

Deepens Search for Truth—North Dakota's Plight—Demand for Help—Blaming Transportation—Newspaper Advantages in America.

"And ever near us, though unseen, The dear immortal spirits tread; For all the boundless universe 'Tis life—there is no dead."

That was Sir Edward Lytton's conclusion more than 100 years ago, and it expresses an age-old hope. Through the centuries sages and seers have confirmed belief in another and higher sphere—free from earth's ills and vibrant with the joy of solved mysteries.

We turn to sharpened reflection and speculation as passing of the sixth year commemorates the stark tragedy that bore away our eldest daughter, Olive. It was 11:30 in the forenoon of October 12, 1935, when the unexpected shadow fell.

Perfect autumn weather had followed touches of frost. Sunshine glorified many-hued leaves, soon to perish and fall. But resplendent elements sank into despairing night as we were faced by irreparable loss.

Since then many have been scourged by similar fate. Innumerable others have joined the supernal host, leaving shattered but hopeful firesides. We share the pains of those who have been thus bereft and saddened.

Where do we go from here in the mind of every person who contemplates the uncertainty of life and the certainty of death. It is not reasonable to assume that the vast outlying infinity is void; that it has no purpose beyond accommodating this comparatively small world and its changing populations.

Graves on the hillside are hallowed by cherished memories. They soothe at night the world's trifles. They lift the soul above consideration of earthly riches or place or power. They accentuate imperishable values. They may well steel remaining travelers to their tasks of service and to their niches of helpful fellowship.

The elements have treated North Dakota with cold indifference, according to L. H. Averman who traveled through that state on his way here from Montana. For a series of years North Dakota was stricken by devastating drought, but this year rainfall has been so excessive that farmers have been unable so far to thrash their grain.

The Chamber of Commerce may increase its service at this time by efforts in behalf of sufficient help to husk this area's corn crop. The proper committee may well act in behalf of any demand that develops.

Addressing the president of the Nebraska Press association, Governor Dwight Griswold upholds America's free press in these words: "Representative democracy is impossible without a free press. In our society where the people make the final judgments, they are dependent chiefly upon the newspapers for the information upon which those judgments must be based. It is imperative, therefore, that the press be utterly truthful, fair and reliable. In America, granting that there are imperfections, journalism has reached the highest standards known and no small portion of the great progress which we have made toward better government is due to the important part played by our newspapers."

Expect to Break Husking Record

Preparations Are Made for County Contest Soon At Frevert Farm.

A new Frevert county corn husking record is likely to be set October 20 when the annual band concert is held at the Ed. Frevert farm two and one-half miles south and one east of Wayne. The field is a good level one and the yield is estimated between 65 and 70 bushels to the acre.

Prizes in the county contest are \$15, \$10 and \$5. Erwin Spitzberger, Wayne, was first contestant to register with Mayor M. L. Ringer, Joseph Radke, Winside, and Chelsen Thompson, Wayne, are others entered, to date. Those wishing to take part are asked to enter their names by October 17. The contest is set for Monday, October 20, at 1:30.

Ground Soaked By More Rains

October Starts Off with Good Amount Moisture Coming to Area.

Wayne county shared over the week-end in rains that brought good amounts of moisture to northeast Nebraska. Valentine's 2.5 inches was the heaviest and other amounts in the area ranged down to .25.

Wayne's record, according to the State National bank gauge, is 2.2 last Thursday evening and 1 inch Saturday night. Altona had the heaviest rain in this vicinity Thursday, reporting 1.75 inches that evening, also heavy rains Saturday night and Monday morning.

Carroll's rains amounted to .6 Thursday and .5 Saturday; Winside's, .28 and .55 respectively; and Wakefield, .16 Thursday, .51 Saturday and .14 Monday.

Week-end rains brought 1 inch of rain at Pilger, 1.5 at Wisner, 3 at Pierce and 2.1 at Norfolk.

The moisture starts off a good record for the month of October. Last year the month's total in Wayne was 1.76 and the year previous it was .24. Since 1914 the usual rainfall for October is about one inch. The heaviest was 4.06 inches in 1928 and the least was .2 in 1917.

Suffer Injuries In Car Accident

Blowout Throws Oakland Machine into Ditch South of Wayne.

Howard Silver sustained gashes on the head and others were shaken and bruised Sunday afternoon when a car belonging to W. F. Koepnick, Oakland, and driven by Carl Johnson, also of Oakland, turned over into a ditch south of Wayne after a tire blow out. Mr. Silver's cuts required 10 stitches. All received care at a local hospital and were able to leave the same evening. The car was practically wrecked.

Mr. Silver, Dale Klein, Mr. Johnson and James Roddy were coming to Wayne to bring James Roddy to college after he had spent the week-end in Oakland. Silver and Klein were in the back seat and the others in the front. When the tire blew out the car plunged off the highway on the east side of the road near the Curtis Poles place about two and a half miles south of Wayne. The machine first landed on the front in the ditch, then bounced into the air and hit on the back and finally turned over onto the side. The men, all remaining in the car, were able to get out. Passerby brought them to Wayne.

Judge Selects Hereford Raised by Wayne County Youth As Best at Ak-Sar-Ben Show in Omaha Wednesday.

Leland Herman, 18, Wayne county youth, scored a second grand championship on his baby beef at Omaha Ak-Sar-Ben Wednesday. He had won the same coveted honor last year. Lester Lutt, another Wayne county youth, had earned grand championship at the show in 1936 and 1937. The two from here are the only 4-H members ever to repeat this attainment.

WEATHER IS ASKED TO SHUT OFF RAIN TO HELP NEW CORN

PROBABLY for the first time in 10 years clearing skies have been accepted with warm approval. The 10-year-old yearning for more moisture has been changed to anxiety for dry days. Fear of too little has been supplanted by fear of too much. A fall of more than two inches in three days of early October, following a normally wet September, has made people eager for dry weather to prepare the soil for husking. But people can't make it rain when it doesn't, nor make it not rain when it does. A long-needed soaking of the soil has been taking place, and there should be no scarcity of valuable sub-soil moisture when plowing and planting come next spring. In the meantime, we will take what we get, and we should be thankful over the prospect of burying ruinous drought and grasshoppers in a departed cycle.

