The parent or guardian of any pupil desiring to take advantage of the provisions for free high school tuition should make application in writing to the county superintendent of the proper county before the first day of July each year.

Application cards are not sent to the pupils except for their first year. After that they should see to getting their own cards from the high school which they are attending.

History of District 53. Interest in school in district 53 was first shown by building a school house in 1887 with Henry Wittler, Leopold Rehms and Wm. Hoffman acting as members of the school board.

It was difficult to get materials in those days and lumber was hauled with teams and wagons from Pilger, a distance of 13 miles, by Wm. Hoffman, Fred Glaser, Leopold Rehms and Gus Rehms. Carl Schneider of Wisner laid the brick and did the plastering. Joseph Rodgers of Pilger, built the school house.

The building, 18 by 28 feet, was used until 1910 when it became necessary to have the school house remodeled. The building was enlarged to 18 by 42 feet and the large front porch added. The walls and woodwork were all refinished, also the tower and bell added.

The board members at the time were Henry Asmus, Dave Koch and Wm. Kant. Up until the fall term of 1894 four months of school were held each year, these being during the winter. The children were needed at home and no time could be spared for schooling.

During 50 years, 36 teachers have been employed. Wages ranged from \$25 to \$125, the highest being received by Francis Norton in 1920-21. The teachers and their salaries follow: C. G. Rundie, \$40; G. E. Abbott, \$30; Mary Ryan, \$30; Katie Ryan, \$35; Francis Kline, \$35; Harry Fisher, \$35; Gerlie Bayes, \$35 and \$40; Ida Heyer, \$30; Daisy Oman, \$27; C. A. Gildersleeve, \$33; Gerlie Bayes, \$33; Ida Johnson, \$25; Mary Gaebel, \$25 and \$30; James Stoel, \$35; Etha Shaw, \$38, \$40 and \$45; Mrs. C. Long, \$45; Olga Johnson, \$50; Leola Lytle, \$55; Felicitas Atkins, \$50 and \$55; Ida Meade, \$50; Irving Sala, \$50 and \$55; Genevieve Morris, \$60; Ruth Davis, \$70; Valta Hines, \$70; Anton Jensen, \$100; Francis Norton, \$125; Elsie Sydow, \$80; Virginia Taylor, \$80; Adeline Miller, \$80; Elsie Kollath, \$95; Laura Sheets, \$80; Elsie Kollath, \$105; Martha Lenser, \$80, \$90 and \$75; Elsie Eckert, \$60 and \$45; Francis Nielsen, \$45; and Lozein Baird, \$50.

The oldest settler in the district is Gus C. Hoffman. He attended this school and the members of his family have attended the same school.

The information was furnished by Mr. Kant and written by Lozein Baird, teacher during the past year and a half.

History of District 51. The school house in district 51 was built in 1890 when the settlers began to realize a school was necessary for the welfare of the children.

The building was financed by Wm. Frazier, now connected with the Stock Growers commission of Omaha. He was also the district's first director.

The oldest house, in the community is part of the house still standing on the Geo. McEachen farm.

A branch of the C. S. P. M. & O. runs through the district. Gus Wendt of Wayne, helped build this railroad in 1886.

In early days this community was visited by prairie fires.

The oldest settler in the district is Chris Hansen, who is 77.

History is written by Margaret Nelson Mau.

History of District 60. The school in district 60 is known as the Highland school because of its location on a hill.

Some of the pioneers who lived in the district were John Lense, Herman Kruger, Robert Fenske, Fred Muehlmeier and Fred Wollschlaeger. These folks, who were in the district in 1888, found fertile land and decided to make permanent homes for themselves.

They also wanted their children to have an education.

Robert Fenske began to organize the district by circulating a petition. In 1889 the first school board was elected with Robert Fenske director, Herman Kruger moderator and Louis Wollschlaeger treasurer.

Ground for the school was obtained from Ludwig Wollschlaeger. An acre playground was provided. The first building was not plastered but the wall were finished with waanscotting and then painted. An addition was built later.

The first teacher in the district was Avy Wright of Hoskins.

A new, modern, standard building has replaced the old one. At time of erection of the new building the board included Henry Walker director, Henry Kruger moderator and Walter Fenske treasurer. E. A. Stratte was on the building committee and all debts were paid when the building was dedicated. A. R. Davis was the speaker at the dedication.

