Demands Are Good In Livestock Trade

Fair demands were noted for live stock during the last week in September. However, trade was not as active and promising as that of the preceding week, and there were intermixed with favorable developments many adverse features.

The cattle market was by far best in the entire list. This reflected back to the meat trade, which reported relatively broad outlets for beef, and materially contracted outlets at declining prices for all other grades of fresh meat.

Pleads for Farmers. Lincoln, Neb., Sept. 29.—The plight of the corn-hog producer today brought Representative Frank J. Kloppping of Wayne here to tell Governor Bryan of "unrest" among Nebraska's farmers.

Windsie Men Wrestle. In the Norfolk Legion wrestling match last Thursday evening, Pat McGill, Wisner, defeated Jerry Monaghan, Los Angeles, by two straight falls.

Has An Operation. Donna, little daughter of the Ernifid Allens, had tonsils and adenoids removed last Thursday at the Dr. Walter Benthack hospital in Wayne.

In Ringer's Window. Martin L. Ringer has in his office window an exceptional display of grains grown on Wayne county farms.

Fire Prevention Week

This would be a good time to check up your chimneys. Most of the fires start from a defective chimney. They can be repaired at small expense by calling us.

Storm Windows and Doors

Now is the proper time to get ready for winter—you should get your windows now and have them fitted and painted. Prices are still very low and will keep your fuel bill low.

Sure Heat

Your supply of coal is assured if you will call. We sell only the best kinds of coal from each field and at a very fair price.

Eventful and Interesting Year of Activities Is Revealed By Reports From 4-H Club Leaders

Once in a while as we hurry scurry through this busy life, it is well to pause a minute and view one's activities in retrospect, and to evaluate the manner in which our hours have been spent. Like-wise, any group would profit, by examining its work and tallying up the gains in knowledge, friendship and experience which have resulted from contact with its members. And this is just what the 4-H clubs of Wayne county have done, through their leaders, they have reviewed past activities and are ready to start this new year enriched by past experiences, eager to better former records. Here is a resume of the work accomplished during the 4-H guidance during the past year:

Baby Beef Clubs. (By Dr. William Hawkins, leader) For the past three weeks, 4-H club members in the baby beef project of Wayne county, have had a steady diet of beef, mentally rather than dietetically speaking. For it is one week of intensive fitting before the Wayne county fair, one week at the county fair, and one week at the Sioux City show.

Members of the 4-H clubs appreciate all the support and cooperation they have received from the businessmen of Wayne and from the fair board, and wish especially to thank those who bought calves at the sale. The merchants who bought calves were Wright Lumber company, Carhart Lumber company, State National bank and the Wayne creamery.

The end of the Sioux City show was the eleventh milestone in the history of 4-H club work in Wayne county, and I only hope that we can look forward to a still brighter future in the year to come.

Membership totalled 16 with Florence Suber as president, Edith Sievers as vice-president, Virginia Sandahl as secretary-treasurer and news reporter. Assistant leader and I took over the leadership. It was decided to meet at homes of members every two weeks.

Plans were made to have sewing boxes ready for next session. I'm afraid many a dad couldn't find his cigar box as most of the girls converted these into work boxes. One new member joined at the first regular meeting, and Margory Soderberg demonstrated how she made her work box.

Wibbur Ruhlow of Hoskins, accompanied the shipment to the show grounds Sunday evening, and remained in charge throughout the show. I might add that Mr. Ruhlow has three children in the beef project at the present time, and that through his able assistance he has helped put Wayne county on the map in a 4-H way.

Wednesday morning at the show grounds, everything was made ready and at 9 o'clock K. C. Ticker of Ogden, Utah, assisted by three other judges, began the all-day job of judging 342 head of calves divided into six classes. These were the best quality cattle the Sioux City show has ever known.

DeForest Roggenbach placed highest of any of the Wayne county boys. He took a second place in the senior Hereford class and a third place in the Junior Angus class. His Hereford showed in the grand champion class as the firsts and seconds are all included in this final group.

We had 17 out of our 27 calves place in the money as follows: In fifth division, Donald Lutt and Leonard Herman, Wayne, and Irving Anderson, Hoskins, in sixth division. In first division, Truman, Winside, Wayne county fair by the board, and appreciated these very much. In addition to the practical things learned at our meetings, we've had some very good times, enjoying songs, yells, games and refreshments after our business was completed.

DeForest Roggenbach's calves topped the Wayne county, the Hereford selling at \$10.25 and the Angus at \$8.50. The average price of our 27 head was \$7.02 per hundred.

ACTIVITY DRIVE HELD AT SCHOOL

Pep Program Held Friday At High School Before The Lyons Game.

Sale of student activity tickets was opened at Wayne high school Wednesday of last week with a program in charge of Raymond Sale. The tickets admit holders to about 16 events, including athletic, declamatory and dramatic. All money for student affairs is being paid into a central office headed by Leonard Good, and accurate records are kept and receipts given.

Wayne county's first 4-H corn club was organized May 9, 1933, at a meeting in the school in district 5. Through the efforts of Mr. Spittgerber and Mr. Roggenbach, Clayton Wescott, county agent, called the meeting to order and explained the purpose of corn club work.

All members of the club on June 27 took a trip to Fremont to attend a district 4-H judging contest. Under the supervision of extension workers, the boys took work in weed identification, small corn and corn judging.

At the August meeting of the corn club Mr. Wescott of West Point, came up and gave the boys a talk on corn breeding.

At the September meeting plans were made for the Wayne fair, after which the boys enjoyed a winter roast. Some time in the last of October representative plots in the boys' ten-acre fields will be measured and marked.

Sixth graders have been making a lantern slide show of "Hawatha," and are also making a booklet which will be sent to the

junior high school at Fairbanks, Alaska, and tells about life in Nebraska. In geography, they have completed study of the Northeastern states.

Among Smaller Folks. Wilma Heidenreich brought a replica of Old Fort Dearborn to fifth grade room last week, and the children enjoyed examining it. Fourth graders graduated into the pen-and-ink class last week and delighted in using ink for the first time.

Dorothy Jean Casper made an interesting report on the aluminum train which was exhibited at Chicago exposition, before third graders Thursday. The children wrote original verses about trains and engines, in connection with their transportation project, and many of them brought exhibits from home.

Hazel Reeve conducted an experiment showing how steam furnishes power. Monday the children found a large map of Wayne county drawn on the floor, and learned the directions of other towns from Wayne. An electric train illustrated the way railroads dot the county.

EIGHT RULES OF FIRE PREVENTION

MAKE sure that your match is out before throwing it away.

EXTINGUISH the last spark of your cigar or cigarette before throwing it away.

TAKE CARE lest dry waste or oily rags accum-

ulate in some out-of-the-way corner of your house.

BUILD YOUR rubbish bon-fire where there is no danger of spreading.

HAVE YOUR electrical wiring inspected regularly and repaired when necessary.

KEEP YOUR heating

system and chimney in perfect working condition.

DO NOT leave your forest camp fire before it is totally extinguished.

KEEP Matches beyond the reach of your children and your children out of reach of fire.

Isn't It Better to be Safe Than Sorry?

You may go along for years without suffering loss from fire, windstorm, explosion, burglary, automobile collision or the many other hazards common today. On the other hand, you may suffer a sudden disheartening blow from any one of these causes TOMORROW.

It is this complete uncertainty which constantly stares us all in the face, that makes property insurance an absolute necessity. Particularly today, when cold logic warns — "PROTECT WHAT YOU HAVE."