**Returns from West.**  
Mrs. Clarence Wright arrived home Saturday morning from the west coast where she had spent a month attending the supreme convention of the P. E. O. at Victoria, B. C., and sightseeing. She visited an uncle at Sacramento, Cal., and spent a short time at Seattle, Portland, San Francisco and at Watsonville with Mr. and Mrs. S. W. Cisna. At Los Angeles Mrs. Wright spent a day with Mr. and Mrs. E. W. Smith, formerly of Wayne. Mr. Smith is in the state employment bureau office and Mrs. Smith is a hostess in an undertaking parlor. Activities on the west coast make a person war conscious, according to Mrs. Wright. One man out of every four seen on the streets is in uniform. Seattle population has increased by 50,000 since the first of the year and it is expected to be 100,000 larger by February. Mrs. Wright also stopped at Las Vegas and Salt Lake City.

## Christian Science Services

"Are Sin, Disease, and Death Real?" is the subject of the lesson-sermon which will be read in Churches of Christ, Scientist, throughout the world, on Sunday, October 12.

The Golden Text is: "Heal me, O Lord, and I shall be healed; save me, and I shall be saved; for thou art my praise" (Jeremiah 17:14).

Among the citations which comprise the lesson-sermon is the following from the Bible: "Art thou not from everlasting, O Lord my God, mine Holy One? We shall not die. Thou art of purer eyes than to behold evil, and canst not look on iniquity" (Habakkuk 1:12-13).

The lesson-sermon also includes the following passages from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Sin, sickness, and death are comprised in human material belief, and belong not to the divine Mind. They are without a real origin or existence. They have neither Principle nor permanence, but belong, with all that is material and temporal, to the nothingness of error, which simulates the creations of Truth... In error everything comes from beneath, not from

Men Are Wanted In Navel Reserve According to an announcement made this week in Washington by order of Secretary of the Navy Knox, "All men now enlisting in the naval reserve will be retained on active duty throughout the period of the national emergency, but they will be released to inactive duty as soon after the emergency ends as their services can be spared, regardless of the length of time remaining in their enlistment." Enlistment in the U. S. naval reserve is for four years but, if a man enlists today and the emergency ends within a period of several months, he will be returned to his civilian job as soon as possible after the emergency is over, and will not be required to complete his four year term in active service. Four classes of service in the United States naval reserve need men urgently today. They are class V-3, which includes radio and communications; V-5, aviation; V-6, for trade specialists or men desiring trade or vocational training; V-7, fleet officers. A more detailed outline of each class follows below. Men with specialized training in radio, searchlight and semaphore signaling or Morse telegraphy may be enrolled in class V-3, the communications class of the naval reserve. These men will be enlisted as petty officers with ratings according to their degrees of proficiency. Pay for men enrolling in this group ranges from \$60 a month for a petty officer third class to \$99 a month for a chief petty officer. An additional allowance of \$1.15 per day is made for men with dependents who have the rating of petty officer second class or higher. A man with at least two years of college education who desires to enter naval aviation will be enlisted as a seaman second class in class V-5 of the naval reserve. After a month's preliminary training the V-5 recruit will become a naval aviation cadet and will be sent for advanced training to one of the three principal naval flight training centers: Pensacola, Fla.; Jacksonville, Fla.; or Corpus Christi, Texas. On completion of this advanced course which requires approximately seven months, the V-5 cadet will be designated as a naval aviator and will be commissioned as an ensign in the U. S. naval reserve. During the first month of training, V-5 recruits are paid \$36. On completion of the first month's training the V-5 recruit is designated as a naval aviation cadet and will be paid \$75 a month, plus \$1 per day living expense. Upon commission as an ensign his pay will be increased to approximately \$245 a month and in addition he will receive regular pay bonuses of \$500 for each year he serves in active duty after the training period. Class V-6 in the U. S. naval reserve offers opportunities for men with specialized training to continue their trades and at the same time serve their country. This group includes specialists of any kind such as electricians, carpenters, machinists, stenographers, accountants, plumbers, cooks, bakers and many other trades and vocations. These men will upon enlistment be given ratings in accordance with the amount of previous specialized training they have had. Men with no previous specialized training will be enlisted in class V-6 as apprentice seamen with pay of \$21 a month. Directly following enlistment the new recruit will be sent to one of the four naval training stations for a short period. At the training station the apprentice seaman will be given an aptitude test and if he passes this test successfully he will be sent to a navy trade school. Approximately 5,500 men are admitted to navy trade schools each month. This schooling, valued at hundreds of dollars, is free and the seamen receive their regular navy pay while receiving instructions. Those applicants who do not pass their tests for admission to a navy trade school will be sent to duty aboard ship where an opportunity will be given them to train in a trade. Four months after enlistment all non-specialized applicants in class V-6 will be advanced automatically to seaman second class with a pay increase to \$36 a month. Men with previous specialized training of any kind will be enlisted in the naval reserve class V-6 with petty officer ratings and will be sent immediately to the ship or shore station where they are needed. College graduates who desire engineering or deck duty as officers in the U. S. naval reserve will be enlisted as midshipmen, class V-7. Upon completion of a four months' training course these men will be commissioned ensigns in the naval reserve. During the training period midshipmen are paid \$65 a month. As ensigns with commissions the pay will be approximately \$143 a month with an additional allowance of \$10 a month if they are married. All applicants for the U. S. naval reserve must be native-born citizens of the United States with the exception of candidates for class V-5 who must have been United States citizens for a period of at least 10 years. Detailed information with regard to enlistment in any class of the U. S. naval reserve may be secured by writing to or calling at your nearest regional navy recruiting station. Fumigate Weevils. Fumigation with heavier-than-air is about the only dependable method of ridding grain of weevils. Bins must be quite tight and the fumigation must done before the temperature of the grain falls much below 75 degrees, according to the agricultural service. Either carbon bisulphide or a mixture of ethylene dichloride and carbon tetrachloride can be used. Carbon bisulphide is most effective and cheapest, but it is inflammable and the vapor is explosive. A heavy dose of the chemical lowers the milling qualities of wheat to some extent, but does not affect corn, barley, or oats. The ethylene dichloride-carbon tetrachloride mixture is slower and more expensive, but is safe to use and doesn't damage wheat. Exchanges Robert Bray of Ponca, former Wayne college student, was graduated at Kelly Field, Texas, last week. He is visiting in Ponca before going to Dayton, O., where he will be assigned to specialized duty in the air corps. C. D. Haskell of Laurel, and E. W. Rossiter of Hartington, have been named to the state chemistry committee which provides for research into use of farm products in industry. The state superintendent granted Norfolk permission to hold an election on the question of establishing a junior college in that city.