Miss Blanche Johnson was teacher from 1935-37.

that the local boys attended some of the Nebraska boys gave an Indian performance. One of the scouts from England told of their customs. Instead of Eagle scouting they become King scouts.

Much of the time the boys were in Washington was spent in sight-seeing. They visited the Lincoln memorial, Arlington cemetery, saw the memorial dedicated to the crew of the Maine and tomb of the Unknown soldier.

The morning of the 14th there were sectional church meetings and in the evening the boys were entertained by songs by Lanny Ross. The Paramount news also took pictures of the troops.

The following day the boys attended a sea scout regatta which was made up of three sail boat races, a rainbow fleet in which all of the boats were different colors.

Bus visited the senate and with a group of the scouts. There is a peculiar rule in the senate chamber which is that if a group or even two people enter the chamber and one of the party goes to sleep the entire group must leave.

The big boy scout circus was held the evening of July 7. President Roosevelt attended. The following day the boys passed in review before the president.

Camp broke July 9. The boys were up, some at 3:30 to take down the tents, rake the grounds and board trains for home.

# Switzerland And France Visited By Margaret Schemel On Tour

The League of Nations building at Geneva surround three sides of a central court to be laid out eventually as a lovely garden, according to Miss Margaret Schemel who visited Switzerland recently. The halls are magnificent, ceilings lofty, floors covered with a non-resonant-producing rubber in colors harmonizing with the walls. All lighting indirect, all radiators concealed behind gratings in the walls. In the main hall are some lovely Aubusson tapestries, in Gobelins stitch, four women representing the four continents. These are the gift of Belgium. I was especially impressed by the council chamber with some 500 seats in green leather decorated by the Spanish artist, Sert who, to judge from the similarity in style and execution, must have done the Don Quixote suite of murals in the Waldorf Astoria in New York. They represent the struggle toward freedom of mankind against all the foes that have had to be overcome, such as slavery, pestilence and war and end with the artist's conception of peace. The figures are colossal and are done

nothing left of the duke, but they put his empty casket there anyway.

"After lunch we went shopping for a Swiss doll, cluny doilies and carved novelties. We bought unique candies, some of them representing tiny wrapped babies in pink and blue.

"Next morning we were at the frontier at 10 o'clock. One of the women had to produce her music boxes. She wound up her music fruit bowl to play for the officers. No duty was charged. We spent all morning through a mountain pass where the French have a mountain fortress. At one point the Rhone is but a creek in width in a narrow gorge and then is lost from sight altogether for a distance under a long bed of rock. This the French call the 'Disappearance of the Rhone.' When it emerges again below it is a tumbling frothy green river.

"By noon we had left the mountains behind and were in Bourg, a quaint old city formerly called Brau, where there is a fine old church which is no longer in use and a large modern theatre, the latter in the center of the town. The hotel is furnished in French provincial. One nice piece was the open type of dresser for displaying China.

"Proceeding northward we passed through the vineyard section of Burgundy. Everything was humming with activity. Many oxen were in use. We entered Beune, a medieval looking town. An ancient church there has been used for several centuries as an infirmary for the poor. Convalescents were lying in little alcoves along the sides of the former church nave. We were taken through the famous caves that used to belong to the dukes of Burgundy and the kings of France. Here is made the most famous of the Burgundian wines. We walked through the caves from room to room with the musty odors pervading them, the thousands of bottles and hundreds of casks and kegs being all about in neat array. We returned to our hotel which was fairly nice. The kitchen seemed to buzz with chefs and under-chefs. All cooking utensils are of brass and copper, neatly hung, graduated according to size, on a framework above the long centrally placed work tables.

"Next morning off through rural France with the Cote d'Or hills to traverse. The villages are old, the soil red, the village streets through which we go scarcely permitting two cars to pass. The villagers still look with wonderment at our coach in the van of the summer tourist coaches and more luxurious than the usual. Cowslips, grape hyacinths and primulas are in bloom in every meadow. Flowers in the shops were so cheap that from Nice on we always had bouquets. More cattle, always white, were in evidence. We had wondered for days where they got the milk to make all the cheese that is served in France. Every French dinner closes with at least three or four varieties. By noon we were at Auxerre, the town on the Soane with a lovely large cathedral. We stopped at a hotel. Some French ladies at the table next to ours were enjoying snails which they picked out with nut-pick-like affairs.

