The government is spending \$1,700,000 to clean and reconsecrate the Statue of Liberty. The statue was given to this country by France 51 years ago.

It was so hot in Connecticut that even the highway caught fire. The sun caused spontaneous combustion among particles of buffing dust used as a base in the road's construction.

A Los Angeles man blames a bottle of water for a fire in his car. The bottle lay next to some bedding and magnified the sun's rays to a hot-hot point.

An overheated furnace caused a fire in Salt Lake City when the weather outside registered 95 degrees. The lady of the house explained that she had been burning rubbish in the furnace.

A New York man, 80, starting out to fish said he'd like to catch one more fish before he gave up the sport. He caught a 10-pounder and a few seconds later dropped dead from a heart attack.

'Who stole my dog?' a young boy asked the police officer. 'I don't know,' replied the officer. 'But you know who it was when you came to my house for the bicycle,' answered the boy.

An Indianapolis woman was sure no food she ever cooked smelled like her simmering beans and ham. She lifted the lid and an explosion filled the air with food. Firemen found the woman had boiled the food in gasoline.

A church in the heart of an oil producing region in New York no longer has a problem about its bills. The front yard has been leased to an oil company and funds will be used for a new building as well as the church operation.

A Salt Lake City man drove home from a meeting in what he thought was his car. The next day he saw his machine still parked near the meeting place. He hurried to police headquarters and found that the car he was driving was listed as stolen.

When a box contributed to a Virginia church rummage sale yielded only one shoe, the woman jokingly remarked they would have to sell it to a one-legged man. A short time later a one-legged man appeared, found the shoe fit his foot and bought it.

The capitol's air-conditioning plant, largest in the world, can turn out every 24 hours a block

of ice 50 feet square and as high as seven-story building. It cools 11 million gallons of water a day, which engineers say is enough to serve a city of one hundred thousand persons.

The wedding of Harry M. Frey, Millersville, Pa., and Verna Duke, Washington, Pa., did more than make them husband and wife. Mr. Frey's brother-in-law became his father-in-law while the bride's stepmother became her sister-in-law. The answer: Mr. Frey's father is married to the bride's sister.

'Send an ambulance. Three children in a wreck are bleeding to death.' In reply to this message a doctor and policeman hurried to the scene to remove the occupants of a wrecked car. A policeman touched an apparently bleeding arm and smiled. A jar of raspberry jam had been broken. No one was hurt.

A New York taxi driver tried to see Howard Hughes when he landed after his round-the-world trip but was unable to do so. A few days later he answered a taxi call and took his passenger a long distance to a dinner date. To Nebraska Beer Dealers...

Your license is a valuable and protected permit to engage in a legitimate business.

You have more than average protection—the number of your competitors is limited by governing authorities.

ALSO—

Your license is more than personal privilege and personal property.

Your license makes you a definite part of the great Nebraska Brewing Industry—an industry which pays millions each year in taxes, millions in payrolls, uses a vast amount of farm products; an industry in which millions of dollars are invested.

Your license makes you ONE OF THE MANY responsible for maintaining the high standards of the industry—responsible for strict adherence to law and for orderly conduct of the beer business.

The Nebraska Brewers and Beer Distributors Committee is organized to protect the industry from abuses that sometimes attach themselves to the beer business. You, the retailer, do not want abuses or law violations. The small per cent of your number who may disregard law and common decency jeopardize too many jobs, too much invested money, too much tax revenue. These few are as undesirable to the retailer as they are to the manufacturers and distributors of beer.

Urge your customers never to patronize a beer store or tavern, which by its conduct jeopardizes your license and privilege to do business.

LEGAL NOTICE AS TO MEASURE TO BE VOTED UPON NOVEMBER 8, 1938

PROPOSED BY INITIATIVE PETITION A proposal to amend Section 24, Article 3 of the Constitution of Nebraska authorizing the legislature, by law, to license and to regulate the operation of slot machines and other coin operated devices and machines of chance, exempting merchandise and service vending machines; to provide that revenue derived from license fees shall go into the state assistance fund, the school district in which the machine is located and for administrative expense; to provide a limitation on the amount of an occupation tax any city or village in the state may levy upon any owner or operator of such machine.