Epic of West in Poetry Finished By J. G. Neihardt Dr. J. G. Neihardt of Bronson, Mo., poet laureate of Nebraska, and former resident of Wayne, has after 29 years' work completed his "Epic Cycle of the West" which includes five poem-histories, "The Song of Three Friends," "The Song of Hugh Glass," "The Song of Jed Smith," "The Song of the Indian Wars" and "The Song of the Messiah." "The Song of Jed Smith" is the volume just completed by the poet, this being third in the chronological order of the series. This newest poem is dedicated by the author to his son, Sigurd. Dr. Neihardt started his literary enterprise in 1912. He first became interested in Indian lore when his family lived on the edge of the Omaha Indian reservation at Bancroft. He was assistant to the Indian agent six years. The Omahas called him Little Bull Buffalo and the Sioux named him Little Cat-Later, after starting his epic, he traveled through the west and visited Indian tribes. He also descended the Missouri from the headwaters at Fort Benton, Mont., in an open boat, searching all available records of trappers, traders and explorers. Dr. Neihardt, born in Illinois in 1881, moved with his parents to Kansas when he was 5 and a few years later to Wayne. The family lived in the house that is now the property of H. W. McClure, near 6th and Main. At the age of 12 the poet began writing verse. His parents could not afford to buy him books but his mother and sisters saved enough soap wrappers to get his first cherished volume which was Tennyson's "Idylls of the King." He attended the normal school here three years, earning his tuition by ringing the bell twice every 50 minutes. The late President J. M. Pile and Dr. U. S. Conn were interested in the youth and helped him complete his school course at the age of 16. The poet tried his hand at farm work, school teaching, bookkeeping, beet weeder and marble polisher. He was fired from newspaper reporting because his head turned to rhymes. Then he scrubbed restaurant floors and was even a hobo for a time. He began writing Indian tales and found a market for these in magazines. He conceived the plan for his epic which he has written while being a columnist for a St. Louis paper and also doing lecturing. This winter he will give a series of lectures on the Pacific coast. Dr. Neihardt was conferred honorary degrees by the University of Nebraska and Creighton university. He was made Nebraska poet laureate by act of the legislature in 1921. Dr. Neihardt's wife was the former Mona Martinson. They have four children, Enid, Sigurd, Hilda, and Alice. LOCAL NEWS Mr. and Mrs. M. H. Ternus of Humphrey, spent Saturday and Sunday in the E. J. Huntmer home. Mr. and Mrs. Ted Morris and daughter of Oto, Ia., spent the week-end with Mrs. Stella Chastrot. Dr. and Mrs. J. R. Johnson and children will go to Lincoln Saturday to attend the Kansas-Nebraska football game. Mr. and Mrs. R. E. Mark, Mr. and Mrs. R. K. Kirkman and Mrs. C. C. Strz were in Omaha Monday for the Ak-Sar-Ben show. Mr. and Mrs. Jack Dean moved from the Mrs. Logan Street to an apartment in the Ahern building. Mrs. Ed. Grier and family will move Sunday to the house on East 4th street vacated by the M. S. Mallorys who moved to the west coast. Mr. and Mrs. Wayne Kibby of Butte, were Sunday guests in the home of the former's aunt, Mrs. Chas. Lapham, Mrs. Pearl Byers and daughter, Mrs. Delbert Wilson, of Napier, who spent a week with Mrs. Byers' sister, Mrs. Lapham, returned home with them. Fred Ellis and daughter, Mrs. Duran Summers of Allen, plan to leave Saturday by car for Los Angeles. After a short visit they will bring home Mrs. Ellis who has been there a few weeks with her sons. Miss Esther Erxleben will accompany the Ellises to Los Angeles and plans to remain there. The poet tried his hand at farm work, school teaching, bookkeeping, beet weeder and marble polisher. He was fired from newspaper reporting because his head turned to

CONGRESS AS SEEN BY KARL STEFAN Gov. Homer Adkins of Arkansas has invited the Nebraska delegation to attend the homecoming celebration of the 35th division following the division's return from maneuvers. The celebration will be held at Little Rock, Ark., on October 10. Sunday, September 26, was a scorcher in Washington. Men appeared at the football game between the Red Skins and the Giants wearing straw hats and in their shirt sleeves. The REA chiefs notify members that they are short of copper and many REA lines will not be finished in spite of the fact that many poles are up. As a result those interested in REA construction are asking the OPM for some priority on copper wire for farm lines. The duke and duchess of Windsor did not create much excitement during their short visit in Washington. They did make a hit with about 400 newspaper people who held a reception in their honor in the Press club. The duke talked "off the record" but he said very little which people did not already know. He did say he appreciated what the United States was doing for Britain. The duke and his American born wife looked to be enjoying good health and in spite of the terrific heat in the Press club they did not perspire as profusely as did the newspaper people with whom they shook hands. Fifty-nine young men who have their residence in the Third district took a civil service examination October 4 in 14 different places in the United States and the British West Indies. This examination was preliminary to appointments to the navy and military schools of our country. After the civil service board rates the papers, the young men who hold top positions will be appointed by the Third district member. For seven years Henry Kriz has worked as service officer for the American Legion in Nebraska. The other day he came to Washington

Food and shelter are the two things rats want, according to Don Whelan, extension entomologist, who is in charge of the statewide extermination plan arranged for Halloween night. Whelan is urging all farmers to cooperate in the movement.