"Through the afternoon we retraced the route we had taken and passed many a lovely chateau and many a walled country estate. All seems much more ancient than does England. The foliage is a little farther advanced, and the wheat a little higher. We enter Paris past Notre Dame, along the quais of the Seine.

"Next morning we were off on the boat train at 11. The passage was fine. We arrived at Folkestone at 1:30 and were through customs in no time. We passed through the sunlit meadows of Kent and arrived in London at 4. I had never seen so many sheep with little lambs at their sides. The neat English villages with their red brick houses contrast strongly in my mind with the crumbling gray houses of the usual French village. Give me England," Miss Schemel concludes.

**CONGRESS**  
AS SEEN BY  
**KARL STEFAN**

**Expect Filibuster On Face-Saving Court Bill.**  
The original supreme court bill died Tuesday in the senate when the majority leader introduced the so-called compromise amendment. The long-looked for debate on this important issue opened soon after the senators came back from their Fourth of July vacation. If a filibuster is successful, the court bill may die in the senate. Otherwise the guess is that the face-saving compromise bill may pass both houses by a narrow margin. Adjournment of congress depends on when the congress will get through with the court bill. The house adjourned Tuesday over to Thursday because members wanted to go to the all-star baseball game.

**Sun and President Turn On Heat.**  
The weather man has turned on the usual Washington heat. The executive department is turning on the legislative heat and the house is just marking time waiting for some of the promised legislation which has been in the making in the executive branch. That will include some kind of a farm bill; some kind of a wage bill and perhaps some kind of federal re-organization legislation. Most members who are not "in the know" seem bewildered and just seem to be marking time. With the terrifying heat turned on from Old Sol and elsewhere, whatever legislation does pass will not get the usual serious consideration it is entitled to. For that reason many serious-minded members feel congress should quit and go home and cool off and come back in January and give important legislation real study and consideration before giving it a lick and promise and rush away.

**Wants To Join Nebraska's Navy.**  
Congressman Melvin Mass of Minnesota demands to be made a member of the "Nebraska Navy." His application has gone to Ted McCallie, the navy's commodore. Congressman Mass is a former marine officer. He is now in the marine reserves with a general's rank. He is connected with the air corps and continues to pilot a plane. He is one of the most popular men in the house of representatives and is considered one of the bravest of the members. Some years ago a "crank" pointed a revolver at the members from the house gallery. Mass was the only member who "talked" the "crank" out of it and eventually got possession of the gun.

**Historical St. Mary's.**  
A lot of people go down into Maryland to look over what was once a town called St. Mary's. It is about 300 years old and Lord Baltimore and other gentry brought over hundreds of immigrants to settle the place. It once had hundreds of citizens who came over the ocean in the ship, Ark, which towed the smaller boat, "The Dove." The settlers came from all over Europe. Today the town is a wheat field. Nothing of the old buildings is left. It has gone back to nature like the town of Warnerville in Madison county. The immigrants of St. Mary's are the ancestors of some of our most prominent present-day Americans.

**Visitors At Congressional Office.**  
Among the visitors at the third congressional office during the past week are the following: Mr. Cooper of Washington, Nebraska; Miss Dorothy Biberbeck of Osmond, Nebraska; Mrs. Elizabeth Zook of Lincoln; Owen Meredith, O'Neill; Chris Petrow, Fremont; Austin Cramer, Pierce; Glen Walker, Omaha; Ralph Barrett, Robert Montgomery, James Stinson, Mr. and Mrs. S. L. Anderson, Mr. and Mrs. Don F. Nordan, Rev. Alvin Kett, all of Norfolk.

Trotting Around This Funny World One Finds Many Unusual Things Happening Daily.

