CONTRACT LET FOR ROAD WORK

Stabilized Oil Base Will Be Placed On New Grade Near Wayne.

Contract for stabilized oil base on the north eight miles of the new highway south of Wayne was let Thursday by the state board at Lincoln to Weidner & King of Fremont, for \$36,023. It is planned that this base will be laid this fall while weather is still favorable.

Grading of the new highway from Wayne south to No. 8 east of Pilger is progressing steadily. Engineer T. C. Cunningham expects the grading to be completed within a few weeks.

Work on two miles between Wakefield and Pender was also contracted by the board. Grading was let to Weidner & King of Fremont, for \$4,171, and gravel, culverts and bridge to Nicholas Construction company of Geneva, for \$4,558. The additional two miles will complete seven miles south of Wakefield. Six miles are finished west of Pender, and only five miles will remain to join the two towns.

A delegation from Carroll visited State Engineer A. C. Tilley last week for the purpose of having the improved highway extended farther north of that town this year. The delegation was assured that plans for the extension are made and that federal and state funds are available. The question delaying the project is whether or not a new bridge shall be built three miles north of Carroll.

Democracy Is Basis Of Life

Form Of Government Given In Constitution Should Be Safeguarded.

"Democracy is the fundamental basis of our way of living," concluded Dr. J. R. Johnson who spoke before the Kiwanis club Monday following the regular noonday luncheon at Hotel Stratton. Dr. Johnson dealt with the period of history prior to the calling of the convention to draw up a constitution for the United States. Dr. Johnson was introduced by J. E. Brittain who is local chairman of observance of the 150th anniversary of the signing of the constitution.

The constitution has been defined by one writer as a "way to live that people follow," began Dr. Johnson. The making and saving of the constitution were "he-man" jobs.

Prof. O. R. Bowen told of being in Independence hall a week ago Sunday. He also saw the original constitution at Washington. Cliff Rabel and C. Ward of Omaha, were guests of R. W. Ley and Herman Lundberg, Judge C. H. Stewart of Norfolk was a guest of W. R. Ellis and L. E. Brown was a guest of W. C. Coryell. Mr. Brown explained the plan for Wayne's fall festival October 5.

ANNUAL FAIR IN PROGRESS HERE

Exhibit And Demonstration Of 4-H Club Activities Are Featured.

Baby Beef Winners.

Winners in the 4-H baby beef judging: Lester Lutt, grand champion, Hereford; Don Meyer, Wayne reserve champion, Hereford; Sheep: Raymond Reeg, Wayne, champion fat lamb.

4-H club demonstration: Bonnie Jo Martin and Dorothy Baird, Wayne, first; Helen Osborne and Esther Schroeder, Wayne, second.

Wayne county's big fair, September 15 to 18, opened Wednesday, favored by clear skies and cool weather. Exhibits were outstanding and the program varied enough to suit every visitor.

Livestock entries are not up to those of previous years but the fact that few fairs in this section have been able to include livestock exhibits makes them an especially welcome attraction.

A total of \$3,185 in premiums is being offered to exhibitors in the numerous classes. The 4-H club baby beef show and the 4-H club girls' exhibits in sewing stole the center of the stage yesterday with 30 entrants in the baby beef judging and 19 club sheep entered. Included in this number was Lester Lutt who last year carried off the honors with his grand champion baby beef, a Hereford, with which he later captured the grand champion prize at the Ak-Sar-Ben in Omaha.

Added to the host of feature entertainments already announced is an elephant act with a 5-ton elephant from the Atterbury circus performing. The elephant is said to be the largest in the world.

Horse races are scheduled at 2 p. m., every afternoon and sport fans may see a good ball game each day. On Thursday Winside plays Wayne; Hoskins meets Laurel on Friday; and on Saturday there should be plenty of excitement when the winners clash in a play-off for \$150 in purses.

Wayne's excellent municipal band under the direction of Prof. F. C. Reed is playing twice daily, assuring visitors of a musical treat which adds much to the fair atmosphere.

Stock companies present feature acts, and a dance is arranged each evening.