Patronize the advertisers.

Is there any time for athletics on board ship? Yes, the navy encourages athletic competition. Each ship has an officer in charge of athletics who is assisted by a committee of officers in arranging contests. On most ships there are boxing, wrestling, basketball and baseball teams. Tournaments are often held within the fleet, with the various winners receiving trophies as awards.

How many signal alphabets are used in the navy? Three. They are the flag, the semaphore and the International Morse. A seaman, first class, is taught all three methods of communication thoroughly.

Is special training required for a sailor to be assigned to a submarine? Yes, men who volunteer for submarine work are trained at the submarine school at New London, Conn. This training offers special instructions dealing with Diesel engines, radio, electricity and sound.

Can a sailor wear civilian clothes? Yes, sailors can wear civilian clothes while on leave or liberty in United States ports, but not in foreign ports.

Are pets allowed on board ship? No, except by special permission of the executive officer.

Are there any library facilities on the ships of the U. S. navy? Yes, every ship in the U. S. navy is equipped with a library. These libraries vary in size depending on the type of ship; for example, a battleship rates 2,000 volumes and a submarine with its small complement of men rates 150. During the past year the navy bought more than 114,000 new books for its libraries ashore and on shipboard.

How did the name "tar" originate? In the days of wooden ships and iron men, it was customary for sailors of the U. S. and all nations to soak their trousers in tar in order to waterproof them. From this custom the nickname "tar" originated.

How long must I serve if I enroll in the U. S. naval reserve for four years, but according to an order by Secretary of the Navy Knox, the enlistment will be only for the duration of the national emergency period. Secretary Knox said, "All men enlisting in the U. S. naval reserve will be detained for service on active duty throughout the period of the national emergency, but they will be released to inactive duty as soon after the emergency as the services can be spared, regardless of the length of time remaining in their enlistment."

How large was the U. S. navy force in the Pacific a hundred years ago? The Pacific force a hundred years ago consisted of the U. S. S. Constitution (Old Ironsides) and two armed schooners. American shipping trade in these waters consisted of 500 American whaling vessels and an additional 500 American merchant vessels.

The service schools of the U. S. Navy, where sailors are trained, are divided into three classifications. Class A schools offers elementary instructions in certain specialties to recruits; Class B supplement the training afloat by giving more advanced instructions in certain specialties to selected, experienced enlisted men; and Class C schools give advanced instructions in certain subjects not normally a part of shipboard training.

Upon completion of twenty years of service in the U. S. Navy, a sailor, if physically fit, can transfer to the fleet reserve and receive one-half of his base pay.

Medals and decorations in the United States Navy are, for the most part, worn on the left breast. This custom may be traced from the practice of the Crusaders in the Middle Ages wearing the badge of honor of their orders near the heart.

Figures show that the great number of recruits in Uncle Sam's Navy enlist because they want to learn a trade. The most popular trades are aviation, metalmith, welding, machinist and electricians.

Fresh eggs are probably the most popular part of the menu of the United States Navy. In one year over 146,016,000 are consumed.

Once a lad joins Uncle Sam's Navy his vocabulary changes. Floors are "decks," windows are "ports," stairs are "ladders," walls are "bulk heads." And upstairs is "topside" and downstairs in "below."

The major fighting strength of our Navy is concentrated in the Pacific fleet, which is located for the most part in and around the Hawaiian Islands.

With the aid of Sperry, Ford, General Electric and other companies, the U. S. Navy has worked out the best gun-fire control system in the world - one which is almost an automaton. Our seamen are very proud of their gunnery and, as they can aim and hit a target fifteen miles away in a minute, their pride is justifiable.

The epaulettes and shoulder marks now worn by U. S. naval officers survive from old days. When fighting seamen wore metal plates on their shoulders to protect them from saber cuts.

The U. S. Navy is probably the world's largest single distributor of motion pictures. It maintains 2,000 films in constant circulation and has a nightly attendance of 150,000 seamen. The Navy acquires between 300 and 400 new films each year, or practically the entire output of all of the major studios. The films are leased for a period of four years and then returned to the studios. When you witness slow motion pictures of your favorite athlete in action you are indebted to the U. S. Navy, for the necessity of studying the flight of projectiles led the Navy to develop the camera that makes possible slow motion movies.

New recruits at the U. S. naval training stations receive two mail deliveries daily.

Quota for October Will Be Selected

Wayne county's quota of 22 to enter selective service October 23 is not yet definite.

Registrants are urged by State Director Guy Henninger to consult their doctors and dentists to correct any defects before they are called for examination. This is in the interest of personal well being as well as for promotion of public health. Having disabilities corrected is a definite service to the public.

Those rejected by army induction centers because of physical defects should be reinstated in their jobs, the general states. Army standards are very exacting, and selectees may be rejected for such duty but this does not mean that they are physically unfit for civilian occupation.

All returning men are instructed to get in touch with their local board as soon as they reach home. Every effort should then be made by the board to reinstate the men in positions.

To Take Inventory Of Farm Trucks

All farmers and others who own trucks are asked to help the war department in its transportation planning for national defense, according to word coming to M. D. Wilson of the extension service. Each truck owner will receive a national defense inventory card which will request information regarding his truck, kind of body, capacity, time of business vehicle is most urgently needed in the owner's business and whether he would in an emergency be willing to hire or lease it to the government. Similar facts will be gathered on busses and freight trailers. The inventory is expected to provide detailed records that will be available in case of need.

More Game Than Usual.

Lincoln, October 7.—Hunters impatiently awaiting the start of the season on ducks, geese and pheasants only nine days away had the good word from W. H. Lytle secretary of the state game commission, today that "more ducks have been reported in Nebraska than in many a year with thousands upon thousands in the sandhills lake country."