Twin daughters of a Kansas woman born four days apart. A New York man died of cerebral hemorrhage after he drew a perfect hand in a pinocle game. A young German woman claims the world's record in gliding. She sustained flight 18 hours and 31 minutes on a glider. Tom Daniel of Schuyler, Neb., found a bar of soap in a five-pound catfish he caught in a lake. But the fish still needed cleaning. An Indiana boy, 10, has had 35 broken bones, an average of one every four months all his life. He has insufficient calcium in his bones. When Mrs. Henry Ball of Alliance was chasing a hen, she saw a shiny piece of metal and on investigation found it to be a \$10 gold piece. Swing music band leaders in Singapore now are armed with stout sticks as well as batons. Music has brought snakes out of the neighboring jungle. Scientists think an 11-year-old Minnesota boy has word blindness. He does well in arithmetic and can read and write figures but he can't read or write words. A Florida youth has a bicycle trailer in which he and his dog have traveled 20,000 miles. The little home which he pulls with a bicycle cost \$14 to build and 15c a day to operate. Two California men challenged each other to a duel over a disagreement. They are to wear white suits, stand 30 feet apart and hurl overripe tomatoes. The splashes will tell who wins. A real life tragedy occurred in the filming of the picture, "Captain Courageous," when one of the sailors was washed overboard and drowned. His wife is suing the film producers for \$100,000. A Wisconsin man was not in his car when it was wrecked by another driver. But when he was standing on the running board at the garage to look over the damage he stepped backward, fell and suffered broken ribs. Loud piano music in the former home of Emma Goldman at Pittsburgh caused neighbors to complain. Officers investigated and found that the music was loud intentionally to drown out the noise of digging a 284-foot tunnel from the house to Western prison in an attempt to free Anarchist Alexan-

Finger Painting Art Demonstrated At Wayne School

The originator of finger painting, Miss Ruth Faison Shaw of New York, spoke at the Wayne State Teachers college convocation Thursday afternoon. Miss Shaw discovered while she was teaching in Rome in 1930 that there is an expression of personality through finger painting. She perfected the method through the work of her students and for the past two years has been lecturing on this method in the United States. According to Miss Shaw, color has a psychological influence over human beings. People of the South sea islands admit this effect and use it. Color, words and movement are needed by the human being for expression, she remarked. The speaker related how when a man goes fishing he first tells of the fish he caught but after two or three weeks when he tells his tale he gives his reactions to the color and the beauty of the fishing spot. As Miss Shaw pointed out, finger painting is a misunderstood word. It is not the painting of the fingers or nails, neither is it the development of finger-printing of criminals, but it is expression of personality through the painting by hand and movement. It has all the advantages of mud pie making with color and harmlessness and other qualities besides. The pictures, as Miss Shaw explained, which are made by the students represent stories of the child's imaginative mind. The question is often asked, "Why teach subject matter?" Miss Shaw explains this by saying that people recognize that the brain is in the process of growth and must be fed daily. The subject matter serves as the food for the brain. It is used for new experiences. The principles of finger painting as pointed out by Miss Shaw are freedom and movement. The teacher in using this method must be relaxed in order to give the child ease. She has found that children are very relaxed when playing in water and thus she has a large bucket half filled with water in the room in which the children may wash their hands when completing their art work. Miss Shaw illustrated her talk by showing pictures painted by some of her students. One child had used the story of the Three Little Pigs as a basis for a picture story. Each picture becomes a story to the child. In demonstrating her method of painting, Miss Shaw used a piece of white glazed paper, 22 by 16 inches as this is a convenient size for a child's arm reach. It is then run through water and placed on a piece of wall board. The color which is like a paste is spread on the palms and then worked on the paper in a circular motion. Often the entire arm is used to derive the right effect. This method develops a creative attitude in the children and often the teacher learns from the child as well as the child from the teacher. Miss Shaw was introduced by Miss Martha Pierce. Musical numbers were furnished by Katherine Clark, Vivian Nelson and Donna Faye Holtz.