Poultry exhibits have come in large numbers and the display of agricultural products is of high quality. Of great interest to many is the colorful and artistic display of school work.

This morning at 10, 4-H club boys from northeast Nebraska will compete in a "Loss Prevention in Marketing Livestock" contest to select a winning team to represent northeast Nebraska at the Sioux City Baby Beef show. Another event sure to attract is the 4-H club showmanship livestock contest to be held Saturday morning at 10 o'clock.

Following are the judges of the various classes of exhibits: Livestock, K. C. Fouts, agricultural agent of Seward county; poultry, Mrs. George Rasmussen, Sioux City; Horticulture, D. Hall, Wayne; agricultural products, Walter Chace, agricultural agent of Stanton county; home economics, Mrs. Whitcomb of Hooper; and school exhibits, Mrs. Don Bearman and Mrs. Walter Moller of Wayne.

This was the highest award possible as the heifers and steers were judged separately. Dean's calf also took first in its class. The animal weighed 830 pounds and was sold at auction Thursday, bringing \$17,500 per 100.

Dean is a son of Mr. and Mrs. Carl F. Meyer of Wayne and is in club work for the first time this year. He is a sixth grader in his school district southeast of Wayne.

Murrel Sydow and Don Baird each entered calves in the state fair show. Theirs were also sold Thursday.

PLANS SHAPE FOR JOYFUL OCCASION HERE IN OCTOBER

TUESDAY, October 5, is the date named for Wayne's autumn festival. The day's program is being arranged, and its features will be set forth from week to week in this newspaper. A barbecue is to be a major contribution. The justly popular Foster May of the W. O. W. station, Omaha, is expected to appear in one of his daily street broadcasts. The entertainment committee is busy planning a series of interesting attractions. Other committees are working out details. The purpose is to express the community's good will. It will be one of the opening days of autumn, and probably the frost will be on the pumpkin. Live dealers will have fall and winter stocks on display, and they will doubtless make known latest styles and lowest prices. October 5 will be made a gala day in Wayne, according to the plans of local committees.

AUTUMN FESTIVAL PLANS ARE MADE

One-Day Celebration Will Provide Free Entertainment, Oct. 5.

What promises to be the greatest free entertainment ever staged in northeast Nebraska is scheduled to take place in Wayne on Tuesday, October 5, when Wayne merchants will sponsor a fall festival replete with attractive events and activity.

With the entertainment beginning at 10 o'clock on Tuesday morning, there should never be a dull moment for anyone. Foster May, the "Man on the Street," well-known to every radio listener, will appear on the streets of Wayne at 12:45 to bring a first-hand description in his inimitable style of the festival to the outside world.

Extremely popular with everybody will be the big free beef barbecue at 1:00 o'clock. There will be plenty of delicious Nebraska beef for all. In the afternoon the fun will continue with a full measure of spicy entertainment planned until late in the evening.

More elaborate plans are being made for a colorful pet parade in the afternoon. Pet parades have received such enthusiastic receptions in all parts of the middle west in the past that this feature will perhaps be one of the outstanding of the day.

As the day fades into evening the crowd may turn to different forms of enjoyment. A full American Legion will be announced in detail at a later date. A free pavement dance with a popular orchestra furnishing the music will close the official program of the big fall festival.

The children have not been forgotten by the planners of the festival, for they may ride to their hearts' content on the free merry-go-round and free ferris wheel which will operate all day and evening.

It should be a very special day in this section with all elements favoring a successful festival. The zesty fall weather, harvest time enthusiasm, the earnestness of the program of festivities, and the free nature of the festival should combine to make the day a red-letter day.

Active in planning the entertainment are the following: Al Leuders, W. C. Coryell, Strahan, Barney Sandberg, Harder, Glenn Sandberg, Dr. L. F. Perry, L. W. McNatt, Martin Ringler, Don Wightman, E. J. Fuesler, Al Johnson, Armand Hiscox, Carl Nuss, and Carroll Orr.

Good will is a primary purpose of the fall festival, and Wayne merchants are making every effort actually to demonstrate to people of this territory the unusual trade advantages offered by Wayne. Hundreds of special inducements in the form of specials and bargains are planned by the merchants, and a hearty welcome extended to all visitors to come to Wayne and get acquainted.