Reenact Pioneer Scenes in Parade

Indians, covered wagons and early schools are among the pioneer scenes to be reenacted October 15 when Stanton County schools present a parade observing the 75th anniversary of the county. Most authentic section in the parade will likely be the pioneers themselves, this in charge of Paul Kingsley.

Mrs. Bess Waring, county superintendent, is issuing special badges to those who have ever taught in Stanton county. Mrs. Margaret Kenny Brown, who had a private subscription school in the W. D. Whalen granary in 1869, is believed to be the oldest living teacher. Mrs. Brown is now 88 years old and hopes to take part in the festivities.

The parade will form at the court house at 1:30 and a program will follow at the band shell on the fair grounds. This will include a pioneer men's chorus, reproduction of early school board meeting and group singing.

Hon. George Eberly, justice of the state supreme court, only living graduate of Stanton high school's first class, that of 1888, will preside.

Defense Comes First in Auto Industry

In a "visual report," staged at its Proving Ground at Milford, Mich., General Motors gives visiting editors a demonstration of the Corporation's national defense production activities, dramatizing the theme "Defense Comes First."

Above, a field maneuver is simulated with GMC and Chevrolet army trucks and a Canadian-built tank with G. M. Diesel power, while flying overhead are Lockheed interceptors, propelled by twin G.M. liquid-cooled Allison engines.

Lower left, Alfred P. Sloan, Jr., Chairman of General Motors, and Charles F. Kettering, Vice President, inspect a machine gun, one of thousands being turned out by four General Motors plants in Michigan, Ohio and New York.

Lower right, Charles E. Wilson, President of General Motors, looks through the sighting device of an Oerlikon anti-aircraft gun, still another G. M. defense product. At present every G. M. manufacturing division is engaged in turning out one or more defense items, which are being produced in about 60 plants in 35 different cities. The Corporation reports that its production and delivery of essential defense materials in 1941 will exceed \$400,000,000.

# Civilian Defense To Be Effected

One of Thirteen Units in State Will Be Formed Here October 21.

Civilian defense in this region will be discussed Tuesday, October 21, at 3:30 when all interested meet at Wayne auditorium. Preliminary organization will be effected for this district (which includes Cedar, Dixon, Dakota, Wayne, Thurston, Cuming and Wurt counties).

The region around Omaha and Fort Crook has already been organized as one unit. Twelve other districts are to be formed in the state, and the meeting in Wayne is to arrange for one of these.

File, police, civil protection, agriculture, transportation and highway defense are problems that will be considered. From information gained by the Nebraska advisory defense committee at the series of district meetings the organization in each section of the state will be perfected, according to Governor Dwight Griswold. "The committees will advise with respect to future civilian defense activities in their respective areas."

Wade R. Martin, executive vice chairman of the Nebraska advisory defense committee, and Col. Edward L. Wilbur, director of Civilian defense area, will be present to outline plans and to confer with residents of this region. Everyone is invited to attend the meeting which considers the defense program.

Miss Minnie Will was home from Sioux City over the week-end.

## To Build Basement For Wayne Church

Plans for Improvement by Our Redeemer's Group Are Being Made.

The basement of Our Redeemer's Lutheran church is to be enlarged to the full size of the church, according to plans made by the Ladies' Aid at regular meeting last Thursday in the parlors. The basement is now less than half the size of the structure. Excavation is planned beneath the north and west portions of the church to make the basement full size. The rooms will then be finished for dining room, kitchen and furnace room. The women will also install a new furnace.

Plans are being drawn for the improvement, and it is expected the work will be finished this fall.

The women were entertained last Thursday by Mrs. Aug. Thun, Mrs. John Schroeder, Mrs. Wm. Blecke and Mrs. Henry Schroeder. Guests were Mrs. Emil Bergholz, Mrs. Herman Mahne, Mrs. Frank Horrell, Mrs. Edwin Richards, Mrs. Bertha Chester and Mrs. William Franzen.

Flower committee for this month includes Mrs. Emil Barelman, Mrs. A. H. Brinkman, Mrs. Wm. Blecke and Mrs. John Brudigan. In charge of the program are Mrs. John Luschien, Mrs. Harvey Meyer, Mrs. Bernard Meyer and Mrs. W. F. Most.

Hostesses in October are Mrs. Most, Mrs. Howard Kahler, Mrs. Ed. Bahe and Mrs. Emil Barelman.

## Cattle of County Top City Market

Enrl Reinhardt of Wayne, topped the Sioux City cattle market last week with two loads of steers that brought \$11.85. C. J. Harmer sold 49 hogs; Walt Fenske, 7 yearlings; Russell Preston, 29 steers for a year top of \$11.50.

Among other shipments from this vicinity are the following: Mrs. Marie Hanson, Pender, steers; Claussen & Albers, Thurston, heifers; C. D. Haskell, Laurel, lambs.

## Plan Library Meeting.

The 46th annual convention of the Nebraska State Library association will be held at the Yancey hotel in Grand Island, October 16 to 18 inclusive. ## Youth in England Sees Grave State After War Ceases

"Unemployment in America is almost solved by the war emergency—and so is ours, temporarily. I am not worrying about the present but the future." So writes Peter, an English youth of 21 living in Cobham, Surrey, in a letter to Dr. Frank Gracy of Wayne college faculty. "When the war is over you cannot just go on turning out weapons. For one thing, no one will want to buy them. Only while we can use them at the rate of seven million pounds' worth a day do we need to buy from you. Once the war is over, a quarter of our own factories can supply us, even if we remain armed at full strength. What will your people absorb into war industries do then? Further, we shall owe you a high debt. This cannot be paid in money, but in kind. The more manufactured goods we send to you, the less men you will employ to make them yourselves. If some new method is not evolved after the war, your country and the rest of the world is going to see the worst depression yet."

"The entry of Russia into the war makes a decided difference to our chances of victory," the English youth continues. "This is the only power with both the opportunity and the resources materially to damage the Nazi army. Short of invasion, there is little the allies can do except bombing. America can aid in the economic war and by supplying arms."