Medical Director Offers Health Hints

The present widespread heat wave has led Dr. Robert A. Fraser, chief medical director of the New York Life Insurance company, to issue a health warning, cautioning every one to take simple safeguards that their health may not be impaired by the extreme temperatures. Dr. Fraser offers ten health hints for hot weather that are easily followed by young and old. They are: 1. Take it easy—don't rush around. 2. Wear a hat out in the sun. 3. Wear cool, loose fitting clothes. 4. Get plenty of rest and sleep. 5. Eat moderately of easily digested foods. 6. Drink plenty of cool (not ice cold) liquids. 7. Exercise moderately. 8. Take frequent tepid (not cold) baths. 9. Do not stay in direct sunshine for long periods. 10. Avoid large meetings in poorly ventilated auditoriums. "If all of us would observe these rules," Dr. Fraser said, "our general physical condition would be vastly improved and we would be able to withstand hot weather with much less difficulty." In commenting on his ten Health Hints for Hot Weather, Dr. Fraser feels that children are more apt to forget rules five and six, which are extremely important for them, while adults are very likely to ignore rules, one, two and frequently six. "Children, because they really don't know any better, are very prone to overeat, and to gulp large quantities of ice cold 'pop' and water," Dr. Fraser remarked. "They should be carefully controlled along these lines. Children either observe the balance of the Health Hints without knowing that they are doing so or, because of their youth and vitality, they can afford to ignore them. For instance, a child may rush around all day long without a hat, frequently out in the sun, and show no ill effects. On the other hand, they instinctively prefer a minimum of clothing and will sleep readily, if they are tired. "Adults, however, should avoid going without a hat. They should also drink sparingly of 'ice cold' liquids and, very important, see to it that they get plenty of sleep and rest. In addition, grown people should refrain from expending great quantities of energy in needless haste. On hot days take it easy."

Heatstroke differs from sunstroke in that it does not depend on exposure to the sun, but may attack a person during extremely hot, humid weather. It is characterized by sudden fainting attacks, the body is cold and clammy, the face pale, the pulse weak and flighty and a gasping or sighing respiration. First send for the doctor. Then apply heat to the patient's feet and around the body. If the patient is conscious and can swallow, give quantities of hot, weak tea. Exchanges: Mrs. Tom Cornett, 56, died at Pilger July 1. F. M. Sutherland of Ponca, died at the age of 76. Frank Courtney, 75, died at Randolph June 30. Mrs. Charles Guenther, 81, of West Point, died July 7. Mrs. Tona Triggett, 90, Crofton's eldest resident, died July 7. Mrs. Paul Simonsen, 75, of Pender, died Tuesday of last week. Thurston county farmers received \$12,000 on 700 conservation checks. Louis Dinklage of Pender, realized \$15.25 for 49 head of cattle sold in Sioux City. Mr. and Mrs. August Prawitz of Wisner, celebrated their 47th wedding anniversary July 4. Streets of Wisner are being repaired where heat and cold have caused pavement to crack. Laurel Garden club, council and commercial club provided play equipment for the city park. Miss Juanita Spencer and Edward Svenson, who were married in Stanton, will live in Chicago. Charles Hill, 66, of Pender, died in California where he had gone a short time ago to attend the funeral of a sister. Grading of highway No. 12 south of Ponca is expected to be completed within a few days. An oil mat will then be laid. Bonnie Cornell, Dolores Beckman and Ralph Johnson of Ponca suffered minor injuries when their car turned over in town. Many farmers near Pender are constructing 'hopper catchers' to supplement the use of poison bait in ridding their fields of the pests. The Red Cross has provided \$1,200 for aid of those who suffered loss in the tornado which struck between McLean and Wausa June 18. New shelterbelts are being planted by cooperation of the government with farmers in Antelope, Knox, Holt and Wheeler counties. Kenneth Brockmoller of Laurel, had one finger torn badly when the member was caught in the take-off of a tractor his father was repairing. Ernest Koops, 43, of Wausa, had removed from one of his legs a

hints for hot weather. Sunstroke can be avoided by keeping out of the hot sun and by not overdoing in physical exercise. An attack frequently begins with nausea, giddiness and mental excitement, following a long exposure to the sun. The face is flushed, the pulse full and rapid. The first thing to do is remove the patient to a cool spot and then send for a doctor immediately. Reduce the body temperature by placing the patient in a cold bath, sponging the surface of the body with cold water or rubbing the body with ice. Keep up the treatment for ten or fifteen minutes and then place the patient between blankets without drying the body. If there is no improvement within fifteen minutes, repeat the cold applications as before and keep repeating them every fifteen minutes until consciousness is well established. Sometimes after apparent recovery, the patient becomes drowsy again and the head becomes hot. The treatments must then be repeated as before. "Those who are forced to work in the open sunlight," Dr. Fraser explained, "should see to it that they wear a hat that protects the back of the neck as well as the top of the head and their clothing should not be close fitting or bind the body. Furthermore, they should take great care to drink large amounts of cool water or cool, weak tea to make up for the excessive amounts of moisture lost by the body through perspiration." Heatstroke differs from sunstroke in that it does not depend on exposure to the sun, but may attack a person during extremely hot, humid weather. It is characterized by sudden fainting attacks, the body is cold and clammy, the face pale, the pulse weak and flighty and a gasping or sighing respiration. First send for the doctor. bullet which had been in the member since 1915 but which he did not know was there until inflammation set in. John Miller, 38, of Plainview and formerly of Randolph, sustained injuries when his car turned over. He was found unconscious by the road. Three men who had been with him left him. Swan Swanson of Emerson, injured his skull and broke his right arm when he was thrown from the running board of the Arnold Messerschmidt truck when it was crossing the railroad tracks. Bonnie Jacobson, 8, was rescued from a burning house near Randolph last week. The girl was taking a nap when her mother started an oil stove to prepare the evening meal. Mrs. Jacobson then went to the yard to talk to her husband and two other men. In a few minutes she heard a noise and saw the house in flames. She and the men ran to the house, broke a window and rescued the girl. The house was burned.