Organize To Help Crippled Children

Mrs. R. W. Ley Is Chairman Of Group Promoting County Work.

S. O. Perkins, secretary of the Nebraska Society for Crippled Children, met with the Wayne committee last week Wednesday in a round table discussion of the society. Mrs. R. W. Ley is chairman of the Wayne county committee.

The society, which is international in scope, was recently organized in Nebraska. The aim of the organization is to contact and help, educationally and physically, any child who is physically handicapped so that he will be self-supporting and receive proper hospital and medical treatment.

Two years ago the state legislature appropriated \$23,000 to help take care of patients in the orthopedic hospital in Lincoln. Last year a further sum of \$63,000 was appropriated. It was not until last year that plans were made for taking a census of every child who needed help. A bill was also passed by the legislature which provided: First, enumeration through school census of all crippled children from birth to 21 years of age; second, reporting of any physical deformity by physician at birth; third, organization of crippled children committee.

Transfer Workers To Near Hookins

A new road grading project southwest of Winside will provide for WPA laborers. Men will be transferred there from south of Sholes where road work will continue.

Hickman Laments Lack Of Reserves

Lacking good reserve material, Coach W. R. Hickman will have to depend chiefly on 12 lettermen and a few outstanding freshmen gridders to carry Wayne State Teachers college colors on the gridiron this fall. Failure of Glenn Paul, tackle, to return left one more gap in the line to be filled, while likely replacements are hard to find among the 50 aspirants who reported this week.

Bradford, freshman backfield star from Mitchell, will replace Cople at fullback this year. A good passer and a hard-hitting speedy runner, "Rusty" should be hard to stop. Ervin Retzlaff, still favoring a game leg, has donated this suit to boost Wildcat hopes for a fast backfield combination. Warren of Lyons, or Huntemer, flashy Wayne prep back last year, will fill in the vacancy left by the absence of Wehrer, quarterback.

Lindahl, husky 175-pound lad from Tilden, is making a strong bid for an end position. Kubichek, O'Neil, is another new man who may help solve the tackle problem.

The football season ahead looks none too encouraging to Coach Hickman, everything considered. One of the most strenuous schedules in many years confronts the Wildcat eleven with opponents boasting better than average teams. Only a week from this Saturday Coach Hickman takes his team to Vermilion for the opening game with the powerful South Dakota university gridders.

High School Team Works For Opener

There's certain to be a scramble for positions on the first eleven at Wayne high school as Coach Elwood Morris sends his squad through daily drills in preparation for the first game with Pierce next Friday, September 24, on the local field.

Morris is far from satisfied with the showing of his veterans. Pitted against a team composed mostly of freshmen and sophomores in practice the experienced boys have not come up to expectations. Several of the newcomers have a chance to gain berths on the starting lineup if they continue to work hard, and this should serve to stimulate the veterans.

Several promising boys who were counted on heavily to handle key assignments on the first team have not been reporting regularly

for practice, a decided setback to Wayne's hopes on the gridiron. Darrel Johnson, Bob Baker, Dean Granquist, Lyle Seymour, M. Lessman, Wilmer Ellis, Fred Gildersleeve, Roy Coryell, Kenneth Petersen and some other new men have been consistent in recent practices.

New blue jerseys with white numbers on front and back have been purchased. Practice is being held at the fair grounds where tackling and blocking dummies are used in drills.

The Wayne youths saw the taking of motion pictures at the Rose bowl. The boys also visited Boulder dam, Salt Lake City and other places. They had a trip on the ocean.