"As to the statement that the war will be a great leveler in Britain, the nobility are almost dead. Very few of the thoroughbred nobility remain aloof today. They have already been largely pushed out by the soap, beer, car and cinema makers who can easily afford to buy a title and then acquire a house from the penniless thoroughbreds."

"You say that you hear of poverty and wealth but see little of either. Surely you must lead a very sheltered life or go about with your eyes closed. Whenever I travel by train or bus," continues Peter, "I pass through dirty, dull, unhealthful slums and again through roads of rich, stately houses where wealth is wasted on unwanted servants and unhealthy overeating. In the theatre I see the pampered rich; outside the poor shuffle past. Perhaps your cities hide their wealth and poverty. Ours do not. London is a mass of patches of poor and rich."

"The battle of Britain is rather commonplace here. I do not mention it for three reasons: I have few information that would be censored; the onlooker like yourself has a clearer view and sounder knowledge than those under fire; and one begins to accept air raids, fire pickets and patrols, lack of choice in food, shortage of meat, fruit and eggs as part of normal life."

"Conditions can only be compared to the ultimate achievement in the direction of the perfect life. But that we have made such little progress toward the conception of a man living 2000 years ago is a disgrace to all mankind."

**District Is Dissolved.**  
Landowners in Wakefield drainage ditch district voted Tuesday last week to dissolve the district. After expenses are paid, money will be prorated to property owners. Six voted at the special election.

**Very Ill in Lincoln.**  
P. N. Pearson, father of Mrs. Albert G. Carlson, is very ill with pneumonia in a Lincoln hospital. Mrs. Carlson spent Sunday with her father. The J. N. Einungs took her to Wisner and she went by bus, meeting her brother, Melvin Pearson, and family of Omaha, at Fremont.

**Takes Part in Meetings.**  
Rev. C. L. Eads is taking part in special meetings at the United Brethren church near Tilden every evening this week. He will be here for Sunday morning services at the Baptist church and preach again at Tilden in the evening. Rev. J. L. Garland is pastor of the Tilden church.

## Football Game Won by Wayne

Effective Line Plunging Furnishes Spark for Local Players.

Consistent and effective line plunging on the part of Fullback Joe Kessler furnished the spark enabling Coach Frank Sullivan's Wayne High griders to defeat the Hartington high eleven, 32 to 14, under the college lights last Friday evening.

Although scoring only one touchdown, Captain Kessler set the pace for the Blues with his ground-gaining drives through the center of the line in addition to turning in a fine defensive game. Bob Stull, at halfback, again displayed his ability as a broken-field ball carrier with several long runs, scoring four touchdowns.

Tutor Sullivan used a total of 20 men in the game, giving his second string players a chance to gain experience. Two backfield substitutes showed up to good advantage. Fred Ellis as a line plunger and Rod Love as a defensive secondary man. Use of numerous rookies, however, provided the opportunities needed for Hartington to chalk up its two touchdowns.

Starting line-up for Wayne included Strahan, left end; Noakes, left tackle; Greenwald, left guard; Tilton, center; McPherran, right guard; Rex Johnson, right tackle; Harvey, right end; Helgren, quarterback; Harrison, right half; Stull, left half; Kessler, fullback.

Substitutions were Derry and Art Jensen, ends; Larson, Del Jensen, tackles; Bob Meyer, Gordon Johnson, guards; Beale, center; Love, Ehis, backs.

The Blues got to Wakefield this week-end to meet the highly touted Swedes Friday afternoon.

Score by quarters:

## Food for Freedom Move Is Explained

To coordinate effort in the "Food for Freedom" program, a conference was called by the United States Department of Agriculture defense board at West Point, Thursday. Ray Verzal of the FSA, Mrs. Esther Thompson of the surplus marketing administration, Thomas P. Roberts of AAA, Ed. Stipsky of soil conservation service, Henry Hoeding of REA and Chet Walters of the extension service, represented Wayne county.

John F. W. Buss served as chairman and reports were given by Abner Chetsem of AAA, R. E. Spence of the district extension service, Mr. Doll of the soil conservation, Mr. Sutton of the FSA, Mr. Terry for farm credit administration, Mr. Tarr for REA and Mr. Luschinger for federal land bank.

Discussion included the following: Farm production needed in the war emergency; increase of protein foods that can be processed into concentrated forms such as dairy, poultry and pork products and decrease of surplus crops such as wheat; price protection during and after the emergency; plans for 1942 farm production; and making available to all farmers the services of the department in intensifying production.

## Books for Juniors Come to Library

Wayne public library has received an assortment of juvenile books which should make every boy and girl happy. They are all Junior Literary Guild books, beautifully illustrated and printed.

"Make Way for Ducklings," by Robert McCloskey, tells of a mother and father duck who raised a family of ducklings just a few blocks from the Public Garden. "Major and the Kitten," by Helen Hoke, pictures by Diana Thorne, is the story of a St. Bernard dog who never learned to play till a small insignificant kitten came along. "The Village That Learned to Read," written by Elizabeth Kent Tarshis, takes place in Mexico.

"The Story of Clara Barton of the Red Cross," by Jeannette C. Nolan; "Gypsy Goes to College," by Chesley Kahman, deals with a gypsy girl who enters an entirely different world when she enters college; "Peggy," by Hilda van Stockum, a gay little story of an Irish colleen and her merry friends.

"Way Down in Tennessee," by Elvira Garner, tells of gay times two little girls had on a southern plantation; "Pony Jungle," written by Lavina R. Davis; "Winabojo, Master of Life," by James Cloyd Bowman, is an Indian story.

"Power, From Start to Finish," by Franklin M. Reck and Claire Reck, is the story of men who dared to experiment in order to use water, wind, steam, electricity, oil and coal to create a new world for us all; "Aviation, From Shop to Sky," by John J. Flaherty, a story all boys interested in flying will want to read.

## Victory Scored By Wayne Team

Wildcats Display Ability And Power in Game Played at Lincoln.