FOR AN AMENDMENT TO the Constitution of the State of Nebraska relating to public assistance, welfare and social security; to provide revenue for the State Assistance Fund from the proceeds of an annual tax to be levied on owners and operators of coin-operated devices.

Be it Enacted by the People of the State of Nebraska: Section 1. That Section 24, Article III, Constitution of Nebraska, be amended to read as follows: "Sec. 24. (a) The Legislature shall not authorize any game of chance, lottery or gift enterprise; but nothing in this section shall be construed to prohibit the enactment of laws provided for the licensing and regulation of wagering on the results of horse races by the pari-mutuel or certificate method, when conducted by licensees within the race track enclosure at licensed horse race meetings; nor shall anything in this section be construed to prohibit the enactment of laws providing for the operation, leasing, distribution, maintenance or possession of any coin-operated machines, whether said machines are skill machines, vending machines or trade machines or providing for the licensing, regulation and taxing of said machines as hereinafter provided. (b) No person or persons, corporation or corporations shall own or operate any coin-operated device without first having obtained a license therefor. For the purpose of this section, coin-operated devices are defined and classified as follows: (1) Coin-operated skill machines (commonly referred to as pin games, marble tables and similar devices of this type which may have a skill feature) which may or may not pay a reward for skillful operation, or upon which operation premiums may or may not be given for high score or making certain combinations. Such premiums may be awarded either automatically by the machine in the form of checks, tokens or orders which designate the value of the premium or premiums; or may be indicated by a score card attached to the machine. Hereafter, this type shall be referred to as 'skill machines'. (2) Automatic coin-operated vending and amusement machines with premium features which vend for each coin deposited a standard article of merchandise of a recognized retail value equal to the coin deposited and in addition, may vend checks, tokens or orders which may be exchanged for additional merchandise. Hereafter this type shall be referred to as 'automatic vendors'. (3) Trade machines which have no merchandise vending feature, although at intervals indicate that patron is entitled to receive premiums in merchandise or cash which the machine may or may not vend. Hereafter this type will be referred to as 'trade machines'. Provided, nothing herein contained shall be construed to apply to any coin-operated machine or device which returns amusement or entertainment of some service or article of value or a combination of the above uniformly as to quantity and quality upon each insertion of a coin into the same nor to any coin-operated telephones, United States stamp machine or toilet locks. Each owner of automatic vendors or skill machines or trade machines shall obtain an annual license from and shall pay in advance an annual occupation tax to the Tax Commissioner of the state in the sum of One Thousand Dollars on the first machine for which an annual license is taken, all of said tax to be credited to the State Assistance Fund, and an annual occupation tax to the Tax Commissioner of the state on each additional machine for which an annual license is taken in the sum of Forty Dollars per year, payable quarterly in advance, Thirty Dollars of which shall be credited to the State Assistance Fund and Ten Dollars, less the cost of administration, if any, shall forthwith be transmitted to the proper school treasurer for credit to the public school fund of the particular city, town, village or county in which each of said machines is licensed, as the case may be; Provided, notwithstanding any ordinance or charter power to the contrary, no city or village shall impose any occupation, privilege, license, excise or other tax on the business of any licensed person, firm or corporation owning or operating said coin-operated machines in any sum exceeding Ten Dollars per annum. The provisions of this section do not apply to machines or devices being displayed or demonstrated by manufacturers, distributors, salesmen or their agents for sales purposes. The Legislature by general law shall provide the amount of application fees and other regulations to defray the cost of administration of and to carry out the intent and purpose of this section, and shall further provide it to be a misdemeanor punishable by fine not exceeding One Hundred Dollars for each offense for any owner or person in charge of any licensed machine knowingly to permit any minor to play thereon."