Ivar Carlson, Wakefield, Grows Tomatoes on Twelve-Foot Vines

lates the tale to amazed listeners. They aren't trick photographs, either, for you can see for yourself anytime during the tomato season. Last year "Skiv" hit on the idea of training his tomato vines to climb 2 by 2 inch poles 10 or 12 feet tall. He pruned the smaller branches from the vines from time to time, leaving the fruitful ones to produce bigger and better tomatoes. And they did. The largest weighed 2 pounds. Mr. Carlson harvested a bountiful crop of enormous, red juicy tomatoes. In one week he picked three washtubs full of the red fruit, and Mrs. Carlson canned 45 quarts for the winter season. Neighbors helped use up the surplus during the peak of the season. Other Wakefield residents have followed the plan used by "Skiv" to increase their tomato yield and grow larger specimens. Mr. Carlson, who is employed in the Eckroth and Sar hardware store and lumber yard in Wakefield, has many other vegetables in his garden, among them egg plant, beans, peppers, cucumbers, carrots, beets, peas and giant cabbages. With a native knack for doing things in a different manner, which has become almost a hobby, Wakefield folks are continually wondering what "Skiv" will be up to next. Imagine having to climb a ladder to pick tomatoes in your garden from vines 12 feet tall. Sounds like a tall, tall story. But the skeptical need only visit the garden of Ivar Carlson in the north part of Wakefield's residential district to have their doubts changed to wonderment. "Skiv," as he is known to friends in his home town, even has a sheaf of camera shots to prove that he isn't spoofing when he re-

Holiday Tissue
Paper Is Made In Wisconsin Factory

Red and white tissue paper for holiday bundles was being made at the paper factory in Stevens Point, Wis., when Miss Louise and Miss Evelyn Wendt and Robert Fishback visited there recently. Wood pulp, which had in another factory near the forests been made into sheets about a quarter inch thick, was converted into delicate tissue. Typewriter paper and paper towels were also made in the Stevens Point factory. And when employees do not have rush orders to fill they make wrappers for soap.

The open pit iron mines near Hibbing and Virginia, Minn., were also interesting to the three. Iron ore is dug from the surface mine which is a huge open pit. When the Wayne folks were there, 27 engines were hauling ore from the pit. The ore is shipped to manufacturing centers.

Fort Francis and other points in Canada proved unusual for the travelers saw many French Canadians and Indians. The trip there was through the country which abounds in huge pines, and the pines and oaks around Lake Pokegama in Minnesota were also of great size.

Bureau Places Wayne College Teachers

With 94% of the graduates of 4 and 2-year courses either placed in positions or attending school, Wayne State Teachers college placement bureau has established a remarkable record this year. Every girl in a senior class of 98 who prepared for high school teaching has found a job, while only four boys out of the class are not yet placed.

In the class of two-year graduates only three students are without positions. Every rural teacher has found a job—in fact, there are jobs to spare. The nation's only soft school house out in Brown county, Nebraska, is still without a teacher reports County Superintendent Grape Hamaker. Rural high schools are short of teachers this year.

This year finds the greatest teacher demand in years, with twice as many vacancies as last year directly reported to the placement bureau by school officials. Over 500 vacancies have been reported this year, said Prof. K. N. Parke, director of Wayne's placement bureau.

Shortage of teachers has appeared in several fields with the most difficult type to fill being the music departments, coaching and science, home economics, industrial arts and commercial. Wayne college has this year placed teachers in many of the larger schools in this section and in schools in far-away towns. These include Norfolk, three teachers; Mapleton, Iowa, three; Sioux City, two; Columbus, two; Tekamah, one; Hobbs, N. M.; Oregon City, Ore.; Enumclaw, Wash.; Wauwatosa, Wis.

The placement bureau secures positions with practically no cost to students. The only charge is the one dollar for registration.

NUMBER TWENTYTHREE

But It's True

A RABBIT BELONGING TO TRAVIS MOUNT OF HOUSTON, TEXAS, STAYS WITH ITS MASTER, EATS NOTHING BUT CRABMEAT, AND ATTENDS CHURCH ON SUNDAYS!

A PIECE OF ICE HAS BEEN PRESERVED IN THE SAME SHAPE FOR 12 YEARS BY PROFESSOR JAMES MCCAFREY OF BOSTON COLLEGE. HE BELIEVES IT MAY BE KEPT THE WAY IT IS INDEFINITELY...

HAROLD McPHERSON OF LONDON, CANADA, HAS EATEN NOTHING BUT PEANUTS FOR THE LAST 22 YEARS. HE IS NOW 77 AND HEALTHY!