### Trinity Lutheran Church.

(Rev. H. G. Knab, Pastor.)

Choir practice Friday at 7:30. Senior league Thursday at 8. Services at 11. Sunday school at 10. Councilmen's meeting Monday.

### St. Paul's Lutheran Church.

(Rev. H. M. Hilpert, Pastor.)

English services at 9:20. Sunday school at 10:25. German services at 10:40. Moving pictures, not slides, will be shown in the church Monday evening at 8:30. The title of the picture is "Story of Jesus of Nazareth." It is a synchronized film, not a talking, but a picture to which appropriate music has been added, being in harmony with scenes on the screen. The film comes highly recommended by church men of every denomination. The picture was filmed in the Holy Land and when possible at the exact place where the scenes depicted took place during the life of the Saviour.

By all means make use of this opportunity to see so splendid a picture. Live for one hour and a half in Palestine with Jesus of Nazareth. Listen with multitudes to the Sermon on the Mount. See Him as he passes along the highway healing the sick and raising the dead. Feel the thrill of his triumphant entry into Jerusalem. Set at the table with the 12 as the Lord's Supper is instituted. Watch the world's greatest traitor as the hands of Judas betrays Jesus into the hands of his enemies. Stand within the shadow of the cross and as a fitting climax to this most inspiring photoplay, behold the Resurrection of Christ. There is beautiful photography everywhere. The film was made by a Jew and is non-denominational. The scripture story without interruption is shown on the screen. The producer adhered closely to Biblical facts and does not follow his imagination as is so frequently done in a film of this nature.

Numerous pastors of the church who saw the film say that it is the best film of its kind ever produced. Therefore the pastor urges that people do not miss the opportunity of seeing such a good picture. Young people and children are particularly urged to attend.

There will be no admission but a free will offering will be taken to defray expenses connected with bringing the picture to Winside. Everyone is invited to attend.

Pierce congregation of which Rev. H. A. Hilpert is the pastor, will celebrate its mission festival next Sunday. Luncheon will be served.

## 8 EXTRA POUNDS OF RUBBER

TAPPO RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From these plantations come an ever increasing supply of rubber. Firestone saves in producing raw materials, manufacturing and distribution to give YOU more for your money.

Another Reason Why FIRESTONE GIVES YOU SO MUCH Extra Value No Extra

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily destroy tire life.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire outfit.

Wayne City Library News

According to a report received by Mrs. E. S. Blair, Wayne city librarian, the 99th annual conference of the American Library association held in New York City in June was attended by more than 5,000 librarians. The theme of the conference was "Enduring Values." "The primary elements of any library and of all libraries are just books, the people and the librarians to bring them together," Malcolm G. Weyer, president of the association, said. In the field of books, an understanding of the place of the enduring and of the purely temporal comes only with a personal association and a mastery of the books themselves, he commented. Among the subjects discussed at the council meeting was that of tenure and academic freedom cases. A vote was taken which was in favor of investigating cases of tenure violation where trained librarians are summarily dismissed for political or other reasons. It was announced at the meeting that the public librarians of the city of New York now enter the New York State Employees Retirement system. This ends a long struggle for pensions by the staffs of these libraries. Nebraska was represented at the conference with delegates from Omaha, Hastings, Superior, Franklin, Grand Island, Kearney and Lincoln. The library will close at 8 o'clock each evening during the summer months. A dog at the Frank Tramp place at Crofton adopted nine coyote pups when her own pups died.