Coach J. H. Morrison's Wayne State Wildcats displayed a world of power and accurate passing ability to overcome Nebraska Wesleyan at Lincoln Friday evening, 32 to 7. Aided greatly by the presence of their star pass receiver, Bud Best, who had been out because of injuries, the Wayne griders kept the Plainsmen on the defensive throughout the four quarters. Best and hard-hitting Horace Purizer led the scoring for the winners.

Harold Fitch, 225-pound tackle, scored first for the Wildcats in the opening 10 minutes when he recovered a fumble and traveled 48 yards down the sidelines. A long forward from Purizer to Best, behind the Wesleyan secondary, was good for 52 yards and a touchdown. Numerous fumbles marred the play of the Plainsmen and kept them from gaining much ground, with the exception of a brief spell in the third period when two passes and a line plunge netted 59 yards.

Wayne State's griders return to the Hilltop field Friday night when they tangle with the squad from Doane college for the second home game of the season.

## Four Escape Unhurt As Car Hits Grader

Mr. and Mrs. J. G. Miller and Mr. and Mrs. A. V. Teed escaped injury but the Miller car was damaged considerably shortly after 7 Tuesday evening last week when the machine struck a road grader being drawn back of a tractor near West Point. No lights were on the equipment. Mr. Miller kept the car upright. The Wayne folks were brought home in another machine, and the Miller car was returned the next day for repairs.

## Work of Churches Commended in Talk

Praise for the united effort of all churches to make the world a better place for all people and all races was stressed by Mrs. W. F. Dierking in speaking last Thursday to women gathered at the Presbyterian church in Norfolk. Mrs. Dierking cited one instance in which nine churches in one community, including Catholic and Protestant, combined to improve recreational facilities for youth of the city. Mrs. Dierking told that in New York and other states the better paid clergymen are voluntarily helping ministers in less favored areas so that the important work of the church may go forward.

## Crowd Thrilled By Fall Opening

Style Revue Is Highlight Of Special Feature in Wayne Thursday.

In spite of a drizzling rain Thursday evening, a large crowd gathered for the Chamber of Commerce annual fall opening, enjoying the concert by Wayne high school band, window unveiling, style show and dance at the auditorium.

K. D. Hanson directed the band in marching and concerts on Main street. The musicians and twirlers were attractive in their new blue and white suits.

After the window unveiling, a contest was conducted in naming foreign articles in windows. Prizes in this will be awarded next Saturday.

Prof. John R. Keith directed the college band in music for the style revue which included an interesting display of wear for all occasions. Miss Ruth Walters, Miss Jessie Gemmell, Mrs. R. J. Kungley, Mrs. M. L. Ringer, Mrs. R. W. Casper and Mrs. Howard Witt were models for Swan's. Miss Ruth Ross, Miss Theodora Carlson, Mrs. S. A. Lutgen, Mrs. Clarence McGinn, Mrs. Willard Witse and Mrs. Roy Gates were presented by Kagy's. Mrs. Henry Reynolds, Mrs. E. C. Maas, Mrs. C. C. Stirtz, Mrs. Braden Carhart, Mrs. V. A. Senter, Mrs. V. M. Huffman, Sharon-Larson, Barbara Kingsley, Patricia Victor and Mary Alice Helberg were models for Larson's. Miss Beverly Strahan, Miss Marguerite Einung, Mrs. H. E. Ley, Mrs. F. B. Decker, Miss Esther Gerda, Mrs. Geo. Owens, Karen Decker, Judy Reynolds, Tom and Linda Brown represented Brown-McDonald's. Miss Anne Ahern, Miss Josephine Ahern, Miss Dolores Marquardt and Mrs. Ivan Fitch modeled for Ahern's.

Between showings in the style revue Miss Hazel Reeve presented little twirlers and majorettes, the college sextet sang and the band played.

A Wisner orchestra played for the dance which closed the event.

# Real Americanism Is Need of Today

## Prairie Fire Is Menace in Early Days, According To Ponca Journal.

Early Days from the Wayne Herald for October 8, 1925:

"Whether one traces his Americanism back three centuries to the Mayflower or three years to the steerage is not half so important as whether his Americanism of today is real and genuine." This idea was emphasized by President Calvin Coolidge who spoke to thousands at the Legion convention in Omaha and whose message reached countless other thousands by radio.

Frost has been welcomed by farmers who consider freezing elements necessary to put the corn in shape to husk.

# Modern Chickens Wear Spectacles

## Youth Finishes Marathon Just in Time to Reach Church Services.

A Wisconsin man has red glasses for his red Leghorns on his ultra-modern ranch. The cannibal tendency of hens resulted in so much loss that the man adopted the idea of red "specs" so the chickens can't see blood stains. The glasses have light aluminum rims and are held in place by a metal band that passes through the nostrils.

A 19-year-old Kansas City youth finished a 50-mile marathon in a dead run in order to reach church services on time. He was the only one of the five who completed the 50 miles and his record was 10 hours, 17 minutes.

Responding to an alarm telling that the terminal tower was on fire, the squad climbed to the 52nd story to find that gnats by the millions whirling and swirling gave the appearance of smoke.

Connecticut motor bureau rewards capable motorists with licenses bearing initials of the driver. Orson Kilborn qualified for initials but found someone already had OK. Not stamped by the fact, he had his wife's initials added, making OKOK. Her name was Orla Kilborn.

If the bus idea works for schools, it should work for churches, an Oklahoma minister thought. So the church bought an old school bus and gathers up children from a 16-mile route each Sunday.

A stunt horse mistook a refreshment stand for a decorated jump and cleared the stand and four spectators in his leap.

A city spot light resulted in plenty of trouble for one gardener. He stopped at the light with a truck loaded with melons. Boys jumped to the truck and took the produce. While chasing the boys, the truck disappeared.

When the judge found that a driver for a transfer company was only arrested once previously in 22 years, he dismissed a speeding charge. The first time was 17 years ago when the man was driving a hard-rubber wheeled truck 16 miles an hour. The speed limit was then 15 miles.