The block of ice was used in connection with a law suit three years after it had been taken from a sidewalk. Then Professor McCafrey kept it in condition just for fun. It's all a matter of maintaining the same temperature.

Mr. Mount's rabbit has the intelligence of a dog, actually hops into church with its owner, sits beneath the pew. Its liking for crabmeat is apparently due to eccentricity, which is something one might expect to find in such a rabbit.

Many Students Work At Wayne College

Out of the estimated 700 students who will register at Wayne State Teachers college this week, 135 will be employed on N. Y. A. jobs or by the school. Many others will find work in private homes, restaurants, downtown stores, filling stations, and at other varied jobs.

So, despite the curtailment of funds available through the N. Y. A., a large number of students will be partly or wholly self-supporting. The 70 in N. Y. A. positions will receive an average of \$11 a month; the college cafeteria will give jobs to 28, who will thus earn their meals; five student janitors will receive \$12 a month; nine more will check out books and do other work in the library; in the athletic department two boys will earn \$12 a month by doing laundry; 16 girls will receive their rooms free of charge for acting as monitors, and three boys at Terrace hall will receive similar remuneration. Two laboratory assistants will be employed at \$12 per month.

Vacation Trip Is Of Interest

Dean Martha Smith and two daughters returned the first of September from a two weeks' vacation in Kentucky where they visited relatives. They visited in the country home of Mrs. Smith's sister, Dean Smith reported that the farms in Kentucky are lovely this year and very prosperous. The tobacco crop is very good and everything appears to be flourishing.

In Kentucky, reported Mrs. Smith, the aristocracy of the state lives on farms and many of the homes are using Negro servants, displaying typical southern life.

Mrs. Smith and her daughters had an interesting time in Chicago. They attended the play, "You Can't Take It With You," based on this year's best seller and the girls had their first ride on the elevated.

During the trip Mrs. Smith and daughters enjoyed very cool temperature and not until they reached Nebraska did they experience extreme heat.

Red Cross Aiding Overcoming Disease

Pellagra is a disease prevalent because of improper nutrition, and the National Red Cross is conducting a campaign to aid in eradicating the malady.

If everyone would use a reasonable amount of milk, lean meat, liver, salmon and a variety of greens and vegetables, pellagra would disappear entirely, according to Red Cross medical department. A small amount of pure yeast will also accomplish the desired results.

From 1927 until 1935 the Red Cross distributed 600,000 pounds of pure yeast and 750,000 packages of garden seeds to help families get the foods they need. The Red Cross will continue to promote gardening and will conduct instruction in nutrition through its many chapters.

Compares Pupils Abroad With Ones In This Country

A comparison of pupils of high school age in Sweden, Germany and Denmark with those in this country was especially interesting to Ruth Lundberg, who with her parents spent two months this summer abroad.

Chief sport this summer was swimming. A game played by the younger people of Sweden is similar to football, only a basketball is used. Two goals are placed at either end of the field and the object of the game is to kick the ball through the opponent's goal.

Throughout Germany, school children wear uniforms. Boys wear black shorts and khaki shirts with emblems while most of the girls wear black skirts and khaki shirts. One group of children wore tan skirts and shorts and white blouses. The government provides camps and hikes for these students.

A new experience for Ruth was sleeping under feather ticks. In Germany people use feather ticks in place of blankets. While Lundbergs in Germany they met some English people and were a little confused when they spoke of being abroad.

Old and New Combine To Make Interesting Trip For Smiths

The oldest building and the newest building seen in the east appealed the most to R. R. Smith, who with Mrs. Smith returned Thursday from a three weeks' trip which took them through New York, Ontario, Canada, Chicago and Iowa.

The Empire State in New York was the new building visited. It is 102 stories or 1,040 feet high. Mr. Smith broadcast over station WGN on Voice of the Street program. He also spent almost two hours looking over the city from one of the top floors of the building, picking out places which he had read or heard about such as the Chrysler Tower, Woolworth building, Rockefeller Institute and the Goddard of Liberty.

