The New Ford V-8 for 1934 is now on display at the showrooms of Ford dealers. Surpassing even the great Ford of 1933 in economy, beauty and comfort, it is truly the car of this modern age-the culmination of thirty years Ford progress. It combines the proved performance of the V-8 cylinder engine with two important new features-Dual Carburetion and perfected Clear-vision Ventilation. See this car today and drive it at the first opportunity.

OUTSTANDING IMPROVEMENTS IN THE NEW FORD V.8

BETTER PERFORMANCE. G BETTER PERFORMANCE. Greater power, new speed, quicker acceleration, smoother per-formance, more miles per gallon especially at higher speeds, and quicker starting in cold weather all these result from the new dual car-buretor and dual intake manifold. New water-line thermostats enable the engine to warm up more guickly and to maintain an efficient oper-ating temperature. Added engine refinaments reduce oil consumption, further improve operatconsumption, furt my and reduce ma

NEW VENTILATION SYSTEM permits cle vision, prevents drafts and provides desiret amount of fresh air in any weather. Individua control for front and rear side windows. Wher yentilation is desired the window glass is raise to the top. Then the handle is given an addi-tional half-turn. This slides the glass back horizoatally to form a narrow slot. Through this slot air is drawn out by the forward motion of the car. This simple ventilation system main-tains draft-free dirculation, insures passenger comfort, prevents fogging windshield in cold or, stormy weather. Both windshield and cowl ven-the stormy weather. Both windshield and cowl vencan be opened to supply addition for comfortable warm-weather weather driving.

DISTINCTIVE NEW APPEARANCE enhanced by the newly designed chromium-plated radiator shell and grille, new hood louvres, new hub caps. Interiors are attractive, with new tuffed uphol-stery, new mouldings, new cove-type headlining, new instrument ganel, new arm rests, new hard ware. Swivel-type sun visors in De Luze bodies prevent glare from front or side.

FENDERS IN COLOR. On De Luxe cars fend-ers are in color to harmonize with body colors -wheel colors optional. New enamel finish on

all bodies and fenders ity and more enduring lu ity and more enduring lutter. GREATER RIDING COMFORT results from increased spring flexibility. The spring leaves are shock absorbers are improved. Seat cubitons are deeper, with new, softer springs. New type, individual lucket seats provide increased comfort for front-seat passengers in the Tudor Sedan.