The new way is to take your burning home to the fire station. When a trailer house caught fire the owners drove to the station.

## China, Denmark, Mexico, Poland, Norway, Paris, Peru, Napan and Sweden are all towns in the state of Maine.

Police haven't been able to locate the owner of a piano which appeared on a San Diego porch one night.

From a seat in a Chicago elevated train Mrs. Kent saw her husband collapse in the street. Unable to help him because the train had started, she rode to the next station and telephoned police. They told her that her husband had died of a heart attack.

Maybe they haven't heard the tale of "Wolf, wolf" in Argentina. When a sign, "Mutiny expected, be alert," was placed in a city, officers said they knew of no plot but felt that signs like these "put the people on their toes."

It paid an Oregon woman to be "tomatoed" during the political campaign. Seeds from tomatoes thrown at signs on her porch have sprouted and produced a bountiful tomato crop.

When a Missouri candidate for sheriff asked a lady to support him, her reply was "I've supported a man for 25 years and I don't care to support another."

Oscar, the 14-foot octopus, is no more. Onlookers at the zoo began tossing coins into Oscar's breathing hole in his head. That was too much. Oscar was found dead, his breathing apparatus jammed with tokens.

A Kansas farmer discovered that blister beetles prefer milkweed to potatoes. So he gathered the beetles from his potato vines and took them to his sargo field to destroy the milkweed.

*For 1942—a Beautiful New*

# FORD

**"6" OR "8"**

IN THESE UNUSUAL TIMES we invite you to inspect an unusual new car—new in its beauty, its comfort, its choice of two fine 90 horsepower engines, 6 cylinders or 8.

See it and you sense at once that here is new style that will stay good for years. On a lower, wider chassis, we have designed new long, low, wide and modern lines.

Interior treatment is entirely fresh, distinctive, pleasing. The beauty of this Ford will more than hold its own in any company.

Inside, the car is big—wide across the seats, generous in knee-room, leg-room, elbow-room. On the road this year you find the "new Ford ride" still further advanced in its softness, quietness, steadiness and all-round comfort.

At the wheel, you will find driving easier than ever. Steering, gear-shifting, action of the big and sure hydraulic brakes have all been made smoother and easier.

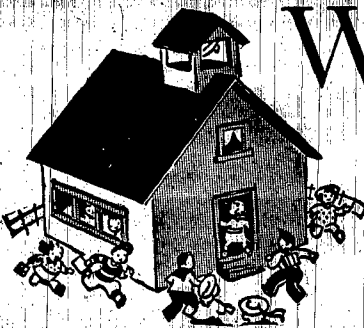

In quality, the car is sound to the last detail. Defense requirements have all been met without a single reduction in the basic and lasting goodness of the Ford mechanically. Some new materials have replaced old ones, usually at a greater cost to us, but in every case the new is equal to or better than the old.

If your family needs a new car, go see and drive this Ford. For what it is today and for what it will be through the years ahead, we believe that you will find in it more and better transportation for your money than you have ever found before.

## Department Tests

### Water for Schools

The state health department will test drinking water for any school providing application is made through the county superintendent. Already several requests have come in. To get this service the district applies to Supt. F. B. Decker who will write to the health department for bottles in which the school will place samples of water. These then returned by Supt. Decker to the health department for testing and reports will follow.

## Display Carvings

### From Soap Contest

Soap carvings, the work of amateurs, are on display this week at Brown-McDonald's in cooperation with Supt. F. B. Decker. The object is to show the skill and ingenuity that may be reflected in such an art and to encourage school pupils to enter this field. The 100 carvings are selected from the 17th nationwide soap sculpture event. A new contest is in progress, the closing date being May 15, 1942. Details and entry blanks for this may be secured from Supt. Decker in Wayne or from Modern Woodmen of America district office at Emerson without cost.

## Teachers to Attend Institute Friday

Wayne county teachers will attend annual institute at the court house Friday, October 10, when Supt. F. B. Decker will present Prof. F. G. Dale, Milton Beckman, Ed. Stipsky and Miss Virginia Troutman. All rural teachers are required to attend, and visitors are welcome without cost.

Registration will be conducted from 8 to 9. Morning sessions open at 9, 10 and 11 with Prof. Dale, Mr. Beckman and Mr. Stipsky having an hour each.

The afternoon program opens at 1:30. Prof. Dale and Mr. Beckman have periods, and Miss Troutman speaks at 3 on her experiences in Porto Rico.

# OLDSMOBILE

## NOW ON DISPLAY!

### BETTER LOOKING BETTER LASTING BETTER BUILT THAN ANY OLDSMOBILE IN 44 YEARS!

**TO SERVE THE VITAL NEEDS OF TODAY'S AMERICA!**

In addition to cannon and shell for the needs of defense, Oldsmobile contributes a new kind of car to the new needs of America.

The General Motors car that gave the world the famous Hydra-Matic Drive now takes another great step forward! For '42, Oldsmobile contributes the B-44—a brand new, heavier, huskier motor car—with Hydra-Matic available for every buyer! The B-44 is stamina-styled for better looks, with new Double-Duty Bumpers and new Fuselage Fenders. It's stamina-built for better durability, with heavier, new Dread-

naught Frame and enlarged Hydraulic Brakes. And it's stamina-powered for long, trouble-free life, with new Econo-Master Engines that develop more "fire-power" with minimum use of gas. Come in and see the new Olds B-44, compare it, drive it. You'll find it offered in five separate series—two 100 H. P. Sixes and three 110 H. P. Eights. You'll find it priced lower than you might expect—but far beyond your expectations in styling and all-round quality.

**DEFENSE COMES FIRST**

Oldsmobile is now turning out high-caliber artillery shell—now going into mass production of automatic airplane cannon.

**HYDRA-MATIC DRIVE**

NOW ENTERING ITS THIRD GREAT YEAR!

Proved in the hands of over 130,000 owners Hydra-Matic Drive is again offered on all Olds models. Hydra-Matic saves time, saves effort, saves 10 to 15 per cent on gas!

OPTIONAL AT EXTRA COST