Fort Niagara was the oldest place visited. The old fort has been repaired and rededicated to resemble the fort of 1640. It lies below the Niagara Falls, where the falls flow into Lake Ontario. The old living quarters, kitchen tables, cooking utensils, bread trough which was hollowed out of a large log, are all preserved from the old fort. In the prison room the walls were noticed into the wall of stone in 1640. Glass has been placed over the names to preserve them. Only one window, 6 inches by 2 feet, was built in the prison room.

The drawbridge near the fort has been repaired so that it may be used. The Smiths visited the mess room, counsel room, block house and parade grounds. The fort covers about 40 acres of land and has several stone buildings. One of the outside doors weighs 1,500 pounds—750 pounds of hewn oak and 750 pounds of iron. The door is all hand made. The floors are also of hewn lumber and no nails have been used, the boards having been put together by wooden pins. Many old fashioned guns, among them those of the bell muzzle, were seen.

On their trip east, Mr. and Mrs. Smith visited the Chrysler building in which the elevator gets up to 100 floors in one minute's time, traveled the beautiful winding approach to the Washington bridge, saw several strikes in which the

proclamation requesting citizens to gather at the courthouse for ceremonies in respect to the late President McKinley. Dr. R. B. Legal Notice

In the County Court of Wayne county, Nebraska. In the Matter of the Estate of William H. Crew, Deceased. To the heirs and creditors of and all persons interested in the estate of William H. Crew, deceased: You and each of you are hereby notified that on the 28th day of August, 1937, Anton Pflueger filed his petition in the County Court of Wayne County, Nebraska, alleging that William H. Crew, a widower, departed his life intestate at his residence in Richmond, Ohio, on or about the 28th day of September, 1870; and at the time of his death decedent was seized in fee simple of the Southeast Quarter (SE 1/4) of

wives of the picketers were wearing placards, and saw the parade staged at the convention of the Veterans of Foreign Wars at Buffalo, N. Y. During the convention Buffalo was crowded and all hotels were filled, making it necessary to seek living quarters at other towns or camps nearby. The French Canadians sent one troop of soldiers to the convention who were also at Fort Niagara when the Smiths were there. Throughout the east the Smiths noted many evidences of a still existing depression. Very little building and remodeling was being done and there are many men unemployed. In New York city many old mansions were for sale and rent. This was also true in Utica and Syracuse and other cities along the Mohawk valley. The Smiths stayed in two "lovely old mansions" which had been turned into tourist homes.

Buffalo, N. Y., has more building than any other city, as a government home building project is being carried on there. Homes from \$15,000 to \$20,000 are being built and the owner pays the money back to the government on a monthly installment plan. There is an abundance of fruit in the east—the first time in seven years. Much of the fruit is spoiling on the trees, however, as there is a lack of sunshine. Tomatoes sell for 40c a bushel; peaches \$1.00 a bushel and apples for 50c a bushel. Crops from Nebraska to eastern states are spotted.

Another form of unemployment exists in the east caused by the factories. Many of the salesmen sell on a commission basis throwing all of the responsibility on the person. There is no fixed wage. Mr. and Mrs. Smith crossed into Canada at Niagara. Canada is a fruit and dairy country with many small farms. There are few feeding farms. The lay of the land is quite low and flat. Travelling over 3,500 miles, Mr. and Mrs. Smith began their homeward trip, arriving Thursday of last week. They were in Detroit labor day and ran into a great deal of traffic. Mr. Smith commenting that they met thousands of cars headed for Detroit.

See the Difference **PURINA** Makes in Egg Profits!

DAY BY DAY, week by week, month by month, Purina Laying Chows keep up steady egg production. The reason they do is because they're "eggs in a bag." Every ingredient has a definite egg-making job to do—every ingredient does its job.

All year 'round the carefully balanced, blended and tested Purina Laying Chows do the best job of keeping up egg profits. Check-board quality feeds bring you results that a "priced" feed can never accomplish.

Purina Laying Chows are the only laying feeds on the market fortified with that new vitamin A ingredient, Pur-a-tene. If you want Purina results, feed Purina Laying Chows. You'll be more than pleased at the difference they make!
