was 88, for 1932, 88, and for 1933, 94.

Classes in high school are running larger than usual this year. Latin for beginners, which includes grades 9 and 10, has 30 enrolled, and Spanish for grades 11 and 12, numbers 80 pupils. Spanish is being alternated with book-keeping this year.

Classes are to be dismissed for the county fair this afternoon, so that pupils may have an opportunity to see the exhibits.

A new set of books, "New Practical English for High Schools" by Lewis and Hoscie, has been purchased for English 10.
